Congressional Record

PROCEEDINGS AND DEBATES OF THE 110th CONGRESS, FIRST SESSION

SENATE—*Monday, December 17, 2007*

The Senate met at 10 a.m. and was called to order by the Honorable JACK REED, a Senator from the State of Rhode Island.

PRAYER

The Chaplain, Dr. Barry C. Black, offered the following prayer:

Let us pray.

God of our fathers and mothers, we thank You for Your kindness and mercy. When we call You in our pain, You answer our prayers and remove our worries. You enable us to defeat our enemies and surround us with Your protection.

Today, let Your presence be felt in the Senate. Encourage our Senators to be models of the unity our country longs for. Remind them that ultimately they will be judged by their productivity, for Your Word states, "By their fruits, You will know them." Help them to see that they need each other and that more will be accomplished by working together than by laboring at cross-purposes.

We pray in the name of Him whose life was the epitome of peace, poise, and power. Amen.

PLEDGE OF ALLEGIANCE

The Honorable JACK REED led the Pledge of Allegiance, as follows:

> I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore (Mr. BYRD).

The legislative clerk read the following letter:

> U.S. SENATE,
> PRESIDENT PRO TEMPORE,
> *Washington, DC, December 17, 2007.*
>
> *To the Senate:*
>
> Under the provisions of rule I, paragraph 3, of the Standing Rules of the Senate, I hereby appoint the Honorable JACK REED, a Senator from the State of Rhode Island, to perform the duties of the Chair.
>
> ROBERT C. BYRD,
> *President pro tempore.*

Mr. REED thereupon assumed the chair as Acting President pro tempore.

RECOGNITION OF THE MAJORITY LEADER

The ACTING PRESIDENT pro tempore. The majority leader is recognized.

Mr. REID. I suggest the absence of quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. REID. I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

SCHEDULE

Mr. REID. Mr. President, the Senate will immediately resume the motion to proceed to S. 2248, the FISA legislation. This debate will extend until 12 noon. At noon, the Senate will vote—or thereabouts; there may be a couple minutes' slippage—on the motion to invoke cloture on the motion to proceed to the legislation. If cloture is invoked on the motion, the motion can then be adopted and the Senate can proceed to the bill and begin the amending process.

ORDER OF PROCEDURE

I have 10 minutes under my control. I have given 35 minutes to Senator DODD and 15 minutes to Senator FEINGOLD. It is my understanding that the distinguished Senator from Missouri will allow 10 minutes from the Republican leader's time to go to Senator ROCKEFELLER. I will give Senator ROCKEFELLER 10 minutes. That means he will have 20 minutes. That uses all our time.

I ask unanimous consent that be the case.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

RESERVATION OF LEADER TIME

The ACTING PRESIDENT pro tempore. Under the previous order, the leadership time is reserved.

FOREIGN INTELLIGENCE SURVEILLANCE ACT—MOTION TO PROCEED

The ACTING PRESIDENT pro tempore. Under the previous order, the Senate will resume consideration of the motion to proceed to S. 2248, which the clerk will report.

The legislative clerk read as follows:

> A motion to proceed to the bill (S. 2248) to amend the Foreign Intelligence Surveillance Act of 1978, to modernize and streamline provisions of that Act, and for other purposes.

The ACTING PRESIDENT pro tempore. The Republican leader is recognized.

Mr. MCCONNELL. Mr. President, I will proceed on leader time so as not to encroach on the complicated agreement we reached on dividing time.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. MCCONNELL. Mr. President, heading into our last work week, Republicans remain focused on the two principles that have guided us all year: protecting and defending the country from harm and protecting taxpayers' wallets. In these last few days, we will face some of the most crucial tests of the year on both fronts.

On security, Senate Republicans will amend the House version of the Appropriations bill to include funding for the troops in Iraq. Our men and women in uniform deserve our support wherever they are serving.

These funds are dangerously overdue. Delaying them further could put the Pentagon in serious straits and potentially jeopardize the universally acknowledged gains of the Petraeus plan.

We will also need to act wisely on reforming the FISA law that lets our intelligence agents track terrorists overseas. The success of this law over the last several years should be obvious to everyone.

The Intelligence Committee has produced a bill that would retain its core

● This "bullet" symbol identifies statements or insertions which are not spoken by a member of the Senate on the floor.

strengths; that has broad bipartisan support; and that, with slight modification, the President would sign into law. We need to act on this version of the revision without any political games.

On protecting taxpayers, we have two major pieces of legislation to finish: AMT, and a fiscally responsible omnibus bill.

A quarter of the way into the fiscal year, we have passed 1 of 12 Appropriations bills from last year.

We need to evaluate this omnibus and make sure it is written in a form the President will sign. That means funding for our forces in Afghanistan and Iraq, no excess spending, and no poison pills in the form of politically motivated policy riders.

Crucially, we also need to assure middle-class Americans we are not going to raise their taxes or further delay their tax refunds. The House needs to patch the AMT tax that now threatens 23 million taxpayers it was never meant to affect, and they need to do so without raising other taxes on these households.

We saw last week we could get legislation out the door when we work together. After Republican insistence, we passed an energy bill without raising taxes or utility rates. We will need to repeat that effort this week on several issues that lie at the very heart of our responsibilities to the American people.

We need to ensure the safety of our citizens. We need to keep them from being hit by new and unnecessary taxes.

We will need to do all this and act on several important executive nominations. New week. Much to do. America's watching. Let's get to work.

The ACTING PRESIDENT pro tempore. Under the previous order, the time until 12 noon is equally divided and controlled between the two leaders or their designees, with the Senator from Connecticut, Mr. DODD, controlling 35 minutes and the Senator from Wisconsin, Mr. FEINGOLD, controlling 15 minutes of the opponents' time.

Who seeks recognition?

The Senator from West Virginia.

Mr. ROCKEFELLER. Mr. President, I am not a part of the order as read by the Chair.

The ACTING PRESIDENT pro tempore. Under the previous order, the Senator has been allocated 20 minutes.

Mr. ROCKEFELLER. I thank the Chair.

Today, the Senate begins debate on S. 2248, the FISA Amendments Act of 2007. I am confident in saying without any risk of exaggeration that FISA modernization is one of the most important matters that will be considered by this Congress. It calls on us to get two essential matters entirely right—protection of our national security and the preservation of the privacy of our citizens.

I am proud of the substance of the bill the Intelligence Committee reported to the Senate in late October on a strong bipartisan vote of 13 to 2. I am equally proud of the process by which we achieved that result. The distinguished vice chairman of the committee, Senator CHRISTOPHER BOND, and I provided simple guidance for all who worked on this bill: First, work together, reach out; second, reach out particularly to the intelligence community and the Department of Justice for their expertise; third, keep in mind at all times the fundamental principles of protecting both the security and the privacy of all Americans; and finally, remain united in our effort to produce a bill that will meet the test of Congress and that will be signed into law by the President.

I am also grateful to all members of our committee for their contribution. As the Senate can see from our report, we debated and voted on highly important issues. We then sought as a committee to lay out for the entire Senate and the American public a description of our bill, the reasons for it, and, in additional views, further improvements that Members might seek. Our report is on each Member's desk. It is also on our committee's Web site and the Web site of the Library of Congress. I urge every Member of the Senate to read it, including a careful section-by-section explanation of the bill.

Of course, some sensitive intelligence matters cannot be described in a public report. That makes this something of an awkward procedure. If any Member has a question about a classified matter, please let the vice chairman or myself know, and we will do our best to answer your questions in a classified setting.

I am also pleased that we will be sharing the management of this debate with Senator LEAHY and Senator SPECTER, the distinguished chairman and ranking member of the Judiciary Committee. From the very beginning of the Foreign Intelligence Surveillance Act of 1976, it has been a joint responsibility of the Intelligence Committee and the Judiciary Committee. It is, after all, a statute that concerns both intelligence collection and judicial proceedings. The Judiciary Committee considered the Intelligence Committee bill on sequential referral and has reported a proposed amendment to our bill.

In accordance with Senate rules, the Senate has before it only one bill; that is, the Intelligence Committee bill, S. 2248. The legislative recommendations proposed by the Judiciary Committee will be the first pending amendment. Some of the suggestions the Judiciary Committee made improve the quality of our product.

I commend Majority Leader REID for his decision to bring the FISA bill before the Senate under the regular order. While some advocated bringing before the Senate a hybrid bill which combined parts of both committees' work into one bill, the majority leader recognized that following regular order would not only allow for orderly consideration of important amendments but ultimately produce an even stronger bipartisan bill.

The products of the Intelligence and Judiciary Committees have a lot in common. Both fix a number of deficiencies in the flawed Protect America Act, hastily passed in August, as we all remember. Both strengthen our national security while protecting American civil liberties and privacy rights through enhanced and mandatory court review and approval of surveillance activities. Both would greatly improve oversight and accountability and ensure that the unchecked wiretapping policies of the Bush administration are a thing of the past.

Finally, each committee's work includes a sunset provision. Each strengthens the exclusivity of FISA—all concepts to be explained. Each establishes court approval of surveillance of Americans overseas—perhaps the most important of all the amendments. But there are differences in how each committee went about effecting these important protections.

Over the past month, we have worked very closely—our staffs—together to determine how best to reconcile the work of the two committees. It has been a bipartisan, straightforward process. I believe we have been able to work out a number of important amendments that take elements of the Judiciary Committee's work and add them to the underlying Intelligence Committee bill. There are some elements of the Judiciary Committee substitute amendment, however, that I do not support, but in all instances, I deeply appreciate the work of Senator LEAHY and our colleagues on the Judiciary Committee.

I commend in particular the extraordinary contribution during this process of four Senators serving on both committees: Senator FEINSTEIN, Senator HATCH, Senator FEINGOLD, and Senator WHITEHOUSE. They have worked tirelessly in their dual committee assignments to make this legislation as sound and balanced as possible.

Before I go into any details of the legislation and the expected debate over the next few days, I want to briefly remind my colleagues of the history of the debate and why FISA modernizing is so important.

The need to modernize FISA is explained by looking at the convergence of three elements in recent years. One is the rapid change of the world's communications systems, with new challenges and opportunities for signals intelligence arising from the fact that much of the foreign intelligence information now passes through or is stored in American electronic space. The second change is the significant increase in the number of intelligence targets outside of the United States, particularly as a result of international terrorism but also from weapons of mass destruction proliferation and other foreign threats. The final key judgment is that the 30-year-old FISA law has required a large number of individual applications to the FISA Court for the surveillance of foreign persons outside the United States, which was never intended—which was never intended—under the original legislation and does not involve the privacy of Americans.

So the question before our committee was not whether to modernize FISA but how to modernize FISA. We began this effort in March of this year, when the vice chairman, Senator BOND, and I notified the Attorney General of our intention to address FISA modernization. We also advised the Attorney General we would focus on whether legislation should be enacted to address the legal consequences of the President's warrantless surveillance program; namely, the many lawsuits resulting from the President's decision to act outside of the statutory requirements of FISA. In response, the Director of National Intelligence submitted a legislative proposal in April, which the Intelligence Committee began to consider at a public hearing in May.

These efforts to address FISA, however, were stalled for several months because of disagreements with the administration over access to key documents relating to the President's warrantless surveillance program. Yet, given the pressing need to fix FISA and allow for timely collection, we made a concerted effort over the summer to produce a bill that both the Congress and the administration could support. Unfortunately, it did not work. The result of that effort ended in the hastily passed and significantly flawed Protect America Act, which allowed for timely collection, yes, but did not include significant FISA Court safeguards.

In order to fix the Protect America Act and protect the privacy of Americans while strengthening the timely collection of intelligence, our Intelligence Committee spent several months this fall working on a new bill—the bill before us today—which accomplishes four principal reforms.

First, the special procedures provided by this bill apply only to persons outside the United States. If somebody is in the United States—an American is in the United States—all the traditional provisions and protections of FISA continue to apply. Everyone agrees this should be the case. The distinction of whether the target of surveillance is foreign or domestic makes it imperative that there is an adequate basis for determining whether somebody is reasonably believed to be outside the United States.

An important safeguard for Americans in the bill is the requirement for court-approved targeting procedures that are reasonably designed to accurately make the determination whether somebody is outside of the United States. The Protect America Act had included that requirement, and our bill does the same. But the Protect America Act had limited the authority of the FISA Court to review the reasonableness of those procedures by imposing a "clearly erroneous standard" on that review. Our bill strikes that limitation.

Second, our bill recognizes that minimization procedures have been an essential part of FISA from the beginning and will continue to play an essential role. These will be explained. These are procedures to ensure, among other things, that if Americans are overheard in conversations of a foreign target or there is discussion about Americans, that the identity of those Americans only be revealed within the U.S. Government if there is a good foreign intelligence purpose for so doing.

The Protect America Act had provided that the Attorney General approve minimization procedures, but it did not provide for court review of them. Our bill corrects that deficiency. The FISA Court will now have the responsibility to ensure that the procedures comply with the law.

Thirdly, our bill provides protections for U.S. citizens who are outside the United States. Under the Protect America Act, if a U.S. citizen sets foot outside the United States, he or she would be treated the same as any foreigner outside the United States.

The Intelligence Committee rejects the proposition that Americans lose rights—any kind of rights—because they travel or work elsewhere in the world. An essential part of the rights of an American is the determination by a judge whether there is probable cause to believe an American outside the United States is a lawful subject of surveillance by our own Government.

This is a concept which both committees—Democrats and Republicans alike—agreed to. Director of National Intelligence Mitch McConnell endorsed this change in law as well in testimony before the Intelligence Committee. There are, however, some differences in how to accomplish this. After considerable negotiation, I believe we have reached an agreement on a bipartisan amendment which would reconcile the approaches of the two committees and resolve the concerns of the administration over unintended consequences of the language reported out by both committees.

It is my hope, given the centrality of this reform to the work of both committees, that this bipartisan amendment is the first one before the Senate once cloture is invoked, if it is invoked and we are, therefore, then on the bill.

The fourth principal accomplishment of the Intelligence Committee bill is that it considerably enhances oversight of these protections by each branch of Government. This is achieved through a series of annual reports to Congress on the authorized collection, including instances of noncompliance; inspector general reviews by the Justice Department and the intelligence community; and FISA Court review and approval of acquisition and minimization procedures.

As we begin debate on these and other important issues, one of the concepts the Senate will hear a lot about is exclusivity. Exclusivity addresses the question of whether FISA and the laws that explicitly govern the domestic interception of communications for law enforcement purposes are the exclusive means by which the President may authorize the surveillance of Americans.

The President claims that he has the authority as Commander in Chief to approve surveillance even when he has no statutory authority to do so. No act of Congress by itself can finally resolve that debate between Presidential and congressional authority, but what Congress can make clear is which statutes authorize electronic surveillance.

The significance of this, in connection with our recent national experience, is that the Department of Justice has claimed that the authorization to use military force, passed in response to 9/11, somehow authorized the President to disregard FISA. Not only is this proposition dubious at best, in my opinion, it is also dangerous. In fact, the next time Congress is asked to act quickly in response to an attack, should there be one, it may pause and take time to consider whether its authorization to use force will have completely unintended consequences, such as authorizing the President unlimited power to violate acts of Congress.

To make sure authorizations for the use of military force do not again become an excuse to wipe away acts of Congress, both the Intelligence and Judiciary Committees sought to make even clearer than before which statutes constitute the exclusive means for conducting electronic surveillance.

I believe we have been able to work out language on an amendment that will reconcile the differences in these two bills.

The Intelligence Committee also establishes a 6-year sunset for the new authority it provides. A sunset is essential because we owe it to the American people to make sure we have gotten both parts of this system right—effective intelligence collection and the protection of the privacy of Americans—before settling on what should be permanent law. The Judiciary Committee amendment proposes a 4-year sunset. The House FISA bill provides for a 2-year sunset. The administration opposes any sunset. I will join with Chairman LEAHY in support of an amendment to incorporate the Judiciary Committee 4-year sunset into the underlying bill. Four years will ensure that a decision on permanency is made during the next Presidential term, not the one succeeding it.

Finally, title II of the committee's bipartisan bill addresses the question of protection for telecommunications companies that assisted the Government during the course of the President's warrantless surveillance program.

The Intelligence Committee carefully reviewed this matter of retroactive liability protection for companies prior to reporting out its bill. We received and reviewed the letters sent by the administration to the companies. These letters stated that the assistance of the companies was "required," that the request was based on order of the President, and that the Attorney General had certified the form and legality of the order.

In the course of our investigation, the committee heard from the companies themselves as well as administration officials and many others and determined that the companies were not provided with any of the Justice Department legal opinions underlying the Attorney General's certifications they received ordering them to do something which has come to put them at risk.

In the end, a bipartisan consensus of the Intelligence Committee supported a narrowly drawn retroactive immunity provision. I want to stress the phrase "narrowly drawn" because what the committee approved was not—I repeat: was not—the broad and open-ended immunity sought by the administration.

The committee immunity provision applies only to companies that may have participated in the warrantless surveillance program from a specific period of time—from 9/11—until it was placed under FISA Court authorization in January 2007. Nothing in the bill provides immunity for Government officials for their actions—that is in the current law; it is not in the law that we have proposed—nor to companies outside the specified timeframe.

The 12 members of our committee who supported the provision did so for different reasons. Some Senators believed that the President acted within his constitutional responsibility and authority in establishing the surveillance program. Some other Senators, including me, believe the President trampled on our Constitution and our laws in unilaterally creating a warrantless surveillance program in 2001 and continuing it for years without seeking statutory authority to support it. But no matter what may be the views about the President's adherence to the law, our collective judgment on the Intelligence Committee is that the burden of the debate about the President's authority should not fall on telecommunications companies because they responded to the representations by Government officials at the highest levels that the program had been authorized by the President and determined to be lawful and received requests, compulsions to carry it out.

Companies participated at great risk of exposure and financial ruin for one reason, and one reason only: in order to help identify terrorists and prevent follow-on terrorist attacks. They should not be penalized for their willingness to heed the call during a time of national emergency.

I conclude by urging my colleagues to support cloture on the motion to proceed so that we can turn our attention to reconciling the fine work of the Intelligence and Judiciary committees and ultimately pass a FISA reform bill before adjournment.

Every one of us in the Senate and in Congress has a responsibility to correct the flaws in the Protect America Act and put our Nation on firmer footing in authorizing critical intelligence surveillance activities that are effective, while safeguarding the constitutional rights of Americans.

I thank the Acting President pro tempore, and I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Missouri is recognized.

Mr. BOND. Mr. President, we yielded some time to the distinguished chairman from my side. How much time is remaining on this side?

The ACTING PRESIDENT pro tempore. There is 46 minutes remaining.

Mr. BOND. Forty-six. I thank the Chair.

Mr. President, first let me begin by thanking our majority leader, Senator REID, and our minority leader, Senator MCCONNELL, for bringing this very important bill to the Senate floor. It is critical that we discuss it, debate it, vote on it, and pass it. I express my great thanks to the chairman of the committee, Senator ROCKEFELLER, for his thoughtful discussion of the bill and his urgent request, in which I join, that all Members of this body move forward, adopt cloture, and adopt this bill. I wish to thank the chairman and all of the members of the committee and the staff of the Intelligence Committee who have labored long and hard over many months, beginning well before the April request for legislation, to understand the program. I believe almost all of us have gone out to the NSA to see how the program works and to see what the protections are that are built in.

We have asked questions many times over. I think I have heard the same questions asked many times, and each time they are explained, I learn a little bit more. I think we have a good understanding—not a perfect understanding—of the process, but we do fully appreciate how important it is.

The bill before us today reflects a tremendous amount of work and compromise. The distinguished chairman and I and others have had disagreements. We view things a little bit differently. But I think it is significant for this body to realize we came together, the majority and the minority, in a 13-to-2 vote to present to this body a good compromise. Nobody is 100 percent happy with it. I don't expect them to be. But this is about as good as we can do in earthly matters, and particularly in congressional matters, if we can come that close, I think it is a good product.

Obviously, I have some disagreements with the chairman on the Protect America Act of which I was a principal sponsor. Because that bill was passed—had to be passed hurriedly before the August recess—what we were able to do in that bill was to restore the FISA process with a Foreign Intelligence Surveillance Court acting as it had originally been intended to act: to approve collections on U.S. persons in the United States. We changed the law so that technological changes would no longer bring within the FISA Court jurisdiction—or the FISA Court workload, more appropriately—collections on foreign targets where very often they were communicating with foreign recipients of messages. That was never the purpose and, as I indicated on the Senate floor, the FISA Court objected to the intelligence community having to be burdened by approving collections against targets where there was only minimal impact on any U.S. citizen.

The Protect America Act did fill in a critical national security intelligence gap. We all heard about it for a number of months. The intelligence community was shut out of the ability to go up on foreign targets which might have had vital information. Now, we have had time to consider all of the aspects of this collection program, and we have come up with a plan that will modernize the bill not only to make sure it keeps up with modern technology, but that it adds additional protections under the Foreign Intelligence Surveillance Act.

This morning, in a few minutes, we will hear from some of our colleagues about why they are not happy with the bill coming before us. I would venture that some individuals made the same speeches back in 1978 before the passage of that bill as well. But let me state the measure very plainly. The question is, Can the intelligence community of the United States obtain signals intelligence on foreign persons believed to be terrorists and reasonably believed to be outside of the United States, and do so in a manner that will protect us.

We know the electronic surveillance that was done under the President's program and under the current FISA Court jurisdiction has provided valuable intelligence which has helped to thwart attacks on the United States and, more importantly, as we heard from GEN Stan McCrystal, the commander of the Joint Special Operations Command, when the outmoded FISA law application shut down our ability to collect foreign intelligence, the people most greatly at risk were our men and women in the service overseas who did not have the benefit of collection of intelligence that might have foretold attacks on them. So our men and women volunteers defending America, protecting security in the world, were without the protection our technology enables us to collect at the same time they were fighting overseas, and this kind of information could have been a big help.

Well, the legislation we are looking at today contains far greater protections for U.S. persons than this body ever conceived of or was ever willing to grant Americans when it passed FISA 30 years ago. We have gone further than ever before in this bill in protecting Americans' privacy rights, and I am proud to be part of the process that is shoring up our national security while protecting to the greatest extent possible the liberties of all Americans.

The chairman is correct; we made many changes. We added many protections—important protections—that the Director of National Intelligence agreed were necessary additions to provide protections for Americans, U.S. persons that were not previously in the law. But I believe we can say today that Americans can feel safe and secure; that not only is their privacy being protected but their lives are being protected from terrorist attacks if we pass this bill which will modernize and extend FISA.

We have an urgent need to proceed to the Senate's consideration of the FISA amendments of 2007. Just last week, the Senate heard from our Director of National Intelligence, ADM Mike McConnell, and Attorney General Mike Mukasey in a closed briefing about the vital importance of this legislation to our intelligence collection efforts. This legislation will give the intelligence community the tools it needs today and in the future to protect our country.

The Protect America Act, passed in August by Congress, allowed the intelligence community temporarily to close critical intelligence gaps that were impeding the intelligence community's ability to protect our troops and to detect terrorist plots against our homeland. That temporary legislation expires in less than 2 months, and we must not let those dangerous gaps reopen. Two months may seem like a lot of time, but when it comes to this bill or when it comes to floor action in the Congress in both Houses and then a conference, it is a very short time period. Anybody who has watched this distinguished deliberative body and its counterpart on the other side work knows that 2 months sometimes can go in the flash of an eye.

The Senate will go out of session this week until mid-January, leaving only about 2 weeks for us to work out our differences with the House to get a bicameral bill sent to the President—one that he can sign into law before the current Protect America Act expires on February 5. I regret the majority did not let this important bill get to the floor sooner, particularly when we had the DNI on the Hill last March urging Congress to modernize FISA, giving us his template of legislation for FISA modernization in early April. But we are here in the last week before Christmas, and I hope we will not waste any time in passing the bill on the way to becoming law.

I sincerely hope we are not going to leave ourselves in the same uncomfortable position we found ourselves in this past August when the Senate's consideration of the Protect America Act had to be passed very quickly. Because the Senate waited from April until August to act, we found ourselves in a chaotic rush to pass a bill, and there were genuine fears in the intelligence community that a terrorist attack against the homeland might be in the works. If we had acted in a more timely manner, we would not have had some of the hard feelings we do today that resulted from that rushed process in August. That process produced a bill that continued FISA as it was originally intended but did not include the additional protections we have added today.

The good news, however, is that all of that is ancient history now because the product we have coming before us today is a thoroughly bipartisan Intelligence Committee bill that was put together in close coordination with the subject matter experts in the offices of both the Director of National Intelligence and the Department of Justice. I can assure my colleagues that all of the good ideas we have had—I have had and other members of the committee have had—when we have taken them to these experts, we have found out you have to do it this way if you want to accomplish the results you want. Some of the things we attempted to do had impossible burdens that we did not understand until we laid them out for these experts. They have told us how to accomplish our purposes and do so in a manner that would be effective in protecting the interests, and yet not destroy the ability of the intelligence community to collect the information we need.

So I implore my colleagues in the Senate to move as quickly as possible on this bill since its construction has been quite deliberate so that we do not repeat the history of the hasty manner in which we had to pass the Protect America Act. But that also means we must pass a good bill that will not get vetoed. We don't have time for that. It is always fun to posture and make political statements, but what is more important, we don't have to do that. The bill coming before the Senate out of the Intelligence Committee offers the legislation that gives the intelligence community the flexibility it needs to protect our troops and those of us in America, while protecting the privacy and civil liberties of Americans. With two small fixes that Chairman ROCKEFELLER and I intend to add to the bill in a manager's amendment, I have been assured that the President will sign that bill.

Now, let me comment a minute on exclusivity. We are working on an agreement on exclusivity that states to the greatest extent possible this will be the exclusive legislative means for the President to collect foreign intelligence. As one who used to be a student of the Constitution and still remembers a little bit of it, I have been impressed to read over the years how article 2 of the Constitution has been interpreted. Article 2 of the Constitution has been interpreted to say that the President—the President alone—has the power to collect foreign intelligence.

That power was used by Presidents going back in history. President Carter and President Clinton have used that bill to collect information. The FISA Court of Review has said, in the in re: Sealed Case, that the President's power to collect foreign intelligence remains. The President has put this bill under the FISA Court. So he has accepted the jurisdiction of the court in assessing the appropriateness of the collection means that have been requested.

We cannot erase by legislation a constitutional power. That constitutional power that the President has was fully laid out in the opinions and advice given by the Department of Justice and the intelligence community to any carriers that may have participated in the collection of information during the pendency of the President's terror surveillance program.

One other item I will comment on is the sunset. The provision we have in the bill—the 6-year sunset—is a compromise we reached. I don't believe a bill such as this should have a sunset. FISA did not have a sunset. It stayed in effect from 1978 until 2006. We should have reviewed it before. That is what we are in business for.

The Intelligence Committee of the Senate continues to hold hearings and have oversight of the intelligence community, and I would expect that if we see problems in the bill, we will move to correct them when we see them, not wait to a sunset. General Mukasey strongly opposed having any sunset on the bill, and I oppose lessening the sunset from 6 years. In fact, I prefer to see that sunset provision out of the bill.

To summarize, S. 2248, the bill passed out of the Intelligence Committee by a solid bipartisan vote of 13 to 2, on which I hope the Senate invokes cloture in a few minutes, will be the proper means of assuring the intelligence community can go forward with the vitally important collection of signals intelligence, while at the same time protecting the civil rights and privacy of all Americans and U.S. persons.

The bill is an extremely delicate arrangement of compromises that will fall apart if significant changes are made to it. By "fall apart," what I really mean is it won't become law. We need a bill that Democrats and Republicans can support, that the DNI says will work for the intelligence community, and that the President will sign into law. That means the first principle we need to follow today is that the age-old advice that doctors and others use: "do no harm," and not deconstruct what the Intelligence Committee has carefully crafted.

We don't have time for poison pill amendments or any other sort of political posturing. The Senate Intelligence Committee bill is a good one and needs to become law without further delay so our intelligence collectors and troops in harm's way will have the tools they need before the Protect America Act expires in February.

Mr. President, I urge my colleagues to vote with Chairman ROCKEFELLER and me to proceed to this bill.

I yield the floor and I reserve the remainder of my time.

What is the time remaining?

The PRESIDING OFFICER (Mr. CARDIN). There are 28 minutes.

The Senator from Connecticut is recognized.

Mr. DODD. Mr. President, first, let me say to my two good friends, Senators ROCKEFELLER and BOND, I appreciate the job they do serving as chairman and ranking member of the Senate Intelligence Committee. I commend them for their efforts in this matter.

Having said that, I reluctantly rise to urge my colleagues to vote against cloture on S. 2248, the FISA Amendment Act, and I will explain why.

Opposing cloture is essential, because there is no unanimous consent agreement in place providing for the immediate adoption of the Judiciary Committee substitute amendment.

As you know, the Judiciary substitute amendment, among other things, strikes title II of the Intelligence Committee bill—the title which seeks to provide retroactive immunity to telecommunications companies who are alleged to have violated their customers' privacy rights by turning over information to the government without warrants.

I am fully aware that the majority leader has various parliamentary options at his disposal to move this legislation forward. It is his right to attempt to invoke cloture.

But I regret that decision, and I hope that my colleagues will join me in stopping this legislation.

Mr. President, why do I feel so strongly about this matter?

For the last 6 years, our largest telecommunications companies have been spying on their own American customers.

Secretly and without a warrant, they delivered to the Federal Government the private, domestic communications records of millions of Americans—records this administration has compiled into a database of enormous scale and scope.

That decision betrayed millions of customers' trust. It was unwarranted—literally.

But was it illegal?

That, Mr. President, I don't know. And if this bill passes in its current form, we will never know. The President's favored corporations will be immune.

Their arguments will never be heard in a court of law. The details of their actions will stay hidden. The truth behind this unprecedented domestic spying will never see light. And the book on our Government's actions will be closed, and sealed, and locked, and handed over to the safekeeping of those few whom George Bush trusts to keep a secret.

The bill that the majority leader will seek to make the pending business of the Senate later today—the FISA Amendments Act of 2007—has a long and twisted history behind it. Its origins lie in President Bush's years of warrantless spying on Americans.

That abuse of power was exposed by the press in late 2005. The New York Times revealed that:

> Under a presidential order signed in 2002, the [National Security Agency] has monitored the international telephone calls and international e-mail messages of hundreds, perhaps thousands, of people inside the United States without warrants over the past three years.

In fact, we later learned that the President's warrantless spying was authorized as early as 2001.

Disgraced former Attorney General Alberto Gonzales, in a 2006 white paper, attempted to justify that spying; his argument rested on the specious claim that, in authorizing the President to go to war in Afghanistan, Congress had also somehow authorized him to listen in on phone calls in America.

But many of those who voted on the original authorization of force found this claim to new executive powers to be a laughable invention. Here's what former Majority Leader Tom Daschle wrote:

> As Senate majority leader . . . I helped negotiate that law with the White House counsel's office over two harried days. I can state categorically that the subject of warrantless wiretaps of American citizens never came up . . . I am also confident that the 98 senators who voted in favor of authorization of force against al-Qaida did not believe that they were also voting for warrantless domestic surveillance.

Such claims to expanded executive power based on the authorization for military force have since been struck down by the courts.

In recent months, the administration has changed its argument, now grounding its warrantless surveillance power in the extremely nebulous "authority of the President to defend the country" that they find in the Constitution.

Of course, that begs the question: Exactly what doesn't fit under "defending the country"? If we take the President at his word, we would concede to him nearly unlimited power, as long as he finds a lawyer willing to stuff his actions into that boundless category.

Rather than concede such power, Congress has worked to bring the President's surveillance program back where it belongs—under the rule of law.

At the same time, we have worked to modernize FISA and ease restrictions on terrorist surveillance. The Protect America Act, a bill attempting to respond to that two-pronged challenge, passed in August; but it is set to expire in February.

The bill now before us would create a legal regime for surveillance under reworked and more reasonable rules. But crucially, President Bush has demanded that this bill include full retroactive immunity for corporations complicit in domestic spying. In a speech on September 19, he stated that "it's particularly important for Congress to provide meaningful liability protection to those companies."

In October, he stiffened his demand, vowing to veto any bill that did not shield the telecom corporations. And this month, he resorted to shameful, misleading scare tactics, accusing Congress of failing "to keep the American people safe."

That month, the FISA Amendments Act came before the Senate Select Committee on Intelligence. Per the President's demand, it included full retroactive immunity for the telecom corporations. Senator NELSON introduced an amendment to strip that immunity, and instead allow the matter to be settled in the courts. It failed by a vote of 3 to 12.

But as it passed out of the Intelligence Committee, by a vote of 13 to 2, the bill still put corporations literally above the law and ensured that the extent of the President's invasions of privacy would remain a secret. I found retroactive immunity far beyond the pale, and I made my objections strongly and publicly.

But the bill also had to pass through the Judiciary Committee. There, Chairman PAT LEAHY succeeded in reporting out a bill without the egregious immunity provision. Over the years, PAT LEAHY has cemented his reputation as a champion of the rule of law; and I believe the stand he took last month will be honored for a long time to come.

However, I am still concerned that when Senator FEINGOLD proposed an amendment to strip immunity for good, it failed by a vote of 7 to 12.

So here we are—facing a final decision on whether the telecommunications companies will get off the hook for good. The President's allies are as intent as they ever were on making that happen. They want immunity back in this bill at all costs.

But what they are truly offering is secrecy in place of openness. Fiat in place of law.

And in place of the forthright argument and judicial deliberation that ought to be this country's pride, two simple words from our President's mouth: "Trust me."

I cannot speak for my colleagues—but I would never take that offer, not even in the best of times, not even from a perfect President. I would never take that offer because our Constitution tells us that the President's word is subject to the oversight of the Congress and the deliberation of the courts; and because I took an oath to defend the Constitution; and because I stand by my oath.

"Trust me." It is the offer to hide ourselves in the waiting arms of the rule of men. And in these threatened times, that offer has never seemed more seductive. The rule of law has rarely been so fragile.

"It is a universal truth that the loss of liberty at home is to be charged to the provisions against danger . . . from abroad." James Madison, the father of our Constitution, made that prediction more than two centuries ago. With the passage of this bill, his words would be one step closer to coming true. So it has never been more essential that we lend our voices to the law, and speak on its behalf.

On its behalf, we say to President Bush that a Nation of truly free men and women would never take "trust me" for an answer, not even from a perfect President—and certainly not from this one.

In these times—under a President who seems every more day intent on acting as if he is the law, who grants himself the right to ignore legislation, who claims the power to spy without a warrant, to imprison without a hearing, to torture without a scruple—in these times, I would be a fool to take his offer.

But "trust me," says President Bush. He means it literally. When he first asked Congress to make the telecoms' actions legally disappear, Congress had a reasonable question for him: Can we at least know exactly what we'd be immunizing? Can you at least tell us what we'd be cleaning up?

And the President refused to answer. Only he, his close advisors, and a handful of telecom executives know all of the facts. Congress is only asked to give token oversight. But if we are to do our constitutionally mandated job, we need more than token oversight; we need full hearings on the terrorist surveillance program before the Intelligence and Judiciary Committees.

Without that, we remain in the dark—and in the dark we're expected to grant the President's wish, because he knows best.

Does that sound familiar to any of my colleagues?

In 2002, we took the President's word and voted to go to war on faulty intelligence. What if we took his word again—and found, next year or the year after, that we had blindly legalized grave crimes?

If this disastrous war has taught us anything, it is that the Senate must never again stack such a momentous decision on such a weak foundation of fact. The decision we're asked to make today is not, of course, as immense. But between fact and decision, the disproportion is just as huge.

So I rise in determined opposition to this unprecedented immunity and all that it represents. I have served in this body for more than a quarter century. I have spoken from this desk hundreds and hundreds of times. I have rarely come to the floor with such anger.

But since I came to Washington, I have seen six Presidents sit in the White House—and I have never seen a contempt for the rule of law equal to this. Today, I have reached a breaking point. Today my disgust has found its limit.

I don't expect every one of my colleagues to share that disgust, or that limit. I wish they did—but had that been the case, we would never have come to this point.

I only ask them to believe me when I say if I did not speak today, my conscience would not let me rest.

The right to conscience is one of the Senate's most treasured allowances. It is perhaps this body's defining feature. The President has his dominating bully pulpit. Justice Robert Jackson famously wrote that "in drama, magnitude and finality [the President's] decisions so far overshadow any others that almost alone he fills the public eye and ear. No other personality in public life can begin to compete with him in access to the public mind."

But in this Chamber, a minority—even an impassioned minority of one—has the right to stand against all the combined weight and machinery of government and plead: "Stop!" Or at least: "Wait." A minority can't stand forever, as surely as I can't speak forever. Ultimately, a minority has only one recourse—to make itself a majority. And I have faith that when the American people understand the full extent of this President's contempt for the law, they will share my outrage. This is a trusting and patient nation—and with more than two centuries of democratic tradition, rightly so. But that trust is not infinite; that patience is not endless; and after 7 years of this President, they are worn down to the nub.

If I didn't believe that, I wouldn't be standing here today. If the rule of law were not my ruling passion, I wouldn't be standing here today. But I do, and it is.

"Law" is a word we barely hear from the President and his allies. They offer neither a deliberation about America's difficult choices in the age of terrorism, nor a shared attempt to set for our times the excruciating balance between security and liberty.

They merely promise a false debate on a false choice: security or liberty, but never, ever both.

It speaks volumes about the President's estimation of the American people that he expects them to accept that choice. I think differently. I think that America's founding truth is unambiguous: security and liberty, one and inseparable, and never one without the other.

Secure in that truth, I offer a challenge to the President's allies: You want to put the President's favored corporations above the law. Could you please explain how your immunity makes any one of us any safer by an iota?

If security were truly the issue, this debate wouldn't be happening. An excellent balance between security and liberty has already been struck by FISA, a balance that has stood for three decades. In fact, FISA was written just to prevent a situation like ours from occurring: to protect Americans without countenancing executive lawbreaking.

In the wake of the Watergate scandal, the U.S. Senate convened the Church Committee, a panel of distinguished senators determined to shine light on executive abuses of power. The facts it uncovered were shocking:

Army spying on the civilian population; Federal dossiers on citizens' political activities; a CIA and FBI program that had opened hundreds of thousands of Americans' letters without warning or warrant.

The collective force of these revelations was undeniable: In their oversight duties, Congress and the courts had failed; they had unquestioningly accepted the executive's "trust me"; and as a result, Americans had sustained a severe blow to their fourth amendment rights "to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures."

The Senate could have panicked; it could have ended or drastically curtailed those searches altogether. But in its wisdom, the Senate understood that protecting the American people was not the problem; the problem was simply the Nixonian attitude that "if the President does it, it's not illegal."

The solution was to bring the executive's efforts to protect America under the watchful eye of Congress and the courts—to restore checks and balances to surveillance, and to give it the legitimacy it demands and deserves. America would not be America if such power remained concentrated in the hands of one man, or one branch of Government.

The Church Committee's final report, "Intelligence Activities and the Rights of Americans," put the case eloquently:

> The critical question before the Committee was to determine how the fundamental liberties of the people can be maintained in the course of the Government's effort to protect their security. The delicate balance between these basic goals of our system of government is often difficult to strike, but it can, and must, be achieved.
>
> We reject the view that the traditional American principles of justice and fair play have no place in our struggle against the enemies of freedom. Moreover, our investigation has established that the targets of intelligence activity have ranged far beyond persons who could properly be characterized as enemies of freedom. . . .
>
> We have seen segments of our Government, in their attitudes and action, adopt tactics unworthy of a democracy, and occasionally reminiscent of the tactics of totalitarian regimes.
>
> We have seen a consistent pattern in which programs initiated with limited goals, such as preventing criminal violence or identifying foreign spies, were expanded to what witnesses characterized as "vacuum cleaners," sweeping in information about lawful activities of American citizens.

The Senators of the Church Commission concluded:

> Unless new and tighter controls are established by legislation, domestic intelligence activities threaten to undermine our democratic society and fundamentally alter its nature.

What a strange echo we hear in those words. They could have been written yesterday. Three decades ago, our predecessors in this Chamber understood that when domestic spying goes too far, it threatens to kill just what it promises to protect—an America secure in its liberty. That lesson was crystal clear 30 years ago. Why is it so clouded now?

And before we entertain the argument that "everything has changed" since those words were written, remember: The men who wrote them had witnessed world war and Cold War, had seen Nazi and Soviet spying, and were living every day under the cloud of nuclear holocaust. How short some memories are.

The threats have multiplied and grown in complexity, but the lesson has been immutable: Warrantless spying threatens to undermine our democratic society, unless legislation brings it under control. In other words, the power to invade privacy must be used sparingly, guarded jealously, and shared equally between the branches of Government.

Or the case can be made pragmatically. As my friend Harold Koh, the dean of Yale Law School, recently argued:

> The engagement of all three branches tends to yield not just more thoughtful law, but a more broadly supported public policy.

Three decades ago, that broadly supported public policy—a prime outcome of the Church Committee—was the Foreign Intelligence Surveillance Act, or FISA. FISA confirmed the President's power to conduct surveillance of international conversations involving anyone in the United States, provided that the Federal FISA court issued a warrant—ensuring that wiretapping was aimed at safeguarding our security, and nothing else. To further protect intelligence gathering, that court was to work in secret.

Ironically, none other than the President's own Director of National Intelligence, Mike McConnell, explained the rationale in an interview this summer: The United States "did not want to allow [the intelligence community] to conduct . . . electronic surveillance of Americans for foreign intelligence unless you had a warrant, so that was required."

As originally written in 1978, and as amended nine times since, FISA has accomplished its mission; it has been a valuable tool for conducting surveillance of terrorists and those who would harm America. And every time Presidents have come to Congress openly to ask for more leeway under FISA, Congress has worked with them; Congress has compromised; and together, Congress and the President have struck a balance that safeguards America while doing its utmost to protect privacy.

This summer, Congress made a technical correction to FISA, enabling the President to wiretap, without a warrant, conversations between two foreign targets, even if those conversations are routed through American computers. Personally, I felt that this summer's legislation went too far, and I opposed it. But the point is that Congress once again proved its willingness to work with the President on FISA. Isn't that enough?

Just this October and November, as we have seen, the Senate Intelligence and Judiciary Committees worked with the President to further refine FISA and ensure that, in a true emergency, the FISA court would do nothing to slow down intelligence gathering. Isn't that enough?

And as for the FISA court, it has approved the President's wiretapping requests with impeccable consistency.

Between 1978 and 2004, according to the Washington Post, the FISA court approved 18,748 warrants and rejected five. The FISA court has sided with the executive 99.9 percent of the time. Isn't that enough?

Is anything lacking? Isn't the framework already in place? Isn't all of this enough to keep us safe?

We all know the President's answer. Given this complex, fine-tuned machinery, crafted over three decades by all three branches, what did he do? He ignored it.

Given a system primed to bless nearly any eavesdropping he could conceive—he conducted his own, illegally.

If the shock of that decision has yet to sink in, think of it this way: President Bush ignored not just a Federal court, but a secret Federal court; not just a secret Federal court, but a secret Federal court prepared to sign off on his actions 99.9 percent of the time. A more compliant court has never been conceived. And still that wasn't good enough for our President.

So I will ask the Senate candidly, and candidly it already knows the answer: Is this about our security or is it about his power?

I ask that question not to change the subject, but because it is the key to understanding why this administration is pushing so hard for telecom immunity—that is, for secrecy. Richard Nixon, the same man who declared that "if the president does it, it's not illegal," raised secrecy to an art form—because he understood that the surest way to amass power is to conceal its true extent.

Secrecy can spring from the best motives; but as it grows it begins to exist only for itself, only for its own sake, only to cover its own abuses.

The Senators of the Church Committee expressed succinctly the deep flaw in that form of Government: "Abuse thrives on secrecy."

Today, we have seen the executive branch pass to a new master of secrecy. Vice President CHENEY practices a secrecy so baroque that it could, in a less threatened time, be an object for laughter, instead of fear.

His unclassified papers? Stamped "treat as TSSCI," one of the highest levels of state secret. The list of papers he has declassified? Classified. The members of his energy task force? None of your business. His location? Undisclosed. The names of his staff? Confidential. And tellingly, of course, the visitor log for his office? Shredded by the Secret Service.

When secrecy becomes this divorced from practicality, we are left with only one conclusion: For this executive branch, secrecy is power.

Of course, I don't mean any offense against our Vice President—as he reminds us, he is not part of the executive branch.

We see a pattern of secrecy stretching back to the first months of this administration. Its push for immunity is no different—secrecy is at its center.

And tellingly, the administration's original immunity proposal protected not just the telecoms, but everyone involved in the wiretapping program. In their original proposal, that is, they wanted to immunize themselves.

Think about that. It speaks to their fear and, perhaps, their guilt: their guilt that they had broken the law, and their fear that in the years to come, they would be found liable or convicted. They knew better than anyone else what they had done—they must have had good reason to be afraid!

Thankfully, executive immunity is not part of the bill before us. I am grateful for that. But the origin of immunity tells us a great deal about what's at stake here: This is, and always has been, a self-preservation bill.

Otherwise, why not have the trial and get it over with? If the President's allies believe what they say, the corporations would win in a walk.

After all, look at things from their perspective: In their telling, when our biggest telecom corporations helped the President spy without a warrant, they were doing their patriotic duty. When they listened to the executive branch and turned over private information, they were doing their patriotic duty.

When one company gave the NSA a secret eavesdropping room at its own corporate headquarters, it was simply doing its patriotic duty. The President asked, the telecoms answered.

Shouldn't that be an easy case to prove, Mr. President? The corporations only need to show a judge the authority and the assurances they were given, and they will be in and out of court in 5 minutes. If the telecoms are as defensible as the President says, why doesn't the President let them defend themselves? If the case is so easy to make, why doesn't he let them make it? Why is he standing in the way?

Our Federal court system has dealt for decades with the most delicate national security matters, building up expertise in protecting classified information behind closed doors—ex parte, in camera. We can expect no less in these cases. If we're worried about national security being threatened as a result, we can simply get the principals a security clearance.

No intelligence sources need be compromised. No state secrets need be exposed. And we can say so with increasing confidence, because after the extensive litigation that has already taken place at both the district court and circuit court level, no sensitive information has leaked out.

In fact, Federal District Court Judge Vaughn Walker, a Republican appointee, has already ruled that the issue can go to trial without putting state secrets in jeopardy. He reasonably pointed out that the existence of the President's surveillance program is hardly a secret at all: The government has already disclosed the general contours of the "terrorist surveillance program," which requires the assistance of a telecommunications provider.

George Bush wouldn't be the first president to hide righteously behind the state secrets privilege. In fact, the privilege was tainted at its birth by a President of my own party, Harry Truman. In 1952, he successfully invoked the new privilege to prevent public exposure of a report on a plane crash that killed three Air Force contractors.

When the report was finally declassified—some 50 years later, decades after anyone in the Truman administration was within its reach—it contained no state secrets at all. Only facts about repeated maintenance failures that would have seriously embarrassed some important people. And so the state secrets privilege began its career not to protect our nation—but to protect the powerful.

In his opinion, Judge Walker argued that, even when it is reasonably grounded:

> The state secrets privilege [still] has its limits. While the court recognizes and respects the executive's constitutional duty to protect the nation from threats, the court also takes seriously its constitutional duty to adjudicate the disputes that come before it. To defer to a blanket assertion of secrecy here would be to abdicate that duty, particularly because the very subject matter of this litigation has been so publicly aired.
>
> The compromise between liberty and security remains a difficult one. But dismissing this case at the outset would sacrifice liberty for no apparent enhancement of security.

And that ought to be the epitaph for this Presidency: "sacrificing liberty for no apparent enhancement of security." Worse than selling our soul—giving it away for free!

The President is equally wrong to claim that failing to grant this retroactive immunity will make the telecoms less likely to cooperate with surveillance in the future.

The truth is that, since the 1970s, FISA has compelled telecommunications companies to cooperate with surveillance, when it is warranted—and what's more, it immunizes them. It is done that for more than 25 years.

So cooperation in warranted wiretapping is not at stake today. Collusion in warrantless wiretapping is—and the warrant makes all the difference, because it is precisely the court's blessing that brings Presidential power under the rule of law.

In sum, we know that giving the telecoms their day in court—giving the American people their day in court—would not jeopardize an ounce of our security. And it could only expose one secret: the extent of our president's lawbreaking, and the extent of his corporations' complicity. That, our President will go to the mat to defend. That, he will keep from the light of a courtroom at all costs. That, his supporters would amend the law to protect.

And that is the choice at stake today: Will George Bush's secrets die with this Presidency? Or will they be open to the generations to come, to our successors in this Chamber, so that they can prepare themselves to defend against future outrages of power and usurpations of law from future Presidents, of either party?

I am here because I will not see those secrets go quietly into the good night with Donald Rumsfeld and Alberto Gonzales and DICK CHENEY and George Bush. I am here because the truth is not their private property—it belongs to every one of us, and it demands to be heard.

"State secrets," "patriotic duty"—those, as weak as they are, are the arguments the president's allies use when they're feeling high-minded! When their thoughts turn baser, they make their arguments in dollar signs.

Here's how Mike McConnell put it:

> If you play out the suits at the value they're claimed, it would bankrupt these companies. So . . . we have to provide liability protection to these private sector entities.

Mike McConnell is quickly becoming an accidental truth-teller! Notice how the President's own Director of National Intelligence concedes that if the cases went to trial, the telecoms would lose. I don't know if that's true, Mr. President—but we can thank Admiral McConnell for telling us how he really feels.

Of course, it is an exaggeration to claim that these companies would surely go bankrupt, even if they did lose.

We are talking about some of the wealthiest, most successful companies in America. Let me quote an article from Dow Jones MarketWatch. The date is October 23, 2007. The headline reads: "AT&T's third-quarter profit rises 41.5 percent."

> AT&T Inc. on Tuesday said third-quarter earnings rose 41.5 percent, boosted by the acquisition of BellSouth and the addition of 2 million net wireless customers . . . Net income totaled $3.06 billion . . . compared with $2.17 billion . . . a year ago.

Note that AT&T has posted these record profits at a time of very public litigation.

A company with more than $3 billion in profits one quarter—only the most exorbitant and unlikely judgment could completely wipe it out. To assume that the telecoms would lose, and that their judges would then hand down such backbreaking penalties, is already to take several leaps.

The point, after all, has never been to financially cripple our telecommunications industry. The point is to bring checks and balances back to domestic spying. Setting that precedent would hardly require a crippling judgment.

It is much more troubling, though, that the Director of National Intelligence even feels the need to pronounce on "liability protection for private sector entities." Since when were our spies in the business of economics? Since when did they put protecting AT&T or Verizon ahead of protecting the American people? Since when did the amount a defendant stands to lose have any bearing on whether a suit should go forward? I learned in law school that guilty was guilty—no matter how rich or how poor.

Lean on this logic, and you'll sink to its venal core: Certain corporations are too rich to be sued. Forget what they owe; forget what's just; forget judges setting the penalty. If there's even a chance of the judgment being high, throw the suit out—it endangers the Republic!

This administration has equated corporations' bottom lines with our Nation's security. Follow that reasoning honestly to its end, and you come to the conclusion: The larger the corporation, the more lawless it can be. If we accept Mr. McConnell's premises, we could conceive of a corporation so wealthy, so integral to our economy, that its riches place it outside the law altogether. And if the administration's thinking even admits that possibility, we know instinctively how flawed it is.

The truth is exactly the opposite: The larger the corporation, the greater the potential for abuse, and the more carefully it must be watched. Not that success should make a company suspect; companies grow large, and essential to our economy, because they are excellent at what they do. I simply mean that size and wealth open the realm of possibilities for abuse far beyond the scope of the individual.

Consider this. According to the Electronic Frontier Foundation,

> Clear, first-hand whistleblower documentary evidence [states] . . . that for year on end every e-mail, every text message, and every phone call carried over the massive fiber-optic links of sixteen separate companies routed through AT&T's Internet hub in San Francisco—hundreds of millions of private, domestic communications—have been . . . copied in their entirety by AT&T and knowingly diverted wholesale by means of multiple “splitters” into a secret room controlled exclusively by the NSA.

If true, that constitutes one of the most massive violations of privacy in American history. And it would be inconceivable without the size and resources of an AT&T behind it—the same size that makes Mike McConnell fear the corporations' day in court.

If reasonable search and seizure means opening a drug dealer's apartment, the telecoms' alleged actions would be the equivalent of strip-searching everyone in the building, ransacking their bedrooms, and prying up all the floorboards. That is the massive scale we are talking about—and that massive scale is precisely why no corporation must be above the law.

On that scale, it is impossible to plead ignorance. As Judge Walker ruled:

> AT&T cannot seriously contend that a reasonable entity in its position could have believed that the alleged domestic dragnet was legal.

But the arguments of the President's allies sink even lower. Listen to the words a House Republican leader spoke on Fox News. They are shameful:

> I believe that they deserve immunity from lawsuits out there from typical trial lawyers trying to find a way to get into the pockets of American companies.

The PRESIDING OFFICER. The Senator's time has expired.

Mr. DODD. Mr. President, I ask unanimous consent for 1 more minute.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DODD. Cindy Cohn is one of those “trial lawyers.” She is lead counsel at the Electronic Frontier Foundation, a small public-interest law firm bringing suit against the telecom corporations. And when she heard that Fox News claim about typical greedy trial lawyers, she laughed.

> If he still thinks that we're rich plaintiffs' attorneys after he's visited our little tiny Mission Street offices, [she said,] then I have a bridge to sell him. Most of the EFF lawyers worked in those big fancy firms for big fancy salaries, and took big pay cuts to join us . . .
>
> Young lawyers come to me and say, “I really want to work for EFF—you have such great lawyers.”
>
> I say: “Take your current paycheck, rip it in three pieces, take any third, and that's about what you'll get working for EFF.” The lawyers who work for EFF . . . are making far less than they could on the open market in exchange for being able to work in things they believe in every day.

Consider the hundreds of lawyers retained by the corporations in question, and their multimillion-dollar legal budgets, and the attempt to portray them as pitiable Davids is ludicrous. Sprint's lawyers recently settled an unrelated class-action lawsuit for $30 million. Three years ago, AT&T handled a settlement with shareholders for $100 million.

With those resources, I think they can give EFF's nine nonprofit lawyers in their little office on Mission Street a fair fight.

Mr. President, I don't presume to know how that fight will end. I don't presume to hand out innocence and guilt—that's not my job. Judges and juries do that. And in their search for the truth, the only job of this body is to get out of the way.

I am not invested in one verdict or another—only that a verdict is reached. I don't care who the truth favors—only that it comes out at all.

State secrets; future cooperation; economic harms; reputational damage; legal burdens—as we've seen, not a single one of the President's arguments for this immunity stands. Nothing tells us to halt the legal process, to bar the courthouse door. Everything tells us to open it.

Mr. President, perhaps when I leave this floor today, someone will ask me, “Why are you so agitated about some telephone records? There's so much else to be worked up about!”

And I'll only be able to respond: “Exactly.”

We have seen this administration chip away at the rule of law at a dozen points. Its relentlessness may be its greatest strength—the assault becomes numbing, and our healthy outrage grows dull. It was an outrage when this President set up secret courts outside the law. It was an outrage when he ignored the courts and tapped our phones. It was an outrage when he sanctioned torture. But outrage upon outrage upon outrage—and we wind up in a stupor. We have allowed each abuse with nothing more than a promise to resist the next one—and the next one, and the next one.

I am here, in the end, because the line has to be drawn somewhere. Why not here? Why not today?

So, Mr. President, I urge my colleagues to reject the motion on cloture. Let them come back, strip this language out on immunity, and give us a clean FISA bill. That is the only right thing to do. The law is here to protect all of us. We can have security and liberty.

As Benjamin Franklin said some 200 years ago:

> Those who would sacrifice liberty for security deserve neither security nor liberty.

So I urge my colleagues to reject cloture, and then we can send the bill forward without that immunity provision.

Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from Missouri.

Mr. BOND. Mr. President, I yield 13 minutes to the Senator from Pennsylvania, then 5 minutes to Senator SESSIONS, 5 minutes to Senator CHAMBLISS, and 5 minutes to Senator KYL. That would conclude the time on our side, and I think that will put us at a vote or it will consume the time on our side. So I unanimous consent that be the order.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Pennsylvania is recognized.

Mr. SPECTER. I thank the Senator from Missouri for yielding me the time, and I wish to begin with the comment made by the Senator from Connecticut raising a question about the grant of retroactivity immunity. I believe that had that provision not been in the Senate bill, it would be a great deal easier to deal with, although there are some substantial problems with the bill as such, even in addition to the provision on retroactive immunity.

But I support the motion to invoke cloture because I believe it is necessary to deal with the fight against terrorism, and I think the Government has made a case for some expanded powers, although I think we have to weigh them very carefully—to fight terrorism but still protect civil liberties in this country.

I have a strong objection to the provision in the bill relating to retroactive immunity, and my objection goes to the point that the administration did not follow the provisions of law in notifying the Intelligence Committees of the House and Senate or the chairman and ranking member of the Judiciary Committees about this program. To come at a later date and seek retroactive immunity I think is inappropriate.

I found out about it when I was chairman of the Judiciary Committee last year, and I moved to subpoena the records of the telephone company, and then I moved to go into a closed session. While that was in process, Vice President CHENEY went to the members of the Judiciary Committee on the Republican side, without notifying me—which I thought was inappropriate—and thwarted the efforts I was making to find out what this program was all about.

I ask unanimous consent to have my letter to Vice President CHENEY dated June 7, and his reply to me dated June 8, printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

U.S. SENATE,
COMMITTEE ON THE JUDICIARY,
Washington, DC, June 7, 2006.

Hon. RICHARD B. CHENEY,
The Vice President,
Washington, DC.

DEAR MR. VICE PRESIDENT: I am taking this unusual step in writing to you to establish a public record. It is neither pleasant nor easy to raise these issues with the Administration of my own party, but I do so because of their importance,

No one has been more supportive of a strong national defense and tough action against terrorism than I. However, the Administration's continuing position on the NSA electronic surveillance program rejects the historical constitutional practice of judicial approval of warrants before wiretapping and denigrates the constitutional authority and responsibility of the Congress and specifically the Judiciary Committee to conduct oversight on constitutional issues.

On March 16, 2006, I introduced legislation to authorize the Foreign Intelligence Surveillance Court to rule on the constitutionality of the Administration's electronic surveillance program. Expert witnesses, including four former judges of the FISA Court, supported the legislation as an effective way to preserve the secrecy of the program and protect civil rights. The FISA Court has an unblemished record for keeping secrets and it has the obvious expertise to rule on the issue. The FISA Court judges and other experts concluded that the legislation satisfied the case-in-controversy requirement and was not a prohibited advisory opinion. Notwithstanding my repeated efforts to get the Administration's position on this legislation, I have been unable to get any response, including a "no".

The Administration's obligation to provide sufficient information to the Judiciary Committee to allow the Committee to perform its constitutional oversight is not satisfied by the briefings to the Congressional Intelligence Committees. On that subject, it should be noted that this Administration, as well as previous Administrations, has failed to comply with the requirements of the National Security Act of 1947 to keep the House and Senate Intelligence Committees fully informed. That statute has been ignored for decades when Presidents have only informed the so-called "Gang of Eight," the Leaders of both Houses and the Chairmen and Ranking on the Intelligence Committees. From my experience as a member of the "Gang of Eight" when I chaired the Intelligence Committee of the 104th Congress, even that group gets very little information. It was only in the face of pressure from the Senate Judiciary Committee that the Administration reluctantly informed subcommittees of the House and Senate Intelligence Committees and then agreed to inform the full Intelligence Committee members in order to get General Hayden confirmed.

When there were public disclosures about the telephone companies turning over millions of customer records involving allegedly billions of telephone calls, the Judiciary Committee scheduled a hearing of the chief executive officers of the four telephone companies involved. When some of the companies requested subpoenas so they would not be volunteers, we responded that we would honor that request. Later, the companies indicated that if the hearing were closed to the public, they would not need subpoenas.

I then sought Committee approval, which is necessary under our rules, to have a closed session to protect the confidentiality of any classified information and scheduled a Judiciary Committee Executive Session for 2:30 P.M. yesterday to get that approval.

I was advised yesterday that you had called Republican members of the Judiciary Committee lobbying them to oppose any Judiciary Committee hearing, even a closed one, with the telephone companies. I was further advised that you told those Republican members that the telephone companies had been instructed not to provide any information to the Committee as they were prohibited from disclosing classified information.

I was surprised, to say the least, that you sought to influence, really determine, the action of the Committee without calling me first, or at least calling me at some point. This was especially perplexing since we both attended the Republican Senators caucus lunch yesterday and I walked directly in front of you on at least two occasions enroute from the buffet to my table.

At the request of Republican Committee members, I scheduled a Republican members meeting at 2:00 P.M. yesterday in advance of the 2:30 P.M. full Committee meeting. At that time, I announced my plan to proceed with the hearing and to invite the chief executive officers of the telephone companies who would not be subject to the embarrassment of being subpoenaed because that was no longer needed. I emphasized my preference to have a closed hearing providing a majority of the Committee agreed.

Senator Hatch then urged me to defer action on the telephone companies hearing, saying that he would get Administration support for my bill which he had long supported. In the context of the doubt as to whether there were the votes necessary for a closed hearing or to proceed in any manner as to the telephone companies, I agreed to Senator Hatch's proposal for a brief delay on the telephone companies hearing to give him an opportunity to secure the Administration's approval of the bill which he thought could be done. When I announced this course of action at the full Committee Executive Session, there was a very contentious discussion which is available on the public record.

It has been my hope that there could be an accommodation between Congress's Article I authority on oversight and the President's constitutional authority under Article II. There is no doubt that the NSA program violates the Foreign Intelligence Surveillance Act which sets forth the exclusive procedure for domestic wiretaps which requires the approval of the FISA Court. It may be that the President has inherent authority under Article II to trump that statute but the President does not have a blank check and the determination on whether the President has such Article II power calls for a balancing test which requires knowing what the surveillance program constitutes.

If an accommodation cannot be reached with the Administration, the Judiciary Committee will consider confronting the issue with subpoenas and enforcement of that compulsory process if it appears that a majority vote will be forthcoming. The Committee would obviously have a much easier time making our case for enforcement of subpoenas against the telephone companies which do not have the plea of executive privilege. That may ultimately be the course of least resistance.

We press this issue in the context of repeated stances by the Administration on expansion of Article II power, frequently at the expense of Congress's Article I authority. There are the Presidential signing statements where the President seeks to cherry-pick which parts of the statute he will follow. There has been the refusal of the Department of Justice to provide the necessary clearances to permit its Office of Professional Responsibility to determine the propriety of the legal advice given by the Department of Justice on the electronic surveillance program. There is the recent Executive Branch search and seizure of Congressman Jefferson's office. There are recent and repeated assertions by the Department of Justice that it has the authority to criminally prosecute newspapers and reporters under highly questionable criminal statutes.

All of this is occurring in the context where the Administration is continuing warrantless wiretaps in violation of the Foreign Intelligence Surveillance Act and is preventing the Senate Judiciary Committee from carrying out its constitutional responsibility for Congressional oversight on constitutional issues. I am available to try to work this out with the Administration without the necessity of a constitutional confrontation between Congress and the President.

Sincerely,

ARLEN SPECTER.

THE VICE PRESIDENT,
Washington, June 8, 2006.

Hon. ARLEN SPECTER,
Chairman, Committee on the Judiciary, U.S. Senate, Washington, DC.

DEAR MR. CHAIRMAN: This is in response to your letter of June 7, 2006 concerning the Terrorist Surveillance Program (TSP) the Administration has described. The commitment in your letter to work with the Administration in a non-confrontational manner is most welcome and will, of course, be reciprocated.

As recently as Tuesday of this week, I reiterated that, as the Administration has said before, while there is no need for any legislation to carry out the Terrorist Surveillance Program, the Administration will listen to the ideas of legislators about terrorist surveillance legislation and work with them in good faith. Needless to say, that includes you, Senator DeWine and others who have ideas for such legislation. The President ultimately will have to make a decision whether any particular legislation would strengthen the ability of the Government to protect Americans against terrorists, while protecting the rights of Americans, but we believe the Congress and the Administration working together can produce legislation to achieve that objective, if that is the will of the Congress.

Having served in the executive branch as chief of staff for one President and as Secretary of Defense for another, having served in the legislative branch as a Representative from Wyoming for a decade, and serving now in a unique position under the Constitution with both executive functions and legislative functions, I fully understand and respect the separate constitutional roles of the Congress and the Presidency. Under our constitutional separation between the legislative powers granted to Congress and the executive power vested exclusively in the Presidency, differences of view may occur from time to time between the branches, but the Government generally functions best when the legislative branch and the executive branch work together. And I believe that both branches agree that they should work together as Congress decides whether and how to pursue further terrorist surveillance legislation

Your letter addressed four basic subjects: (1) the legal basis for the TSP; (2) the Administration position on legislation prepared by you relating to the TSP, (3) provision of information to Congress about the TSP; and (4) communications with Senators on the Judiciary Committee about the TSP.

The executive branch has conducted the TSP, from its inception on October 4, 2001 to the present, with great care to operate within the law, with approval as to legality of Presidential authorizations every 45 days or so by senior Government attorneys. The Department of Justice has set forth in detail in writing the constitutional and statutory bases, and related judicial precedents, for warrantless electronic surveillance under the TSP to protect against terrorism, and that information has been made available to your Committee and to the public.

Your letter indicated that you have repeatedly requested an Administration position on legislation prepared by you relating to the TSP program. If you would like a formal Administration position on draft legislation, you may at any time submit it to the Attorney General, the Director of National Intelligence, or the Director of the Office of Management and Budget (OMB) for processing, which will produce a formal Administration position. Before you do so, however, it might be more productive for executive branch experts to meet with you, and perhaps Senator DEWINE or other Senators as appropriate, to review the various bills that have been introduced and to share the Administration's thoughts on terrorist surveillance legislation. Attorney General Alberto R. Gonzales and Acting Assistant Attorney General for the Office of Legal Counsel Steven G. Bradbury are key experts upon whom the executive branch would rely for this purpose. I will ask them to contact you promptly so that the cooperative effort can proceed apace.

Since the earliest days of the TSP, the executive branch has ensured that, consistent with the protection of the sensitive intelligence sources, methods and activities involved, appropriate members of Congress were briefed periodically on the program. The executive branch kept principally the chairman and ranking members of the congressional intelligence committees informed and later included the congressional leadership. Today, the full membership of both the House Permanent Select Committee on Intelligence and the Senate Select Committee on Intelligence (including four Senators on that Committee who also serve on your Judiciary Committee) are fully briefed on the program. As a matter of inter-branch comity and good executive-legislative practice, and recognizing the vital importance of protecting U.S. intelligence sources, methods and activities, we believe that the country as a whole, and the Senate and the House respectively, are best served by concentrating the congressional handling of intelligence matters within the intelligence committees of the Congress. The internal organization of the two Houses is, of course, a matter for the respective Houses. Recognizing the wisdom of the concentration within the intelligence committees, the rules of the Senate (S. Res. 400 of the 94th Congress) and the House (Rule X, cl. 11) creating the intelligence committees mandated that the intelligence committees have cross-over members who also serve on the judiciary, foreign/international relations, armed services, and appropriations committees.

Both in performing the legislative functions of the Vice Presidency as President of the Senate and in performing executive functions in support of the President, I have frequent contact with Senators, both at their initiative and mine. We have found such contacts helpful in maintaining good relations between the executive and legislative branches and in advancing legislation that serves the interests of the American people. The respectful and candid exchange of views is something to be encouraged rather than avoided. Indeed, recognizing the importance of such communication, the first step the Administration took, when it learned that you might pursue use of compulsory process in an attempt to force testimony that may involve extremely sensitive classified information, was to have one of the Administration's most senior officials, the Chief of Staff to the President of the United States, contact you to discuss the matter. Thereafter, I spoke with a number of other Members of the Senate Leadership and the Judiciary Committee. These communications are not unusual—they are the Government at work.

While there may continue to be areas of disagreement from time to time, we should proceed in a practical way to build on the areas of agreement. I believe that other Senators and you, working with the executive branch, can find the way forward to enactment of legislation that would strengthen the ability of the Government to protect Americans against terrorists, while continuing to protect the rights of Americans, if it is the judgment of Congress that such legislation should be enacted. We look forward to working with you, knowing of the good faith on all sides.

Sincerely,

DICK CHENEY.

Mr. SPECTER. The telephone companies, I do believe, have acted as good citizens. I would not want to see them pay damages because they were responding to a governmental request. So my idea, in order to strike a balance between the Senate bill which grants retroactive immunity and the House bill which leaves it out, would be instead to provide for the Government to be substituted as a party for telephone companies.

Toward that end, I have introduced S. 2402, which was considered by the Judiciary Committee last week and did not pass, on a vote of 13 to 5. Since that time, I have heard from other Senators that they think it is a good idea. I believe it has to be explored and will be explored because I will offer it as an amendment to this bill as soon as I have an opportunity to do so.

What my idea does, essentially, is to substitute the Federal Government as the party defendant for the telephone companies in the cases which have been initiated. The Government would stand in the shoes of the telephone companies, with no more and no less defenses available. For example, governmental immunity would not be available as a defense to the Government because obviously the telephone companies do not have governmental immunity.

The telephone companies, I think, or the defendants in these cases are highly unlikely to pay damages. But I believe it is very important that the courts not be foreclosed from making a judicial determination on the issues which are involved. Part of the concern I have is that the Government is now coming forward to try to have retroactive immunity, to absolve them from any potential wrongdoing in the past. I do not know whether there is wrongdoing, but I do not believe that it is appropriate for the Federal Government to act secretly, surreptitiously, not tell the intelligence committees as required by law, not tell the chairman and ranking member of the Judiciary Committee, and then come back at a later date and say: Please exonerate us. If we give that kind of a blank check, carte blanche to the executive officials, it would be a terrible, devastating precedent for the future.

I believe it is necessary for the judicial actions to run their course. Again, let me say I think it is highly questionable that any of the plaintiffs will succeed. The defense of state secrets has been interposed in the cases against the telephone companies. Similarly, the Government would have that defense if it were substituted in their stead.

But the fact is that the Congress has not been successful in conducting oversight of the Federal Government. The terrorist surveillance program was in existence from October of 2001 until December of 2005, before the Congress ever found out about it. Then we didn't find out about it as a result of our oversight activities; we found out about it because it was disclosed in a New York Times story.

I remember the morning well. I was managing the PATRIOT Act re-authorization, to try the give the U.S. Government adequate powers to fight terrorism. Right in the middle of the final day of our consideration, the story broke about the secret terrorist surveillance program, and the comment was made on the floor of the Senate by one Senator that he was prepared to vote for the PATRIOT Act but not after he found out about the terrorist surveillance program.

The Federal Government did not notify the Intelligence Committees as required by law until well after the New York Times article. Then they notified the Intelligence Committees only because they felt compelled to do so in order to get General Hayden confirmed.

There is a long list of efforts by congressional oversight which have been insufficient: the signing statements in which the President has cherry-picked, taking provisions he likes and excluding provisions he doesn't like. Senator MCCAIN and the President personally negotiated the question of interrogation in the Detainee Treatment Act. There was language put in, on a 90-to-9 vote, limiting interrogation practices. Then, when the President signed the bill, he made an exclusion, saying that his constitutional authority under article II would enable him to ignore some of those provisions.

Similarly, on the PATRIOT Act reauthorization, we negotiated certain oversight, and then the President issued a signing statement again saying there were some items which he would feel free to disregard on the oversight provisions.

On habeas corpus and detention, the Congress has been totally ineffective at any oversight; it is only the Supreme Court of the United States in Rasul and in a case now pending, Boumediene, argued recently in the Supreme Court. So the judicial oversight on checks and balances and on separation of powers, I believe, is indispensable.

We have within the past few days another instance of executive resistance to congressional oversight. Senator LEAHY and I wrote to the Attorney General recently—a week ago today—inquiring about the destruction of the tapes by the CIA. The Attorney General responded last week, on December 14, denying our request for information.

I ask unanimous consent to have the Attorney General's letter printed in the RECORD.

There being no objection, the material was ordered to be printed in the Record, as follows:

OFFICE OF THE ATTORNEY GENERAL,
Washington, DC., December 14, 2007.
Hon. PATRICK J. LEAHY,
Chairman, Committee on the Judiciary, U.S. Senate, Washington, DC.
Hon. ARLEN SPECTER,
Ranking Member, Committee on the Judiciary U.S. Senate, Washington, DC.

DEAR MR. CHAIRMAN AND SENATOR SPECTER: Thank you for your letter of December 10, 2007, regarding your concerns about the reported destruction by the Central Intelligence Agency (CIA) of videotapes showing interrogations of detainees and the Department's review of this matter.

As you note, the Department's National Security Division is conducting a preliminary inquiry in conjunction with the CIA's Office of Inspector General. Enclosed please find a letter from Assistant Attorney General Kenneth L. Wainstein to CIA Acting General Counsel John A. Rizzo, which provides some further detail regarding this inquiry, and which was released to the public on December 8.

As to your remaining questions, the Department has a longstanding policy of declining to provide non-public information about pending matters. This policy is based in part on our interest in avoiding any perception that our law enforcement decisions are subject to political influence. Accordingly, I will not at this time provide further information in response to your letter, but appreciate the Committee's interests in this matter. At my confirmation hearing, I testified that I would act independently, resist political pressure and ensure that politics plays no role in cases brought by the Department of Justice. Consistent with that testimony, the facts will be followed wherever they lead in this inquiry, and the relevant law applied.

Finally, with regard to the suggestion that I appoint a special counsel, I am aware of no facts at present to suggest that Department attorneys cannot conduct this inquiry in an impartial manner. If I become aware of information that leads me to a different conclusion, I will act on it.

I hope that this information is helpful.

Sincerely,
MICHAEL B. MUKASEY,
Attorney General.

DEPARTMENT OF JUSTICE,
NATIONAL SECURITY DIVISION,
Washington, DC., December 8, 2007.
JOHN A. RIZZO,
Acting General Counsel, Central Intelligence Agency, Washington, DC.

DEAR MR. RIZZO: I am writing this letter to confirm our discussions over the past several days regarding the destruction of videotapes of interrogations conducted by the Central Intelligence Agency (CIA). Consistent with these discussions, the Department of Justice will conduct a preliminary inquiry into the facts to determine whether further investigation is warranted. I understand that you have undertaken to preserve any records or other documentation that would facilitate this inquiry. The Department will conduct this inquiry in conjunction with the CIA's Office of Inspector General (OIG).

My colleagues and I would like to meet with your Office and OIG early next week regarding this inquiry. Based on our recent discussions, I understand that your Office has already reviewed the circumstances surrounding the destruction of the videotapes, as well as the existence of any pending relevant investigations or other preservation obligations at the time the destruction occurred. As a first step in our inquiry, I ask that you provide us the substance of that review at the meeting.

Thank you for your cooperation with the Department in this matter. Please feel free to contact me if you have any questions.

Sincerely,
KENNETH L. WAINSTEIN,
Assistant Attorney General,
National Security Division.

Mr. SPECTER. It surprised me that the Attorney General would say that in light of his very recent statements made during the confirmation hearings. "If confirmed, I will review Department of Justice policies with a goal of ensuring that Congress is able to carry out meaningful oversight."

When I talked to Judge Mukasey in advance of the confirmation hearings and gave him a copy of the letter which I had sent to Attorney General Gonzales, Judge Mukasey agreed with the standards established by the Congressional Research Service, saying that these are within the bounds of congressional authority on oversight.

> [A] review of congressional investigations that have implicated DOJ, or DOJ investigations over the past 70 years, from the Palmer Raids and Teapot Dome to Watergate, and through Iran Contra and Rocky Flats, demonstrates that the Department of Justice has consistently been obliged to submit to congressional oversight. . . .

Including:

> . . . testimony of subordinate DOJ employees, such as line attorneys and FBI field agents, was taken. . . .

Again:

> In all instances, investigating committees were provided with documents respecting open or closed cases.

So here is another example of congressional oversight being thwarted, so that when you have a challenge to what has been done by the telephone companies here and you have litigation in progress, I believe it to be most inappropriate for the Congress to intercede and grant immunity retroactively.

I believe our Federal investigative agencies need very substantial powers in the fight against terrorism. I have discussed the issue with Director of National Intelligence McConnell about granting the Government authority to acquire the cooperation of the telephone companies prospectively. I am waiting for a briefing on the issue, to understand the full import of what it is that the Director of National Intelligence wants. I am open to granting those powers prospectively, but I do not believe, in the context of what has happened here, that it would be advisable to retroactively give these officials a blank check when they kept these matters secret from the oversight committees, and when the Judiciary Committee sought to have subpoenas to find out about it, and we were thwarted in that effort, as disclosed by the exchange of letters between the Vice President and myself, made a part of the record.

I note my time has expired. I thank the Chair and yield the floor.

The PRESIDING OFFICER. Who yields time? The Senator from Alabama.

Mr. SESSIONS. Mr. President, Senator FEINGOLD may have been next, and I see he has returned. I yield the floor.

The PRESIDING OFFICER. The Senator from Wisconsin.

Mr. FEINGOLD. Mr. President, I thank the Senator from Alabama for his courtesy.

Mr. President, I oppose cloture on the motion to proceed to S. 2248, as reported by the Senate Intelligence Committee. This bill is deeply flawed, and I am very disappointed by the decision to take it up on the Senate floor rather than the better bill reported by the Judiciary Committee.

Before leaving town for the August recess, Congress bowed to pressure from the administration, and vastly expanded the Government's ability to eavesdrop without a court-approved warrant. That legislation, the so-called Protect America Act, was rushed through this Chamber in a climate of fear—fear of terrorist attacks, and fear of not appearing sufficiently strong on national security. There was very little understanding of what the legislation actually did.

But there was one silver lining: The bill had a 6-month sunset to force Congress to do its homework and reconsider the approach it took.

The Senate should be taking this opportunity to fix its mistakes and pass a new bill that gives the Government all the tools it needs to spy on suspected terrorists but also protects Americans' basic freedoms. This time around, the Senate should stand up to an Administration that time and again has employed fear-mongering and misleading statements to intimidate Congress.

The fact is, the Intelligence Committee bill doesn't fix those mistakes, and it is not the bill we should be considering on the Senate floor.

I do agree with the administration on one point—Congress should make clear that when foreign terrorists are communicating with each other overseas, the U.S. Government doesn't need a warrant to listen in, even if the collection activity ends up taking place in this country because of the way modern communications are routed. Unfortunately, both the Protect America Act and the bill approved by the Senate Intelligence Committee go far beyond fixing that problem and also authorize widespread surveillance involving Americans—at home and abroad.

The bill we should be considering is the Judiciary Committee bill, which 14 Senators urged the majority leader to take up, in a letter last week.

The Judiciary Committee bill made critical improvements to ensure independent judicial oversight of these sweeping new powers and to better protect innocent Americans. The Judiciary bill does not contain a new form of retroactive immunity for companies that allegedly cooperated with an illegal wiretapping program that lasted for more than 5 years. And, while the Intelligence Committee bill was drafted and debated behind closed doors and in close consultation with the administration, the Judiciary bill was the product of an open process with the input of experts from a variety of perspectives.

The Judiciary Committee bill is not perfect. It needs further improvement. But it would be a vastly better starting point for Senate consideration than the bill that the majority leader has brought to the floor, which simply gives the administration everything it was demanding, no questions asked.

The stakes are high. I want my colleagues to understand the impact that the Protect America Act and the Intelligence Committee bill could have on the privacy of Americans. These bills do not just authorize the 6 unfettered surveillance of people outside the United States communicating with each other. They also permit the Government to acquire those foreigners' communications with Americans inside the United States, regardless of whether anyone involved in the communication is under any suspicion of wrongdoing.

There is no requirement that the foreign targets of this surveillance be terrorists, spies or other types of criminals. The only requirements are that the foreigners are outside the country, and that the purpose is to obtain foreign intelligence information, a term that has an extremely broad definition.

There is no requirement that the foreign targets of this surveillance be terrorists, spies, or any other kind of criminal. The only requirements are that foreigners are outside the country, that the purpose is to obtain foreign intelligence information, a term that has an extremely broad definition.

No court reviews these targets individually. Only the executive branch decides who fits these criteria. The result is that many law-abiding Americans who communicate with completely innocent people overseas will be swept up in this new form of surveillance, with virtually no judicial involvement.

Even the administration's illegal warrantless wiretapping program, as described when it was publicly confirmed in 2005, at least focused on particular terrorists. What we are talking about now is a huge dragnet that will sweep up innocent Americans.

In America, we understand that if we happen to be talking to a criminal or terrorist suspect, our conversations might be heard by the Government. But I do not think many Americans expect the Government to be able to listen into every single one of their international communications with people about whom there are no suspicions whatsoever.

These incredibly broad authorities are particularly troubling because we live in a world in which international communications are increasingly commonplace. Thirty years ago, it was very expensive, and not common, for many Americans to make an overseas call. But now, particularly with e-mail, such communications are commonplace. Millions of ordinary, and innocent, Americans communicate with people overseas for entirely legitimate personal and business reasons.

Parents of children call family members overseas. Students e-mail friends they have met while studying abroad. Businesspeople communicate with colleagues or clients overseas. Technological advancements combined with the ever interconnected world economy have led to an explosion of international contacts.

We often hear from those who want to give the Government new powers that we just have to bring FISA up to date with new technology. But changes in technology should also cause us to take a look at the greater need for the privacy of our citizens.

We are going to give the Government broad new powers that will lead to the collection of much more information on innocent Americans. We have a duty to protect their privacy as much as we possibly can, and we can do that. We can do that, as the Senator from Connecticut said, without sacrificing our ability to collect information that will protect our national security.

To take one example, a critical difference between the Intelligence and Judiciary bills is the role of the court. The Judiciary bill gives the secret FISA Court new authority to operate as an independent check on the executive branch.

It gives the court authority to assess the Government's compliance to wiretapping procedures, to place limits on the use of information that was acquired through unlawful procedures, and then gives the court, as most courts should have, the ability to enforce its own orders.

The Judiciary bill also does a better job of protecting Americans from widespread warrantless wiretapping. It prohibits so-called bulk collection. What is that? Vacuuming up basically all the communications between the United States and overseas, which the DNI admitted is legal under the PAA. And it ensures that if the Government is wiretapping a foreigner overseas in order to really collect the communications of the American with whom that foreign target is communicating, what is called reverse targeting, well, in that case it has to get a court order on that American. Well, none of these changes hinders the Government's ability to protect national security.

The process by which the Judiciary Committee considered, drafted, amended, and reported out its bill was an open one, allowing outside experts and the public at large the opportunity to review and comment. With regard to legislation so directly connected to the constitutional rights of Americans, I think the result of this open process should be accorded great weight, especially in light of the Judiciary Committee's unique role and expertise in protecting those rights.

Now, I am certain that over the course of this week we will hear a number of arguments about why the Judiciary bill will hamper the fight against terrorism. Well, let me say now to my colleagues: Do not believe everything you hear. Last week I sat with many of you in the secure room in the Capitol and listened to arguments made by the Director of National Intelligence and by our Attorney General.

I can tell you with absolute certainty that several of the examples they gave were simply wrong, simply false. I am happy to have a classified meeting with anyone in this body who wishes to discuss that. This is not about whether we will be effective in combating terrorism. Both bills allow that. This is about whether the court should have an independent oversight role and whether Americans deserve more privacy protections than foreigners overseas. All of this should sound familiar to those who followed previous debates about fighting terrorism while protecting American's civil liberties in the post-9/11 world.

The administration says—and again, following on what the Senator from Connecticut said—the administration basically says: Trust us. We do not need judicial oversight. The court will just get in our way. You never know when they might tell us what we are doing is unconstitutional. We would prefer to make that decision on our own.

Time and again, that has proved to be a foolish and counterproductive attitude, and sadly, despite the objections of many of us in this Chamber, too many times, Congress has just gone along. We do not have to make that same mistake again. In this case we have a factual record to help us evaluate whether we should simply trust the administration or whether we should write protections into the law.

The Protect America Act has only been in effect for 4½ months, and we are still missing key information about it. The Intelligence Committee has recently been provided some basic information about its implementation. Based on what I have learned, I have very serious questions about the way the administration is interpreting and implementing the Protect America Act, including its effect on the privacy of Americans.

I will shortly be sending the Director of National Intelligence a classified letter detailing my concerns which are directly relevant to the legislation we are considering. I regret this information is classified, so I cannot discuss it here. I regret that more of my colleagues have not been privy to this information prior to this floor debate, but I would be happy to share a copy of my letter in an appropriate classified setting with any Senator who wishes to review it.

I have been speaking for some time now about my strong opposition to the Intelligence Committee bill, and I have not even addressed one of the more outrageous elements of the bill: the granting of retroactive immunity to companies that allegedly participated in an illegal wiretapping program that lasted for more than 5 years.

This grant of automatic immunity is simply unjustified. There is already an immunity provision in current law that has been there since FISA was negotiated in the late 1970s, with the participation of the telecommunications industry.

The law is clear. Companies already have immunity from civil liability when they cooperate with a Government request for assistance, as long as they receive a court order or the Attorney General certifies that a court order is not required and all statutory requirements have been met.

So this is not about whether the companies had good intentions or acted in good faith; it is about whether they complied with this statutory immunity provision, which has applied for 30 years. If the companies follow that law, they should get immunity. If they did not follow that law, they should not get immunity. A court should make that decision, not Congress. It is that simple.

Congress passed a law laying out when telecom companies get immunity and when they do not for a reason. Those companies have access to our most private communications, so Congress has correctly subjected them to very precise rules about when they can provide that information to the Government. If the companies did not follow the law Congress passed, they should not be granted a "get out of jail free" card after the fact.

We have heard a lot of arguments about needing technical cooperation of carriers in the future. We do need that cooperation, but we also need to make sure carriers do not cooperate with illegitimate requests. We already have a law that tells companies when they should and when they should not cooperate, so they are not placed in the position of having to somehow independently evaluate whether the Government's request for help is legitimate.

The PRESIDING OFFICER. The Senator's time has expired.

Mr. FEINGOLD. Mr. President, I ask unanimous consent for 3 additional minutes.

Mr. SESSIONS. Mr. President, reserving the right to object, is the Senator's request for 3 additional minutes on each side?

Mr. FEINGOLD. I would not object to that.

The PRESIDING OFFICER. Without objection, 3 minutes will be added to each side.

Mr. FEINGOLD. Instead of allowing the courts to apply that law to the facts, instead of allowing judges to decide whether the companies deserve immunity for acting appropriately, the Intelligence Committee bill sends the message that companies need not worry, they do not have to worry about complying with questionable Government requests in the future, because they will be bailed out. This is outrageous. Even more outrageous is the fact that if these lawsuits are dismissed, the courts may never rule on the NSA wiretapping program.

So what this is is an ideal outcome for an administration that believes it should be able to interpret laws on its own without worrying about how Congress wrote them or what a judge thinks. For those of us who believe in three independent and coequal branches of Government, this is a disaster.

For all of these reasons, I oppose closure on the motion to proceed to the Intelligence Committee bill. I fear we are about to make the same mistake we made with the PATRIOT Act. We passed that law without taking the time to consider its implications, and we did not do enough during the reauthorization process to fix it. As a result, three Federal courts have struck down provisions of the PATRIOT Act as unconstitutional, and that is right back where we are going to end up if we do not do our jobs now and fix the Protect America Act.

I urge my colleagues to vote no on cloture.

I yield the floor and reserve the remainder of our time.

The PRESIDING OFFICER. Who yields time?

Mr. SESSIONS. Mr. President, I believe the last unanimous consent agreement was that there would be 5 minutes for Senators KYL, CHAMBLISS, and myself. We have added 3 minutes to that. I ask unanimous consent that we each have 6 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. SESSIONS. Mr. President, I appreciate my colleague, Senator FEINGOLD, and his passionate argument, but I am going to tell my colleagues that this Congress and this Government of the United States are capable of overreacting. We are capable of getting excited about an issue and taking theoretical positions that end up, as a practical matter, leaving our country at greater risk. This is not just an item of discussion; it is very real.

I would point out to my colleagues that we have made two dramatic errors some years ago in a situation just like this, on emotion driven by our civil libertarian friends, such that a wall was put up between the FBI and the CIA which barred the sharing of information between those two critical agencies.

We also mandated that the Central Intelligence Agency officers could not obtain information from people deemed to be dangerous. Bad people. How do you get information in the world and protect America and our legitimate national interests without sources? Those became laws.

And what happened after we were attacked on 9/11? Both those rules that we imposed on our military intelligence agencies were deemed to be bogus, wrong, and mistaken, colossally so. Many Members of this body were warned when they were made the law of the United States, they were warned then that if we did these things it was not wise. But, oh no, the others loved the Constitution more, they loved liberty more, so these unwise laws were passed. And what happened afterwards, after 9/11? Well, we properly removed both of those silly rules. We have taken them off the books, in a bipartisan, unanimous way. They were never required by the Constitution. They were never sensible from the beginning. But we passed them on emotion not reason. Some ideas being promoted now are not sensible either and can leave our country in dangerous straits. So this is an important matter. These things are life and death issues.

Last year, a Federal court ruled, based on changes in technology, that those laws we passed effectively limited the collection of critical communications of foreign intelligence. It was not the intention of Congress when we passed it, I am sure, that the law would, in effect, end up gutting perhaps the most important surveillance program we have against international terrorists, but that was the effect of it.

Admiral McConnell was flabbergasted. He came to us and pleaded with us to give him relief. So what happened? Well, he said this to us. Listen to these words. Basically this is what he said: The United States was unable to conduct critical surveillance of . . . foreign terrorists planning to conduct attacks inside our country.

That is basically—that is what he said to us. That is a dramatic thing.

So what happened? Congress went through an intense study, and we passed the Protect America Act this past summer. Some people said: This is a rush, though we spent weeks on it. Congress spent a lot of time working on it. But we said: OK, it will come back up for reauthorization in February. As of this date, there has been no example of abuse of that act.

Senator FEINGOLD says these intelligence procedures were illegal wiretapping. I think that is really not a fair thing to say. A court ruled that these procedures we had been using for some time, must, according to statutes we passed, go through a certain number of procedural hoops that, as a practical matter, would have eliminated the possibility of us continuing these surveillance techniques. That is what they ruled. I don't think we ever intended this to be the effect, but the court probably ruled fairly on the law. I am not sure. We are stuck with the ruling regardless.

I don't think it is fair to say the program was illegal. But certainly the procedures were not unconstitutional because this summer, when we passed the Protect America Act, we effectively concluded the program was good and constitutional. We affirmed the program.

I want to say, if we have any humor left on this subject, perhaps we ought to write President Bush a letter and tell him: Thank you. We are sorry we accused you of violating our Constitution and basic civil liberties. After the Congress spent weeks studying this, we passed a law that basically allowed the program to continue as it was.

I urge that we do the right thing on this legislation and move forward to the Intelligence bill, not the Judiciary bill.

The PRESIDING OFFICER. The Senator from Georgia is recognized.

Mr. CHAMBLISS. I rise in support of the motion to proceed to the Foreign Intelligence Surveillance Act Amendments Act of 2007. It is important to underscore just how critical this legislation is and how the bill which was voted out of the Senate Select Committee on Intelligence by a vote of 13 to 2 is a comprehensive and bipartisan bill.

Some of my colleagues on the other side of the aisle have made allegations that this bill will infringe upon Americans' right to privacy. This bill only infringes on one group's right to privacy, and that is terrorists.

Prior to congressional action in August, and again if we do not make permanent these changes, our intelligence community was unable to collect vital foreign intelligence without the prior approval of a court. If our intelligence community wanted to direct surveillance at an al-Qaida member located in Waziristan who was communicating with another terrorist in Germany, they would have to first petition the FISA court for approval. In August, our intelligence community told us that without updating FISA, they were not just handicapped, they were hamstrung.

Congress passed the Protect America Act which temporarily fixed the intelligence community's legal gaps. However, the Protect America Act will expire in February of 2008. Congress must act swiftly before our core collectors are faced with losing valuable intelligence as a result of inaction by Congress.

When FISA was enacted in 1978, it was meant to provide our Government with the means to collect foreign intelligence within the United States while not infringing upon U.S. citizens' rights. Prior to FISA, the courts held that fourth amendment warrant protection applied to surveillance in a variety of cases, including the decisions of Katz and Keith. Congress reacted to these cases in the criminal and foreign intelligence arena by enacting legislation addressing the requirements of the fourth amendment in title III of the Omnibus Crime Control and Safe Streets Act of 1968 and in FISA.

While debating FISA, Congress sought to protect the rights of U.S. persons from unwarranted Government intrusion while collecting foreign intelligence within the United States. The congressional report accompanying FISA states:

> The purpose of the bill is to provide a statutory procedure authorizing the use of electronic surveillance in the United States for foreign intelligence purposes.

Regulating the collection of foreign intelligence, including the electronic surveillance of foreign communications made by terrorists, was neither contemplated during FISA nor by the courts after enactment of FISA. It has been long held that foreigners do not enjoy the protection of our Constitution unless they enter the territories of the United States, and even FISA provides an exception to that warrant requirement if it is unlikely that a U.S. person's communications would be intercepted. As an unfortunate consequence of the rapid advancements in technology since 1978 and post-Cold War threats, surveillance of some overseas communications were subjected to court orders.

It is now time for Congress to act to make permanent the fix to FISA so that our intelligence community has the tools they need to do their job in a very professional manner and gather the information necessary to protect our national security.

Let me be clear: These amendments to FISA would only apply to surveillance directed at individuals who are located outside the United States. This is not meant to intercept conversations between Americans or even between two terrorists who are located in the United States. The Government still would be required to seek the permission of the FISA Court for any surveillance done against people physically located within the United States, whether a citizen or not.

This is not good enough for some Members of Congress. They wish to extend the warrant requirement of the fourth amendment currently not bestowed under U.S. criminal law and procedure to American citizens overseas. The U.S. laws do not extend beyond our border, but the Supreme Court has held that certain fundamental rights such as those protected by the fifth and sixth amendments, as well as the reasonableness requirement of the fourth amendment, do extend to

U.S. citizens outside the country. However, despite the opportunity, the Supreme Court has refused to hold that the warrant clause of the fourth amendment applies abroad for U.S. citizens. In a criminal prosecution, U.S. courts will accept evidence against U.S. citizens obtained by foreign governments without the probable cause demanded by U.S. law. U.S. courts recognize that the Bill of Rights does not protect Americans from the acts of foreign sovereigns, and excluding evidence obtained by them will not deter foreign governments from collecting it. Therefore, the evidence can be turned over to the United States and used in a criminal prosecution.

There was an amendment offered in the Intelligence Committee that requires that anytime a U.S. person is a target of surveillance, regardless of where the collection occurs, the Attorney General must seek approval under title I of FISA for that collection. The amendment fails to consider the intelligence community's adherence to current regulations which were drafted to comply with the reasonableness requirement of the fourth amendment.

Currently, under Executive Order 12333, section 2.5, the Attorney General may authorize the targeting of a U.S. person overseas upon finding probable cause to believe that the individual is a foreign power or agent of a foreign power. The intelligence community will now be required to obtain authorization from the FISA Court prior to conducting surveillance against terrorists or spies overseas who assist foreign governments merely because they are United States persons. It is my belief that the intelligence community has demonstrated to Congress how judicious, selective and careful they have been when it comes to protecting the very small number of U.S. citizens this applies to and does not necessarily need the court to approve their actions every step along the way. This complicates, and attempts to micromanage, the efforts of our intelligence community. Additionally, it prevents the intelligence community from acting quickly and with discretion in a process which has worked well to protect U.S. citizens for almost 30 years.

Some of my colleagues have expressed opposition to title II of the bill which provides that no civil actions may be brought against electronic communication providers if the Attorney General certifies that the assistance alleged was in connection with a lawful communication intelligence activity authorized by the President and designed to detect or prevent a terrorist attack against the United States. Providing our telecommunications carriers with liability relief is necessary and responsible. The Government often needs assistance from the private sector in order to protect our national security and, in return, they should be able to rely on the Government's assurances that the assistance they provide is lawful and necessary for our national security. As a result of this assistance, America's telecommunications carriers should not have to front heavy legal battles shrouded in secrecy on the Government's behalf.

The chairman and vice chairman of the Senate Select Committee on Intelligence introduced a carefully crafted, bipartisan piece of legislation. Although it was not a perfect bill, in committee I was willing to forgo offering amendments to support the bipartisan process and provide our intelligence community with the minimum requirements it needs in an environment with rapidly changing technology. I believe that the bill which was ultimately adopted by the committee, and with my support, contains troubling language which should be altered before enactment. Even so, this legislation is strides ahead of the partisan bill passed out of the Judiciary Committee and offered here as a substitute.

This is not, and should not, be a partisan issue by any means. The ability to collect the intelligence necessary to protect our country from foreign adversaries and terrorists should not be subjected to partisan politics in Congress. Protecting our national security is in the interest of all Americans, and Congress should seek to ensure that our Nation is protected fully. There are serious differences between the substitute bill voted out of the Judiciary Committee and the bill voted out of the Intelligence Committee. I urge my colleagues to reject the Judiciary Committee's substitute amendment and support the carefully crafted bipartisan bill passed out of the Intelligence Committee. However, differences of opinion exist and make it essential for Congress to examine and debate these issues on the floor. For these reasons I support cloture on the motion to proceed to FISA.

I yield the floor.

The PRESIDING OFFICER. The Senator from Arizona.

Mr. KYL. Mr. President, I join my colleague from Georgia in encouraging support for the motion to proceed so we can begin consideration of this important bill. The reason for the FISA bill is very straightforward. Technology has outpaced the law. We are now able to collect intelligence in ways that were never understood or contemplated years ago when the law was drafted. As a result, we need to change the law to accommodate that collection.

Before we changed the law last year, we had lost about two-thirds of the ability to collect intelligence against al-Qaida. Clearly, in this war against these evildoers, these terrorists, we cannot cede two-thirds of the playing field to them without any monitoring or collection of intelligence against them. When we did the Protect America Act last summer, we regained the capability to collect that intelligence by conforming the legal procedures to the technology that enables us to collect this material.

Al-Qaida has not ceased to exist after 9/11. In fact, it exists and is still desiring to carry out the same kinds of attacks against the United States and other countries that it did on 9/11. We know the incredible amount of damage that can be inflicted if we are not prepared to deal with them. We also know that the best way to deal with al-Qaida and the like is to collect intelligence so we can prevent attacks from occurring rather than worrying about them after they have occurred. That is why it is so important for us to ensure that under the law we can engage in the kind of intelligence collection against al-Qaida that technology today enables us to do.

Many of our friends on the other side of the aisle have insisted that there be stringent congressional oversight of these programs by which we collect the intelligence. No one disputes that is a desirable thing to do. That is why this Congress and previous Congresses have agreed on a bipartisan basis to create robust oversight of U.S. intelligence gathering, even when it is against foreign targets. The agencies executing wiretaps and conducting other surveillance must report their activities to Congress and to others, so the opportunities for domestic political abuse of these authorities is eliminated.

No one is on a witch hunt against Americans. There is more material out there to be collected against foreign targets. Our people certainly don't have time to try to spy on Americans. That is not what is involved. We have to be careful that in creating this oversight we don't cut deeply into the capabilities of our intelligence community, that we don't in effect limit what they are able to do.

If you compare the Intelligence Committee bill with the Judiciary bill, you will see that the Judiciary bill would severely limit this collection of intelligence. Even the Intelligence Committee bill has one major flaw in it. We have to be careful that we don't tie down our Intelligence agencies with so many limits on how they can monitor foreign terrorist organizations that they really cannot respond to the threat that exists.

Let me give one example. The Intelligence Committee bill, which is the bill we are taking up first and which we should adopt, includes a provision that has been labeled the Wyden amendment which, as written, would require a warrant for any overseas surveillance that is conducted for foreign intelligence purposes and targets a

U.S. person. As the Senator from Georgia pointed out, we already have protocols to deal with that, to minimize any potential problems that might arise in conducting intelligence that would include a U.S. person. But the way the Wyden amendment is written is overly broad and unprecedented.

Under current law, a warrant would not be required for overseas surveillance that is targeted to a U.S. person if that surveillance is conducted for purposes of a criminal investigation. So consider the anomaly. The Wyden amendment would create a requirement for a warrant to go after foreign terrorists involving also potentially U.S. persons, but it would not require a warrant in those circumstances of drug trafficking or money laundering that involve the very same people. It should not be more burdensome to monitor al-Qaida than it is to monitor a drug cartel. Yet the Wyden provision literally creates a situation where if an overseas group that includes U.S. persons is suspected, for example, of smuggling hashish, no warrant is required, but if the same overseas group is suspected of plotting to blow up New York City, then a warrant would be required. This is not only anomalous; it is bad policy. It is the very kind of thing that if, God forbid, another attack should occur and we permit this to be written into the law, the next 9/11 Commission will criticize the Congress for writing it into the statute. We can prevent that from occurring by rejecting the Wyden amendment.

Let me conclude by asking: What is our goal? Do we want to allow our intelligence agencies to use the most up-to-date technology to track and prevent attacks by the most evil people in the world today, these al-Qaida terrorists, or are we so concerned about some potential theoretical, possible situation in which an American citizen's communications might be temporarily intercepted, if they call an al-Qaida person or an al-Qaida person calls them that we are not going to take advantage of these intelligence-collection techniques?

We can write the law to ensure the protection of every U.S. person. We need to do that. But we cannot restrict our intelligence agencies from collecting that intelligence that is out there that might warn us of another attack.

The PRESIDING OFFICER. The Senator's time has expired.

The Republican leader is recognized.

Mr. McCONNELL. Mr. President, we will have a cloture vote shortly on the motion to proceed to the FISA reform legislation that the Senate Select Committee on Intelligence reported last fall. I am glad we are proceeding to this bipartisan bill rather than to either of the rule XIV proposals. Both of those proposals would carve out core components of the Intel Committee's bill and likely would not obtain a Presidential signature.

The Intelligence Committee bill is a rarity in this Congress. It is the product of weeks of painstaking negotiations between Senate Republicans and Democrats, and benefited from the participation of intelligence experts in the administration.

The overwhelming bipartisan vote in the Intel Committee reflected the care, concern, and good faith that went into crafting that bill. The final vote was not 15 to 0, but a vote of 13 to 2 is pretty close.

What is all the more impressive about the Intel bill is that this accomplishment is in an area—foreign intelligence surveillance—that is highly sensitive.

Modifications to the Intel bill still need to be made, but it contains the two main ingredients that are needed for a Presidential signature: It will allow intelligence professionals to do their jobs, and it will not allow trial lawyers to sue telecom companies that helped protect the country.

Unfortunately, the Judiciary Committee bill lacks all the hallmarks of the Intelligence Committee's product. It does not provide our intelligence community with all the tools it needs. It does not protect telecommunications companies from lawsuits. It does not enjoy bipartisan support. And, most importantly, it will not become law.

So I think we have one approach that could lead to an important accomplishment, and we have one that will not. I am hopeful we will choose the right path.

Finally, I wish to make a couple of brief comments about the floor process for the FISA reform legislation.

I will be voting for cloture on the motion to proceed to the Intel bill, and I encourage all of our colleagues to do the same. A cloture vote is needed because of objections to the bipartisan bill by Senators Feingold and Dodd and others. It is certainly their right to object to the Senate's consideration of this important legislation. But it is also the right of other Senators to proceed carefully and thoughtfully on this matter.

Legislation dealing with our foreign intelligence surveillance capabilities is complex, and what we do determines if we are able to adequately defend the homeland from attack. Thus, Republicans will insist on being able to debate and study the complicated consequences of amendments that are offered. That is every Senator's right and, especially in this area, every Senator's duty.

I thank the Chair and yield the floor.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Ms. MIKULSKI. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Ms. MIKULSKI. Mr. President, I yield back our time.

CLOTURE MOTION

The PRESIDING OFFICER. All time having been yielded back, under the previous order, pursuant to rule XXII, the Chair lays before the Senate the pending cloture motion, which the clerk will state.

The legislative clerk read as follows:

CLOTURE MOTION

We, the undersigned Senators, in accordance with the provisions of rule XXII of the Standing Rules of the Senate, do hereby move to bring to a close debate on the motion to proceed to S. 2248, FISA.

Harry Reid, Patrick Leahy, Ken Salazar, Daniel K. Inouye, Robert P. Casey, Jr., Frank R. Lautenberg, Debbie Stabenow, Richard J. Durbin, Tom Carper, John Kerry, E. Benjamin Nelson, Evan Bayh, Kent Conrad, Carl Levin, Mark Pryor, Charles Schumer, Jay Rockefeller, S. Whitehouse, Bill Nelson.

The PRESIDING OFFICER. By unanimous consent, the mandatory quorum call has been waived.

The question is, Is it the sense of the Senate that debate on the motion to proceed to S. 2248, an original bill to amend the Foreign Intelligence Surveillance Act of 1978, to modernize and streamline provisions of that act, and for other purposes, shall be brought to a close?

The yeas and nays are mandatory under the rule.

The clerk will call the roll.

The bill clerk called the roll.

Mr. DURBIN. I announce that the Senator from Delaware (Mr. BIDEN), the Senator from New York (Mrs. CLINTON), the Senator from New Jersey (Mr. LAUTENBERG), the Senator from Connecticut (Mr. LIEBERMAN), the Senator from Illinois (Mr. OBAMA), and the Senator from Vermont (Mr. SANDERS), are necessarily absent.

I further announce that, if present and voting, the Senator from Delaware (Mr. BIDEN), would vote "no."

Mr. LOTT. The following Senators are necessarily absent: the Senator from Colorado (Mr. ALLARD), the Senator from Kansas (Mr. BROWNBACK), the Senator from Oklahoma (Mr. COBURN), the Senator from Idaho (Mr. CRAIG), the Senator from South Carolina (Mr. DEMINT), the Senator from New Hampshire (Mr. GREGG), the Senator from Oklahoma (Mr. INHOFE), and the Senator from Arizona (Mr. MCCAIN).

Further, if present and voting, the Senator from South Carolina (Mr. DEMINT) would have voted "yea."

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 76, nays 10, as follows:

[Rollcall Vote No. 435 Leg.]

The PRESIDING OFFICER. On this vote, the yeas are 76, the nays are 10. Three-fifths of the Senators duly chosen having voted in the affirmative, the motion is agreed to.

The majority leader is recognized.

Mr. REID. Mr. President, I have had a conversation with the distinguished Republican leader. We are now postcloture. No one is intending to use the 30 hours. We know we have to get to the omnibus and other such things, but there are some people who want to talk postcloture. I have spoken to the chairman of the Intelligence Committee and the ranking member. I have spoken to the Judiciary Committee members several times today. I have spoken to Senator DODD, who has an amendment dealing with immunity. On this side, there is a general feeling that the first amendment should be one dealing with immunity. At this stage, the one who is willing and ready to offer it, as soon as the postcloture finishes, is Senator DODD. So we will get to that on our side as soon as we can.

I would also state it appears at this stage it would probably be in everyone's interest that we acknowledge going into this that everything is going to take 60 votes anyway. So rather than play games, I have spoken to the Republican side, and it would appear to me that when we get to the amendment-offering stage, we should recognize that is likely be to the issue.

Now, let me also say this: I have finished a meeting 45 minutes ago with the Speaker. They are going to finish the omnibus tonight. It will be late. We will not get it tonight. They probably will not finish it until between 10 and 11 o'clock tonight. But that being the case, we are going to move to the omnibus tomorrow, if at all possible. To say the least, it has been very difficult to get to the point where we are. I would hope everyone understands we are going to do our very best to finish the bill tomorrow. There are a number of amendments that will be offered. There are very few that will be offered.

I have talked to Senator MCCONNELL. At this stage, it appears there will probably be four amendments, and that is all. That, of course, is always a moving target, and there may need to be more. If people have questions about this, check with the floor staff on the procedural aspects. But it is a pretty straightforward issue tomorrow. When we finish that, we have to do something about AMT, which is not completed. We have terrorism insurance that we have to do. We have to do an extension of CHIP and some of the Medicare provisions. That is about it. I may be missing something, but I don't think much.

Everyone should understand that even though the omnibus is coming here, we have spent hours and hours on this over the weekend trying to work out some of our differences. The bill has almost nothing as it relates to anything other than spending. It has been hard to arrive at where we have, but I think it has been one of cooperation. It was a good weekend. I don't mean this in any negative sense, but I didn't have to speak to the White House because we were able to work this out with the Speaker and Senator MCCONNELL—the Republican leaders in the House and my colleagues here. So I think we are in fairly decent shape to complete our work in the next couple of days.

Mr. STEVENS. Will the Senator yield for a question?

Mr. REID. Yes.

Mr. STEVENS. This Senator wonders if we will have a chance to read that omnibus. I understand it may or may not contain all of the bills that are unresolved as far as the appropriations process is concerned.

Mr. REID. The bill was online last night. It was filed around 5 o'clock. It is on the House Rules Web site. It has been available for 15 to 18 hours.

Mr. STEVENS. It is still subject to amendment in the House, isn't it?

Mr. REID. No. Well, it is subject to whatever the Rules Committee does over there. They are taking it to Rules today, and it will be on the floor sometime early this evening, and they will finish it tonight.

Mr. LEAHY. Mr. President, if the leader will yield, Senator DODD is prepared——

The PRESIDING OFFICER. If we can extend the courtesies to our Members here, we need order in the Senate.

Mr. LEAHY. I thank the Chair. We have a Judiciary Committee bill that was passed out with a majority vote. I, at some point, will modify that somewhat. At some point, that will require a vote. We have discussed this already. I wanted to make sure people understand that. Senator DODD will go first, but at some point I will do that.

Mr. REID. Mr. President, we thought there may be, initially, a bill that would be offered by the respective chairmen of the Intelligence and Judiciary Committees. That didn't quite work out. Senator LEAHY graciously indicated he would be willing to have Senator DODD go first. Senator DODD has other things he wants to look to. We have a tentative time agreement for Senator DODD, but we don't have that finalized yet. We need to get some of the postcloture debate out of the way. As soon as that is done, Senator DODD will be recognized. If that is not the case, I will be recognized to offer the amendment on his behalf. We hope there will be no efforts to have a jump ball on our side. That is the first amendment Senator LEAHY and Senator ROCKEFELLER want to do.

Mr. BOND. Mr. President, did I hear the majority leader ask unanimous consent that votes would have a 60-vote requirement?

Mr. REID. Mr. President, I say to my friend that I did not ask that. I indicated I thought we should understand that would be the end result.

I ask unanimous consent that all votes in relation to the bill that is now before the Senate—the FISA legislation—require 60 votes, except for final passage.

The PRESIDING OFFICER. Is there objection?

Mr. DODD. Mr. President, reserving the right to object, is there a rule in the Senate that requires this?

Mr. REID. It is by unanimous consent on this bill. It is a very controversial bill. I think there would not be the votes, for example, on the immunity aspect; I am confident there are people who would require 60 votes. In an effort to cut through a lot of the talk here, we would try to set up a time that we would vote on this as the first amendment out of the box; and on the other amendments, until further notice and agreement among Senators, we would have a 60-vote margin.

Mr. DODD. Let me say this, further reserving the right to object, I will respectfully object at this time, and I will talk with the leader about that necessity. I don't want to set the precedent of insisting on 60 votes on a germane amendment. I will object at this point, and following that, the leader can make the request again.

Mr. REID. Mr. President, my friend has every right to object. It is quite obvious that this is required because Members will simply filibuster. They have told me so. If we are talking about something as sensitive as immunity, retroactive immunity, and prospective immunity, it is going to take

60 votes. The rules don't require that, we know that, but the rules do require 60 votes to stop a filibuster.

Mr. BOND. Mr. President, I object to any measure coming up that does not have a 60-vote requirement. We conditioned our approval to bring up these amendments on agreeing to 60 votes; otherwise, we will use the prerogatives of the Senate.

Mr. DODD. Mr. President, I understand the 60-vote majority, but I have a germane amendment that strikes a provision in the bill. I understand the rules. When something is nongermane or violative of the rules of the Senate and you want to waive the rule, you have a supermajority requirement, but not on an amendment pertaining directly to the bill that strikes a section of it. I understand there is opposition to it, but having to reach a supermajority on an amendment that strikes something in the bill that is of significant disagreement seems to be excessive at this point.

This is an important piece of legislation, and the Judiciary Committee voted differently than the Intelligence Committee on this matter. We feel strongly about this. If I were offering something that is violative of the Senate rules, I would accept a supermajority. But to establish the precedent here that any amendment to be offered to this bill will be subjected to a supermajority vote I think is too excessive. That is my concern. Tell me I am wrong about that, that I am violating the rules of the Senate, and I will accept that. But if we are establishing that simply on any amendment that is different, I think that is a direction in which we should not go.

Mr. REID. Mr. President, first of all, on the immunity issue—we have a lot of matters here. We have had 60-vote margins all year, including on the war in Iraq. The Senator is right that there is no requirement that there be 60 votes. But there is a requirement that if somebody talks and keeps talking, there won't be a vote. So the Senator can offer his amendment, but, as we have heard from people on both sides of the aisle, there won't be a vote taking place on his amendment—50 votes or 55 votes or 60 votes.

I thought it would be in the interest of the body to cut to the chase and say on this and other matters—this is a very controversial issue. We don't have time to have a lot of cloture votes on different amendments. So it seems to me that it is in the best interest of everybody that that is the agreement. The suggestion made is a good one.

Despite agreeing with the Senator from Connecticut as to this issue, it doesn't mean he and I are right. Certainly, by the unanimous consent request, there is no precedent set in the Senate. It is on a case-by-case basis.

Mr. President, what is the matter before the Senate?

The PRESIDING OFFICER. The motion to proceed to S. 2248.

Mr. REID. That is one where we have 30 hours from the time the vote takes place, with Senators having 1 hour under their control; is that right?

The PRESIDING OFFICER. We are now postcloture, that is correct.

Mrs. BOXER. Mr. President, parliamentary inquiry, if I might. I wonder, is there a unanimous consent request regarding speakers postcloture at this point?

The PRESIDING OFFICER. No request.

Mrs. BOXER. I would like to know this, if I may ask a question to Senator DODD. He, at this point, is objecting to a 60-vote requirement, and therefore the regular order would be to have people speak on the motion to proceed; is that correct?

Mr. DODD. I have an amendment I would like to offer that strikes title II of the legislation. I am prepared to offer that. I know Senator LEAHY talked about going first. I am prepared to follow whatever the Senate would like us to in order. I would like an opportunity to offer my amendment at some point. I told the leader that we can work out a time agreement. I wasn't quite ready to do it. I want to know how many people want to be heard. I will limit myself, but I want to get a vote. I am not looking for extended debate on my amendment.

Mrs. BOXER. Further, when such a list is made, I ask Senator DODD or the majority leader to please place me on the list for a 15-minute timeframe on his amendment and a broader statement.

The PRESIDING OFFICER. On a motion to proceed, amendments are not in order at this point.

Who seeks time?

Mr. REID. Mr. President, I think it would be appropriate if we find out, postcloture, who wants to give speeches. Once we find out how many want to speak and how much time they want, we can lay down the bill and have Senator DODD offer his amendment. Anybody who wants to speak postcloture, let us know so we can get to the bill. We are not on the bill yet. We are postcloture.

Mrs. BOXER. Mr. President, if it is in order, I would like to start and talk for 10 minutes. I would like to make my remarks on the issue that is pending.

The PRESIDING OFFICER. The Senator from California is recognized.

Mrs. BOXER. Mr. President, I strongly support bringing the Judiciary Committee version of the FISA bill before us. That is why I voted not to proceed to take up the Intelligence Committee bill.

I did not cast that vote lightly because, as the Chair knows, I want to get the terrorists. I voted to go after Osama bin Laden. I voted to go after al-Qaida after they attacked us. I have voted to give this President every penny he needed to go ahead and capture Osama bin Laden. To date, much to my dismay and the dismay of the American people, we haven't captured bin Laden, who engineered the attack against our Nation. We have not caught him dead, we have not caught him alive. But we did capture Saddam Hussein, who didn't attack us on 9/11. We did get into a war we cannot get out of, thanks to the President and his backers, who have gotten us into a position where there is no way out and no end in sight. But capture bin Laden? No.

I will never give up hope on that. I will give our country all the tools it needs to get him and the others who have harmed us and who want to harm us in the future. That is our most sacred responsibility and duty. But if we are not careful, if we are not prudent, if we are not honest about what we are doing here, we give bin Laden exactly what he wants, Mr. President: a country that scares its people rather than a country that protects its people, a country that takes away the rights of its people out of fear.

Former Justice Thurgood Marshall said:

> History teaches us that grave threats to liberty often come in times of urgency, when constitutional rights seem too extravagant to ignore.

Now, what makes America so great? It is that we have been a guiding light to the world because we have been a strong nation in all ways, and a strong nation protects the rights of its citizens, while a weak nation, a fearful nation, a nation that lives in fear, abdicates those rights. We see it around the world. Let us never see it here.

We have an understanding here in America that the need for security must always be balanced against the rights of the people. Once we lose that precious balance, we are giving the terrorists exactly what they want.

We cannot and we must not ever lose that precious balance. If freedom and liberty become nothing more than just hollow words, then when we try to lead the world, we will simply not have the moral high ground. We have seen this happen in our great Nation in so many areas, and we cannot today, or during the next couple of days, allow this Nation, with our permission, to look at the rights of our people and take them lightly.

I quote another Supreme Court Justice, one of my heroines, Sandra Day O'Connor:

> It is during our most challenging and uncertain moments that our Nation's commitment to due process is most severely tested; and it is in those times that we must preserve our commitment at home to the principles for which we fight abroad.

"We must preserve our commitment at home to the principles for which we fight abroad."

When President Bush announced his foreign policy—I will never forget it—he said we need to bring democracy around the world. We need to bring freedom around the world. We need to stop the despots of the world from taking away the freedoms the people have. Yet here at home they are destroying tapes, at home they are listening in on Americans without a warrant.

What is in the judiciary version of the bill that makes it much better than the intelligence version, and why was I so proud to stand with only 10 of my colleagues? I thank Senator DODD for his leadership on this issue. That is a hard vote. Here is why.

The judiciary version of the bill requires at least one specific individual target in order to begin bulk collection of international communications. You need to name one target; that is what the Judiciary Committee is saying. You just don't go on a fishing expedition. We have seen those kinds of fishing expeditions before. We have seen people herded up before. We cannot do that now, not in this century; not in this century when we are fighting bin Laden and we are fighting the forces that want to take away freedom.

Second, it requires a FISA Court order to continue surveillance when a call involves U.S. citizens. That is called a check and balance. That is essential to our freedom.

Third, it allows the FISA Court to decide whether surveillance continues while the Government appeals a decision against a proposed surveillance program. That is another example of check and balance.

Human beings are flawed, and when all the power resides in one or two of them, we need to have a check and balance. By the way, check and balance is one of the centerpieces of our freedom, of our Constitution. In this particular area of the law, we ought to make sure it is built in.

The Judiciary bill provides ongoing FISA Court supervision, including audits of surveillance programs. Again, a check and balance.

And then, of course, there is the issue on which Senator DODD has been such a leader, and that is the issue of immunity, immunity for telecommunications companies that cooperated with the administration's warrantless surveillance program.

Let me point out that there were some companies that did not go along with it. Let's not be led to believe that every company rolled over and said: Here, have at it. There were some that stood up for the law, the law that was supposed to guide them. There were some that stood up for the American people, and I thank them.

To the others, what I say to them is this—I understand why they might not have stood up, but we have to get to the bottom of this issue. We cannot go around giving people immunity when they turn their backs on the rule of law.

Granting immunity without fully understanding whether Americans were spied upon in a warrantless surveillance program is irresponsible because of this reason: Congress and the American people will be blocked from finding out the truth about the warrantless program. We may not find out for 20 years, 30 years, 40 years. That is wrong. The American people deserve to know the truth.

Again, I take it to what we are as a nation. We are a free people. Our people deserve to be protected. The ones who are bad apples deserve to be caught and face the music. We need to find a law that seeks that balance and gets that balance. I think the Judiciary Committee did that beautifully, and I wish that was the bill in front of us now. That is why I voted not to proceed to the Intelligence Committee version.

Having said this, I hope we can work together and improve the Intelligence Committee bill. The Intelligence Committee version of the bill with telecom immunity puts the interests of the telecom companies ahead of the rights of the American people.

In closing, this is a watershed moment for us. Why do I say that? I heard Senator SESSIONS come down and give a very eloquent speech. He said, "The civil"—I am quoting him now—"The civil libertarians among us"—and then he listed all the bad things he thinks the civil libertarians among us have done. I hope every one of us—every one of us in this Chamber—supports the civil liberties of the United States of America because if you don't, you don't believe in the Constitution. That is where we get these rights.

We need a FISA bill that will help us continue to track the terrorists without surrendering our rights and our liberties, and this can be done. I hope we can get a coalition together and amend this Intelligence Committee bill in a way that will do just that. We need a bill that closes loopholes in FISA that clearly have been created by advancements in technology. I understand that. But we also need a FISA bill that, while it allows us to go after the bad guys, has proper checks and balances within it. We need a bill that will improve FISA Court oversight of our foreign surveillance programs without hindering our ability to protect our country. We can do that.

I believe the Judiciary Committee version of the FISA bill accomplishes these goals. We don't have to create it here. They did an excellent job. It seems to me to throw out all their work would be a big error.

Finally, my point: It is so ironic and sad to me that we are losing our beautiful young people, and, by the way, not so young, some from the National Guard who are in their thirties and forties and older. We are losing them every day over in Iraq. Why? Ask the President to answer that question. He will be quick to answer it eloquently. To bring freedom and democracy, bring freedom and democracy, bring freedom and democracy.

If you feel that way, Mr. President, and those who support him and have given him a blank check, then let's protect it at home in a way that allows us to go after those who will do us harm if we are not careful, and yet protects the very essence of our Nation, the very freedom of our Nation, the very essence of our Constitution that has brought us to this point where the world envies our freedom and democracy. To give it up for politics or sound bites or 30-second commercials on television would be a dereliction of our most sacred duty.

I yield the floor.

The PRESIDING OFFICER (Mrs. MURRAY). The Senator from Rhode Island is recognized.

Mr. WHITEHOUSE. Madam President, I ask unanimous consent to be recognized for 15 minutes and that the Senator from California, Mrs. FEINSTEIN, be recognized next if no Member of the minority seeks recognition.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. WHITEHOUSE. Madam President, just recently, the Attorney General of the United States published an opinion piece in the Los Angeles Times on our ongoing work to improve the Foreign Intelligence Surveillance Act, what we call FISA. This follows closely on a similar opinion piece by the Director of National Intelligence, Admiral McConnell, in the New York Times.

I ask unanimous consent to have printed in the RECORD each of these documents.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the Los Angeles Times, Dec. 12, 2007]

A FISA FIX

(By Michael B. Mukasey)

One of the most critical matters facing Congress is the need to enact long-term legislation updating our nation's foreign intelligence surveillance laws. Intercepting the communications of terrorists and other intelligence targets has given us crucial insights into the intentions of our adversaries and has helped us to detect and prevent terrorist attacks.

Until recently, our surveillance efforts were hampered by the unintended consequences of an outdated law, the Foreign Intelligence Surveillance Act, which was enacted in 1978 to establish a system of judicial approval for certain intelligence surveillance activities in the United States.

The requirement that a judge issue an order before communications can be intercepted serves important purposes when the target of the surveillance is a person in our country, where constitutional privacy interests are most significant. The problem, however, was that FISA increasingly had come to apply to the interception of communications of terrorists and other intelligence targets located overseas. In FISA, Congress had embedded the crucial distinction between whether targets are inside or outside our country, but did so using terms based on the technology as it existed then. However, revolutionary changes in communications technology in the intervening years have resulted in FISA applying more frequently to surveillance directed at targets overseas. The increased volume of applications for judicial orders under FISA impaired our ability to collect critical intelligence, with little if any corresponding benefit to the privacy of people in the U.S.

This summer, Congress responded by passing the Protect America Act. That law, passed with significant bipartisan support, authorized intelligence agencies to conduct surveillance targeting people overseas without court approval, but it retained FISA's requirement that a court order be obtained to conduct electronic surveillance directed at people in the United States. As J. Michael McConnell, the director of national intelligence, stated, the new law closed dangerous gaps that had developed in our intelligence collection. Congress, however, set the act to expire on Feb. 1, 2008.

It therefore is vital that Congress put surveillance of terrorists and other intelligence targets located overseas on surer institutional footing. The Senate Intelligence Committee has crafted a bill that would largely accomplish that objective. Recognizing the uncommon complexity of this area of the law, the committee held numerous hearings on the need to modernize FISA, received classified briefings on how various options would affect intelligence operations and discussed key provisions with intelligence professionals and with national security lawyers inside and outside government. This thorough process produced a balanced bill approved by an overwhelming, and bipartisan, 13-2 vote.

The Senate Intelligence Committee's bill is not perfect, and it contains provisions that I hope will be improved. However, it would achieve two important objectives. First, it would keep the intelligence gaps closed by ensuring that individual court orders are not required to direct surveillance at foreign targets overseas.

Second, it would provide protections from lawsuits for telecommunications companies that have been sued simply because they are believed to have assisted our intelligence agencies after the 9/11 attacks. The bill does not, as some have suggested, provide blanket immunity for those companies. Instead, a lawsuit would be dismissed only in cases in which the attorney general certified to the court either that a company did not provide assistance to the government or that a company had received a written request indicating that the activity was authorized by the president and determined to be lawful.

It is unfair to force such companies to face the possibility of massive judgments and litigation costs, and allowing these lawsuits to proceed also risks disclosure of our country's intelligence capabilities to our enemies. Moreover, in the future we will need the full-hearted help of private companies in our intelligence activities, we cannot expect such cooperation to be forthcoming if we do not support companies that have helped us in the past.

The bill that came out of the Senate Intelligence Committee was carefully crafted and is a good starting point for legislation. Unfortunately, there are two other versions of the bill being considered that do not accomplish the two key objectives. The House of Representatives recently passed a version that would significantly weaken the Protect America Act by, among other things, requiring individual court orders to target people overseas in order to acquire certain types of foreign intelligence information. Similarly, the Senate Judiciary Committee made significant amendments to the Senate Intelligence Committee's bill that would have the collective effect of weakening the government's ability to effectively surveil intelligence targets abroad.

Moreover, neither the House bill nor the Senate Judiciary Committee's version addresses protection for companies that face massive liability. Both the Senate Judiciary Committee amendments and the House bill passed largely on party lines, and the full Senate will be debating this issue shortly

Congress must choose how to correct critical shortcomings in our foreign intelligence surveillance laws. It is a time for urgency. The Protect America Act expires in just two months, and we cannot afford to allow dangerous gaps in our intelligence capabilities to reopen. But this is also a time of opportunity, when we can set aside political differences to develop a long-term, bipartisan solution to widely recognized deficiencies in our national security laws. When Congress returns to this challenge, it should continue on the course charted by the Senate Intelligence Committee.

[From the New York Times, Dec. 10, 2007]

HELP ME SPY ON AL QAEDA

(By Mike McConnell)

The Protect America Act, enacted in August, has lived up to its name and objective: making the country safer while protecting the civil liberties of Americans. Under this new law, we now have the speed and agility necessary to detect terrorist and other evolving national security threats. Information obtained under this law has helped us develop a greater understanding of international Qaeda networks, and the law has allowed us to obtain significant insight into terrorist planning.

Congress needs to act again. The Protect America Act expires in less than two months, on Feb. 1. We must be able to continue effectively obtaining the information gained through this law if we are to stay ahead of terrorists who are determined to attack the United States.

Before the Protect America Act was enacted, to monitor the communications of foreign intelligence targets outside the United States, in some cases we had to operate under the Foreign Intelligence Surveillance Act, known as FISA, a law that had not kept pace with changes in technology. In a significant number of these cases, FISA required us to obtain a court order. This requirement slowed—and sometimes prevented—our ability to collect timely foreign intelligence.

Our experts were diverted from tracking foreign threats to writing lengthy justifications to collect information from a person in a foreign country, simply to satisfy an outdated statute that did not reflect the ways our adversaries communicate. The judicial process intended to protect the privacy and civil liberties of Americans was applied instead to foreign intelligence targets in foreign countries. This made little sense, and the Protect America Act eliminated this problem.

Any new law should begin by being true to the principles that make the Protect America Act successful. First, the intelligence community needs a law that does not require a court order for surveillance directed at a foreign intelligence target reasonably believed to be outside the United States, regardless of where the communications are found. The intelligence community should spend its time protecting our nation, not providing privacy protections to foreign terrorists and other diffuse international threats.

Second, the intelligence community needs an efficient means to obtain a FISA court order to conduct surveillance in the United States for foreign intelligence purposes.

Finally, it is critical for the intelligence community to have liability protection for private parties that are sued only because they are believed to have assisted us after Sept. 11, 2001. Although the Protect America Act provided such necessary protection for those complying with requests made after its enactment, it did not include protection for those that reportedly complied earlier.

The intelligence community cannot go it alone. Those in the private sector who stand by us in times of national security emergencies deserve thanks, not lawsuits. I share the view of the Senate Intelligence Committee, which, after a year of study, concluded that "without retroactive immunity, the private sector might be unwilling to cooperate with lawful government requests in the future," and warned that "the possible reduction in intelligence that might result from this delay is simply unacceptable for the safety of our nation."

Time for the Protect America Act is growing short, but there is still an opportunity to enact permanent legislation that helps us to better confront both changing technology and the enemies we face in a way that protects civil liberties.

I served for almost 30 years as an intelligence officer before spending some time in the private sector. When I returned to government last winter, it became clear to me that our foreign intelligence collection capacity was being degraded. I was very troubled to discover that FISA had not been updated to reflect new technology and was preventing us from collecting foreign intelligence needed to uncover threats to Americans.

The Protect America Act fixed this problem, and we are safer for it. I would be gravely concerned if we took a step backward into this world of uncertainty; America would be a less safe place.

Mr. WHITEHOUSE. Madam President, both opinion pieces go on at some length about the importance of new legislation on foreign surveillance activities. They devote paragraph after paragraph to this issue. But the two leaders of America's law enforcement and intelligence communities completely ignore, never once mention, the issue that is actually in dispute; that is, on what terms will we allow this administration to spy on Americans?

We all agree to unleash our intelligence agencies on foreign targets of foreign surveillance. There is no question there. The heart of the debate is the question of spying on Americans, one, when they are outside the country, or, two, when they are incidentally intercepted by surveillance targeted at someone else.

This, the wiretapping of Americans, has been the entire subject of our work on surveillance. And yet Judge Mukasey and Admiral McConnell never once mentioned the topic. There are only two possibilities and each is regrettable. One is that these two gentlemen simply don't know what is going on, which seems unlikely since Director McConnell has participated in hearings on the subject, and we discussed in detail our concern about wiretapping Americans, and members of my staff are working through the details of the issue on a nearly daily basis with lawyers at the Director of National Intelligence and the Department of Justice.

So that leaves only one alternative that these two gentlemen do know what is going on and just chose to talk past the issue, ignore its very existence. That is a shame, and I hope it is not the early propaganda phase of a Bush administration effort to replicate the August stampede that got us into this pickle in the first place.

Since they have not mentioned it, let me tell you what the problem is. The Protect America Act passed in the August stampede contains no statutory limitation on this administration's ability to spy on Americans traveling abroad whenever it wants, for whatever purpose. Let me repeat that. The Protect America Act contains no statutory restriction on this administration's ability to spy on Americans traveling abroad whenever it wants, for whatever purpose.

The only limitation that now exists on that power is section 2.5 of Executive order No. 12333, which says the administration will not wiretap Americans overseas unless the Attorney General determines that person is an agent of a foreign power.

The problem, as I noted in a speech in this Chamber recently, is a secret Bush administration Office of Legal Counsel memo related to surveillance activities which says this:

> An Executive order cannot limit a President. There is no constitutional requirement for a President to issue a new Executive order whenever he wishes to depart from the terms of a previous Executive order. Rather than violate an Executive order, the President has instead modified or waived it.

In other words, the only thing standing between Americans traveling overseas and a Government wiretap is an Executive order that this President believes he is under no obligation to obey and may secretly disregard. The only thing standing between Americans traveling overseas and a Government wiretap is an Executive order this President believes he has no obligation to obey and may secretly disregard.

So for months we have worked to repair the flawed bill of August, and the question of spying on Americans has been the issue—the issue—of concern. I and my staff, many of my colleagues on both sides of the aisle and their staffs have been working diligently and in good faith to solve this problem. What I have seen in these negotiations has been a thoughtful exchange by well-intentioned people who are committed to keeping America safe without trampling on the rights of Americans.

We have talked not only with each other on both sides of the aisle but also with people in this administration, including staff attorneys at the DOJ and DNI. We have worked almost all the way toward making sure Americans who are incidentally intercepted enjoy full, meaningful minimization protections. I think we have worked all the way toward making sure a court order is required to wiretap an American who happens to be overseas.

For both Director of National Intelligence McConnell and Attorney General Mukasey to write an op-ed as if the issue of spying on Americans abroad has no role in this debate, when it has been the key and central issue in this debate, is, frankly, disappointing. One wonders how big the elephant in the room has to be before they are willing to acknowledge it. Ignoring this problem may serve the Bush-Cheney interest in unaccountable executive power, but it does not protect Americans' privacy and it does not make Americans safer.

I urge my colleagues to remember that the issue we have been grappling with is a simple one: On what terms will we allow this administration to spy on Americans? It is a question with real implications for our democracy, for our civil liberties, and ultimately for the security of this Nation.

Unless we really believe that when Americans leave our country we leave our civil rights behind, unless we really believe this Government should have unfettered power to eavesdrop on conversations of families vacationing in Europe or soldiers serving in Iraq, then the authority to spy on Americans abroad cannot be left under the exclusive control of this administration. It is a matter that must be solved in this legislation that Congress must pass to restore the Protect America Act to a fair appreciation of civil liberties.

That is why we have been working on this question so hard. It is a serious question. I wish the two gentlemen leading the key Departments of Government involved had recognized that it exists, and I urge my colleagues to insist on the protections we have worked so hard for—to protect Americans from surveillance in a way the intelligence community has come to support.

We have come a long way. Chairman ROCKEFELLER is owed our gratitude, as is Chairman LEAHY. Their leadership in this has been spectacular. I also wish to express appreciation for the efforts of the distinguished ranking members, Senators KIT BOND and ARLEN SPECTER. We are on the verge of a historic moment in the rights of Americans and in making sure that when they travel abroad it is clear that they take their rights with them. Let us not let this moment slip away.

Madam President, how much time remains of my 15 minutes?

The PRESIDING OFFICER. The Senator from Rhode Island has 6½ minutes remaining.

Mr. WHITEHOUSE. Let me say one thing quickly, and we will come back to it, I believe, when amendments come forward.

With respect to the question of how we deal with the litigation that presently involves certain telephone communications carriers, I think everybody in this Chamber should remember the impossible predicament in which those companies have been placed. There are litigants, private litigants in court, in an ongoing action, and the Government has come in and told them: You may not defend yourself. It has told them: You may not say one word in defense of this litigation. National security is asserted as the reason, and all of the threats that come with violations of national security are in play.

So there they are, private litigants in private litigation, and the Government has stepped in and said: You may not defend yourself. I think we have to do something about that. Along with what the ranking member of the Judiciary said earlier, the distinguished Senator from Pennsylvania, Mr. SPECTER, I think the only decent thing we can expect the Government to do is to at least step in itself for these litigants. If they are going to tell the carriers they can't defend themselves in court in ongoing litigation, the least this Government should be able to do is to step in and say: We will step in and substitute ourselves for you.

So I applaud what Senator SPECTER has done with his substitution bill, and I look forward to a discussion of that.

I yield the remainder of my time, and I yield floor.

The PRESIDING OFFICER. The Senator from California.

Mrs. BOXER. Madam President, I ask unanimous consent that I may yield the remainder of my hour postcloture to Senator DODD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Connecticut.

Mr. DODD. Madam President, let me begin by thanking my colleague from California, Senator BOXER, not only for her generosity in giving me some additional time, but also for her comments regarding the underlying discussions on the FISA legislation and the provisions of the law before us for our consideration. I appreciate her comments and her thoughts on the subject matter.

I have already spoken at some length on FISA this morning, on these amendments, this new legislation before us, and my concern for what I consider to be the most egregious provision in this proposed legislation—that is, the retroactive immunity for the telecommunications industry that may have helped the President break the law. I have objected to that immunity on some very specific grounds because it would cover up an immense violation of trust, privacy, and civil liberties in our country.

This was not some small matter. It was not a one-time event. It went on for 5 years, in an elaborate and extensive way. But even more importantly, immunity is wrong because of what it represents. This is a fatal weakening of the rule of law which shuts out our independent judiciary and concentrates power in the hands of the executive.

FISA, as we have seen, was written precisely to resist that concentration. That the motivation in 1976–1978 when this legislation was drafted: making sure we could bridge this gap between security and rights, protecting both our security and our fundamental liberties. When we divide that power responsibly between the legitimate legislative, judicial, and executive branches, terrorist surveillance is not weakened; it is strengthened and made more judicious and more legitimate and less subject to the abuses that sap public trust.

But when millions of people, for over 5 years, had their private communications interrupted by the telecommunications industry, without a court order—which is what the law requires—the spirit of FISA has been undermined, and the public trust has been sapped. That, Mr. President, compromises our security.

I firmly believe, therefore, that any changes to FISA must be in keeping with its original spirit of shared powers, respect for the rule of law. If we act wisely, we can ensure terrorist surveillance remains inside the law and not an exception to it.

The Senate should pass a bill doing just that, and we will have the opportunity to do so; but the FISA Amendments Act, as it comes to us from the Intelligence Committee, is not that bill. Its safeguards against abuse, against the needless targeting of ordinary Americans, are far too weak. The power this bill concentrates in the hands of the administration is far too expansive.

However, the Senate also has before it a version of the bill that embodies a far greater respect for the rule of law. The version crafted by the Senate Judiciary Committee substituted a completely new title I and was reported out on November 16. Both versions of the bill authorize the President to conduct overseas surveillance without individual warrants. Let me repeat that: both bills—both versions of the bill authorize the President to conduct overseas surveillance without individual warrants.

Madam President, I see my colleague from California arriving on the floor, so I will yield the floor to her. I will ask when I come back to pick up my remarks as if uninterrupted, when the Senator from California completes her remarks; or the Senator from Missouri may have some thoughts on this legislation, and I will be more than happy to yield to him, as well, before coming back to the remarks I was in the midst of giving.

But I appreciate the opportunity to address the subject of retroactive immunity, which is the reason I am here on this matter today. So I look forward to hearing from the Senator from California, and I am withholding my time, and I yield the floor.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from California.

Mrs. FEINSTEIN. Indeed, Madam President, I am taken aback by the generosity of the Senator from Connecticut, and I want him to know I very much appreciate it.

I wish to make a few comments on this bill and then introduce two amendments. These two amendments are very important to me because without them I am going to have a great deal of trouble voting for the final product. I say that as a predicate.

First, the general comments.

On December 16, 2005, the New York Times introduced the world to a secret NSA surveillance program, later dubbed the "terrorist surveillance program," or TSP as it came to be known. This program, ordered by the President after September 11, 2001, was conducted in violation of U.S. law.

I have served on the Intelligence Committee for more than 6 years now and on the Judiciary Committee for almost 15 years, and I can tell you that NSA signals intelligence is an indispensable tool on the war on terror. No one should think there aren't people who would do us harm. The only way to wage this war on terror is to find them before they find us. At the same time, it is crucial to remember the history.

FISA was first enacted in 1978 in the wake of major civil rights abuses of foreign intelligence. The White House had authorized surveillance on Americans because of their political views—Martin Luther King, Joan Baez, and many others—a massive drift net collection of communications of U.S. citizens into and out of the United States. FISA was enacted to ensure such abuses would not occur again, and it has, in fact, safeguarded Americans' privacy rights for the past 30 years.

FISA requires court review and approval when surveillance is targeting a person inside this country. No content can be collected on an individual unless there is a warrant by the FISA Court.

As has been pointed out many times, changes in telecommunications technology and a change in the nature of our enemies have made updates to the 1978 FISA law necessary. New legislation is, in fact, needed to redraw the lines detailing when and where surveillance can take place and when a court warrant is required. That is what this debate is about and that is what the cloture vote just began.

To be clear, these modifications should not come at the expense of civil liberties protections that are enshrined in our Constitution. Today, in my view, it is clear that the administration made a big mistake in not using FISA in the first place. I have consistently said that I thought the terrorist surveillance program could be done under FISA. A FISA Court judge proved this correct earlier this year. If changes to FISA were needed to accomplish this surveillance, the administration should have requested those changes when we reauthorized the PATRIOT Act.

But, instead, the White House and Department of Justice relied on a new and aggressive interpretation of the President's article II authority under the Constitution, and a flawed argument that the authorization to grant military force use provided a statutory exemption to FISA. That was a big mistake. It is clear to me from the Office of Legal Counsel opinions that individuals in the Justice Department did not feel bound by established U.S. law, but proceeded under a new and expanded view of Presidential authority to move forward with the program.

With this bill, we can turn the page on a sad portion of our Nation's history. Both the Intelligence and the Judiciary bills will keep the terrorist surveillance program under FISA, and it will restore protections for America's privacy rights in ways that the Protect America Act does not. Let me give a few examples.

No. 1, this bill categorically requires an individualized warrant any time surveillance targets someone inside the United States. So the argument about a great drift net being cast across the United States, picking up tens of thousands of America's phone calls, simply is not correct. Targets outside the United States would be subject to a program warrant where the FISA Court reviews the targeting, in what are called minimization procedures.

No. 2, the FISA Court review must be involved any time the intelligence community is conducting surveillance on an American anywhere in the world. By that I mean any time a American is collected for content anywhere in the world, that individual becomes a target. Until now, the Attorney General has authorized, under section 2.5 of Executive Order 12333, surveillance of Americans outside the country. There has been no FISA Court review in these cases.

The numbers of Americans targeted overseas were between 50 and 60 cases last year, according to the DNI—last year being 2006. So the numbers are small, and reports are made anonymous through minimization, and only included if they contained foreign intelligence value.

No. 3, the bill puts the FISA Court review upfront, where it belongs, rather than 4 months after collection has begun, as was done under the Protect America Act. In other words, upfront the FISA Court reviews the minimization and approves that minimization, and can say to the Department: We want you to come back in 6 months or 8 months or 3 months, and we will take another look at it.

No. 4, procedures known as "minimization" are clearly defined and applied. This has been a hallmark of FISA for 30 years, but was not included in the Protect America Act. Once again, minimization is the process that the intelligence community has used since 1978 to protect information concerning Americans. When the NSA collects the content of communications, it does so to write intelligence reports. Minimization states that information without a foreign intelligence purpose is not used, and it cannot be retained indefinitely. It must be discarded at some point.

Intelligence reports that use information about an American are made anonymous, to protect that person's privacy rights. The bill requires that the minimization procedures used in each program be approved by the court upfront, so they go to the court first and they say this is what we want to do and these are the procedures we will use, and the court can affirm it or deny it. But it goes before a court.

If the amendments are adopted, the court will have the power to review how the minimization is being applied as well, so they will have constant review of the process.

No. 5, oversight mechanisms are stronger in this legislation. Reviews are required by inspectors general, agency heads, the FISA Court, and the Congress on how the surveillance authority is being used.

I wish to speak for a moment on the subject of telecom liability and then on exclusivity. If I might, I wish to do the exclusivity first.

On behalf of myself, Senator ROCKEFELLER, Senator LEAHY, and Senator NELSON, I send an amendment to the desk.

The PRESIDING OFFICER. The amendment may be filed but not offered.

Mrs. FEINSTEIN. Madam President, this bill does not include language I authored to strengthen the exclusivity provisions of FISA. It has been reviewed by the chairman of the Intelligence Committee, the chairman of the Judiciary Committee, and they are both cosponsors, as well as an additional cosponsor in Senator BILL NELSON of Florida, who is also a member of the Intelligence Committee. Basically, what this amendment does is strengthen FISA as the only and exclusive authority for gathering intelligence through electronic surveillance. It specifically closes the AUMF loophole I mentioned earlier, whereby the administration contends it does not need FISA approval.

Second, it provides that only another statute, specific statute can constitute an additional exclusive means of electronic surveillance.

Third, it strengthens the requirements for certifications. The administration must identify the specific provision of the law on which the certification is based.

The exclusivity amendment I have submitted is intended to reinforce the legislative intent of the bill. In 1978, when the bill was passed, the court was to be absolute when conducting electronic surveillance against Americans for foreign intelligence purposes. Unfortunately, despite the 1978 language, the Bush administration decided it could go outside the law. That was both wrong and unnecessary.

To make matters worse, the administration made up an argument that Congress had authorized it to go around FISA by some passing the authorization for use of military force against al-Qaida and the Taliban. Does anyone here actually believe that? I do not know one Member of Congress who has stated publicly that they believed they were authorizing the terrorist surveillance program when they voted to go to war against bin Laden. In fact, to the contrary, it was never considered and to the best of my knowledge it was never thought of. When the Department of Justice came to the Congress in September 2001, outlining the changes it needed in FISA to wage this war, it did not mention anything about surveillance efforts such as those the TSP program addressed.

Congressional intent from 1978 is clear. Congress clearly intended for FISA to be the exclusive authority under which the executive branch may conduct electronic surveillance. Let me briefly review the history, because it is important.

Congress wrote, in 1978, in report language accompanying FISA:

> Despite any inherent power by the President to authorize warrantless electronic surveillance in the absence of legislation, by this bill and chapter 119 of title 18, Congress will have legislated with regard to electronic surveillance in the United States, that legislation, with its procedures and safeguards prohibit the President, notwithstanding any inherent powers, notwithstanding any inherent powers—

Which means AUMF, article II of the Constitution

> —from violating the terms of that legislation.

That is a quote. The legislative history continues by describing the Supreme Court's decision in the Keith case, in which the Court ruled at that time Congress hadn't ruled in this field, and simply left the Presidential powers where it found them.

But at this point the legislative history turns. The 1978 language responded to the Keith case and said this:

> The Foreign Intelligence Surveillance Act, however, does not simply leave Presidential powers where it finds them. To the contrary, this bill would substitute a clear legislative authorization pursuant to statutory, not constitutional, standards.

I want the record to show here the clear understanding in 1978 that FISA was the exclusive authority. That was the report language accompanying H.R. 7138 as it passed the 95th Congress.

President Carter signed the bill. His signing statement said this:

> This bill requires, for the first time, a prior judicial warrant from all electronic surveillance for foreign intelligence or counterintelligence purposes in the United States in which communications of U.S. persons might be intercepted.

That is pretty clear, on the part of the President who signed the bill, and the House and the Senate that passed that bill, what the intention was.

The Intelligence Committee bill before us reiterates the 1978 exclusivity language, but I believe this needs to be strengthened in light of the article II and the AUMF arguments that this administration has been making. I am going to introduce this amendment at this time.

This language closes loopholes that this Department of Justice squeezed through, to claim that the AUMF was an authorized exception to the FISA. It clearly was not. The amendment does this by tightening language in FISA, and in title 18 of the criminal code, making clear that future Presidents should not try to read between the lines in future legislation for authorization to go outside of the Foreign Intelligence Surveillance Act.

It also provides more specificity in what must be included in written requests or directives to telecommunications authorities for them to legally provide assistance. It is clear from the recent history that this is necessary. In fact, the whole issue of whether telecom immunity is needed is because past certifications have not been clear.

I couldn't support a bill that did not clearly reestablish the primacy of FISA. I tried to do it in committee. I thought it was done in committee. It was not included in the base bill. The Republican side would not go along with it. I once again submit it. To me it is vital, and my vote on the bill was, at least 50 percent, based on this exclusivity provision.

Now, if I may, may I mention telecom immunity and submit an amendment? I voted for telecom immunity in the committee. I am not inclined to vote for it, to be candid with you, unless this amendment is adopted. So let me begin by talking about the immunity provision of the bill. It is not as expansive as some would make it sound. The language would only cover cases where the Attorney General certifies that the defendant companies received written requests or directives from top levels of the Government for their assistance.

In other words, the Government, in writing, I stress in writing, assured those companies that the program was legal, the President had authorized the program, and that its legality has been approved by the Attorney General.

The legislation does not provide immunity for criminal wrongdoing, nor does the legislation provide liability relief for any Government official such as that the Director of National Intelligence had requested in April. No individual immunity of anyone in the government is included in this bill.

There are approximately 40 cases pending in the Ninth Circuit. The companies in these cases are prevented from making their own defense. I do not know if Members understand the full importance of this. They are prevented from responding to inaccurate news articles, inaccurate press releases, they cannot come before the Congress and testify in public, they cannot respond to anything that is said in the public sector, and they are prevented from defending themselves in court.

These defendants have to sit by and listen to what they consider to be misrepresentations, and they cannot respond to these misrepresentations. So, in effect, they are handcuffed and gagged by the administration's claim of state secrets. This is a matter of fairness. These companies have no financial motives in providing assistance to the Government. In fact, they incurred a substantial risk in doing so. They were given written requests, legal assurances in the weeks after September 11. The letters went out within 5 weeks of September 11, when we all feared this Nation might suffer additional attacks.

In fact, evidence has come to light to indicate the second wave of attacks involving the West Coast was being planned. It was this administration, not the companies, that made a flawed legal determination. It was this administration that withheld its activities from the Congress for 4 long years. It was this administration that decided not to go to the FISA Court. They could have gone to the FISA Court. They could have asked for a program warrant, which they subsequently got.

They could have put this program under FISA coverage, which it now is, which they did not at the time.

It has been pointed out that there is a longstanding common law provision that allows citizens to rely on the assumption that the Government acted legally when it asks a private citizen or a company to assist it for the common good. All that is required is that the citizen act in good faith.

So the question is whether the small number of people, and it was a small number of people, who were actually cleared in a classified sense, to deal with this, of these companies, were acting in good faith and whether it was reasonable for them to determine that the assistance, in fact, it provided was legal.

A small number of telecom officials were acting under the cloak of secrecy and a directive not to disclose the Government's request. They are not experts on article II of the Constitution. The amendment I am going to submit would put before the FISA Court the question of whether the telecommunications companies should, in fact, receive immunity based on the law.

The FISA Court would be required to act, en banc, and how this is, is 15 judges, Federal judges, appointed by the Chief Justice, they sit 24/7, and this is all they do, they would act en banc. They would look at the following: Did the letters sent to the carriers which were repeated virtually every 35 to 45 days over the last 4 to 5 years, did the letters sent to the carriers meet the conditions of law.

Section 2511 of title 18 clearly states that a certification from the Government is required in cases where there is no court order. That is the only two ways that FISA allows this to proceed, by written certification or by court order.

The Government has to certify in writing that all statutory requirements for the company's assistance have been met. So the FISA Court would first look at whether the letter sent to the companies met the terms of this law. The court would then look at, if the companies provided assistance, was it done in good faith and pursuant to a belief that the compliance was legal.

Finally, the FISA Court would ask: Did the defendants actually provide assistance? If the FISA Court finds that defendant did not provide any assistance to the Government or that the assistance either met the legal requirements of the law or was reasonably and in good faith, the immunity provision would apply.

If the FISA Court finds that none of these requirements were met, immunity would not apply to the defendant companies. I think the merit of this approach is it preserves judicial review, the method we look at in order to decide questions of legality.

Now, the bulk of the Members of this body, probably 90 percent of them, have not been able to see the written certification, so you do not know what was there. What we ask in this amendment is: FISA Court, you take a look at these letters, and you make a ruling as to whether they essentially meet the certification requirements of the FISA law.

Therefore, there is judicial review to determine whether, under existing law, this immunity should be forthcoming. It is a narrowing of the immunity provisions of the Intelligence bill. I think it makes sense. I read the letters. I am a layperson, I am not a lawyer. I cannot say whether they met the immunity provisions. Others can say that.

But it should be up to a court to make that decision. It seems to me that if the FISA Court finds that none of these requirements were met, immunity would not apply to the defendant companies.

The FISA Court of Review stated in 2002 that the President has article II authorities to conduct surveillance. The article II authority is the big rub in all this. The collection under this program was directed overwhelmingly at foreign targets.

But no court has addressed this issue since FISA was enacted in 1978. And, candidly, I think the time has come to see whether the President's article II authority—and the FISA Court would be the first judge of this—in fact, supersedes the article II authority based on the reading that I had given you of FISA Court passage in 1978.

So essentially that is the amendment I would like to send to the desk at this time which narrows the immunity provision of the FISA law. I thank the clerk for receiving the amendment.

In sum, I have tried to pay a great deal of attention to this. I tried to do my due diligence, both as a member of the Judiciary Committee and the Intelligence Committee. I truly do believe electronic surveillance is vital in the war against terror.

I believe it is the most likely way we learn what is being planned for the future and have an opportunity to prevent it from happening. I truly believe there are people who would do this Nation grievous injury and harm if they are given the opportunity to do it, and I think the telecom communities did depend on the good faith of the head of the National Security Agency and the Attorney General and the requests from the highest levels of Government.

The question is, Did they comply with the law? And so the amendment I have suggested would give the FISA Court the opportunity to make a ruling as to whether, in fact, they did comply with the law.

The second amendment would strengthen the exclusivity provisions of the FISA law so we never again, hopefully, will find ourselves in the same situation.

I look for a vote on both those amendments, and I thank the Chairman of the Intelligence Committee, the Judiciary Committee and Senator NELSON for supporting my amendment on exclusivity.

I ask unanimous consent that Senator NELSON of Florida be added as a cosponsor of the FISA Court evaluation on the immunity question amendment.

The PRESIDING OFFICER (Mr. WEBB.) Without objection, it is so ordered.

Mrs. FEINSTEIN. I thank the Senator from Connecticut for yielding to me.

Mr. KENNEDY. Mr. President, I am troubled by the FISA bill that has come to the Senate floor. Since I introduced the original FISA legislation over 30 years ago, I have worked to amend the FISA law many times, and I believe that this bill is not faithful to the traditional balance that FISA has struck. This bill gives the executive branch vast new authorities to spy on Americans, without adequate guidance or oversight. Americans deserve better.

I voted "yes" on the motion to proceed to consideration of this bill because I believe this legislation is too important to hold up any longer. The House has already passed a new FISA bill, and the Senate needs to do the same. But let me be clear, the Senate should reject the bill that we have before us. We need to pass the Judiciary Committee version instead.

The Foreign Intelligence Surveillance Act is one of our landmark statutes. For nearly three decades, it has regulated Government surveillance in a way that protects both our national security and our civil liberties and prevents the Government from abusing its powers. It is because FISA enhances both security and liberty that it has won such broad support over the years from Presidents, Members of Congress, and the public alike. It is important to remember that before this administration, no administration had ever resisted FISA, much less systematically violated it.

When the administration finally came to Congress to amend FISA after its warrantless wiretapping program was exposed, it did so not in the spirit of partnership, but to bully us into obeying its wishes. The Protect America Act was negotiated in secret at the last minute. The administration issued dire threats that failure to enact a bill before the August recess could lead to disaster. Few, if any, knew what the language would actually do. The result of this flawed process was flawed legislation, which virtually everyone now acknowledges must be substantially revised.

I commend the members of the Intelligence Committee for their diligent efforts to put together a new bill. They have taken their duties seriously, and they have made some notable improvements over the Protect America Act.

But their bill is deeply flawed, and I am strongly opposed to enacting it in its current form. This bill fails to protect Americans' constitutional rights and fundamental freedoms.

There are many problems with the bill.

It redefines "electronic surveillance," a key term in FISA, in a way that is unnecessary and may have unintended consequences.

Court review occurs only after the fact, with no consequences if the court rejects the Government's targeting or minimization procedures.

It is not as clear as it should be that FISA and the criminal wiretap law are the sole legal means by which the Government may conduct electronic surveillance.

Its sunset provision is December 31, 2013. For legislation as complicated, important, and controversial as this, Congress should reevaluate it much sooner.

The bill purports to eliminate the "reverse targeting" of Americans, but does not actually contain language to do so. For instance, it has nothing analogous to the House bill's provision on reverse targeting, which prohibits use of the authorities if "a significant purpose" is targeting someone in the United States.

It does not fully close the loophole left open by the Protect America Act, allowing warrantless interception of purely domestic communications.

It does not require an independent review and report on the administration's warrantless eavesdropping program. Only through such a process will we ever learn what happened and achieve accountability and closure on this episode.

Add it all up, and the takeaway is clear: This bill is inconsistent with the way FISA was meant to work, and it is inconsistent with the way FISA has always worked.

The Judiciary Committee's FISA bill shows that there is a better way. The Judiciary Committee's version is faithful to the traditional FISA balance. It shares the same basic structure, but it addresses all of the problems I listed above. The Judiciary bill was negotiated in public, which allowed outside groups and experts to give critical feedback. It was also negotiated later in time than the Intelligence bill, meaning we had the benefit of reviewing their work.

Like the Intelligence Committee's bill, the Judiciary Committee's version also gives the executive branch greater authority to conduct electronic surveillance than it has ever had before. Make no mistake, it too is a major grant of power to the intelligence community. But unlike the Intelligence Committee's bill, the Judiciary Committee's version sets some reasonable limits that protect innocent Americans from being spied on by their Government without any justification whatever.

No one should lose sight of how important title I of FISA is. The rules governing electronic surveillance affect every American. They are the only thing that stands between the freedom of Americans to make a phone call, send an e-mail, and search the Internet, and the ability of the Government to listen in on that call, read that e-mail, review that Google search. In our "information age," title I of FISA provides Americans a fundamental bulwark against Government tyranny and abuse. If we enact the title I that is now before us, we will undermine that bulwark.

Unfortunately, the exact same thing would be true if we enact the Intelligence Committee's title II.

The Nation was shocked to learn earlier this month that the CIA had destroyed videotapes showing employees using severe interrogation techniques. The willful destruction of these tapes by the CIA obviously raises serious questions involving obstruction of justice.

But this is not the only coverup that the administration has been involved in lately. President Bush has been demanding that Congress grant retroactive immunity to telecommunications companies that cooperated with the administration's illegal surveillance program. He wants us to pretend that this whole episode never happened.

I oppose granting any form of retroactive immunity to these companies, and I urge my colleagues to support the amendment to strike title II from the FISA bill. Amnesty for telecommunication companies may help the administration conceal its illegal spying, but it will not serve our national security, and it will further undermine the rule of law.

Let's not forget why we are even talking about this issue. At some point in 2001, the Bush administration began a massive program of warrantless spying. New reports suggest that the administration began its warrantless spying even before 9/11. The administration never told Congress what it was doing. In clear violation of the FISA law and in complete disdain for the fourth amendment, it also never told the FISA Court what it was doing.

Because the Bush administration secretly ignored the law, we still do not know how deeply this program invaded the privacy of millions of innocent Americans. The push for immunity by this administration is a push to avoid all accountability for a wiretapping program that was a massive violation of the law.

FISA has been in force for 29 years. It was designed from the beginning to allow flexibility in pursuing our enemies. It was enacted with strong bipartisan support in 1978, and it has been amended on a bipartisan basis some 30 times since then. It has enhanced Americans' security and safeguarded our liberty. Every previous administration has complied with FISA. But the Bush administration apparently decided that FISA was an inconvenience. With the help of certain phone companies, it secretly spied on

Americans for years, without any court orders or oversight.

There is still a great deal we don't know about this secret spying, but what we do know is alarming. Numerous reports indicate that it covered not only international communications, but also Americans' purely local calls with their friends, neighbors, and loved ones. A lawsuit in California has produced evidence that at the Government's request, AT&T installed a supercomputer in a San Francisco facility that copied every communication by its customers, and turned them over to the National Security Agency.

Think about that. The National Security Agency of the Bush administration may have been intercepting the phone calls and e-mails of millions of ordinary Americans for years.

The surveillance was so flagrantly illegal that even lawyers in the administration tried to fight it. Nearly 30 Justice Department employees threatened to resign over it. The head of the Office of Legal Counsel, Jack Goldsmith, testified that it was "the biggest legal mess I had ever encountered."

Mr. Goldsmith himself acknowledged that "top officials in the administration dealt with FISA the way they dealt with other laws they didn't like: they blew through them in secret based on flimsy legal opinions that they guarded closely so no one could question the legal basis of the operations."

Think about that as well. The President's own head of the Office of . Legal Counsel states that the administration's policy has been to "blow through" laws it doesn't like, in secret, so that its actions cannot be challenged. The Bush White House has repeatedly failed to understand that our Government is a government of laws, and not of men.

The administration's secret spying program has taken a heavy toll on our country. Its failure to follow the law has made it more difficult for prosecutors to put terrorists behind bars; for intelligence professionals to avoid civil and criminal lawsuits; and for the public to trust its Government. In the name of making us safer, the administration's reckless disregard for the law has made us less safe, and countless Americans fear their rights have been endangered. That sorry record demands accountability, not immunity.

Here is another fact that no one should lose sight of. From the very beginning, telecommunications companies have always had immunity under FISA when they comply with lawful surveillance requests. In fact, the Senate Judiciary Committee worked closely with AT&T, and the company played a major role in drafting FISA's immunity provisions in the 1970s.

To be completely protected from any liability whatever, all a company needs under FISA is a court order or an appropriate certification from the Attorney General. That is it. Just get one of those two documents, and you are off the hook.

So in this debate, let us be clear that we are not talking about protecting companies that complied with lawful surveillance requests. We are talking about protecting companies that complied with surveillance requests that they knew were illegal.

Immunity for the phone companies would be bad policy on many levels. First, it is premature even to be talking about this subject. Even though the President is demanding immunity for companies that may have broken the law, he will not tell all Members of Congress which companies broke the law, how they broke the law, or why they broke the law. He is asking us to legislate in the dark.

Immunity for the telecoms for warrantless wiretapping violates the basic structure and purpose of FISA. The industry helped draft FISA, and they perform a major role under it. Here is how this system was explained in the House Intelligence Committee report on the original legislation:

> Requiring the court order or certification to be presented [to the carrier] before the assistance is rendered serves two purposes. It places an additional obstacle in the path of unauthorized surveillance activity, and, coupled with the provision relieving the third party from liability if the order or certification is complied with, it provides full protection to such third parties.

If phone companies can ignore these requirements, this system of checks and balances collapses. That is exactly what happened here. The telecoms are supposed to provide an essential safeguard for protecting Americans' private information. Because Congress and the courts usually don't know about wiretapping activities, this role of the telecoms is crucial. Immunity for the telecoms undermines the basic design of our surveillance laws.

Instead of undermining those laws, we should apply them in a court of law to discover and punish illegal activities. The administration has used the scare tactic of claiming that lawsuits will jeopardize national security by leaking sensitive information. That argument ignores the fact that the media have already exposed the existence of its warrantless surveillance program and the role of some telecoms in assisting this program. In addition, it would be foolish to assume that the terrorists don't already know that we are trying to intercept their phone calls and e-mails.

The administration's argument also ignores the numerous safeguards used by courts to protect sensitive information. No one is advocating that the NSA disclose its specific methods or targets in open court. Even if someone did seek such disclosure, the Federal courts have procedures that have protected Government secrets for generations.

The administration has also suggested that allowing these lawsuits to proceed might jeopardize national security by deterring phone companies from future cooperation with surveillance requests. This too is sheer nonsense. Under FISA, companies already have absolute immunity for any lawful cooperation. Future companies will be deterred only from cooperating with illegal surveillance requests, which is the whole point of the law. We do not want this shameful episode to happen again.

The phone companies will suffer only the same harm that befalls any company that violates the law. The administration contends that the telecoms may be bankrupted if the lawsuits continue. In other words, the administration is telling us these companies may have engaged in lawbreaking on a scale so massive they could not afford the penalty if they are brought to justice. But massive law breaking is an argument against immunity, not for it. If the concern is the companies' financial health, the answer is not to throw out the rule of law but to legislate reasonable remedies, such as damage caps.

Immunity for the telecoms would also violate basic principles of fairness and justice. The administration repeatedly claims immunity is "a matter of basic fairness" because the companies were doing their patriotic duty. That is a strange conception of fairness.

Telecom companies have clear duties under the law. They also have highly sophisticated lawyers who deal with these issues all the time. If a company violated its clear duties and conducted illegal spying, fairness demands it face the consequences.

It is precisely because fairness and justice are so important to the American system of government that we ask an independent branch—the judiciary—to resolve such legal disputes. There is nothing fair or just about Congress stepping into ongoing lawsuits to decree victory for one side and deny injured parties their day in court.

Frankly—frankly—the whole "patriotic duty" argument we have been hearing from the White House is hard to take seriously. If the allegations against the telecoms are true, then we are not talking about ambiguous points of law. As a Federal judge remarked in one of the leading cases:

> AT&T cannot seriously contend that a reasonable entity in its position could have believed that the alleged domestic dragnet was legal.

We are not talking about what happened in the frantic weeks and months immediately following 9/11. We are talking about alleged violations of Americans' rights that went on for 5 years—5 years—in total secrecy, on a scale that has never been approached in our history.

If the telecoms had followed the law instead of the Bush administration, the administration could have come to Congress and obtained any needed changes in the law. In a democracy, it is the job of the legislature to amend laws to fit new circumstances. It is not the job of the legislature to rubber-stamp illegal conduct by the Executive.

Some of the telecoms might have been doing what they thought was good for the country. Some of them might simply have been doing what they thought would preserve their lucrative Government contracts. We simply do not know. But either way, it is not the role of the telecommunications companies to decide which laws to follow and which to ignore. FISA is a law that was carefully developed over many years to give the executive branch the flexibility it needs, while protecting the rights of Americans. It is the companies' legal duty—and their patriotic duty—to follow that law.

Nothing could be more dangerous for Americans' privacy and liberty than to weaken that law, which is precisely what retroactive immunity is meant to do. Yesterday's newspapers disclosed that in December of 2000, the National Security Agency sent the Bush administration a report asserting that the Agency must become a "powerful, permanent presence" on America's communications network—a "powerful, permanent presence" on America's communications network. Under this administration, that is exactly what the NSA has become. If the phone companies simply do the NSA's bidding in violation of the law, they create a world in which Americans can never feel confident that their e-mails and phone calls are not being tapped by the Government.

Finally, amnesty would stamp a congressional seal of approval on the administration's warrantless spying. If Congress immunizes the telecoms for past violations of the law, it will send the message Congress approves what the administration did. We would be aiding and abetting the President in his illegal actions, his contempt for the rule of law, and his attempt to hide his lawbreaking from the American people. Voting for amnesty would be a vote for silence, secrecy, and illegality. There would be no accountability, no justice, no lessons learned.

The damage will not stop there. The telecommunications companies are not the only private entity enlisted by this administration in its lawbreaking. Think about Blackwater and its brutal actions in Iraq, or the airlines that have flown CIA captives to be tortured in foreign countries. These companies may also be summoned to court one day to justify their actions. When that day comes, the administration may call yet again for retroactive immunity, claiming the companies were only doing their patriotic duty as "partners" in fighting terrorism.

The debate we are having now about telecom amnesty is not likely to be the last round in the administration's attempt to immunize its private partners. It is only the opening round. In America, we should be striving to make more entities subject to the rule of law, not fewer. Giving in to the administration now will start us down a path to a very dark place.

Think about what we have been hearing from the White House in this debate. The President has said American lives will be sacrificed if Congress does not change FISA. But he has also said he will veto any FISA bill that does not grant retroactive immunity—no immunity, no FISA bill. So if we take the President at his word, he is willing to let Americans die to protect the phone companies. The President's insistence on immunity as a precondition for any FISA reform is yet another example of disrespect for honest dialog and the rule of law.

It is painfully clear what the President's request for retroactive immunity is about. It is a self-serving attempt to avoid legal and political accountability and keep the American people in the dark about this whole shameful episode. Similar to the CIA's destruction of videotapes showing potentially criminal conduct, it is a desperate attempt to erase the past.

The Senate should see this request for what it is and reject it. We should pass this amendment to strike title II from the FISA bill. Our focus should be on protecting national security, our fundamental liberties, and the rule of law, not protecting phone companies that knew they were breaking the law.

I am second to no one in wanting to make sure our intelligence agencies have all the flexibility and authority they need to pursue the terrorists. We need to pass a FISA bill that will keep America strong and protect our liberty. The bill reported by the Judiciary Committee will do that.

Mr. DODD. Mr. President, will my colleague yield?

Mr. KENNEDY. I will be glad to.

Mr. DODD. Mr. President, I wish to commend the Senator from Massachusetts for his statement this afternoon. He has captured the essence of all this and the importance of the issue in Title II. He made very many good points. But one point he made said it all: that the President of the United States would veto the FISA legislation if he does not get immunity for the phone companies. This administration would risk the entire law—a law designed to improve our surveillance of terrorists, while respecting privacy—simply to protect a handful of companies. Those are the lengths to which President Bush is prepared to go.

I think the Senator from Massachusetts made this point, but it is worth repeating: Not every company did what the administration asked them to do. There were those that stood up and said: "No. Give me a court order, and I will comply under the law." They should be commended for what they did.

For those that said, "We were just doing our patriotic duty," their legal departments were not made up of first-year law students. They knew what the law was. Yet they may have violated it and are now seeking immunity.

So I commend my colleague. I am going to offer—when I get a chance—an amendment that strikes title II from the legislation. I hope every Senator here supports it. This ought not be about party or ideology. It is about our Constitution.

The FISA law is a good law. It has protected us for almost 30 years. But it should not sanction retroactive immunity for a handful of phone companies that eavesdropped on millions of people's conversations.

So I commend my colleague for his words.

Mr. KENNEDY. Mr. President, I thank the Senator for his comments. I agree it never had to be this way. I can remember back in 1976 President Ford was President of the United States. He had Edward Levi as Attorney General, who was a distinguished Attorney General. This was in the wake of a good deal of abuse we had seen during President Nixon's period of wiretap abuse taking place in this country, which shocked the Nation.

At that time, the Attorney General insisted that we work together, that Congress work together. He called members of the Judiciary Committee down to the Justice Department and took their views into consideration. There was a variety of very sensitive issues about activities involving the Soviet Union and a good deal in terms of embassies in Washington, DC. There was very sensitive information. All of that was worked out with the Republicans and Democrats in the Judiciary Committee, and they passed the FISA bill. There was only one dissenting vote in the Senate—only one dissenting vote—on this proposal.

I must say many of us were enormously disappointed at the beginning of this whole pathway when Attorney General Gonzales came up before the committee and indicated: No, there was not any role to try to work in a constructive way and on a constructive path on this mission. No, there was no place for anyone to get adequately briefed. No, there was no sharing of information. No, there was going to be no—they understood what was going to happen. They understood what was going on. They had all the authority and the power under the executive branch. No, there was not going to be any activity whatsoever in trying to work together.

I have mentioned a variety of different points. But one of those we ought to keep in mind is that with the abuses that have taken place, we are endangering the prosecution of many of these terrorists. This is a real danger. Rather than trying to work that out through a process, with give-and-take, with Republicans and Democrats, in a bipartisan way, working with the Judiciary Committee—the Intelligence Committee obviously has enormous interest and experience; I see my friend and someone we all have such a high regard for, Senator ROCKEFELLER, who has done such a commendable job in this whole area—but not working it out and running off on this pathway, which is gradually being revealed through the national media and the press and through other activities, I think, rather than enhancing our national security, has indeed threatened it.

Mr. DODD. Mr. President, if I may further inquire of my colleague from Massachusetts, I was intrigued to learn how many the Washington Post recorded. I heard no one argue with these numbers. One of the arguments we have heard is that the FISA Court may not have been willing to agree with these court orders to the phone companies—not that that argument was even remotely legitimate.

The Washington Post reports that over the years, there have been over 18,000 requests for FISA court orders. Of those more than 18,000 requests, 5 have been rejected—5. So with over 18,000 requests, for 99.9 percent of those requests, that court has acquiesced to administration appeals 99.9 percent of the time.

So the idea this court was somehow going to serve as an obstruction to the administration's desire to get legitimate information is certainly belied by the statistics. I point that out to my colleague.

Mr. KENNEDY. Mr. President, I thank the Senator.

In the committee, we had some of the members of the FISA Courts testify. They indicated before the committee similar kinds of cooperation they have had in reviewing this, making the Senator's point even stronger. I thank the Senator from Connecticut. There may have been others, but I did notice him to be the first one in the Senate who spoke up on this issue when it first came up, and he has been a very strong protector of our national security and our liberty, and we have all benefited from his comments and his leadership in this area. I thank him for all of his good work.

Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from Connecticut is recognized.

Mr. DODD. I was in the midst of giving some remarks earlier, and my colleague from California, Senator FEINSTEIN, came on the Senate floor. I know she wanted to share her thoughts, so I yielded the floor to her to allow her to speak. I see my friend and colleague from Missouri is here. I know we have gone back and forth. I understand how this works. I don't know if he has some remarks he wants to give.

Mr. BOND. Mr. President, I am a little bit confused. We certainly don't want to cut short the remarks of our friend from Connecticut, but I thought this was supposed to go back and forth. I believe there is an hour limit under postcloture on time that can be consumed by any Senator. I thought we would go back and forth to enable people on both sides and let the chairman and me perhaps respond where necessary.

Mr. DODD. Fine.

Mr. BOND. I wanted to know, through the Chair, what the procedure is right now.

The PRESIDING OFFICER. There is no order of recognition at this time.

Mr. BOND. All right. Again, I seek recognition, and I thank my colleagues for sharing their views.

The PRESIDING OFFICER. The Senator from Missouri is recognized.

Mr. BOND. Mr. President, I wanted to share a few views on matters that have been just raised. I thought it was important to bring these up. I will have longer remarks when we actually get on the bill.

I appreciated hearing from our colleague, who is an original cosponsor of the first FISA bill, and to learn about the negotiations which went on then. But I was a little puzzled to hear how this bill—this bill, which includes significantly more protections for Americans' civil liberties and constitutional rights—somehow goes back on the original FISA. The original FISA required a court review of targeting of U.S. persons. We have gone far beyond that in this bill. As a matter of fact, the Protect America Act, which he decried, contained all of the protections that were in the original FISA bill.

Now, we have, on a bipartisan basis—I keep emphasizing that the Intelligence Committee, on a bipartisan basis, after being fully briefed—fully briefed—by several elements of the intelligence community—and we asked them questions. We had briefings. We went to the NSA to see how it worked. We went through all of these ideas with them. They said: We understand your objective. Here is how to accomplish it.

I think we have prepared a very good bill that by any fair reading—any fair reading—will extend the protections beyond what the original FISA, and even the Protect America Act, had for the surveillance, electronic surveillance of anybody either in the United States or a U.S. person abroad. I am very much surprised that he says somehow, this bill, which provides more protection, doesn't provide the basic protections of FISA. I regret to say that is just not right.

I also want to address some questions about immunity which have been brought up. I thought our committee report, a bipartisan product, said it pretty well when talking about why providing immunity—and it is not amnesty because these companies, the companies alleged to have done wrong, did nothing wrong. This is what the Intelligence Committee said. We concluded:

> The providers had a good faith basis for responding to the request for assistance they received. The intelligence community cannot obtain the intelligence it needs without assistance from these companies. Companies in the future may be less willing to assist the government if they face the threat of private lawsuits each time they are alleged to have provided assistance. The possible reduction in intelligence that might result from this delay is simply unacceptable for the safety of our Nation. Allowing continued litigation also risks the disclosure of highly classified information regarding intelligence sources and methods. In addition to providing an advantage to our adversaries by revealing sources and methods during the course of litigation, the potential disclosure of classified information puts both the facilities and personnel of electronic communications service providers and our country's continued ability to protect our homeland at risk. It is imperative that Congress provide liability protection to those who cooperated with our country in the hour of need.

Now, there was some talk about article II, and some suggested that the FISA Court would not have—this could not have been approved by the FISA Court. Well, my understanding is the FISA Court knew about it. The FISA Court has acted on this measure, and in one of the few published reports of the FISA Court of Review, In Re: Sealed Case—that is a very compelling and provocative title, but that is the name of the case—it is stated in one of the footnotes dealing with the case that: The Truong case, where a warrantless search of U.S. persons in the United States was approved by the court, the FISA Court of Review said:

> The Truong court, as did all the other courts to have decided this issue, held that the President did have the inherent authority to conduct warrantless searches to obtain foreign intelligence information. It was incumbent upon the court, therefore, to determine the boundaries of that constitutional authority in the case before it. We take for granted that the President does have that authority and, assuming that is so, FISA could not encroach on the President's constitutional power.

The court went on to say:

> The question before us is the reverse, does FISA amplify the President's power by providing a mechanism that at least approaches a classic warrant and which therefore supports the government's contention that FISA searches are constitutionally reasonable.

That is the view of the FISA Court of Review. Everybody is saying, well, we need to find out what the FISA Court of Review has to say about these certifications, about the authorizations. What I just read is what the FISA Court has said. The President does have the power under article II of the

Constitution to conduct warrantless surveillances. Once that determination is made, then to go back and say that any company, any U.S. person, or any corporation that got a notice from the Attorney General to carry out an order of the President through the Intelligence Committee to conduct foreign intelligence surveillance is breaking the law is just absolutely beyond the bounds.

I am very sorry we have such a disjoint in the reading and understanding of the constitutional powers. And to say now that these people should be dragged back into court where they will be subjected not only to the potential of large legal bills, the potential loss in terms of any judgment—although I think that is minimal; I don't think anybody is going to be able to show any harm that would warrant the court to grant a monetary recovery—but what they will find, what they will find is great damage to their reputation, as the people who are enemies of the United States go out actively and trash any company or any individual who cooperates with the United States.

There are evil people out there who would love to be able to get information and confirm what companies may have participated. Once that happens, those companies would be at great risk abroad. Their reputations would suffer, and they and their personnel could be at great risk of physical harm.

So there are many good reasons not to bring these cases in court against the providers. Please note, as we have stated before, that this measure only protects the private sector people who might have cooperated. It does not protect Government employees. I hope by clarifying this, people will get a better understanding of why immunity is necessary to protect the legitimate interests of the United States in collecting foreign information.

Many of my colleagues want to speak, so I appreciate the opportunity to clarify the question of immunity.

Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from Texas is recognized.

Mr. CORNYN. Mr. President, I congratulate the distinguished chairman and vice chairman of the Senate Select Committee on Intelligence for what I think is an outstanding product—a bipartisan product. I can't think of an area that is more important for us to act in the interests of our national security in a bipartisan manner than the subject before us today. We should resist with all of our might any impulse or tug that we might feel to emphasize partisan differences, but instead we ought to pull together to try to do what is necessary to keep our eyes open and our ears to the ground when it comes to the collection of foreign intelligence.

Of course, the Foreign Intelligence Surveillance Act was passed in 1978 to ensure that Americans' civil liberties were being protected. At the same time, we made sure we were able to listen to our enemies, which has become even more important today with terrorists taking advantage of the Internet, cellular phones, and other means of communications, and it is critical that we continue to take advantage of every opportunity to detect and deter future terrorists attacks on our own soil.

We were told last August by the Director of National Intelligence—this has been widely published since—that because of some of the archaic provisions in the FISA law, the Foreign Intelligence Surveillance Act, and because it had not kept up with changes in modern technology, that we were being blocked from receiving as many as two-thirds of the communications of one foreign terrorist to another foreign terrorist because of the way these calls were being routed. We were told time and time again that the burdensome requirement of getting the paperwork necessary in order to get a FISA authorization in cases where the Congress never intended to require that sort of authorization, which was required because of these changes in technology, that it was actually causing delays in our ability to get timely information in a way to protect our country and our men and women in uniform serving in places such as Afghanistan and Iraq.

We know the ability to obtain the right information at the right time is of critical importance in our struggle against radical Islamic terrorists who hide among civilian populations and who don't abide by the Geneva Conventions. They don't wear a uniform. They don't recognize a chain of command or the laws of war. They hide among civilian populations and quietly plot deadly attacks against civilians—innocent men, women, and children—as they did on September 11, 2001.

I serve on the Judiciary Committee, so I am very much aware of some of the arguments made during the time we considered this bill on a serial referral against providing immunity to the telephone companies that have cooperated with the President of the United States, the Attorney General, and the intelligence community in facilitating the collection of this actual intelligence.

Mr. President, I think the Intelligence Committee version got it about right. Why in the world would we want to do anything to discourage private citizens, whether they be individuals or corporate citizens, from cooperating in the security interests of our country? This is perhaps analogous to a police officer who knocks on your window and says, I need your car to go capture a dangerous criminal before they do harm to somebody else. Well, if an individual were worried that they would be sued as a result of their being a good volunteer and a good member of the community in allowing a law enforcement officer the use of their car to capture a dangerous criminal, do you think they would be more inclined or less inclined to cooperate with the lawful authorities? I think it is pretty clear that they would be far less inclined.

If we don't do everything in our power—and it is within our power—to encourage individual and corporate citizens to cooperate in the security interests of our country, then shame on us. To tell them that you are going to have to endure ruinous litigation costs, that you are not even going to be able to defend yourself because some of the evidence is the subject of a State secrets privilege, and you are not even going to be able to explain what you did, while at the same time suffering the reputation damage that they could very well suffer if their participation was known in other parts of the world, is not fair. It is not fair to them and, even more importantly, it is not fair to us because to fail to give them the immunity for their cooperation with the lawful request of the President of the United States, after the Attorney General, the country's chief law enforcement officer, has said this is a lawful request, to fail to give them immunity and protection against that ruinous litigation and damage to their reputation is less than responsible.

I think the thing more likely to protect our security from this point forward is to show citizens who cooperate with the lawful authorities of the U.S. Government to help keep us safe that they are going to be protected against litigation and the vast costs that could be associated with it—not to mention the potential that classified information might become public and be known to our enemies. It makes absolutely no sense not to give that immunity to these individuals and these corporations.

The Protect America Act, which is scheduled to sunset in February, moved our intelligence capabilities in the right direction. But now we need to make those tools permanent. Changes in technology, combined with a court ruling that hampered the intelligence community, required that the Foreign Intelligence Surveillance Act be updated. That is what the Protect America Act was, although it was a temporary patch of about 6 months. Now we need to make those provisions permanent and take this opportunity to further expand and enhance the Foreign Intelligence Surveillance Act to make sure it works in the security interests of the American people, while taking the appropriate protections on American citizens here at home.

In the period between the court ruling that required the Government to obtain FISA orders for foreign intelligence that happened to pass through the infrastructure in the United States and the passage of the Protect America Act, collection of foreign intelligence information decreased by two-thirds. That is what prompted Congress to act in August without further delay, the likelihood that being blind to two out of every three communications between terrorists would likely make us less safe and would make it more likely that they would be successful in killing innocent Americans and our allies. Common sense informs us that this great drop in the percentage of intelligence collection harms our national security efforts.

Of course, as I mentioned, in August we took a temporary patch to close these intelligence gaps and clarify that the intelligence community does have the authority to monitor communications of foreign individuals without receiving a court approval first.

Now is the time for us to make that authority permanent. It has never been required, in listening in to foreign subjects talking to other foreign subjects, to get a court order, and the Protect America Act made that temporary fix. We need to make that permanent.

Some have made arguments which, in the end, would hamper our intelligence capabilities, requiring procedures never before in place. Intelligence community resources—both funding and expertise—are scarce and should be focused in the manner that best protects our national security. Our intelligence analysts should not be distracted from the important job of listening in and using information to deter further attacks by having to fill out a bunch of paperwork, particularly in areas that Congress never intended that they would have to do so.

The Senate and House Democratic Judiciary Committee proposals, I am sorry to say, would greatly hamper our intelligence community. As I mentioned a moment ago, I serve on the Judiciary Committee, and proudly so. Unfortunately, in voting this alternative out of the Judiciary Committee—along strictly partisan lines—I think we failed to meet the standards that were set by the Intelligence Committee version of this bill. Although there are changes that I think need to be made, by and large, the bipartisan vote in the Intelligence Committee—their product was superior to the product out of the Judiciary Committee.

The House bill would require court orders for foreign targets in foreign lands—something that has never been required in the 30 years since FISA was enacted and would completely reverse the important reforms, albeit temporary, we made a few months ago.

Delays inherent in obtaining court approval could, in fact, put American security interests in jeopardy.

Here is a concrete example. This last summer, three American soldiers were thought to be kidnapped by al-Qaida in Iraq. Because of delays in obtaining emergency authorization under the Foreign Intelligence Surveillance Act, our intelligence community was unable to set into place surveillance that may have saved the lives of these soldiers on May 12, 2007. There was a 10-hour delay while the authorities did the paperwork necessary for them to listen in on communications they never should have been required to get a FISA order to listen to in the first place—clearly, foreign-to-foreign communications. Instead, PFC Joseph Anzack was found dead a few weeks later in the Euphrates River, and an al-Qaida subsidiary claims to have killed and buried SPC Alex Jiminez and PFC Byron Fouty. Those 10 hours of delay, I believe, contributed to the deaths of these 3 American soldiers. If they hadn't been required to wait 10 hours to do the paperwork, I think there was a better chance that they could have been found safely and returned to the arms of their loved ones.

One of the key lessons the 9/11 attacks taught us was that we have to do a better job of connecting the dots. Erecting more walls and barriers to the collection and sharing of intelligence material ignores this important lesson and gives our adversaries an unacceptable tactical advantage, needlessly placing Americans in greater danger of another attack instead of doing everything within our power to keep them safe.

Unlike members of the Senate Intelligence Committee, I am sorry to say that House Democrats refused to work with committee Republicans, or with the Director of National Intelligence and the Department of Justice. How the House committee—or for that matter, the Senate Judiciary Committee—could hope to fashion a sensible, workable product without consulting with either the Department of Justice or the Director of National Intelligence is beyond me. I congratulate the members of the Senate Intelligence Committee on working so carefully, over a long period of time, in consultation with the appropriate authorities, to come up with a bipartisan product—one that I concede is not perfect, but no legislation is perfect.

We are going to be talking about ways that I think we can improve even that bill. But the Senate, unfortunately—the Judiciary Committee—saw important suggestions from the Intelligence Community rejected, again, along partisan lines. No attempt was made to craft a bipartisan proposal. Instead, the committee chose to come up with a party-line vote that raised serious operational concerns.

By working with the intelligence community, the Senate Intelligence Committee was able to provide the intelligence community with more flexibility in gathering foreign intelligence. This Senate bill will allow the Attorney General to authorize targeting persons outside of the United States to acquire this necessary information. No longer will they be required to go to the FISA Court for an approval to target foreign terrorists and spies overseas. This will ensure that our intelligence community has the agility and the speed it needs to collect actionable intelligence at a time when it counts.

The Senate bill does not restrict the types of foreign intelligence that may be collected. It also streamlines the Foreign Intelligence Surveillance Act, providing for more efficient, timely processing of FISA applications.

These are only a few examples of the tools the authors of the Senate Select Committee on Intelligence learned that the intelligence community needs to make our country safer, simply by working together across the aisle in a way that protects the American people more. They are to be applauded and congratulated for that effort.

When the security of our country is at stake, we should consult the very people in the best position to know what they need to make sure that they have the tools necessary, without causing unintended negative consequences.

We should learn from the bipartisan lead of the Senate Intelligence Committee and work with them to craft a responsible, bipartisan bill that keeps our eyes and our ears open, allows us to listen to our enemies, and will help us protect Americans against future terrorist attacks on our own soil and in places where Americans are located around the world.

I yield the floor.

The PRESIDING OFFICER. The Senator from Oregon is recognized.

Mr. WYDEN. Mr. President, as a member of the Senate Intelligence Committee, I am aware that down at the Old Executive Office Building there are large stacks of documents, including the Justice Department legal opinions, that relate to the warrantless wiretapping program and letters from our Government to the telecommunications companies.

I have read these materials. But most Members of the Senate have been prohibited from being able to read these vital documents. I believe that a Senator who was allowed to read these materials would be astounded to see how flimsy the Government's case is on behalf of the warrantless wiretapping program.

The administration has fought tooth and nail to keep almost every Member of this body, and the entire membership of the other body, from being able to read these materials. I believe every Senator who has not read these documents ought to insist on their right to be able to read them before the Senate casts this critical vote. Having read these documents, I can say, as one Member of the Senate Intelligence Committee, that nothing in any of these opinions has convinced me that the administration's warrantless wiretapping program was legal. Now that the existence of the program has been confirmed, I can see no national security reason to keep most Members of the Senate from being able to see these materials. As far as I can tell, these materials are being classified in order to protect the President's political security, not our national security.

The Intelligence Committee has also reviewed written correspondence sent to certain telecommunications companies by the Government. I cannot get into the details of this correspondence, but I can say I am totally unconvinced, on the basis of having read these materials, that Congress should grant total immunity to the companies.

For years, there have been a number of laws on the books, such as the Wiretap Act, the Electronic Communications Privacy Act, and, of course, the Foreign Intelligence Surveillance Act. Together, they make it very clear that participating in a warrantless wiretapping program is against Federal law.

Many of my colleagues have argued that any companies that were asked to provide assistance after September 11 should be treated leniently since that was a period of national confusion and great fear. I think this argument personally has some merit, but the bill that was reported by the Intelligence Committee would not just grant immunity for 6 months or 1 year after September 11; it would grant immunity for actions taken up to 5 years after the attack. I think that is far too long, and I am going to briefly explain why.

If a phone company was asked to participate in warrantless wiretapping in the weeks after September 11, it is understandable that executives might not have had the time to question assertions from the Government that the wiretapping was legal. But that doesn't give the executive a free pass to participate in warrantless wiretapping forever and forever. At some point over the following months and years, this phone company executive has an obligation to think about whether they are complying with the law, and as soon as they realize they have not been in compliance, they have an obligation to stop it.

In the months and years following September 11, it should have been increasingly obvious to any phone company that was participating in the program that it just might not be following the law. For starters, in the week after September 11, Congress and the President got together to revise the Foreign Intelligence Surveillance Act, including the wiretapping provisions. But the Congress did not change the sections of the statute that state warrantless wiretapping is illegal. That, in my view, should have been a huge red flag to any phone company that was participating in this program.

Next, in the summer of 2002, the Director of the NSA, General Hayden, appeared before the Intelligence Committee in open session and testified about the need to get warrants when someone was inside the United States. I am sure General Hayden would argue that he was parsing his words carefully, but at a minimum, it was clear at this point that most of the Congress and most of the American people believed warrantless wiretapping was illegal.

The President has argued that the program was authorized through his Commander in Chief authority. But in the spring of 2004, the Supreme Court issued multiple rulings clearly rejecting this idea, and the President cannot do whatever he chooses to do. These rulings also have been giant red flags for any phone company engaged in warrantless wiretapping.

Finally, as the Intelligence Committee's recent report noted, most of the letters requesting assistance stated that the Attorney General believed the program was legal. But, as our report points out, one of the letters did not even say the Attorney General had approved. I have read this letter, and I believe that once again it should have set off loud alarm bells in the ears of anybody who received it.

In my view, as the years rolled by, it became increasingly unreasonable for any phone company to accept the Government's claim that warrantless wiretapping was legal. By 2004, at the very latest, any companies involved in the program should have recognized that the President was asking them to do things that seemed to be against the law.

The former CEO of Quest has said publicly that he refused requests to participate in warrantless surveillance because he believed it violated privacy statutes. I cannot comment on the accuracy of this claim, but I hope our colleagues will stop and think about its implications.

I also encourage my colleagues to insist on their right to see the communications that were sent to the telecommunications companies. My own view is, when they read these letters, if they are given a chance to read them, these letters seriously undermine the case for blanket retroactive immunity.

The legislation that passed the Intelligence Committee would grant immunity long past the point at which it was reasonable for the phone companies to believe the Bush administration. It would even grant immunity stretching past the point at which the program became public. By the beginning of 2006, the program was public and all of the legal arguments for and against warrantless wiretapping were subject to open debate. Clearly, any companies that participated in this program in 2006 did so with full knowledge of the possible consequences.

I cannot see any reason at all why retroactive immunity should cover this time period. When the Senate Intelligence Committee voted to grant total retroactive immunity, I voted no because I believed it was necessary to take more time to study the relevant legal opinion as well as the letters that were sent to the communications companies.

I have long felt that it is possible to fight terrorism ferociously and still address the civil liberties needs of our citizens. Now that I have studied these documents, I am convinced that granting 6 years of total retroactive immunity is not justified and it is not justified in the name of striking that crucial balance between fighting terrorism aggressively and protecting the individual liberties of our citizens.

I very much want to support this essential legislation. Chairman ROCKEFELLER is here. He has done very good work, along with the distinguished vice chairman, Senator BOND, on what I think is the central issue of this debate, and that is modernizing the FISA law to make sure that now it is possible to apprehend the communications of dangerous individuals overseas who are foreigners.

The administration came to our committee and made a very reasonable case that the statute has not kept up with the times. Under the leadership of Chairman ROCKEFELLER and the vice chairman, Senator BOND, we went to work, and we went to work in a bipartisan way to address that concern. That was the original concern of the Bush administration, that the statute had not kept up with the times and it wasn't possible to get the communications of foreigners overseas. Under the leadership of Chairman ROCKEFELLER and Vice Chairman BOND, that issue was dealt with, and it was dealt with to the satisfaction of the Bush administration.

But the Bush administration wouldn't take yes for an answer. After the distinguished chairman of the committee and the vice chairman and all of us on a bipartisan basis went to work to try to address the reasonable concern of the Bush administration—that the statute had not kept up with the times—that wasn't good enough for the Bush administration. So that is when we were presented with the proposition that we had to have total retroactive immunity for the phone companies. Years after the administration had said how legal the program was, after we dealt with the administration's original concern about the surveillance statute, they came in and asked for something else—this total grant of immunity. In fact, most members of the Intelligence Committee would not even have gotten to see the documents I had seen had it not been for the fact that Chairman ROCKEFELLER and Vice Chairman BOND insisted on our right to do so.

This is an issue of enormous importance. I am very glad our colleagues have come to the floor to take the time to go through it. I suggest that every Member of the Senate who has not had the right to see those documents at the Old Executive Office Building ought to insist on their right to see those documents before they cast this vote. I think they will be flabbergasted at how flimsy the legal analysis is to justify this program.

Mr. President, I see my colleague, the distinguished Senator from Connecticut, on his feet. If I might, I would like to make one additional point, and then I will be happy to yield to my friend.

Mr. DODD. Mr. President, on this last point: obviously we are in public session, and the last thing I want to do is have the Senator from Oregon talk about what is in these documents; he cannot do that. But I am struck by the passion with which he just spoke about those documents and the value of having Members of this body see them, particularly considering the vote we are about to cast.

If this bill is adopted with retroactive immunity, then this issue disappears; it goes away forever. There will be no court proceedings, nothing. We will never have the opportunity to know until, perhaps, some of these documents might be released decades down the road under the Freedom of Information Act.

But I am struck by the Senator's passion in arguing that if people read these documents and saw them, they would have a very difficult time supporting the provision in this bill that grants retroactive immunity. Is that the suggestion the Senator has made by those comments?

Mr. WYDEN. That is my view, and I find particularly objectionable—and the Senator from Connecticut has touched on it—you would automatically assume that every Member of this body—we know all of our colleagues; I trust all of them explicitly with respect to protecting our national security—you would think they would certainly have a right to see those documents before this vote is to be cast. That is not the case. In fact, the only reason members of the Intelligence Committee got to see them was because of the outstanding work of Chairman ROCKEFELLER and Senator BOND, who battled for my right to see those documents.

Mr. DODD. As a senior member of the Foreign Relations Committee, I do not have the right to see these documents?

Mr. WYDEN. That is correct. That is absolutely correct.

Mr. DODD. Mr. President, with 26 years in the Senate and as a senior member of the Foreign Relations Committee, I do not have the right to see these documents?

Mr. WYDEN. The Senator is right. And we have in the chair serving as Presiding Officer of our distinguished body the Senator from Virginia, a decorated veteran. My understanding is he does not have the legal right to see these documents prior to the vote; that they were only made available to members of the Intelligence Committee and perhaps several others in the leadership. I think that is wrong. I think every Member of this body ought to insist on their right to be able to go down to the Old Executive Office Building and read the documents I have read, which I believe offer an extraordinarily skimpy case for total retroactive immunity.

I hope we will have a chance to discuss this issue further. I appreciate the Senator from Connecticut making the point that he has with respect to his seniority in the body, his membership on key committees, such as the Senate Foreign Relations Committee, and he is not provided the legal right to see these documents before he casts this vote.

I wish to discuss briefly one other amendment which has come up during the course of the morning, and that is an amendment I offered in the Senate Intelligence Committee which won bipartisan support in the Intelligence Committee addressing the rights of Americans who travel overseas. I offered it with the distinguished Senator from Wisconsin, Mr. FEINGOLD, and the distinguished Senator from Rhode Island, Mr. WHITEHOUSE. It was approved when the Intelligence Committee voted on that matter on a bipartisan basis.

Most of our citizens are probably not aware that the original Foreign Intelligence Surveillance Act only provided protections for Americans inside the United States and that it does not cover Americans who travel overseas. So if the Government wants to deliberately tap the phone calls of a businesswoman, for example in Roanoke, VA, or an armed services member in Pendleton, OR, the Government has to go to a judge, present evidence, and get a FISA warrant. But if that businesswoman or that serviceman is sent overseas, the Attorney General can personally approve the surveillance by making his own unilateral determination of probable cause. In my view, this formulation makes no sense at all. In the digital age, the rights and freedoms of individual Americans should not be dependent on physical geography. That is why I offered the amendment in the Intelligence Committee that would make it clear that Americans have the same rights when they travel overseas as they do inside the United States.

Now, some have raised concerns that my amendment may have unintended consequences. I certainly don't want to see that, and so I have worked with Members of this body, particularly Senators ROCKEFELLER and BOND, to address those concerns. We have made it clear that we are open to technical changes in the proposal so that there will not be the prospect of any unintended consequences, while at the same time protecting the rights of our citizens who travel overseas. Our staffs have been working for many weeks on a potential managers' amendment which would preserve the original intent of the provision, which is very straightforward, and that is to give Americans overseas the same legal protections they have in the United States to the maximum extent possible and to the maximum extent consistent with national security.

We have made progress, Mr. President, on this issue, but we are not quite there yet. I have gotten varying reports as to what may constitute a managers' package with respect to this legislation, but I consider the matter of the travel rights of Americans so fundamental in the digital age, it would be my intent to object to any unanimous consent agreement that waters down these travel rights of law-abiding Americans during these crucial days.

I continue to remain hopeful that, working closely with the distinguished chairman of our full committee, Senator ROCKEFELLER, and the vice chairman, Senator BOND, who is not on the floor, we can reach an agreement. All sides are working in good faith, but without the proper language on this matter, which I do think is once again fundamental to striking that balance between fighting terrorism aggressively and protecting individual liberty, without this amendment I would have to object to any unanimous consent agreement in a managers' package which didn't address the amendment that won bipartisan support in the committee. I hope it will not come to that, and I want to make it clear again to the chairman of the full committee, Senator ROCKEFELLER, and to the vice chairman that I intend to work very closely with them in the upcoming hours to see if we can work this out so I will not have to object to the managers' amendment.

Mr. President, I yield the floor.

The PRESIDING OFFICER. The Republican leader.

BURMA DEMOCRACY PROMOTION ACT OF 2007

Mr. McCONNELL. Mr. President, later today we hope to clear the Burma Democracy Promotion Act of 2007. This legislation, which ratchets up our already tight sanctions against the Burmese junta, has bipartisan support in the House and Senate and comes at a critical time for the suffering people of Burma.

I am pleased to be joined by Senator BIDEN, the chairman of the Foreign Relations Committee, on this legislation, who has been an ally of mine on other sanctions legislation, and by Senator FEINSTEIN, as always in the forefront of any issue related to Burma. The Burmese people have no greater friend than Senator FEINSTEIN. Sixteen other cosponsors have offered their support to this important and timely bill.

The Senate bill would take a number of steps. It would first put in place new financial sanctions and an extended visa ban on senior junta officials. It would close existing loopholes that allow indirect importation of Burmese gems and timber, and it urges an international arms embargo on Burma, which faces no external military threats.

This legislation would also establish a special representative and policy coordinator for Burma, appointed by the President and subject to Senate confirmation. The United States is fortunate to already have a stellar chargé d'affaires in Rangoon. However, her focus is, as it should be, on bilateral relations with Burma. The new envoy would help to ensure that U.S. diplomacy is multilateral in scope, sustained, and fully coordinated with other international efforts.

Now, the House passed its version of enhanced Burma sanctions last week. I am hopeful the two bodies will soon reconcile these bills so we can get this legislation signed into law.

Mr. President, the entire world was inspired by the brave Burmese protesters who peacefully protested for justice earlier this year, and we were appalled at the violent Government reprisals that followed. We mourn the dead, and we pray for those who are still missing.

Since those sad days, a fickle news cycle has moved on to other matters. But with this legislation, we show that the U.S. Congress has not forgotten the people of Burma, and neither has the administration, as witnessed by the strong leadership of the First Lady on this issue. It is my hope the U.N. Security Council has an equally long memory and will soon take up and pass an arms embargo against the Burmese regime. In the end, multilateral sanctions are the most effective means of pressuring this regime to change its misbegotten course. With this legislation, we aim to lead by example. Our hope is that others will soon follow.

Mr. President, I yield the floor.

Mr. WYDEN. Mr. President, how much time do I have remaining?

The PRESIDING OFFICER. The Senator has 39 minutes remaining under cloture.

Mr. WYDEN. Mr. President, I choose to yield the remainder of my time to the distinguished Senator from Connecticut.

The PRESIDING OFFICER. Without objection, it is so ordered. The Senator from Connecticut is recognized.

Mr. DODD. Mr. President, I thank my colleague from Oregon. I thank him for his eloquent statement and for his admonition as well about the importance of these documents and how relevant they are to the discussion—and the inability of most of us here to have any idea what is in them. I admire the Senator from Oregon for insisting on his right to see them and therefore sharing with us at least in general terms the substance of those documents and their relevance to the request for seeking retroactive immunity, going back 5 years. I think his comments should carry great weight with our colleagues on both sides of the aisle. As he has pointed out so many times, these issues should never be associated with partisan debate.

The idea of striking that balance between security and protecting the rights of individuals was exactly the motivation for the original FISA legislation almost 30 years ago. As the Senator from Massachusetts, Mr. KENNEDY, pointed out, there have been 30 modifications to that legislation over 30 years in order to make it relevant. As the world changed and technology improved, it was important to modify that legislation so we would have the capacity to minimize the threats against our Nation.

Earlier today, Mr. President, I began some comments and interrupted them when I allowed the Senator from California, Mrs. FEINSTEIN, to make her remarks. I want to pick up where I left off.

Mr. President, both versions of the bill—that is, the version prepared by my friend from West Virginia, Senator ROCKEFELLER, and Senator BOND, and the version prepared by the Senate Judiciary Committee—authorize the President of the United States to conduct overseas surveillance without individual warrants. I think that needs to be repeated. You can conduct overseas surveillance without individual warrants. That is not the subject of the debate here at all. Both of these bills allow the President to submit his procedures for this new kind of surveillance for the review of the FISA Court—after those procedures are already in place. But only one version of the bill balances these significant new procedural powers with real oversight from the Congress and the courts, and that is the Judiciary Committee version.

I say respectfully that the version by the Intelligence Committee, I am afraid, is a bill of token oversight and weak protections for innocent Americans, and the Senate ought to vote it down. Specifically, the bill fails on five counts.

First, its safeguards against the targeting of Americans—its minimization procedures—are insufficient. It significantly expands the President's surveillance power, while leaving checks on that power unchanged. This version of the bill provides practically no deterrent against excessive domestic spying—no consequences if the court finds the President's minimization procedures, in fact, lacking. If his targeting procedures are found lacking, the President hardly has to worry; he can keep and share all the information he obtained, and he can continue his actions all the way through the judicial review process, which could take, of course, months.

It should be clear to all of us that real oversight includes the power to enforce. The Intelligence Committee's version of this bill offers us the semblance of judicial oversight but not the real thing. Imagine a judge convicting a bank robber and then letting him keep the loot as long as he promises to never, ever, ever do it again. That might as well be the bill before us. In fact, the bill before us would allow the President to immediately target anybody on a whim. Wiretapping could start even before the court has approved it. In this bill, oversight is exactly where the President would like it—after the fact.

Don't get me wrong: when a President needs immediate emergency authority to begin wiretapping, he should have it. If you need it immediately, you ought to get it immediately. I think all of us find that obvious. The question is what to do in those cases that aren't emergencies. In those cases, I believe there is no reason the court shouldn't give advice and approval beforehand. President Bush disagrees. He believes in a permanent emergency.

Second, the Intelligence Committee bill fails to protect American citizens from reverse targeting—the practice of targeting a foreign person on false pretenses, without a warrant, in order to collect the information of the American on the other end of the conversation.

Admiral McConnell said:

> Reverse targeting is not legal. It would be a breach of the Fourth Amendment.

He is absolutely correct, of course, which is why it is so vital that this bill contain strong, enforceable protection against it. This bill doesn't have one.

Thirdly, this bill, while purporting to end warrantless wiretapping of Americans, might actually allow it to continue unabated. That is because it lacks strong exclusivity language—language stating that FISA is the only controlling law for foreign intelligence surveillance. With that provision in place, surveillance has a place inside the rule of law. Without it, there is no such guarantee.

Who knows what specious rationale of this or any other future administration might cook up for lawless spying? The last time, as we have seen, Alberto Gonzales laughably tried to find grounds for warrantless wiretapping on the authorization of force against Afghanistan. Those are the legal lengths to which the administration has proved it is willing and able to go.

What next? Without strong exclusivity language, that question will remain hanging over all our heads.

Fourth, unlike the Judiciary version of the bill, the Intelligence version lacks strong protections against bulk collection—the warrantless collection of all overseas communications, a massive dragnet with the potential to sweep up thousands or millions of Americans without cause. Today, bulk collection is infeasible, but Admiral McConnell said:

> It would be authorized, if it were physically possible to do so.

Before any administration has that chance, we should clearly and expressly prohibit such an unprecedented violation of privacy. This bill fails to do that.

Fifth and finally, this bill stays in effect until 2013, through the next Presidential term and into the next one. Compare that to the 4-year sunset in the Judiciary version. I believe that, when making such dramatic changes to the Nation's terrorist surveillance regime, we should err on the side of caution. Once the new regime has been tested, once its effectiveness against terrorism and its compromises of privacy have been weighed, we deserve to have this debate again. It will, I predict, be a much less speculative and more informed debate. The Judiciary bill is wise not to put it off any longer than necessary.

I oppose this legislation on these five counts for the same reason I oppose retroactive immunity—because when the President's power is strongest, the rule of law should be the strongest, as well. The Intelligence Committee's bill means more power and less law. It reduces court oversight nearly to the point of symbolism. It would allow the targeting of Americans on false pretenses. It opens us to new, twisted rationale for wireless wiretapping, the very thing it seeks to prevent. It could allow bulk collection as soon as the administration has the wherewithal to build such an enormous dragnet. And it sets all of these deeply flawed provisions in stone for the next 6 years.

In sum, this is entirely too trusting a piece of legislation. With its immunity, with its wiretapping provisions, it answers George Bush's, "Trust me," with an all too eager "Yes!"

I leave my colleagues with a simple question: Has that trust been earned?

I don't know how many of my colleagues have ever seen the wonderful movie "A Man For All Seasons," the story of St. Thomas More. There is a wonderful scene in that movie in which More is asked whether he'd be willing to cut down every law in England to get his hands on the devil.

And More replies, absolutely not. "When the last law was down, and the Devil turned 'round on you, where you hide, the laws all being flat? This country is planted thick with laws, from coast to coast—Man's laws, not God's! And if you cut them down . . . do you really think you could stand upright in the winds that would blow then?"

Maybe we could find excuses for every one of this president's abuses of power: "It was just a little overreach." "You just have to give a little."

But if you do that day after day, week after week, month after month, year after year, all of a sudden you look up to find that all of the laws have been cut down, that there is nothing to protect us from the winds. Before that day comes, Mr. President, we must draw a line. I am here today to draw it.

So I will do everything I can to see to it that this bill does not go forward. Unless retroactive immunity is struck, I will resist this bill with all the tools available to me as one Member of this body. We can do better than this.

This goes beyond ideology—or at least it should. We all care about the security of our country; the FISA law protects that security, and it protects our privacy at the same time, from those who would overreach.

We have struggled to strike that balance throughout our history. Today, it is more important than ever that we stand firm in our determination not to give up or erode these very rights that are critical for our security.

The idea that we can become more secure by giving up rights is fundamentally flawed. It needs to be addressed on every possible occasion. It is a dangerous notion. It is a totally false dichotomy. It needs to be defeated as an idea.

When we insist upon our rights, we only grow stronger. We know it can be done. For 30 years now, this law has worked well. It needs to be modernized, clearly, to protect us against those who also have access to modern techniques to do us great harm and injury. But this is not a battle between those who want to keep us secure and those who want to keep our rights. It is a battle about whether we understand that we are more secure precisely when we protect these rights.

A year ago, when the Military Commissions Act came up for a vote, I felt very strongly about it. I spoke against it. I voted against it. The idea of walking away from habeas corpus, the idea of allowing torture, the idea of walking away from the Geneva Conventions—I regretted deeply then that I didn't do what I am prepared to do today, and that is to vigorously fight against that legislation.

I think most of us today recognize what a great mistake that was, to give away those rights. I think most of us recognize how it hurt our country. I am determined not to let that happen again. As long as it takes, I will stand here and insist that we need to strip immunity out of this bill.

I am prepared to listen to ideas about putting caps on liability, to prevent the telecom companies from paying outrageous fees. But if we grant this immunity, we will never know whether their actions were right or wrong.

Then why not your medical records the next time? Why not your financial records? What is the difference? If I can reach in and listen to your phone conversation, why not grant immunity to someone who would like to know your medical records or financial records? Why not grant immunity to companies that would turn over those documents? Where do you stop? Where do you put your foot down and say, "That is not right"?

Today it is the phone records. Today it is the phone conversations. It is e-mail traffic—without a warrant. So why not the next step? If we don't put our foot down and stand up, we will be faced with the argument that we have already granted it. We established the precedent; 75 Senators, Democrats and Republicans, agreed we ought to provide that immunity. That argument will be heard, as it has been heard on the Military Commissions Act.

I respect immensely the work of the people who spent a lot of time on these issues. But this is a critical moment. They don't happen every day; but this is an important one. This goes right to the heart of who we are. This is not about selling our souls. It is about giving them away, if we don't stand up for these rights.

So I look forward to continuing debate and discussion on this vital issue.

I withhold the remainder of my time.

The PRESIDING OFFICER. The Senator from Utah is recognized.

Mr. HATCH. Mr. President, I have listened very closely to the remarks of my dear friend from Connecticut. I have a lot of respect for him. However, it was an easy thing for 13 members of the Senate Select Committee on Intelligence to vote to grant retroactive immunity to companies that patriotically adhered to legal letters to provide the means whereby we might be able to protect citizens in this country and perhaps all over the world.

Because of that work, we have been able to protect this country in ways that most people will never know because this area is one of the areas that we don't talk about. It is, this whole area, highly classified. We can talk about the law here.

Close inspection of the lawsuits against the telecoms reveals dubious claims. The plaintiffs have confused speculation for established facts. This is dangerous and the continuation of these lawsuits could lead to serious consequences for our national security.

It is very simple—Congress should not condone oversight through litigation.

A quick scan of what plaintiffs seek in many of these cases should send a chill down our spine. They are not, as many are suggesting, simply saying: "You went along with the President's Terrorist Surveillance Program, now give us money." Rather, the lawsuits seize on the President's brief comments about the existence of a limited program to go on a fishing expedition of

NSA activities. But this is really worse than a fishing expedition; this is draining the Loch Ness to find a monster. Sometimes what you are looking for just doesn't exist.

The lawsuits represent irrational fears of Government conspiracy, and seek to expose classified information, regardless of who is harmed in the process.

We all realize that the sources and methods our intelligence community utilizes to conduct surveillance are highly classified. The risks that classified details could be revealed through these lawsuits are severe. Remember, the very point of these lawsuits is to prove plaintiffs' claims by disclosing classified information.

Our enemies have tough decisions to make regarding how they communicate. They can't stay silent forever, and they have to weigh the need to communicate against the chance that their communications are intercepted. Given this, they are carefully watching us and reading every proceeding to see how our government collects information. If they think they see a weakness in our collection capabilities, they will certainly try and take advantage of it.

Given the legitimate problems that these lawsuits pose, the Senate Intelligence Committee adopted a bill which will alleviate them. The committee worked in a bipartisan manner to craft an immunity provision that met the needs of Congress, the Government, and the American people.

In an overwhelmingly bipartisan tally, the committee voted to include retroactive immunity for service providers that were alleged to have cooperated with the intelligence community following 9/11. Senators from both sides of the aisle, after careful consideration, came to this conclusion. Make no mistake, this was the right conclusion.

It was the right conclusion for the Intelligence Committee, and it should be the right conclusion for the full Senate today.

Our Senate Intelligence Committee has already noted that the intelligence community cannot obtain the intelligence it needs without the assistance of these companies. It goes without saying, companies in the future will certainly be less willing to assist the Government if they face the threat of extremely costly lawsuits each time they are alleged to have provided assistance.

The companies will shy away. Their attorneys will scour future Government requests, feverishly looking for any technicality to avoid compliance. And even if these private attorneys approve future participation, the company will have to listen to cautious stockholders, whose financial interests will undoubtedly make them adamantly opposed to situations which could lead to any financial risk or exposure.

But let's be clear: The telecoms are not threatening anyone. They are not saying "do this, or we will never help you again." But, they don't need to say these things for us to understand the obvious. If the financial foundations of these companies crumble due to frivolous litigation, they will rebuild it to withstand future Government requests that may again lead to their collapse.

Now some have asked a valid question: If the companies did not break the law, why do they need immunity? Quite simply, the Government's assertion of the state secrets privilege prevents these companies from defending themselves.

This assertion by the Government is absolutely essential, as the possible disclosure of classified materials from ongoing court proceedings is a grave threat to national security. Simply put, you don't tell your enemies how you track them. This is why the NSA and other Government agencies won't say what they do, how they do it, or who they watch. Nor should they! To confirm or deny any of these activities, which are at the heart of the civil lawsuits, would harm national security. We should not discuss what our capabilities are.

Given the necessity for the state secrets privilege, the drawback is that the companies being sued are forbidden from making their case. In fact, the companies cannot even confirm or deny any involvement in the program whatsoever. They have no ability to defend themselves, and that is after patriotically doing what has to be done to protect each and every citizen in this country.

Ordinarily, these companies would be able to address allegations and make their case. However, the classified nature of the topic means the companies are not free to do so. They cannot even have discussions with shareholders or business partners.

But we need to remember, lawful silence does not equate to guilt. There is no guilt here. These are companies that cooperated with the Federal Government in helping us track terrorists to protect our citizens.

The identities of any company that assisted the Government following the attacks of September 11 are highly classified. While there have been numerous allegations, they are nothing more than accusations. If the identities of these companies are revealed and officially confirmed through litigation, they will face irreversible harm: harm in their business relations with foreign governments and companies and possible harm to their employees both here and abroad, who are truly soft targets for terrorist attacks.

My admiration and respect for the companies that did their part to defend Americans is well known. As I have said in the past, any company that assisted us following the attacks of 9/11 deserves a round of applause and a helping hand, not a slap in the face and a kick to the gut.

When companies are asked to assist the intelligence community based on a program authorized by the President and based on assurances from the highest levels of Government that the program has been determined to be lawful and necessary, they should be able to rely on those representations. For those who argue we need a compromise, let me be clear: We already have a compromise. The Government certainly wanted more than what is represented in this Intelligence Committee bill. And they did not get all they wanted. I think they should have. The chairman of the Senate Select Committee on Intelligence stated the following in the Intelligence Committee report:

> This immunity provision is not the broad and vague immunity sought by the administration. The committee did not endorse the immunity provision lightly. It was the informed judgment of the Committee after months in which we carefully reviewed the facts in this matter. The Committee reached the conclusion that the immunity remedy was appropriate in this case after holding numerous hearings and briefings on the subject and conducting a thorough examination of the letters sent by the U.S. Government to the telecommunications companies.

That is after numerous top-secret Intelligence Committee hearings. The immunity provisions in this bill are limited in scope. Not everyone will be happy with them, and that is the whole point. I, for one, wanted to see more protections for companies and Government officials in this bill. But I am willing to accept a compromise. My colleagues should be willing to do the same.

We are not all getting what we want. We are getting what the public needs for its protection. I will continue to oppose any efforts to weaken the Rockefeller-Bond immunity provision.

For nearly 2 months, Congress and the public have had the ability to review the immunity provisions in this bill. Today we are hearing a great deal about how the Intelligence and Judiciary Committees handled the immunity provision. So let's look at how they voted.

The Intelligence Committee rejected an amendment to strip immunity from the bill, 12 to 3, and the committee voted to favorably report the bill, including the immunity provision, 13 to 2.

In addition, the Judiciary Committee rejected an amendment to strike the immunity provision from the bill, 12 to 7. What do all those votes have in common? They supported immunity and they were bipartisan. How many times are we going to hear about alternatives to S. 2248 which simply do not address the problem? How many trial balloons are going to be released? The first alternative we heard was the Government should indemnify the companies following possible adverse rulings in the cases.

There are myriad reasons why this option was lacking. The idea of indemnification apparently was not well received, as we now hear very little discussion of it. So let us call indemnification the first trial balloon to pop.

The next alternative we heard was the Government should be substituted in place of the companies being sued. But this alternative was full of problems, given that there is no way to remove the companies from the litigation. Remember, it is their very conduct that is in question. In order to try to prove their claims, plaintiffs will continue to seek discovery, including: document requests, depositions, interrogatories, technical data, trade secrets, proprietary company information and confidential, secret and highly classified information and the list goes on and on.

Obviously, the companies would still face many burdens of litigation, even though they are not parties because the Government is substituted for them.

This idea has also been skeptically viewed and the Judiciary Committee on Thursday rejected an idea in a resounding 13 to 5 bipartisan vote. So let's call Government substitution the second trial balloon to pop.

Now we are hearing another alternative which would dramatically expand the jurisdiction of the Foreign Intelligence Surveillance Court, and utilizes ambiguous terms such as "objectively reasonable belief."

The FISA Court was not created to review classified programs or the conduct of private companies. This new proposed alternative would completely revise the mission of the FISA Court, putting them in a role they have not had in their nearly 30 years of existence. This judicial expansion should be the third trial balloon to pop.

How long are we going to entertain inadequate alternatives and appease fringe political groups? Is it not time that we embrace the bipartisan compromise that puts the interest and safety of Americans over political interests? How long will it take? Are we willing to take that stand?

Let me also take a few minutes to unequivocally state my opposition to the Judiciary substitute. One of the basic requirements of any FISA modernization proposal is we should not have any provisions which could be interpreted as requiring warrants to target foreign terrorists overseas.

Quite simply, foreign terrorists living overseas should never receive protections provided by the fourth amendment to the Constitution. The Constitution never contemplated that. One of the controversial provisions added in the Judiciary Committee relates to "reverse targeting." Reverse targeting is the practice of targeting a foreign person when the real intention is to target a U.S. person, thus circumventing the need to get a warrant for the U.S. person.

Reverse targeting has always been unlawful, in order to protect the communications of U.S. persons. Now, contrary to what most people believe, the legal definition of "U.S. person," is not limited to U.S. citizens. See this chart: What is a U.S. person?

> An "alien lawfully admitted for permanent residence," a "corporation which is incorporated in the United States."

Now, that is according to 50 U.S.C. 1801. The U.S. person definition includes aliens lawfully admitted, legal residence, legal permanent residence. A U.S. person is also defined as a business incorporated within the United States.

From an intelligence-gathering standpoint, reverse targeting makes no sense. From an efficiency standpoint, if the Government was interested in targeting an American, it would apply for a warrant to listen to all the American's conversations, not just his conversations with a terrorist overseas.

But let's not let logic get in the way of a good conspiracy theory. Even though reverse targeting is already considered unlawful, a provision is included in the Intelligence bill which makes it explicit. This provision is clearly written and universally supported. However, the Judiciary Committee passed an amendment by a 10-to-9 partisan party-line vote which altered the clear language of that provision.

Now, where before the provision said you cannot target a foreign person if the purpose is to target a U.S. person, the new language adds the ambiguous term "significant purpose."

Now, words have meaning and in this context have very serious meaning. If this amendment becomes law, an analyst would now have to ask himself this question when targeting a terrorist overseas: Is a "significant purpose" of why I am targeting this foreign terrorist overseas the fact that the terrorist may call an airline in America to make flight reservations or a terrorist with a green card living in the USA?

If the answer is yes, then the language in this amendment would require the analyst to get a warrant to listen to that foreign terrorist overseas.

Now, if there is one thing we can all agree on, it is we should never, ever need a warrant to listen to a foreign terrorist overseas. The ambiguous and unnecessary text of this amendment should not be left up to judicial interpretation. Enactment of this amendment could lead to our analysts seeking warrants when targeting any foreign terrorists, since the analyst may be afraid he or she is otherwise breaking our new law.

Now, remember, the Intelligence Committee spent months working on a bipartisan compromise bill. This amendment I have been talking about was not in the Intelligence bill. So people should assume the Judiciary Committee spent a great deal of time debating this amendment, right? Wrong. The Judiciary Committee spent 7 minutes debating this amendment before it was adopted, again, on a 10-to-9 partisan vote, party-line vote.

Let me repeat that. Seven minutes on something that is this important. The Intelligence Committee spent months coming up with a compromise that the leaders of the intelligence community say is the minimum—minimum—they need to have.

We are enacting national security legislation, and it is our responsibility to ensure this bill does not lead to unintended consequences which provide protections to terrorists. This provision is one example of an amendment adopted by the Judiciary Committee which could and probably would, if it were enacted, harm national security. It also serves as yet another reason why we should not support the Judiciary substitute or any aspect of it.

I am a member of both committees. In fact, I believe I am probably the longest serving member on the Intelligence Committee. The Judiciary bill includes provisions that could weaken national security. Why are we thinking of handcuffing ourselves? We should not blindfold our intelligence agencies, spin them around to disorient them, and then send them out to find terrorists. We are not playing pin the tail on the donkey. We are legislating on national security, and the stakes are too high to allow legal loopholes in the Judiciary substitute to go forward.

Now, I am not alone in this view, as the Executive Office of the President today released a statement of administration policy which stated:

> If the Judiciary Committee substitute amendment is part of the bill that is presented to the President, the Director of National Intelligence, the Attorney General of the United States, and the President's other senior advisers will recommend that he veto this bill.

Mr. President, I ask unanimous consent that letter be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

STATEMENT OF ADMINISTRATION POLICY

S. 2248—TO AMEND THE FOREIGN INTELLIGENCE SURVEILLANCE ACT OF 1978, TO MODERNIZE AND STREAMLINE THE PROVISIONS OF THAT ACT AND FOR OTHER PURPOSES

Protection of the American people and American interests at home and abroad requires access to timely, accurate, and insightful intelligence on the capabilities, intentions, and activities of foreign powers, including terrorists. The Protect America Act of 2007 (PAA), which amended the Foreign Intelligence Surveillance Act of 1978 (FISA) this past August, has greatly improved the Intelligence Community's ability to protect the Nation from terrorist attacks and other national security threats. The PAA has allowed us to close intelligence gaps, and it has enabled our intelligence professionals to collect foreign intelligence information from targets overseas more efficiently and effectively. The Intelligence Community has implemented the PAA under a robust oversight regime that has protected the civil liberties and privacy rights of Americans. Unfortunately, the benefits conferred by the PAA are only temporary because the act sunsets on February 1, 2008.

The Director of National Intelligence has frequently discussed what the Intelligence Community needs in permanent FISA legislation, including two key principles. First, judicial authorization should not be required to gather foreign intelligence from targets located in foreign countries. Second, the law must provide liability protection for the private sector.

The Senate is considering two bills to extend the core authorities provided by the PAA and modernize FISA. In October, the Senate Select Committee on Intelligence (SSCI) passed a consensus, bipartisan bill (S. 2248) that would establish a sound foundation for our Intelligence Community's efforts to target terrorists and other foreign intelligence targets located overseas. Although the bill is not perfect and its flaws must be addressed, it nevertheless represents a bipartisan compromise that will ensure that the Intelligence Community retains the authorities it needs to protect the Nation. Indeed, the SSCI bill is an improvement over the PAA in one essential way-it would provide retroactive liability protection to electronic communication service providers that are alleged to have assisted the Government with intelligence activities in the aftermath of September 11th.

In sharp contrast to the SSCI's bipartisan approach to modernizing FISA, the Senate Judiciary Committee reported an amendment to the SSCI bill that would have devastating consequences to the Intelligence Community's ability to detect and prevent terrorist attacks and to protect the Nation from other national security threats. The Judiciary Committee proposal would degrade our foreign intelligence collection capabilities. The Judiciary Committee's amendment would impose unacceptable and potentially crippling burdens on the collection of foreign intelligence information by expanding FISA to restrict facets of foreign intelligence collection never intended to be covered under the statute. Furthermore, the Judiciary Committee amendment altogether fails to address the critical issue of liability protection. Accordingly, if the Judiciary Committee's substitute amendment is part of a bill that is presented to the President the Director of National Intelligence, the Attorney General, and the President's other senior advisors will recommend that he veto the bill.

The Senate Select Committee on Intelligence bill

Building on the authorities and oversight protections included in the PAA, the SSCI drafted S. 2248 to provide a sound legal framework for essential foreign intelligence collection in a manner consistent with the Fourth Amendment. As in the PAA, S. 2248 permits the targeting of foreign terrorists and other foreign intelligence targets outside the United States based upon the approval of the Director of National Intelligence and the Attorney General.

The SSCI drafted its bill in extensive coordination with Intelligence Community and national security professionals—those who are most familiar with the needs of the Intelligence Community and the complexities of our intelligence laws. The SSCI also heard testimony from privacy experts in order to craft a balanced approach. As a result, the SSCI bill recognizes the importance of clarity in laws governing intelligence operations. Although the Administration would strongly prefer that the provisions of the PAA be made permanent without modification, the Administration engaged in extensive consultation in the interest of achieving permanent legislation in a bipartisan manner.

The SSCI bill is not perfect, however. Indeed, certain provisions represent a major modification of the PAA and will create additional burdens for the Intelligence Community, including by dramatically expanding the role of the FISA Court in reviewing foreign intelligence operations targeted at persons located outside the United States, a role never envisioned when Congress created the FISA court.

In particular, the SSCI bill contains two provisions that must be modified in order to avoid significant negative impacts on intelligence operations. Both of these provisions are also included in the Judiciary Committee substitute, detailed further below.

First, as part of the debate over FISA modernization, concerns have been raised regarding acquiring information from U.S. persons outside the United States. Accordingly, the SSCI bill provides for FISA Court approval of surveillance of U.S. persons abroad. The Administration opposes this provision. Under executive orders in place since before the enactment of FISA in 1978, Attorney General approval is required before foreign intelligence surveillance and searches may be conducted against a U.S. person abroad under circumstances in which a person has a reasonable expectation of privacy. More specifically, section 2.5 of Executive Order 12333 requires that the Attorney General find probable cause that the U.S. person target is a foreign power or an agent of a foreign power. S. 2248 dramatically increases the role of the FISA Court by requiring court approval of this probable cause determination before an intelligence operation may be conducted beyond the borders of the United States. This provision imposes burdens on foreign intelligence collection abroad that frequently do not exist even with respect to searches and surveillance abroad for law enforcement purposes. Were the Administration to consider accepting FISA Court approval for foreign intelligence searches and surveillance of U.S. persons overseas, technical corrections would be necessary. The Administration appreciates the efforts that have been made by Congress to address these issues, but notes that while it may be willing to accept that the FISA Court, rather than the Attorney General, must make the required findings, limitations on the scope of the collection currently allowed are unacceptable.

Second, the Senate Intelligence Committee bill contains a requirement that intelligence analysts count "the number of persons located in the United States whose communications were reviewed." This provision would likely be impossible to implement. It places potentially insurmountable burdens on intelligence professionals without meaningfully protecting the privacy of Americans, and takes scarce analytic resources away from protecting our country. The Intelligence Community has provided Congress with a detailed classified explanation of this problem.

Although the Administration believes that the PAA achieved foreign intelligence objectives with reasonable and robust oversight protections, S. 2248, as drafted by the Senate Intelligence Committee, provides a workable alternative and improves on the PAA in one critical respect by providing retroactive liability protection. The Senate Intelligence Committee bill would achieve an effective legislative result by returning FISA to its appropriate focus on the protection of privacy interests of persons inside the United States, while retaining our improved capability under PAA to collect timely foreign intelligence information needed to protect the Nation.

The Senate Judiciary Committee proposal

The Senate Judiciary Committee amendment contains a number of provisions that would have a devastating impact on our foreign intelligence operations.

Among the provisions of greatest concern are:

An Overbroad Exclusive Means Provision That Threatens Worldwide Foreign Intelligence Operations. Consistent with current law, the exclusive means provision in the SSCI's bill addresses only "electronic surveillance" and "the interception of domestic wire, oral, and electronic communications." But the exclusive means provision in the Judiciary Committee substitute goes much further and would dramatically expand the scope of activities covered by that provision. The Judiciary Committee substitute makes FISA the exclusive means for acquiring "communications information" for foreign intelligence purposes. The term "communications information" is not defined and potentially covers a vast array of information—and effectively bars the acquisition of much of this information that is currently authorized under other statues such as the National Security Act of 1947, as amended. It is unprecedented. to require specific statutory authorization for every activity undertaken worldwide by the Intelligence Community. In addition, the exclusivity provision in the Judiciary Committee substitute ignores FISA's complexity and its interrelationship with other federal laws and, as a result, could operate to preclude the Intelligence Community from using current tools and authorities, or preclude Congress from acting quickly to give the Intelligence Community the tools it may need in the aftermath of a terrorist attack in the United States or in response to a grave threat to the national security. In short, the Judiciary Committee's exclusive means provision would radically reshape the intelligence collection framework and is unacceptable.

Limits on Foreign Intelligence Collection. The Judiciary Committee substitute would require the Attorney General and the Director of National Intelligence to certify for certain acquisitions that they are "limited to communications to which at least one party is a specific individual target who is reasonably believed to be located outside the United States." This provision is unacceptable because it could hamper U.S. intelligence operations that are currently authorized to be conducted overseas and that could be conducted more effectively from the United States without harming U.S. privacy rights.

Significant Purpose Requirement. The Judiciary Committee substitute would require a FISA court order if a "significant purpose" of an acquisition targeting a person abroad is to acquire the communications of a specific person reasonably believed to be in the United States. If the concern driving this proposal is so-called "reverse targeting"—circumstances in which the Government would conduct surveillance of a person overseas when the Government's actual target is a person in the United States with whom the person overseas is communicating—that situation is already addressed in FISA today: If the person in the United States is the target, a significant purpose of the acquisition must be to collect foreign intelligence information, and an order from the FISA court is required. Indeed, the SSCI bill codifies this longstanding Executive Branch interpretation of FISA. The Judiciary Committee substitute would place an unnecessary and debilitating burden on our Intelligence Community's ability to conduct surveillance without enhancing the protection of the privacy of Americans.

Part of the value of the PAA, and any subsequent legislation, is to enable the Intelligence Community to collect expeditiously the communications of terrorists in foreign countries who may contact an associate in the United States. The Intelligence Community was heavily criticized by numerous reviews after September 11, including by the Congressional Joint Inquiry into September 11, regarding its insufficient attention to detecting communications indicating homeland attack plotting. To quote the Congressional Joint Inquiry: "The Joint Inquiry has learned that one of the future hijackers communicated with a known terrorist facility in the Middle East while he was living in the United States. The Intelligence Community did not identify the domestic origin of those communications prior to September 11, 2001 so that additional FBI investigative efforts could be coordinated. Despite this country's substantial advantages, there was insufficient focus on what many would have thought was among the most critically important kinds of terrorist-related communications, at least in terms of protecting the Homeland." (S. Rept. No. 107-351, H. Rept. No. 107-792 at 36.) To be clear, a "significant purpose" of Intelligence Community activities is to detect communications that may provide warning of homeland attacks and that may include communication between a terrorist overseas who places a call to associates in the United States. A provision that bars the Intelligence Community from collecting these communications is unacceptable, as Congress has stated previously.

Liability Protection. In contrast to the Senate Intelligence Committee bill, the Senate Judiciary Committee substitute would not protect electronic communication service providers who are alleged to have assisted the Government with communications intelligence activities in the aftermath of September 11th from potentially debilitating lawsuits. Providing liability protection to these companies is a just result. In its Conference Report, the Senate Intelligence Committee "concluded that the providers . . . had a good faith basis for responding to the requests for assistance they received." The Committee further recognized that "the Intelligence Community cannot obtain the intelligence it needs without assistance from these companies." Companies in the future may be less willing to assist the Government if they face the threat of private lawsuits each time they are alleged to have provided assistance. The Senate Intelligence Committee concluded that: "The possible reduction in intelligence that might result from this delay is simply unacceptable for the safety of our Nation." Allowing continued litigation also risks the disclosure of highly classified information regarding intelligence sources and methods. In addition to providing an advantage to our adversaries by revealing sources and methods during the course of litigation, the potential disclosure of classified information puts both the facilities and personnel of electronic communication service providers and our country's continued ability to protect our homeland at risk. It is imperative that Congress provide liability protection to those who cooperated with this country in its hour of need.

The ramifications of the Judiciary Committee's decision to afford no relief to private parties that cooperated in good faith with the U.S. Government in the immediate aftermath of the attacks of September 11 could extend well beyond the particular issues and activities that have been of primary interest and concern to the Committee. The Intelligence Community, as well as law enforcement and homeland security agencies, continue to rely on the voluntary cooperation and assistance of private parties. A decision by the Senate to abandon those who may have provided assistance after September 11 will invariably be noted by those who may someday be called upon again to help the Nation.

Mandates an Unnecessary Review of Historical Programs. The Judiciary Committee substitute would require that inspectors general of the Department of Justice and relevant Intelligence Community agencies audit the Terrorist Surveillance Program and "any closely related intelligence activities." If this "audit" is intended to look at operational activities, there has been an ongoing oversight activity by the Inspector General of the National Security Agency (NSA) of operational activities and the Senate Intelligence Committee has that material. Mandating a new and undefined "audit" will divert significant operational resources from current issues to redoing past audits. The Administration understands, however, the "audit" may in fact not be related to technical NSA operations. If it is the case that in fact the Judiciary Committee is interested in historical reviews of legal issues, the provision is unnecessary. The Department of Justice Inspector General and the Office of Professional Responsibility are already doing a comprehensive review. In addition, the phrase "closely related intelligence activities" would introduce substantial ambiguities in the scope of this review. Finally, this provision would require the inspectors general to acquire "all documents relevant to such programs" and submit those documents with its report to the congressional intelligence and judiciary committees. The requirement to collect and disseminate this wide range of highly classified documents—including all those "relevant" to activities "closely related" to the Terrorist Surveillance Program—unnecessarily risks the disclosure of extremely sensitive information about our intelligence activities, as does the audit requirement itself. Taking such national security risks for a backwards-looking purpose is unacceptable.

Allows for Dangerous Intelligence Gaps During the Pendency of an Appeal. The Judiciary Committee substitute would delete an important provision in the SSCI bill that enables the Intelligence Community to collect foreign intelligence from overseas terrorists and other foreign intelligence targets during an appeal. Without that provision, we could lose vital intelligence necessary to protect the Nation because of the views of one judge.

Limits Dissemination of Foreign Intelligence Information. The Judiciary Committee substitute would impose significant new restrictions on the use of foreign intelligence information, including information not concerning United States persons, obtained or derived from acquisitions using targeting procedures that the FISA Court later found to be unsatisfactory for any reason. By requiring analysts to go back to the databases and pull out certain information, as well as to determine what other information is derived from that information, this requirement would place a difficult, and perhaps insurmountable, burden on the Intelligence Community. Moreover, this provision would degrade privacy protections, as it would require analysts to locate and examine U.S. person information that would otherwise not be reviewed.

Requires FISA Court Approval of All "Targeting" for Foreign Intelligence Purposes. The Judiciary Committee substitute potentially requires the FISA Court to approve "[a]ny targeting of persons reasonably believed to be located outside the United States." Although we assume that the Committee did not intend to require these procedures to govern all "targeting" done of any person in the world for any purpose—whether it is to gather human intelligence, communications intelligence, or for other reasons—the text as passed by the Committee contains no limitation. Such a requirement would bring within the FISA Court a vast range of overseas intelligence activities with little or no connection to civil liberties and privacy rights of Americans.

Imposes Court Review of Compliance with Minimization Procedures. The Judiciary Committee substitute would require the FISA Court to review and assess compliance with minimization procedures. Together with provisions discussed above, this would constitute a massive expansion of the Court's role in overseeing the Intelligence Community's implementation of foreign intelligence collection abroad.

Amends FISA to Impose Burdensome Document Production Requirements. The Judiciary Committee substitute would amend FISA to require the Government to submit to oversight committees a copy of any decision, order, or opinion issued by the FISA Court or the FISA Court of Review that includes significant construction or interpretation of any provision of FISA, including any pleadings associated with those documents, no later than 45 days after the document is issued. The Judiciary Committee substitute also would require the Government to retrieve historical documents of this nature from the last 5 years. As drafted, this provision could impose significant burdens on Department of Justice staff assigned to support national security operational and oversight missions.

Includes an Even Shorter Sunset Provision Than That Contained in the SSCI Bill. The Judiciary Committee substitute and the SSCI bill share the same flaw of failing to achieve permanent FISA reform. The Judiciary Committee substitute worsens this flaw, however, by shortening the sunset provision in the SSCI bill from 6 years to 4 years. Any sunset provision, but particularly one as short as contemplated in the Judiciary Committee substitute, would adversely impact the Intelligence Community's ability to conduct its mission efficiently and effectively by introducing uncertainty and requiring retraining of all intelligence professionals on new policies and procedures implementing ever-changing authorities. Moreover, over the past year, in the interest of providing an extensive legislative record and allowing public discussion on this issue, the Intelligence Community has discussed in open settings extraordinary information dealing with intelligence operations. To repeat this process in several years will unnecessarily highlight our intelligence sources and methods to our adversaries. There is now a lengthy factual record on the need for this legislation, and it is time to provide the Intelligence Community the permanent stability it needs.

Fails to Provide Procedures for Implementing Existing Statutory Defenses. The Judiciary Committee substitute fails to include the important provisions in the SSCI bill that would establish procedures for implementing existing statutory defenses and that would preempt state investigations of assistance allegedly provided by an electronic communication service provider to an element of the Intelligence Community. These provisions are important to ensure that electronic communication service providers can take full advantage of existing liability protection and to protect highly classified information.

Fails to Address Transition Procedures. Unlike the SSCI bill, the Judiciary Committee bill contains no procedures designed to ensure a smooth transition from the PAA to new legislation, and for a potential transition resulting from an expiration of the new legislation. This omission could result in uncertainty regarding the continuing validity of authorizations and directives under the Protect America Act that are in effect on the date of enactment of this legislation.

Fails to Include a Severability Provision. The Judiciary Committee substitute, unlike the SSCI bill, lacks a severability provision. Such a provision should be included in the bill.

The Administration is prepared to continue to work with Congress towards the passage of a permanent FISA modernization bill that would strengthen the Nation's intelligence capabilities while protecting the constitutional rights of Americans, so that the President can sign such a bill into law. The Senate Intelligence Committee bill provides a solid foundation to meet the needs of our Intelligence Community, but the Senate Judiciary Committee bill represents a major step backwards from the PAA and would compromise our Intelligence Community's ability to protect the Nation. The Administration calls on Congress to forge ahead and pass legislation that will protect our national security, not weaken it in critical ways.

Mr. HATCH. To my distinguished colleagues, I urge you to support the bipartisan Rockefeller-Bond compromise bill, one that has been superbly debated within the Intelligence Committee and has been carefully thought out.

It provides protections to civil liberties and ensures that technological changes do not outpace our laws.

I wanted to personally pay tribute to the distinguished Chairman of the Intelligence Committee and the distinguished Vice Chairman. They know what they accomplished in the Intelligence Committee was very important, and it should be followed by us on the floor.

We cannot even begin to talk about some classified issues on this floor. We cannot even begin to talk about the dangers that will come from going beyond that bill that passed 13 to 2 in the Senate Intelligence Committee. I refuse to place our country at risk. I refuse to do anything that would make our country be at risk. I suggest to you that if we follow the Judiciary Committee bill, I think we would be doing exactly that.

Mr. President, I reserve the remainder of my time, and I yield the floor.

The PRESIDING OFFICER. The Senator from Maryland.

Ms. MIKULSKI. Mr. President, I would like to speak on the bill and ask for approximately 10 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

Ms. MIKULSKI. Mr. President, we have a great country. Here we are, we are debating essentially what is going to be the Federal statute on electronic surveillance on the American people and on those who might have predatory intent toward us.

We are doing it in an open, public session, with the world to watch on C-SPAN and talking about what are the right parameters to be able to protect the American people and yet protect the American Constitution.

I think this shows the strength of our democracy and also calls upon us, as we deliberate, to come up with the widest and most prudent choice. For those who are following this debate, I would encourage them to turn to the report that has been put out by the committee, called the Foreign—note it said "Foreign"—Foreign Intelligence Surveillance Act, the amendments of 2007 to the act of 1978.

This report will go into detail about the deliberations of the committee, the amendments that were offered, the debate we had, and additional views offered by colleagues. I commend it to their attention because it goes through the background in more detail. We are talking about law, which can be quite technical, but we are also talking about the consequences of the law which are quite important.

I sit on the Intelligence Committee. In that job, I have two responsibilities: No. 1, to protect the American people and, No. 2, to protect the Constitution of the United States. Implicit in that is the right of privacy and explicit in that is their civil liberties. The Intelligence Committee's job was to modernize FISA in a way that would do both—protect the American people against predatory attacks and yet at the same time protect their constitutional rights, explicit and implicit. What this legislation does is gives our intelligence community the tools it needs to prevent, disrupt, detect, and derail terrorist plots while at the same time safeguarding the rights of American citizens.

The FISA law, the Foreign Intelligence Surveillance Act, was created in 1978. Since then, technology has changed with great speed and sophistication. I have at my home in Baltimore a rotary phone. I bought it in 1977, when I remodeled my home in Fells Point. My nieces and nephews are regaled with laughter when they say: Oh, Aunt Barb, how '70s. But when we look at the rotary phones and a blackberry was something you ate with cereal, look how far we have come since 1978. Technology has changed with speed and will continue to change with ever increasing sophistication. At the same time we are facing constantly emerging, radical, and treacherous threats that demand a new reform of the FISA law. Yet while technology and the nature of the threats have changed, we have to be very clear that our democratic values and the Constitution have not. It is an imperative that this Congress uphold both, our Constitution and our democratic values.

I believe our Intel Committee bill will do exactly that. It will make America safer. It does this by giving the U.S. intelligence professionals the tools they need to safeguard and protect against predatory attacks. Six years ago, after September 11, terrorists remained—and continue to remain—on the hunt for U.S. vulnerabilities. They use now disposable phone cards, laptop computers, and different e-mail addresses. They are always on the run, and they are always probing to find our vulnerabilities. The old FISA law made it impossible for the U.S. intel community to engage in any kind of realistic techno hot pursuit, unless we change the law. This bill enables intel professionals to keep pace with those who have this predatory intent. They have to be able to monitor terrorists overseas with speed and flexibility.

This reform legislation empowers the intel community to detect, disrupt, and prevent terrorist attacks. It does it, though, in a way that protects the constitutional rights of American citizens, both in the United States and when they travel overseas.

This bill protects their privacy in two important ways. First, it strengthens the role of the Foreign Intelligence Surveillance Court. The Intel Committee requires a FISA court to approve a warrant in order for a U.S. person to be monitored in the United States. Let me repeat that. If a U.S. person is at home in the United States, not only their home address but on the physical territory of the United States, any surveillance of them requires a warrant that is approved by the FISA Court. This means the FISA Court determines whether the surveillance is legal and necessary. The FISA Court must also judge the procedures used. The FISA Court, also looking at terrorists, takes a look at the procedures used to target them to be sure there is no reverse targeting of U.S. citizens.

Second, this bill protects the privacy rights of all Americans, whether or not they are in the United States. One can ask: What about those U.S. citizens who are traveling overseas or who are actually living overseas? What about people who are students? What about those conducting business? What about those on the cruise of a lifetime? Our good colleague from Oregon, Senator WYDEN, offered a terrific amendment which said: Your privacy rights as an American don't stop when you leave the borders of the United States. I am giving plain English. I am using BARBARA MIKULSKI language rather than committee language. In a nutshell, the Wyden amendment requires the FISA Court to approve any targeting of Americans overseas. The FISA Court approval is required in order to do this. It means your constitutional rights are based on your citizenship, not your geographic location. It is your right as a citizen that gives you the right of constitutional protections, not what ZIP Code or area code you are in at any given time. The Constitution travels with you wherever you go. This is absolutely important. I believe the Wyden amendment sets out very clear language about this.

Let's talk about the immunity for the telecommunications industry. Ordinarily I am skeptical of any giveaway to these corporations, whether tax breaks or whatever. But this is one I do support. I understand there are a lot of concerns about that, and they have been raised by my colleagues in a very eloquent way. But let's examine what the telecom community was asked to do, what legal assurances they were given and by whom, and the context in which they acted. Think about where we were on September 11. There had been an attack on the World Trade Center and the Pentagon. The people of Flight 93 had given their lives in the most gallant kind of way, ostensibly to protect us against a plane that was heading to the Capitol. All of us will tell you where we were that day. Quite frankly, I was in a meeting with Senator Daschle when the Pentagon was hit. Sixty Marylanders died, and I thought I might die that day. I think there were a lot of other people here who worried about that as well. We got through that day, and we stood on the Capitol steps and linked arms and said: God bless America. But we were filled with fear and apprehension. We were concerned that other attacks were being planned, that another attack might even be imminent. We were worried about the Sears Tower in Chicago, the Golden Gate bridge, about getting on planes, about getting on trains, about riding subways. We were even worried about going to football games.

I remember on the eve of the Army-Navy game, wondering what would that mean with the best and brightest of our leadership, would even the Army-Navy game be attacked? The U.S. Capitol at that same time was hit by an anthrax attack. Don't you remember the wonderful day when they sealed the Hart Building, when I was told that my office was a crime scene and a public health incident? My chief of staff, who was a new nursing mother, was filled with fear that she might have anthrax. I remember taking that little swab with the Navy medic who shook my hand and said: Good luck. Good luck? I wanted Cipro. I didn't want good luck. We were scared to death. People were snapping up gas masks and survival kits. You walk around this Capitol today, you see all of that.

So every single American was clear that they wanted to do anything to prevent or disrupt the next attack. We were all asked to do our part. It was in this context, then, that the Bush administration went to the telecom companies. These companies were asked to assist with a communications program to prevent further attacks. They were given letters of assurance that essentially said: The Attorney General of the United States, then John Ashcroft, deemed what they were being asked to do legal and necessary. There was a subsequent letter where then White House counsel Alberto Gonzales also assured these companies that what they were doing was legal and necessary. The correspondence declares that these activities were also authorized by the President of the United States during this time of anxiety.

I know my colleagues would say the lawyers knew that and it was law school and so on. But what would you have done if you headed up a company in the law department? Would you have fretted over the law or would you look at how maybe you could cooperate, how maybe when you see the Beamer family on TV and they said they were ready to roll and we all felt as though we were ready to roll, maybe if you were a telecom company, you were ready to roll too? Maybe you were rolling the dice. But you did have a letter that assured you what was legal and necessary from the Attorney General, the White House, and that also had been authorized by the President.

Within this context, the telecom companies thought what they were doing was patriotic and legal. At a time when the United States felt it was under imminent threat of an attack by a new kind of emerging threat, they were given these assurances. That is why I support giving them focused immunity, because they thought what they were doing was patriotic. Look at the context. At the same time they had these letters of assurance. What I do not support is what the Government additionally wanted, which was to give immunity to all persons connected to this, which means essentially the Bush officials, officials in the Bush administration who either knowingly broke or sidestepped the law. That is not what the committee bill would do. What the committee bill does is focus only on the telecom community. It does not give immunity to these Bush administration people.

When we look at this, I ask everybody to remember what this was. This bill also has a sunset of 6 years which I think we need. We are now in the heat of war, and we must continue to reevaluate and improve this law when cool heads will prevail.

I know others want to speak. I will speak later on on this bill in a more amplified and legal way. But I think the time has come to reform FISA, to make ourselves modern and contemporary and, at the same time, not to punish those who thought they were working with us; last, but not at all least, to protect the American people, both in terms of their safety but also their constitutional rights.

The PRESIDING OFFICER (Mr. PRYOR). The Senator from Alabama.

Mr. SESSIONS. Mr. President, I would first just express my appreciation for the thoughtfulness and eloquence of the Senator from Maryland. I think she has analyzed the matter very well and has called us to a compromise agreement that we should rally around and pass—an agreement that will protect our country and also protect our liberty; and that is, the agreement that came out of the Intelligence Committee 13 to 2. It is the kind of agreement that reflects weeks, even months, of study, both of law and of technology.

Our Intelligence Committee, more than our Judiciary Committee, of which I am a member, was deeply involved in exactly what is being done in foreign intelligence and how it was being done. They studied it carefully. There are a lot of members of the Intelligence Committee who would not hesitate to object if they thought what was being done was in error or certainly if it violated our Constitution. As a result, we have moved forward with their bill.

Unfortunately, the Senate Judiciary Committee that had referral on the matter has now come forward with additional ideas and proposals that are not wise, in my view. We did not spend nearly as much time on the matter. We are not nearly as involved and knowledgeable of the details of what has gone on as the Intel Committee is. I believe we should not move forward on the Judiciary Committee bill. I opposed it in committee and remain in opposition to it.

With regard to this matter of immunity for our telecom companies that cooperated with the President, the Senator from Maryland has explained how we got to this point. Mr. President, 9/11 occurred. We had a 9/11 Commission that said we did not have good intelligence, we did not share the intelligence we had correctly, we were not analyzing properly the intelligence we had, and we ought to do much better with regard to intelligence.

That was a uniform view, and the President authorized these programs, some of which basically had been authorized for years and had never been considered to be improper in any way. Government officials met with the telecom providers and asked for their assistance because the Government does not handle these communications systems. It is private companies that do. These companies were given a legal statement from the Attorney General that said the President had declared their cooperation to be important to national security, that it was legal, and asked them to help.

Now, we discussed the basic principle in the Judiciary Committee at some length, and I would like to go back to it. The basic principle that has been embedded in our law for hundreds of years, from our British heritage, is that a citizen—when called upon by a law officer, the gendarme, the Federal official, or the State law officer who has apparent legal authority, to help in a situation involving a danger in the community—that citizen should respond. OK. How have we dealt with that?

We are so committed to that fundamental principle that we have embedded in our common law the concept that if the Government official was in error and should not have asked the citizen to do something—an example would be where somebody is running from a building, and apparently, a burglary has occurred. Several uniformed police officers are chasing the apparent burglar. They ask a citizen to help. The citizen assaults, tackles, and holds the person he has been told to try to capture. He helps the police officers capture that person, and it turns out he is not the burglar, but an innocent person.

It is absolutely clear as a matter of Anglo-American law—this is not some new deal; this is our heritage—that the citizen is not responsible and cannot be held legally liable because the only question is: Was he or she responding to what appeared to be a legitimate request by the Government to assist them?

So that is the deal. That is what our telecom companies did. More than that, they did not just respond to some police officer in uniform, they did not just respond to a military officer or a National Guardsman or a Coast Guardsman to help, they responded to the Attorney General of the United States of America requesting in a formal letter saying that he was authorized by the President of the United States to ask for their assistance to preserve and protect the safety of American citizens. They were given assurance that what they were being asked to do by the Attorney General was lawful.

How could we possibly suggest that these companies now are going to be rightfully sued for money damages? It is unthinkable we would allow that to happen. It would contradict our fundamental principles as a country.

They say: Well, how do we know? We need to have a lawsuit. Well, we have all kinds of telecom communications statutes that we have imposed over the years. Apparently, a court, in reviewing these matters, interpreted one of these statutes in a way that rendered the procedures then utilized under the request of the White House incorrect. The court did not say that the program could not be done, but that it had to be done using different techniques and different procedures. But the practical effect of that decision, it turns out, was to make it impossible for those techniques to be continued to be used. You just could not do it. As a practical matter, you could not continue to conduct the surveillance the Intelligence community said was required.

So the net result was we passed the Protect America Act this summer so the surveillance could continue because we, after great study, concluded it was needed and basically a lawful procedure. We passed the Protect America Act that allowed it to continue.

So I want to go back to say, the fact there was an alteration in the way this process was ongoing does not mean American companies that agreed to be supportive of the Attorney General and the President of the United States in a time of national emergency ought to have been sued. The person responsible if there was an error was the Government, not the companies—the Government. And many of these matters are very complex.

If we now are going to place the burden on the CEO or the legal counsel of every company in America to conduct their own independent research as to whether a request to participate in helping to defend America is constitutional, and they now are required to go beyond a certified letter from the Attorney General of the United States and have their lawyers express their own opinion, we are at a point where we are not going to get help in the future. It is just that simple.

So I think we ought to be careful about it. In fact, in the letter Senator HATCH has referred to, which is a Statement of Administration Policy—what they call a SAP—issued today by the Executive Office of the President, the President's advisors indicate they would recommend to the President that this important, critical legislation be vetoed if certain objectionable matters are in it.

One of the matters they are concerned about is this question of liability. I would like to read from page 4 from that SAP that deals with this issue. It sets out the question clearly. It says:

> In contrast to the Senate Intelligence Committee bill, the Senate Judiciary Committee substitute would not protect electronic communication service providers who are alleged to have assisted the Government with communications intelligence activities in the aftermath of September 11th from potentially debilitating lawsuits. Providing liability protection to these companies is a just result. In its Conference Report, the Senate Intelligence Committee "concluded that the providers . . . had a good faith basis for responding to the requests for assistance they received."

That was a bipartisan vote, 13 to 2. Senator ROCKEFELLER, the Democratic chairman, and Senator BOND, the ranking Republican, and all members voted on that language.

I am still quoting now from this SAP:

> The Committee further recognized that "the Intelligence Community cannot obtain the intelligence it needs without assistance from these companies."

In other words, we cannot get this intelligence without the cooperation of these companies, for heaven's sake. This is not a matter of dispute. This is an absolutely undeniable fact. It goes on to say:

> Companies in the future may be less willing to assist the Government if they face the threat of private lawsuits each time they are alleged to have provided assistance. The Senate Intelligence Committee concluded that: "The possible reduction in intelligence that might result from this delay is simply unacceptable for the safety of our Nation."

It is unacceptable. This SAP goes on to say:

> Allowing continued litigation also risks the disclosure of highly classified information regarding intelligence sources and methods. In addition to providing an advantage to our adversaries by revealing sources and methods during the course of litigation, the potential disclosure of classified information puts both the facilities and personnel of electronic communication service providers and our country's continued ability to protect our homeland at risk. It is imperative that Congress provide liability protection to those who cooperated with this country in its hour of need.

It goes on to say this:

> The ramifications of the Judiciary Committee's decision to afford no relief to private parties that cooperated in good faith with the U.S. Government in the immediate aftermath of the attacks of September 11 could extend well beyond the particular issues and activities that have been of primary interest and concern to the Committee. The Intelligence Community, as well as law enforcement and homeland security agencies, continue to rely on the voluntary cooperation and assistance of private parties. A decision by the Senate to abandon those who may have provided assistance after September 11 will invariably be noted by those who may someday be called upon again to help the Nation.

I think that is indisputable. So I do not know how we got to a place where we are supporting an effort by some to allow these companies, these good corporate citizens, to be sued. I know it is being driven by a lot of leftist, the "blame America first" folks who seek to undo every single thing that is done to protect America from attack by foreign adversaries. They go through it. They attempt to find anything that can be complained about, and we end up having a big debate on these issues. But these matters have serious consequences.

So I would say to my colleagues, we did not deny moveon.org any right to be heard. They have been heard—moveon.org, that's the organization that declared our fabulous General Petraeus to be a betrayer. But we have listened to all of their complaints. We have listened to the ACLU. The Intelligence Committee has spent months looking at it. The Department of Justice has been involved in it. The Senate Judiciary Committee has been involved in it. I would submit we have found that these surveillance procedures are not an extreme thing, that this is all consistent with the law of America and that it is legitimate in the way it was done. We ratified these procedures just this summer in the Protect America Act. I said a little earlier this morning that I know it is too much to expect that we would apologize to our security officers and the President for saying—as some have done—that they violated our Constitution to do these procedures because, after all this debate and effort, we have now passed laws, including the Protect America Act, that allows them to continue. If they are so horrible, why did we overwhelmingly vote to allow them to continue? I would say there was nothing fundamentally wrong with what was being done to begin with. This was necessary and legitimate.

One more thought I wish to share on the basic question of surveillance abroad is this: American citizens abroad are protected by a rather strong Presidential order—Executive Order 12333—that protects them from surveillance without probable cause having been shown. It is a pretty strong order. Why have we never had the Supreme Court, which has ruled on surveillance in the United States, declare its power on the issue of surveillance abroad? Think about this: Can the Supreme Court—can a Federal judge in America approve a surveillance, electronic surveillance in a foreign country of an American citizen? The answer is, no, because they don't have jurisdiction. Federal judges don't have jurisdiction in France or Russia or Afghanistan. If you don't have jurisdiction to authorize a surveillance, you don't have jurisdiction to issue warrants or to assert jurisdiction at all, and that is the way it has always been interpreted. But because people were concerned about American citizens abroad, President Reagan issued an Executive order that controls those situations and that is being followed today.

So I wish to say we need to be careful about our thought processes as we go forward. There has never, ever been any doubt that an American intelligence operative can surveil foreign persons abroad whom they believe may pose a threat to the United States or may possess information valuable to the United States. That has never been in doubt.

So as we go through with this, I hope we will listen to the work of the Intelligence Committee. I think, for the most part, it is a pretty good bill. Their bill is something I can support. It has some things in it I don't believe are necessary that put restrictions on our efforts to make sure our officials don't overreach. We can create safeguards in a bipartisan way, and I hope we will. But in truth, we need to pass legislation soon because the current bill, the Protect America Act, expires in February.

I went out a few weeks ago to the National Security Agency and got a full briefing, as a number of Senators have, on what is being done there. I was so proud of our personnel. These are fabulous Americans. The suggestions that have been made by some that they are sitting out there trying to listen in on somebody's private conversation about Christmas from Paris or Afghanistan is beyond reality. They are out there trying to protect America. They are looking to see if they have any information that they can legally pick up that would indicate an attack may be imminent or that people are plotting to attack the United States.

So I thank the Chair. I hope we will move forward with this legislation based on the Intel bill and that we will reject efforts to deny liability protection to Americans who serve our country. Also, I hope we will reject the Wyden language in the Intel bill because I think it goes far too far in constricting the ability of our intelligence personnel to do their job, and it is not legally or constitutionally required.

I thank the Chair, and I yield the floor.

The PRESIDING OFFICER (Ms. LANDRIEU). The Senator from Maryland is recognized.

Mr. CARDIN. Madam President, I wish to take this time to talk a little bit about the FISA bill we are considering today. I heard my friend from Alabama talk about the work that is being done at the National Security Agency. I have also taken the opportunity to visit with NSA to see firsthand the work they are doing. It wasn't my first visit. NSA, as my colleagues know, is located in Maryland. I have been there on numerous occasions. I had an opportunity to observe the manner in which our security intelligence agencies operate, and I must tell my colleagues these men and women are dedicated public servants doing a great job on behalf of their country and trying to get it done right. They are trying to do it the way it is supposed to be done and complying with laws, but they need the right legal basis, and it is our responsibility in Congress to get the statutes right to allow them to obtain the information they need in order to keep us safe. There is a right way of doing it. Congress needs to get this bill done right.

We passed this bill in a hurry in August. We didn't have an opportunity at that time to review the classified information about the advice that was given in regard to the collection of data. Since that time, some of us have had that opportunity. I regret all of us have not had that opportunity. I have taken advantage of that opportunity as a member of the Judiciary Committee, and I have seen the information. I have seen the opinions of counsel. I have seen the information the telecommunications companies operated under. I have had a chance to review that information. It makes it a lot easier for me now to evaluate what we should do.

I will tell my colleagues I wish to get this bill done. I think it is important that our intelligence community have the legal authority to be able to intercept communications that are foreign to foreign. That was the basic reason why they asked for us to modify the FISA law, because technology changed and we had a lot of foreign-to-foreign communications. But it was through facilities that were located within the jurisdiction of the United States; therefore, the FISA laws applied. The administration thought originally they didn't apply, but then the court said: Hey, wait a minute. Read the statute. It does apply. You have to come to Congress and get it done right. That is why they came to us. They wouldn't have come to us if the courts didn't demand they come to us. Now it is our responsibility to get the statute right.

I wish to thank Senator ROCKEFELLER and Senator BOND for the work they did in the Intelligence Committee. I serve on the Judiciary Committee. I can tell my colleagues, Senator LEAHY, Senator SPECTER, and every member of our committee has taken our responsibility very seriously to try to understand the circumstances. But I can tell my colleagues it is important we modify the bill that has come out of the Intelligence Committee. I call my colleagues' attention to the work of the Judiciary Committee because we wanted to make sure the bill we recommended gives the intelligence community the tools they need, particularly as it relates to foreign-to-foreign communications but also protects the constitutional rights of the citizens of our own country, and it will be defensible before our courts. That is our responsibility. I think we got it right.

So we are going to see some differences between these two bills, besides the big difference which is the immunity. I am going to get to the retroactive immunity in a moment. However, there are other differences which are very important, including exclusivity, to make it clear this statute controls so the administration can't say: Well, we have additional authority and we are going to do it our way, regardless of what the Congress says. That is an important provision. It is in the Senate bill. We need to make sure it is in the final bill that is sent to the President.

There are other provisions that are important that are in the Senate bill but not in the House bill: Changes in minimization rules; changes in how—when we target an American overseas—we do, in fact, get appropriate court authorization to do it. I thank Senator WHITEHOUSE for his contributions in that regard. These might be technical changes, but they are important to make sure they get into the bill that is finally passed and sent to the President.

Let me talk for a moment, if I might, about the retroactive immunity because there has been a lot of conversation about retroactive immunity. I oppose retroactive immunity. I think it is the wrong way to help the carriers. Retroactive immunity, to me, violates our responsibility to respect each branch of Government. I want the courts to be able to look at what the executive branch is doing. I want the courts to protect individual rights. I think that when we start looking at retroactive immunity, we start violating the basic separation of powers.

I must tell my colleagues that the telecommunications carriers that cooperated with the Government, believing that the authority was there and operating in good faith, are entitled to relief. But they shouldn't be given retroactive immunity.

There are other suggestions which have been made. I hope my colleagues will listen to some of the amendments that are being offered. Senator SPECTER has an amendment that I call to the attention of my colleagues. Because if you believe that Government is responsible—and I have heard many of my colleagues say this—that if the Government was wrong, let them be sued and held accountable. That is exactly what Senator SPECTER's amendment does. It substitutes the Government for the carriers in the same position that the carriers would be so we can get the protection of the courts and the carriers get the protection they need, and the Government can control the case for national security purposes. It seems to be a compromise that if, in fact, the carriers were operating in good faith, then let the Government be there to take its responsibility in this matter.

I call my colleagues' attention to another amendment offered by Senator FEINSTEIN. I think it is a good amendment on this issue. It may be able to help us in trying to find common ground. Her amendment says: Look, the bill we passed that is supported by the Intelligence Committee—the bill we passed last August, now amended by the Intelligence Committee, would say: OK, we are going to grant retroactive immunity, and guess who is going to make the decision as to whether the carrier operated in good faith according to law. It is going to be the Attorney General, the administration. Well, to me, that doesn't sound quite objective. After all, we know it was the Attorney General who gave the advice. So at least let's have an objective review. The Feinstein amendment says: Let the FISA Court, which was set up for this purpose and which has the expertise in this area, make the judgment as to whether the carriers followed the law in good faith. Because I tell my colleagues, if they did, I believe they are entitled to relief. I do. But I don't think we should strip the court of its jurisdiction in solving that problem. I think there are better ways to do it. I urge my colleagues to look at the work of the Judiciary Committee because I think they will find some help in a product that will be submitted vis-a-vis amendments as we consider this legislation.

I wish to mention one additional item I am going to bring to the attention of my colleagues, and that is an amendment I offered in the Judiciary Committee that was approved and one I hope will have bipartisan support: A 4-year sunset on the legislation. Why do I want to see this sunset in 4 years? The Intelligence bill has 6 years. I want the next administration to focus on this issue. I want them to come to Congress and cooperate with us on how they are using this power. It is interesting we have gotten tremendous cooperation, since August, from the administration because they knew they had to come back here in February, so we got their cooperation. We got the information we needed. But I don't know if we are going to see any information from the next administration. When they know they have the authority during the entire time, they don't have to come back to us.

So I hope this 4-year sunset provision will be agreed to by all of us, so this Congress can exercise its appropriate oversight as to how this administration and the next administration use this extraordinary power.

FISA is extraordinary power. These are secret courts. These aren't courts that issue written opinions that people can attend. These are secret courts, in order to protect the security of America but also the rights of the people of our Nation. They should at least have the ability for Congress to exercise appropriate oversight responsibility. A 4-year sunset will give us that opportunity in the next administration, and I hope that will be improved.

So this is an important bill. This is a bill I hope will reach the President's desk and will be signed into law. But let's make sure we get it right. Let's make sure it is legislation we are proud of to protect the safety of the people of America and our civil liberties and legislation that can withstand the review of our courts as to constitutionality.

I yield the floor.

The PRESIDING OFFICER. The Senator from Wisconsin is recognized.

Mr. FEINGOLD. Madam President, this morning I laid out the reasons why I opposed cloture on the motion to proceed. Now I would like to describe in more detail the reasons that the Senate should be considering the Judiciary bill rather than the Intelligence Committee bill. And I will lay out again why I strongly oppose the immunity provision in the Intelligence Committee bill.

There are a number of similarities between the bills reported by the Intelligence and Judiciary Committees. Their basic structure is the same. Both bills authorize the Government to conduct surveillance of individuals reasonably believed to be overseas without court approval for individual warrants. Both bills authorize the Government to develop and implement procedures to govern this new type of surveillance, and provide the procedures to the FISA Court for review after they have gone into effect.

But in critical ways, the bills take different approaches. The Judiciary bill contains a number of important changes to improve court oversight of these broad new executive branch authorities, and to protect the privacy of law-abiding Americans.

Let me be clear: The differences between these two bills have nothing to do with our ability to combat terrorism. They have everything to do with ensuring that the executive branch adheres to the rule of law and doesn't unnecessarily listen in on the private communications of Americans.

This debate is about whether the court should have an independent oversight role, and what protections should apply to the communications of Americans that get swept up in these broad new surveillance powers.

If you believe that courts should have a meaningful oversight role with respect to Government surveillance, then you should support the Judiciary bill. And if you believe that Congress should try to limit the number of communications of Americans here at home that will be swept up in a broad new surveillance program that is supposed to be focused on foreigners overseas, then you should support the Judiciary bill.

That said, the Judiciary bill is not perfect. More still needs to be done to protect the privacy of Americans. But that is why it should be such an easy decision to support the Judiciary bill as a starting point.

Let me also remind my colleagues that the process by which the Judiciary Committee considered, drafted, amended and reported out its bill was an open one, allowing outside experts and the public at large the opportunity to review and comment. With regard to legislation so directly connected to the constitutional rights of Americans, the results of this open process should be accorded great weight, especially in light of the Judiciary Commiittee's unique role and expertise in protecting those rights.

So what are the differences between the two bills?

First, the Judiciary bill gives the secret FISA court more authority to operate as an independent check on the executive branch.

One provision in the Judiciary bill fixes an enormous problem with the Intelligence Committee bill—the complete lack of incentives for the Government to do what the bill tells it to do, which is target people overseas rather than people here in America. The Judiciary bill solves this problem by limiting the use of information concerning Americans when that information is obtained through procedures the FISA Court ultimately finds are not reasonably designed to target persons overseas.

The Judiciary bill states that if the court determines that the Government has been using unlawful procedures, then its use of that information is limited—in exactly the same way that it is limited under FISA today if the Government starts surveillance in an emergency and is later turned down for a court order. But the new provision in the Judiciary bill is more flexible: It gives the court the option to allow the use of the information the Government collected the first time around, depending on the circumstances.

Another provision of the Judiciary bill ensures that the FISA Court has the authority to oversee compliance with minimization procedures.

Minimization procedures have been held up as the primary protection for the privacy of Americans whose communications get swept up in this new surveillance authority.

I don't think current minimization procedures are strong enough to do the job. But to the extent that minimization can help protect Americans' privacy, its implementation needs to be overseen by the court. That means giving the court the authority to review whether the Government is complying with minimization rules and to ask for the information it needs to make that assessment. Without this provision from the Judiciary bill, the Government's dissemination and use of information on innocent, law-abiding Americans will occur without any checks and balances whatsoever. Once again, "trust us" will have to do. I believe in this case, as in so many others, "trust us" is not enough.

The Judiciary bill furthers other types of oversight, as well. It requires relevant inspectors general to conduct an audit of the President's illegal wiretapping program, which is long overdue.

And it improves congressional access to FISA Court orders. The Intelligence Committee bill requires that Congress be provided with orders, decisions and opinions of the FISA Court that include significant interpretations of law within 45 days after they are issued. That is good as far as it goes, but the Judiciary bill adds that Congress should be provided with pleadings associated with opinions that contain significant interpretations of law. These pleadings may be critical to understanding the reasoning behind any particular interpretation as well as how the Government interprets and seeks to implement the law. It also requires that significant interpretations of law not previously provided to Congress over the past 5 years be provided.

The Judiciary bill also does a better job of protecting Americans from widespread warrantless wiretapping.

First, it protects against reverse targeting. It ensures that if the Government is wiretapping a foreigner overseas in order to collect the communications of the American with whom that foreign target is communicating, it has to get a court order on the American. This is very reasonable. Specifically, the Judiciary bill says that the Government needs an individualized court order when a significant purpose of its surveillance is listening to an American at home. The DNI himself said that reverse targeting violates the Fourth Amendment; this provision simply codifies that principle. The administration continues to oppose this provision, and I have a simple question for it: "Why?" Why is it opposed to a provision that prohibits a practice that its own Director of National Intelligence says is unconstitutional?

The Judiciary bill also prohibits bulk collection—that is, the sweeping up of all communications between the United States and overseas. The DNI said in public testimony that this type of massive bulk collection would be permitted by the Protect America Act. But he has also said that what the Government is seeking to do with these authorities is something very different. It is "surgical. A telephone number is surgical. So, if you know that number, you can select it out." If the DNI has said it doesn't even need broader authorities, we should certainly should not be providing them.

All this modest provision does is hold the DNI to his word. It ensures that the Government has some foreign intelligence interest in individual targets, and is not just vacuuming up every last communication between Americans and their friends and business colleagues overseas. Targets do not need to be known or named individuals; they can be anonymous phone numbers, which is how the DNI has described how the Government collects. And the Government does not have to identify or explain its interest in the targets to the FISA Court; it merely has to make a general certification that individual targets exist. Again, why does the administration oppose this provision? I have yet to hear a convincing answer.

The Judiciary bill also has a sunset of 4 years rather than 6 years, ensuring that Congress will reevaluate this law before the end of the next Presidential administration. And, critically, it contains a strong statement that Congress intends for FISA to be the exclusive means by which foreign intelligence surveillance is conducted. It closes purported statutory loopholes that the Justice Department relied on to make its tortured arguments that the congressional authorization for use of force against al-Qaida somehow authorized the President's illegal wiretapping program. The Judiciary bill makes clear, once and for all, that the President must follow the law.

Madam President, the Judiciary bill also does not contain the provision in the Intelligence Committee bill granting automatic, retroactive immunity to companies that allegedly cooperated with the President's illegal NSA wiretapping program. I supported an amendment to strike the immunity provision in the Intelligence Committee when it was offered by the Senator from Florida, Mr. NELSON—I offered an amendment to strike the immunity provision in the Judiciary Committee—and I will cosponsor Senator DODD's amendment to strike the immunity provision on the Senate floor. The immunity provision does not belong in this bill.

Granting immunity, first of all, is unnecessary. Current law already specifically provides immunity from lawsuits for companies that cooperate with the Government's request for assistance, as long as they receive either a court order or a certification from the Attorney General that no court order is needed and the request meets all statutory requirements. This current FISA immunity provision, contained in 18 U.S.C. §2511, already protects companies that act at the request of the Government, while also protecting the privacy of Americans' communications by assuring that immunity is granted only if the law is followed.

Some supporters of immunity argue that companies should not be penalized for relying in good faith on the legality of a request from the executive branch. This argument ignores the history of FISA. Private companies have a long history of receiving requests for assistance from the Government, and they worked with Congress when FISA was first enacted to devise a law that tells them exactly which Government requests they should honor. They also have experienced, well-trained lawyers to examine the written requests they receive from the Government and determine whether those requests comply with the clear requirements of the law or not.

The idea that telephone companies could not have foreseen that the Government might overstep the law makes no sense. FISA's requirement of a court order or a valid certification was designed precisely to respond to Government abuses that took place in the 1960s and 1970s, and to prevent such abuses from occurring in the future.

The Judiciary Committee heard testimony from Mort Halperin, a former Nixon administration official who had himself been the subject of a warrantless wiretap, and was involved in drafting FISA in the 1970s. He testified that before FISA:

> Government communication with the telephone company . . . could not have been more casual. A designated official of the FBI called a designated official of [the company] and passed on a phone number. Within minutes all of the calls from that number were being routed to the local FBI field office and monitored.

Not surprisingly, this casual, ad hoc system failed to protect Americans' privacy; the abuses that took place are well documented and quite shocking. FISA was supposed to give everyone involved a level of certainty about what was permitted and what was not. And the provision specifying the circumstances under which a Government request could be honored, in particular, was supposed to play a significant role in ensuring that certainty. AT&T, which was the only telephone company in existence at the time, was at the table when this provision was drafted. As Halperin described it in his testimony, the company:

> received the clarity that it sought and deserved. The rule, spelled out clearly in several places in the legislation and well understood by all, was this: If [the phone company] received a copy of a warrant or a certification under the statute, it was required to cooperate. If it did not receive authorization by means outlined in the statute, it was to refuse to cooperate and was to be subjected to State and Federal civil and criminal penalties for unlawful acquisition of electronic communications.

This is the history. This is why we have the FISA statute. This is the whole point.

This history should give all of us pause as we consider the immunity provision in this bill. Granting companies that allegedly cooperated with an illegal program this new form of automatic, retroactive immunity undermines the law that has been on the books for decades—a law that was designed to prevent exactly the type of actions that allegedly occurred here. Perhaps more importantly, it will undermine any new laws that we pass to govern Government surveillance.

If we want companies to follow the law in the future, it sends a terrible message, and sets a terrible precedent, to grant a new form of retroactive, blanket immunity for alleged cooperation with an illegal program. We not only want companies to follow the law, we want the Government to follow the law. If we don't give the companies a solid basis for refusing to respond to a Government request that falls short of statutory requirements, we take away the incentive for the Government to follow the law. It would be irresponsible for Congress to allow this to happen.

It is time for Congress to state clearly and unequivocally: "When we pass a law, we mean what we say and we expect the law to be followed." But if we grant immunity to companies that may have broken the law, the message we send will be quite the opposite. We will be effectively making compliance with the law optional. We will be saying: "If a high Government official asks you to ignore the law, go ahead. Congress can always change the law retroactively so you won't pay any penalty for your lawbreaking." I ask my colleagues to think long and hard about this as they consider this amendment. Is that the message that we really want to send?

This retroactive immunity provision presents another serious problem.

It could very well prevent the courts from ruling on the administration's warrantless wiretapping program. That may explain why the administration is pushing so hard for this part of the bill. This program is one of the worst abuses of executive power in our Nation's history, and the courts should be able to rule on it once and for all. For Congress to step in and likely wipe out the pending court cases, when the administration has stonewalled congressional oversight efforts for so long, would be an unacceptable capitulation to an administration that thinks it is above the law.

Finally, I must emphasize that a vote to strike immunity is not a vote to hold telephone companies liable. Rather, it is a vote to let the courts decide whether the existing immunity provisions apply. If telephone companies received a directive from the Government and complied with well-established law, the courts will find that they are entitled to immunity and these cases will be dismissed. But if they failed to follow the law that applied specifically to them—a law they helped create and a law that their lawyers knew inside and out—we will have done American citizens a grave injustice by saying that sometimes it is just plain OK to break the law.

In other words, Congress should not prejudge the guilt or innocence of the companies, especially without knowing the facts. Unfortunately, most of the Members of this Chamber have not had access to those facts. The members of only two committees have had the opportunity to study what happened. I happen to sit on both committees, and after seeing all the evidence, my firm view is we should leave this to the courts to decide under existing law. But it is wrong for the administration to ask my colleagues who do not serve on these committees to vote for immunity. They are effectively being asked to grant immunity without being told for what they are granting immunity. This is fundamentally unfair.

The Senate can stand up for the rule of law and let the courts handle these cases as they see fit, or it can decide to change the rules in the middle of the game and block accountability for possible past law breaking. Voting to preserve retroactive immunity means they are blessing the behavior of the administration and the companies that allegedly cooperated with it. I urge my colleagues not to take that step.

Before I close, I wish to respond briefly to the comments made by the vice chair of the Intelligence Committee concerning the President's so-called inherent constitutional power to order surveillance. Relying on a nonbinding statement made in passing in a FISA Court of Review decision on another issue and a 1980 circuit court case that addresses surveillance before FISA was passed, the vice chairman asserts that the President has inherent constitutional authority to wiretap without a court order.

I am afraid to say that argument is an invitation to lawlessness. What he basically said is that because in his view the President has wiretapping authority that cannot be limited by statute, a company that complies with his request for assistance cannot be held accountable, no matter how unreasonable the request was. If that is the case, then Congress may as well pack up and go home because the laws we pass don't matter.

Congress has spoken very clearly in FISA and limited Presidential power to conduct surveillance. Congress had the authority to take this action, and the courts have never upheld an assertion of Presidential power over statutory restriction in a case where Congress has acted within its authority. In this case, the President must follow the law that Congress passes, and so should the telecommunications companies.

Madam President, how much time do I have remaining?

The PRESIDING OFFICER (Ms. STABENOW). Forty-one minutes.

Mr. FEINGOLD. I ask unanimous consent to yield my remaining time to Senator DODD.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DODD. Madam President, before my colleague leaves, I thank my colleague Senator FEINGOLD for not only his statements today but for speaking eloquently about this issue, with which he has been deeply involved with for a long time. Drawing on his service on both the Intelligence and Judiciary Committees, he eloquently pointed out that these provisions are designed to guarantee exactly what FISA intended to provide the security of our country and the sanctity of our rights, simultaneously.

And the idea that these companies were acting out of patriotism and naive to the provisions of the law when the very same companies were involved in crafting that law 30 years ago says volumes. I thank Senator FEINGOLD immensely for his work.

Mr. FEINGOLD. Madam President, I thank the Senator from Connecticut for his kind words, and I thank him for his important leadership on this issue. What he is doing today is extremely helpful to the preservation of the rule of law in this country.

The PRESIDING OFFICER. The distinguished Senator from Virginia.

Mr. WARNER. Madam President, the time is such, I understand from the Senator, that I may deliver a few remarks to the Senate; is that correct?

The PRESIDING OFFICER. The Senator may proceed under cloture. The Senate is operating under cloture.

Mr. WARNER. Madam President, I rise today because of the timely and critical importance of the issue before us. It is absolutely vital that we reform FISA, and we must do so quickly because the Protect America Act passed in August to close a dangerous intelligence gap is set to expire shortly. We must keep this gap closed, and we must do it in a way that protects civil liberties, protects telecommunications companies from unnecessary and costly lawsuits, and ensures that our hardworking and dedicated intelligence professionals have the tools they need to protect the Nation.

I have been privileged these 29 years I have been in the Senate to represent the Commonwealth of Virginia in which largely the intelligence community and the professionals therein have their base of operations. I have had the privilege of knowing these people. Stop to think: They have children in the schools in which our children are in, they attend the churches, they live in the communities. It has been my privilege to get to know many of them throughout the course of my career in the Senate and some 5 years plus previous that I had in the Department of Defense where I worked with these professionals. They are among America's finest individuals. They are dedicated. They take risks, great risks, so often when they are abroad. Indeed, we have lost them at home right at the gateway to the entrance of the Central Intelligence Agency.

I was somewhat discouraged recently to hear broad accusations against the intelligence community, a lack of confidence that certain individuals in the Congress profess publicly to have. I assure them, based on my rather lengthy career and the good fortune to have worked with these professionals for so many years, I rank them among America's finest and most dedicated. It has been my privilege to take this floor many times in the past quarter century to speak on their behalf and to advocate causes which I think were in the best interests of the United States and which could, in many ways, affect their careers.

So I do so again today because reforming FISA has not been an easy process. I thank Chairman ROCKEFELLER and Vice Chairman BOND for the work they have done to garner bipartisan support for the Senate Intelligence Committee bill, the FISA Amendments Act.

The committee members and staff have worked together for many months to produce this responsible bipartisan legislation that strikes the right balance between civil liberties and foreign surveillance. All of the parties involved had to make compromises, but the 13-to-2—I repeat, 13-to-2—vote in the committee on which I am privileged to serve in favor of this bill shows that the bill will protect America's private civil liberties without unnecessarily hindering the ability of our intelligence professionals to intercept terrorist communications.

In addition to bipartisan congressional support, the FISA Amendments Act has, after consultation, the support of Admiral McConnell, the Director of National Intelligence. I have known this fine public servant for many years. When I was privileged to serve as Secretary of the Navy, he was on the staff of the Navy at that time. As a junior officer, he would often brief me in my capacity as Secretary early in the morning. I have enjoyed our friendship through the years and had the privilege to introduce him to the Senate for purposes of confirmation on several occasions.

History has ranked and will continue to rank Admiral McConnell among the foremost of those who stepped forward in my time for public service.

As I say, I have deep admiration and respect for Admiral McConnell's continued public service to the Nation and for the work of thousands of dedicated intelligence community professionals that he leads. His efforts to work with the Congress to formulate this bipartisan and complicated set of solutions to this serious national security issue are to be commended.

The committee was uniquely positioned to weigh and assess the many highly classified aspects of our foreign intelligence surveillance operations and to discuss and debate those sensitive issues before we drafted this legislation. The result is a bill that has the support of those valued public servants trusted to follow the law and a bill that will protect national security and will protect America's privacy.

The bill allows the intelligence community, through a joint certification by the Attorney General of the United States and the Director of National Intelligence, to target the communications of foreign overseas targets without the necessity of the FISA Court approval. This provides the speed and the agility the intelligence community needs—I emphasize "the speed and the agility"—and keeps the foreign intelligence targets outside the purview of the FISA Court, which was the original intention of Congress when it drafted the FISA bill in 1978.

The FISA amendments also ensure the protection of America's civil liberties by providing that acquisition may only be conducted in accordance with targeting and minimization procedures adopted by the Attorney General of the United States and reviewed by the Foreign Intelligence Surveillance Court. Targeting must be consistent with the fourth amendment, and reverse targeting is specifically prohibited. There is also enhanced oversight by Congress, the Attorney General, the Director of National Intelligence, and inspectors general.

One of the most important provisions in this bill is the retroactive carrier liability protection for those telecommunications carriers alleged to have assisted the Government with the terrorist surveillance program, known as TSP. While I believe that TSP was legal, essential, and contributed to preventing further terrorist attacks against our homeland, others may disagree.

There is no doubt, however, that the carriers that have participated in the program relied upon our Government's assurances that their actions were legal and in the best interests of the security of the United States of America.

These companies deserve and must be protected from costly and damaging lawsuits. The boards of directors have a fundamental obligation, as they do in all public corporations, to shareholders of these publicly owned institutions. Those who ask why the companies need such protection if they did not do anything illegal do not grasp the point that the Government's invocation of state secrets precludes companies from providing a court of law with any factual evidence confirming or denying their involvement in the program. That is to prevent sources and method. Sources and methods are the very heart of America's intelligence operations, as they are the world over. Some companies facing lawsuits, even if they never participated in the program, can likewise not defend themselves.

Some Senators have suggested Government substitution or indemnification of these companies, as the ones who did work in the program, as an alternate to the retroactive liability language in the bill. These are not suitable alternatives, in my judgment, for the companies or the intelligence community.

It is a recognized fact that lawsuits are most often extremely costly to a company in terms of damage to the business reputation and stock valuation could fluctuate. Even if a company ultimately prevails, they will suffer not only money damages possibly, costs possibly, in all probability even though there may be Government reimbursement, but damage which is incalculable in amount to their reputation and standing in their community. Again, if the Government pays the legal bill, that will not erase other injurious consequences that come about as a result of court proceedings. I myself engaged in the practice of law before I entered public service many years ago, and not much has changed. Further, the Government being substituted as the defendant in a trial opens evidentiary problems regarding, again, sources and methods, which is the vital ingredient of all our intelligence collecting processes. Individuals who believe the Government violated their civil liberties can pursue legal action against the Government—the United States Government—and the FISA Amendments Act does nothing to limit the legal recourse.

The bottom line, companies that participate in this program do so to help America protect its freedom and the safety, individually and collectively, of our citizens. Without this retroactive liability provision, I believe companies will no longer, and understandably, voluntarily participate in this program. The consequence of the loss of those companies stepping up—solely in the security interests of the United States, solely in the interests of protecting our citizens—to offer their services will result in irreparable damage to our collection of vital intelligence. It is as simple as that.

It is for these reasons I urge my colleagues to support the Intelligence-Committee-passed FISA Amendments Act and grant the men and women of the intelligence community the tools they need to protect the country and, indeed, the respect and admiration they deserve.

Madam President, I yield the floor.

The PRESIDING OFFICER. The Senator from Connecticut.

Mr. DODD. Madam President, first of all, I know others may want to speak as well, but let me take a few minutes, if I can, to share with my colleagues some of the background and information concerning my concern with Title II of this legislation.

I certainly agree with my friend and colleague from Virginia, the former chairman of the Armed Services Committee, that it is critically important we modernize FISA. The 30-year-old piece of legislation has served our country well, striking a balance between acquiring the intelligence we need to protect our country and protecting us against the erosion of our rights. My main concern with the proposal, as many know, is Title II, the retroactive immunity provision. I am deeply concerned about the precedent it would set.

The telecoms' 5-year-old program only became public information because there was a whistleblower, Madam President, a gentleman by the name of Mark Klein, who was an employee of AT&T for more than 20 years. He was really responsible for us being aware of this program. Had it not been for Mark Klein stepping up, this story might have remained secret for years and years, causing further erosion of our rights. Mark Klein and others were principally responsible for coming forward and expressing their deep concerns.

I think it is important for my colleagues in this body to understand precisely what these telecom communities are doing at the behest of the Bush administration. Mark Klein was courageous enough to blow the whistle on one such program at AT&T's facility at 611 Folsom Street in San Francisco. When the government's warrantless surveillance program came to light in December of 2005, Mr. Klein realized he had unwittingly aided and abetted an extensive, untargeted spying program that may have violated the civil liberties of millions of Americans. In early 2006, Mr. Klein went public with evidence of this program, providing over 100 pages of authenticated schematic diagrams and tables detailing how AT&T diverted its customers' communications to a room controlled by the NSA, with sophisticated equipment inside capable of analyzing millions of customers' Internet activities and e-mails in real time. The following are Mr. Klein's own words as to what he saw.

> For 5 years, the Bush administration's National Security Agency, with the help of the country's largest telecommunication companies, has been collecting your e-mail, accumulating information on your web browser, and gathering details on your Internet activity, all without warrants and in violation of the United States constitution and several Federal statutes and State laws. Even after the program was exposed by The New York Times in December of 2005, the President and other government officials consistently defended the NSA's activities, insisting that the NSA only collects communications into or from the United States where one party to the communication is someone they believe to be a member of al-Qaida or an associated terrorist organization. But these claims are not true. I know they are not true, because I have firsthand knowledge of the clandestine collaboration between one giant telecommunications company and the NSA to facilitate the most comprehensive spying program in history. I have seen the NSA's vacuum cleaner surveillance infrastructure with my own eyes. It is a vast government-sponsored warrantless spying program. For over 22 years, I worked as a technician for AT&T. While working in San Francisco in 2002, I learned that a management level technician, with AT&T's knowledge, had been cleared by the NSA to work on a special but secret project—the installation and maintenance of Internet equipment in a newly constructed secure room at AT&T's central office in San Francisco. Other than the NSA cleared technician, no employees were allowed in that room. In October of 2003, I was transferred to that office and was in particular assigned to oversee AT&T's operations. As part of my duties, I was required to connect circuits carrying data to optical splitters, which made a copy of the light signal. But the splitters weakened the light signal causing problems I had to troubleshoot. After examining engineering documents given to the technicians which showed the connections of the splitters, I discovered they were hard wired to a secret room. In short, an exact copy of all traffic that flowed through critical AT&T cables, e-mails documents, pictures, web browsers, voice-over-Internet phone conversations, everything, was being diverted to equipment inside the secret room. In addition, the documents revealed the technological gear used in their secret project, including a highly sophisticated search component capable of quickly sifting through huge amounts of digital data, including text, voice, and images in real time according to preprogrammed criteria. It is important to understand that the Internet links connected to the splitters contained not just foreign communications but vast amounts of domestic traffic, all mixed together. Furthermore, the splitter has no selectively abilities. It is just a dumb device which copies everything to the secret room, and the links going through the splitter are AT&T's physical connections to many other Internet providers—Sprint, Quest, Global Crossing, cable and wireless, and the critical West Coast exchange point known as Mae West. Since these networks are interconnected, the government surveillance affects not only AT&T customer matters but everyone else—millions of Americans. I also discovered in my conversations with other technicians that other secret rooms were established in Seattle, San Jose, Los Angeles, and San Diego. One of the documents I obtained also mentions Atlanta, and the clear inference and the logic of this setup and the language of the documents is that there are other such rooms across the country to complete the coverage, possibly 15 or 20 more. So when reports of the government's extensive wiretapping program surfaced in December 2005, after I had left AT&T, I realized two things: First, that I had been a witness to a massive spying effort that violated the rights of millions of Americans; and, second, that the government was not telling the public the truth about the extent of their unconstitutional invasion of privacy. In the spring of 2006, I became a witness for the Electronic Frontier Foundation's lawsuit against AT&T. The New York Times, on April 13, 2006, reported that four independent technical experts examined the AT&T documents. All said that the documents showed that AT&T had an agreement with the Federal Government to systematically gather information flowing on the Internet.

Now, Madam President, there is a further statement of telecommunication expert Brian Reid on AT&T whistleblower Mark Klein's revelations. Dr. Reid is currently the Director of Engineering and Technical Operations at Internet Systems Consortium, a nonprofit organization devoted to supporting a nonproprietary Internet.

Dr. Reid, who has taught at Stanford and Carnegie-Mellon Universities, was an early pioneer in the development of Internet and network technology and received numerous awards for his work in the field of information technology. I think Dr. Reid's expertise in telecommunications is vital to understanding the depth and breadth of the program found at AT&T's Folsom Street facility in San Francisco. Let me read from Dr. Reid's testimony.

> I am a telecommunications and data networking expert who has been involved in the development of several critical Internet technologies. I was a professor of electrical engineering at Stanford University and in computer science at Carnegie-Mellon university west. I have carefully reviewed the AT&T authenticated documents and declaration provided by Mark Klein and the public redacted version of the expert declaration of J. Scott Marcus both filed in the Hepping vs. AT&T litigation. Provided the information contained in those declarations and documents, with my extensive knowledge of the international communications infrastructure and the technology regularly used for lawful surveillance pursuant to warrants and court orders, I believe Mr. Klein's evidence is strongly supported of widespread untargeted surveillance of ordinary people, both AT&T customers and others. The AT&T documents describe a technological setup at the AT&T facility in San Francisco. This setup is particularly well suited to wholesale dragnet surveillance of all communications passing through that facility, whether international or domestic. These documents describe how the fiber-optic cables were cut and splitters installed at the cut point. Fiber-optic cables work just like ordinary TV splitters. One cable feeds in and two cables feed out. Both cables carry a copy of absolutely everything that is sent, and if the second cable is connected to a monitoring station, that station sees all traffic going over the cable. Mr. Klein stated the second cable was routed into a room at the facility whose access was restricted to AT&T employees having clearances from the NSA. The documents indicate that similar facilities were being installed in Seattle, San Jose, Los Angeles, and San Diego, and also a reference to a somewhat similar facility in Atlanta. This infrastructure is capable of monitoring all traffic passing through the AT&T facility, some of it not even from AT&T customers, whether voice or data or fax or international or domestic. The most likely use of this infrastructure is wholesale untargeted surveillance of ordinary Americans at the behest of the NSA. NSA involvement undermines arguments the facility is intended for use by AT&T in protecting its own network operations. This infrastructure is not limited to, nor would it be, especially efficient for target surveillance or even untargeted surveillance aimed at communications where one of the ends is located outside of the United States. It is also not reasonably aimed at supporting AT&T operations in security procedures. There are three main reasons. The technological infrastructure is far more powerful and expensive than that needed to do targeted surveillance or surveillance aimed only at international or one-end foreign communications. For example, it includes a NARUS Norris 6400, a computer that can simultaneously analyze huge amounts of information based on rules provided by the machine operator, analyze the content of messages and other information—not just headers or routing information—conduct the analysis in real time, rather than after a delay, and correlate information for multiple sources, multiple formats, over many protocols and through different periods of time in that analysis. The document describes a secret private backbone network, separate from the public network where normal AT&T customer traffic is carried and transmitted. A separate backbone network would not be required for transmission of the smaller amounts of data captured by a targeted surveillance. You don't need the magnitude of capacity doing targeted surveillance. The San Francisco facility is not located near an entry point for international communications that happen to be transmitted through the United States, either through undersea cable or via satellite. As a result, it would not be a sensible place to locate a facility aimed at simply monitoring traffic to or from northern countries.

I apologize for those rather elaborate statements from two rather technical people, but I thought it was important for our colleagues considering the matter before us that the information that broke this story did not just come from casual observers, but from highly skilled people who could comment on the rather broad use of this information. The idea that we are just focusing our attention on foreigners who might be engaged in activities threatening our existence of course is belied by the evidence provided by both of these very substantial witnesses.

I would like to maybe take another few minutes, if I can, to address some of the questions that have been raised by a number of people today in support of the retroactive immunity.

Let me state again, it is very important that we have the FISA legislation. It is very important that we have the modern means to maintain the technological advances to be able to trap and capture information that poses a risk to our country. No one here, I believe, is arguing against that. The question simply was, For 5 years, why didn't the telecommunications industry and why didn't the individuals in the Bush administration simply do what had been done more than 18,000 times before, and that is go and get a court order from the FISA Court?

Don't blame the NSA here. I have talked about them. The NSA is a Federal Government agency responsible for collecting the data. It was the administration officials here and the lawyers within these telecommunications companies who decided to avoid the law. The NSA officials whom I have dealt with over the years want to be able to operate within Federal statutes. Their job is not to draft the law but to gather intelligence.

The responsibility is on those in the administration responsible for granting this kind of legal authority without going to the FISA Court. And it is on the legal departments in these major communications companies for not understanding what they should know—and did know, I believe—and that is that they merely had to go to the FISA Court and get a court order, and the information sought by the NSA would be immune from any further legal proceedings. That is the issue. The law had been in place for three decades.

Those who are fighting immunity want an open debate on the balance of security and civil liberties. The President disagrees. He is saying: If you strike the immunity for these corporations, I will veto the bill. I find it remarkable that Members have worked hard over weeks to craft a bill to balance the needs of civil liberties and the ability to gather information, and the President is saying: I don't care if you have done all of that; if you don't protect these corporations from lawsuits, I am going to put the whole legislation at risk. It seems to me the immunity issue ought not dominate the decision the committees have made about what needs to be done to balance civil liberties and the need to gather information.

Mr. President, I see great danger in this immunity. It would replace the rule of law with the rule of secrecy.

Those who are fighting immunity offer open debate on the balance of security and civil liberties. But this President tells us that he knows best, that he has set the balance already and the rest of us do not need to worry our heads about it. I oppose immunity because I find that thinking to be dead wrong. The power at stake today—the power to spy, the power to invade privacy, the power to put one's friends outside the law—does not belong in the hands of any one individual, no matter how wise—and certainly not the hands of a President whose contempt for the law has been too obvious for too many years.

As we fight this immunity, that is what is at stake today. Not punishment. Not payback. Openness. Americans deserve to know what this President and these corporations have done to them, and we are never going to know that if this immunity is granted. We are never, ever going to know. It will be as if it never happened.

As a Member of this body for 26 years, a senior member of the Foreign Relations Committee, I don't have the right to even look at the relevant documents. Only a handful of people have the right to do it. So I am being asked, as a 26-year veteran of this Senate, serving on the Foreign Relations Committee, to grant blanket immunity to the President's favored corporations. I find that rather remarkable.

As you know, I have serious doubts about the legality of the corporations' actions, but I would never presume to come to this floor and render a verdict on them. I am not a judge. None of my colleagues are, either, nor is the President of the United States. Just as it would be absurd for me to declare the telecoms clearly guilty, it is equally wrong to declare them effectively innocent. That power belongs to the courts, to the coequal branch of government, the judiciary. To slam the courthouse door shut on American citizens seeking redress would be to forget the meaning of checks and balances in our system of governance altogether.

I believe in letting the courts do their job. It seems the President's allies only believe in the courts when the verdict goes their way. They offer any number of arguments for immunity, but one by one, they fail. They are false and often misleading. I would like to take a few minutes to look at those claims and their failures one by one.

First of all, immunity supporters argue that granting immunity is a Presidential prerogative. That was one of the arguments made by Alberto Gonzales. The answer to that is, of course, the fact is that this case belongs in the courts. The judiciary should be allowed to determine whether the President has exceeded his powers by obtaining wholesale access to the domestic communications of ordinary citizens without a court order. That is why the courts exist, to determine if the actions by the Chief Executive or the Congress are, in fact, appropriate and proper and legal.

Because the telecom corporations are intimately bound up with the President's warrantless wiretapping, immunity supporters are proposing that the President sit as a judge over himself. The administration's original immunity proposal protected not just telecommunications but everyone involved in the wiretapping program. In their original proposal, they wanted to immunize themselves.

Think about that. It speaks to their fear and perhaps their guilt, as well: their guilt that they had broken the law, and their fear that in the years to come, they would be found liable or convicted. They knew better than anyone else what they had done—they must have had good reason to be concerned!

Thankfully, executive immunity is not part of the bill before us, but the origin of immunity tells us a great deal about what is at stake here. That is, and always has been, a self-preservation bill.

Second, immunity supporters claim that only foreign communications were targeted, not Americans' domestic calls. For those who were listening, I just read two documents from an AT&T official of 22 years who was deeply involved in helping set up the very systems, and from Dr. Reid, who then analyzed all the materials that have been presented by Mark Klein to determine exactly how the system worked. The fact is clear: Firsthand evidence, authenticated by corporations in court, contradicts the claim. Splitters at the AT&T Internet hub in San Francisco diverted to a secret, NSA-controlled room every e-mail, every text message, every phone call, foreign and domestic, carried over the massive fiber-optic links of 16 separate companies.

Third, immunity supporters claim that the Intelligence Committee version of this bill actually does preserve a role for the judiciary. But, again, the fact is that the role would be empty. The Intelligence version of this bill would require the cases to be dismissed at a word from the Attorney General. The central legal questions raised by these cases would never be heard in court. The cases would never be fully closed. We would never truly know what happened.

The fourth argument is that a lack of immunity will make the telecom industry less likely to cooperate with surveillance in the future.

However, in the 1970s, FISA compelled telecommunications companies to cooperate with surveillance. In fact, AT&T helped write this law some 30 years ago. But they could only get that cooperation from the telecommunications industry when it is warranted, literally where there is a court order. But if the court order is given, the cooperating telecom is immunized. No warrant, no immunity.

So cooperation in warranted wiretapping is not at stake today. Collusion in warrantless wiretapping is—and the warrant makes all the difference, because it is precisely the court's blessing that brings Presidential power under the rule of law.

The fifth argument immunity supporters offer is that the telecoms cannot defend themselves without exposing state secrets. But the fact is that Federal district court judge Vaughn Walker—I might point out, appointed by a Republican administration—has already ruled on this matter that the issue can go to trial without putting state secrets in jeopardy. Judge Walker reasonably pointed out that the existence of the President's surveillance program is all hardly a secret at all today. We are debating it here, and have been. It is has been in the discussion for weeks on end. You can't claim there is a secret about the surveillance program.

As Judge Walker said:

> The Government has already disclosed the general contours of the Terrorist Surveillance Program, which requires the assistance of a telecommunications provider.

The sixth argument offered by supporters of immunity claims that telecom companies are already protected by common law principles.

But again, the fact is that common law immunities do not trump specific legal duties imposed by statute, such as the specific duties to protect customer privacy that Congress has long imposed on these telecommunication companies, going back almost 30 years.

In the pending case against AT&T, the judge has already ruled unequivocally, and I quote:

> That AT&T cannot seriously contend that a reasonable entity in its position could have believed that the alleged domestic dragnet was legal.

Even so, the communication company defendants can and should, I believe, have the opportunity to present these defenses to the courts. I am not suggesting by that quote that there ought to be a predetermined verdict. As I said a moment ago, I am not pretending I am a judge here. All I am asking is that these cases go forward and a determination made as to whether they were legal. The defendants can and should have the opportunity to present these defenses to the courts; and the courts, not the Congress preemptively, should decide whether they are sufficient.

The seventh argument offered by the supporters of the retroactive immunity says that leaks from the trial might damage national security. We heard this argument from my good friend from Virginia, Senator WARNER. But the fact is, our Federal court system has already dealt for decades with the most delicate national security matters, building up expertise in protecting classified information behind closed doors in what are called ex parte and in camera proceedings. We can expect, I think, no less in these cases as well.

If we are worried about national security being threatened as a result, we can simply get the principals a security clearance. No intelligence sources need be compromised; no state secrets need to be exposed. And we can say so with increasing confidence, because after the extensive litigation that has taken place at both the district court and circuit court levels on this matter already, no sensitive information has leaked out. I think it is a red herring to suggest somehow that you cannot go to court here when we have proved for decades the courts' ability to handle national security matters without leaking.

An eighth argument offered by immunity supporters claims that litigation will harm the telecoms by causing them "reputational damage." The fact is there is no evidence that this legislation has reduced or would reduce the defendant companies' bottom lines or customer base. This morning I quoted from the Dow Jones Market Watch. The date is October 23, 2007, well after the reports were out about AT&T's involvement in the surveillance program.

> Third quarter earnings rose 41.5 percent. Boosted by the acquisition of BellSouth and the addition of 2 million net wireless customers, AT&T's net income was $3.06 billion, compared with $2.17 billion a year ago.

Hardly a company that is suffering reputational damage. AT&T has posted these record profits during a time of very public litigation. So the argument that reputational damage somehow prevents us from going forward has no basis in fact.

But moreover, to claim that "reputational damage" ought to trump our rights and liberties—I find it frightening that anyone in government would even make that argument. To say that a violation of millions of Americans' privacy over 5 years is outweighed by the potential for reputational damage is to show a rather extraordinary lack of balance when it comes to understanding the relative importance of these issues.

A ninth argument made by those in favor of retroactive immunity claims that these lawsuits could bankrupt the telecommunications industry. But the fact is that only the most exorbitant and unlikely judgment could completely wipe out such enormous corporations. To assume that the telecommunications industry would lose and that the judges would then hand down such back-breaking penalties is already to take several leaps from where we are today.

The point, after all, has never been to cripple our telecommunications industry; the point is to bring checks and balances back to domestic surveillance. Setting that precedent would hardly require a crippling judgment.

But on another level, immunity supporters are staking their claim on a dangerous principle: that a lawsuit can be stopped simply on the basis of how much a defendant stands to lose. The larger the corporation, in other words, the more lawless it could be. If we accept the immunity supporters' premises, we could conceive of a corporation so wealthy, so integral to our economy, that its riches place it outside the law altogether. And if the administration's thinking even admits that possibility, we know instinctively how flawed it is.

We see then none of those arguments for immunity stand up to the test. All nine of them fail.

I am not here again to render judgment on the telecom corporations. I have my doubts, but that's not why I'm here. All I am suggesting is that when you grant this kind of immunity once, what is to stop someone from making that argument again, in a later debate, when maybe someone will be asked to collect information about our medical histories or our financial records or some other personal matters? They would wave that vote back in our face: Democrats, Republicans found no difficulty in granting retroactive immunity for telecommunications surveillance; why would you object today when it comes to people's medical records, or their financial records, or other private information?

You start down that slippery slope, and nothing good can come of it. This ought not be a difficult debate.

So I am surprised and stunned to listen to some of my more conservative colleagues here. I used to associate conservative principles with standing up for privacy, a principle once held sacrosanct. It is rather stunning to me today to listen to some of the more conservative Members argue for retroactive immunity, that somehow it was all right for those companies to do what they did. I hear that they did not know any better, that somehow they got drawn into this by mistake. If that were true of every one of them, well, maybe that point would have a little more weight. But there were companies such as Qwest that said, "No, give me a court order, and then I will comply." Why did the Qwest lawyers arrive at a different decision? Was it a great secret within the telecommunications industry that there were those who said no? Why did Qwest say no and others say yes? I believe they understood the law, and they realized that without a court order they could not legally comply with that request.

I might point out that no court order was ever forthcoming. Why did not the administration seek that court order for Qwest to get additional information? Why did they drop that kind of request? I might point out, as I did earlier today, that over the years, I am told by The Washington Post, there have been over 18,000 requests of the FISA Court for court orders, and of more than 18,000 requests, only 5 have been rejected. 99.9 percent of the requests by administrations for court orders over the years in the FISA Court have been granted.

Why would you not ask? Why did they not go forward and make that request? Why did Qwest say no? Why did the others say yes? Why are we granting immunity to these companies, without going through the courts of law to determine what is right?

Again, this ought not be a debate between Democrats and Republicans and conservatives and liberals. It ought to be a debate about defending these basic rights we have here in America. Companies that may have violated them deserve their day in a court of law. But immunizing them for a program that went on for not for a day or two or a week or 6 months or even a year, but for 5 years and only stopped when exposed by a whistleblower ought to cause all of us to pause. Clearly we want to keep our country safe, but if we are being asked to keep our country safe by giving up our rights, then we are granting these jihadists and terrorists victories far beyond anything they have yet achieved.

As tragic as the events of 9/11 were, if we begin to undo our own liberties and rights, we give them a success far beyond anything they could have ever imagined. I have been here today for the last 8 hours, and I will stay here for as long as it takes.

At the appropriate time, when we have exhausted the ability to talk about it generally, I will offer the language to strike it, and I hope my colleagues will join me in that effort. But I am determined not to let this go forward, because I think we have done that too often. I myself have been guilty of accepting far too much from this administration. Just one small thing is at issue today. But then I start to look back at all of the small things that have been done, so-called "small things" over the last 5 or 6 years—most recently, the destruction of interrogation tapes at the CIA. And the combined weight of these "small things" truly frightens me.

What was going on at the CIA? Why did that happen? Why Abu Ghraib? Why Guantanamo? Why get rid of habeas corpus? Why bring back waterboarding? Why do away with the Geneva Conventions? Why nominate someone to be the Attorney General who believes that Presidents have the right to violate Federal statutes here under the guise of protecting the Nation's security?

Why, after each one of those these things? Why the Military Commissions Act? In case after case after case, we see the slow erosion going on. And again, regardless of what your politics are, regardless of where you find yourself on the spectrum, when our basic rights are involved, we must stand up and say, "Enough!"

A generation ago, Members of this body sat here, and had only one negative vote as they worked out the original FISA law, that balance between our needs to protect our security and to protect our rights. Here we are about to make a major step in the opposite direction. And those gentlemen faced tough times. They were wrestling with the threat of nuclear war in the 1970s. The Soviet Union still existed. They had been through World War II, many of them, Korea and Vietnam. They knew what hostility and difficulty were like. And yet Democrats and Republicans came together and wrote that legislation. On 30 separate occasions since then they modernized it to keep pace with the changes occurring throughout the world, where new risks and new dangers are posed every day. So yes, we should modernize FISA and bring it up to date. I applaud the committees' efforts to do so. But to add retroactive immunity, to grant blanket immunity to companies that listened in on millions of people in this country without a court order, is a step too far.

Listen to the remarks of our colleague from Massachusetts today in talking about the legal counsel of this administration. Their words: to blow through these laws. They did not like them? Blow through them! That was their attitude. Well, I am going to stop the blowing through. No more blowing through the laws. Not here, not tonight, not this Member, not on this bill. No more blowing through the law!

You do not get immunity, not as long as I can stand here and fight this. I intend to do just that.

Madam President, I withhold the remainder of my time, and I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll. It is not counted against the time.

The assistant legislative clerk proceeded to call the roll.

Mr. HATCH. I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. SANDERS). Without objection, it is so ordered.

Mr. HATCH. Mr. President, on numerous occasions in the FISA debate, we have seen dramatic fear mongering. Many individuals, particularly on partisan blogs, are spreading misleading and malicious information in order to incite fear of alleged governmental activities. This bill should not include text which panders to people who believe in imaginary Government conspiracies. There is such a thing as irrational fear of Government.

Let's not forget, our Government did not kill thousands of innocent Americans on September 11. Our Government did not kill hundreds of people in car bombings in U.S. embassies in Kenya and Tanzania. Our Government did not kill 191 people in the Madrid train bombings. Our Government did not kill 52 people in the London train bombings. Our Government did not kill 202 people in suicide bombings Bali, Indonesia. The indisputable fact is terrorists have committed heinous attacks on Americans and have pledged themselves to conduct more. It is not politics of fear to acknowledge this. If we bury our heads in the sand and pass legislation that ignores these risks, we make ourselves and all our people more vulnerable. I will not stand by and see Congress pass laws which could create vulnerabilities for our people, vulnerabilities which expose our families and our friends to danger.

Let me tell you what our Government does to protect us. It hires the finest men and women of this great country to utilize their skills to help prevent these types of attacks. Our job in Congress is to make sure these people who have sworn to defend us have the necessary tools to try and prevent terrorist attacks. What they don't need are laws with ambiguous language, as has been proposed, making their jobs more difficult.

One of my colleagues previously stated:

> The authority in this bill greatly expands the Government's ability to conduct surveillance of foreign targets.

How in the world he can make that statement, I don't understand. The only great expansion I see in this bill is judicial jurisdiction. In fact, I am amazed we don't rename the bill the unlimited expansion of judicial authority act. We have advocated so much new responsibility for the Foreign Intelligence Surveillance Court that I wonder whether people realize that court is composed of only 11 judges. Where is this great expansion in surveillance authority that has been argued on the floor?

Since FISA was passed in 1978, the Government has been able to target terrorists overseas. This bill amends FISA so we can continue to target foreign terrorists when they utilize communications over a wire, not just communications over radio or satellite. This does not sound to me like a great expansion. Maybe that is why the Government has continued to say FISA needed to be "modernized," not that it needed to be greatly expanded. There is, however, a key expansion in the bill. It is a statutory warrant requirement when targeting U.S. persons, regardless of who they are, what they have done or where they are located. Notice I said U.S. persons, not U.S. citizens. This idea may sound great to everyone, but we should realize, with eyes wide open, what this means. We have heard some individuals claim the Government could use the power of the Protect America Act to spy on innocent Americans. We have heard the fear mongering that the Government can spy on innocent Americans when they travel overseas. We have heard all about American families on vacation overseas in the Caribbean or in Europe. We have even heard our Government could spy on American military members who are overseas defending our country.

I find these scare tactics not only ridiculous but extremely offensive. They walk a fine line in seemingly questioning the integrity and the judgment of these fine men and women who work for us and who don't have a political agenda, who have dedicated their professional lives to prevent catastrophic attacks on Americans. Do we think our intelligence analysts are sitting around waiting for the Smith family to go on their family vacation to Italy so they can tap their cell phones? Give me a break. To imply that our country's intelligence analysts are more concerned with random innocent Americans than foreign terrorists overseas is a slap in the face to the people who protect our Nation. Our Government is focusing their attention on terrorists who wish us death, not on innocent Americans.

When some decry the lack of statutory protection for Americans overseas in the Protect America Act, I wonder if they realize the 1978 FISA law itself provides no statutory protections for Americans overseas. Yet we have called that the gold standard all these years. I would, however, tell my colleagues that Americans overseas are protected by the most important document in the history of our great Nation, and that is the U.S. Constitution. The fourth amendment to the Constitution provides protection from unreasonable search and seizure. That is the question. Is it always unreasonable for the Government to target an American overseas without a court order? Of course not. I would suggest the process that has worked for 26 years is the best approach. It is Executive Order 12333. Since 1981, the Government could only target Americans overseas if the Attorney General determined via probable cause that the American was an agent of a foreign power. Do we think an intelligence analyst is going to disregard an executive order and wiretap innocent Americans overseas? Of course not.

Now, with the policy change included in both the Intelligence and Judiciary bills, I want to give an example of how this provision will apply in real life.

Adam Gadahn is an American citizen from Orange County, CA. He is also one of the FBI's most wanted terrorists now believed to be living overseas. He has been indicted for treason and providing material support to al-Qaida. Here is what he said:

> The streets of America shall run red with blood . . . casualties will be too many to count and the next wave of attacks may come at any moment. .

He has appeared on multiple al-Qaida propaganda tapes. Here is another quote:

> The magnitude and ferocity of what is coming your way will make you forget all about September 11.

Here is something that should make all Americans scratch their heads. Before September 11, the Government would not need a warrant to target this criminal. After September 11, the Government would not need a warrant to target Gadahn. But after this bill is signed, the Government will be required to get a warrant to target Gadahn. This bill does require that.

Let's explain that one to the American public.

Would a warrantless interception of Gadahn's communications be "unreasonable" under the fourth amendment? Of course not. But we are requiring something that even the Founding Fathers did not—a warrant for all electronic searches of U.S. persons.

Now I understand the administration is willing to accept a modified version of this amendment that does not include unintended consequences. It is yet another example of how far this proposal goes to satisfy determined detractors who never seem to be satisfied that we are doing enough to "protect" innocent Americans.

I am also amazed at the false descriptions floating around the Internet of the program which the President described on December 17, 2005, during a radio address. We have all heard the terms: "warrantless wiretapping" or "domestic spying." But let's look at what the President actually said during his radio address on December 17, 2005. This is what he said:

> In the weeks following the terrorist attacks on our Nation, I authorized the National Security Agency, consistent with U.S. law and the Constitution, to intercept the international communications of people with known links to al Qaeda and related terrorist organizations. Before we intercept these communications, the government must have information that establishes a clear link to these terrorist networks.

Now I do not see anything in this statement about domestic spying. I thought the definition of the word "domestic" was pretty clear. If the program intercepted communications in which at least one party was overseas, not to mention a member of al-Qaida, then it seems fairly obvious that the calls were not domestic.

Here, as shown on this chart, is a call from the United States of America to overseas; or a call from overseas to the United States of America. Is that a domestic call? I hardly think so. Is this such a hard concept to grasp? The last time I flew overseas, I did not fly on a domestic flight. I flew on an international flight. "Domestic spying" may sound catchy and mysterious, but it is a completely inaccurate way to describe the terrorist surveillance program. Why don't the partisan blogs describe it as "international spying"? Isn't that a more accurate description? I guess accurate descriptions take a back seat to terms which incite fear and distrust in our Government.

Since so many are so interested in the opinion of the FISC, or the Foreign Intelligence Surveillance Court, on these matters, I wish to draw attention to a recent decision. On Tuesday, the Foreign Intelligence Surveillance Court denied a motion by the ACLU for release of court records related to alleged NSA surveillance programs. This FISC opinion was publicly released, which is only the third time in the entire history of the FISC in which this has occurred.

Given the rarity of this event—this issued public opinion that denied a motion by the ACLU for the release of court records related to alleged NSA surveillance programs—I want to highlight a few sentences from that ruling:

> [T]he identification of targets and methods of surveillance would permit adversaries to evade surveillance, conceal their activities, and possibly mislead investigators through false information. Public identification of targets, and those in communication with them, would also likely result in harassment of, or more grievous injury to, persons who might be exonerated after full investigation. Disclosures about confidential sources of information would chill current and potential sources from providing information, and might put some in personal jeopardy. Disclosure of some forms of intelligence gathering could harm national security in other ways, such as damaging relations with foreign governments. All these possible harms are real and significant, and, quite frankly, beyond debate.

Now, that is in re: Motion for release of court records of the U.S. Foreign Intelligence Surveillance Court, December 7 of this year.

I think we can all agree this is a vitally important public opinion from the FISA, and I commend it to my colleagues.

Regardless of how we came to this moment, it is time to do what is right for our country. The time has come for us to work together. We all know it is going to take bipartisan support to get this legislation passed. Let's represent our constituents with our heads held high, knowing we are doing our very best to balance the necessity for protections of civil liberties with the need to keep American families safe from deadly attacks. We owe our people this much.

I hope we can continue to work, as the Intelligence Committee did, in a bipartisan way to resolve these very difficult problems. I have to say that the 13-to-2 bipartisan approach is one of the highlights of this year. It is probably the best example of bipartisanship we have this year. I have to tell you, to try to change that with some of the language from the Judiciary Committee—where it was a pure partisan vote on both sides—to try to change that is not the way to do it.

So I hope our colleagues will realize that in the Intelligence Committee, in a bipartisan way, we have worked together to come up with the ways of solving these very technical and difficult problems, and to do so in the best traditions of the intelligence community, in the best traditions of gathering intelligence information, and in the best traditions of protecting our country that this country has ever known.

Frankly, I compliment the distinguished chairman of the Intelligence Committee, the distinguished vice chairman of the Intelligence Committee, and my fellow Senators on the committee, Democrats and Republicans, who were willing to put partisanship aside and pass that bill 13 to 2 out of that committee.

Mr. President, I notice my dear friend from Florida is desirous to speak on the floor, so I will withhold my further remarks and turn the time over to him.

I yield the floor.

The PRESIDING OFFICER. The Senator from Florida.

Mr. NELSON of Florida. Mr. President, I compliment the Senator from Utah, who has been a member of the Intelligence Committee for years and years, and who brings a lot of good common sense to the committee. I echo his comments about the bipartisan nature of Chairman ROCKEFELLER and Vice Chairman BOND working together. It was something that this member of the Intelligence Committee had seen earlier this year break down, and I must say this member of the Intelligence Committee absolutely reminded everybody on the committee that the committee ought to work of one accord, reaching consensus when we can reach that consensus, and, at the end of the day, that the product not only be a bipartisan product, it ought to be a nonpartisan product.

Mr. HATCH. Mr. President, will the Senator yield on that point?

Mr. NELSON of Florida. I certainly do yield to my friend.

Mr. HATCH. Mr. President, I thank my colleague for his kind remarks. He was one of the Senators who helped to put this bill together, and a distinguished Senator at that.

Would the Senator agree with me that should this bill pass, it would be one of the best illustrations of bipartisanship in this whole Congress so far?

Mr. NELSON of Florida. Indeed, Mr. President, it would be. And we have to pass a FISA bill. For many of the reasons you have heard—the changing technology—we have to give the legal authorization to the U.S. Government. That is another reason for having a clear delineation in law of what the Government can do and what it cannot do. Because, unfortunately, what we have seen over the last several years is the intrusion into this murky area without the necessary legal binding, that it was clearly legal as to what was being done. That is what is so necessary about passing a piece of legislation such as we have before us in the form of which we are just on the motion to proceed.

Now, I voted for closing off debate on the motion to proceed because it is clearly important that we get a law and pass this legislation. It improves on the legislation we passed last August, where it is going to provide protections for Americans both in the United States and abroad. But naturally in something as complicated as this, I am not satisfied completely with what is in the bill. That is why we ought to get to the bill, so we can start amending or considering amendments.

For example, the Senator from Connecticut—when we ever get to the bill—is going to offer the amendment that I offered in the Intelligence Committee, which was the amendment to take away immunity from the telephone companies. It was specifically targeted to strip the provisions of the bill that provided immunity to the telecommunications companies for assistance provided to the administration for warrantless surveillance in a defined period of time—from September 11, 2001, until January 17, 2007.

The reason I offered that in the committee was, I felt it was hugely premature for our committee to grant that retroactive immunity to those telecommunications carriers when, in fact, the White House had only come forth with the documents that we could inspect only 48 hours prior to when we were going to vote on it.

I am still troubled by the idea of a blanket retroactive immunity. Whether they deserve a break for their cooperation with the Government's warrantless program in the aftermath of September 11, that is one thing. But this went on for 6 years.

I can certainly understand, in the aftermath of the horror of what we saw on September 11, 2001, that a President would need, for the protection of the country—and using his article II powers of the Constitution as Commander in Chief to protect the country—that he could say to telecommunications companies: We need this information. There is a law over here called the FISA law that says if you want to snoop on any American person, you have to do it by getting a court order by a special Federal court that is organized under law to handle these secret national security matters in secret.

I can see telecommunications companies going along, that in the urgency of the aftermath of September 11—we do not know when the next strike is coming; it may be the next day, it may be the next week—that the telecommunications companies cooperated when the President said and the communications come to them saying: This is under the legal authority of the President. I can understand that. But after a year? After 2 years? After 3 years? How about 4 years? How about 5 years, when clearly there is a law on the books that if it is going to touch Americans, you have to go to the special Federal court impaneled by Federal judges who are cleared for top-secret information? Now, that is what bothers me.

There is another part that bothers me, which is that in the separation of powers envisioned in our Constitution, the first article of the Constitution is setting up the legislative branch of Government. The second article sets up the executive branch of Government—the President. The Constitution envisioned that there is a check and a balance of each of those on the other. For example, something doesn't become law that the legislative branch—the Congress—passes. It can't become law without the signature of the President. But if Congress disagrees with the President, they can override the President's Veto with a two-thirds vote. So there is this tension built into the system of one branch overseeing the other. It is appropriate that the legislative branch oversees the activities of the executive branch.

But that is not what was going on with this matter of surveillance because the legislative branch was left in the dark. The President ignored the Congress. The President ignored the courts when he authorized the warrantless surveillance program and Congress's attempts to conduct the oversight of the program. All those attempts were constantly thwarted. So, therefore, I also have a problem with retroactive immunity—that it would make a mockery of our separation of powers.

Now, having said all that, as a member of the Intelligence Committee, I have still a check in my gut as to whether there would be some lack of cooperation among telecommunications companies with the executive branch of government on a going-forward basis if there is not some form of immunity that is given to these telecommunications companies. I know that on a going-forward basis there cannot be any question that we have the cooperation of those companies with the Government in order to protect this country and to provide for the national security.

So I am looking forward to the debate continuing as we flesh out all these ideas. I am particularly intrigued with an amendment that is going to be offered by Senator FEINSTEIN, of which I am a cosponsor, which would provide a forum handling classified material in the FISA court itself in order to consider the question of immunity and that there would be a determination in this special Federal court as to whether the immunity ought to be given. I think that is something we ought to debate. We ought to get it clear when we get to the bill. But in the meantime, I share with the Senate my reservations about this part of the bill and about the immunity.

Let me say at the end of the day—whether we have immunity in the bill or whether it is not in the bill or whether there is some hybrid version such as the Feinstein amendment, at the end of the day, we are going to need to make this FISA law permanent because it is going to run out in February. We have to clearly have this etched into law so on a going-forward basis we can provide for the security of this country.

Mr. DODD. Mr. President, will the Senator yield for a question?

Mr. NELSON of Florida. I certainly will yield to my friend from Connecticut.

Mr. DODD. I say to my colleague from Florida, I appreciate immensely his leadership on so many issues, but especially on the committee itself. I was stunned by the number of requests made of the FISA Court over the years for court orders to various entities. There have been over 18,000 granted court order requests and 5 rejections in 25 years. Some have argued a fear that we might not get an approval by the FISA Court, but in 99.9 percent of the times that Presidents of both parties over the years or administrations have sought the approval of the FISA Court for a court order to seek information, in only 5 cases over more than 25 years have those requests been rejected.

I thank the Senator from Florida for raising the point. This is not about denying our agencies the opportunity, the ability, the means by which they gather information to keep us secure; it is merely saying so that in the process of doing so, there is a way of doing this, which grants them the opportunity to do that while simultaneously protecting our basic liberties. So I thank the Senator from Florida.

Mr. NELSON of Florida. Mr. President, I would respond to the very distinguished Senator from Connecticut that those kinds of reports have been in the press for some time, and I think generally they are considered to be true. However, a lot of that operated under the old law, which had a 3-day limit, that in the case of a national emergency, the President wouldn't have to first go and get a court order.

Instead, he could go on under the emergency conditions and surveil the particular target, if it were an American person but, under the old law, would have to go back to the court within 3 days to get that order or else cease their surveillance. In the new law that was passed on a temporary basis for 6 months, that we passed last August, that 3 days has been extended to 7 days to give more leeway. Certainly, if someone in the Government feels that a person—an American person—should be surveilled in their communications but it was an emergency basis, that they don't have time to go to the court, the law as it stands now and under the new FISA bill we are considering on this floor would say that within 7 days, the executive branch would have to go and get that court order called a warrant or else cease the surveillance.

Now, that is very reasonable, and it is a lot of that kind of stuff that is in this bill that is so necessary to have this etched into a permanent law, not a law that is going to sunset in 6 months—next February. That is part of the gravity of the legislation before us. Now we have to get to this very sensitive issue of immunity and how to handle it. Although I have stated I am certainly sympathetic; indeed, the Senator's amendment he is going to offer is the one I offered and that was defeated. It only got three affirmative votes in the committee. So my amendment in the committee did not prevail. Nevertheless, there are other amendments coming after the Senator's amendment, if his is not—if the amendment of the Senator from Connecticut is not adopted—that do take a very practical approach. The Feinstein amendment which I have cosponsored is one where the issue of immunity would be determined in the FISA Court itself that is set up in order to handle these national security matters.

I yield the floor.

Mr. DODD. Mr. President, I note the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. BROWN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BROWN. Mr. President, I join the senior Senator in Connecticut in rising in strong opposition to the retroactive immunity provisions contained in the bill before us today. I thank Senator DODD for his strong opposition and leadership and courage to make this fight.

Earlier today, I opposed the cloture vote because I don't believe we should consider providing immunity to corporations that broke the law, breached the Constitution, and trampled on Americans' civil liberties. It is pretty much as simple as that.

As Senators DODD, FEINGOLD, and others have made clear throughout this day, this is a matter of law, this is a matter of basic civil liberties, and this is a matter of accountability.

The decisions we make when we vote on this bill have bearing on every single American because the rights and protections the Constitution provides are precious to every single American. That is what we stand for as a nation.

No individual or corporation can breach the Constitution and break the law. No individual or corporation can breach the Constitution and break the law, even if the Federal Government tells them to do it.

Corporations cannot rely on a piece of paper handed to them by the administration that says that an act on the very face of it sounds illegal but it is, in fact, legal. They have, and they had, an independent obligation as corporations to assess the legality of wiretapping before engaging in it. That is why some telecommunications companies refused to comply when the administration asked them to wiretap. All of them should have taken that step.

The Constitution does not allow companies to rely on the executive branch to interpret the Constitution for them. When the fundamental constitutional rights of Americans are at issue, corporations have one—and only one—course of action: they must act in accordance with the law; they must act in accordance with the Constitution.

Some in this body have suggested that these companies were compelled to go along with the administration's illegal wiretapping program because of 9/11 and because of the very real danger of foreign terrorist attacks. Mr. President, while all of us—every 1 of the 100 Members of this body—wants to protect America at all costs, these companies went along with this program absent a legal warrant or court order for over 5 years after 9/11.

These multibillion-dollar corporations have teams of lawyers that assess the meaning and implication of Federal law as it relates to every move they make. But this time, now, we are asked to accept that highly trained lawyers working for these companies could not clearly understand and interpret the Constitution or interpret the requirements of FISA, a law that is more than 30 years old.

It would be a total and absolute assault on the Constitution to allow a small group of companies to ignore Federal law simply because they were asked to by the President—whoever the President is.

It is important for all those listening to take a good look at whom the administration is fighting for and whom it is representing.

President Bush has threatened to veto this bill unless it contains the retroactive immunity provisions but not because the protections for citizens are too weak. The President will veto this bill, he says, frankly, because he is concerned about the bank accounts of a handful of telecommunications companies.

Since when did money trump constitutional freedom? Since when did corporate connections matter more than the rule of law?

Congress has the responsibility to protect the freedoms and the rights of all citizens. Our Government should be open and transparent and, when rights are infringed, there should be an opportunity to seek legal redress in a court of law.

That is why our system of government contains a judicial branch: to litigate infringements of rights, to assess the constitutionality of laws and programs.

The retroactive immunity provisions in this bill will make it impossible to hold those who broke the law accountable for their illegal actions. That is wrong, Mr. President, and that is dangerous.

We must remember that by protecting our civil liberties we protect our Nation and our values.

I urge all my colleagues to vote for the Dodd-Feingold amendment.

I yield the floor.

The PRESIDING OFFICER. The Senator from Connecticut is recognized.

Mr. DODD. Mr. President, I thank my colleague from Ohio for his continuing efforts here. He is not a newcomer at all to these issues. I thank him for his words, support, and knowledge of the issue, and his continuing efforts to see if we can get a good bill out of here and not add extraneous matters such as this.

As I heard Senator NELSON of Florida talk earlier, I thought—I think many of us thought that had this been a day or a week after 9/11, we might have found the telecoms' actions more understandable. In the heat of emergency, we might have accepted some excessive aggression. I can understand people drawing that conclusion.

But this program went on for 5 long years. The idea that we grant retroactive immunity for actions over 5 long years goes way beyond anything anybody ought to accept in this body.

Retroactive immunity, under these circumstance, would be a massive step backward in light of this administration's assault on the Constitution and the rule of law. Again, I thank my colleague from Ohio.

Mr. KERRY. Mr. President, today I voted against cloture on the motion to proceed to S. 2248 as reported by the Senate Intelligence Committee because I believe that we should instead be taking up on the Senate floor the far better bill reported out by the Judiciary Committee.

Congress has a duty to protect the American people—and to protect the Constitution. That is the oath we take. It is a solemn pledge, and in my judgment the Judiciary Committee bill better reflects the oath we each swear to uphold. Why? The Judiciary Committee's bill gives the President the added flexibility he needs to hunt and capture terrorists who would strike our homeland—but it strikes an appropriate balance between protecting the privacy rights of American citizens and providing the President adequate tools to fight international terrorism.

This is no small issue. It is the job of Congress to find the right balance between protecting privacy and safeguarding national security. The judiciary bill makes critical improvements to the Protect America Act to ensure independent judicial oversight by the Foreign Intelligence Surveillance Court, FISC. It allows the secret FISC greater authority to act as an independent check on unfettered Executive power. The judiciary bill provides the court the authority to assess the Government's ongoing compliance with its wiretapping procedures, places limits on the way the Government uses information acquired about Americans, and lets the court enforce its own orders.

The judiciary bill also safeguards Americans against widespread warrantless spying. It reaffirms that FISA is the exclusive statutory authority for conducting foreign intelligence surveillance, prohibits limitless "fishing expeditions"—so-called "bulk collection" of all communications between the United States and overseas, and ensures that the Government cannot eavesdrop on Americans under the guise of targeting foreigners—what is known as "reverse targeting."

Most importantly, unlike the Intelligence bill, the judiciary bill does not provide retroactive amnesty to telecommunications providers that were complicit in the administration's warrantless spying program. I fear this administration is deliberately stonewalling to avoid an adverse court decision finding its surveillance program to be unconstitutional. It is seeking political security in the name of national security.

The heart of the matter is that allowing Americans their day in court—introducing some kind of accountability, affording some kind of objective authority, in lieu of the Bush administration, to adjudicate competing claims—will shed much-needed light on the administration's secret surveillance program. If the lawsuits are shielded by Congress, the courts may never rule on whether the administration's surveillance activities were lawful. We must hold the administration to account. And an impartial court of law insulated from political pressure is the most appropriate setting in which to receive a fair hearing.

If the telecoms were following the law, they should get immunity, as Congress explicitly provided under the original FISA law. But our courts should decide, not Congress—and that is a matter of principle protected in the judiciary bill, which is the bipartisan bill that should be under consideration.

Mr. LEAHY. Mr. President, the Foreign Intelligence Surveillance Act—FISA—is intended to protect both our national security and the privacy and civil liberties of Americans. We are considering amendments to that important act that will provide new flexibility to our intelligence community. I think we all support surveillance authority, and we have joined together to update FISA dozens of times since its historic passage after the intelligence abuses of earlier decades. I thank the majority leader for his efforts in bringing this matter before the Senate. He has consulted with me and with Chairman ROCKEFELLER and is proceeding by regular order to bring this legislation before the Senate in a manner that allows deliberation of the many protections of Americans' rights added to the bill during consideration by the Senate Judiciary Committee.

It is vitally important that we correct the excesses of the so-called Protect America Act that was rushed through the Senate in an atmosphere of fear and intimidation just before the August recess after the administration reneged on agreements reached with congressional leaders. That bill was hurriedly passed under intense, partisan pressure from the administration. It provided sweeping new powers to the Government to engage in surveillance, without a warrant, of international calls to and from the United States involving Americans, and it provided no meaningful protection for the privacy and civil liberties of the Americans who are on those calls.

Before that flawed bill passed, Senator ROCKEFELLER and I, and several others in the House and the Senate, worked hard and in good faith with the administration to craft legislation that solved an identified problem but also protected Americans' privacy and liberties. Just before the August recess the administration decided, instead, to ram through its version of the so-called Protect America Act with excessive grants of Government authority and without accountability or checks and balances. After almost 6 years of violating FISA through secret warrantless wiretapping programs, that was wrong. A number of us supported the better balanced alternative and voted against the Protect America Act as drafted by the administration.

Fortunately, because the Protect America Act has a 6-month sunset, we have a chance to revisit this matter and do it right. The Judiciary Committees and Intelligence Committees in the Senate and the House have spent the past months considering changes to FISA. In the Senate Judiciary Committee, we held open hearings and countless briefings and meetings to consider new surveillance legislation. We considered legislative language in a number of open business meetings of the committee and reported a good bill to the Senate before Thanksgiving.

The bill we are considering will permit the Government, while targeting overseas, to review more Americans' communications with less court supervision than ever before. I support this surveillance, but we must also take care to protect Americans' liberties. Attorney General Mukasey said at his nomination hearing that "protecting civil liberties, and people's confidence that those liberties are protected, is a part of protecting national security." On that I agree with him. That is what the Senate Judiciary bill does.

I commend the House of Representatives for passing a bill, the RESTORE Act, that takes a balanced approach to these issues. It allows our intelligence community great flexibility to conduct surveillance on overseas targets, while providing oversight and protection for Americans' civil liberties. The Senate Select Committee on Intelligence has also worked hard. I know that Chairman ROCKEFELLER was as disappointed as I at the administration's partisan maneuvering just before the August recess. I commended his efforts this summer and do so, again, now. I believe that he and I both want surveillance with oversight and accountability.

I also want to praise our joint members, Senators FEINSTEIN, FEINGOLD, and WHITEHOUSE, who as members of both the Judiciary Committee and the Select Committee on Intelligence contributed so much to the work of the Judiciary Committee and who worked with me to author many of the additional protections that we adopted and reported. These Senators and others on the Judiciary Committee worked hard to craft amendments that preserve the basic structure and authority proposed in the bill reported by the Select Committee on Intelligence, while adding crucial protections for Americans.

In my view, and I think the view of many Senators, we need to do more than the bill initially reported by the Senate Select Committee on Intelligence to protect the rights of Americans. Indeed, Senator ROCKEFELLER joins with me to support many of the Judiciary Committee's improvements.

The Judiciary bill, for example, makes clear that the Government cannot claim authority to operate outside the law—outside of FISA—by alluding to legislative measures that were never intended to provide such exceptional authority. This administration has come to argue that the Authorization for the Use of Military Force, AUMF, passed after September 11, justified conducting warrantless surveillance of Americans for more than 5 years. I introduced a resolution on this in the last Congress, when we first heard this canard. When we authorized going after Osama bin Laden, the Senate did not authorize—explicitly or implicitly—warrantless wiretapping of Americans. Yet this administration still clings to this phony legal argument. The Judiciary bill would prevent that dangerous contention with strong language reaffirming that FISA is the exclusive means for conducting electronic surveillance for foreign intelligence purposes.

The Judiciary bill would also provide a more meaningful role for the FISA Court in this new surveillance. The court is a critical independent check on Government excess in the very sensitive area of electronic surveillance. The fundamental purpose of many of the Judiciary Committee changes is to assure that this important, independent check remains meaningful.

On one important issue, I strongly oppose the bill reported by the Senate Select Committee on Intelligence. That bill includes one provision that goes beyond even the so-called Protect America Act. It would grant blanket retroactive immunity to telecommunications carriers for their warrantless surveillance activities from 2001 through earlier this year contrary to FISA and in violation of the privacy rights of Americans.

This administration violated FISA by conducting warrantless surveillance for more than 5 years. They got caught, and if they hadn't, they would probably still be doing it. When the public found out about the President's illegal surveillance of Americans, the administration and the telephone companies were sued by citizens who believe their privacy and their rights were violated. Now the administration is trying to get this Congress to terminate those lawsuits in order to insulate itself from accountability. We should not allow this to happen.

The rule of law is fundamentally important in our system, and so is protecting the rights of Americans from unlawful surveillance. I do not believe that Congress can or should seek to take those rights and those claims from those already harmed. Instead, I will continue to work with Senator SPECTER, as well as with Senators FEINSTEIN and WHITEHOUSE, to try to craft a more effective alternative to retroactive immunity. We are working with the legal concept of substitution to place the Government in the shoes of the private defendants that acted at its behest and to let it assume full responsibility for the illegal conduct.

I voted for cloture on the motion to proceed to the measure, just as I would have supported proceeding to the House-passed bill, because I believe it is important that we correct the excesses of the so-called Protect America Act. The Judiciary Committee has done good work in reporting protective measures to the Senate to add balance to the surveillance powers of the Government and to better ensure the rights of Americans. I strongly oppose retroactive immunity in favor of accountability.

As we debate these issues, let us keep in mind the reason we have FISA in the first place. Not so long ago, we painfully learned the hard lesson that powerful surveillance tools, without adequate oversight or the checks and balances of judicial review, lead to abuses of the rights of the American people. I hope this debate will provide us an opportunity to show the American people what we stand for, that we will do all we can to secure our future while protecting their cherished rights and freedoms.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. REID. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. Mr. President, title II of the Intelligence Committee bill provides retroactive immunity to companies that are alleged to have cooperated with the Bush administration's warrantless wiretapping program. When we are on this bill, we are going to have an opportunity to vote on the amendment to strike title II so the actions of the telephone companies will be subject to legal proceedings. I will support this amendment, which insists on fair accounting for the actions of the telephone companies and proper accountability if they are found to have violated the law.

The Bush administration's warrantless wiretapping program was clearly an illegal circumvention of the provisions included in FISA designed to protect the privacy of law-abiding Americans. I, once again, wish to applaud Chairman ROCKEFELLER's tireless work over the course of the last several years to bring strong congressional oversight to the illegal Bush administration's spying programs. This type of lawlessness and misguided legal reasoning by the Bush administration will not be looked upon kindly in the history books.

The amendment now before us can begin to right the injustices the Bush administration has committed. I am pleased Chairman ROCKEFELLER's Senate Intelligence Committee rejected the administration's efforts to provide immunity for the Government officials who conceived and authorized this program. Democrats have made certain no one in the Bush administration who broke the law will be let off the hook.

I am also sympathetic to the phone companies' compliance with Government requests for assistance in the immediate aftermath of the terrible attacks of September 11. I can understand the argument that in a time of national emergency, they did their utmost to act in the best interests of our country. But this illegal program continued for 5 years after the rubble of 9/11 had been cleared—5 years—5 years during which the executive branch could have come to Congress and asked for the program to be put on solid legal footing—all they would have had to have done is come and tell us there were a few changes that needed to be made—and 5 years that the phone companies could have forced the administration to do a number of different things.

Public reports indicate that at least one phone company refused to follow the administration's request. This fact appears to undermine the argument for immunity of those who complied. When Congress drafted and enacted FISA in 1978, it was responding to widespread and egregious executive branch abuses of the power to spy on American citizens. Liability protections were included for phone companies responding in good faith to Government requests for assistance. But at the same time, Congress set out specific statutory requirements for the form such requests must take.

The intention was that the phone companies would have refused an illegal request not in compliance with FISA requirements. In other words, FISA's drafters intended for the phone companies to serve as an active check, not as a rubberstamp, on an executive branch acting outside the bounds of the law. It is not clear whether the telephone companies fulfilled that responsibility.

In light of that, I believe it is more than appropriate to ask the courts to examine the telephone companies' actions and to evaluate whether they acted properly. It would certainly be within the power of a judge to provide immunity if the telephone companies make a compelling case their actions were appropriate and legal. But providing immunity without ever undertaking such an evaluation would send a dangerous signal that requirements we enact prospectively may be ignored with impunity.

I appreciate the need for an intelligence community to gather information that makes our country safer in a way that does not violate the privacy of law-abiding Americans. In many cases, the telephone companies played an important and responsible role in that process. It is not my desire to bankrupt the industry. That is an understatement. Should the courts determine their actions were illegal and impose a potential bankrupting judgment, I would be inclined to support congressional intervention, of course. But we must not attempt to answer these questions prematurely. This process must be allowed to work its way through the courts. It would be wrong to deny that process.

I would also like to say again I believe this process deserves the informed input of every Senator. To that end, last Friday, I sent a letter to the Director of National Intelligence, strongly urging him to make the documents previously provided to the Intelligence and Judiciary Committees regarding retroactive immunity available in a secure location to any Senator who wishes to review them during the floor debate. This would also help every Senator reach an informed decision on how to proceed. I am hopeful that decision will be to support this amendment and allow the legal process to move forward, which will give all Americans confidence that their safety and their privacy are both respected and protected.

I wish to again outline briefly how much I appreciate the work of Senator ROCKEFELLER. It is a very difficult piece of work. He has done it with integrity and with good judgment. I also wish to express my appreciation for the work done by the Judiciary Committee. It is not often we have sequential referral on the bills, but we have had in this instance. The Judiciary Committee will have, if they so choose, the first amendments offered in this matter. They have done a good job. The title I work they did was extremely good.

It is my understanding now that Senators ROCKEFELLER and LEAHY have agreed with certain parts of the Judiciary Committee title I; that they will offer amendments either en bloc or individual amendments jointly, and that is a significant improvement. So in short, this legislation has been handled very well by the Intelligence Committee and the Judiciary Committee, and I look forward to hearing the response from Admiral McConnell as to whether these documents that have been shown to the Judiciary Committee and the Intelligence Committee will be available to us, I assume, in room 407 in this building.

Mr. President, I ask unanimous consent that the letter I sent to Admiral McConnell be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

U.S. SENATE.
Washington, DC, December 16, 2007.

Admiral JOHN M. MCCONNELL,
Director of National Intelligence, Office of the Director of National Intelligence, Washington, DC.

DEAR ADMIRAL MCCONNELL: As you know, the Senate will begin debate on the FISA Amendments Act of 2007 this week. Among the issues the Senate will consider is whether to grant retroactive immunity to telecommunications companies that are alleged to have assisted the government in its warrantless wiretapping program. You recently wrote in the New York Times that immunity is one of the three most critical issues in this bill.

We appreciate that you have provided access to the documents necessary for evaluation of this issue to the Senate Intelligence and Judiciary Committees, as each has in turn considered it. As the debate now moves to the full Senate, I believe it is of critical importance that all Senators who will be called upon to vote on this important question have an opportunity to review these key documents themselves so that they may draw their own conclusions. In my view, each sitting Senator has a constitutional right of access to these documents before voting on this matter.

I strongly urge you to make the documents previously provided to the Intelligence and Judiciary Committee regarding retroactive immunity available in a secure location to any Senator who wishes to review them during the floor debate. I appreciate your cooperation in this matter.

Sincerely,

HARRY REID
Senate Majority Leader.

Mr. REID. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. REID. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. Mr. President, we have tried to work through this process, and it appears quite clear at this stage, on this bill, we are not going to be able to do that. As everyone knows, we are in the last hours, days, certainly, of this first year of this session of Congress, and we have to take care of the domestic spending, we have the debate coming up on funding for the Afghanistan and Iraq wars, the supplemental, and I think it is very clear we are not going to be able to move into these amendments.

We have had a number of suggestions by a number of different people how we can move through this legislation, and it appears quite clear at this stage that we can't. I have spoken to a number of the Senators, and everyone feels it would be in the best interest of the Senate that we take a look at this when we come back after the first of the year and resume this. I have spoken to, for example, Senator DODD, a few minutes ago, and he and I have talked about ways to move forward—of course, Senator DODD can always speak for himself—but my feeling, after having visited with him, is we would be better off moving into this sometime after we come back after the holiday recess, after the adjournment sine die of this year of the Congress.

So unless something untoward appears, which I doubt extremely seriously, this is what we will do on FISA; that is, we will take it back up when we return in January.

The PRESIDING OFFICER. The Senator from Connecticut.

Mr. DODD. Before he leaves the floor, I wish to thank the Democratic leader. He has a very difficult job under any circumstances. To people who ask: What is it like to be the leader in the Senate, I often describe it as trying to keep frogs in a wheelbarrow. It always gets a pretty good reaction when I mention that. He has a lot of frogs to deal with around here. Trying to keep us all moving in the same direction is not easy.

Mr. REID. If I could respond to my friend, at this stage, in Iowa, they are laughing at just about all the jokes, aren't they?

Mr. DODD. As Mo Udall once said: I walked into a barber shop in New Hampshire and said: I am Mo Udall, and I am running for President. And the barber said: We were just laughing about that.

But I wished to thank the leader. This is an awkward time, obviously, and I wanted to get the bill done. I think Senators ROCKEFELLER and BOND did a good part of this bill, and it is worthy of our support.

The leader knows my longstanding concerns over this retroactive immunity. There is significant debate about this, and I feel strongly about it. I will look forward to coming back in January, and hopefully between now and coming back, maybe there would be some suggestions on how we might ease some of the concerns people have and satisfy them, without necessarily granting retroactive immunity.

I know there are various ideas kicking around, some sort of a compromise idea that may be worked out. Certainly, there will be some time to think about this so we can avoid this when it comes back again. I appreciate the fact we are not going to proceed with it now. That gives us a chance to work on this some more. We have at least some time, I think the end of January or early February before the law will expire, so we have some time to come back and deal with this again. I appreciate the fact we are not going to have to go forward. I would have been put in a position to contest this in every possible way, utilizing all the tools available to us, and I am very grateful to the leader for moving on. I promise I certainly will be willing to listen to various ideas how we can resolve this, so when we come back here, this will be a matter we can deal with more expeditiously, but I am very grateful to him for giving me an opportunity to make my case.

Mr. REID. I appreciate the kind comments of my friend from Connecticut. He is one of our most articulate spokespersons we have in the Senate and always has been. I have enjoyed my work with him.

This is a very difficult issue. The American public is terribly concerned about this issue because it is easy to focus on. What has taken place in this country the last 7 years has really hurt the confidence of the American people in their Government.

We have the worst foreign policy blunder in the history of the country in the invasion of Iraq. We are spending now $12 billion a month there.

We have now a condition where much of the Government has been contracted out. The poster for that, of course, is Blackwater. I heard an account on the radio this morning that the Iraqis can't tell the difference between the American troops and these contractors, and all the contractors do is hurt them—not the troops but these contractors.

We have had this domestic surveillance situation, which is really frightening to people. In Nevada, we don't like wiretaps. We don't like lie detector tests. We are very private people. I think that is basically where America is. They don't like their privacy invaded.

We all want to get the bad guys. We know there are evil people out there trying to hurt us. The patriotism of the Senator from Connecticut and the Senator from Nevada will compare to that of anyone else in the Senate. Because we believe this retroactive immunity is something that needs to be studied very closely, that doesn't mean we are any less patriotic than anyone else.

This is an issue on which the American people are focused. I have gotten, in the last week or so, thousands of inquiries from around the country. This is an issue they understand and they do not like. Hopefully, when we come back after the first of the year, we can figure out a way to move through this. We know we have to do something, but we can't continue to make mistakes in this regard that continually take away the confidence of the American people in what we are doing back here.

Mr. DODD. Mr. President, I see the majority whip as well. I just want to take a couple of minutes and conclude my thoughts on this matter, since we will be moving on.

> Americans have rightfully been concerned since before World War II about the dangers of hostile foreign agents likely to commit acts of espionage. Similarly, the violent acts of political terrorists can seriously endanger the rights of Americans. Carefully focused intelligence investigations can help prevent such acts.
>
> But too often intelligence has lost this focus and domestic intelligence activities have invaded individual privacy and violated the rights of lawful assembly and political expression. Unless new and tighter controls are established by legislation, domestic intelligence activities threaten to undermine our democratic society and fundamentally alter its nature.
>
> A tension between order and liberty is inevitable in any society. A Government must protect its citizens from those bent on engaging in violence and criminal behavior, or in espionage and other hostile foreign intelligence activity . . . Intelligence work has, at times, successfully prevented dangerous and abhorrent acts, such as bombings and foreign spying, and aided in the prosecution of those responsible for such acts.
>
> But, intelligence activity in the past decades has, all too often, exceeded the restraints on the exercise of governmental power which are imposed by our country's Constitution, laws, and traditions.
>
> We have seen segments of our Government, in their attitudes and action, adopt tactics unworthy of a democracy, and occasionally reminiscent of the tactics of totalitarian regimes. We have seen a consistent pattern in which programs initiated with limited goals, such as preventing criminal violence or identifying foreign spies, were expanded to what witnesses characterized as 'vacuum cleaners," sweeping in information about lawful activities of American citizens.
>
> That these abuses have adversely affected the constitutional rights of particular Americans is beyond question. But we believe the harm extends far beyond the citizens directly affected.
>
> Personal privacy is protected because it is essential to liberty and the pursuit of happiness. Our Constitution checks the power of Government for the purpose of protecting the rights of individuals, in order that all our citizens may live in a free and decent society. Unlike totalitarian states, we do not believe that any government has a monopoly on truth.
>
> When Government infringes those rights instead of nurturing and protecting them, the injury spreads far beyond the particular citizens targeted to untold number of other Americans who may be intimidated.
>
> Abuse thrives on secrecy. Obviously, public disclosure of matters such as the names of intelligence agents or the technological details of collection methods is inappropriate. But in the field of intelligence, secrecy has been extended to inhibit review of the basic programs and practices themselves.
>
> Those within the Executive branch and the Congress who would exercise their responsibilities wisely must be fully informed. The American public, as well, should know enough about intelligence activities to be able to apply its good sense to the underlying issues of policy and morality.
>
> Knowledge is the key to control. Secrecy should no longer be allowed to shield the existence of constitutional, legal and moral problems from the scrutiny of all three branches of government or from the American people themselves.

These words I wish I could claim them as my own. These are words that were written some 31 years ago by Frank Church, in a committee that initiated the idea of FISA. They talked about the problems they had worked on that gave birth to this legislation we are dealing with today—some 30 changes later after some 28 years. But they are words to live by. They would fit almost any time, to strike that balance between security and liberty.

As I quoted earlier today, some 220 years ago, Benjamin Franklin warned the country that those who would sacrifice liberty for security deserve neither. In many ways, today we are being asked to make a choice. It was a false choice 220 years ago. It is still a false choice today. It is a false dichotomy. In fact, we are more secure when we secure our liberties, when we defend them and protect them. That is the nature of our society. It is what has given us great strength through these past more than 20 decades here and I believe will keep us more secure in the years ahead.

It is true, technology is changing, and the means of causing us harm or injury are more sophisticated today; but these eternal transcendent rights we embrace as a nation, which each and every generation has been responsible for guarding, are no less important today than they were years ago.

So the words of Frank Church and the committee members, Republican and Democratic, who signed this document some 31 years ago, are as true today. They are what caused me to stand here today for 8 or 9 hours. They are what caused me to stand here a year ago to speak out strongly against the Military Commissions Act and other such actions by this administration over the past number of years.

I know it is not normal—certainly for this Member—to threaten to filibuster or to engage in extended debate, but I felt so strongly about this provision in this bill, this retroactive immunity, that I was determined to do everything I could to stop this legislation going forward with those provisions included. I am grateful we are going to move on to other legislation.

We will return to this, apparently, in January. My hope is that between now and then we can resolve this matter, and that retroactive immunity will no longer be a part of this. We will not allow it. I don't know if it is possible. I hope it is. If not, I will be back here engaging in the same effort to stop this legislation going forward with those provisions included.

I am grateful to my colleagues, to Senator KENNEDY, Senator FEINGOLD, Senator WYDEN, Senator BILL NELSON, Senator BOXER, who spoke earlier today, to Senator SHERROD BROWN, who spoke, as well, about this legislation, and others who came to the floor to express their concerns principally about this provision.

Again, I thank the majority leader, Senator REID, who certainly gave me the opportunity to continue this effort. He has at his disposal procedures he could engage in, and he did not utilize those. He allowed this Senator to make his case to extend this debate to 30 hours, which is what I was prepared to do, then offer amendments to engage in extended debate if necessary to stop this from going forward. That, apparently, will not be necessary now, to engage in those efforts. So I am grateful to my colleagues for giving me this opportunity to make my case and hopeful that when we pass FISA legislation, it will not include retroactive immunity. That would be the wrong thing to do, a dangerous precedent, and I hope my colleagues on both sides will come to that conclusion.

I yield the floor. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. DODD. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

MORNING BUSINESS

Mr. DODD. Mr. President, I ask unanimous consent that there now be a period of morning business with Senators permitted to speak therein for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

HONORING OUR ARMED FORCES

SPECIALIST JOHNATHAN ALAN LAHMANN

Mr. BAYH. Mr. President, today with a heavy heart and deep sense of gratitude I honor the life of a brave soldier from Richmond, IN. SPC Johnathan Lahmann, 21 years old, died December 10th in Tikrit, Iraq. Specialist Lahmann died of injuries he sustained in Bayhi, Iraq, when an improvised explosive device detonated near his vehicle. With an optimistic future before him, John risked everything to fight for the values Americans hold close to our hearts, in a land halfway around the world.

John was a 2004 graduate of Richmond High School where he avidly studied auto repair with plans to be a mechanic. According to his teacher, Roy Reisinger, John was so dedicated to studying auto repair that he would go to Mr. Reisinger's house on the weekends to work on cars. Mr. Reisinger described John to a local newspaper as "a top-notch mechanic" and "an all-around good young man." In addition to his strong work ethic praised by his teachers, his fellow classmates recall John's pleasant demeanor and his friendship.

After graduation, John worked at Mosey Manufacturing. In September 2005, John joined the Army, where he was trained as a combat engineer. He was assigned to the 59th Engineer Company, 20th Engineer Battalion, 36th Engineer Brigade, Fort Hood, TX. In November 2007, John was deployed to Iraq. He is survived by his parents, Linda and Alan C. Lahmann.

Today, I join John's family and friends in mourning his death. While we struggle to bear our sorrow over this loss, we can also take pride in the example he set, bravely fighting to make the world a safer place. It is his courage and strength of character that people will remember when they think of John. Today and always, John will be remembered by family members, friends, and fellow Hoosiers as a true American hero, and we honor the sacrifice he made while dutifully serving his country.

As I search for words to do justice in honoring John's sacrifice, I am reminded of President Lincoln's remarks as he addressed the families of the fallen soldiers in Gettysburg: "We cannot dedicate, we cannot consecrate, we cannot hallow this ground. The brave men, living and dead, who struggled here, have consecrated it, far above our poor power to add or detract. The world will little note nor long remember what we say here, but it can never forget what they did here." This statement is just as true today as it was nearly 150 years ago, as I am certain that the impact of John's actions will live on far longer than any record of these words.

It is my sad duty to enter the name of SPC Johnathan Alan Lahmann in the official record of the United States Senate for his service to this country and for his profound commitment to freedom, democracy, and peace. When I think about this just cause in which we are engaged, and the unfortunate pain that comes with the loss of our heroes, I hope that families like John's can find comfort in the words of the prophet Isaiah who said, "He will swallow up death in victory; and the Lord God will wipe away tears from off all faces."

May God grant strength and peace to those who mourn, and may God be with all of you, as I know He is with Johnathan.

IRAQ FUNDING

Mr. KYL. Mr. President, there has been a great deal of debate in recent weeks about whether to fund the needs of our soldiers overseas. The time to act has come.

We are nearing the end of the first quarter of the fiscal year, and despite steady progress in Iraq, Congress still has not passed a funding bill for our soldiers. Members of this body have been aware of the consequences of delaying funding for a long time.

In a November 8 letter, Deputy Secretary of Defense Gordon England explained that failure to fund military operations will "result in having to shut down significant portions of the Defense Department by early next year." The specific consequences, in Secretary England's words, include "closure of military facilities, furloughing of civilian workers and deferral of contract activity." In case there is any confusion about what this means to the military, Secretary England is quite clear: "this situation will result in a profoundly negative impact on the defense civilian workforce, depot maintenance, base operations, and training activities."

He also acknowledged that this delay in funding doesn't only harm our military but also sets back the training and equipping of Iraqi and Afghan security forces, whose expeditious development is critical to lasting peace in those nations.

This delay in funding shows a lack of support for our troops in harm's way, disregard for the measurable progress they have achieved in recent months, and indifference to the future of Iraq and Afghanistan. That is not the kind of leadership the American people expect of Congress.

It is time to heed the clear warnings from the Department of Defense, come together in support of the progress our soldiers are making, and provide them with the necessary resources so that they can continue their important work on behalf of the American people.

A December 8 article in the Washington Post by LT Pete Hegseth and GEN John Batista, a prominent critic of the Administration's policy in Iraq, encouraged Americans "to stand together, in and out of uniform," and commit to defeating our enemies. That means supporting the progress our soldiers are achieving and providing them the funds necessary to complete their mission and, thus, make Americans safer.

I ask unanimous consent to have the attached article printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the Washington Post, 8, 2007]

Congress has been entangled in a war-funding debate that pits war "supporters" against antiwar "defeatists." With all sides seemingly entrenched, a stalemate looms. The Pentagon, meanwhile, will soon begin stripping money from its training budget to fund the wars in Iraq and Afghanistan.

Our military men and women deserve better than partisan politics; they deserve honest assessments of our nation's performance in fighting the Long War.

We are veterans of the Iraq war with vastly different experiences. Both of us commanded troops in Iraq. We, too, held seemingly entrenched, and incompatible, views upon our return. One of us spoke out against mismanagement of the war—failed leadership, lack of strategy and misdirection. The other championed the cause of successfully completing our mission.

Our perspectives were different, yet not as stark as the "outspoken general" and "stay-the-course supporter" labels we received. Such labels are oversimplified and inaccurate, and we are united behind a greater purpose.

It's time to discuss the way forward rather than prosecute the past. Congress must do the same, for our nation and the troops.

Overall, this will require learning from our strategic blunders, acknowledging successes achieved by our courageous military and forging a bold path. We believe America can and must rally around five fundamental tenets:

First, the United States must be successful in the fight against worldwide Islamic extremism.

We have seen this ruthless enemy firsthand, and its global ambitions are undeniable. This struggle, the Long War, will probably take decades to prosecute. Failure is not an option.

Second, whether or not we like it, Iraq is central to that fight. We cannot walk away from our strategic interests in the region. Iraq cannot become a staging ground for Islamic extremism or be dominated by other powers in the region, such as Iran and Syria. A premature or precipitous withdrawal from Iraq, without the requisite stability and security, is likely to cause the violence there—which has decreased substantially but is still present—to cascade into an even larger humanitarian crisis.

Third, the counterinsurgency campaign led by Gen. David Petraeus is the correct approach in Iraq. It is showing promise of success and, if continued, will provide the Iraqi government the opportunities it desperately needs to stabilize its country. Ultimately, however, these military gains must be cemented with regional and global diplomacy, political reconciliation, and economic recovery—tools yet sufficiently utilized. Today's tactical gains in Iraq—while a necessary precondition for political reconciliation—will crumble without a deliberate and comprehensive strategy.

Fourth, our strategy in fighting the Long War must address Iran. Much has been made this week of the intelligence judgments that Iran has stopped its weapons program. No matter what, Iran must not be permitted to become a nuclear power. All options should be exhausted before we use military force, but force, nonetheless, should never be off the table. Diplomatic efforts—from a position of strength, both regionally and globally—must be used to engage our friends and coerce our enemies to apply pressure on the Iranian regime.

Fifth, our military capabilities need to match our national strategy. Our military is stretched thin and will be hard-pressed to maintain its current cycle of deployments. At this critical juncture, we cannot afford to be weak. Numbers and capacity matter.

After the Sept. 11, 2001, attacks, America was not mobilized for the Long War. This was an opportunity lost, but it is not too late. Many Americans are frustrated by the war effort, the burden of which has been shouldered by less than one percent of our citizenry. Our country is accustomed to winning. We deserve a comprehensive strategy that is focused on victory and guided by decisive leadership. America must succeed in

Iraq and Afghanistan, but we also cannot focus too narrowly on those conflicts. We need a regional and global strategy to defeat worldwide Islamic extremism to ensure a safer world today and for future generations.

The day after his famous Pearl Harbor speech, President Franklin D. Roosevelt again addressed the nation. "I was about to add that ahead there lies sacrifice for all of us," he said. "But it is not correct to use that word. The United States does not consider it a sacrifice to do all one can, to give one's best to our nation, when the nation is fighting for its existence and its future life." His words inspired the "Greatest Generation," and they should inspire us again today.

Americans must mobilize for the Long War—bolster our strained military, galvanize industry to supply troops with what they need right now and fund the strategy with long-term solutions. We have no doubt that Americans will rally behind a call to arms.

America's veterans—young and old—are resolved to support and defend the Constitution from all enemies, foreign and domestic. This commitment, and nothing less, should compel us to stand together, in and out of uniform. Would that Congress finds the courage to bury its pride and do the same.

THE MATTHEW SHEPARD ACT OF 2007

Mr. SMITH. Mr. President, I wish to speak about the need for hate crimes legislation. Each Congress, Senator KENNEDY and I introduce hate crimes legislation that would add new categories to current hate crimes law, sending a signal that violence of any kind is unacceptable in our society. Likewise, each Congress I have come to the floor to highlight a separate hate crime that has occurred in our country.

Early in the morning of December 8, 2007, 25-year-old Nathaniel Salerno was attacked by five to seven men on a Washington, DC, Metro subway train. Salerno, a gay man, had been at several clubs prior to returning home. Shortly after boarding the train, the men approached him and allegedly demanded that Salerno give them his wallet and BlackBerry. When he stood up, the attackers snatched the items and began to punch and kick him, screaming antigay slurs. Salerno received stitches for the lacerations he received to his face during the attack. Washington's Metro police are investigating the assault as a bias-related violent crime.

I believe that the Government's first duty is to defend its citizens, to defend them against the harms that come out of hate. The Matthew Shepard Act is a symbol that can become substance. I believe that by passing this legislation and changing current law, we can change hearts and minds as well.

ENERGY

Mr. KYL. Mr. President, I rise today to discuss the energy legislation Congress is on the brink of passing in these last days of the first session of the 110th Congress. I voted against this legislation in the Senate because it contains numerous provisions that will distort competitive markets for energy through subsidies, Government mandates, special projects, and irresponsible increases in Federal spending. This bill will not promote the goal of energy security but will likely increase fuel and food prices and reduce consumer choice for everything from cars to light bulbs.

First, I want to talk about ethanol. It is difficult to understand why Congress continues to believe that ethanol is a desirable substitute for gasoline. It is widely reported that even if all of the 300 million acres—500,000 square miles—of currently harvested U.S. cropland produced ethanol, they wouldn't supply all of the gasoline and diesel fuel we now burn for transport, and they would supply only about half of the demand for the year 2025. We are not going to grow our way to energy security. We are also starting to see the devastating effects our current ethanol production is having on our scarce water supply, the environment, and human health.

Despite these facts, one of the bill's most prominent features is a five-fold increase in the ethanol mandate from the currently required 7.5 billon gallons by 2012 to 36 billion gallons by 2022. Meeting this mandate will require even more corn-based ethanol and the production of other so-called advanced biofuels, largely made from cellulosic ethanol. Although cellulosic ethanol production is in its infancy and does not exist commercially today, the bill specifies that 21 billion gallons of the 36 billion gallons mandated be cellulosic ethanol. This is nothing more than a congressional gamble with American taxpayer dollars.

If Congress is serious about moving away from oil to alternative fuels it cannot, as it has done here, subsidize political favorites and engage in statutory prescription. This will actually slow energy innovation and may even retard the gains we have made. An excellent example of this point is the exclusion of woody biomass material from our Nation's overgrown forests from the production of advanced biofuels. Companies throughout the West, including many small businesses, are working in partnership with the Federal Government to help restore our national forests by removing this woody biomass material and using it to produce energy. This oversight in the bill complicates these efforts and could seriously slow the gains my home State of Arizona and other Western States dominated by Federal lands have made to combat catastrophic wildfire.

Now, let's turn to the other major feature of this bill—federally mandated increases in corporate average fuel economy, CAFE, standards. This bill requires each manufacturer's fleet to average 35 miles per gallon by 2020, a roughly 40 percent increase over current standards for cars and trucks. What this proposal seems to overlook is that more fuel efficient cars and trucks already exist on the market for those who want them. And as gas prices rise, my guess is increasing numbers of consumers will buy smaller, more fuel efficient cars without being told to do so by Congress. The point is that this is a consumer choice issue. By federally mandating these increases there will be less choice, increases in car sticker prices, and the very real possibility of more unnecessary highway deaths due to the increases in lighter vehicles, which generally are less safe in collisions on the road. A National Academy of Sciences study concluded that vehicle downsizing costs 1,300 to 2,600 lives per year.

Another major problem with the CAFE provisions in the bill is the failure to clarify the regulatory responsibilities of the National Highway Transportation Safety Board and the Environmental Protection Agency over the regulation of tailpipe emissions and fuel economy requirements. The administration in its Statement of Administration Policy makes this point. Failing to address this issue will likely leave industry to sort through layers of contradictory regulation.

Beyond the biofuels and CAFE provisions, the bill includes a full assortment of new efficiency mandates for appliances and buildings and even takes measures to phase out incandescent lightbulbs. Industry in the private sector has already brought to market alternative lighting technologies to the traditional lightbulb, and as prices drop consumers are switching over to them. Provisions like these are nothing more than Congress's attempt to take credit for something the market is already doing and accomplishing far more quickly and efficiently than the government can, I might add.

In sum, instead of enacting poor energy policy, Congress should focus on what it must do before we leave here this year—fund the Government by enacting fiscally responsible appropriations bills and ensuring our troops have what they need.

PASSAGE OF FARM BILL

Mr. CASEY. Mr. President, with the passage of the farm bill, I want to commend the work of my legislative staff led by Kasey Gillette our senior legislative assistant. Kasey did an excellent job on both substance and strategy always focusing on how the bill would impact farm families and the agricultural economy of Pennsylvania. Kasey had two great teammates: Caryn Long and Alex Davis, who labored for months on very complex matters in the bill. Without the work of Kasey, Caryn, and Alex, I wouldn't have been able to have four amendments adopted during the floor debate and five others adopted during the committee markup.

ADDITIONAL STATEMENTS

TRIBUTE TO GEORGE HALE

• Ms. COLLINS. Mr. President, this morning WABI-AM radio in my home State of Maine dedicated the George Hale Studio in Bangor. I commend Clear Channel Communications for recognizing the many contributions George Hale has made to our State during his 54-year career in broadcasting, and I am honored to offer a few words in tribute to him.

George Hale is a true broadcasting legend. For more a half century, he has kept the people of Maine informed, he has entertained us, and he has brought us together as a community of friends and neighbors. He has brought the best of Maine into our homes, and he has always been a welcome guest.

Still going strong today, George Hale will forever be associated with the Bangor Auditorium and the great high school basketball tournaments held there, but that is just a start. University of Maine football, baseball, and basketball have all benefited from his great work, and he is beloved by generations of fans, coaches, and players. Whether describing victory or defeat, he always treats the athletes with respect and appreciation for their efforts.

Generations of Mainers have begun their day with George. Many used to begin their day by tuning in at 5:45 a.m. to hear his thoughts and comments on everything ranging from Red Sox to world affairs.

And the tradition continues today. Along with his friend and cohost Ric Tyler, George's show provides news and insight about the issues facing Maine and the Nation. As one who has appeared on his show many times, I can say that George always treats his guests with fairness and respect.

George was blessed with a great voice, and he has used it well as a powerful spokesman for great causes. His support for the March of Dimes, and especially his advocacy for the folic acid campaign, has greatly helped this outstanding organization carry out is vital mission of improving the health of babies by preventing birth defects and infant mortality. The March of Dimes and George Hale truly are a championship team.

WABI-AM radio is known as the Voice of Maine. It is a fitting name because George Hale truly is the Voice of Maine. He is a great friend to me and to all the people of my State. I know we all look forward to many more years of hearing that great voice from the George Hale Studio.•

EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, and were referred as indicated:

EC-4357. A communication from the Director, Regulatory Review Group, Department of Agriculture, transmitting, pursuant to law, the report of a rule entitled "Regulatory Streamlining of the Farm Service Agency's Direct Farm Loan Programs" (RIN0560-AF60) received on December 7, 2007; to the Committee on Agriculture, Nutrition, and Forestry.

EC-4358. A communication from the Administrator, Risk Management Agency, Department of Agriculture, transmitting, pursuant to law, the report of a rule entitled "Common Crop Insurance Regulations; Potato Provisions" (RIN0563-AC05) received on December 7, 2007; to the Committee on Agriculture, Nutrition, and Forestry.

EC-4359. A communication from the Under Secretary of Defense (Personnel and Readiness), transmitting, a report on the approved retirement of Lieutenant General Russel L. Honore, United States Army, and his advancement to the grade of lieutenant general on the retired list; to the Committee on Armed Services.

EC-4360. A communication from the Principal Deputy, Office of the Under Secretary of Defense (Personnel and Readiness), transmitting, pursuant to law, a report relative to the cost effectiveness of the Defense Commissary Agency; to the Committee on Armed Services.

EC-4361. A communication from the Secretary, Division of Corporation Finance, Securities and Exchange Commission, transmitting, pursuant to law, the report of a rule entitled "Shareholder Proposals Relating to the Election of Directors" (RIN3235-AJ95) received on December 6, 2007; to the Committee on Banking, Housing, and Urban Affairs.

EC-4362. A communication from the Secretary, Division of Corporation Finance, Securities and Exchange Commission, transmitting, pursuant to law, the report of a rule entitled "Revisions to Rules 144 and 145" (RIN3235-AH13) received on December 6, 2007; to the Committee on Banking, Housing, and Urban Affairs.

EC-4363. A communication from the Director, Office of Legislative Affairs, Federal Deposit Insurance Corporation, transmitting, pursuant to law, the report of a rule entitled "Identity Theft Red Flags and Address Discrepancies Under the Fair and Accurate Credit Transactions Act of 2003" (RIN3064-AD00) received on December 7, 2007; to the Committee on Banking, Housing, and Urban Affairs.

EC-4364. A communication from the Chairman and President, Export-Import Bank of the United States, transmitting, pursuant to law, a report relative to a transaction involving the sale of one Boeing 777-200ER aircraft to Angola; to the Committee on Banking, Housing, and Urban Affairs.

EC-4365. A communication from the Deputy Assistant Administrator for Regulatory Programs, National Marine Fisheries Service, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled "Annual Specifications for the 2007 Pacific Sardine Fishing Season" (RIN0648-AV11) received on December 7, 2007; to the Committee on Commerce, Science, and Transportation.

EC-4366. A communication from the Deputy Assistant Administrator for Regulatory Programs, National Marine Fisheries Service, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled "Fisheries Observer Health and Safety" (RIN0648-AU46) received on December 7, 2007; to the Committee on Commerce, Science, and Transportation.

EC-4367. A communication from the Acting Director, Office of Sustainable Fisheries, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled "Fisheries of the Exclusive Economic Zone Off Alaska; Northern Rockfish for Vessels Participating in the Rockfish Entry Level Fishery in the Central Regulatory Area of the Gulf of Alaska" (RIN0648-XD83) received on December 7, 2007; to the Committee on Commerce, Science, and Transportation.

EC-4368. A communication from the Secretary of Energy, transmitting, pursuant to law, a report relative to the storage of plutonium at the Savannah River Site; to the Committee on Energy and Natural Resources.

EC-4369. A communication from the Assistant Secretary of the Army (Civil Works), transmitting, pursuant to law, a report relative to the integration of the hurricane storm damage reduction system; to the Committee on Environment and Public Works.

EC-4370. A communication from the Assistant Secretary, Office of Legislative Affairs, Department of State, transmitting, pursuant to law, the report of a rule entitled "Voluntary Disclosures" (22 CFR part 127) received on December 6, 2007; to the Committee on Foreign Relations.

EC-4371. A communication from the Assistant Secretary, Office of Legislative Affairs, Department of State, transmitting, pursuant to law, the report of a rule entitled "Amendment to the International Arms Traffic in Arms Regulations: UN Embargoed Countries" (22 CFR part 126) received on December 6, 2007; to the Committee on Foreign Relations.

EC-4372. A communication from the Assistant Secretary, Office of Legislative Affairs, Department of State, transmitting, pursuant to law, the report of a rule entitled "Amendment to the International Traffic in Arms Regulations: Regarding Dual and Third Country Nationals" (22 CFR part 124) received on December 6, 2007; to the Committee on Foreign Relations.

EC-4373. A communication from the Assistant Secretary, Office of Legislative Affairs, Department of State, transmitting, pursuant to law, the certification of a proposed agreement for the export of defense services to the United Kingdom in support of the sale of one C-17 Globemaster III aircraft; to the Committee on Foreign Relations.

EC-4374. A communication from the Assistant Secretary, Office of Legislative Affairs, Department of State, transmitting, pursuant to law, the certification of a proposed agreement for the export of defense services to the Kingdom of Saudi Arabia to support the sale of 16 S-92A helicopters; to the Committee on Foreign Relations.

EC-4375. A communication from the Assistant Secretary, Office of Legislative Affairs, Department of State, transmitting, pursuant to law, a report relative to loan guarantees to Israel; to the Committee on Foreign Relations.

EC-4376. A communication from the Assistant Secretary, Office of Legislative Affairs, Department of State, transmitting, pursuant to law, the certification of a proposed license for the export of defense services to Canada related to the acquisition of SNIPER Targeting Pods; to the Committee on Foreign Relations.

EC–4377. A communication from the Director, Regulations Policy and Management Staff, Department of Health and Human Services, transmitting, pursuant to law, the report of a rule entitled "Revision of the Requirements for Live Vaccine Processing" (Docket No. 2007N–0284) received on December 7, 2007; to the Committee on Health, Education, Labor, and Pensions.

EC–4378. A communication from the Special Assistant to the President and Director, Office of Administration, Executive Office of the President, transmitting, pursuant to law, a report relative to personnel employed in the White House Office; to the Committee on Homeland Security and Governmental Affairs.

EC–4379. A communication from the Inspector General, Nuclear Regulatory Commission, transmitting, pursuant to law, the Commission's Performance Report for fiscal year 2007; to the Committee on Homeland Security and Governmental Affairs.

EC–4380. A communication from the Chairman, Nuclear Regulatory Commission, transmitting, pursuant to law, the Commission's Performance and Accountability Report for fiscal year 2007; to the Committee on Homeland Security and Governmental Affairs.

EC–4381.. A communication from the President and Chief Executive Officer, Overseas Private Investment Corporation, transmitting, pursuant to law, the Corporation's Management Report for fiscal year 2007; to the Committee on Homeland Security and Governmental Affairs.

EC–4382. A communication from the Secretary of the Interior, transmitting, pursuant to law, the Semiannual Report of the Department's Inspector General for the 6-month period of April 1, 2007, through September 30, 2007; to the Committee on Homeland Security and Governmental Affairs.

EC–4383. A communication from the Director, Office of Government Ethics, transmitting, pursuant to law, the Office's Performance and Accountability Report for fiscal year 2007; to the Committee on Homeland Security and Governmental Affairs.

EC–4384. A communication from the Administrator, National Aeronautics and Space Administration, transmitting, pursuant to law, the Semiannual Report of the Administration's Inspector General for the period ending September 30, 2007; to the Committee on Homeland Security and Governmental Affairs.

EC–4385. A communication from the Chairman, Farm Credit System Insurance Corporation, transmitting, pursuant to law, its consolidated report relative to its operations; to the Committee on Homeland Security and Governmental Affairs.

PETITIONS AND MEMORIALS

The following petition or memorial was laid before the Senate and was referred or ordered to lie on the table as indicated:

POM–271. A resolution adopted by the Senate of the Associated Students of the University of Nevada urging Congress to pass the DREAM Act; to the Committee on the Judiciary.

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second times by unanimous consent, and referred as indicated:

By Mr. PRYOR (for himself, Mr. CHAMBLISS, and Mrs. LINCOLN):

S. 2492. A bill to provide for improved oversight of and accountability for military housing privatization initiative projects; to the Committee on Armed Services.

By Mr. LAUTENBERG (for himself and Mr. MENENDEZ):

S. 2493. A bill to prohibit the limitation of certain air traffic in the New York and New Jersey region; to the Committee on Commerce, Science, and Transportation.

By Ms. CANTWELL (for herself and Mrs. MURRAY):

S. 2494. A bill to provide for equitable compensation to the Spokane Tribe of Indians of the Spokane Reservation for the use of tribal land for the production of hydropower by the Grand Coulee Dam, and for other purposes; to the Committee on Indian Affairs.

SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mr. REID:

S. Res. 407. A resolution relative to the death of Representative Julia Carson, of Indiana; considered and agreed to.

By Mr. CHAMBLISS (for himself and Mr. ISAKSON):

S. Res. 408. A resolution congratulating the Valdosta State University football team on winning the 2007 Division II National Championship; considered and agreed to.

ADDITIONAL COSPONSORS

S. 821

At the request of Mr. SPECTER, his name was added as a cosponsor of S. 821, a bill to amend section 402 of the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 to provide for an extension of eligibility for supplemental security income through fiscal year 2010 for refugees, asylees, and certain other humanitarian immigrants.

S. 1183

At the request of Mr. HARKIN, the name of the Senator from Minnesota (Ms. KLOBUCHAR) was added as a cosponsor of S. 1183, a bill to enhance and further research into paralysis and to improve rehabilitation and the quality of life for persons living with paralysis and other physical disabilities, and for other purposes.

S. 1780

At the request of Mr. ROCKEFELLER, the name of the Senator from Georgia (Mr. CHAMBLISS) was added as a cosponsor of S. 1780, a bill to require the FCC, in enforcing its regulations concerning the broadcast of indecent programming, to maintain a policy that a single word or image may be considered indecent.

S. 1963

At the request of Mr. ROCKEFELLER, the name of the Senator from Massachusetts (Mr. KERRY) was added as a cosponsor of S. 1963, a bill to amend the Internal Revenue Code of 1986 to allow bonds guaranteed by the Federal home loan banks to be treated as tax exempt bonds.

S. 2020

At the request of Mr. LUGAR, the name of the Senator from Connecticut (Mr. LIEBERMAN) was added as a cosponsor of S. 2020, a bill to reauthorize the Tropical Forest Conservation Act of 1998 through fiscal year 2010, to rename the Tropical Forest Conservation Act of 1998 as the "Tropical Forest and Coral Conservation Act of 2007", and for other purposes.

S. 2051

At the request of Mr. CONRAD, the name of the Senator from Minnesota (Ms. KLOBUCHAR) was added as a cosponsor of S. 2051, a bill to amend the small rural school achievement program and the rural and low-income school program under part B of title VI of the Elementary and Secondary Education Act of 1965.

S. 2119

At the request of Mr. JOHNSON, the name of the Senator from Vermont (Mr. LEAHY) was added as a cosponsor of S. 2119, a bill to require the Secretary of the Treasury to mint coins in commemoration of veterans who became disabled for life while serving in the Armed Forces of the United States.

S. 2136

At the request of Mr. DURBIN, the name of the Senator from Rhode Island (Mr. REED) was added as a cosponsor of S. 2136, a bill to address the treatment of primary mortgages in bankruptcy, and for other purposes.

S. 2166

At the request of Mr. CASEY, the names of the Senator from Vermont (Mr. LEAHY), the Senator from New Jersey (Mr. MENENDEZ) and the Senator from Oregon (Mr. SMITH) were added as cosponsors of S. 2166, a bill to provide for greater responsibility in lending and expanded cancellation of debts owed to the United States and the international financial institutions by low-income countries, and for other purposes.

S. 2191

At the request of Mr. LIEBERMAN, the name of the Senator from Oregon (Mr. WYDEN) was added as a cosponsor of S. 2191, a bill to direct the Administrator of the Environmental Protection Agency to establish a program to decrease emissions of greenhouse gases, and for other purposes.

S. 2255

At the request of Mrs. HUTCHISON, the name of the Senator from Kansas (Mr. ROBERTS) was added as a cosponsor of S. 2255, a bill to amend the National Trails System Act to provide for studies of the Chisholm Trail and Great Western Trail to determine whether to add the trails to the National Trails System, and for other purposes.

S. 2257

At the request of Mr. KERRY, his name was added as a cosponsor of S. 2257, a bill to impose sanctions on officials of the State Peace and Development Council in Burma, to amend the Burmese Freedom and Democracy Act of 2003 to prohibit the importation of gemstones and hardwoods from Burma, to promote a coordinated international effort to restore civilian democratic rule to Burma, and for other purposes.

S. 2277

At the request of Mr. SMITH, the name of the Senator from Alaska (Ms. MURKOWSKI) was added as a cosponsor of S. 2277, a bill to amend the Internal Revenue Code of 1986 to increase the limitation on the issuance of qualified veterans' mortgage bonds for Alaska, Oregon, and Wisconsin and to modify the definition of qualified veteran.

S. 2278

At the request of Mr. DURBIN, the name of the Senator from New Jersey (Mr. LAUTENBERG) was added as a cosponsor of S. 2278, a bill to improve the prevention, detection, and treatment of community and healthcare-associated infections (CHAI), with a focus on antibiotic-resistant bacteria.

S. 2279

At the request of Mr. CASEY, his name was added as a cosponsor of S. 2279, a bill to combat international violence against women and girls.

S. 2332

At the request of Mr. DORGAN, the name of the Senator from New Jersey (Mr. MENENDEZ) was added as a cosponsor of S. 2332, a bill to promote transparency in the adoption of new media ownership rules by the Federal Communications Commission, and to establish an independent panel to make recommendations on how to increase the representation of women and minorities in broadcast media ownership.

S. 2352

At the request of Mr. JOHNSON, the names of the Senator from New Jersey (Mr. LAUTENBERG) and the Senator from Pennsylvania (Mr. SPECTER) were added as cosponsors of S. 2352, a bill to amend title XVIII of the Social Security Act to provide Medicare beneficiaries greater choice with regard to accessing hearing health services and benefits.

S. 2428

At the request of Mr. JOHNSON, his name was added as a cosponsor of S. 2428, a bill to direct the Secretary of Education to establish and maintain a public website through which individuals may find a complete database of available scholarships, fellowships, and other programs of financial assistance in the study of science, technology, engineering, and mathematics.

At the request of Mr. LIEBERMAN, his name was added as a cosponsor of S. 2428, supra.

S. 2450

At the request of Mr. SPECTER, the name of the Senator from South Carolina (Mr. GRAHAM) was added as a cosponsor of S. 2450, a bill to amend the Federal Rules of Evidence to address the waiver of the attorney-client privilege and the work product doctrine.

S. CON. RES. 53

At the request of Mr. NELSON of Florida, the name of the Senator from Wisconsin (Mr. FEINGOLD) was added as a cosponsor of S. Con. Res. 53, a concurrent resolution condemning the kidnapping and hostage-taking of 3 United States citizens for over 4 years by the Revolutionary Armed Forces of Colombia (FARC), and demanding their immediate and unconditional release.

At the request of Mr. ISAKSON, the name of the Senator from Colorado (Mr. ALLARD) was added as a cosponsor of S. Con. Res. 53, supra.

SUBMITTED RESOLUTIONS

SENATE RESOLUTION 407—RELATIVE TO THE DEATH OF REPRESENTATIVE JULIA CARSON, OF INDIANA

Mr. REID submitted the following resolution; which was considered and agreed to:

S. RES. 407

Resolved, That the Senate has heard with profound sorrow and deep regret the announcement of the death of the Honorable JULIA CARSON, late a Representative from the State of Indiana.

Resolved, That the Secretary communicate these resolutions to the House of Representatives and transmit an enrolled copy thereof to the family of the deceased.

Resolved, That when the Senate adjourns or recesses today, it stand adjourned or recessed as a further mark of respect to the memory of the deceased Representative.

SENATE RESOLUTION 408—CONGRATULATING THE VALDOSTA STATE UNIVERSITY FOOTBALL TEAM ON WINNING THE 2007 DIVISION II NATIONAL CHAMPIONSHIP

Mr. CHAMBLISS (for himself and Mr. ISAKSON) submitted the following resolution; which was considered and agreed to:

S. RES. 408

Whereas, on December 15, 2007, the Valdosta State University Blazers football team defeated Northwest Missouri State University by a score of 25-20 in Florence, Alabama, to win the 2007 National Collegiate Athletic Association (NCAA) Division II National Championship;

Whereas this victory gave Valdosta State University its 2nd football national championship title in 4 years;

Whereas Coach David Dean became only the 2nd 1st-year head coach in NCAA history to lead a team to the Division II title;

Whereas the Blazers finished the season with an impressive 13-1 record, including victories over Catawba College, the University of North Alabama, and California University of Pennsylvania in the playoffs to advance to the championship game against Northwest Missouri State University; and

Whereas 7 Valdosta State University players were named to the All-Gulf Conference team, including wide receiver Cedric Jones and safety Sherard Reynolds, who were also named to the All-American team: Now, therefore, be it

Resolved, That the Senate—

(1) congratulates and honors the Valdosta State University Blazers football team on winning the 2007 National Collegiate Athletic Association Division II National Championship;

(2) recognizes and commends the courage, hard work, and dedication displayed by the Valdosta State University football team and staff throughout the season in order to obtain this great honor; and

(3) commends Valdosta State University, the city of Valdosta, and all of the fans of the Blazers football team throughout the State of Georgia for their endless support of this special team throughout the 2007 championship season.

AMENDMENTS SUBMITTED AND PROPOSED

SA 3857. Mrs. FEINSTEIN (for herself, Mr. ROCKEFELLER, Mr. LEAHY, and Mr. NELSON, of Florida) submitted an amendment intended to be proposed by her to the bill S. 2248, to amend the Foreign Intelligence Surveillance Act of 1978, to modernize and streamline the provisions of that Act, and for other purposes; which was ordered to lie on the table.

SA 3858. Mrs. FEINSTEIN (for herself and Mr. NELSON, of Florida) submitted an amendment intended to be proposed by her to the bill S. 2248, supra; which was ordered to lie on the table.

SA 3859. Mr. CARDIN submitted an amendment intended to be proposed by him to the bill S. 2248, supra; which was ordered to lie on the table.

SA 3860. Mr. COBURN (for himself, Mr. DEMINT, Mr. MCCAIN, and Mr. KYL) submitted an amendment intended to be proposed by him to the bill H.R. 2764, making appropriations for the Department of State, foreign operations, and related programs for the fiscal year ending September 30, 2008, and for other purposes; which was ordered to lie on the table.

SA 3861. Mr. COBURN (for himself, Mr. BURR, Mr. MCCAIN, Mr. DEMINT, and Mr. KYL) submitted an amendment intended to be proposed by him to the bill H.R. 2764, supra; which was ordered to lie on the table.

SA 3862. Mr. LEAHY (for himself and Mr. KENNEDY) submitted an amendment intended to be proposed by him to the bill S. 2248, to amend the Foreign Intelligence Surveillance Act of 1978, to modernize and streamline the provisions of that Act, and for other purposes; which was ordered to lie on the table.

SA 3863. Mr. KENNEDY submitted an amendment intended to be proposed by him to the bill S. 2248, supra; which was ordered to lie on the table.

SA 3864. Mr. BURR submitted an amendment intended to be proposed by him to the bill H.R. 2764, making appropriations for the Department of State, foreign operations, and related programs for the fiscal year ending September 30, 2008, and for other purposes; which was ordered to lie on the table.

SA 3865. Mr. BURR submitted an amendment intended to be proposed by him to the bill H.R. 2764, supra; which was ordered to lie on the table.

SA 3866. Mr. SCHUMER submitted an amendment intended to be proposed by him to the bill S. 2248, to amend the Foreign Intelligence Surveillance Act of 1978, to modernize and streamline the provisions of that Act, and for other purposes; which was ordered to lie on the table.

SA 3867. Mr. DODD (for Mr. DORGAN) proposed an amendment to the bill S. 2096, to amend the Do-Not-Call Implementation Act to eliminate the automatic removal of telephone numbers registered on the Federal "do-not-call" registry.

SA 3868. Mr. DODD (for Mr. LEAHY (for himself, Mr. CORNYN, and Mr. KYL)) proposed an amendment to the bill H.R. 660, to amend title 18, United States Code, to protect judges, prosecutors, witnesses, victims, and their family members, and for other purposes.

SA 3869. Mr. DODD (for Mrs. FEINSTEIN) proposed an amendment to the bill H.R. 3690, to provide for the transfer of the Library of Congress police to the United States Capitol Police, and for other purposes.

TEXT OF AMENDMENTS

SA 3857. Mrs. FEINSTEIN (for herself, Mr. ROCKEFELLER, Mr. LEAHY, and Mr. NELSON of Florida) submitted an amendment intended to be proposed by her to the bill S. 2248, to amend the Foreign Intelligence Surveillance Act of 1978, to modernize and streamline the provisions of that Act, and for other purposes; which was ordered to lie on the table; as follows:

Strike section 102, and insert the following:

SEC. 102. STATEMENT OF EXCLUSIVE MEANS BY WHICH ELECTRONIC SURVEILLANCE AND INTERCEPTION OF CERTAIN COMMUNICATIONS MAY BE CONDUCTED.

(a) STATEMENT OF EXCLUSIVE MEANS.—Title I of the Foreign Intelligence Surveillance Act of 1978 (50 U.S.C. 1801 et seq.) is amended by adding at the end the following new section:

"STATEMENT OF EXCLUSIVE MEANS BY WHICH ELECTRONIC SURVEILLANCE AND INTERCEPTION OF CERTAIN COMMUNICATIONS MAY BE CONDUCTED

"SEC. 112. (a) Except as provided in subsection (b), the procedures of chapters 119, 121 and 206 of title 18, United States Code, and this Act shall be the exclusive means by which electronic surveillance (as defined in section 101(f), regardless of the limitation of section 701) and the interception of domestic wire, oral, or electronic communications may be conducted.

"(b) Only an express statutory authorization for electronic surveillance or the interception of domestic, wire, oral, or electronic communications, other than as an amendment to this Act or chapters 119, 121, or 206 of title 18, United States Code, shall constitute an additional exclusive means for the purpose of subsection (a).".

(b) OFFENSE.—Section 109 of the Foreign Intelligence Surveillance Act of 1978 (50 U.S.C. 1809) is amended—

(1) in subsection (a), by striking "authorized by statute" each place it appears in such section and inserting "authorized by this Act, chapter 119, 121, or 206 of title 18, United States Code, or any express statutory authorization that is an additional exclusive means for conducting electronic surveillance under section 112."; and

(2) by adding at the end the following:

"(e) DEFINITION.—For the purpose of this section, the term 'electronic surveillance' means electronic surveillance as defined in section 101(f) of this Act regardless of the limitation of section 701 of this Act.".

(c) CONFORMING AMENDMENTS.—

(1) TITLE 18, UNITED STATES CODE.—Section 2511(2) of title 18, United States Code, is amended—

(A) in paragraph (a), by adding at the end the following:

"(iii) If a certification under subparagraph (ii)(B) for assistance to obtain foreign intelligence information is based on statutory authority, the certification shall identify the specific statutory provision, and shall certify that the statutory requirements have been met."; and

(B) in paragraph (f), by striking ", as defined in section 101 of such Act," and inserting "(as defined in section 101(f) of such Act regardless of the limitation of section 701 of such Act)".

(2) TABLE OF CONTENTS.—The table of contents in the first section of the Foreign Intelligence Surveillance Act of 1978 (50 U.S.C. 1801 et seq.) is amended by adding after the item relating to section 111, the following:

"Sec. 112. Statement of exclusive means by which electronic surveillance and interception of certain communications may be conducted.".

SA 3858. Mrs. FEINSTEIN (for herself and Mr. NELSON of Florida) submitted an amendment intended to be proposed by her to the bill S. 2248, to amend the Foreign Intelligence Surveillance Act of 1978, to modernize and streamline the provisions of that Act, and for other purposes; which was ordered to lie on the table; as follows:

On page 46, strike line 5 and all that follows through page 47, line 16, and insert the following:

(6) FOREIGN INTELLIGENCE SURVEILLANCE COURT.—The term "Foreign Intelligence Surveillance Court" means the court established under section 103(a) of the Foreign Intelligence Surveillance Act of 1978 (50 U.S.C. 1803(a)).

SEC. 202. LIMITATIONS ON CIVIL ACTIONS FOR ELECTRONIC COMMUNICATION SERVICE PROVIDERS.

(a) LIMITATIONS.—

(1) IN GENERAL.—Notwithstanding any other provision of law, and subject to paragraph (2), a covered civil action shall not lie or be maintained in a Federal or State court, and shall be promptly dismissed, if the Attorney General certifies to the court that—

(A) the assistance alleged to have been provided by the electronic communication service provider was—

(i) in connection with an intelligence activity involving communications that was—

(I) authorized by the President during the period beginning on September 11, 2001, and ending on January 17, 2007; and

(II) designed to detect or prevent a terrorist attack, or activities in preparation for a terrorist attack, against the United States; and

(ii) described in a written request or directive from the Attorney General or the head of an element of the intelligence community (or the deputy of such person) to the electronic communication service provider indicating that the activity was—

(I) authorized by the President; and

(II) determined to be lawful; or

(B) the electronic communication service provider did not provide the alleged assistance.

(2) DETERMINATION.—

(A) IN GENERAL.—The dismissal of a covered civil action under paragraph (1) shall proceed only if, after review, the Foreign Intelligence Surveillance Court determines that—

(i) the written request or directive from the Attorney General or the head of an element of the intelligence community (or the deputy of such person) to the electronic communication service provider under paragraph (1)(A)(ii) complied with section 2511(2)(a)(ii)(B) of title 18, United States Code;

(ii) the assistance alleged to have been provided was undertaken in good faith by the electronic communication service provider pursuant to a demonstrable reason to believe that compliance with the written request or directive under paragraph (1)(A)(ii) was permitted by law; or

(iii) the electronic communication service provider did not provide the alleged assistance.

(B) PROCEDURES.—In reviewing certifications and making determinations under subparagraph (A), the Foreign Intelligence Surveillance Court shall—

(i) review and make any such determination en banc; and

(ii) permit any plaintiff and any defendant in the applicable covered civil action to appear before the Foreign Intelligence Surveillance Court—

(I) pursuant to section 103 of the Foreign Intelligence Surveillance Act of 1978 (50 U.S.C. 1803); and

(II) as necessary to serve justice.

(C) CERTIFICATION.—If the Attorney General submits a certification under paragraph (1), the court to which that certification is submitted shall—

(i) immediately transfer the matter to the Foreign Intelligence Surveillance Court for a determination regarding the questions described in subparagraph (A); and

(ii) stay further proceedings in the relevant litigation, pending the determination of the Foreign Intelligence Surveillance Court.

SA 3859. Mr. CARDIN submitted an amendment intended to be proposed by him to the bill S. 2248, to amend the Foreign Intelligence Surveillance Act of 1978, to modernize and streamline the provisions of that Act, and for other purposes; which was ordered to lie on the table; as follows:

On page 29, line 4, strike "2013." and insert the following: "2011. Notwithstanding any other provision of this Act, the transitional procedures under paragraphs (2)(B) and (3)(B) of section 302(c) shall apply to any order, authorization, or directive, as the case may be, issued under title VII of the Foreign Intelligence Surveillance Act of 1978, as amended by this Act, in effect on December 31, 2011.".

SA 3860. Mr. COBURN (for himself, Mr. DEMINT, Mr. MCCAIN, and Mr. KYL) submitted an amendment intended to be proposed by him to the bill H.R. 2764, making appropriations for the Department of State, foreign operations, and related programs for the fiscal year ending September 30, 2008, and for

other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. ____. (a) This section may be cited as the "Safe Roads and Bridges Act of 2007".

(b) Notwithstanding any other provision of this Act, the Secretary of Transportation may reprogram any funds appropriated or otherwise made available under this Act for the Department of Transportation that are intended to be used for any congressionally directed spending item, as defined in section 521 of Honest Leadership and Open Government Act of 2007 (Public Law 110-81), for the purpose of improving roads or bridges that have been classified as "structurally deficient" or "functionally obsolete".

(c) Not later than September 30, 2008, the Secretary of Transportation shall submit to Congress a report that contains a summary of the any reprogramming of congressionally directed spending items under subsection (b) and a description of how such reprogrammed funds were utilized to improve structurally deficient or functionally obsolete roads and bridges. Such report shall be made publicly available on the Internet website of the Department of Transportation.

SA 3861. Mr. COBURN (for himself, Mr. BURR, Mr. MCCAIN, Mr. DEMINT, and Mr. KYL) submitted an amendment intended to be proposed by him to the bill H.R. 2764, making appropriations for the Department of State, foreign operations, and related programs for the fiscal year ending September 30, 2008, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. ____. (a) This section may be cited as the "Women and Children's Health Care First Act of 2007".

(b) Notwithstanding any other provision of this Act, the Secretary of Health and Human Services may reprogram any funds appropriated or otherwise made available under this Act for the Department of Health and Human Services that are intended to be used for any congressionally directed spending item, as defined in section 521 of Honest Leadership and Open Government Act of 2007 (Public Law 110-81), for the Maternal and Child Health Block Grant.

(c) Not later than September 30, 2008, the Secretary of Health and Human Services shall submit to Congress a report that contains a summary of the any reprogramming of congressionally directed spending items under subsection (b) and a description of how such reprogrammed funds were utilized to improve the health of all mothers and children. Such report shall be made publicly available on the Internet website of the Department of Health and Human Services.

SA 3862. Mr. LEAHY (for himself and Mr. KENNEDY) submitted an amendment intended to be proposed by him to the bill S. 2248, to amend the Foreign Intelligence Surveillance Act of 1978, to modernize and streamline the provisions of that Act, and for other purposes; which was ordered to lie on the table; as follows:

On page 43, after line 21, add the following:

SEC. 111. REVIEW OF PREVIOUS ACTIONS.

(a) DEFINITIONS.—In this section:

(1) APPROPRIATE COMMITTEES OF CONGRESS.—The term "appropriate committees of Congress" means—

(A) the Select Committee on Intelligence and the Committee on the Judiciary of the Senate; and

(B) the Permanent Select Committee on Intelligence and the Committee on the Judiciary of the House of Representatives.

(2) TERRORIST SURVEILLANCE PROGRAM AND PROGRAM.—The terms "Terrorist Surveillance Program" and "Program" mean the intelligence activity involving communications that was authorized by the President during the period beginning on September 11, 2001, and ending on January 17, 2007.

(b) REVIEWS.—

(1) REQUIREMENT TO CONDUCT.—The Inspectors General of the Office of the Director of National Intelligence, the Department of Justice, the National Security Agency, and any other element of the intelligence community that participated in the Terrorist Surveillance Program shall work in conjunction to complete a comprehensive review of, with respect to the oversight authority and responsibility of each such Inspector General—

(A) all of the facts necessary to describe the establishment, implementation, product, and use of the product of the Program;

(B) the procedures and substance of, and access to, the legal reviews of the Program;

(C) communications with, and participation of, individuals and entities in the private sector related to the Program;

(D) interaction with the Foreign Intelligence Surveillance Court and transition to court orders related to the Program; and

(E) any other matters identified by any such Inspector General that would enable that Inspector General to report a complete description of the Program, with respect to such element.

(2) COOPERATION.—Each Inspector General required to conduct a review under paragraph (1) shall—

(A) work in conjunction, to the extent possible, with any other Inspector General required to conduct such a review; and

(B) utilize to the extent practicable, and not unnecessarily duplicate or delay, such reviews or audits that have been completed or are being undertaken by any such Inspector General or by any other office of the Executive Branch related to the Program.

(c) REPORTS.—

(1) PRELIMINARY REPORTS.—Not later than 60 days after the date of the enactment of this Act, the Inspectors General of the Office of the Director of National Intelligence, the Department of Justice, and the National Security Agency, in conjunction with any other Inspector General required to conduct a review under subsection (b)(1), shall submit to the appropriate committees of Congress an interim report that describes the planned scope of such review.

(2) FINAL REPORT.—Not later than 1 year after the date of the enactment of this Act, the Inspectors General required to conduct such a review shall submit to the appropriate committees of Congress, to the extent practicable, a comprehensive report on such reviews that includes any recommendations of any such Inspectors General within the oversight authority and responsibility of any such Inspector General with respect to the reviews.

(3) FORM.—A report submitted under this subsection shall be submitted in unclassified form, but may include a classified annex. The unclassified report shall not disclose the name or identity of any individual or entity of the private sector that participated in the Program or with whom there was communication about the Program.

(d) RESOURCES.—

(1) EXPEDITED SECURITY CLEARANCE.—The Director of National Intelligence shall ensure that the process for the investigation and adjudication of an application by an Inspector General or any appropriate staff of an Inspector General for a security clearance necessary for the conduct of the review under subsection (b)(1) is carried out as expeditiously as possible.

(2) ADDITIONAL LEGAL AND OTHER PERSONNEL FOR THE INSPECTORS GENERAL.—An Inspector General required to conduct a review under subsection (b)(1) and submit a report under subsection (c) is authorized to hire such additional legal or other personnel as may be necessary to carry out such review and prepare such report in a prompt and timely manner. Personnel authorized to be hired under this paragraph—

(A) shall perform such duties relating to such a review as the relevant Inspector General shall direct; and

(B) are in addition to any other personnel authorized by law.

SA 3863. Mr. KENNEDY submitted an amendment intended to be proposed by him to the bill S. 2248, to amend the Foreign Intelligence Surveillance Act of 1978, to modernize and streamline the provisions of that Act, and for other purposes; which was ordered to lie on the table; as follows:

On page 6, line 20, strike "and" and all that follows through page 19, line 16, and insert the following:

"(3) shall be conducted in a manner consistent with the fourth amendment to the Constitution of the United States; and

"(4) shall not intentionally acquire any communication as to which the sender and all intended recipients are known at the time of the acquisition to be located in the United States.

"(c) UNITED STATES PERSONS LOCATED OUTSIDE THE UNITED STATES.—

"(1) ACQUISITION INSIDE THE UNITED STATES OF UNITED STATES PERSONS OUTSIDE THE UNITED STATES.—An acquisition authorized by subsection (a) that occurs inside the United States may not target a United States person except in accordance with the provisions of title I.

"(2) ACQUISITION OUTSIDE THE UNITED STATES OF UNITED STATES PERSONS OUTSIDE THE UNITED STATES.—An acquisition by an electronic, mechanical, or other surveillance device outside the United States may not intentionally target a United States person reasonably believed to be outside the United States to acquire the contents of a wire or radio communication sent by or intended to be received by that United States person under circumstances in which a person has a reasonable expectation of privacy and a warrant would be required for law enforcement purposes if the technique were used inside the United States unless—

"(A) the Attorney General or the Attorney General's designee submits an application to the Foreign Intelligence Surveillance Court that includes a statement of the facts and circumstances relied upon by the applicant to justify the Attorney General's belief that the target of the acquisition is a foreign power or an agent of a foreign power; and

"(B) the Foreign Intelligence Surveillance Court—

"(i) finds on the basis of the facts submitted by the applicant there is probable cause to believe that the target of the electronic surveillance is a foreign power or an agent of a foreign power; and "(ii) issues an ex parte order as requested or as modified approving the targeting of that United States person.

"(3) PROCEDURES.—

"(A) SUBMITTAL TO FOREIGN INTELLIGENCE SURVEILLANCE COURT.—Not later than 30 days after the date of the enactment of this title, the Attorney General shall submit to the Foreign Intelligence Surveillance Court the procedures to be utilized in determining whether a target reasonably believed to be outside the United States is a United States person.

"(B) APPROVAL BY FOREIGN INTELLIGENCE SURVEILLANCE COURT.—The procedures submitted under subparagraph (A) shall be utilized as described in that subparagraph only upon the approval of the Foreign Intelligence Surveillance Court.

"(C) UTILIZATION IN TARGETING.—Any targeting of persons authorized by subsection (a) shall utilize the procedures submitted under subparagraph (A) as approved by the Foreign Intelligence Surveillance Court under subparagraph (B).

"(d) CONDUCT OF ACQUISITION.—An acquisition authorized under subsection (a) may be conducted only in accordance with—

"(1) a certification made by the Attorney General and the Director of National Intelligence pursuant to subsection (g); and

"(2) the targeting and minimization procedures required pursuant to subsections (e) and (f).

"(e) TARGETING PROCEDURES.—

"(1) REQUIREMENT TO ADOPT.—The Attorney General, in consultation with the Director of National Inteliigence, shall adopt targeting procedures that are reasonably designed to ensure that any acquisition authorized under subsection (a) is limited to targeting persons reasonably believed to be located outside the United States and does not result in the intentional acquisition of any communication as to which the sender and all intended recipients are known at the time of the acquisition to be located in the United States.

"(2) JUDICIAL REVIEW.—The procedures referred to in paragraph (1) shall be subject to judicial review pursuant to subsection (i).

"(f) MINIMIZATION PROCEDURES.—

"(1) REQUIREMENT TO ADOPT.—The Attorney General, in consultation with the Director of National Intelligence, shall adopt, consistent with the requirements of section 101(h), minimization procedures for acquisitions authorized under subsection (a).

"(2) PERSONS IN THE UNITED STATES.—The minimization procedures required by this subsection shall require the destruction, upon recognition, of any communication as to which the sender and all intended recipients are known to be located in the United States, a person has a reasonable expectation of privacy, anda warrant would be required for law enforcement purposes, unless the Attorney General determines that the communication indicates a threat of death or serious bodily harm to any person.

"(3) JUDICIAL REVIEW.—The minimization procedures required by this subsection shall be subject to judicial review pursuant to subsection (i).

"(g) CERTIFICATION.—

"(1) IN GENERAL.—

"(A) REQUIREMENT.—Subject to subparagraph (B), prior to the initiation of an acquisition authorized under subsection (a), the Attorney General and the Director of National Intelligence shall provide, under oath, a written certification, as described in this subsection.

"(B) EXCEPTION.—If the Attorney General and the Director of National Intelligence determine that immediate action by the Government is required and time does not permit the preparation of a certification under this subsection prior to the initiation of an acquisition, the Attorney General and the Director of National Intelligence shall prepare such certification, including such determination, as soon as possible but in no event more than 168 hours after such determination is made.

"(2) REQUIREMENTS.—A certification made under this subsection shall—

"(A) attest that—

"(i) there are reasonable procedures in place for determining that the acquisition authorized under subsection (a) is targeted at persons reasonably believed to be located outside the United States, and does not result in the intentional acquisition of any communication as to which the sender and all intended recipients are known at the time of the acquisition to be located in the United States, and that such procedures have been approved by, or will promptly be submitted for approval by, the Foreign Intelligence Surveillance Court pursuant to subsection (i);

"(ii) the procedures referred to in clause (i) are consistent with the requirements of the fourth amendment to the Constitution of the United States and do not permit the intentional targeting of any person who is known at the time of acquisition to be located in the United States, or result in the intentional acquisition of any communication as to which the sender and all intended recipients are known at the time of the acquisition to be located in the United States;

"(iii) a significant purpose of the acquisition is to obtain foreign intelligence information;

"(iv) the minimization procedures to be used with respect to such acquisition—

"(I) meet the definition of minimization procedures under section 101(h);

"(II) require the destruction, upon recognition, of any communication as to which the sender and all intended recipients are known to be located in the United States, a person has a reasonable expectation of privacy, and a warrant would be required for law enforcement purposes, unless the Attorney General determines that the communication indicates a threat of death or serious bodily harm to any person; and

"(III) have been approved by, or will promptly be submitted for approval by, the Foreign Intelligence Surveillance Court pursuant to subsection (i);

"(v) the acquisition involves obtaining the foreign intelligence information from or with the assistance of an electronic communication service provider; and

"(vi) the acquisition does not constitute electronic surveillance, as limited by section 701; and

"(B) be supported, as appropriate, by the affidavit of any appropriate official in the area of national security who is—

"(i) appointed by the President, by and with the consent of the Senate; or

"(ii) the head of any element of the intelligence community.

"(3) LIMITATION.—A certification made under this subsection is not required to identify the specific facilities, places, premises, or property at which the acquisition authorized under subsection (a) will be directed or conducted.

"(4) SUBMISSION TO THE COURT.—The Attorney General shall transmit a copy of a certification made under this subsection, and any supporting affidavit, under seal to the Foreign Intelligence Surveillance Court as soon as possible, but in no event more than 5 days after such certification is made. Such certification shall be maintained under security measures adopted by the Chief Justice of the United States and the Attorney General, in consultation with the Director of National Intelligence.

"(5) REVIEW.—The certification required by this subsection shall be subject to judicial review pursuant to subsection (i).

"(h) DIRECTIVES.—

"(1) AUTHORITY.—With respect to an acquisition authorized under subsection (a), the Attorney General and the Director of National Intelligence may direct, in writing, an electronic communication service provider to—

"(A) immediately provide the Government with all information, facilities, or assistance necessary to accomplish the acquisition in a manner that will protect the secrecy of the acquisition and produce a minimum of interference with the services that such electronic communication service provider is providing to the target; and

"(B) maintain under security procedures approved by the Attorney General and the Director of National Intelligence any records concerning the acquisition or the aid furnished that such electronic communication service provider wishes to maintain.

"(2) COMPENSATION.—The Government shall compensate, at the prevailing rate, an electronic communication service provider for providing information, facilities, or assistance pursuant to paragraph (1).

"(3) RELEASE FROM LIABILITY.—Notwithstanding any other law, no cause of action shall lie in any court against any electronic communication service provider for providing any information, facilities, or assistance in accordance with a directive issued pursuant to paragraph (1).

"(4) CHALLENGING OF DIRECTIVES.—

"(A) AUTHORITY TO CHALLENGE.—An electronic communication service provider receiving a directive issued pursuant to paragraph (1) may challenge the directive by filing a petition with the Foreign Intelligence Surveillance Court.

"(B) ASSIGNMENT.—The presiding judge of the Court shall assign the petition filed under subparagraph (A) to 1 of the judges serving in the pool established by section 103(e)(1) not later than 24 hours after the filing of the petition.

"(C) STANDARDS FOR REVIEW.—A judge considering a petition to modify or set aside a directive may grant such petition only if the judge finds that the directive does not meet the requirements of this section or is otherwise unlawful. If the judge does not modify or set aside the directive, the judge shall immediately affirm such directive, and order the recipient to comply with the directive. The judge shall provide a written statement for the record of the reasons for a determination under this paragraph.

"(D) CONTINUED EFFECT.—Any directive not explicitly modified or set aside under this paragraph shall remain in full effect.

"(5) ENFORCEMENT OF DIRECTIVES.—

"(A) ORDER TO COMPEL.—In the case of a failure to comply with a directive issued pursuant to paragraph (1), the Attorney General may file a petition for an order to compel compliance with the directive with the Foreign Intelligence Surveillance Court.

"(B) ASSIGNMENT.—The presiding judge of the Court shall assign a petition filed under subparagraph (A) to 1 of the judges serving in the pool established by section 103(e)(1) not later than 24 hours after the filing of the petition.

"(C) STANDARDS FOR REVIEW.—A judge considering a petition shall issue an order requiring the electronic communication service provider to comply with the directive if the judge finds that the directive was issued in accordance with paragraph (1), meets the requirements of this section, and is otherwise lawful. The judge shall provide a written statement for the record of the reasons for a determination under this paragraph.

"(D) CONTEMPT OF COURT.—Failure to obey an order of the Court issued under this paragraph may be punished by the Court as contempt of court.

"(E) PROCESS.—Any process under this paragraph may be served in any judicial district in which the electronic communication service provider may be found.

"(6) APPEAL.—

"(A) APPEAL TO THE COURT OF REVIEW.—The Government or an electronic communication service provider receiving a directive issued pursuant to paragraph (1) may file a petition with the Foreign Intelligence Surveillance Court of Review for review of the decision issued pursuant to paragraph (4) or (5) not later than 7 days after the issuance of such decision. The Court of Review shall have jurisdiction to consider such a petition and shall provide a written statement for the record of the reasons for a decision under this paragraph.

"(B) CERTIORARI TO THE SUPREME COURT.—The Government or an electronic communication service provider receiving a directive issued pursuant to paragraph (1) may file a petition for a writ of certiorari for review of the decision of the Court of Review issued under subparagraph (A). The record for such review shall be transmitted under seal to the Supreme Court of the United States, which shall have jurisdiction to review such decision.

"(i) JUDICIAL REVIEW.—

"(1) IN GENERAL.—

"(A) REVIEW BY THE FOREIGN INTELLIGENCE SURVEILLANCE COURT.—The Foreign Intelligence Surveillance Court shall have jurisdiction to review any certification required by subsection (d) or targeting and minimization procedures adopted pursuant to subsections (e) and (f).

"(B) SUBMISSION TO THE COURT.—The Attorney General shall submit to the Court any such certification or procedure, or amendment thereto, not later than 5 days after making or amending the certification or adopting or amending the procedures.

"(2) CERTIFICATIONS.—The Court shall review a certification provided under subsection (g) to determine whether the certification contains all the required elements.

"(3) TARGETING PROCEDURES.—The Court shall review the targeting procedures required by subsection (e) to assess whether the procedures are reasonably designed to ensure that the acquisition authorized under subsection (a) is limited to the targeting of persons reasonably believed to be located outside the United States and does not result in the intentional acquisition of any communication as to which the sender and all intended recipients are known at the time of the acquisition to be located in the United States.

"(4) MINIMIZATION PROCEDURES.—The Court shall review the minimization procedures required by subsection (f) to assess whether such procedures—

"(A) meet the definition of minimization procedures under section 101(h); and

"(B) require the destruction, upon recognition, of any communication as to which the sender and all intended recipients are known to be located in the United States, a person has a reasonable expectation of privacy, and a warrant would be required for law enforcement purposes, unless the Attorney General determines that the communication indicates a threat of death or serious bodily harm to any person.

SA 3864. Mr. BURR submitted an amendment intended to be proposed by him to the bill H.R. 2764, making appropriations for the Department of State, foreign operations, and related programs for the fiscal year ending September 30, 2008, and for other purposes; which was ordered to lie on the table; as follows:

In Division G, on page 71, line 10, strike "$666,087,000" and insert "$751,087,000".

In Division G, on page 71, line 14, strike "$103,921,000" and insert "$188,921,000".

In Division G, on page 88, between lines 13 and 14, insert the following:

SEC. ___. Notwithstanding any other provision of this Act, amounts appropriated in this Act for the administration and related expenses for the departmental management of the Department of Labor, the Department of Health and Human Services, and the Department of Education shall be reduced by a pro rata percentage required to reduce the total amount appropriated in this Act by $85,000,000.

SA 3865. Mr. BURR submitted an amendment intended to be proposed by him to the bill H.R. 2764, making appropriations for the Department of State, foreign operations, and related programs for the fiscal year ending September 30, 2008, and for other purposes; which was ordered to lie on the table; as follows:

In Division G, on page 71, line 10, strike "$666,087,000" and insert "$751,087,000".

In Division G, on page 71, line 14, strike "$103,921,000" and insert "$188,921,000".

In Division G, on page 88, between lines 13 and 14, insert the following:

SEC. ___. Notwithstanding any other provision of this Act, amounts appropriated in this Act for the administration and related expenses for the departmental management of the Department of Labor, the Department of Health and Human Services, and the Department of Education shall be reduced by a pro rata percentage required to reduce the total amount appropriated in this Act by $85,000,000.

SA 3866. Mr. SCHUMER submitted an amendment intended to be proposed by him to the bill S. 2248, to amend the Foreign Intelligence Surveillance Act of 1978, to modernize and streamline the provisions of that Act, and for other purposes; which was ordered to lie on the table; as follows:

On page 43, after line 21, add the following:

SEC. 111. STANDING AND CAUSE OF ACTION FOR PERSONS WHO REFRAIN FROM COMMUNICATIONS BY REASON OF FEAR OF ELECTRONIC SURVEILLANCE.

(a) STANDING AND CAUSE OF ACTION.—A United States citizen shall have standing to bring a cause of action for damages (as specified in subsection (d)) or declaratory or injunctive relief against the United States if that individual has refrained or is refraining from communications because of a reasonable fear that such communications would be the subject of electronic surveillance conducted without an order issued in accordance with title I of the Foreign Intelligence Surveillance Act of 1978 (50 U.S.C. 1801 et seq.) or a joint authorization by the Attorney General and the Director of National Intelligence issued in accordance with title VII of the Foreign Intelligence Surveillance Act of 1978, as added by this Act, under a claim of Presidential authority under either the Constitution of the United States or the Authorization for Use of Military Force (Public Law 107-40; 115 Stat. 224; 50 U.S.C. 1541 note).

(b) RULES APPLICABLE TO ACTIONS.—In any civil action filed under subsection (a), the following shall apply:

(1) The action shall be filed in the United States District Court for the District of Columbia and shall be heard by a 3-judge court convened under section 2284 of title 28, United States Code.

(2) A copy of the complaint shall be delivered promptly to the Attorney General, the Clerk of the House of Representatives, and the Secretary of the Senate.

(3) A reasonable fear that communications will be the subject of electronic surveillance may be established by evidence that the person bringing the action—

(A) has had and intends to continue to have regular communications from the United States to one or more persons in Afghanistan, Iraq, Pakistan, or any country designated as a state sponsor of terrorism in the course of that person's paid employment doing journalistic, academic, or other research pertaining to terrorism or terrorist groups; or

(B) has engaged and intends to continue to engage in one or more commercial transactions with a bank or other financial institution in a country described in subparagraph (A).

(4) The procedures and standards of the Classified Information Procedures Act (18 U.S.C. App.) shall apply to the action.

(5) A final decision in the action shall be reviewable only by appeal directly to the Supreme Court of the United States. Such appeal shall be taken by the filing of a notice of appeal within 10 days, and the filing of a jurisdictional statement within 30 days, after the entry of the final decision.

(6) It shall be the duty of the United States District Court for the District of Columbia and the Supreme Court of the United States to advance on the docket and to expedite to the greatest possible extent the disposition of the action and appeal.

(c) MOOTNESS.—In any civil action filed under subsection (a) for declaratory or injunctive relief, a defendant's claim that the surveillance activity has been terminated may not be grounds for dismissing the case, unless the Attorney General files a declaration under section 1746 of title 28, United States Code, affirming that—

(1) the surveillance described in subsection (a) has ceased; and

(2) the executive branch of the Federal Government does not have legal authority to renew the surveillance described in subsection (a).

(d) LIMITATION OF DAMAGES.—In any civil action filed under subsection (a), a prevailing plaintiff shall recover—

(1) damages for injuries arising from a reasonable fear caused by the electronic surveillance described in subsection (a) of not less than $50 and not more than $1000; and

(2) reasonable attorney's fees and other investigation and litigation costs reasonably incurred relating to that civil action.

(e) SEVERABILITY.—If any provision of this section, or the application thereof to any person or circumstances is held invalid, the validity of the remainder of the Act, any such amendments, and of the application of such provisions to other persons and circumstances shall not be affected thereby.

(f) RULES OF CONSTRUCTION.—Nothing in this section may be construed to—

(1) affect a cause of action filed before the date of enactment of this Act;

(2) limit any cause of action available to a person under any other provision of law, including the Foreign Intelligence Surveillance Act of 1978 (50 U.S.C. 1801 et seq.); or

(3) limit the relief that may be awarded under any other provision of law, including the Foreign Intelligence Surveillance Act of 1978 (50 U.S.C. 1801 et seq.).

(g) DEFINITION.—In this section, the term "electronic surveillance" has the meaning given that term in section 101 of the Foreign Intelligence Surveillance Act of 1978 (50 U.S.C. 1801).

SA 3867. Mr. DODD (for Mr. DORGAN) proposed an amendment to the bill S. 2096, to amend the Do-Not-Call Implementation Act to eliminate the automatic removal of telephone numbers registered on the Federal "do-not-call" registry; as follows:

At the end of the bill, add the following:

SEC. 3. REPORT ON ACCURACY.

Not later than 9 months after the enactment of this Act, the Federal Trade Commission shall report to the Congress on efforts taken by the Commission, after the date of enactment of this Act, to improve the accuracy of the "do-not-call" Registry.

SA 3868. Mr. DODD (for Mr. LEAHY (for himself, Mr. CORNYN, and Mr. KYL)) proposed an amendment to the bill H.R. 660, to amend title 18, United States Code, to protect judges, prosecutors, witnesses, victims, and their family members, and for other purposes; as follows:

Strike all after the enacting clause and insert the following:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Court Security Improvement Act of 2007".

TITLE I—JUDICIAL SECURITY IMPROVEMENTS AND FUNDING

SEC. 101. JUDICIAL BRANCH SECURITY REQUIREMENTS.

(a) ENSURING CONSULTATION WITH THE JUDICIARY.—Section 566 of title 28, United States Code, is amended by adding at the end the following:

"(i) The Director of the United States Marshals Service shall consult with the Judicial Conference of the United States on a continuing basis regarding the security requirements for the judicial branch of the United States Government, to ensure that the views of the Judicial Conference regarding the security requirements for the judicial branch of the Federal Government are taken into account when determining staffing levels, setting priorities for programs regarding judicial security, and allocating judicial security resources. In this paragraph, the term 'judicial security' includes the security of buildings housing the judiciary, the personal security of judicial officers, the assessment of threats made to judicial officers, and the protection of all other judicial personnel. The United States Marshals Service retains final authority regarding security requirements for the judicial branch of the Federal Government.".

(b) CONFORMING AMENDMENT.—Section 331 of title 28, United States Code, is amended by adding at the end the following:

"The Judicial Conference shall consult with the Director of United States Marshals Service on a continuing basis regarding the security requirements for the judicial branch of the United States Government, to ensure that the views of the Judicial Conference regarding the security requirements for the judicial branch of the Federal Government are taken into account when determining staffing levels, setting priorities for programs regarding judicial security, and allocating judicial security resources. In this paragraph, the term 'judicial security' includes the security of buildings housing the judiciary, the personal security of judicial officers, the assessment of threats made to judicial officers, and the protection of all other judicial personnel. The United States Marshals Service retains final authority regarding security requirements for the judicial branch of the Federal Government.".

SEC. 102. PROTECTION OF UNITED STATES TAX COURT.

(a) IN GENERAL.—Section 566(a) of title 28, United States Code, is amended by striking "and the Court of International Trade" and inserting ", the Court of International Trade, and the United States Tax Court, as provided by law".

(b) INTERNAL REVENUE CODE.—Section 7456(c) of the Internal Revenue Code of 1986 (relating to incidental powers of the Tax Court) is amended in the matter following paragraph (3), by striking the period at the end, and inserting "and may otherwise provide, when requested by the chief judge of the Tax Court, for the security of the Tax Court, including the personal protection of Tax Court judges, court officers, witnesses, and other threatened persons in the interests of justice, where criminal intimidation impedes on the functioning of the judicial process or any other official proceeding. The United States Marshals Service retains final authority regarding security requirements for the Tax Court.".

(c) REIMBURSEMENT.—The United States Tax Court shall reimburse the United States Marshals Service for protection provided under the amendments made by this section.

SEC. 103. ADDITIONAL AMOUNTS FOR UNITED STATES MARSHALS SERVICE TO PROTECT THE JUDICIARY.

In addition to any other amounts authorized to be appropriated for the United States Marshals Service, there are authorized to be appropriated for the United States Marshals Service $20,000,000 for each of fiscal years 2007 through 2011 for—

(1) hiring entry-level deputy marshals for providing judicial security;

(2) hiring senior-level deputy marshals for investigating threats to the judiciary and providing protective details to members of the judiciary, assistant United States attorneys, and other attorneys employed by the Federal Government; and

(3) for the Office of Protective Intelligence, for hiring senior-level deputy marshals, hiring program analysts, and providing secure computer systems.

SEC. 104. FINANCIAL DISCLOSURE REPORTS.

Section 105(b)(3) of the Ethics in Government Act of 1978 (5 U.S.C. App) is amended by striking "2009" each place it appears and inserting "2011".

TITLE II—CRIMINAL LAW ENHANCEMENTS TO PROTECT JUDGES, FAMILY MEMBERS, AND WITNESSES

SEC. 201. PROTECTIONS AGAINST MALICIOUS RECORDING OF FICTITIOUS LIENS AGAINST FEDERAL JUDGES AND FEDERAL LAW ENFORCEMENT OFFICERS.

(a) OFFENSE.—Chapter 73 of title 18, United States Code, is amended by adding at the end the following:

"§ 1521. Retaliating against a Federal judge or Federal law enforcement officer by false claim or slander of title

"Whoever files, attempts to file, or conspires to file, in any public record or in any private record which is generally available to the public, any false lien or encumbrance against the real or personal property of an individual described in section 1114, on account of the performance of official duties by that individual, knowing or having reason to know that such lien or encumbrance is false or contains any materially false, fictitious, or fraudulent statement or representation, shall be fined under this title or imprisoned for not more than 10 years, or both.".

(b) CLERICAL AMENDMENT.—The chapter analysis for chapter 73 of title 18, United States Code, is amended by adding at the end the following new item:

"1521. Retaliating against a Federal judge or Federal law enforcement officer by false claim or slander of title.".

SEC. 202. PROTECTION OF INDIVIDUALS PERFORMING CERTAIN OFFICIAL DUTIES.

(a) OFFENSE.—Chapter 7 of title 18, United States Code, is amended by adding at the end the following:

"§ 119. Protection of individuals performing certain official duties

"(a) IN GENERAL.—Whoever knowingly makes restricted personal information about a covered person, or a member of the immediate family of that covered person, publicly available—

"(1) with the intent to threaten, intimidate, or incite the commission of a crime of violence against that covered person, or a member of the immediate family of that covered person; or

"(2) with the intent and knowledge that the restricted personal information will be used to threaten, intimidate, or facilitate the commission of a crime of violence against that covered person, or a member of the immediate family of that covered person,

shall be fined under this title, imprisoned not more than 5 years, or both.

"(b) DEFINITIONS.—In this section—

"(1) the term 'restricted personal information' means, with respect to an individual, the Social Security number, the home address, home phone number, mobile phone number, personal email, or home fax number of, and identifiable to, that individual;

"(2) the term 'covered person' means—

"(A) an individual designated in section 1114;

"(B) a grand or petit juror, witness, or other officer in or of, any court of the United States, or an officer who may be, or was, serving at any examination or other proceeding before any United States magistrate judge or other committing magistrate;

"(C) an informant or witness in a Federal criminal investigation or prosecution; or

"(D) a State or local officer or employee whose restricted personal information is made publicly available because of the participation in, or assistance provided to, a

Federal criminal investigation by that officer or employee;

"(3) the term 'crime of violence' has the meaning given the term in section 16; and

"(4) the term 'immediate family' has the meaning given the term in section 115(c)(2).".

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of chapter 7 of title 18, United States Code, is amended by adding at the end the following new item:

"119. Protection of individuals performing certain official duties.".

SEC. 203. PROHIBITION OF POSSESSION OF DANGEROUS WEAPONS IN FEDERAL COURT FACILITIES.

Section 930(e)(1) of title 18, United States Code, is amended by inserting "or other dangerous weapon" after "firearm".

SEC. 204. CLARIFICATION OF VENUE FOR RETALIATION AGAINST A WITNESS.

Section 1513 of title 18, United States Code, is amended by adding at the end the following:

"(g) A prosecution under this section may be brought in the district in which the official proceeding (whether pending, about to be instituted, or completed) was intended to be affected, or in which the conduct constituting the alleged offense occurred.".

SEC. 205. MODIFICATION OR TAMPERING WITH A WITNESS, VICTIM, OR AN INFORMANT OFFENSE.

Section 1512 of title 18, United States Code, is amended—

(1) in subsection (a)(3)—

(A) by amending subparagraph (A) to reads as follows:

"(A) in the case of a killing, the punishment provided in sections 1111 and 1112;";

(B) in the matter following clause (ii) of subparagraph (B) by striking "20 years" and inserting "30 years"; and

(C) in subparagraph (C), by striking "10 years" and inserting "20 years";

(2) in subsection (b), by striking "ten years" and inserting "20 years"; and

(3) in subsection (d), by striking "one year" and inserting "3 years".

SEC. 206. MODIFICATION OF RETALIATION OFFENSE.

Section 1513 of title 18, United States Code, is amended—

(1) in subsection (a)(1)(B)—

(A) by inserting a comma after "probation"; and

(B) by striking the comma which immediately follows another comma;

(2) in subsection (a)(2)(B), by striking "20 years" and inserting "30 years";

(3) in subsection (b)—

(A) in paragraph (2)—

(i) by inserting a comma after "probation"; and

(ii) by striking the comma which immediately follows another comma; and

(B) in the matter following paragraph (2), by striking "ten years" and inserting "20 years"; and

(4) by redesignating the second subsection (e) as subsection (f).

SEC. 207. GENERAL MODIFICATIONS OF FEDERAL MURDER CRIME AND RELATED CRIMES.

Section 1112(b) of title 18, United States Code, is amended—

(1) by striking "ten years" and inserting "15 years"; and

(2) by striking "six years" and inserting "8 years".

SEC. 208. ASSAULT PENALTIES.

(a) IN GENERAL.—Section 115(b) of title 18, United States Code, is amended by striking "(1)" and all that follows through the end of paragraph (1) and inserting the following:

"(1) The punishment for an assault in violation of this section is—

"(A) a fine under this title; and

"(B)(i) if the assault consists of a simple assault, a term of imprisonment for not more than 1 year;

"(ii) if the assault involved physical contact with the victim of that assault or the intent to commit another felony, a term of imprisonment for not more than 10 years;

"(iii) if the assault resulted in bodily injury, a term of imprisonment for not more than 20 years; or

"(iv) if the assault resulted in serious bodily injury (as that term is defined in section 1365 of this title, and including any conduct that, if the conduct occurred in the special maritime and territorial jurisdiction of the United States, would violate section 2241 or 2242 of this title) or a dangerous weapon was used during and in relation to the offense, a term of imprisonment for not more than 30 years.".

(b) CONFORMING AMENDMENT.—Section 111(a) of title 18, United States Code, is amended by striking "in all other cases" and inserting "where such acts involve physical contact with the victim of that assault or the intent to commit another felony".

SEC. 209. DIRECTION TO THE SENTENCING COMMISSION.

The United States Sentencing Commission is directed to review the Sentencing Guidelines as they apply to threats punishable under section 115 of title 18, United States Code, that occur over the Internet, and determine whether and by how much that circumstance should aggravate the punishment pursuant to section 994 of title 28, United States Code. In conducting the study, the Commission shall take into consideration the number of such threats made, the intended number of recipients of such threats, and whether the initial senders of such threats were acting in an individual capacity or as part of a larger group.

TITLE III—PROTECTING STATE AND LOCAL JUDGES AND RELATED GRANT PROGRAMS

SEC. 301. GRANTS TO STATES TO PROTECT WITNESSES AND VICTIMS OF CRIMES.

(a) IN GENERAL.—Section 31702 of the Violent Crime Control and Law Enforcement Act of 1994 (42 U.S.C. 13862) is amended—

(1) in paragraph (3), by striking "and" at the end;

(2) in paragraph (4), by striking the period at the end and inserting "; and"; and

(3) by adding at the end the following:

"(5) by a State, unit of local government, or Indian tribe to create and expand witness and victim protection programs to prevent threats, intimidation, and retaliation against victims of, and witnesses to, violent crimes.".

(b) AUTHORIZATION OF APPROPRIATIONS.—Section 31707 of the Violent Crime Control and Law Enforcement Act of 1994 (42 U.S.C. 13867) is amended to read as follows:

"SEC. 31707. AUTHORIZATION OF APPROPRIATIONS.

"There are authorized to be appropriated $20,000,000 for each of the fiscal years 2008 through 2012 to carry out this subtitle.".

SEC. 302. ELIGIBILITY OF STATE COURTS FOR CERTAIN FEDERAL GRANTS.

(a) CORRECTIONAL OPTIONS GRANTS.—Section 515 of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3762a) is amended—

(1) in subsection (a)—

(A) in paragraph (2), by striking "and" at the end;

(B) in paragraph (3), by striking the period and inserting "; and"; and

(C) by adding at the end the following:

"(4) grants to State courts to improve security for State and local court systems."; and

(2) in subsection (b), by adding at the end the following:

"Priority shall be given to State court applicants under subsection (a)(4) that have the greatest demonstrated need to provide security in order to administer justice.".

(b) ALLOCATIONS.—Section 516(a) of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3762b) is amended—

(1) by striking "80" and inserting "70";

(2) by striking "and 10" and inserting "10"; and

(3) by inserting before the period the following: ", and 10 percent for section 515(a)(4)".

(c) STATE AND LOCAL GOVERNMENTS TO CONSIDER COURTS.—The Attorney General may require, as appropriate, that whenever a State or unit of local government or Indian tribe applies for a grant from the Department of Justice, the State, unit, or tribe demonstrate that, in developing the application and distributing funds, the State, unit, or tribe—

(1) considered the needs of the judicial branch of the State, unit, or tribe, as the case may be;

(2) consulted with the chief judicial officer of the highest court of the State, unit, or tribe, as the case may be; and

(3) consulted with the chief law enforcement officer of the law enforcement agency responsible for the security needs of the judicial branch of the State, unit, or tribe, as the case may be.

(d) ARMOR VESTS.—Section 2501 of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3796ll) is amended—

(1) in subsection (a), by inserting "and State and local court officers" after "tribal law enforcement officers"; and

(2) in subsection (b)(1), by inserting "State or local court," after "government,".

SEC. 303. GRANTS TO STATES FOR THREAT ASSESSMENT DATABASES.

(a) IN GENERAL.—The Attorney General, through the Office of Justice Programs, shall make grants under this section to the highest State courts in States participating in the program, for the purpose of enabling such courts to establish and maintain a threat assessment database described in subsection (b).

(b) DATABASE.—For purposes of subsection (a), a threat assessment database is a database through which a State can—

(1) analyze trends and patterns in domestic terrorism and crime;

(2) project the probabilities that specific acts of domestic terrorism or crime will occur; and

(3) develop measures and procedures that can effectively reduce the probabilities that those acts will occur.

(c) CORE ELEMENTS.—The Attorney General shall define a core set of data elements to be used by each database funded by this section so that the information in the database can be effectively shared with other States and with the Department of Justice.

(d) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section $15,000,000 for each of fiscal years 2008 through 2011.

TITLE IV—LAW ENFORCEMENT OFFICERS

SEC. 401. REPORT ON SECURITY OF FEDERAL PROSECUTORS.

(a) IN GENERAL.—Not later than 90 days after the date of the enactment of this Act, the Attorney General shall submit to the

Committee on the Judiciary of the Senate and the Committee on the Judiciary of the House of Representatives a report on the security of assistant United States attorneys and other Federal attorneys arising from the prosecution of terrorists, violent criminal gangs, drug traffickers, gun traffickers, white supremacists, those who commit fraud and other white-collar offenses, and other criminal cases.

(b) Contents.—The report submitted under subsection (a) shall describe each of the following:

(1) The number and nature of threats and assaults against attorneys handling prosecutions described in subsection (a) and the reporting requirements and methods.

(2) The security measures that are in place to protect the attorneys who are handling prosecutions described in subsection (a), including threat assessments, response procedures, availability of security systems and other devices, firearms licensing (deputations), and other measures designed to protect the attorneys and their families.

(3) The firearms deputation policies of the Department of Justice, including the number of attorneys deputized and the time between receipt of threat and completion of the deputation and training process.

(4) For each requirement, measure, or policy described in paragraphs (1) through (3), when the requirement, measure, or policy was developed and who was responsible for developing and implementing the requirement, measure, or policy.

(5) The programs that are made available to the attorneys for personal security training, including training relating to limitations on public information disclosure, basic home security, firearms handling and safety, family safety, mail handling, counter-surveillance, and self-defense tactics.

(6) The measures that are taken to provide attorneys handling prosecutions described in subsection (a) with secure parking facilities, and how priorities for such facilities are established—

(A) among Federal employees within the facility;

(B) among Department of Justice employees within the facility; and

(C) among attorneys within the facility.

(7) The frequency attorneys handling prosecutions described in subsection (a) are called upon to work beyond standard work hours and the security measures provided to protect attorneys at such times during travel between office and available parking facilities.

(8) With respect to attorneys who are licensed under State laws to carry firearms, the policy of the Department of Justice as to—

(A) carrying the firearm between available parking and office buildings;

(B) securing the weapon at the office buildings; and

(C) equipment and training provided to facilitate safe storage at Department of Justice facilities.

(9) The offices in the Department of Justice that are responsible for ensuring the security of attorneys handling prosecutions described in subsection (a), the organization and staffing of the offices, and the manner in which the offices coordinate with offices in specific districts.

(10) The role, if any, that the United States Marshals Service or any other Department of Justice component plays in protecting, or providing security services or training for, attorneys handling prosecutions described in subsection (a).

TITLE V—MISCELLANEOUS PROVISIONS

SEC. 501. EXPANDED PROCUREMENT AUTHORITY FOR THE UNITED STATES SENTENCING COMMISSION.

(a) In General.—Section 995 of title 28, United States Code, is amended by adding at the end the following:

"(f) The Commission may—

"(1) use available funds to enter into contracts for the acquisition of severable services for a period that begins in 1 fiscal year and ends in the next fiscal year, to the same extent as executive agencies may enter into such contracts under the authority of section 303L of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 2531);

"(2) enter into multi-year contracts for the acquisition of property or services to the same extent as executive agencies may enter into such contracts under the authority of section 304B of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 254c); and

"(3) make advance, partial, progress, or other payments under contracts for property or services to the same extent as executive agencies may make such payments under the authority of section 305 of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 255).".

(b) Sunset.—The amendment made by subsection (a) shall cease to have force and effect on September 30, 2010.

SEC. 502. BANKRUPTCY, MAGISTRATE, AND TERRITORIAL JUDGES LIFE INSURANCE.

(a) In General.—Section 604(a)(5) of title 28, United States Code, is amended by inserting after "hold office during good behavior," the following: "magistrate judges appointed under section 631 of this title, and territorial district court judges appointed under section 24 of the Organic Act of Guam (48 U.S.C. 1424b), section 1(b) of the Act of November 8, 1977 (48 U.S.C. 1821), or section 24(a) of the Revised Organic Act of the Virgin Islands (48 U.S.C. 1614(a)),".

(b) Bankruptcy Judges.—

(1) In general.—The Director of the Administrative Office of the United States Courts, upon authorization by the Judicial Conference of the United States and subject to the availability of appropriations, shall pay on behalf of bankruptcy judges appointed under section 152 of title 28, United States Code, aged 65 or over, any increases in the cost of Federal Employees' Group Life Insurance imposed after April 24, 1999, including any expenses generated by such payments.

(2) Implementation.—Any payment authorized by the Judicial Conference of the United States under paragraph (1) shall apply with respect to any payment made on or after the first day of the first applicable pay period beginning on or after the date of that authorization.

(c) Construction.—For purposes of construing and applying chapter 87 of title 5, United States Code, including any adjustment of insurance rates by regulation or otherwise, the following categories of judicial officers shall be deemed to be judges of the United States as described under section 8701 of title 5, United States Code:

(1) Bankruptcy judges appointed under section 152 of title 28, United States Code.

(2) Magistrate judges appointed under section 631 of title 28, United States Code.

(3) Territorial district court judges appointed under section 24 of the Organic Act of Guam (48 U.S.C. 1424b), section 1(b) of the Act of November 8, 1977 (48 U.S.C. 1821), or section 24(a) of the Revised Organic Act of the Virgin Islands (48 U.S.C. 1614(a)).

(4) Judges retired under section 377 of title 28, United States Code.

(5) Judges retired under section 373 of title 28, United States Code.

(d) Effective Date.—Subsection (c) and the amendment made by subsection (a) shall apply with respect to any payment made on or after the first day of the first applicable pay period beginning on or after the date of enactment of this Act.

SEC. 503. ASSIGNMENT OF JUDGES.

Section 296 of title 28, United States Code, is amended by inserting at the end of the second undesignated paragraph the following new sentence: "However, a district judge who has retired from regular active service under section 371(b) of this title, when designated and assigned to the court to which such judge was appointed, having performed in the preceding calendar year an amount of work equal to or greater than the amount of work an average judge in active service on that court would perform in 6 months, and having elected to exercise such powers, shall have the powers of a judge of that court to participate in appointment of court officers and magistrate judges, rulemaking, governance, and administrative matters.".

SEC. 504. SENIOR JUDGE PARTICIPATION IN THE SELECTION OF MAGISTRATE JUDGES.

Section 631(a) of title 28, United States Code, is amended by striking "Northern Mariana Islands" the first place it appears and inserting "Northern Mariana Islands (including any judge in regular active service and any judge who has retired from regular active service under section 371(b) of this title, when designated and assigned to the court to which such judge was appointed)".

SEC. 505. GUARANTEEING COMPLIANCE WITH PRISONER PAYMENT COMMITMENTS.

Section 3624(e) of title 18, United States Code, is amended by striking the last sentence and inserting the following: "Upon the release of a prisoner by the Bureau of Prisons to supervised release, the Bureau of Prisons shall notify such prisoner, verbally and in writing, of the requirement that the prisoner adhere to an installment schedule, not to exceed 2 years except in special circumstances, to pay for any fine imposed for the offense committed by such prisoner, and of the consequences of failure to pay such fines under sections 3611 through 3614 of this title.".

SEC. 506. STUDY AND REPORT.

The Attorney General shall study whether the generally open public access to State and local records imperils the safety of the Federal judiciary. Not later than 18 months after the enactment of this Act, the Attorney General shall report to Congress the results of that study together with any recommendations the Attorney General deems necessary.

SEC. 507. REAUTHORIZATION OF FUGITIVE APPREHENSION TASK FORCES.

Section 6(b) of the Presidential Threat Protection Act of 2000 (28 U.S.C. 566 note; Public Law 106-544) is amended—

(1) by striking "and" after "fiscal year 2002,"; and

(2) by inserting ", and $10,000,000 for each of fiscal years 2008 through 2012" before the period.

SEC. 508. INCREASED PROTECTION OF FEDERAL JUDGES.

(a) Minimum Document Requirements.—

(1) Minimum requirements.—For purposes of section 202(b)(6) of the REAL ID Act of 2005(49 U.S.C. 30301 note), a State may, in the case of an individual described in subparagraph (A) or (B) of paragraph (2), include in

a driver's license or other identification card issued to that individual by the State, the address specified in that subparagraph in lieu of the individual's address of principle residence.

(2) INDIVIDUALS AND INFORMATION.—The individuals and addresses referred to in paragraph (1) are the following:

(A) In the case of a Justice of the United States, the address of the United States Supreme Court.

(B) In the case of a judge of a Federal court, the address of the courthouse.

(b) VERIFICATION OF INFORMATION.—For purposes of section 202(c)(1)(D) of the REAL ID Act of 2005 (49 U.S.C. 30301 note), in the case of an individual described in subparagraph (A) or (B) of subsection (a)(2), a State need only require documentation of the address appearing on the individual's driver's license or other identification card issued by that State to the individual.

SEC. 509. FEDERAL JUDGES FOR COURTS OF APPEALS.

(a) IN GENERAL.—Section 44(a) of title 28, United States Code, is amended in the table—

(1) in the item relating to the District of Columbia Circuit, by striking "12" and inserting "11"; and

(2) in the item relating to the Ninth Circuit, by striking "28" and inserting "29".

(b) EFFECTIVE DATE.—The amendments made by subsection (a)(2) shall take effect on January 21, 2009.

SEC. 510. NATIONAL INSTITUTE OF JUSTICE STUDY AND REPORT.

(a) STUDY REQUIRED.—The Director of the National Institute of Justice (referred to in this section as the "Director") shall conduct a study to determine and compile the collateral consequences of convictions for criminal offenses in the United States, each of the 50 States, each territory of the United States, and the District of Columbia.

(b) ACTIVITIES UNDER STUDY.—In conducting the study under subsection (a), the Director shall identify any provision in the Constitution, statutes, or administrative rules of each jurisdiction described in that subsection that imposes collateral sanctions or authorizes the imposition of disqualifications, and any provision that may afford relief from such collateral sanctions and disqualifications.

(c) REPORT.—

(1) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, the Director shall submit to Congress a report on the activities carried out under this section.

(2) CONTENTS.—The report submitted under paragraph (1) shall include a compilation of citations, text, and short descriptions of any provision identified under subsection (b).

(3) DISTRIBUTION.—The report submitted under paragraph (1) shall be distributed to the legislature and chief executive of each of the 50 States, each territory of the United States, and the District of Columbia.

(d) DEFINITIONS.—In this section:

(1) COLLATERAL CONSEQUENCE.—The term "collateral consequence" means a collateral sanction or a disqualification.

(2) COLLATERAL SANCTION.—The term "collateral sanction"—

(A) means a penalty, disability, or disadvantage, however denominated, that is imposed by law as a result of an individual's conviction for a felony, misdemeanor, or other offense, but not as part of the judgment of the court; and

(B) does not include a term of imprisonment, probation, parole, supervised release, fine, assessment, forfeiture, restitution, or the costs of prosecution.

(3) DISQUALIFICATION.—The term "disqualification" means a penalty, disability, or disadvantage, however denominated, that an administrative agency, official, or a court in a civil proceeding is authorized, but not required, to impose on an individual convicted of a felony, misdemeanor, or other offense on grounds relating to the conviction.

SEC. 511. TECHNICAL AMENDMENT.

Section 2255 of title 28, United States Code, is amended by designating the 8 undesignated paragraphs as subsections (a) through (h), respectively.

SA 3869. Mr. DODD (for Mrs. FEINSTEIN) proposed an amendment to the bill H.R. 3690, to provide for the transfer of the Library of Congress police to the United States Capitol Police, and for other purpose: as follows:

Strike all after the enacting clause and insert the following:

SECTION 1. SHORT TITLE.

This Act may be cited as the "U.S. Capitol Police and Library of Congress Police Merger Implementation Act of 2007".

SEC. 2. TRANSFER OF PERSONNEL.

(a) TRANSFERS.—

(1) LIBRARY OF CONGRESS POLICE EMPLOYEES.—Effective on the employee's transfer date, each Library of Congress Police employee shall be transferred to the United States Capitol Police and shall become either a member or civilian employee of the Capitol Police, as determined by the Chief of the Capitol Police under subsection (b).

(2) LIBRARY OF CONGRESS POLICE CIVILIAN EMPLOYEES.—Effective on the employee's transfer date, each Library of Congress Police civilian employee shall be transferred to the United States Capitol Police and shall become a civilian employee of the Capitol Police.

(b) TREATMENT OF LIBRARY OF CONGRESS POLICE EMPLOYEES.—

(1) DETERMINATION OF STATUS WITHIN CAPITOL POLICE.—

(A) ELIGIBILITY TO SERVE AS MEMBERS OF THE CAPITOL POLICE.—A Library of Congress Police employee shall become a member of the Capitol Police on the employee's transfer date if the Chief of the Capitol Police determines and issues a written certification that the employee meets each of the following requirements:

(i) Based on the assumption that such employee would perform a period of continuous Federal service after the transfer date, the employee would be entitled to an annuity for immediate retirement under section 8336(b) or 8412(b) of title 5, United States Code (as determined by taking into account paragraph (3)(A)), on the date such employee becomes 60 years of age.

(ii) During the transition period, the employee successfully completes training, as determined by the Chief of the Capitol Police.

(iii) The employee meets the qualifications required to be a member of the Capitol Police, as determined by the Chief of the Capitol Police.

(B) SERVICE AS CIVILIAN EMPLOYEE OF CAPITOL POLICE.—If the Chief of the Capitol Police determines that a Library of Congress Police employee does not meet the eligibility requirements, the employee shall become a civilian employee of the Capitol Police on the employee's transfer date.

(C) FINALITY OF DETERMINATIONS.—Any determination of the Chief of the Capitol Police under this paragraph shall not be appealable or reviewable in any manner.

(D) DEADLINE FOR DETERMINATIONS.—The Chief of the Capitol Police shall complete the determinations required under this paragraph for all Library of Congress Police employees not later than September 30, 2009.

(2) EXEMPTION FROM MANDATORY SEPARATION.—Section 8335(c) or 8425(c) of title 5, United States Code, shall not apply to any Library of Congress Police employee who becomes a member of the Capitol Police under this subsection, until the earlier of—

(A) the date on which the individual is entitled to an annuity for immediate retirement under section 8336(b) or 8412(b) of title 5, United States Code; or

(B) the date on which the individual—

(i) is 57 years of age or older; and

(ii) is entitled to an annuity for immediate retirement under section 8336(m) or 8412(d) of title 5, United States Code, (as determined by taking into account paragraph (3)(A)).

(3) TREATMENT OF PRIOR CREDITABLE SERVICE FOR RETIREMENT PURPOSES.—

(A) PRIOR SERVICE FOR PURPOSES OF ELIGIBILITY FOR IMMEDIATE RETIREMENT AS MEMBER OF CAPITOL POLICE.—Any Library of Congress Police employee who becomes a member of the Capitol Police under this subsection shall be entitled to have any creditable service under section 8332 or 8411 of title 5, United States Code, that was accrued prior to becoming a member of the Capitol Police included in calculating the employee's service as a member of the Capitol Police for purposes of section 8336(m) or 8412(d) of title 5, United States Code.

(B) PRIOR SERVICE FOR PURPOSES OF COMPUTATION OF ANNUITY.—Any creditable service under section 8332 or 8411 of title 5, United States Code, of an individual who becomes a member of the Capitol Police under this subsection that was accrued prior to becoming a member of the Capitol Police—

(i) shall be treated and computed as employee service under section 8339 or section 8415 of such title; but

(ii) shall not be treated as service as a member of the Capitol Police or service as a congressional employee for purposes of applying any formula under section 8339(b), 8339(q), 8415(c), or 8415(d) of such title under which a percentage of the individual's average pay is multiplied by the years (or other period) of such service.

(c) DUTIES OF EMPLOYEES TRANSFERRED TO CIVILIAN POSITIONS.—

(1) DUTIES.—The duties of any individual who becomes a civilian employee of the Capitol Police under this section, including a Library of Congress Police civilian employee under subsection (a)(2) and a Library of Congress Police employee who becomes a civilian employee of the Capitol Police under subsection (b)(1)(B), shall be determined solely by the Chief of the Capitol Police, except that a Library of Congress Police civilian employee under subsection (a)(2) shall continue to support Library of Congress police operations until all Library of Congress Police employees are transferred to the United States Capitol Police under this section.

(2) FINALITY OF DETERMINATIONS.—Any determination of the Chief of the Capitol Police under this subsection shall not be appealable or reviewable in any manner.

(d) PROTECTING STATUS OF TRANSFERRED EMPLOYEES.—

(1) NONREDUCTION IN PAY, RANK, OR GRADE.—The transfer of any individual under this section shall not cause that individual to be separated or reduced in basic pay, rank or grade.

(2) LEAVE AND COMPENSATORY TIME.—Any annual leave, sick leave, or other leave, or

compensatory time, to the credit of an individual transferred under this section shall be transferred to the credit of that individual as a member or an employee of the Capitol Police (as the case may be). The treatment of leave or compensatory time transferred under this section shall be governed by regulations of the Capitol Police Board.

(3) PROHIBITING IMPOSITION OF PROBATIONARY PERIOD.—The Chief of the Capitol Police may not impose a period of probation with respect to the transfer of any individual who is transferred under this section.

(e) RULES OF CONSTRUCTION RELATING TO EMPLOYEE REPRESENTATION.—

(1) EMPLOYEE REPRESENTATION.—Nothing in this Act shall be construed to authorize any labor organization that represented an individual who was a Library of Congress police employee or a Library of Congress police civilian employee before the individual's transfer date to represent that individual as a member of the Capitol Police or an employee of the Capitol Police after the individual's transfer date.

(2) AGREEMENTS NOT APPLICABLE.—Nothing in this Act shall be construed to authorize any collective bargaining agreement (or any related court order, stipulated agreement, or agreement to the terms or conditions of employment) applicable to Library of Congress police employees or to Library of Congress police civilian employees to apply to members of the Capitol Police or to civilian employees of the Capitol Police.

(f) RULE OF CONSTRUCTION RELATING TO PERSONNEL AUTHORITY OF THE CHIEF OF THE CAPITOL POLICE.—Nothing in this Act shall be construed to affect the authority of the Chief of the Capitol Police to—

(1) terminate the employment of a member of the Capitol Police or a civilian employee of the Capitol Police; or

(2) transfer any individual serving as a member of the Capitol Police or a civilian employee of the Capitol Police to another position with the Capitol Police.

(g) TRANSFER DATE DEFINED.—In this Act, the term "transfer date" means, with respect to an employee—

(1) in the case of a Library of Congress Police employee who becomes a member of the Capitol Police, the first day of the first pay period applicable to members of the United States Capitol Police which begins after the date on which the Chief of the Capitol Police issues the written certification for the employee under subsection (b)(1);

(2) in the case of a Library of Congress Police employee who becomes a civilian employee of the Capitol Police, the first day of the first pay period applicable to employees of the United States Capitol Police which begins after September 30, 2009; or

(3) in the case of a Library of Congress Police civilian employee, the first day of the first pay period applicable to employees of the United States Capitol Police which begins after September 30, 2008.

(h) CANCELLATION IN PORTION OF UNOBLIGATED BALANCE OF FEDLINK REVOLVING FUND.—Amounts available for obligation by the Librarian of Congress as of the date of the enactment of this Act from the unobligated balance in the revolving fund established under section 103 of the Library of Congress Fiscal Operations Improvement Act of 2000 (2 U.S.C. 182c) for the Federal Library and Information Network program of the Library of Congress and the Federal Research program of the Library of Congress are reduced by a total of $560,000, and the amount so reduced is hereby cancelled.

SEC. 3. TRANSITION PROVISIONS.

(a) TRANSFER AND ALLOCATIONS OF PROPERTY AND APPROPRIATIONS.—

(1) IN GENERAL.—Effective on the transfer date of any Library of Congress Police employee and Library of Congress Police civilian employee who is transferred under this Act—

(A) the assets, liabilities, contracts, property, and records associated with the employee shall be transferred to the Capitol Police; and

(B) the unexpended balances of appropriations, authorizations, allocations, and other funds employed, used, held, arising from, available to, or to be made available in connection with the employee shall be transferred to and made available under the appropriations accounts for the Capitol Police for "Salaries" and "General Expenses", as applicable.

(2) JOINT REVIEW.—During the transition period, the Chief of the Capitol Police and the Librarian of Congress shall conduct a joint review of the assets, liabilities, contracts, property records, and unexpended balances of appropriations, authorizations, allocations, and other funds employed, used, held, arising from, available to, or to be made available in connection with the transfer under this Act.

(b) TREATMENT OF ALLEGED VIOLATIONS OF CERTAIN EMPLOYMENT LAWS WITH RESPECT TO TRANSFERRED INDIVIDUALS.—

(1) IN GENERAL.—Notwithstanding any other provision of law and except as provided in paragraph (3), in the case of an alleged violation of any covered law (as defined in paragraph (4)) which is alleged to have occurred prior to the transfer date with respect to an individual who is transferred under this Act, and for which the individual has not exhausted all of the remedies available for the consideration of the alleged violation which are provided for employees of the Library of Congress under the covered law prior to the transfer date, the following shall apply:

(A) The individual may not initiate any procedure which is available for the consideration of the alleged violation of the covered law which is provided for employees of the Library of Congress under the covered law.

(B) To the extent that the individual has initiated any such procedure prior to the transfer date, the procedure shall terminate and have no legal effect.

(C) Subject to paragraph (2), the individual may initiate and participate in any procedure which is available for the resolution of grievances of officers and employees of the Capitol Police under the Congressional Accountability Act of 1995 (2 U.S.C. 1301 et seq.) to provide for consideration of the alleged violation. The previous sentence does not apply in the case of an alleged violation for which the individual exhausted all of the available remedies which are provided for employees of the Library of Congress under the covered law prior to the transfer date.

(2) SPECIAL RULES FOR APPLYING CONGRESSIONAL ACCOUNTABILITY ACT OF 1995.—In applying paragraph (1)(C) with respect to an individual to whom this subsection applies, for purposes of the consideration of the alleged violation under the Congressional Accountability Act of 1995—

(A) the date of the alleged violation shall be the individual's transfer date;

(B) notwithstanding the third sentence of section 402(a) of such Act (2 U.S.C. 1402(a)), the individual's request for counseling under such section shall be made not later than 60 days after the date of the alleged violation; and

(C) the employing office of the individual at the time of the alleged violation shall be the Capitol Police Board.

(3) EXCEPTION FOR ALLEGED VIOLATIONS SUBJECT TO HEARING PRIOR TO TRANSFER.—Paragraph (1) does not apply with respect to an alleged violation for which a hearing has commenced in accordance with the covered law on or before the transfer date.

(4) COVERED LAW DEFINED.—In this subsection, a "covered law" is any law for which the remedy for an alleged violation is provided for officers and employees of the Capitol Police under the Congressional Accountability Act of 1995 (2 U.S.C. 1301 et seq.).

(c) AVAILABILITY OF DETAILEES DURING TRANSITION PERIOD.—During the transition period, the Chief of the Capitol Police may detail additional members of the Capitol Police to the Library of Congress, without reimbursement.

(d) EFFECT ON EXISTING MEMORANDUM OF UNDERSTANDING.—The Memorandum of Understanding between the Library of Congress and the Capitol Police entered into on December 12, 2004, shall remain in effect during the transition period, subject to—

(1) the provisions of this Act; and

(2) such modifications as may be made in accordance with the modification and dispute resolution provisions of the Memorandum of Understanding, consistent with the provisions of this Act.

(e) RULE OF CONSTRUCTION RELATING TO PERSONNEL AUTHORITY OF THE LIBRARIAN OF CONGRESS.—Nothing in this Act shall be construed to affect the authority of the Librarian of Congress to—

(1) terminate the employment of a Library of Congress Police employee or Library of Congress Police civilian employee; or

(2) transfer any individual serving in a Library of Congress Police employee position or Library of Congress Police civilian employee position to another position at the Library of Congress.

SEC. 4. POLICE JURISDICTION, UNLAWFUL ACTIVITIES, AND PENALTIES.

(a) JURISDICTION.—

(1) EXTENSION OF CAPITOL POLICE JURISDICTION.—Section 9 of the Act entitled "An Act to define the area of the United States Capitol Grounds, to regulate the use thereof, and for other purposes", approved July 31, 1946 (2 U.S.C. 1961) is amended by adding at the end the following:

"(d) For purposes of this section, 'United States Capitol Buildings and Grounds' shall include the Library of Congress buildings and grounds described under section 11 of the Act entitled 'An Act relating to the policing of the buildings of the Library of Congress', approved August 4, 1950 (2 U.S.C. 167j), except that in a case of buildings or grounds not located in the District of Columbia, the authority granted to the Metropolitan Police Force of the District of Columbia shall be granted to any police force within whose jurisdiction the buildings or grounds are located.".

(2) REPEAL OF LIBRARY OF CONGRESS POLICE JURISDICTION.—The first section and sections 7 and 9 of the Act of August 4, 1950 (2 U.S.C. 167, 167f, 167h) are repealed on October 1, 2009.

(b) UNLAWFUL ACTIVITIES AND PENALTIES.—

(1) EXTENSION OF UNITED STATES CAPITOL BUILDINGS AND GROUNDS PROVISIONS TO THE LIBRARY OF CONGRESS BUILDINGS AND GROUNDS.—

(A) CAPITOL BUILDINGS.—Section 5101 of title 40, United States Code, is amended by inserting "all buildings on the real property described under section 5102(d)" after "(including the Administrative Building of the United States Botanic Garden)".

(B) CAPITOL GROUNDS.—Section 5102 of title 40, United States Code, is amended by adding at the end the following:

"(d) LIBRARY OF CONGRESS BUILDINGS AND GROUNDS.—

"(1) IN GENERAL.—Except as provided under paragraph (2), the United States Capitol Grounds shall include the Library of Congress grounds described under section 11 of the Act entitled 'An Act relating to the policing of the buildings of the Library of Congress', approved August 4, 1950 (2 U.S.C. 167j).

"(2) AUTHORITY OF LIBRARIAN OF CONGRESS.—Notwithstanding subsections (a) and (b), the Librarian of Congress shall retain authority over the Library of Congress buildings and grounds in accordance with section 1 of the Act of June 29, 1922 (2 U.S.C. 141; 42 Stat. 715).".

(C) CONFORMING AMENDMENT RELATING TO DISORDERLY CONDUCT.—Section 5104(e)(2) of title 40, United States Code, is amended by striking subparagraph (C) and inserting the following:

"(C) with the intent to disrupt the orderly conduct of official business, enter or remain in a room in any of the Capitol Buildings set aside or designated for the use of—

"(i) either House of Congress or a Member, committee, officer, or employee of Congress, or either House of Congress; or

"(ii) the Library of Congress;".

(2) REPEAL OF OFFENSES AND PENALTIES SPECIFIC TO THE LIBRARY OF CONGRESS.—Sections 2, 3, 4, 5, 6, and 8 of the Act of August 4, 1950 (2 U.S.C. 167a, 167b, 167c, 167d, 167e, and 167g) are repealed.

(3) SUSPENSION OF PROHIBITIONS AGAINST USE OF LIBRARY OF CONGRESS BUILDINGS AND GROUNDS.—Section 10 of the Act of August 4, 1950 (2 U.S.C. 167i) is amended by striking "2 to 6, inclusive, of this Act" and inserting "5103 and 5104 of title 40, United States Code".

(4) CONFORMING AMENDMENT TO DESCRIPTION OF LIBRARY OF CONGRESS GROUNDS.—Section 11 of the Act of August 4, 1950 (2 U.S.C. 167j) is amended—

(A) in subsection (a), by striking "For the purposes of this Act the" and inserting "The";

(B) in subsection (b), by striking "For the purposes of this Act, the" and inserting "The";

(C) in subsection (c), by striking "For the purposes of this Act, the" and inserting "The"; and

(D) in subsection (d), by striking "For the purposes of this Act, the" and inserting "The".

(c) CONFORMING AMENDMENT RELATING TO JURISDICTION OF INSPECTOR GENERAL OF LIBRARY OF CONGRESS.—Section 1307(b)(1) of the Legislative Branch Appropriations Act, 2006 (2 U.S.C. 185(b)), is amended by striking the semicolon at the end and inserting the following: ", except that nothing in this paragraph may be construed to authorize the Inspector General to audit or investigate any operations or activities of the United States Capitol Police;".

(d) EFFECTIVE DATE.—The amendments made by this section shall take effect October 1, 2009.

SEC. 5. COLLECTIONS, PHYSICAL SECURITY, CONTROL, AND PRESERVATION OF ORDER AND DECORUM WITHIN THE LIBRARY.

(a) ESTABLISHMENT OF REGULATIONS.—The Librarian of Congress shall establish standards and regulations for the physical security, control, and preservation of the Library of Congress collections and property, and for the maintenance of suitable order and decorum within Library of Congress.

(b) TREATMENT OF SECURITY SYSTEMS.—

(1) RESPONSIBILITY FOR SECURITY SYSTEMS.—In accordance with the authority of the Capitol Police and the Librarian of Congress established under this Act, the amendments made by this Act, and the provisions of law referred to in paragraph (3), the Chief of the Capitol Police and the Librarian of Congress shall be responsible for the operation of security systems at the Library of Congress buildings and grounds described under section 11 of the Act of August 4, 1950, in consultation and coordination with each other, subject to the following:

(A) The Librarian of Congress shall be responsible for the design of security systems for the control and preservation of Library collections and property, subject to the review and approval of the Chief of the Capitol Police.

(B) The Librarian of Congress shall be responsible for the operation of security systems at any building or facility of the Library of Congress which is located outside of the District of Columbia, subject to the review and approval of the Chief of the Capitol Police.

(2) INITIAL PROPOSAL FOR OPERATION OF SYSTEMS.—Not later than October 1, 2008, the Chief of the Capitol Police, in coordination with the Librarian of Congress, shall prepare and submit to the Committee on House Administration of the House of Representatives, the Committee on Rules and Administration of the Senate, and the Committees on Appropriations of the House of Representatives and the Senate an initial proposal for carrying out this subsection.

(3) PROVISIONS OF LAW.—The provisions of law referred to in this paragraph are as follows:

(A) Section 1 of the Act of June 29, 1922 (2 U.S.C. 141).

(B) The undesignated provision under the heading "General Provision, This Chapter" in chapter 5 of title II of division B of the Omnibus Consolidated and Emergency Supplemental Appropriations Act, 1999 (2 U.S.C. 141a).

(C) Section 308 of the Legislative Branch Appropriations Act, 1996 (2 U.S.C. 1964).

(D) Section 308 of the Legislative Branch Appropriations Act, 1997 (2 U.S.C. 1965).

SEC. 6. PAYMENT OF CAPITOL POLICE SERVICES PROVIDED IN CONNECTION WITH RELATING TO LIBRARY OF CONGRESS SPECIAL EVENTS.

(a) PAYMENTS OF AMOUNTS DEPOSITED IN REVOLVING FUND.—Section 102(e) of the Library of Congress Fiscal Operations Improvement Act of 2000 (2 U.S.C. 182b(e)) is amended to read as follows:

"(e) USE OF AMOUNTS.—

"(1) IN GENERAL.—Except as provided in paragraph (2), amounts in the accounts of the revolving fund under this section shall be available to the Librarian, in amounts specified in appropriations Acts and without fiscal year limitation, to carry out the programs and activities covered by such accounts.

"(2) SPECIAL RULE FOR PAYMENTS FOR CERTAIN CAPITOL POLICE SERVICES.—In the case of any amount in the revolving fund consisting of a payment received for services of the United States Capitol Police in connection with a special event or program described in subsection (a)(4), the Librarian shall transfer such amount upon receipt to the Capitol Police for deposit into the applicable appropriations accounts of the Capitol Police.".

(b) USE OF OTHER LIBRARY FUNDS TO MAKE PAYMENTS.—In addition to amounts transferred pursuant to section 102(e)(2) of the Library of Congress Fiscal Operations Improvement Act of 2000 (as added by subsection (a)), the Librarian of Congress may transfer amounts made available for salaries and expenses of the Library of Congress during a fiscal year to the applicable appropriations accounts of the United States Capitol Police in order to reimburse the Capitol Police for services provided in connection with a special event or program described in section 102(a)(4) of such Act.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply with respect to services provided by the United States Capitol Police on or after the date of the enactment of this Act.

SEC. 7. OTHER CONFORMING AMENDMENTS.

(a) IN GENERAL.—Section 1015 of the Legislative Branch Appropriations Act, 2003 (2 U.S.C. 1901 note) and section 1006 of the Legislative Branch Appropriations Act, 2004 (2 U.S.C. 1901 note; Public Law 108–83; 117 Stat. 1023) are repealed.

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall take effect October 1, 2009.

SEC. 8. DEFINITIONS.

In this Act—

(1) the term "Act of August 4, 1950" means the Act entitled "An Act relating to the policing of the buildings and grounds of the Library of Congress," (2 U.S.C. 167 et seq.);

(2) the term "Library of Congress Police employee" means an employee of the Library of Congress designated as police under the first section of the Act of August 4, 1950 (2 U.S.C. 167);

(3) the term "Library of Congress Police civilian employee" means an employee of the Library of Congress Office of Security and Emergency Preparedness who provides direct administrative support to, and is supervised by, the Library of Congress Police, but shall not include an employee of the Library of Congress who performs emergency preparedness or collections control and preservation functions; and

(4) the term "transition period" means the period the first day of which is the date of the enactment of this Act and the final day of which is September 30, 2009.

PRIVILEGES OF THE FLOOR

Mr. DODD. I ask unanimous consent that Ben Weingrod and Ryan Kehmma of my staff be granted the privilege of the floor for the duration of the debate on the FISA legislation.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. WYDEN. Mr. President, before my remarks, I ask unanimous consent that Matthew Solomon be granted floor privileges during consideration of the FISA bill. I make this request on behalf of Chairman LEAHY.

The PRESIDING OFFICER. Without objection, it is so ordered.

FEDERAL EMPLOYEE PROTECTION OF DISCLOSURES ACT

Ms. MIKULSKI. I ask unanimous consent that the Senate proceed to the immediate consideration of Calendar No. 513, S. 274.

The PRESIDING OFFICER. The clerk will report the bill by title.

The assistant legislative clerk read as follows:

A bill (S. 274) to amend chapter 23 of title 5, United States Code, to clarify the disclosures of information protected from prohibited personnel practices, require a statement in nondisclosure policies, forms, and agreements that such policies, forms, and agreements conform with certain disclosure protections, provide certain authority for the Special Counsel, and for other purposes.

There being no objection, the Senate proceeded to consider the bill which had been reported from the Committee on Homeland Security and Government Affairs with an amendment to strike all after the enacting clause and insert in lieu thereof the following:

SECTION 1. PROTECTION OF CERTAIN DISCLOSURES OF INFORMATION BY FEDERAL EMPLOYEES.

(a) SHORT TITLE.—This Act may be cited as the "Federal Employee Protection of Disclosures Act".

(b) CLARIFICATION OF DISCLOSURES COVERED.—Section 2302(b)(8) of title 5, United States Code, is amended—

(1) in subparagraph (A)—

(A) by striking "which the employee or applicant reasonably believes evidences" and inserting ", without restriction to time, place, form, motive, context, or prior disclosure made to any person by an employee or applicant, including a disclosure made in the ordinary course of an employee's duties, that the employee or applicant reasonably believes is evidence of";

(B) in clause (i), by striking "a violation" and inserting "any violation"; and

(C) by striking "or" at the end;

(2) in subparagraph (B)—

(A) by striking "which the employee or applicant reasonably believes evidences" and inserting ", without restriction to time, place, form, motive, context, or prior disclosure made to any person by an employee or applicant, including a disclosure made in the ordinary course of an employee's duties, of information that the employee or applicant reasonably believes is evidence of";

(B) in clause (i), by striking "a violation" and inserting "any violation (other than a violation of this section)"; and

(C) in clause (ii), by adding "or" at the end; and

(3) by adding at the end the following:

"(C) any disclosure that—

"(i) is made by an employee or applicant of information required by law or Executive order to be kept secret in the interest of national defense or the conduct of foreign affairs that the employee or applicant reasonably believes is direct and specific evidence of—

"(I) any violation of any law, rule, or regulation;

"(II) gross mismanagement, a gross waste of funds, an abuse of authority, or a substantial and specific danger to public health or safety; or

"(III) a false statement to Congress on an issue of material fact; and

"(ii) is made to—

"(I) a member of a committee of Congress having a primary responsibility for oversight of a department, agency, or element of the Federal Government to which the disclosed information relates and who is authorized to receive information of the type disclosed;

"(II) any other Member of Congress who is authorized to receive information of the type disclosed; or

"(III) an employee of Congress who has the appropriate security clearance and is authorized to receive information of the type disclosed.".

(c) COVERED DISCLOSURES.—Section 2302(a)(2) of title 5, United States Code, is amended—

(1) in subparagraph (B)(ii), by striking "and" at the end;

(2) in subparagraph (C)(iii), by striking the period at the end and inserting "; and"; and

(3) by adding at the end the following:

"(D) 'disclosure' means a formal or informal communication or transmission, but does not include a communication concerning policy decisions that lawfully exercise discretionary authority unless the employee providing the disclosure reasonably believes that the disclosure evidences—

"(i) any violation of any law, rule, or regulation; or

"(ii) gross mismanagement, a gross waste of funds, an abuse of authority, or a substantial and specific danger to public health or safety.".

(d) REBUTTABLE PRESUMPTION.—Section 2302(b) of title 5, United States Code, is amended by amending the matter following paragraph (12) to read as follows:

"This subsection shall not be construed to authorize the withholding of information from Congress or the taking of any personnel action against an employee who discloses information to Congress. For purposes of paragraph (8), any presumption relating to the performance of a duty by an employee who has authority to take, direct others to take, recommend, or approve any personnel action may be rebutted by substantial evidence. For purposes of paragraph (8), a determination as to whether an employee or applicant reasonably believes that they have disclosed information that evidences any violation of law, rule, regulation, gross mismanagement, a gross waste of funds, an abuse of authority, or a substantial and specific danger to public health or safety shall be made by determining whether a disinterested observer with knowledge of the essential facts known to and readily ascertainable by the employee could reasonably conclude that the actions of the Government evidence such violations, mismanagement, waste, abuse, or danger.".

(e) NONDISCLOSURE POLICIES, FORMS, AND AGREEMENTS; SECURITY CLEARANCES; AND RETALIATORY INVESTIGATIONS.—

(1) PERSONNEL ACTION.—Section 2302(a)(2)(A) of title 5, United States Code, is amended—

(A) in clause (x), by striking "and" after the semicolon; and

(B) by redesignating clause (xi) as clause (xiv) and inserting after clause (x) the following:

"(xi) the implementation or enforcement of any nondisclosure policy, form, or agreement;

"(xii) a suspension, revocation, or other determination relating to a security clearance or any other access determination by a covered agency;

"(xiii) an investigation, other than any ministerial or nondiscretionary fact finding activities necessary for the agency to perform its mission, of an employee or applicant for employment because of any activity protected under this section; and"

(2) PROHIBITED PERSONNEL PRACTICE.—Section 2302(b) of title 5, United States Code, is amended—

(A) in paragraph (11), by striking "or" at the end;

(B) in paragraph (12), by striking the period and inserting a semicolon; and

(C) by inserting after paragraph (12) the following:

"(13) implement or enforce any nondisclosure policy, form, or agreement, if such policy, form, or agreement does not contain the following statement: 'These provisions are consistent with and do not supersede, conflict with, or otherwise alter the employee obligations, rights, or liabilities created by Executive Order No. 12958; section 7211 of title 5, United States Code (governing disclosures to Congress); section 1034 of title 10, United States Code (governing disclosure to Congress by members of the military); section 2302(b)(8) of title 5, United States Code (governing disclosures of illegality, waste, fraud, abuse, or public health or safety threats); the Intelligence Identities Protection Act of 1982 (50 U.S.C. 421 et seq.) (governing disclosures that could expose confidential Government agents); and the statutes which protect against disclosures that could compromise national security, including sections 641, 793, 794, 798, and 952 of title 18, United States Code, and section 4(b) of the Subversive Activities Control Act of 1950 (50 U.S.C. 783(b)). The definitions, requirements, obligations, rights, sanctions, and liabilities created by such Executive order and such statutory provisions are incorporated into this agreement and are controlling'; or

"(14) conduct, or cause to be conducted, an investigation, other than any ministerial or nondiscretionary fact finding activities necessary for the agency to perform its mission, of an employee or applicant for employment because of any activity protected under this section.".

(3) BOARD AND COURT REVIEW OF ACTIONS RELATING TO SECURITY CLEARANCES.—

(A) IN GENERAL.—Chapter 77 of title 5, United States Code, is amended by inserting after section 7702 the following:

"§ 7702a. Actions relating to security clearances

"(a) In any appeal relating to the suspension, revocation, or other determination relating to a security clearance or access determination, the Merit Systems Protection Board or any reviewing court—

"(1) shall determine whether paragraph (8) or (9) of section 2302(b) was violated;

"(2) may not order the President or the designee of the President to restore a security clearance or otherwise reverse a determination of clearance status or reverse an access determination; and

"(3) subject to paragraph (2), may issue declaratory relief and any other appropriate relief.

"(b)(1) If, in any final judgment, the Board or court declares that any suspension, revocation, or other determination with regard to a security clearance or access determination was made in violation of paragraph (8) or (9) of section 2302(b), the affected agency shall conduct a review of that suspension, revocation, access determination, or other determination, giving great weight to the Board or court judgment.

"(2) Not later than 30 days after any Board or court judgment declaring that a security clearance suspension, revocation, access determination, or other determination was made in violation of paragraph (8) or (9) of section 2302(b), the affected agency shall issue an unclassified report to the congressional committees of jurisdiction (with a classified annex if necessary), detailing the circumstances of the agency's security clearance suspension, revocation, other determination, or access determination. A report under this paragraph shall include any proposed agency action with regard to the security clearance or access determination.

"(c) An allegation that a security clearance or access determination was revoked or suspended in retaliation for a protected disclosure shall receive expedited review by the Office of Special Counsel, the Merit Systems Protection Board, and any reviewing court.

"(d) For purposes of this section, corrective action may not be ordered if the agency demonstrates by a preponderance of the evidence that it would have taken the same personnel action in the absence of such disclosure.".

(B) TECHNICAL AND CONFORMING AMENDMENT.—The table of sections for chapter 77 of title 5, United States Code, is amended by inserting after the item relating to section 7702 the following:

"7702a. Actions relating to security clearances.".

(f) EXCLUSION OF AGENCIES BY THE PRESIDENT.—Section 2302(a)(2)(C) of title 5, United States Code, is amended by striking clause (ii) and inserting the following:

"(ii)(I) the Federal Bureau of Investigation, the Central Intelligence Agency, the Defense Intelligence Agency, the National Imagery and Mapping Agency, the National Security Agency; and

"(II) as determined by the President, any executive agency or unit thereof the principal function of which is the conduct of foreign intelligence or counterintelligence activities, if the determination (as that determination relates to a personnel action) is made before that personnel action; or".

(g) ATTORNEY FEES.—Section 1204(m)(1) of title 5, United States Code, is amended by striking "agency involved" and inserting "agency where the prevailing party is employed or has applied for employment".

(h) DISCIPLINARY ACTION.—Section 1215(a)(3) of title 5, United States Code, is amended to read as follows:

"(3)(A) A final order of the Board may impose—

"(i) disciplinary action consisting of removal, reduction in grade, debarment from Federal employment for a period not to exceed 5 years, suspension, or reprimand;

"(ii) an assessment of a civil penalty not to exceed $1,000; or

"(iii) any combination of disciplinary actions described under clause (i) and an assessment described under clause (ii).

"(B) In any case in which the Board finds that an employee has committed a prohibited personnel practice under paragraph (8) or (9) of section 2302(b), the Board shall impose disciplinary action if the Board finds that the activity protected under paragraph (8) or (9) of section 2302(b) was a significant motivating factor, even if other factors also motivated the decision, for the employee's decision to take, fail to take, or threaten to take or fail to take a personnel action, unless that employee demonstrates, by preponderance of evidence, that the employee would have taken, failed to take, or threatened to take or fail to take the same personnel action, in the absence of such protected activity.".

(i) SPECIAL COUNSEL AMICUS CURIAE APPEARANCE.—Section 1212 of title 5, United States Code, is amended by adding at the end the following:

"(h)(1) The Special Counsel is authorized to appear as amicus curiae in any action brought in a court of the United States related to any civil action brought in connection with section 2302(b) (8) or (9), or subchapter III of chapter 73, or as otherwise authorized by law. In any such action, the Special Counsel is authorized to present the views of the Special Counsel with respect to compliance with section 2302(b) (8) or (9) or subchapter III of chapter 73 and the impact court decisions would have on the enforcement of such provisions of law.

"(2) A court of the United States shall grant the application of the Special Counsel to appear in any such action for the purposes described in subsection (a).".

(j) JUDICIAL REVIEW.—

(1) IN GENERAL.—Section 7703(b)(1) of title 5, United States Code, is amended to read as follows:

"(b)(1)(A) Except as provided in subparagraph (B) and paragraph (2), a petition to review a final order or final decision of the Board shall be filed in the United States Court of Appeals for the Federal Circuit. Notwithstanding any other provision of law, any petition for review must be filed within 60 days after the date the petitioner received notice of the final order or decision of the Board.

"(B) During the 5-year period beginning on the effective date of the Federal Employee Protection of Disclosures Act, a petition to review a final order or final decision of the Board in a case alleging a violation of paragraph (8) or (9) of section 2302(b) shall be filed in the United States Court of Appeals for the Federal Circuit or any court of appeals of competent jurisdiction as provided under subsection (b)(2).".

(2) REVIEW OBTAINED BY OFFICE OF PERSONNEL MANAGEMENT.—Section 7703(d) of title 5, United States Code, is amended to read as follows:

"(d)(1) Except as provided under paragraph (2), this paragraph shall apply to any review obtained by the Director of the Office of Personnel Management. The Director of the Office of Personnel Management may obtain review of any final order or decision of the Board by filing, within 60 days after the date the Director received notice of the final order or decision of the Board, a petition for judicial review in the United States Court of Appeals for the Federal Circuit if the Director determines, in his discretion, that the Board erred in interpreting a civil service law, rule, or regulation affecting personnel management and that the Board's decision will have a substantial impact on a civil service law, rule, regulation, or policy directive. If the Director did not intervene in a matter before the Board, the Director may not petition for review of a Board decision under this section unless the Director first petitions the Board for a reconsideration of its decision, and such petition is denied. In addition to the named respondent, the Board and all other parties to the proceedings before the Board shall have the right to appear in the proceeding before the Court of Appeals. The granting of the petition for judicial review shall be at the discretion of the Court of Appeals.

"(2) During the 5-year period beginning on the effective date of the Federal Employee Protection of Disclosures Act, this paragraph shall apply to any review relating to paragraph (8) or (9) of section 2302(b) obtained by the Director of the Office of Personnel Management. The Director of the Office of Personnel Management may obtain review of any final order or decision of the Board by filing, within 60 days after the date the Director received notice of the final order or decision of the Board, a petition for judicial review in the United States Court of Appeals for the Federal Circuit or any court of appeals of competent jurisdiction as provided under subsection (b)(2) if the Director determines, in his discretion, that the Board erred in interpreting paragraph (8) or (9) of section 2302(b). If the Director did not intervene in a matter before the Board, the Director may not petition for review of a Board decision under this section unless the Director first petitions the Board for a reconsideration of its decision, and such petition is denied. In addition to the named respondent, the Board and all other parties to the proceedings before the Board shall have the right to appear in the proceeding before the court of appeals. The granting of the petition for judicial review shall be at the discretion of the Court of Appeals.".

(k) NONDISCLOSURE POLICIES, FORMS, AND AGREEMENTS.—

(1) IN GENERAL.—

(A) REQUIREMENT.—Each agreement in Standard Forms 312 and 4414 of the Government and any other nondisclosure policy, form, or agreement of the Government shall contain the following statement: "These restrictions are consistent with and do not supersede, conflict with, or otherwise alter the employee obligations, rights, or liabilities created by Executive Order No. 12958; section 7211 of title 5, United States Code (governing disclosures to Congress); section 1034 of title 10, United States Code (governing disclosure to Congress by members of the military); section 2302(b)(8) of title 5, United States Code (governing disclosures of illegality, waste, fraud, abuse or public health or safety threats); the Intelligence Identities Protection Act of 1982 (50 U.S.C. 421 et seq.) (governing disclosures that could expose confidential Government agents); and the statutes which protect against disclosure that may compromise the national security, including sections 641, 793, 794, 798, and 952 of title 18, United States Code, and section 4(b) of the Subversive Activities Act of 1950 (50 U.S.C. 783(b)). The definitions, requirements, obligations, rights, sanctions, and liabilities created by such Executive order and such statutory provisions are incorporated into this agreement and are controlling.".

(B) ENFORCEABILITY.—Any nondisclosure policy, form, or agreement described under subparagraph (A) that does not contain the statement required under subparagraph (A) may not be implemented or enforced to the extent such policy, form, or agreement is inconsistent with that statement.

(2) PERSONS OTHER THAN GOVERNMENT EMPLOYEES.—Notwithstanding paragraph (1), a nondisclosure policy, form, or agreement that is to be executed by a person connected with the conduct of an intelligence or intelligence-related activity, other than an employee or officer of the United States Government, may contain provisions appropriate to the particular activity for which such document is to be used. Such form or agreement shall, at a minimum, require that the person will not disclose any classified information received in the course of such activity unless specifically authorized to do so by the United States Government. Such nondisclosure forms shall also make it clear that such forms do not bar disclosures to Congress or to an authorized official of an executive agency or the Department of Justice that are essential to reporting a substantial violation of law.

(l) CLARIFICATION OF WHISTLEBLOWER RIGHTS FOR CRITICAL INFRASTRUCTURE INFORMATION.—Section 214(c) of the Homeland Security Act of 2002 (6 U.S.C. 133(c)) is amended by adding at the end the following: "For purposes of this section a permissible use of independently obtained information includes the disclosure of such information under section 2302(b)(8) of title 5, United States Code.".

(m) ADVISING EMPLOYEES OF RIGHTS.—Section 2302(c) of title 5, United States Code, is amended by inserting ", including how to make a lawful disclosure of information that is specifically required by law or Executive order to be kept secret in the interest of national defense or the conduct of foreign affairs to the Special Counsel, the Inspector General of an agency, Congress, or other agency employee designated to receive such disclosures" after "chapter 12 of this title".

(n) SCOPE OF DUE PROCESS.—

(1) SPECIAL COUNSEL.—Section 1214(b)(4)(B)(ii) of title 5, United States Code, is amended by inserting ", after a finding that a protected disclosure was a contributing factor," after "ordered if".

(2) INDIVIDUAL ACTION.—Section 1221(e)(2) of title 5, United States Code, is amended by inserting ", after a finding that a protected disclosure was a contributing factor," after "ordered if".

(o) EFFECTIVE DATE.—This Act shall take effect 30 days after the date of enactment of this Act.

Ms. MIKULSKI. I further ask that the amendment at the desk be agreed to; the committee-reported substitute amendment as amended be agreed to, the bill, as amended, be read for the third time, passed, the motion to reconsider be laid upon the table, and that any statements relating to this measure be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment (No. 3801) was agreed to, as follows:

(Purpose: To provide for reports by the Government Accountability Office and the Merit Systems Protection Board on cases making allegations of violations of section 2302(b)(8) or (9) of title 5, United States Code, relating to whistleblowers)

After subsection (n), insert the following:

(o) REPORTING REQUIREMENTS.—

(1) GOVERNMENT ACCOUNTABILITY OFFICE.—

(A) IN GENERAL.—Not later than 40 months after the date of enactment of this Act, the Government Accountability Office shall submit a report to the Committee on Homeland Security and Governmental Affairs of the Senate and the Committee on Oversight and Government Reform of the House of Representatives on the implementation of this Act.

(B) CONTENTS.—The report under this paragraph shall include—

(i) an analysis of any changes in the number of cases filed with the United States Merit Systems Protection Board alleging violations of section 2302(b)(8) or (9) of title 5, United States Code, since the effective date of the Act;

(ii) the outcome of the cases described under clause (i), including whether or not the United States Merit Systems Protection Board, the Federal Circuit Court of Appeals, or any other court determined the allegations to be frivolous or malicious; and

(iii) any other matter as determined by the Government Accountability Office.

(2) MERIT SYSTEMS PROTECTION BOARD.—

(A) IN GENERAL.—Each report submitted annually by the Merit Systems Protection Board under section 1116 of title 31, United States Code, shall, with respect to the period covered by such report, include as an addendum the following:

(i) Information relating to the outcome of cases decided during the applicable year of the report in which violations of section 2302(b)(8) or (9) of title 5, United States Code, were alleged.

(ii) The number of such cases filed in the regional and field offices, the number of petitions for review filed in such cases, and the outcomes of such cases.

(B) FIRST REPORT.—The first report described under subparagraph (A) submitted after the date of enactment of this Act shall include an addendum required under that subparagraph that covers the period beginning on January 1, 2008 through the end of the fiscal year 2008.

The committee amendment in the nature of a substitute, as amended, was agreed to.

The bill (S. 274), as amended, was ordered to be engrossed for a third reading, was read the third time, and passed, as follows:

S. 274

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. PROTECTION OF CERTAIN DISCLOSURES OF INFORMATION BY FEDERAL EMPLOYEES.

(a) SHORT TITLE.—This Act may be cited as the "Federal Employee Protection of Disclosures Act".

(b) CLARIFICATION OF DISCLOSURES COVERED.—Section 2302(b)(8) of title 5, United States Code, is amended—

(1) in subparagraph (A)—

(A) by striking "which the employee or applicant reasonably believes evidences" and inserting ", without restriction to time, place, form, motive, context, or prior disclosure made to any person by an employee or applicant, including a disclosure made in the ordinary course of an employee's duties, that the employee or applicant reasonably believes is evidence of";

(B) in clause (i), by striking "a violation" and inserting "any violation"; and

(C) by striking "or" at the end;

(2) in subparagraph (B)—

(A) by striking "which the employee or applicant reasonably believes evidences" and inserting ", without restriction to time, place, form, motive, context, or prior disclosure made to any person by an employee or applicant, including a disclosure made in the ordinary course of an employee's duties, of information that the employee or applicant reasonably believes is evidence of";

(B) in clause (i), by striking "a violation" and inserting "any violation (other than a violation of this section)"; and

(C) in clause (ii), by adding "or" at the end; and

(3) by adding at the end the following:

"(C) any disclosure that—

"(i) is made by an employee or applicant of information required by law or Executive order to be kept secret in the interest of national defense or the conduct of foreign affairs that the employee or applicant reasonably believes is direct and specific evidence of—

"(I) any violation of any law, rule, or regulation;

"(II) gross mismanagement, a gross waste of funds, an abuse of authority, or a substantial and specific danger to public health or safety; or

"(III) a false statement to Congress on an issue of material fact; and

"(ii) is made to—

"(I) a member of a committee of Congress having a primary responsibility for oversight of a department, agency, or element of the Federal Government to which the disclosed information relates and who is authorized to receive information of the type disclosed;

"(II) any other Member of Congress who is authorized to receive information of the type disclosed; or

"(III) an employee of Congress who has the appropriate security clearance and is authorized to receive information of the type disclosed.".

(c) COVERED DISCLOSURES.—Section 2302(a)(2) of title 5, United States Code, is amended—

(1) in subparagraph (B)(ii), by striking "and" at the end;

(2) in subparagraph (C)(iii), by striking the period at the end and inserting "; and"; and

(3) by adding at the end the following:

"(D) 'disclosure' means a formal or informal communication or transmission, but does not include a communication concerning policy decisions that lawfully exercise discretionary authority unless the employee providing the disclosure reasonably believes that the disclosure evidences—

"(i) any violation of any law, rule, or regulation; or

"(ii) gross mismanagement, a gross waste of funds, an abuse of authority, or a substantial and specific danger to public health or safety.".

(d) REBUTTABLE PRESUMPTION.—Section 2302(b) of title 5, United States Code, is amended by amending the matter following paragraph (12) to read as follows:

"This subsection shall not be construed to authorize the withholding of information from Congress or the taking of any personnel action against an employee who discloses information to Congress. For purposes of paragraph (8), any presumption relating to the performance of a duty by an employee who has authority to take, direct others to take, recommend, or approve any personnel action may be rebutted by substantial evidence. For purposes of paragraph (8), a determination as to whether an employee or applicant reasonably believes that they have disclosed information that evidences any violation of law, rule, regulation, gross mismanagement, a gross waste of funds, an abuse of authority, or a substantial and specific danger to public health or safety shall be made by determining whether a disinterested observer with knowledge of the essential facts known to and readily ascertainable by the employee could reasonably conclude that the actions of the Government evidence such violations, mismanagement, waste, abuse, or danger.".

(e) NONDISCLOSURE POLICIES, FORMS, AND AGREEMENTS; SECURITY CLEARANCES; AND RETALIATORY INVESTIGATIONS.—

(1) PERSONNEL ACTION.—Section 2302(a)(2)(A) of title 5, United States Code, is amended—

(A) in clause (x), by striking "and" after the semicolon; and

(B) by redesignating clause (xi) as clause (xiv) and inserting after clause (x) the following:

"(xi) the implementation or enforcement of any nondisclosure policy, form, or agreement;

"(xii) a suspension, revocation, or other determination relating to a security clearance or any other access determination by a covered agency;

"(xiii) an investigation, other than any ministerial or nondiscretionary fact finding activities necessary for the agency to perform its mission, of an employee or applicant for employment because of any activity protected under this section; and"

(2) PROHIBITED PERSONNEL PRACTICE.—Section 2302(b) of title 5, United States Code, is amended—

(A) in paragraph (11), by striking "or" at the end;

(B) in paragraph (12), by striking the period and inserting a semicolon; and

(C) by inserting after paragraph (12) the following:

"(13) implement or enforce any nondisclosure policy, form, or agreement, if such policy, form, or agreement does not contain the following statement: 'These provisions are consistent with and do not supersede, conflict with, or otherwise alter the employee obligations, rights, or liabilities created by Executive Order No. 12958; section 7211 of title 5, United States Code (governing disclosures to Congress); section 1034 of title 10, United States Code (governing disclosure to Congress by members of the military); section 2302(b)(8) of title 5, United States Code (governing disclosures of illegality, waste, fraud, abuse, or public health or safety threats); the Intelligence Identities Protection Act of 1982 (50 U.S.C. 421 et seq.) (governing disclosures that could expose confidential Government agents); and the statutes which protect against disclosures that could compromise national security, including sections 641, 793, 794, 798, and 952 of title 18, United States Code, and section 4(b) of the Subversive Activities Control Act of 1950 (50 U.S.C. 783(b)). The definitions, requirements, obligations, rights, sanctions, and liabilities created by such Executive order and such statutory provisions are incorporated into this agreement and are controlling'; or

"(14) conduct, or cause to be conducted, an investigation, other than any ministerial or nondiscretionary fact finding activities necessary for the agency to perform its mission, of an employee or applicant for employment because of any activity protected under this section.".

(3) BOARD AND COURT REVIEW OF ACTIONS RELATING TO SECURITY CLEARANCES.—

(A) IN GENERAL.—Chapter 77 of title 5, United States Code, is amended by inserting after section 7702 the following:

"§ 7702a. Actions relating to security clearances

"(a) In any appeal relating to the suspension, revocation, or other determination relating to a security clearance or access determination, the Merit Systems Protection Board or any reviewing court—

"(1) shall determine whether paragraph (8) or (9) of section 2302(b) was violated;

"(2) may not order the President or the designee of the President to restore a security clearance or otherwise reverse a determination of clearance status or reverse an access determination; and

"(3) subject to paragraph (2), may issue declaratory relief and any other appropriate relief.

"(b)(1) If, in any final judgment, the Board or court declares that any suspension, revocation, or other determination with regard to a security clearance or access determination was made in violation of paragraph (8) or (9) of section 2302(b), the affected agency shall conduct a review of that suspension, revocation, access determination, or other determination, giving great weight to the Board or court judgment.

"(2) Not later than 30 days after any Board or court judgment declaring that a security clearance suspension, revocation, access determination, or other determination was made in violation of paragraph (8) or (9) of section 2302(b), the affected agency shall issue an unclassified report to the congressional committees of jurisdiction (with a classified annex if necessary), detailing the circumstances of the agency's security clearance suspension, revocation, other determination, or access determination. A report under this paragraph shall include any proposed agency action with regard to the security clearance or access determination.

"(c) An allegation that a security clearance or access determination was revoked or suspended in retaliation for a protected disclosure shall receive expedited review by the Office of Special Counsel, the Merit Systems Protection Board, and any reviewing court.

"(d) For purposes of this section, corrective action may not be ordered if the agency demonstrates by a preponderance of the evidence that it would have taken the same personnel action in the absence of such disclosure.".

(B) TECHNICAL AND CONFORMING AMENDMENT.—The table of sections for chapter 77 of title 5, United States Code, is amended by inserting after the item relating to section 7702 the following:

"7702a. Actions relating to security clearances.".

(f) EXCLUSION OF AGENCIES BY THE PRESIDENT.—Section 2302(a)(2)(C) of title 5, United States Code, is amended by striking clause (ii) and inserting the following:

"(ii)(I) the Federal Bureau of Investigation, the Central Intelligence Agency, the Defense Intelligence Agency, the National Imagery and Mapping Agency, the National Security Agency; and

"(II) as determined by the President, any executive agency or unit thereof the principal function of which is the conduct of foreign intelligence or counterintelligence activities, if the determination (as that determination relates to a personnel action) is made before that personnel action; or".

(g) ATTORNEY FEES.—Section 1204(m)(1) of title 5, United States Code, is amended by striking "agency involved" and inserting "agency where the prevailing party is employed or has applied for employment".

(h) DISCIPLINARY ACTION.—Section 1215(a)(3) of title 5, United States Code, is amended to read as follows:

"(3)(A) A final order of the Board may impose—

"(i) disciplinary action consisting of removal, reduction in grade, debarment from Federal employment for a period not to exceed 5 years, suspension, or reprimand;

"(ii) an assessment of a civil penalty not to exceed $1,000; or

"(iii) any combination of disciplinary actions described under clause (i) and an assessment described under clause (ii).

"(B) In any case in which the Board finds that an employee has committed a prohibited personnel practice under paragraph (8) or (9) of section 2302(b), the Board shall impose disciplinary action if the Board finds that the activity protected under paragraph (8) or (9) of section 2302(b) was a significant motivating factor, even if other factors also motivated the decision, for the employee's decision to take, fail to take, or threaten to take or fail to take a personnel action, unless that employee demonstrates, by preponderance of evidence, that the employee would have taken, failed to take, or threatened to take or fail to take the same personnel action, in the absence of such protected activity.".

(i) SPECIAL COUNSEL AMICUS CURIAE APPEARANCE.—Section 1212 of title 5, United States Code, is amended by adding at the end the following:

"(h)(1) The Special Counsel is authorized to appear as amicus curiae in any action brought in a court of the United States related to any civil action brought in connection with section 2302(b) (8) or (9), or subchapter III of chapter 73, or as otherwise authorized by law. In any such action, the Special Counsel is authorized to present the views of the Special Counsel with respect to compliance with section 2302(b) (8) or (9) or subchapter III of chapter 73 and the impact court decisions would have on the enforcement of such provisions of law.

"(2) A court of the United States shall grant the application of the Special Counsel to appear in any such action for the purposes described in subsection (a).".

(j) JUDICIAL REVIEW.—

(1) IN GENERAL.—Section 7703(b)(1) of title 5, United States Code, is amended to read as follows:

"(b)(1)(A) Except as provided in subparagraph (B) and paragraph (2), a petition to review a final order or final decision of the Board shall be filed in the United States Court of Appeals for the Federal Circuit. Notwithstanding any other provision of law, any petition for review must be filed within 60 days after the date the petitioner received notice of the final order or decision of the Board.

"(B) During the 5-year period beginning on the effective date of the Federal Employee Protection of Disclosures Act, a petition to review a final order or final decision of the Board in a case alleging a violation of paragraph (8) or (9) of section 2302(b) shall be filed in the United States Court of Appeals for the Federal Circuit or any court of appeals of competent jurisdiction as provided under subsection (b)(2).".

(2) REVIEW OBTAINED BY OFFICE OF PERSONNEL MANAGEMENT.—Section 7703(d) of title 5, United States Code, is amended to read as follows:

"(d)(1) Except as provided under paragraph (2), this paragraph shall apply to any review obtained by the Director of the Office of Personnel Management. The Director of the Office of Personnel Management may obtain review of any final order or decision of the Board by filing, within 60 days after the date the Director received notice of the final order or decision of the Board, a petition for judicial review in the United States Court of Appeals for the Federal Circuit if the Director determines, in his discretion, that the Board erred in interpreting a civil service law, rule, or regulation affecting personnel management and that the Board's decision will have a substantial impact on a civil service law, rule, regulation, or policy directive. If the Director did not intervene in a matter before the Board, the Director may not petition for review of a Board decision under this section unless the Director first petitions the Board for a reconsideration of its decision, and such petition is denied. In addition to the named respondent, the Board and all other parties to the proceedings before the Board shall have the right to appear in the proceeding before the Court of Appeals. The granting of the petition for judicial review shall be at the discretion of the Court of Appeals.

"(2) During the 5-year period beginning on the effective date of the Federal Employee Protection of Disclosures Act, this paragraph shall apply to any review relating to paragraph (8) or (9) of section 2302(b) obtained by the Director of the Office of Personnel Management. The Director of the Office of Personnel Management may obtain review of any final order or decision of the Board by filing, within 60 days after the date the Director received notice of the final order or decision of the Board, a petition for judicial review in the United States Court of Appeals for the Federal Circuit or any court of appeals of competent jurisdiction as provided under subsection (b)(2) if the Director determines, in his discretion, that the Board erred in interpreting paragraph (8) or (9) of section 2302(b). If the Director did not intervene in a matter before the Board, the Director may not petition for review of a Board decision under this section unless the Director first petitions the Board for a reconsideration of its decision, and such petition is denied. In addition to the named respondent, the Board and all other parties to the proceedings before the Board shall have the right to appear in the proceeding before the court of appeals. The granting of the petition for judicial review shall be at the discretion of the Court of Appeals.".

(k) NONDISCLOSURE POLICIES, FORMS, AND AGREEMENTS.—

(1) IN GENERAL.—

(A) REQUIREMENT.—Each agreement in Standard Forms 312 and 4414 of the Government and any other nondisclosure policy, form, or agreement of the Government shall contain the following statement: "These restrictions are consistent with and do not supersede, conflict with, or otherwise alter the employee obligations, rights, or liabilities created by Executive Order No. 12958; section 7211 of title 5, United States Code (governing disclosures to Congress); section 1034 of title 10, United States Code (governing disclosure to Congress by members of the military); section 2302(b)(8) of title 5, United States

Code (governing disclosures of illegality, waste, fraud, abuse or public health or safety threats); the Intelligence Identities Protection Act of 1982 (50 U.S.C. 421 et seq.) (governing disclosures that could expose confidential Government agents); and the statutes which protect against disclosure that may compromise the national security, including sections 641, 793, 794, 798, and 952 of title 18, United States Code, and section 4(b) of the Subversive Activities Act of 1950 (50 U.S.C. 783(b)). The definitions, requirements, obligations, rights, sanctions, and liabilities created by such Executive order and such statutory provisions are incorporated into this agreement and are controlling.".

(B) ENFORCEABILITY.—Any nondisclosure policy, form, or agreement described under subparagraph (A) that does not contain the statement required under subparagraph (A) may not be implemented or enforced to the extent such policy, form, or agreement is inconsistent with that statement.

(2) PERSONS OTHER THAN GOVERNMENT EMPLOYEES.—Notwithstanding paragraph (1), a nondisclosure policy, form, or agreement that is to be executed by a person connected with the conduct of an intelligence or intelligence-related activity, other than an employee or officer of the United States Government, may contain provisions appropriate to the particular activity for which such document is to be used. Such form or agreement shall, at a minimum, require that the person will not disclose any classified information received in the course of such activity unless specifically authorized to do so by the United States Government. Such nondisclosure forms shall also make it clear that such forms do not bar disclosures to Congress or to an authorized official of an executive agency or the Department of Justice that are essential to reporting a substantial violation of law.

(l) CLARIFICATION OF WHISTLEBLOWER RIGHTS FOR CRITICAL INFRASTRUCTURE INFORMATION.—Section 214(c) of the Homeland Security Act of 2002 (6 U.S.C. 133(c)) is amended by adding at the end the following: "For purposes of this section a permissible use of independently obtained information includes the disclosure of such information under section 2302(b)(8) of title 5, United States Code.".

(m) ADVISING EMPLOYEES OF RIGHTS.—Section 2302(c) of title 5, United States Code, is amended by inserting ", including how to make a lawful disclosure of information that is specifically required by law or Executive order to be kept secret in the interest of national defense or the conduct of foreign affairs to the Special Counsel, the Inspector General of an agency, Congress, or other agency employee designated to receive such disclosures" after "chapter 12 of this title".

(n) SCOPE OF DUE PROCESS.—

(1) SPECIAL COUNSEL.—Section 1214(b)(4)(B)(ii) of title 5, United States Code, is amended by inserting ", after a finding that a protected disclosure was a contributing factor," after "ordered if".

(2) INDIVIDUAL ACTION.—Section 1221(e)(2) of title 5, United States Code, is amended by inserting ", after a finding that a protected disclosure was a contributing factor," after "ordered if".

(o) REPORTING REQUIREMENTS.—

(1) GOVERNMENT ACCOUNTABILITY OFFICE.—

(A) IN GENERAL.—Not later than 40 months after the date of enactment of this Act, the Government Accountability Office shall submit a report to the Committee on Homeland Security and Governmental Affairs of the Senate and the Committee on Oversight and Government Reform of the House of Representatives on the implementation of this Act.

(B) CONTENTS.—The report under this paragraph shall include—

(i) an analysis of any changes in the number of cases filed with the United States Merit Systems Protection Board alleging violations of section 2302(b)(8) or (9) of title 5, United States Code, since the effective date of the Act;

(ii) the outcome of the cases described under clause (i), including whether or not the United States Merit Systems Protection Board, the Federal Circuit Court of Appeals, or any other court determined the allegations to be frivolous or malicious; and

(iii) any other matter as determined by the Government Accountability Office.

(2) MERIT SYSTEMS PROTECTION BOARD.—

(A) IN GENERAL.—Each report submitted annually by the Merit Systems Protection Board under section 1116 of title 31, United States Code, shall, with respect to the period covered by such report, include as an addendum the following:

(i) Information relating to the outcome of cases decided during the applicable year of the report in which violations of section 2302(b)(8) or (9) of title 5, United States Code, were alleged.

(ii) The number of such cases filed in the regional and field offices, the number of petitions for review filed in such cases, and the outcomes of such cases.

(B) FIRST REPORT.—The first report described under subparagraph (A) submitted after the date of enactment of this Act shall include an addendum required under that subparagraph that covers the period beginning on January 1, 2008 through the end of the fiscal year 2008.

(p) EFFECTIVE DATE.—This Act shall take effect 30 days after the date of enactment of this Act.

DR. JAMES ALLEN VETERAN VISION EQUITY ACT OF 2007

Mr. DODD. Mr. President, I ask unanimous consent that the Chair lay before the Senate a message from the House with respect to H.R. 797, the Veterans Vision Impairment.

The Presiding Officer (Mr. SANDERS) laid before the Senate the following message:

H.R. 797

Resolved, That the House agree to the amendment of the Senate to the bill (H.R. 797) entitled "An Act to amend title 38, United States Code, to improve compensation benefits for veterans in certain cases of impairment of vision involving both eyes, to provide for the use of the National Directory of New Hires for income verification purposes, to extend the authority of the Secretary of Veterans Affairs to provide an educational assistance allowance for qualifying work study activities, and to authorize the provision of bronze representations of the letter 'V' for the graves of eligible individuals buried in private cemeteries in lieu of Government-provided headstones or markers", with the following amendments:

In lieu of the matter proposed to be inserted by the amendment of the Senate, insert the following:

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the "Dr. James Allen Veteran Vision Equity Act of 2007".

(b) TABLE OF CONTENTS.—The table of contents for this Act is as follows:

Sec. 1. Short title; table of contents.

TITLE I—LOW-VISION BENEFITS MATTERS

Sec. 101. Modification of rate of visual impairment for payment of disability compensation.

Sec. 102. Improvement in compensation for veterans in certain cases of impairment of vision involving both eyes.

TITLE II—MATTERS RELATING TO BURIAL AND MEMORIAL AFFAIRS

Sec. 201. Provision of medallion or other device for privately-purchased grave markers.

Sec. 202. Improvement in provision of assistance to States relating to the interment of veterans in cemeteries other than national cemeteries.

Sec. 203. Modification of authorities on provision of Government headstones and markers for burials of veterans at private cemeteries.

TITLE III—OTHER MATTERS

Sec. 301. Use of national directory of new hires for income verification purposes for certain veterans benefits.

Sec. 302. Extension of authority of Secretary of Veterans Affairs to provide an educational assistance allowance to persons performing qualifying work-study activities.

TITLE I—LOW-VISION BENEFITS MATTERS

SEC. 101. MODIFICATION OF RATE OF VISUAL IMPAIRMENT FOR PAYMENT OF DISABILITY COMPENSATION.

Section 1114(o) of title 38, United States Code, is amended by striking "5/200" and inserting "20/200".

SEC. 102. IMPROVEMENT IN COMPENSATION FOR VETERANS IN CERTAIN CASES OF IMPAIRMENT OF VISION INVOLVING BOTH EYES.

Section 1160(a)(1) of title 38, United States Code, is amended—

(1) by striking "blindness" both places it appears and inserting "impairment of vision";

(2) by striking "misconduct;" and inserting "misconduct and—"; and

(3) by adding at the end the following new subparagraphs:

"(A) the impairment of vision in each eye is rated at a visual acuity of 20/200 or less; or

"(B) the peripheral field of vision for each eye is 20 degrees or less;".

TITLE II—MATTERS RELATING TO BURIAL AND MEMORIAL AFFAIRS

SEC. 201. PROVISION OF MEDALLION OR OTHER DEVICE FOR PRIVATELY-PURCHASED GRAVE MARKERS.

Section 2306(d) of title 38, United States Code, is amended by adding at the end the following new paragraph:

"(5) In lieu of furnishing a headstone or marker under this subsection, the Secretary may furnish, upon request, a medallion or other device of a design determined by the Secretary to signify the deceased's status as a veteran, to be attached to a headstone or marker furnished at private expense.".

SEC. 202. IMPROVEMENT IN PROVISION OF ASSISTANCE TO STATES RELATING TO THE INTERMENT OF VETERANS IN CEMETERIES OTHER THAN NATIONAL CEMETERIES.

(a) REPEAL OF TIME LIMITATION FOR STATE FILING FOR REIMBURSEMENT FOR INTERMENT COSTS.—

(1) IN GENERAL.—The second sentence of section 3.1604(d)(2) of title 38, Code of Federal Regulations, shall have no further force or effect as

it pertains to unclaimed remains of a deceased veteran.

(2) RETROACTIVE APPLICATION.—Paragraph (1) shall take effect as of October 1, 2006 and apply with respect to interments and inurnments occurring on or after that date.

(b) GRANTS FOR OPERATION AND MAINTENANCE OF STATE VETERANS' CEMETERIES.—

(1) IN GENERAL.—Subsection (a) of section 2408 of title 38, United States Code, is amended to read as follows:

"(a)(1) Subject to subsection (b), the Secretary may make a grant to any State for the following purposes:

"(A) Establishing, expanding, or improving a veterans' cemetery owned by the State.

"(B) Operating and maintaining such a cemetery.

"(2) A grant under paragraph (1) may be made only upon submission of an application to the Secretary in such form and manner, and containing such information, as the Secretary may require.".

(2) LIMITATION ON AMOUNTS AWARDED.—Subsection (e) of such section is amended—

(A) by inserting "(1)" before "Amounts"; and

(B) by adding at the end the following new paragraph:

"(2) In any fiscal year, the aggregate amount of grants awarded under this section for the purposes specified in subsection (a)(1)(B) may not exceed $5,000,000.".

(3) CONFORMING AMENDMENTS.—Such section is further amended—

(A) in subsection (b)—

(i) by striking "Grants under this section" and inserting "A grant under this section for a purpose described in subsection (a)(1)(A)"; and

(ii) by striking "a grant under this section" each place it appears and inserting "such a grant";

(B) in subsection (d), by striking "to assist such State in establishing, expanding, or improving a veterans' cemetery"; and

(C) in subsection (f)(1), by inserting ", or in operating and maintaining such cemeteries," after "veterans' cemeteries".

(4) REGULATIONS.—Not later than 180 days after the date of the enactment of this Act, the Secretary of Veterans Affairs shall prescribe regulations to carry out the amendments made by this subsection.

SEC. 203. MODIFICATION OF AUTHORITIES ON PROVISION OF GOVERNMENT HEADSTONES AND MARKERS FOR BURIALS OF VETERANS AT PRIVATE CEMETERIES.

(a) REPEAL OF EXPIRATION OF AUTHORITY.—Subsection (d) of section 2306 of title 38, United States Code, as amended by section 201, is further amended—

(1) by striking paragraph (3); and

(2) by redesignating paragraphs (4) and (5), as added by that section, as paragraphs (3) and (4), respectively.

(b) RETROACTIVE EFFECTIVE DATE.—Notwithstanding subsection (d) of section 502 of the Veterans Education and Benefits Expansion Act of 2001 (Public Law 107–103; 115 Stat. 995; 38 U.S.C. 2306 note) or any other provision of law, the amendments made by that section and by subsections (a), (b), (c), (d), and (f) of section 402 of the Veterans Benefits, Health Care, and Information Technology Act of 2006 (Public Law 109–461; 120 Stat. 3429) shall take effect as of November 1, 1990, and shall apply with respect to headstones and markers for the graves of individuals dying on or after that date.

TITLE III—OTHER MATTERS

SEC. 301. USE OF NATIONAL DIRECTORY OF NEW HIRES FOR INCOME VERIFICATION PURPOSES FOR CERTAIN VETERANS BENEFITS.

(a) AUTHORITY FOR INFORMATION COMPARISONS AND DISCLOSURES OF INFORMATION TO ASSIST IN ADMINISTRATION OF CERTAIN VETERANS BENEFITS.—Section 453(j) of the Social Security Act (42 U.S.C. 653(j)) is amended by adding at the end the following new paragraph:

"(11) INFORMATION COMPARISONS AND DISCLOSURES TO ASSIST IN ADMINISTRATION OF CERTAIN VETERANS BENEFITS.—

"(A) FURNISHING OF INFORMATION BY SECRETARY OF VETERANS AFFAIRS.—Subject to the provisions of this paragraph, the Secretary of Veterans Affairs shall furnish to the Secretary, on such periodic basis as determined by the Secretary of Veterans Affairs in consultation with the Secretary, information in the custody of the Secretary of Veterans Affairs for comparison with information in the National Directory of New Hires, in order to obtain information in such Directory with respect to individuals who are applying for or receiving—

"(i) needs-based pension benefits provided under chapter 15 of title 38, United States Code, or under any other law administered by the Secretary of Veterans Affairs;

"(ii) parents' dependency and indemnity compensation provided under section 1315 of title 38, United States Code;

"(iii) health care services furnished under subsections (a)(2)(G), (a)(3), or (b) of section 1710 of title 38, United States Code; or

"(iv) compensation paid under chapter 11 of title 38, United States Code, at the 100 percent rate based solely on unemployability and without regard to the fact that the disability or disabilities are not rated as 100 percent disabling under the rating schedule.

"(B) REQUIREMENT TO SEEK MINIMUM INFORMATION.—The Secretary of Veterans Affairs shall seek information pursuant to this paragraph only to the extent necessary to verify the employment and income of individuals described in subparagraph (A).

"(C) DUTIES OF THE SECRETARY.—

"(i) INFORMATION DISCLOSURE.—The Secretary, in cooperation with the Secretary of Veterans Affairs, shall compare information in the National Directory of New Hires with information provided by the Secretary of Veterans Affairs with respect to individuals described in subparagraph (A), and shall disclose information in such Directory regarding such individuals to the Secretary of Veterans Affairs, in accordance with this paragraph, for the purposes specified in this paragraph.

"(ii) CONDITION ON DISCLOSURE.—The Secretary shall make disclosures in accordance with clause (i) only to the extent that the Secretary determines that such disclosures do not interfere with the effective operation of the program under this part.

"(D) USE OF INFORMATION BY SECRETARY OF VETERANS AFFAIRS.—The Secretary of Veterans Affairs may use information resulting from a data match pursuant to this paragraph only—

"(i) for the purposes specified in subparagraph (B); and

"(ii) after removal of personal identifiers, to conduct analyses of the employment and income reporting of individuals described in subparagraph (A).

"(E) REIMBURSEMENT OF HHS COSTS.—The Secretary of Veterans Affairs shall reimburse the Secretary, in accordance with subsection (k)(3), for the costs incurred by the Secretary in furnishing the information requested under this paragraph.

"(F) CONSENT.—The Secretary of Veterans Affairs shall not seek, use, or disclose information under this paragraph relating to an individual without the prior written consent of such individual (or of a person legally authorized to consent on behalf of such individual).

"(G) EXPIRATION OF AUTHORITY.—The authority under this paragraph shall expire on September 30, 2011.".

(b) AMENDMENTS TO VETERANS AFFAIRS AUTHORITY.—

(1) IN GENERAL.—Chapter 53 of title 38, United States Code, is amended by inserting after section 5317 the following new section:

"§5317A. Use of income information from other agencies: independent verification required before termination or reduction of certain benefits and services

"(a) INDEPENDENT VERIFICATION REQUIRED.—The Secretary may terminate, deny, suspend, or reduce any benefit or service specified in section 5317(c), with respect to an individual under age 65 who is an applicant for or recipient of such a benefit or service, by reason of information obtained from the Secretary of Health and Human Services under section 453(j)(11) of the Social Security Act, only if the Secretary takes appropriate steps to verify independently information relating to the individual's employment and income from employment.

"(b) OPPORTUNITY TO CONTEST FINDINGS.—The Secretary shall inform each individual for whom the Secretary terminates, denies, suspends, or reduces any benefit or service under subsection (a) of the findings made by the Secretary under such subsection on the basis of verified information and shall provide to the individual an opportunity to contest such findings in the same manner as applies to other information and findings relating to eligibility for the benefit or service involved.

"(c) SOURCE OF FUNDS FOR REIMBURSEMENT TO SECRETARY OF HEALTH AND HUMAN SERVICES.—The Secretary shall pay the expense of reimbursing the Secretary of Health and Human Services in accordance with section 453(j)(11)(E) of the Social Security Act, for the cost incurred by the Secretary of Health and Human Services in furnishing information requested by the Secretary under section 453(j)(11) of such Act, from amounts available to the Department for the payment of compensation and pensions.

"(d) EXPIRATION OF AUTHORITY.—The authority under this section shall expire on September 30, 2011.".

(2) CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 5317 the following new item:

"5317A. Use of income information from other agencies: independent verification required before termination or reduction of certain benefits and services.".

SEC. 302. EXTENSION OF AUTHORITY OF SECRETARY OF VETERANS AFFAIRS TO PROVIDE AN EDUCATIONAL ASSISTANCE ALLOWANCE TO PERSONS PERFORMING QUALIFYING WORK-STUDY ACTIVITIES.

Section 3485(a)(4) of title 38, United States Code, is amended by striking "June 30, 2007" each place it appears and inserting "June 30, 2010".

Amend the title so as to read: "An Act to amend title 38, United States Code, to improve low-vision benefits matters, matters relating to burial and memorial affairs, and other matters under the laws administered by the Secretary of Veterans Affairs, and for other purposes.".

Mr. DODD. Mr. President, I ask unanimous consent that the Senate concur in the House amendments to the Senate amendment, and the motion to reconsider be laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

EXCEPTION FOR THE $1 COIN DISPENSING CAPABILITY REQUIREMENT

Mr. DODD. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of Calendar No. 515, H.R. 3703.

The PRESIDING OFFICER. The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (H.R. 3703) to amend section 5112(p)(1)(A) of title 31, United States Code, to allow an exception from the $1 coin dispensing capability requirement for certain vending machines.

There being no objection, the Senate proceeded to consider the bill.

Mr. DODD. Mr. President, I ask unanimous consent that the bill be read the third time, passed, and the motion to reconsider be laid upon the table, and that any statements relating to the bill be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (H.R. 3703) was ordered to a third reading, was read the third time, and passed.

DO-NOT-CALL REGISTRY FEE EXTENSION ACT OF 2007

Mr. DODD. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of Calendar No. 537, S. 781.

The PRESIDING OFFICER. The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (S. 781) to extend the authority of the Federal Trade Commission to collect Do-Not-Call Registry fees to fiscal years after fiscal year 2007.

There being no objection, the Senate proceeded to consider the bill, which had been reported by the Committee on Commerce, Science, and Transportation, with an amendment

To strike all after the enacting clause and insert in lieu thereof the following:

S. 781

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Do-Not-Call Registry Fee Extension Act of 2007".

SEC. 2. FEES FOR ACCESS TO REGISTRY.

Section 2, of the Do-Not-Call Implementation Act (15 U.S.C. 6101 note) is amended to read as follows:

"SEC. 2. TELEMARKETING SALES RULE; DO-NOT-CALL REGISTRY FEES.

"(a) IN GENERAL.—The Federal Trade Commission shall assess and collect an annual fee pursuant to this section in order to implement and enforce the 'do-not-call' registry as provided for in section 310.4(b)(1)(iii) of title 16, Code of Federal Regulations, or any other regulation issued by the Commission under section 3 of the Telemarketing and Consumer Fraud and Abuse Prevention Act (15 U.S.C. 6102).

"(b) ANNUAL FEES.—

"(1) IN GENERAL.—The Commission shall charge each person who accesses the 'do-not-call' registry an annual fee that is equal to the lesser of—

"(A) $54 for each area code of data accessed from the registry; or

"(B) $14,850 for access to every area code of data contained in the registry.

"(2) EXCEPTION.—The Commission shall not charge a fee to any person—

"(A) for accessing the first 5 area codes of data; or

"(B) for accessing area codes of data in the registry if the person is permitted to access, but is not required to access, the 'do-not-call' registry under section 310 of title 16, Code of Federal Regulations, section 64.1200 of title 47, Code of Federal Regulations, or any other Federal regulation or law.

"(3) DURATION OF ACCESS.—

"(A) IN GENERAL.—The Commission shall allow each person who pays the annual fee described in paragraph (1), each person excepted under paragraph (2) from paying the annual fee, and each person excepted from paying an annual fee under section 310.4(b)(1)(iii)(B) of title 16, Code of Federal Regulations, to access the area codes of data in the 'do-not-call' registry for which the person has paid during that person's annual period.

"(B) ANNUAL PERIOD.—In this paragraph, the term 'annual period' means the 12-month period beginning on the first day of the month in which a person pays the fee described in paragraph (1).

"(c) ADDITIONAL FEES.—

"(1) IN GENERAL.—The Commission shall charge a person required to pay an annual fee under subsection (b) an additional fee for each additional area code of data the person wishes to access during that person's annual period.

"(2) RATES.—For each additional area code of data to be accessed during the person's annual period, the Commission shall charge—

"(A) $54 for access to such data if access to the area code of data is first requested during the first 6 months of the person's annual period; or

"(B) $27 for access to such data if access to the area code of data is first requested after the first 6 months of the person's annual period.

"(d) ADJUSTMENT OF FEES.—

"(1) IN GENERAL.—

"(A) FISCAL YEAR 2009.—The dollar amount described in subsection (b) or (c) is the amount to be charged for fiscal year 2009.

"(B) FISCAL YEARS AFTER 2009.—For each fiscal year beginning after fiscal year 2009, each dollar amount in subsection (b)(1) and (c)(2) shall be increased by an amount equal to—

"(i) the dollar amount in paragraph (b)(1) or (c)(2), whichever is applicable, multiplied by

"(ii) the percentage (if any) by which the CPI for the most recently ended 12-month period ending on June 30 exceeds the baseline CPI.

"(2) ROUNDING.—Any increase under subparagraph (B) shall be rounded to the nearest dollar.

"(3) CHANGES LESS THAN 1 PERCENT.—The Commission shall not adjust the fees under this section if the change in the CPI is less than 1 percent.

"(4) PUBLICATION.—Not later than September 1 of each year the Commission shall publish in the Federal Register the adjustments to the applicable fees, if any, made under this subsection.

"(5) DEFINITIONS.—In this subsection:

"(A) CPI.—The term 'CPI' means the average of the monthly consumer price index (for all urban consumers published by the Department of Labor).

"(B) BASELINE CPI.—The term 'baseline CPI' means the CPI for the 12-month period ending June 30, 2008.

"(e) PROHIBITION AGAINST FEE SHARING.—No person may enter into or participate in an arrangement (as such term is used in section 310.8(c) of the Commission's regulations (16 C.F.R. 310.8(c))) to share any fee required by subsection (b) or (c), including any arrangement to divide the costs to access the registry among various clients of a telemarketer or service provider.

"(f) HANDLING OF FEES.—

"(1) IN GENERAL.—The commission shall deposit and credit as offsetting collections any fee collected under this section in the account 'Federal Trade Commission—Salaries and Expenses', and such sums shall remain available until expended.

"(2) LIMITATION.—No amount shall be collected as a fee under this section for any fiscal year except to the extent provided in advance by appropriations Acts.".

SEC. 3. REPORT.

Section 4 of the Do-Not-Call Implementation Act (15 U.S.C. 6101 note) is amended to read as follows:

"SEC. 4. REPORTING REQUIREMENTS.

"(a) BIENNIAL REPORTS.—Not later than December 31, 2009, and biennially thereafter, the Federal Trade Commission, in consultation with the Federal Communications Commission, shall transmit a report to the Senate Committee on Commerce, Science, and Transportation and the House of Representatives Committee on Energy and Commerce that includes—

"(1) the number of consumers who have placed their telephone numbers on the registry;

"(2) the number of persons paying fees for access to the registry and the amount of such fees;

"(3) the impact on the 'do-not-call' registry of—

"(A) the 5-year reregistration requirement;

"(B) new telecommunications technology; and

"(C) number portability and abandoned telephone numbers; and

"(4) the impact of the established business relationship exception on businesses and consumers.

"(b) ADDITIONAL REPORT.—Not later than December 31, 2009, the Federal Trade Commission, in consultation with the Federal Communications Commission, shall transmit a report to the Senate Committee on Commerce, Science, and Transportation and the House of Representatives Committee on Energy and Commerce that includes—

"(1) the effectiveness of do-not-call outreach and enforcement efforts with regard to senior citizens and immigrant communities;

"(2) the impact of the exceptions to the do-not-call registry on businesses and consumers, including an analysis of the effectiveness of the registry and consumer perceptions of the registry's effectiveness; and

"(3) the impact of abandoned calls made by predictive dialing devices on do-not-call enforcment.".

SEC. 4. RULEMAKING.

The Federal Trade Commission may issue rules, in accordance with section 553 of title 5, United States Code, as necessary and appropriate to carry out the amendments to the Do-Not-Call Implementation Act (15 U.S.C. 6101 note) made by this Act.

Mr. DODD. Mr. President, I ask unanimous consent that the committee-reported amendment be considered and agreed to, the bill as amended be read a third time, passed, and the motion to reconsider be laid upon the table, and that any statements relating thereto be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The committee amendment in the nature of a substitute was agreed to.

The bill (S. 781), as amended, was ordered to be engrossed for a third reading, was read the third time, and passed.

DO-NOT-CALL IMPROVEMENT ACT OF 2007

Mr. DODD. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of Calendar No. 539, S. 2096.

The PRESIDING OFFICER. The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (S. 2096) to amend the Do-Not-Call Implementation Act to eliminate the automatic removal of telephone numbers registered on the Federal "do-not-call" registry.

There being no objection, the Senate proceeded to consider the bill which had been reported from the Committee on Commerce, Science, and Transportation with an amendment to strike all after the enacting clause and insert in lieu thereof the following:

S. 2096

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Do-Not-Call Improvement Act of 2007".

SEC. 2. PROHIBITION OF EXPIRATION DATE FOR REGISTERED TELEPHONE NUMBERS.

(a) IN GENERAL.—The registration of a telephone number on the do-not-call registry of the Telemarketing Sales Rule (16 C.F.R. 310.4(b)(1)(iii)) shall not expire at the end of any specified time period.

(b) REINSTATEMENT.—The Federal Trade Commission shall reinstate the registration of any telephone number that has been removed from the registry before the date of enactment of this Act under a Federal Trade Commission rule or practice requiring the removal of a telephone number from the registry 5 years after its registration.

(c) REGISTRY MAINTENANCE.—The Federal Trade Commission may check telephone numbers listed on the do-not-call registry against national databases periodically and purge those numbers that have been disconnected and reassigned.

Mr. DODD. I ask unanimous consent that the amendment at the desk be considered and agreed to; the committee-reported amendment, as amended, be agreed to; the bill, as amended, be read a third time, passed, the motion to reconsider be laid upon the table, and that any statements related thereto be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment (No. 3867) was agreed to, as follows:

(Purpose: To require the FTC to report to the Congress on its efforts to improve the accuracy of the Do-Not-Call Registry)

At the end of the bill, add the following:

SEC. 3. REPORT ON ACCURACY.

Not later than 9 months after the enactment of this Act, the Federal Trade Commission shall report to the Congress on efforts taken by the Commission, after the date of enactment of this Act, to improve the accuracy of the "do-not-call" Registry.

The committee amendment in the nature of a substitute, as amended, was agreed to.

The bill, as amended, was ordered to be engrossed for a third reading, read the third time and passed, as follows:

S. 2096

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Do-Not-Call Improvement Act of 2007".

SEC. 2. PROHIBITION OF EXPIRATION DATE FOR REGISTERED TELEPHONE NUMBERS.

(a) IN GENERAL.—The registration of a telephone number on the do-not-call registry of the Telemarketing Sales Rule (16 C.F.R. 310.4(b)(1)(iii)) shall not expire at the end of any specified time period.

(b) REINSTATEMENT.—The Federal Trade Commission shall reinstate the registration of any telephone number that has been removed from the registry before the date of enactment of this Act under a Federal Trade Commission rule or practice requiring the removal of a telephone number from the registry 5 years after its registration.

(c) REGISTRY MAINTENANCE.—The Federal Trade Commission may check telephone numbers listed on the do-not-call registry against national databases periodically and purge those numbers that have been disconnected and reassigned.

SEC. 3. REPORT ON ACCURACY.

Not later than 9 months after the enactment of this Act, the Federal Trade Commission shall report to the Congress on efforts taken by the Commission, after the date of enactment of this Act, to improve the accuracy of the "do-not-call" Registry.

COURT SECURITY IMPROVEMENT ACT OF 2007

Mr. DODD. I ask unanimous consent that the Judiciary Committee be discharged from further consideration of H.R. 660, and the Senate proceed to its immediate consideration.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (H.R. 660) to amend title 18, United States Code, to protect judges, prosecutors, witnesses, victims, and their family members, and for other purposes.

There being no objection, the Senate proceeded to consider the bill.

Mr. LEAHY. Mr. President, at the very beginning of this Congress, one of the very first actions I took was to reintroduce the Court Security Improvement Act of 2007, along with Senators REID, SPECTER, DURBIN, CORNYN, KENNEDY, HATCH, SCHUMER and COLLINS. The Judiciary Committee considered this important legislation, and recommended it to the full Senate. When Majority Leader REID wanted to move to consider it, he could not get a time agreement. We were forced to dedicate almost a week of precious floor time to overcome a Republican objection, just to proceed to debate on the bill. Eventually, the measure passed by a 97 to 0 vote. Not a single Senator voted against it. A short time later, a nearly identical bill passed the House by a voice vote. Despite the broad bipartisan support for both bills, however, we were blocked from going to conference to resolve the minor differences between them by an anonymous hold placed by a Republican Senator. For months, we negotiated the minor differences between the House and Senate versions of this legislation.

When we are responding to attacks and threats on our Federal judges, witnesses and officers, time is of the essence. Just last month in Nevada, a man admitted to shooting and injuring the family court judge who was presiding over his divorce. This type of violence against our judiciary can and must be prevented. For our justice system to function effectively, our judges and other court personnel must be safe and secure. They and their families must be free from the fear of retaliation and harassment. Witnesses who come forward must be protected, and the courthouses where our laws are enforced must be secure. Today, almost eleven months after introducing this legislation, we may actually reach consent to pass a compromise version that will pass the House and be sent to the President.

We must act now to get these protections in place and stop delaying such protective measures by anonymous holds. I urge Senators to take up and pass this compromise version of the Court Security Improvement Act so that we can provide the necessary protections that our Federal courts so desperately need. The security of our Federal judges and our courthouses around the Nation is at stake.

Mr. KYL. Mr. President, I rise today to comment on H.R. 660, the Court Security Improvement Act of 2007. Section 509 of the final substitute transfers one seat from the U.S. Court of Appeals for the District of Columbia Circuit to the U.S. Court of Appeals for the Ninth Circuit. The reasons for this change are explained in Senator FEINSTEIN's and my additional views in S. Rept. 110-42.

Section 102 of the bill authorizes the U.S. Marshals Service to provide protection to the U.S. Tax Court, and stipulates that the Marshals Service retains final authority regarding the Tax Court's security needs. The Tax Court has expressed concern to me and to other Members that the Marshals Service should consult with the Tax Court about the costs that it expects to incur for providing security—costs that will be charged to the Tax Court. The Marshals Service has assured Congress that it will consult with the Tax Court on these matters and that it will not surprise the Tax Court with charges that the court may have difficulty paying. Rather than include heavy-handed consultation requirements in the text of the legislation, we have agreed to adopt the bill in its current form on the strength of these assurances.

Section 202 of the bill makes it an offense to disseminate sensitive personal information about Federal police officers and criminal informants and witnesses. The final version extends this offense to also protect State law enforcement officers, but only to the extent that their participation in Federal activities creates a Federal interest sufficient to maintain this provision's consistency with principles of federalism.

Section 207 increases statutory maximum penalties for manslaughter under section 1112 of title 18. I expect the U.S. Sentencing Commission to revise its guidelines for these offenses in light of these new higher statutory maxima. I commented on the need for these changes when the Senate version of this bill passed the Senate earlier this year and would refer interested parties to those remarks and especially to Paul Charlton's testimony, at 153 CONG. REC. S4739–4741, daily ed. April 19, 2007.

Section 208 increases the penalties for retaliatory assaults against Federal judges' family members. This provision also clarifies an assault offense that was created by Congress in 1994. The offense establishes penalties for simple assault, assault with bodily injury, and for assault in "all other cases." As one might imagine, the meaning of assault in "all other cases" has been the subject of confusion and judicial debate. The offense has also been the subject of constant vagueness challenges, and although those legal challenges have been rejected, the offense is rather vague. Section 208 takes the opportunity to correct this legislative sin, codifying what I believe is the most thoughtful explanation of what this language means, the 10th Circuit's decision in *United States* v. *Hathaway*, 318 F.3d 1001, 1008–09, 10th Cir. 2003. A conforming change has also been made to section 111 of title 18, so that sections 111 and 115 will match each other and, again, so that people can easily figure out what this offense actually proscribes.

Section 503 of the bill guarantees that senior district judges may elect to participate in court rulemaking, appointment of magistrates and court officers, and other administrative matters, so long as such judges carry at least half of the caseload of an active district judge. I believe that this provision is a bad idea, though its negative consequences have been greatly mitigated in this final substitute as a result of the intervention of Senator SESSIONS. Many senior judges are often not present at the courthouse and are disengaged from the work of the court and the life of the court. Moreover, Congress has no business telling the courts how to manage these types of internal organizational matters. Those jurists who share my objection to this provision should be grateful to Senator SESSIONS, who insisted that the provision be limited to district judges as opposed to circuit judges, that a senior judge be required to elect to exercise these functions, and that a senior judge carry at least half of a full caseload in order to be entitled to assume these powers.

Finally, section 511 adds nomenclature to section 2255 of title 28, a change recommended to me by Kent Scheidegger of the Criminal Justice Legal Foundation. This change has no substantive effect but should make this code section easier for litigants to cite.

Mr. DODD. I ask unanimous consent that a Leahy substitute amendment at the desk be agreed to; the bill, as amended, be read a third time and passed; the motions to reconsider be laid upon the table with no intervening action or debate, and any statements related to the bill be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment (No. 3868) was agreed to.

(The amendment is printed in today's RECORD under "Text of Amendments.")

The amendment was ordered to be engrossed and the bill read a third time.

The bill (H.R. 660), as amended, was read the third time and passed.

U.S. CAPITOL POLICE AND LIBRARY OF CONGRESS POLICE MERGER IMPLEMENTATION ACT OF 2007

Mr. DODD. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of H.R. 3690, just received from the House and at the desk.

The PRESIDING OFFICER. The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (H.R. 3690) to provide for the transfer of the Library of Congress police to the United States Capitol Police, and for other purposes.

There being no objection, the Senate proceeded to consider the bill.

RIGHTS AND PROTECTIONS

Mr. LIEBERMAN. Mr. President, I appreciate the work by my colleague, Senator FEINSTEIN, who chairs the Committee on Rules and Administration, and by other Senators over many years to accomplish this merger of the U.S. Capitol Police and the Library of Congress Police.

The U.S. Capitol Police and Library of Congress Police Merger and Implementation Act of 2007 provides that employees of the Library of Congress Police shall be transferred to the United States Capitol Police. I would like to ask my colleague Senator FEINSTEIN about provisions under which the Chief of the U.S. Capitol Police will make certain final determinations regarding the incoming Library of Congress Police employees that shall not be appealable or reviewable in any manner. It is my understanding that these provisions would generally prevent individuals from appealing or seeking review of the determinations of the Chief of the U.S. Capitol Police, but would not limit the right of any individual to seek any appropriate relief under the Congressional Accountability Act if these determinations by the Chief allegedly violated that act.

The Congressional Accountability Act was enacted in 1995 to provide to congressional employees the same rights and protections that are available to other employees in our Nation, including protection against discrimination on the basis of race, sex, national origin, religion, or age. My understanding is that the merger legislation would in no way limit the right of any employee covered under the Congressional Accountability Act to initiate an action regarding any alleged violation of rights protected under that Act. I have also been told that this interpretation of the legislation is shared by the Chief of the U.S. Capitol Police, and that Library of Congress employees transferring to the U.S. Capitol Police will be informed and educated about their rights and protections under the Congressional Accountability Act.

Mrs. FEINSTEIN. The understanding of my colleague from Connecticut, Senator LIEBERMAN, is correct. The finality provisions in this legislation were intended to give the Chief of the U.S. Capitol Police authority to transfer employees and assign duties as necessary to meet the mission of the U.S. Capitol Police in maintaining the security of the Capitol complex. However, the provisions in this legislation in no way limit the protections and rights of an employee to seek relief under the Congressional Accountability Act.

Mr. LIEBERMAN. I thank the Senator for her assistance and courtesy.

Mr. DODD. I ask unanimous consent that the amendment at the desk be considered and agreed to; the bill, as amended, be read a third time, passed, and the motion to reconsider be laid upon the table; that any statements relating to the bill be printed in the RECORD without further intervening action or debate.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment (No. 3869) was agreed to.

(The amendment is printed in today's RECORD under "Text of Amendments.")

The amendment was ordered to be engrossed and the bill to be read a third time.

The bill (H.R. 3690), as amended, was read the third time and passed.

NATIONAL TEEN DATING VIOLENCE AWARENESS AND PREVENTION WEEK

Mr. DODD. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of Calendar No. 541, S. Res. 388.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 388) designating the week of February 4 through February 8, 2008, as "National Teen Dating Violence Awareness and Prevention Week."

There being no objection, the Senate proceeded to consider the resolution.

Mr. DODD. Mr. President, I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, the motions to reconsider be laid upon the table, and that any statements relating to the resolution be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 388) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 388

Whereas 1 in 3 female teenagers in a dating relationship has feared for her physical safety;

Whereas 1 in 2 teenagers in a serious relationship has compromised personal beliefs to please a partner;

Whereas 1 in 5 teenagers in a serious relationship reports having been hit, slapped, or pushed by a partner;

Whereas 27 percent of teenagers have been in dating relationships in which their partners called them names or put them down;

Whereas 29 percent of girls who have been in a relationship said that they have been pressured to have sex or to engage in sexual activities that they did not want;

Whereas technologies such as cell phones and the Internet have made dating abuse both more pervasive and more hidden;

Whereas 30 percent of teenagers who have been in a dating relationship say that they have been text-messaged between 10 and 30 times per hour by a partner seeking to find out where they are, what they are doing, or who they are with;

Whereas 72 percent of teenagers who reported they'd been checked up on by a boyfriend or girlfriend 10 times per hour by email or text messaging did not tell their parents;

Whereas parents are largely unaware of the cell phone and Internet harassment experienced by teenagers;

Whereas Native American women experience higher rates of interpersonal violence than any other population group;

Whereas violent relationships in adolescence can have serious ramifications for victims, putting them at higher risk for substance abuse, eating disorders, risky sexual behavior, suicide, and adult revictimization;

Whereas the severity of violence among intimate partners has been shown to be greater in cases where the pattern of violence has been established in adolescence; and

Whereas the establishment of National Teen Dating Violence Awareness and Prevention Week will benefit schools, communities, and families regardless of socio-economic status, race, or sex: Now, therefore be it

Resolved, That the Senate—

(1) designates the week of February 4 through February 8, 2008, as "National Teen Dating Violence Awareness and Prevention Week"; and

(2) calls upon the people of the United States, high schools, law enforcement, State and local officials, and interested groups to observe National Teen Dating Violence Awareness and Prevention Week with appropriate programs and activities that promote awareness and prevention of the crime of teen dating violence in their communities.

HONORING THE UNIVERSITY OF HAWAII

Mr. DODD. Mr. President, I ask unanimous consent that the Judiciary Committee be discharged from further consideration of H. Con. Res. 264, and that the Senate then proceed to its immediate consideration.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will report the concurrent resolution by title.

The legislative clerk read as follows:

A concurrent resolution (H. Con. Res. 264) honoring the University of Hawaii for its 100 years of commitment to public higher education.

There being no objection, the Senate proceeded to consider the concurrent resolution.

Mr. DODD. Mr. President, I ask unanimous consent that the concurrent resolution be agreed to, the preamble be agreed to, the motions to reconsider be laid upon the table; that any statements relating thereto be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The concurrent resolution (H. Con. Res. 264) was agreed to.

The preamble was agreed to.

RELATIVE TO THE DEATH OF REPRESENTATIVE JULIA CARSON OF INDIANA

Mr. DODD. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of S. Res. 407, submitted earlier today.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 407) relative to the death of Representative JULIA CARSON, of Indiana.

There being no objection, the Senate proceeded to consider the resolution.

Mr. DODD. Mr. President, I ask unanimous consent that the resolution be agreed to, and the motion to reconsider be laid upon the table en bloc; that any statements relating thereto be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 407) was agreed to, as follows:

S. RES. 407

Resolved, That the Senate has heard with profound sorrow and deep regret the announcement of the death of the Honorable JULIA CARSON, late a Representative from the State of Indiana.

Resolved, That the Secretary communicate these resolutions to the House of Representatives and transmit an enrolled copy thereof to the family of the deceased.

Resolved, That when the Senate adjourns or recesses today, it stand adjourned or recessed as a further mark of respect to the memory of the deceased Representative.

CONGRATULATING THE VALDOSTA STATE UNIVERSITY FOOTBALL TEAM

Mr. DODD. Mr. President, I ask unanimous consent that the Senate now proceed to the consideration of S. Res. 408 which was submitted earlier today.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 408) congratulating the Valdosta State University football team on winning the 2007 Division II national championship.

There being no objection, the Senate proceeded to consider the resolution.

Mr. DODD. Mr. President, I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, and the motion to reconsider be laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 408) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, is as follows:

S. RES. 408

Whereas, on December 15, 2007, the Valdosta State University Blazers football team defeated Northwest Missouri State University by a score of 25-20 in Florence, Alabama, to win the 2007 National Collegiate Athletic Association (NCAA) Division II National Championship;

Whereas this victory gave Valdosta State University its 2nd football national championship title in 4 years;

Whereas Coach David Dean became only the 2nd 1st-year head coach in NCAA history to lead a team to the Division II title;

Whereas the Blazers finished the season with an impressive 13-1 record, including victories over Catawba College, the University of North Alabama, and California University of Pennsylvania in the playoffs to advance to the championship game against Northwest Missouri State University; and

Whereas 7 Valdosta State University players were named to the All-Gulf Conference team, including wide receiver Cedric Jones and safety Sherard Reynolds, who were also named to the All-American team: Now, therefore, be it

Resolved, That the Senate—

(1) congratulates and honors the Valdosta State University Blazers football team on winning the 2007 National Collegiate Athletic Association Division II National Championship;

(2) recognizes and commends the courage, hard work, and dedication displayed by the

Valdosta State University football team and staff throughout the season in order to obtain this great honor; and

(3) commends Valdosta State University, the city of Valdosta, and all of the fans of the Blazers football team throughout the State of Georgia for their endless support of this special team throughout the 2007 championship season.

ORDERS FOR TUESDAY, DECEMBER 18, 2007

Mr. DODD. Mr. President, I ask unanimous consent that when the Senate completes its business today, it stand adjourned until 10 a.m. Tuesday, December 18; that on Tuesday, following the prayer and pledge, the Journal of proceedings be approved to date, the morning hour be deemed expired, the time for the two leaders reserved for their use later in the day, and that there be a period of morning business for 90 minutes, with the time equally divided and controlled between the two leaders or their designees; that Senators be permitted to speak therein for up to 10 minutes each; that on Tuesday, the Senate stand in recess from 12:30 p.m. to 2:15 p.m. in order to accommodate the respective party conference meetings; that the motion to proceed to S. 2248 be adopted once this consent is granted and that all time postcloture be considered yielded back.

The PRESIDING OFFICER. Without objection, it is so ordered.

FOREIGN INTELLIGENCE SURVEILLANCE ACT

The PRESIDING OFFICER. The clerk will report the the bill by title.

The legislative clerk read as follows:

A bill (S. 2248) to amend the Foreign Intelligence Surveillance Act of 1978, and so forth and for other purposes.

ORDER OF BUSINESS

Mr. DODD. Mr. President, I would like to announce on behalf of the leader it is his intent to consider the House message on H.R. 2764, the State, Foreign Operations Appropriations Act.

ADJOURNMENT UNTIL 10 A.M. TOMORROW

Mr. DODD. Mr. President, if there is no further business today, I now ask unanimous consent that the Senate stand adjourned under the provisions of S. Res. 407, as a further mark of respect on the passing of JULIA CARSON, late Representative from Indiana.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senate stands in adjournment until 10 a.m. tomorrow, pursuant to S. Res. 407, and does so as a mark of further respect to the memory of JULIA CARSON, late Representative from the State of Indiana.

Thereupon, the Senate, at 8:01 p.m., adjourned until Tuesday, December 18, 2007, at 10 a.m.

HOUSE OF REPRESENTATIVES—*Monday, December 17, 2007*

The House met at 10:30 a.m. and was called to order by the Speaker pro tempore (Mr. BAIRD).

DESIGNATION OF SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC,
December 17, 2007.

I hereby appoint the Honorable BRIAN BAIRD to act as Speaker pro tempore on this day.

NANCY PELOSI,
Speaker of the House of Representatives.

MORNING-HOUR DEBATE

The SPEAKER pro tempore. Pursuant to the order of the House of January 4, 2007, the Chair will now recognize Members from lists submitted by the majority and minority leaders for morning-hour debate.

The Chair will alternate recognition between the parties, with each party limited to 30 minutes and each Member, other than the majority and minority leaders and the minority whip, limited to 5 minutes.

RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess until noon today.

Accordingly (at 10 o'clock and 31 minutes a.m.), the House stood in recess until noon.

□ 1200

AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mr. CARDOZA) at noon.

PRAYER

The Chaplain, the Reverend Daniel P. Coughlin, offered the following prayer:

Above the cold winds is a clear blue sky. Behind a flurry of activity is the conviction we are entering a holy season.

Lord God, as Congress resumes major responsibilities today, we mourn the passing of a dear colleague, strong witness of perseverance in suffering and advocate for the poor and the homeless, the Honorable JULIA CARSON.

Her sweet manner always shown through her raspy voice and determination. Her smile born out of sincerity and faith encouraged others when there was only a smidgen of hope.

God of all consolation, reward her public service, and be close to all who grieve the loss of her presence.

As all prepare to celebrate the approaching feast of heaven and Earth, we know many will greet her with shouts of triumph and thanksgiving. In Your kingdom, You will invite her to take her place where Rosa Parks has reserved for her a seat.

May she rest in peace. Amen.

THE JOURNAL

The SPEAKER pro tempore. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

PLEDGE OF ALLEGIANCE

The SPEAKER pro tempore. Will the gentlewoman from North Carolina (Ms. FOXX) come forward and lead the House in the Pledge of Allegiance.

Ms. FOXX led the Pledge of Allegiance as follows:

> I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

CELEBRATING THE 50TH ANNIVERSARY OF FOOD LION SUPERMARKETS

(Ms. FOXX asked and was given permission to address the House for 1 minute.)

Ms. FOXX. Mr. Speaker, I rise today to honor Food Lion, a North Carolina business success story, for 50 years of doing business the right way.

Food Lion, founded in Salisbury, North Carolina, in 1957, today boasts a chain of 1,300 supermarkets spread throughout the Southeast and mid-Atlantic States.

Food Lion's 73,000 employees serve more than 10 million customers every week and embody the ethic that great service in local communities is a formula for a successful and profitable business.

This company has shown a true commitment to its employees by offering employees a working environment that focuses not just on good wages, but also integrates working conditions and profit-sharing arrangements that are some of the best in the retail business.

And Food Lion's business model doesn't stop at the bottom line or with treating employees right. Food Lion gives back every year to many community organizations and charitable causes, including the Children's Miracle Network, America's Second Harvest Food Banks, Easter Seals, the United Way, the American Red Cross, and local schools.

Food Lion represents the type of company that helps make North Carolina and America great. I applaud their 50 years of service to hundreds of communities and wish them many more years of success.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Under clause 5(d) of rule XX, the Chair announces to the House that, in light of the passing of the gentlewoman from Indiana (Ms. CARSON), the whole number of the House is 433.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 4 of rule I, the Speaker signed the following enrolled joint resolution on Thursday, December 13, 2007:

H.J. Res. 69, making further continuing appropriations for the fiscal year 2008, and for other purposes.

COMMUNICATION FROM THE CLERK OF THE HOUSE

The SPEAKER pro tempore laid before the House the following communication from the Clerk of the House of Representatives:

OFFICE OF THE CLERK,
HOUSE OF REPRESENTATIVES,
Washington, DC, December 14, 2007.

Hon. NANCY PELOSI,
Speaker, The Capitol, House of Representatives, Washington, DC.

DEAR MADAM SPEAKER: Pursuant to the permission granted in Clause 2(h) of Rule II of the Rules of the U.S. House of Representatives, the Clerk received the following message from the Secretary of the Senate on December 14, 2007, at 2:13 p.m.:

That the Senate passed S. 2338.

That the Senate agreed to the amendments of the House to the Text and Title of the bill S. 597.

That the Senate agreed to the Conference Report accompanying the bill H.R. 1585.

That the Senate agreed to without amendment H. Con. Res. 269.

With best wishes, I am
Sincerely,

LORRAINE C. MILLER,
Clerk of the House.

□ This symbol represents the time of day during the House proceedings, e.g., □ 1407 is 2:07 p.m.

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

COMMUNICATION FROM THE CLERK OF THE HOUSE

The SPEAKER pro tempore laid before the House the following communication from the Clerk of the House of Representatives:

OFFICE OF THE CLERK,
HOUSE OF REPRESENTATIVES,
Washington, DC, December 14, 2007.

Hon. NANCY PELOSI,
Speaker, The Capitol, House of Representatives Washington, DC.

DEAR MADAM SPEAKER: Pursuant to the permission granted in Clause 2(h) of Rule II of the Rules of the U.S. House of Representatives, the Clerk received the following message from the Secretary of the Senate on December 14, 2007, at 6:13 p.m.:

That the Senate passed S. 2488.

That the Senate passed S. 2400.

That the Senate passed with an amendment H.R. 3648.

That the Senate passed with an amendment H.R. 3739.

With best wishes, I am

Sincerely,

LORRAINE C. MILLER,
Clerk of the House.

COMMUNICATION FROM THE CLERK OF THE HOUSE

The SPEAKER pro tempore laid before the House the following communication from the Clerk of the House of Representatives:

OFFICE OF THE CLERK,
HOUSE OF REPRESENTATIVES,
Washington, DC, December 13, 2007.

Hon. NANCY PELOSI,
Speaker, The Capitol, House of Representatives Washington, DC.

DEAR MADAM SPEAKER: Pursuant to the permission granted in Clause 2(h) of Rule II of the Rules of the U.S. House of Representatives, the Clerk received the following message from the Secretary of the Senate on December 13, 2007, at 6:55 p.m.:

That the Senate agreed to without amendment H.J. Res. 69.

With best wishes, I am

Sincerely,

LORRAINE C. MILLER,
Clerk of the House.

COMMUNICATION FROM THE CLERK OF THE HOUSE

The SPEAKER pro tempore laid before the House the following communication from the Clerk of the House of Representatives:

OFFICE OF THE CLERK,
HOUSE OF REPRESENTATIVES,
Washington, DC, December 14, 2007.

Hon. NANCY PELOSI,
Speaker, The Capitol, House of Representatives, Washington, DC.

DEAR MADAM SPEAKER: Pursuant to the permission granted in Clause 2(h) of Rule II of the Rules of the U.S. House of Representatives, the Clerk received the following message from the Secretary of the Senate on December 14, 2007, at 12:10 p.m.:

That the Senate agreed to the House amendments to the Senate amendments to the bill with an amendment; that the Senate agreed to the House amendments to the Senate amendments to the title of the bill H.R. 6.

That the Senate passed without amendment H.R. 2408.

That the Senate passed without amendment H.R. 2671.

That the Senate passed S. 1396.

That the Senate passed S. 1585.

That the Senate passed S. 2339.

That the Senate passed S. 2484.

That the Senate passed S. 1916.

That the Senate passed S. 1858.

With best wishes, I am

Sincerely,

LORRAINE C. MILLER,
Clerk of the House.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, the Chair will postpone further proceedings today on motions to suspend the rules on which a recorded vote or the yeas and nays are ordered, or on which the vote is objected to under clause 6 of rule XX.

Record votes on postponed questions will be taken later today.

RECOGNIZING THE CONTRIBUTIONS OF THE CHRISTMAS TREE INDUSTRY TO THE UNITED STATES ECONOMY

Mr. PETERSON of Minnesota. Mr. Speaker, I move to suspend the rules and agree to the joint resolution (H.J. Res. 15) recognizing the contributions of the Christmas tree industry to the United States economy.

The Clerk read the title of the joint resolution.

The text of the joint resolution is as follows:

H.J. RES. 15

Whereas Christmas trees have been sold commercially in the United States since the 1850s;

Whereas, by 1900, one in five American families decorated a tree during the Christmas season, while, by 1930, a decorated Christmas tree had become a nearly universal part of the American Christmas celebration;

Whereas 32.8 million households in the United States purchased a live-cut Christmas tree in 2005;

Whereas the placement and decoration of live-cut Christmas trees in town squares across the country have become an American tradition;

Whereas, for generations, American families have traveled hundreds and even thousands of miles to celebrate the Christmas season together around a live-cut Christmas tree;

Whereas 36 million live-cut Christmas trees are produced each year, and 98 percent of these trees are shipped or sold directly from Christmas tree farms;

Whereas Oregon, North Carolina, Michigan, Washington, Wisconsin, Pennsylvania, New York, Minnesota, Virginia, California, and Ohio are the top producers of live-cut Christmas trees, but Christmas trees are grown in all 50 States;

Whereas there are more than 21,000 growers of Christmas trees in the United States, and approximately 100,000 people are employed in the live-cut Christmas tree industry;

Whereas many Christmas tree growers grow trees on a part-time basis to supplement their other farm and non-farm income;

Whereas growing Christmas trees provides wildlife habitat;

Whereas, in 2005, Christmas trees were planted on more than a half million acres of land;

Whereas 73 million new Christmas trees will be planted in 2006, and, on average, over 1,500 Christmas trees can be planted per acre; and

Whereas the retail value of all Christmas trees harvested in 2005 was $1.4 billion: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That Congress recognizes the important contributions of the live-cut Christmas tree industry, Christmas tree growers, and persons employed in the live-cut Christmas tree industry to the United States economy.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Minnesota (Mr. PETERSON) and the gentlewoman from North Carolina (Ms. FOXX) each will control 20 minutes.

The Chair recognizes the gentleman from Minnesota.

Mr. PETERSON of Minnesota. Mr. Speaker, I rise today in support of H.J. Res. 15.

H.J. Res 15, a resolution introduced by Congresswoman VIRGINIA FOXX of North Carolina, recognizes the success and importance of the live-cut Christmas tree industry in the United States.

It is an appropriate time of the year for Congress to consider this resolution, as I think that most of us here today have memories of decorating a Christmas tree during the holiday season. The live-cut Christmas tree industry ensures that this tradition continues every year for families across the Nation.

Likewise, there are private forest landowners all across America for whom Christmas trees are an important source of income. Over 35 million live-cut Christmas trees are produced this year, and they are growing in all 50 States. Christmas tree growers are responsible land stewards who provide wildlife habitat, give us cleaner air, protect watersheds, and improve the environment.

The economic strength and cultural contribution of this industry makes this resolution worthy of congressional support.

I encourage the support of the resolution.

With that, Mr. Speaker, I reserve the balance of my time.

Ms. FOXX. Mr. Speaker, I am deeply honored today to rise as the House considers House Joint Resolution 15, a resolution I authored to recognize the contributions of the Christmas tree industry to the United States economy.

As a former Christmas tree grower myself, I can attest to the importance of recognizing this often overlooked, yet highly significant, farming industry. Christmas trees have held a historic place in traditional American family values since 1850. Just as importantly, Christmas trees play a vital role in the North Carolina High Country's economy by providing jobs and livelihoods for thousands of North Carolinians.

My district in North Carolina is one of the largest producers of live-cut Christmas trees in the entire country. There are over 1,600 North Carolina growers and approximately 400 choose-and-cut Christmas tree farms across the State. The North Carolina Christmas tree industry is ranked second in the Nation in the number of trees harvested, producing over 19 percent of the real Christmas trees in the United States.

North Carolina has an estimated 50 million Fraser fir Christmas trees growing on over 25,000 acres. Representing over 95 percent of all species growing in North Carolina, Fraser firs are grown in North Carolina's western counties, including Alleghany, Ashe, Avery, Haywood, Henderson, Jackson, Macon, Madison, Mitchell, Swain, Transylvania, Watauga and Yancey.

The North Carolina Fraser fir Christmas tree is the most popular Christmas tree in North America and is shipped to every State in the United States, as well as the Caribbean Islands, Mexico, Canada, Bermuda, Japan, and other points all over the world.

The North Carolina Fraser fir has soft needles with incomparable needle retention, a long-lasting aroma, and more pliable, yet stronger, branches for even the heaviest ornaments.

Through a contest sponsored by the National Christmas Tree Association, the North Carolina Fraser fir has been judged the Nation's best and has been chosen for the official White House Christmas tree 10 times, more than any other species, in 1971, 1973, 1982, 1984, 1990, 1993, 1995, 1997, 2005 and 2007.

It is my great privilege to say that a beautiful Fraser fir grown by Joe Freeman and Linda Jones of Mistletoe Meadows Christmas Tree Farm in Laurel Springs, North Carolina, presently sits in the White House Blue Room as this year's official White House Christmas tree.

The Christmas tree industry supports our economy and the environment. Christmas trees are grown in all 50 States, with North Carolina, Oregon, Michigan, Washington, Wisconsin, Pennsylvania, New York, Minnesota, Virginia, California, and Ohio being the top Christmas tree producers. Nationally, there are more than 21,000 Christmas tree growers, and more than 100,000 people are employed in the live-cut Christmas tree industry.

Thirty-six million live-cut Christmas trees are produced each year, and 98 percent are shipped or sold directly from Christmas tree farms. Live-cut Christmas trees are a renewable, recyclable resource. There are over 500,000 acres in production for growing Christmas trees in the U.S., and each acre provides the daily oxygen requirement for 18 people.

□ 1215

On average, over 1,500 Christmas trees are planted per acre, providing an abundant habitat for wildlife.

It can take up to 15 years to grow Christmas trees to retail sale height, a testament to the commitment growers have to maintain strong and healthy trees. The retail value of all Christmas trees harvested in 2004 was $1.4 billion. Live-cut Christmas trees have been sold commercially in the United States since 1850. By 1900, one in five American families decorated live-cut trees during Christmas. By 1930, the tree had become a nearly universal part of the American Christmas. For generations, American families have traveled hundreds and thousands of miles to celebrate the holiday season together at home around the Christmas tree. This year, more than 10,000 trees were donated to American troops by over 750 Christmas tree farmers across the Nation. These Christmas trees were delivered to over 37 bases across 19 States and over 15 countries abroad to spread the holiday spirit to our men and women in uniform who are bravely and honorably serving our Nation throughout this Christmas season.

I would like to thank the chairman and ranking member of the Committee on Agriculture and the majority leader for their assistance in getting this resolution to the floor. I urge my colleagues to support this measure, recognizing this important industry, not just for its economic and environmental impact, but also for its cultural contribution to the Christmas holiday. Thank you to Christmas tree growers across the country for their contribution to our economy, our environment, and our Nation's heritage.

Mr. WU. Mr. Speaker, I rise in support of H.J. Res. 15—Recognizing the contributions of the Christmas tree industry to the United States economy. I am proud to be a cosponsor of this resolution.

During the holiday season, it is appropriate that we consider this resolution. Many Americans participate in the tradition of Christmas and Christmas trees are an important part of this tradition. Many memories associated with Christmas include a beautiful natural tree decorated with lights and ornaments with gifts underneath, shared with family and friends.

Whether families purchase a pre-cut tree or cut the trees themselves—the tree most likely came from a tree farm. More than 36 million Christmas trees are produced each year, and 98 percent of them come from Christmas tree farms. Christmas tree farms have a positive contribution to our economy.

None know the importance of Christmas trees to our economy better than Oregonians. In 2006, Christmas trees accounted for more than $121 million of the Oregon economy. Our number one agricultural commodity is nursery products, including Christmas trees. While many people know Oregon for our forests, it is fitting that we are also first in the Nation in Christmas tree production. I am proud to represent thousands of Oregonians who are part of the Christmas tree and nursery industry.

Christmas trees are both part of the Christmas and winter holiday season, and important to Oregon and the nation's economy. I commend my colleague, Ms. FOXX, for introducing this resolution.

Ms. FOXX. I yield back the balance of my time.

Mr. PETERSON of Minnesota. Mr. Speaker, I also yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Minnesota (Mr. PETERSON) that the House suspend the rules and pass the joint resolution, H.J. Res. 15.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the joint resolution was passed.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. PETERSON of Minnesota. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on H.J. Res. 15.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Minnesota?

There was no objection.

GEORGE WASHINGTON NATIONAL FOREST LAND CONVEYANCE

Mr. PETERSON of Minnesota. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3454) to provide for the conveyance of a small parcel of National Forest System land in the George Washington National Forest in Alleghany County, Virginia, that contains the cemetery of the Central Advent Christian Church and an adjoining tract of land located between the cemetery and road boundaries.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 3454

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. LAND CONVEYANCE, CENTRAL ADVENT CHRISTIAN CHURCH CEMETERY AND ADJOINING TRACT, GEORGE WASHINGTON NATIONAL FOREST, ALLEGHANY COUNTY, VIRGINIA.

(a) CONVEYANCE REQUIRED.—The Secretary of Agriculture shall convey, without consideration, to the Central Advent Christian Church of Alleghany County, Virginia (in this section referred to as the "recipient"), all right, title, and interest of the United States in and to a parcel of real property in the George Washington National Forest, Alleghany County, Virginia, consisting of not more than 8 acres, including a cemetery encompassing approximately 6 acres designated as an area of special use for the recipient, and depicted on the Forest Service map showing tract G–2032c and dated August 20, 2002, and the Forest Service map showing the area of special use and dated March 14, 2001.

(b) CONDITION OF CONVEYANCE.—The conveyance under subsection (a) shall be subject to the condition that the recipient accept the real property described in such subsection in its condition at the time of the conveyance, commonly known as conveyance "as is".

(c) DESCRIPTION OF PROPERTY.—The exact acreage and legal description of the real property to be conveyed under subsection (a) shall be determined by a survey satisfactory to the Secretary. The cost of the survey shall be borne by the recipient.

(d) ADDITIONAL TERMS AND CONDITIONS.—The Secretary may require such additional terms and conditions in connection with the conveyance under subsection (a) as the Secretary considers appropriate to protect the interests of the United States.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Minnesota (Mr. PETERSON) and the gentlewoman from North Carolina (Ms. FOXX) each will control 20 minutes.

The Chair recognizes the gentleman from Minnesota.

Mr. PETERSON of Minnesota. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support today of H.R. 3454. This bill, sponsored by Mr. BOUCHER from Virginia, would convey property in the George Washington National Forest to the Central Advent Christian Church of Alleghany County, Virginia. The parcel will consist of no more than 8 acres, and included in this parcel will be a cemetery encompassing approximately 6 acres.

Mr. Speaker, H.R. 3454 requires that the church accept the property at the time of the conveyance in an "as is" condition. The exact acreage and legal description of the properly to be conveyed will be determined in a survey of USDA's approval. USDA will also set additional terms and conditions in connection with the conveyance of the property.

The United States Forest Service has acknowledged that this particular tract of forest land is difficult to manage. Owning a cemetery tract is inconsistent with the Forest Service mission, which is why they have attempted to sell this property several times without success. I understand the Central Advent Christian Church has already been doing basic maintenance on the cemetery grounds. Conveying this land to the church would enable them to make more significant repairs to the property. This effort deserves congressional support.

Mr. Speaker, I reserve the balance of my time.

Ms. FOXX. Mr. Speaker, I also rise today in support of H.R. 3454 which our distinguished ranking member on the Agriculture Committee (Mr. GOODLATTE) has cosponsored with Congressman BOUCHER. H.R. 3454 requires the U.S. Forest Service to convey, without consideration, 8 acres of the George Washington National Forest in Alleghany County, Virginia, to the Central Advent Christian Church. The conveyance includes a 6-acre cemetery and 2 additional acres between the cemetery and Interstate 64.

While typically the Forest Service would sell this property under existing authority, they did not receive any bids when they attempted to sell it. Clearly, the Forest Service should not be in the business of owning a cemetery, particularly that has been managed by the community church since 1941 under a special use permit. The church has tried to acquire the property, but for financial and other reasons has been unsuccessful.

The cemetery also creates some management problems for the agency, since there is a fair amount of maintenance associated with it.

This conveyance makes sense for the Federal Government and for the community church. It will allow the Forest Service to focus on the land Congress intended the agency to manage.

I urge adoption of this bipartisan legislation.

Mr. BOUCHER. Mr. Speaker, I rise in strong support of H.R. 3454, bipartisan legislation which will authorize the conveyance by the Forest Service to the Central Advent Christian Church in Alleghany County, Virginia of a small parcel of land containing a cemetery currently operated by the church. The church and the land in question are located in my Congressional District.

For 66 years, the Central Advent Christian Church has been operating its cemetery through a Special Use permit granted by the U.S. Forest Service. The historic cemetery contains more than 300 graves, two-thirds of which are located on land owned by the U.S. Forest Service. In recent years, maintenance of this land has become difficult for the Forest Service, taking valuable staff time to remove discarded flowers and other items.

It is the desire of the families of those buried in the cemetery, the members of Central Advent Christian Church and the Forest Service that the cemetery be transferred into church ownership, and the bill before the House takes the entirely appropriate step of authorizing the conveyance.

This measure authorizes the transfer of the 6.08 acres constituting the cemetery and a small additional tract, which would otherwise be landlocked by this transfer, to the church. The total amount of land to be conveyed to the church will not exceed 8 acres. Conveyance of the property will be contingent on the completion of a survey acceptable to the Forest Service at the church's expense.

I appreciate the efforts of Chairman PETERSON and his staff as well as my colleague from Virginia, Mr. GOODLATTE, in working with me on this legislation, and I thank Mr. GOODLATTE, who also represents a portion of Alleghany County, for cosponsoring the bill with me. H.R. 3454 enjoys bipartisan support in the House and its passage would benefit both the Forest Service and the members of the Central Advent Christian Church.

I urge approval of the measure.

Mr. GOODLATTE. Mr. Speaker, I wish to express strong support for H.R. 3454, which I've cosponsored with my colleague Mr. BOUCHER. H.R. 3454 would authorize the U.S. Forest Service to convey roughly 8 acres of the George Washington National Forest in Alleghany County, Virginia, to the Central Advent Christian Church.

These 8 acres contain a 6 acre cemetery and 2 acres between the cemetery and the adjoining interstate. The cemetery has been managed by the Church since 1941, under a special use permit, with no fees.

It's frustrating to me that limited federal dollars are being spent to manage this property that is clearly not in line with the mission of the Forest Service. That's why I've cosponsored this legislation. This bill will help relinquish the Forest Service of this responsibility so they can focus on the lands that our forefathers intended them to manage.

Several times, the Forest Service has attempted to sell this property but to no avail. The local community church lacks the resources to purchase the property. While I would of course prefer that we sell the land, I believe it is in the federal government's interest to convey the land to the Church rather than spending additional resources on it.

I urge adoption of this important legislation.

Ms. FOXX. I yield back the balance of my time.

Mr. PETERSON of Minnesota. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Minnesota (Mr. PETERSON) that the House suspend the rules and pass the bill, H.R. 3454.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. PETERSON of Minnesota. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the bill just considered.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Minnesota?

There was no objection.

CONVEYANCES UNDER FLORIDA NATIONAL FOREST LAND MANAGEMENT ACT OF 2003

Mr. PETERSON of Minnesota. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 1374) to amend the Florida National Forest Land Management Act of 2003 to authorize the conveyance of an additional tract of National Forest System land under that Act, and for other purposes.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 1374

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. CONVEYANCES UNDER FLORIDA NATIONAL FOREST LAND MANAGEMENT ACT OF 2003.

(a) ADDITIONAL CONVEYANCE AUTHORIZED.—Subsection (b) of section 3 of the Florida National Forest Land Management Act of 2003 (Public Law 108–152; 117 Stat. 1919) is amended—

(1) by striking "and" at the end of paragraph (17);

(2) by redesignating paragraph (18) as paragraph (19);

(3) by inserting after paragraph (17) the following new paragraph:

"(18) tract W–1979, located in Leon County consisting of approximately 114 acres, within T. 1 S., R. 1 W., sec. 25; and"; and

(4) in paragraph (19), as so redesignated, by striking "(17)" and inserting "(18)".

(b) ADDITIONAL USE OF PROCEEDS.—Paragraph (2) of subsection (i) of such section (117 Stat. 1921) is amended—

(1) by striking "and" at the end of subparagraph (A);

(2) by striking the period at the end of subparagraph (B) and inserting "; and"; and

(3) by adding at the end the following new subparagraph:

"(C) acquisition, construction, or maintenance of administrative improvements for units of the National Forest System in the State.".

(c) LIMITATIONS ON USE OF PROCEEDS.—Subsection (i) of such section is further amended by adding at the end the following new paragraphs:

"(3) GEOGRAPHICAL AND USE RESTRICTION FOR CERTAIN CONVEYANCE.—Notwithstanding paragraph (2), proceeds from the sale or exchange of the tract described in subsection (b)(18) shall be used exclusively for the purchase of inholdings in the Apalachicola National Forest.

"(4) RESTRICTION ON USE OF PROCEEDS FOR ADMINISTRATIVE IMPROVEMENTS.—Proceeds from any sale or exchange of land under this Act may be used for administrative improvements, as authorized by paragraph (2)(C), only if the land generating the proceeds was improved with infrastructure.".

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Minnesota (Mr. PETERSON) and the gentlewoman from North Carolina (Ms. FOXX) each will control 20 minutes.

The Chair recognizes the gentleman from Minnesota.

Mr. PETERSON of Minnesota. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 1374. H.R. 1374, introduced by Representatives ALLEN BOYD of Florida and ANDER CRENSHAW of Florida, would amend the Florida National Forest Land Management Act of 2003 and permit a land conveyance in Leon County. This bill would allow the United States Forest Service to sell a 114-acre parcel in the Apalachicola National Forest known as the "Flea Market Tract." The parcel is surrounded by commercial development, including a major highway to the north, a power line easement to the south, and private land primarily developed to the east and west.

The configuration and development makes adequate land management difficult and the tract unsuitable as managed forest land. H.R. 1374 specifies that the proceeds of the sale of the tract be used for the purpose of acquiring private lands within the Apalachicola National Forest.

H.R. 1374 is supported by the United States Forest Service, the City of Tallahassee, and Leon County, as well as by local businesses, church and civic groups. It is a project that is worthy of congressional support.

Mr. Speaker, I reserve the balance of my time.

Ms. FOXX. Mr. Speaker, I would like to echo the sentiments of my colleague and express support for H.R. 1374, which authorizes the sale of 114 acres in the Apalachicola National Forest in Florida, the proceeds of which can be used only to purchase private inholdings from willing sellers. H.R. 1374 passed the Agriculture Committee last week by a voice vote.

The land proposed for sale is a small tract that is extremely difficult for the U.S. Forest Service to manage, given its proximity to the City of Tallahassee and the surrounding development. Properties such as this, which contribute little to meeting the Forest Service mission, unfortunately diverts scarce resources from other lands that need management.

In addition to relieving the Forest Service of the management problems this tract creates, the bill will also help the agency reduce the number of private inholdings within the forest if the private owners are interested in selling. Inholdings are a common problem throughout many national forests in the East and create significant access and management issues for the landowners and the agency.

I urge adoption of this bipartisan legislation, and reserve the balance of my time.

Mr. PETERSON of Minnesota. Mr. Speaker, I now would yield such time as he may consume to the author of the bill, Mr. BOYD from Florida.

Mr. BOYD of Florida. Mr. Speaker, I want to thank my friend, the distinguished chairman of the House Agriculture Committee, Mr. PETERSON, for granting me time to speak on behalf of this legislation and also thank him and the ranking member, Mr. GOODLATTE, and his representative for supporting this legislation.

Mr. Speaker, the Apalachicola National Forest is the largest of Florida's three national forests. It contains 564,000 acres, and its rivers and streams provide a steady freshwater flow to some of the most productive coastal bays and estuaries known for shellfish and other commercial seafood. Portions of the forest are in wet lowlands and they abound with cypress, oak and magnolias. Watching wildlife, hunting and fishing are popular recreation activities in this beautiful national forest. Visitors to the forest also enjoy swimming, picnicking, boating, and camping.

The Apalachicola National Forest is truly a national treasure, and I am very proud that this legislation will help strengthen and sustain one of our Nation's most valuable natural assets.

As the chairman and the ranking member have said, this enables the national forest to sell a piece of property that really lies right on the south side of Tallahassee, Florida, in Leon County. It actually comes up to the beltway, or what we call the Capital Circle and is surrounded on three sides by commercial development. It is detached from the rest of the national forest, and so it is really, as you have heard earlier, an unmanageable piece of land. And with those proceeds, we are going to use the proceeds to go and purchase some privately held holdings within the confines of the 564,000 acres, what we commonly know as "inholdings," and that is the only purpose that those funds can be used for. There are about 2,000 acres of inholdings, privately held lands within the Apalachicola National Forest, and that is what those funds, Mr. Speaker, would be used for.

I want to thank Mr. Joe Baca, the Forestry Subcommittee chairman, and his staff director, Lisa Shelton, for helping guide this legislation through the subcommittee process. And also I want to thank my friend, the majority leader, Mr. HOYER, for scheduling. I encourage our colleagues to pass this legislation.

Ms. FOXX. Mr. Speaker, I yield back the balance of my time.

Mr. PETERSON of Minnesota. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Minnesota (Mr. PETERSON) that the House suspend the rules and pass the bill, H.R. 1374.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. PETERSON of Minnesota. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the bill just considered.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Minnesota?

There was no objection.

□ 1230

EXPRESSING HEARTFELT SYMPATHY FOR THE VICTIMS AND FAMILIES OF THE SHOOTINGS IN OMAHA, NEBRASKA, ON WEDNESDAY, DECEMBER 5, 2007

Ms. NORTON. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 856) expressing heartfelt sympathy for the victims and families of the shootings in Omaha, Nebraska, on Wednesday, December 5, 2007.

The Clerk read the title of the resolution.

The text of the resolution is as follows:

H. RES. 856

Whereas the community of Omaha, Nebraska has suffered through a tragic event at the Westroads Mall that resulted in the loss of 9 lives and the wounding of several others;

Whereas on December 5, 2007, a troubled young man entered a department store in the Westroads Mall in Omaha, Nebraska carrying a rifle;

Whereas the young man began to randomly fire his rifle at shoppers and store clerks within the Von Maur department store and other locations within Westroads Mall;

Whereas the result of this shooting spree resulted in the deaths of Gary Scharf, John McDonald, Angie Schuster, Maggie Webb, Janet Jorgensen, Diane Trent, Gary Joy, and Beverly Flynn;

Whereas Fred Wilson, Michelle Oldham, Jeff Schaffert, and Brad Stafford were wounded as a result of the shootings;

Whereas the first responders, officers of the Omaha Police Department, Douglas and Sarpy County Sheriff's Department, and Omaha Fire Department, arrived at the Westroads Mall within minutes and secured all entrances and exits to the mall and discovered a number of deceased persons, including the shooter;

Whereas on December 6, 2007 Nebraska Governor Dave Heineman ordered that all United States and State flags in Nebraska be flown at half-staff through Sunday, Dec. 9; and

Whereas the grieving and celebration of the lives of those lost in this senseless tragedy will be with the greater Omaha community for months and years to come: Now, therefore, be it

Resolved, That the United States House of Representatives—

(1) expresses its heartfelt sympathy for the victims and families of the shootings in Omaha, Nebraska on Wednesday, December 5, 2007; and

(2) conveys its gratitude to the city and county officials, and all the police, fire, sheriff, and emergency medical teams who responded swiftly to the scene and secured the mall and surrounding area.

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from the District of Columbia (Ms. NORTON) and the gentleman from California (Mr. ISSA) each will control 20 minutes.

The Chair recognizes the gentlewoman from the District of Columbia.

GENERAL LEAVE

Ms. NORTON. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from the District of Columbia?

There was no objection.

Ms. NORTON. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, as a member of the House Committee on Oversight and Government Reform, I join my colleagues in consideration of H. Res. 856, which expresses heartfelt sympathy for the victims and families of the shootings in Omaha, Nebraska, on Wednesday, December 5, 2007. H. Res. 856, which was introduced by Representative LEE TERRY on December 12, 2007, has the support of 72 Members of Congress.

The community of Omaha, Nebraska, experienced a shooting spree at the hands of a troubled teenager carrying a rifle on December 5. Sadly, nine people died, and four others were wounded in the Westroads Mall. Thankfully, first responders, the Omaha Police Department, Douglas and Sarpy County Sheriff's Department, and Omaha Fire Department all arrived within minutes of the attacks to secure all entrances.

Mr. Speaker, I would like to express great sympathy for the community's tragedy and all of the lives lost. I commend my colleague for sponsoring this measure, and I urge the swift passage of the resolution.

Mr. Speaker, I reserve the balance of my time.

Mr. ISSA. Mr. Speaker, as we on a bipartisan basis support this resolution, I would yield to the gentleman from Nebraska (Mr. TERRY) such time as he may consume.

Mr. TERRY. I thank my friend, the gentleman from California, as well as the Government Reform Committee, for making sure that this got to the floor in such a timely manner.

December 5, 2007: that will be a day forever etched in Omaha's memory as the day a lone gunman took the lives of eight innocent people at the Westroads Mall, the Von Maur store, during the holiday shopping season. But it will also be remembered as a day that revealed the true character of Omaha.

Tragedy, no doubt, reveals the true meaning of unity in any community. Although I will never understand the senseless events that took place in my hometown on December 5, I stand here as a proud citizen, Congressman of that district, because it's in times like these it doesn't matter what party you belong to, what your political beliefs are, your race, creed, or color. People come together and they ask what can we do to help the city and the eight innocent people. I think this is not only the spirit of Omaha, or what defines the Omaha area, but also I think it is what exemplifies the spirit of America, and it is that spirit that we remember in each of the victims and the first responders.

Let me introduce the eight innocent lives that were lost on that day. There was 53-year-old Dianne Clavin Trent, described by her family as a gentle, generous, soft-spoken woman who loved the Lord. She loved to shop and was always smiling. She had worked in customer service at Von Maur for about 8 years.

We have 65-year-old John McDonald, retired from Northern Natural Gas, whose daughter in fact worked with me in my law office. John was one of the heroes, when he left his place of safety to come out and start yelling, some people described it as rather passionately, at the gunman, to distract him from turning around, and a few feet away was a room where 12 other innocent people were holed up. John was shot. Amazingly, though, he was the last victim before the gunman turned the gun on himself.

The next victim, 48-year-old Gary Scharf, who just stopped by Von Maur to pick up some Christmas presents before catching a flight out of Omaha. He grew up on a ranch outside Curtis, Nebraska, where his funeral was held. He was a proud father who leaves behind a 19-year-old son.

Fifty-six-old Gary Joy was someone everyone could count on. He loved his job and liked to write poetry. His family followed his instructions to have his organs donated. They say it was just like Gary, to help someone else. His love was with us again, if not only in spirit.

There was 36-year-old Angie Schuster, born on Valentine's Day. Her boyfriend planned to give her an engagement ring this Christmas. The priest at her funeral called Angie and her soon-to-be fiance's love the "real thing."

We have 67-year-old Janet Jorgensen, who just celebrated her golden anniversary, 50 years of marriage to her husband Ron just a few months ago. She went above and beyond at Van Maur, as there were many times she would shop for customers or deliver items to customers' homes. She was the seamstress and cake-maker of the family; and for her three children and eight grandchildren, she will be missed.

There was 47-year-old Beverly Flynn. She took a part-time job at Von Maur because she was a mother of three beautiful girls. She was also a real estate agent, and her trademark was planting rosebushes in the yard of every new homeowner.

The youngest victim, 24-year-old Maggie Webb, was the new store manager of Von Maur, one of Omaha's finest department stores. Coworkers described her as one of the nicest people they had ever worked for, someone whose whole face lit up when she smiled. A lot of people will miss her service and smile.

Last, I want to thank our first responders. The spirit of Omaha showed itself through the efforts of our first responders. The first phone call from the mall came to 911 dispatchers at 1:42. No voice was on the line. All that was heard were gunshots. What an eerie call.

By the time the first responders arrived, just under 6 minutes later, the Omaha sheriff opens the doors and enters the store. What a heroic effort by our police officers, paramedics, firefighters, and others, when they got to the mall and saw such a grisly scene. The images they saw will likely haunt them for the rest of their lives. I thank the men and women who came to face the horror. Thank you for keeping us safe and saving lives. I also want to praise the spirit of Omaha for coming together after this tragedy.

In closing, I am deeply saddened by the senseless act from a troubled and disturbed teenager. It's something our city will never forget. It has scarred the very heart of our community. But I am proud of our community for its reaction and the way we came together to support the victims and begin the healing of our city.

Thank you once again to Government Reform for allowing this resolution to come forward and be part of the continuing healing in Omaha.

Ms. NORTON. Mr. Speaker, I reserve the balance of my time.

Mr. ISSA. Mr. Speaker, I yield such time as he may consume to the gentleman from the First Congressional District of Nebraska (Mr. FORTENBERRY).

Mr. FORTENBERRY. I thank the gentleman from California for yielding, and I also wish to thank my colleague, Congressman TERRY, for introducing this important resolution.

As we have heard, Mr. Speaker, on Wednesday, December 5, the enthusiasm of the holiday season came to an abrupt halt with an act of senseless brutality at the Westroads Mall in Omaha, Nebraska.

Mr. Speaker, as the Nation mourns the eight victims who were killed and the three who were wounded, and, I should add, I appreciate Mr. TERRY's lengthy description of these innocent persons and their lives, I think it is also important and appropriate to recognize their uncommon heroics and great sacrifices that are now just coming to light. If there is a comfort in the midst of this difficult time, it is the beauty of the human spirit and the good that stood in the midst of this horror and violence.

Dianne Clavin Trent of Omaha was a 53-year-old former airline flight attendant who had worked for 8 years in customer service at the Von Maur store in the Westroads Mall. As we have now learned, Dianne did not flee when she saw the gunman. She stood. She dialed 911 and gave a description of him, and then he turned on her.

Gary Scharf, 48 years old, of Lincoln, Nebraska, my hometown, was an agricultural chemical sales manager in the mall to buy a dress shirt. When he heard the gunshots, Gary also called 911. It appears then that he ran from where he was safe up to where the shooting was taking place. As he ran up the escalator, he yelled out, "I called 911" in an apparent attempt to distract the gunman. He also pulled a woman off the escalator out of harm's way before the gunman turned on him.

Mr. Speaker, I happened to know Gary and I am proud to call him a friend.

John McDonald was a 65-year-old grandfather and retired natural gas company manager living in Council Bluffs. When the rampage began, John took cover with his wife in the customer service area. As the gunman entered the customer service area, John stood and confronted him, and he too was shot. As now seems apparent, John's courage may have saved the lives of many other people nearby.

Dianne, Gary and John, innocently shopping one minute, decided in an instant to let go of a natural tendency to self-preservation and to make a great sacrifice for their fellow man. Others may have acted similarly in ways that we may never know.

Mr. Speaker, I thought you and the American people should know of this new information. God bless all those who lost their lives or were injured that day, and God bless their loved ones.

Mr. ISSA. Mr. Speaker, I yield back the balance of my time.

Ms. NORTON. Mr. Speaker, once again, I express the deep condolences and regrets of, I know, the entire House for the Omaha tragedy, particularly coming at this time when the whole country comes together in great love and respect.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from the District of Columbia (Ms. NORTON) that the House suspend the rules and agree to the resolution, H. Res. 856.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Ms. NORTON. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

HONORING LOCAL AND STATE FIRST RESPONDERS, AND THE CITIZENS OF THE PACIFIC NORTHWEST IN FACING THE SEVERE WINTER STORM OF DECEMBER 2 AND 3, 2007

Ms. NORTON. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 851) honoring local and State first responders, and the citizens of the Pacific Northwest in facing the severe winter storm of December 2 and 3, 2007.

The Clerk read the title of the resolution.

The text of the resolution is as follows:

H. RES. 851

Whereas on December 2 and 3, 2007, a storm with winds exceeding 120 miles per hour struck Oregon and Washington, toppled trees, felled power lines, and destroyed homes and businesses;

Whereas more than ten inches of rain fell in 24 hours, inundating parts of Oregon and Washington, causing rivers to overflow, flooding homes, schools, businesses, and roads;

Whereas the combination of hurricane-force winds and torrential rains caused devastating damage that isolated towns, left citizens without housing, transportation, communications, water, heat, or electricity;

Whereas local and State emergency personnel responded heroically and without hesitation to aid in rescue, recovery, and assistance efforts;

Whereas the Oregon and Washington National Guard and the U.S. Coast Guard rescued hundreds of individuals trapped in or on their homes by rising water;

Whereas the people of Oregon and Washington rose to become extraordinary citizens by helping each other, opening their homes, schools, churches, and businesses to shelter their neighbors;

Whereas amateur radio operators performed vital communication duties in assisting first responders;

Whereas the National Weather Service forecasts helped avert even greater casualties and damage;

Whereas people have perished in the storm;

Whereas homes, businesses, schools, and roads have been closed;

Whereas many long-term effects of the storm are still unknown; and

Whereas thousands of people of the Pacific Northwest are without power, water, or road access: Now, therefore, be it

Resolved, That the House of Representatives—

(1) honors the citizens of the Pacific Northwest for their courage in facing the storm and efforts in helping their neighbors in a time of great need;

(2) honors the National Weather Service, State and local police officers, fire fighters, local rescue personnel, other first responders, and amateur radio operators for their efforts in the face of the severe storm;

(3) extends its thoughts and prayers to those whose lives have been devastated, and who have lost their housing, transportation, communications, water, heat, or electricity; and

(4) extends its profound and deepest sympathies to the families and friends of those who perished.

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from the District of Columbia (Ms. NORTON) and the gentleman from California (Mr. ISSA) each will control 20 minutes.

The Chair recognizes the gentlewoman from the District of Columbia.

GENERAL LEAVE

Ms. NORTON. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from the District of Columbia?

There was no objection.

Ms. NORTON. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I am pleased to join my colleagues in consideration of H.R. 851, honoring local and State first responders and the citizens of the Pacific Northwest in facing the severe winter storm of December 2 and 3, 2007. H. Res. 851 was introduced by Representative DAVID WU on December 6, 2007. This measure, which has been cosponsored by 83 Members, has the support of the entire Oregon congressional delegation.

On December 2 and 3, 2007, a severe storm hit the Pacific Northwest, destroying homes, schools, businesses and roads, thus leaving thousands of people in Oregon and Washington without power, water, or road access. The Oregon and Washington National Guard and the U.S. Coast Guard rescued hundreds of individuals trapped in or on their homes. Oregonians and Washingtonians became extraordinary citizens by opening their hearts and their homes.

Mr. Speaker, please join me in commending the first responders and citizens who helped in time of need. I urge the swift passage of this resolution.

Mr. Speaker, I reserve the balance of my time.

☐ 1245

Mr. ISSA. I yield myself such time as I may consume.

Mr. Speaker, I rise in bipartisan support of this resolution with my colleague from the District of Columbia in honoring the first responders and citizens who were lost and who dealt with this extreme storm in such a valiant way.

All of us know the beauty of Mount St. Helens. All of us know the beauty of the region, but few of us outside the region can understand the strength of the storm that flooded whole communities, battered trees, roadways, and destroyed power for entire communities and left at least eight dead. In the aftermath, as the waters recede, we in Congress join with the people of Oregon and Washington in banding together to rebuild their community and their tattered region. But more importantly, we thank the first responders who, as appropriately people sought cover and safety, went out to deal with the effects of this storm at risk of life and limb.

I yield back the balance of my time and urge support for this important resolution.

Ms. NORTON. Mr. Speaker, it is with great pleasure and great feeling of sympathy and of great respect for those who have suffered so courageously through this storm that I yield to Mr. DAVID WU.

Mr. WU. I thank the gentlelady.

Mr. Speaker, between December 1 and December 3, the States of Oregon and Washington were battered by an exceptionally severe storm. One wind measurement instrument clocked at 129 miles an hour before it blew over, and I am told by a helicopter pilot that the U.S. Coast Guard measured winds up to 150 miles an hour. This is the first time that the National Weather Service used the term "hurricane" in connection with a storm outside of the tropics or subtropics, certainly as far north as latitude 45 where we are. We set an unfortunate record.

We have frequent storms in the Pacific Northwest, but what set this one apart is that while the typical winter storm may bring winds of 70 or 100 miles an hour for a few hours to coastal Oregon, this storm brought sustained winds of 85 to 100 miles per hour for 24 hours and gusts up to 130, 150 miles an hour. Entire swaths of trees were uprooted or snapped off. Homes were flooded. Twelve to 14 inches of rain fell in a 24-hour period in some parts of the coast range, and both Interstate 5 and the main Amtrak line on the west coast were closed for a period of time.

The folks who live in the coast range and on the coast were especially hard hit. But we are a hardy people who live in this paradise, and people took care of themselves. They immediately reached out to their neighbors. They helped each other, pulled together as a community, and we got through this together.

Unfortunately, several people perished, many people were injured. And many people went without heat or electricity or telephone service, were cut off from the world and were cut off by landslides on the roads, also, in addition to the loss of communication. But people got through this together in the great tradition of America and the great tradition of the Northwest and of Oregon.

I would like to especially commend the local and State first responders, the Oregon National Guard, the United States Coast Guard, the Oregon Red Cross, and the good works of the State of Oregon in facing this very, very severe storm. Even during the torrential rain and the winds, the good citizens of Oregon and Washington came to one another's assistance. There are people who told me that they knew that someone was trapped in a home, and they went in to get them even though there were shingles and pieces of glass flying through the air hard enough to stick into the side of homes. And one person went into a home where a piece of sheet metal was flapping in the wind, knowing that if that sheet metal came off that it would become a dangerous projectile, but he went in to get the resident out.

City Councilor Mark Kujala of Warrenton stayed by the phones for 24 hours to take calls and answer calls so that people would not feel isolated and cut off, so that they could get some information. KMUN in Astoria, Oregon, because there was a severe storm a year ago, prepared for this by putting up a propane tank. And even though a tree fell on its roof and damaged the structure severely, KMUN stayed on the air all through the storm and gave the people of the north Oregon coast a sense of connection to what was happening in the outside world. And I want to commend the amateur radio operators, the folks who kept parts of the local telephone system operating, and others, for keeping our communities together through the darkness, the cold, and the isolation when most of the phone lines went down.

The immediate efforts of first responders as well as local and State officials are to be applauded. And I want to express a special thanks to the U.S. Coast Guard. The Coast Guard lost all of their communication. They lost their Internet. They lost their telephones. They lost their cell phones. They were down to VHF radio, 1950s technology, to communicate with other first responders and themselves, and yet, they went out and picked people off the roofs, went into homes. One of the rescuers went into a home that was flooded up to chest level and the lights were still on in the room where this disabled individual was located, and yet this rescue swimmer went in there with the electricity on and got the person out and into a rescue helicopter.

The National Guard performed heroic efforts. Camp Rilea became a safety shelter, kind of a dry safe harbor for the people of the north coast. They distributed generator fuel to so many people who were trying to run their own generators when the power went down, and at one point they were down to their last 30, 60, 90 minutes of fuel. But then they got resupplied and were able to help continue to keep other folks' generators working. And the radio station in Seaside had their antenna blown down, but they got right back up the next day when it was safe to get the antenna back up and get a generator going and kept folks informed.

I have tried to work closely with Governor Kulongoski, and he has been terrific through this entire episode. It was a Sunday-Monday storm, and I couldn't get a phone call through to folk in the area until Wednesday night, but Governor Kulongoski toured the area Tuesday afternoon and was on the phone with me Tuesday afternoon to tell me some of the things that were needed. The Governor and I work hard to make sure that both the State and the Federal components of recovery and prevention for the future, that we do our jobs, that we have not too much government but all the government that we need to keep Americans safe, to enable us to pull together in times of crisis and need.

Life is uncertain in the paradise that we call the Pacific Northwest. It has sometimes been referred to as the land of fire and ice. We have regular storms, periodic fires, and rare huge earthquakes and tsunami. To paraphrase an author of the region: We are always searching for hardy people to match this challenging land. And I think that we do have those people.

Life in the paradise we call home may be uncertain, but we know that we are a match for it and we shall meet the challenges together. A long road of recovery lies ahead, but like the pioneers of old, we will bring everyone to the finish line together. No one will be left behind. No one will be forgotten. I want to salute the citizens of the Pacific Northwest, the first responders, and everyone else who came from the region to help out in our time of need. Thank you.

Mr. ISSA. I yield back the balance of my time.

Ms. NORTON. I want to say to my good friend from Oregon that his resolution not only informs us about the heroic efforts of first responders and the residents, but educates us about places where catastrophic storms may occur unexpectedly. It sounds as though the States of Oregon and Washington had a short-term version of Katrina and managed somehow to deal with it themselves. So we commend first responders and citizens of both States.

Mr. SMITH of Washington. Mr. Speaker, a few weeks ago, on December 2 and 3, a severe winter storm swept across Oregon and Washington State. Countless first responders came to the aid of those in need and worked tirelessly to restore order in the aftermath of the storm. I strongly support H. Res. 851 in recognition of the dedication, service, and courage shown by these men and women.

The winter storm affected dozens of communities and many thousands of people in Washington and Oregon, including my constituents in the Nineth District of Washington. It struck the Pacific Northwest with a ferocity that is rarely seen in the region. The storm brought winds that exceeded 100 miles per hour, saturated the region with 10 inches of rain in a 24-hour period, and led to the loss of human lives. Homes and businesses were flooded, roads and thoroughfares were damaged or swept away, and thousands of citizens were left without electricity, heat, water, transportation, or adequate shelter.

Throughout and following the storm, the men and women of local and state police agencies, fire and rescue groups, local and state emergency first-response organizations, the U.S. Coast Guard, and the Oregon and Washington National Guard were ready to respond to the extraordinary circumstances. They rescued those trapped by the rising waters, provided aid to those in need of critical assistance, and helped to limit the ill effects of this tragic weather event.

As a member of the House Armed Services Committee, I want to call particular attention to the service of the Washington National Guard. Some 400 Washington National Guard Members, 70 vehicles, and 11 teams supported response and recovery operations, conducted house-to-house searches, and provided needed food, water, and other emergency provisions. In cooperation with many other local, State, and Federal first responders, the men and women of the Washington State National Guard performed their duty admirably, and I am very grateful to them.

Please join me in honoring the Washington State National Guard and recognizing the many other first responders for their contributions during the winter storm of early December. I urge my colleagues to support H. Res. 851.

Ms. HOOLEY. Mr. Speaker, although much work is left to be done as our communities start to recover from the severe storms that ravaged Oregon and Washington on December 2 and 3, 2007, we can reflect and be grateful for the hard work of the thousands of our fellow Pacific Northwesterners who helped neighbors, families, and complete strangers during the storms and their aftermath. Without their efforts, the damage and loss of life from the storm may have been much more extensive.

We were all shocked by the devastating impact that these storms wreaked on Oregon. More than 10 inches of rain fell in a 24-hour period with wind gusts ranging from 60 to 129 miles an hour. Communities along the coast were inundated, families huddled in shelters as homes were destroyed and the coast was cut off from the rest of Oregon as roads and bridges were washed out. Among the stark reminders of the terrible power of these storms are crippled railroad tracks and bridges in Tillamook County, damage to the National Guard Armory in Dallas and the flooding of most of the town of Vernonia as well as other communities up and down the coast.

Thankfully, first responders and ordinary citizens moved quickly to help their fellow Oregonians cope with the storm. Rescuers in one case used chainsaws and dodged falling trees to clear the way for an ambulance. Two Tillamook men also risked their lives to try and save a woman whose truck went into the Nehalem River on Highway 101. These are just two of the numerous stories of bravery by first responders and Good Samaritans who stepped up to help those impacted by the storm. Selfless Oregonians from across the State came to help in what turned out to be a spectacular response effort. It has been incredible to see the extraordinary efforts of so many.

I want to personally thank everyone who was involved. Their heroic service to our communities has been extraordinary and their efforts are deeply appreciated. I also want to extend my deepest sympathy to those whose family, friends, and loved ones perished in the storms. It is a tragedy that these individuals were taken from us in these terrible storms. My thoughts and prayers are with their families and friends at this difficult time.

Ms. NORTON. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. CARDOZA). The question is on the motion offered by the gentlewoman from the District of Columbia (Ms. NORTON) that the House suspend the rules and agree to the resolution, H. Res. 851.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Ms. NORTON. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

SUBMISSION OF MATERIAL EXPLANATORY OF APPROPRIATIONS MEASURES FOR FISCAL YEAR 2008

Pursuant to section 3 of House Resolution 869, the chairman of the Committee on Appropriations submitted explanatory material relating to appropriations measures for fiscal year 2008.

EXPLANATORY STATEMENT SUBMITTED BY MR. OBEY, CHAIRMAN OF THE HOUSE COMMITTEE ON APPROPRIATIONS, REGARDING THE CONSOLIDATED APPROPRIATIONS AMENDMENT OF THE HOUSE OF REPRESENTATIVES TO THE SENATE AMENDMENT TO H.R. 2764

Following is an explanation of the amendment of the House of Representatives (relating to consolidated appropriations for fiscal year 2008) to the amendment of the Senate to H.R. 2764, the State, Foreign Operations, and Related Programs Appropriations Act, 2008, including disclosure of congressional earmarks and congressionally directed spending items as defined in clause 9 of rule XXI of the Rules of the House of Representatives and rule XLIV of the Standing Rules of the Senate.

Section 4 of the House amendment specifies that this explanatory statement shall have the same effect with respect to the allocation of funds and implementation of this Consolidated Appropriations Act as if it were a joint explanatory statement of a committee of conference.

In this statement, the provisions of the House amendment to the Senate amendment are generally referred to as "the amended bill". Where comparisons are made to House and Senate action, unless otherwise stated these comparisons are to the versions of the applicable 2008 Appropriations Act as passed by the House and as passed by the Senate (or as reported by the Senate Committee on Appropriations, in the case of bills that have not been passed by the Senate).

The House amendment strikes the text of the Senate amendment and inserts a Consolidated Appropriations Act covering 11 regular appropriations bills, each in a separate division, as follows:

- Division A—Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2008;
- Division B—Commerce, Justice, Science, and Related Agencies Appropriations Act, 2008;

- Division C—Energy and Water Development and Related Agencies Appropriations Act, 2008;
- Division D—Financial Services and General Government Appropriations Act, 2008;
- Division E—Department of Homeland Security Appropriations Act, 2008;
- Division F—Department of the Interior, Environment, and Related Agencies Appropriations Act, 2008;
- Division G—Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2008;
- Division H—Legislative Branch Appropriations Act, 2008;
- Division I—Military Construction and Veterans Affairs and Related Agencies Appropriations Act, 2008;
- Division J—Department of State, Foreign Operations and Related Programs Appropriations Act, 2008;
- Division K—Transportation, Housing and Urban Development, and Related Agencies Appropriations Act, 2008.

Section 1 of the amended bill provides that the bill as a whole may be referred to as the Consolidated Appropriations Act, 2008. Section 3 states that, unless expressly provided otherwise, any reference to "this Act" contained in any division of the amended bill shall be treated as referring only to the provisions of that division. Section 5 contains an emergency designation (for purposes of section 204 of S. Con. Res 21, the concurrent resolution on the budget for fiscal year 2008) which applies to certain appropriations within the divisions of the Act that make reference to section 5.

DIVISION A—AGRICULTURE, RURAL DEVELOPMENT, FOOD AND DRUG ADMINISTRATION, AND RELATED AGENCIES APPROPRIATIONS ACT, 2008

Following is an explanation of the effects of this division of the House amendment to the Senate amendment to H.R. _____ (hereafter referred to as "the amended bill") relative to the versions of the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2008 (H.R. 3161) passed by the House of Representatives and S. 1859 reported by the Senate Appropriations Committee.

CONGRESSIONAL DIRECTIVES

This statement remains silent on provisions that were in both the House and Senate bills that remain unchanged by this amended bill, except as noted in this statement.

Executive branch wishes cannot substitute for Congress' own statements as to the best evidence of congressional intentions—that is, the official reports of the Congress. Funds in this Act must be used for the purposes for which appropriated, as required by section 1301 of title 31 of the United States Code, which provides: "Appropriations shall be applied only to the objects for which the appropriations were made except as otherwise provided by law."

The House and Senate report language that is not changed by this statement is approved. This statement, while repeating some report language for emphasis, does not intend to negate the language referred to above unless expressly provided herein.

In cases in which the House or the Senate have directed the submission of a report, such report is to be submitted to both the House and Senate Committees on Appropriations.

TITLE I—AGRICULTURAL PROGRAMS

PRODUCTION, PROCESSING AND MARKETING

OFFICE OF THE SECRETARY

The amended bill provides $5,097,000 for the Office of the Secretary instead of $5,404,900 as proposed by the House and $5,309,000 as proposed by the Senate.

The Committees on Appropriations direct USDA to submit a plan to the Committees that fully addresses the weaknesses in the food safety system that led GAO to list food safety on its January 2007 high-risk list.

The Committees believe that agencies must make every effort to reach management decision on audit recommendations by the Office of Inspector General within 180 days, as required under OMB Circular A-50. The Committees are aware that there are a large number of recommendations on which numerous USDA agencies have not reached management decision within the prescribed time period; some of these matters date back years. In lieu of the individual agency reports requested by the House, the Secretary is directed to submit a single report to the Committees with a plan for reaching management decision on all recommendations that have been outstanding more than 180 days as of the date of enactment of this Act.

USDA is directed, unless otherwise stated herein, to provide all reports and studies requested by the Appropriations Committees of the House and Senate, or by this explanatory statement, in an agreed upon format within 60 days after the enactment of this Act.

The Committees on Appropriations are concerned that excessive assessments of programs, projects, and activities are being used to fund individual agencies' overhead and indirect costs. The Committees on Appropriations direct the Secretary to submit a report, concurrent with the fiscal year 2009 budget submission, that explains in detail by agency the charges agencies assess programs, projects, and/or activities and how those assessments are used.

EXECUTIVE OPERATIONS

CHIEF ECONOMIST

The amended bill provides $10,487,000 for the Office of the Chief Economist instead of $10,847,000 as proposed by both the House and the Senate.

NATIONAL APPEALS DIVISION

The amended bill provides $14,466,000 for the National Appeals Division instead of $15,056,000 as proposed by both the House and Senate.

OFFICE OF BUDGET AND PROGRAM ANALYSIS

The amended bill provides $8,270,000 for the Office of Budget and Program Analysis instead of $8,622,000 as proposed by the House and $9,035,000 as proposed by the Senate.

HOMELAND SECURITY STAFF

The amended bill provides $931,000 for Homeland Security Staff instead of $2,252,000 as proposed by both the House and the Senate.

OFFICE OF THE CHIEF INFORMATION OFFICER

The amended bill provides $16,361,000 for the Office of the Chief Information Officer instead of $16,723,000 as proposed by both the House and the Senate.

COMMON COMPUTING ENVIRONMENT

The amended bill provides funding for the common computing environment in the appropriate agency accounts as proposed by both the House and the Senate.

OFFICE OF THE CHIEF FINANCIAL OFFICER

The amended bill provides $5,850,000 for the Office of the Chief Financial Officer instead of $6,076,000 as proposed by both the House and the Senate.

OFFICE OF THE ASSISTANT SECRETARY FOR CIVIL RIGHTS

The amended bill provides $854,000 for the Office of the Assistant Secretary for Civil Rights instead of $897,000 as proposed by the House and $861,000 as proposed by the Senate.

OFFICE OF CIVIL RIGHTS

The amended bill provides $20,496,000 for the Office of Civil Rights instead of $23,147,000 as proposed by the House and $20,706,000 as proposed by the Senate.

OFFICE OF THE ASSISTANT SECRETARY FOR ADMINISTRATION

The amended bill provides $673,000 for the Office of the Assistant Secretary for Administration instead of $709,000 as proposed by both the House and the Senate.

AGRICULTURE BUILDINGS AND FACILITIES AND RENTAL PAYMENTS

The amended bill provides $196,252,000 for agriculture buildings and facilities and rental payments instead of $196,616,000 as proposed by the House and $199,016,000 as proposed by the Senate.

HAZARDOUS MATERIALS MANAGEMENT

The amended bill provides $4,886,000 for Hazardous Materials Management instead of $12,200,000 as proposed by the House and $5,200,000 as proposed by the Senate.

DEPARTMENTAL ADMINISTRATION

The amended bill provides $23,144,000 for Departmental Administration instead of $23,913,000 as proposed by both the House and the Senate.

OFFICE OF THE ASSISTANT SECRETARY FOR CONGRESSIONAL RELATIONS

The amended bill provides $3,795,000 for the Office of the Assistant Secretary for Congressional Relations instead of $3,936,000 as proposed by both the House and the Senate.

OFFICE OF COMMUNICATIONS

The amended bill provides $9,338,000 for the Office of Communications instead of $9,720,000 as proposed by both the House and the Senate.

OFFICE OF INSPECTOR GENERAL

The amended bill provides $80,052,000 for the Office of Inspector General instead of $85,998,000 as proposed by the House and $81,627,000 as proposed by the Senate.

OFFICE OF THE GENERAL COUNSEL

The amended bill provides $39,227,000 for the Office of the General Counsel instead of $40,964,000 as proposed by the House and $40,764,000 as proposed by the Senate.

OFFICE OF THE UNDER SECRETARY FOR RESEARCH, EDUCATION AND ECONOMICS

The amended bill provides $596,000 for the Office of the Under Secretary for Research, Education and Economics instead of $626,000 as proposed by both the House and the Senate.

ECONOMIC RESEARCH SERVICE

The amended bill provides $77,943,000 for the Economic Research Service (ERS) instead of $79,282,000 as proposed by the House and $76,532,000 as proposed by the Senate.

The following increases are provided: $1,000,000 as requested to strengthen research and modeling capacity in bio-energy and the market impacts associated with bio-energy development; $1,500,000 to strengthen and enhance the ERS market analysis and outlook program and analysis of global and differentiated product markets; and $250,000 to research deployment of broadband service to households with no or limited broadband access.

NATIONAL AGRICULTURAL STATISTICS SERVICE

The amended bill provides $163,355,000 for the National Agricultural Statistics Service instead of $166,099,000 as proposed by the House and $167,699,000 as proposed by the Senate.

AGRICULTURAL RESEARCH SERVICE

SALARIES AND EXPENSES

The amended bill provides $1,128,944,000 for the Agricultural Research Service, Salaries and Expenses, instead of $1,076,340,000 as proposed by the House and $1,154,174,000 as proposed by the Senate.

Within available resources, the Department is encouraged to take appropriate actions, consistent with the directives in this explanatory statement, to address areas of crop and livestock protection, foods (including food allergens), nutrition, colony collapse disorder, and other areas included in the President's budget for these research needs.

The Committees are aware of the actions taken by the Department to terminate, change, modify, and redirect congressionally-added research projects to align them with the Administration's priority research initiatives. The Committees concur with the reallocation of these projects as implemented and obligated by ARS in fiscal year 2007, with the exception of those projects that are identified in the paragraphs below. The modification to programs also applies to the specific items identified in House Report 110–258, which include: Aerial Application Research, College Station, TX, $584,000; Animal Vaccines, Greenport, NY, $1,628,000; Appalachian Horticulture Research (U of TN/TN State), Poplarville, MS, $784,000; Aquaculture Research, Aberdeen, ID, $629,000; Arbuscular Mycorrhizal Fungi (Rodale Inst.), Wyndmoor, PA, $45,000; Arkansas Children's Nutrition Center, Little Rock, AR, $585,000; Avian Pneumovirus/Asian Bird Influenza, Athens, GA, $292,000; Barley Health Food Benefits, Beltsville, MD, $477,000; Bee Research, Weslaco, TX, $244,000; Biomass Crop Production, Brookings, SD, $1,213,000; Biomedical Materials in Plants, Biotech Foundation, Beltsville, MD, $1,821,000; Biomineral Soil Amendments for Control of Nematode, Beltsville, MD, $390,000; Bioremediation Research, Beltsville, MD, $119,000; Bovine Genetics, Beltsville, MD, $1,914,000; Broomweed Biological Controls, Albany, CA, $445,000; Catfish Genome, Auburn, AL, $878,000; Central Great Plains Research Station, Akron, CO, $534,000; Cereal Crops Research, Madison, WI, $902,000; Cereal Disease, St. Paul, MN, $311,000; Chronic Diseases of Children, Houston, TX, $497,000; Citrus Waste Utilization, Winter Haven, FL, $393,000; Coffee and Cocoa, Beltsville, MD, $853,000; Corn Germplasm, Ames, IA, $852,000; Corn Rootworm, Ames, IA, $490,000; Cotton Pathology, Shafter, CA, $362,000; Cropping Systems Research, Stoneville, MS, $849,000; Dairy Genetics, Beltsville, MD, $930,000; Diet and Immune Function, Little Rock, AR, $235,000; Dryland Production, Akron, CO, $235,000; Floriculture and Nursery Crops, Beltsville, MD, $2,476,000; Food Fermentation Research, Raleigh, NC, $362,000; Food Safety for Listeria and E Coli, College Station, TX, $81,000; Food Safety for Listeria, E coli, and other Food Pathogens, Beltsville, MD, $134,000; Foundry Sand By-Products Utilization, Beltsville, MD, $685,000; Grand Forks Human Nutrition Research Laboratory, Grand Forks, ND, $580,000; Grape Genetics, Geneva, NY, $629,000; Grape Rootstock, Geneva, NY, $574,000; Grassland Soil and Water Research, Temple, TX, $220,000; Greenhouse and Hydroponics Research, Wooster, OH, $1,555,000; Greenhouse Lettuce Germplasm, Salinas, CA, $224,000; Harry K. Dupree National Aquaculture Research Center, Stuttgart, AR, $439,000; Hops Research, Corvallis, OR, $464,000; Human Nutrition (Equipment), Boston, MA, $98,000; Human Nutrition (Obesity), Boston, MA, $730,000; Improved Crop Production Practices, Auburn, AL, $1,387,000; Invasive Aquatic Weeds, Ft. Lauderdale, FL, $527,000; Invasive Ludwigia Research, Davis, CA, $99,000; Johne's Disease, Beltsville, MD, $323,000; Karnal bunt, Manhattan, KS, $545,000; Minor-Use Pesticides (IR–4), Beltsville, MD, $73,000; National Germplasm Resources Program, Beltsville, MD, $145,000; National Germplasm Resources System, Beltsville, MD, $121,000; National Germplasm Resources, College Station, TX, $242,000; National Nutrition Monitoring System, Beltsville, MD, $485,000; National Plant Germplasm Program, Aberdeen, ID, $97,000; National Soil Dynamics Laboratory, Auburn, AL, $1,111,000; Natural Products for Human Health, Beltsville, MD, $238,000; Nematology Research, Tifton, GA, $248,000; Northern Great Plains Research Laboratory, Mandan, ND, $62,000; Northwest Center for Small Fruits Research, Corvallis, OR, $646,000; Oat Virus, West Lafayette, IN, $233,000; Obesity Interventions (Nutricore), Beltsville, MD (National Program), $91,000; Ogallala Aquifer, Bushland, TX, $3,758,000; Olive Fruit Fly, Montpelier, France, $213,000; Olive Fruit Fly, Parlier, CA, $301,000; Organic Minor Crop, Salinas, CA, $159,000; Peanut Production, Dawson, GA, $74,000; Peanut Research, Dawson, GA, $132,000; Peanut Variety, Stillwater, OK, $178,000; Pecan Scab Research, Byron, GA, $603,000; Pierce's Disease/Glassy-Winged Sharpshooter, Ft. Pierce, FL, $466,000; Pierce's Disease/Glassy-Winged Sharpshooter, Parlier and Davis, CA, $3,355,000; Pineapple Nematode Research, Hilo, HI, $284,000; Plant Stress and Water Conservation Lab, Lubbock, TX, $1,561,000; Potato Breeding, Prosser, WA, $136,000; Potato Diseases, Beltsville, MD, $65,000; Potato Research Enhancement, Prosser, WA, $288,000; Poult Enteritis-Mortality Syndrome, Athens, GA, $146,000; Poultry Diseases, Athens, GA, $892,000; Poultry Diseases, Beltsville, MD, $438,000; Precision Agriculture Research, Mandan, ND, $485,000; Quantify basin water budget components in the Southwest, Tucson, AZ, $633,000; Rainbow Trout, Aberdeen, ID, $1,094,000; Red River Valley Agricultural Research Center—Canada Thistle Research, Fargo, ND, $264,000; Red River Valley Agricultural Research Center—Cereal Crops and Sunflower Research, Fargo, ND, $1,725,000; Red River Valley Agricultural Research Center—National Sclerotinia Initiative, Fargo, ND, $1,723,000; Red River Valley Agricultural Research Center—National Wheat and Barley Scab Initiative, Fargo, ND, $97,000; Red River Valley Agricultural Research Center—Regional Molecular Genotyping, Fargo, ND, $176,000; Red River Valley Agricultural Research Center—Wheat Quality Research, Fargo, ND, $194,000; Regional Grains Genotyping, Raleigh, NC, $693,000; Regional Molecular Genotyping, Pullman, WA, $251,000; Residue Management in Sugarcane (Sugarcane Research), Houma, LA, $1,193,000; Rice research, Stuttgart, AR, $271,000; Seasonal Grazing, Coshocton, OH, $99,000; Shellfish Genetics Research, Newport, OR, $775,000; Sorghum Cold Tolerance, Lubbock, TX, $264,000; Sorghum Ergot Research, College Station, TX, $72,000; Sorghum Research, Bushland, TX, $484,000; Sorghum Research, Little Rock, AR, $145,000; Sorghum Research, Lubbock, TX, $974,000; Sorghum Research, Stillwater, OK, $291,000; Source Water Protection Initiatives, Columbus, OH, $750,000; Southeastern Fruit and Tree Nut Research, Byron, GA, $460,000; Southwest Pecan Research, College Station, TX, $233,000; Soybean and Nitrogen Fixation, Raleigh, NC, $409,000; Sudden Oak Disease, Davis, CA, $318,000; Sugarbeet Research, Kimberly, ID, $703,000; Sugarcane Variety Research, Canal Point, FL, $1,405,000; Sustainable Feeds, Aberdeen, ID, $99,000; Temperate Fruit Flies, Wapato, WA, $36,000; Tree Fruit Quality Research, Wenatchee, WA, $435,000; Turfgrass Research, Washington, DC, $477,000; U.S. Pacific Basin Agricultural Research Ctr Staffing, Hilo, HI, $2,403,000; USNA Germplasm/Ornamental Horticulture, Washington, DC, $1,656,000; Vaccines and Microbe Control for Fish Health, Auburn, AL, $1,062,000; Verticillium Wilt, Salinas, CA, $474,000; Viticulture, Corvallis, OR, $853,000; Water Resources Management, Tifton, GA, $586,000; Water Use Management Technology, Tifton, GA, $341,000; Water Use Reduction, Dawson, GA, $323,000; Weed Management Research, Beltsville, MD, $264,000; Wheat Quality Research, Manhattan, KS, $420,000; Wheat Quality Research, Wooster, OH, $414,000; and Wild Rice, St. Paul, MN, $325,000.

The Committees further expect the Secretary to continue all other merit-based projects in fiscal year 2008, as modified, to ensure that they continue to address the Nation's food and agriculture research priorities of food safety, human nutrition, plant and animal protection, genetics and germplasm research, natural resources conservation, and bioenergy and bioproducts research, as well as focus on the Administration's agricultural defense initiative.

The Committees do not agree with the redirection of the following research activities and recommend the continuation of funding and resources as described below: Animal Health Consortium, Peoria, IL, $879,000; Aquaculture Fisheries Center, Pine Bluff, AR, $557,000; Aquaculture Initiatives, Harbor Branch Oceanographic Institute, Stuttgart, AR, $1,713,000; Biotechnology Research Development Corporation, Peoria, IL, $2,685,000; Center for Agroforestry, Booneville, AR, $708,000; Crop Production and Food Processing, Peoria, IL, $843,000; Dale Bumpers Small Farms Research Center, Booneville, AR, $1,936,000; Delta Nutrition Initiative, Little Rock, AR, $4,223,000; Diet Nutrition and Obesity Research (Pennington), New Orleans, LA, $669,000; Endophyte Research, Booneville, AR, $1,066,000; Formosan Subterranean Termite, New Orleans, LA, $3,743,000; Lyme Disease 4 Poster Project, Beltsville, MD (National Program), $751,000; Mid-West/Mid-South Irrigation, Columbia, MO, $692,000; Mosquito Trapping Research/West Nile Virus, Gainesville, FL, $1,238,000; National Center for Agricultural Law, Beltsville, MD, $701,000; National Corn to Ethanol Research Pilot Plant, HQ, $386,000; Phytoestrogen Research, New Orleans, LA, $1,530,000; Seismic and Acoustic Technologies in Soils Sedimentation Lab, Oxford, MS, $356,000; Termite Species in Hawaii, Gainesville, FL, $139,000; Tropical Aquaculture Feeds, Hilo, HI, $1,542,000; Vector-borne Diseases, Gainesville, FL, $220,000; Water Management Research Laboratory, Brawley, CA, $340,000; and Water Use Reduction, Dawson, GA, $382,000.

BUILDINGS AND FACILITIES

The amended bill provides $47,082,000 for the Agricultural Research Service, Buildings and Facilities, instead of $64,000,000 as proposed by the House and $40,100,000 as proposed by the Senate.

Funding is provided for the following items: Agricultural Research Center (Logan, UT), $5,600,000; Alcorn State University Biotechnology Laboratory (MS), $1,400,000; Animal Bioscience Facility (Bozeman, MT), $1,883,000; Animal Waste Management Research Laboratory (Bowling Green, KY), $1,400,000; Appalachian Fruit Lab (WV), $1,540,000; Center for Advanced Viticulture and Tree Crop Research (Davis, CA), $1,883,000; Center for Grape Genetics (Geneva, NY), $1,883,000; Center of Excellence for Vaccine Research (Storrs, CT), $1,883,000; Dairy Forage Agricultural Research Center (Prairie du Sac, WI), $2,520,000; Forage—Animal Production Research Facility (KY), $2,100,000; Hagerman Fish Culture Experiment Station (ID), $700,000; Jamie Whitten Delta States Research Center (Stoneville, MS), $2,800,000; National Center for Agricultural Utilization Research (Peoria, IL), $1,883,000; National Plant and Genetics Security Center (Columbia, MO), $2,100,000; Poultry Science Research Facility (Starkville, MS), $1,400,000; Southeastern Poultry Research Laboratory (Athens, GA), $2,800,000; Systems Biology Research Facility (Lincoln, NE), $1,400,000; U.S. National Arboretum (Washington, DC), $700,000; University of Toledo Greenhouse and Hydroponic Research Complex (Toledo, OH), $1,883,000; U.S. Agricultural Research Facility, Knipling-Bushland Laboratory (Kerrville, TX), $1,400,000; U.S. Agricultural Research Service Laboratory (Canal Point, FL), $525,000; U.S. Agricultural Research Service Laboratory (Pullman, WA), $1,883,000; U.S. Agricultural Research Service Sugarcane Research Laboratory (Houma, LA), $1,883,000; U.S. Agricultural Research Station (Salinas, CA), $1,883,000; and U.S. Pacific Basin Agricultural Research Center (HI), $1,750,000.

COOPERATIVE STATE RESEARCH, EDUCATION, AND EXTENSION SERVICE

RESEARCH AND EDUCATION ACTIVITIES

The amended bill provides $672,997,000 for research and education activities instead of $671,419,000 as proposed by the House and $700,849,000 as proposed by the Senate.

In lieu of the report requested by the House, the Committees encourage CSREES to include additional information in the budget justification on the primary research objective or objectives of each program for which funds are requested.

The Committees provide $192,229,000 for competitive research under the National Research Initiative (NRI). Of this amount, $3,000,000 is provided for the NRI for research that will be of direct benefit to the Food and Drug Administration (FDA) in pursuit of its food safety regulatory responsibilities. The Secretary of Agriculture and the Commissioner of the FDA are directed to consult on setting the priorities for this research and report to the Committees on the specific areas of research to be pursued under the agreement of USDA and FDA.

The Committees encourage the Secretary to provide the requested increase for bioenergy and biobased fuels research within the funds provided for NRI and to give greater emphasis on NRI funding for forestry and natural resources topics.

The Committees also encourage the Department to use not less than 10 percent of competitive research grant funds for USDA's agricultural research enhancement awards program (including USDA-EPSCoR), in accordance with 7 USC 450i.

As part of the special research grant total, the Committees provide $2,095,000 for policy research under the authorities of 7 U.S.C. 3155. Of this amount, $1,200,000 is provided for the Food and Agriculture Policy Research Institute of which $180,000 is for a cooperative agreement with the University of Wisconsin relating to dairy policy and $150,000 is for the University of Nevada at Reno relating to the marketing of commodities in the Western United States. In addition, $895,000 is for the Rural Policies Institute.

The Appropriations Committees appreciate the role of stakeholders, university personnel, and others that bring to the attention of the Congress research priorities necessary for the protection and improvement of agricultural production, nutrition, conservation, economic development, and other areas of vital importance to rural America. The Committees believe that these research activities, in conjunction with those identified through the Department's own prioritization, offer a good balance of meeting the range of research needs for the nation. The Committees expect the Secretary to work with grantees under special research authorities to ensure that the objectives of the research are clearly articulated and that the research conclusions are made available to stakeholders, and the general public, in a way that will disseminate the information in a proper and useful manner.

In the distribution of funds under the Alternative Crops program, the Secretary shall ensure that regional representation is a component of any request for proposals by research institutions and universities. The Appropriations Committees strongly encourage the Secretary to engage stakeholders in the administration of program activities.

The following table reflects the amended bill:

Cooperative State Research, Education, and Extension Service	
Research and Education Activities	
	Amount
Hatch Act	$197,192,000
McIntire-Stennis Cooperative Forestry	24,966,000
Evans-Allen Program (1890 Colleges and Tuskegee University)	41,340,000
National Research Initiative	192,229,000
Special Research Grants:	
Special Research Grants	92,422,000
Improved Pest Control:	
Expert IPM Decision Support System	155,000
Integrated Pest Management	2,396,000
Minor Crop Pest Management (IR-4)	11,448,000
Pest Management Alternatives	1,422,000
Total, Improved Pest Control	15,421,000

Wheat Genetic Research, KS	258,000
Wine Grape Foundation Block, WA	239,000
Wood Utilization, AK, ID, ME, MI, MN, MS, NC, OR, TN, WV	4,875,000
Wool Research, MT, TX, WY	221,000
Total	**92,422,000**

NATIVE AMERICAN INSTITUTIONS ENDOWMENT FUND

The amended bill provides $11,880,000 for the Native American Institutions Endowment Fund as proposed by both the House and the Senate.

EXTENSION ACTIVITIES

The amended bill provides $456,460,000 for extension activities instead of $463,886,000 as proposed by the House and $458,537,000 as proposed by the Senate.

When awarding Rural Health and Safety Education Program funds, the Department should give priority to applicants with a demonstrated history of training and educating nurses and allied health professionals committed to rural practice.

The following table reflects the amended bill:

Cooperative State Research, Education, and Extension Service

Extension Activities

	Amount
Smith-Lever Sections 3(b) and 3(c)	$276,596,000
Smith-Lever Section 3(d):	
Farm Safety	4,759,000
Food and Nutrition Education (EFNEP)	66,019,000
Indian Reservation Agents/Federally-recognized Tribes Extension	3,000,000
New Technologies for Ag Extension	1,485,000
Pest Management	9,860,000
Sustainable Agriculture	4,600,000
Youth at Risk	8,024,000
Youth Farm Safety Education and Certification	467,000
Total Section 3(d) Programs	98,214,000
1890 Colleges and Tuskegee	36,103,000
1890 Facilities Grants (Sec 1447)	17,389,000
Renewable Resources Extension Act (RREA)	4,036,000
Rural Health and Safety Education	1,750,000
Extension Services at the 1994 Institutions	3,321,000
Grants to Youth Organizations	1,750,000
Subtotal	439,159,000
Federal Administration and Special Grants:	
General Administration	6,853,000
Other Federal Administration:	
Ag in the Classroom	557,000
Children Farm Safety	75,000
Conservation Tech Transfer	375,000
Dairy Education, IA	170,000
Diabetes Detection and Prevention, WA	812,000
E-commerce, MS	248,000
Efficient Irrigation, NM, TX	1,727,000
Entrepreneurial Alternatives, PA	248,000

Health education leadership, KY	632,000
Income Enhancement Demonstration, OH	926,000
Iowa vitality center	225,000
National Center for Farm Safety, IA	169,000
National Wild Turkey Federation	174,000
Nursery Production, RI	219,000

Nutrition Enhancement, WI	750,000
Ohio-Israel Agriculture Initiative	499,000
Pesticide Reduction on Vegetables, WI	300,000
Pilot Technology Transfer, MS, OK	225,000
Pilot Technology Transfer, WI	186,000
Potato Integrated Pest Management - Late Blight, ME	300,000
Potato Pest Management, WI	297,000
Range improvement, NM	225,000
Red Cliff Tribal Hatchery, WI	371,000
Rural Technologies, HI	75,000
Urban Horticulture and Marketing, IL	75,000
Urban Horticulture, WI	349,000
Wood Biomass as an Alternative Farm Product, NY	140,000
Total Other Federal Administration	10,448,000
Total, Federal Administration	17,301,000
Total, Extension Activities	456,460,000

INTEGRATED ACTIVITIES

The amended bill provides $56,244,000 for integrated activities instead of $57,244,000 as proposed by the House and $12,948,000 as proposed by the Senate.

The following table reflects the amended bill:

Cooperative State Research, Education, and Extension Service Integrated Activities	
	Amount
Water Quality	$12,738,000
Food Safety	14,699,000
Regional Pest Management Centers	4,125,000
Crops at Risk from FQPA Implementation	1,375,000
FQPA Risk Mitigation Program for Major Food Crop Systems	4,419,000
Methyl Bromide Transition Program	3,075,000
Organic Transition Program	1,855,000
Total, Section 406	42,286,000
International Science and Education Grants Program	2,000,000
Critical Issues Program	737,000
Regional Rural Development Centers Program	1,321,000
Homeland Security, Food and Agriculture Defense Initiative	9,900,000
Total, Integrated Activities	**56,244,000**

OUTREACH FOR SOCIALLY DISADVANTAGED FARMERS

The amended bill provides $6,440,000 for Outreach for Socially Disadvantaged Farmers instead of $6,930,000 as proposed by the House and $5,940,000 as proposed by the Senate.

OFFICE OF THE UNDER SECRETARY FOR MARKETING AND REGULATORY PROGRAMS

The amended bill provides $721,000 for the Office of the Under Secretary for Marketing and Regulatory Programs instead of $759,000 as proposed by both the House and the Senate.

ANIMAL AND PLANT HEALTH INSPECTION SERVICE

SALARIES AND EXPENSES

The amended bill provides $873,754,000 for the Animal and Plant Health Inspection Service (APHIS) instead of $874,643,000 as proposed by the House and $911,742,000 as proposed by the Senate.

The following table reflects the amended bill:

Animal and Plant Health Inspection Service
FY 2008
(dollars in thousands)

PROGRAM	AMOUNT
PEST AND DISEASE EXCLUSION:	
Agricultural Quarantine Inspection (AQI)	$27,063
Cattle Fever Ticks	7,653
Foreign Animal Disease/Foot and Mouth Disease	8,695
Fruit Fly Exclusion & Detection	60,723
Import/Export	11,237
Screwworm	27,753
Trade Issues Resolution & Management	12,505
Tropical Bont Tick	424
Subtotal, Pest and Disease Exclusion	**156,053**
PLANT AND ANIMAL HEALTH MONITORING:	
Animal Health Monitoring & Surveillance	123,371
Animal & Plant Health Reg. Enforcement	12,438
Biosurveillance	1,991
Emergency Management Systems	15,373
Highly Pathogenic Avian Influenza	51,725
Pest Detection	27,724
Select Agents	4,251
Wildlife Disease Monitoring & Surveillance	-
Subtotal, Plant and Animal Health Monitoring	**236,873**
PEST AND DISEASE MANAGEMENT:	
Aquaculture	6,855
Biological Control	9,581
Boll Weevil	-
Brucellosis	9,532
Chronic Wasting Disease	17,807
Contingency Funds	1,000
Cotton Pests	37,269
Emerging Plant Pests	127,859
Golden Nematode	807
Grasshopper	6,643
Gypsy Moth	4,803
Imported Fire Ant	1,898
Johne's Disease	10,613
Low Pathogen Avian Influenza	15,720

Noxious Weeds	1,788
Pink Bollworm	-
Plum Pox	2,199
Pseudorabies	2,402
Scrapie	18,105
Tuberculosis	15,397
Wildlife Services Operations	75,447
Witchweed	1,515
Subtotal, Pest and Disease Management	**367,240**

Animal Welfare	20,643
Horse Protection	497
Subtotal, Animal Care	**21,140**
SCIENTIFIC AND TECHNICAL SERVICES:	
Biosecurity	1,952
Biotechnology Regulatory Services	11,811
Environmental Compliance	2,645
Plant Methods Development Labs	9,550
Veterinary Biologics	16,658
Veterinary Diagnostics	23,256
Wildlife Services Methods Development	17,880
Subtotal, Scientific and Technical Services	**83,752**
MANAGEMENT	
APHIS Information Technology Infrastructure	4,506
Physical/Operational Security	4,190
Subtotal, Management	**8,696**
TOTAL, APHIS	**873,754**

The amended bill provides $27,063,000 for agricultural quarantine inspection. Of this amount, $2,079,000 is for interline activities in Hawaii and $225,000 is for the Washington Clean Plant Program.

The amended bill provides $123,371,000 for animal health monitoring and surveillance. Within this amount, the following items are provided: Biosafety (VT), $242,000; Conservation Science at Lincoln Park Zoo (IL), $37,000; New Mexico Rapid Syndrome Validation Program, $407,000; Wisconsin Livestock Identification Consortium, $1,485,000; Database of North Carolina's Agriculture Industry, $223,000; Remote Diagnostic and Wildlife Disease Surveillance (ND), $1,364,000; and National Farm Animal Identification and Records, $446,000.

The amended bill provides $9,750,000 to continue implementation of NAIS. The Committees very much appreciate the work that has gone into the drafting of the NAIS business plan and have reviewed drafts of the document. While the document does help to define and separate out aspects of the program, it does not provide sufficient justification for the requested appropriation of $33,171,000 for NAIS for fiscal year 2008.

The plan does not indicate how APHIS will reach its 48-hour traceback goal, a question that the Committees have been asking APHIS every year since the program started. While it sets forth key outcomes, there is no clear presentation of how APHIS will actually reach those goals, and APHIS does not provide an estimate of the full cost of implementing the plan.

The Committees' concern about how the funds for the program have been used is not new, and the plan indicates that those concerns were justified. The Committees are concerned that 51 percent of the obligations to date in NAIS have been for cooperative agreements that, until very recently, did not require that cooperators or grantees agree to specific performance goals. Another 25 percent has gone for program management.

In light of the lack of information provided on full costs and concerns about the use of funds to date, the Committees simply cannot provide the full request.

The amended bill provides an increase of $1,750,000 over fiscal year 2007 for emergency management systems, of which $750,000 is for the national veterinary vaccine stockpile and $1,000,000 is for animal care in emergencies.

The amended bill provides an increase of $4,525,000 over fiscal year 2007 for highly pathogenic avian influenza for domestic surveillance and preparedness.

The amended bill provides $27,724,000 for pest detection. Of this amount, $623,000 is for the California County Pest Detection Augmentation Program and $743,000 is for import inspection in California.

The amended bill provides an increase of $375,000 over fiscal year 2007 for select agents for work related to the Agricultural Bioterrorism Protection Act and $375,000 to continue addressing issues raised by the Office of Inspector General.

The amended bill provides an increase of $5,600,000 over 2007 for aquaculture for activities related to Viral Hemorrhagic Septicemia.

The amended bill provides $9,532,000 for brucellosis. Of this amount, $697,000 is for the Greater Yellowstone Interagency Brucellosis Committee.

The amended bill provides $17,807,000 for chronic wasting disease. Of this amount, $1,299,000 is for surveillance in Wisconsin; $183,000 is for surveillance in Utah; and $38,000 is for surveillance in Colorado.

The amended bill provides $127,859,000 for emerging plant pests as follows: $20,007,000 for Asian long-horned beetle, including $353,000 for Illinois; $35,559,000 for citrus health; $23,175,000 for glassy-winged sharpshooter; $9,600,000 for potato cyst nematode; $30,657,000 for emerald ash borer, including $1,500,000 for Illinois; $5,326,000 for sudden oak death; $1,507,000 for Karnal bunt; $371,000 for hydrilla control in Virginia; $234,000 for olive fruit fly (CA); $1,000,000 for light brown apple moth; and $423,000 for miscellaneous pests.

The Committees encourage the Secretary to ensure adequate funding is made available for Asian long-horned beetle activities in New York. The Committees also encourage the Secretary to help States with new emerald ash borer outbreaks, such as Maryland, and States that are at risk, such as Wisconsin.

The Committees encourage APHIS to use the funding provided for sudden oak death (Phytopthora ramorum) to promote the research, development and testing of new systems of nursery pest and disease management and programs of inspection and regulation; for surveying; and for diagnostic tools. The Committees request a report, within 120 days of the enactment of this Act, that examines the effectiveness of current regulatory and inspection efforts; delivers an assessment of the potential risk from infected plant material; and the risk posed by the importation into the United States of P. ramorum host and associated host plants and the interstate movement of such plant material.

Of the amount provided for hydrilla control, $333,900 is for a cooperative agreement with the Lake Gaston Weed Control Council and $37,100 is for a cooperative agreement with the Tri-County (Smith Mountain) Lake Administrative Commission. The agency is directed to provide technical assistance to these entities in carrying out control efforts, and report back to the Committees by May 1, 2008, on the status of these projects.

The amended bill provides $6,643,000 for the grasshopper program. Of this amount, $1,125,000 is for grasshopper and Mormon cricket activities in Nevada and $1,125,000 is for grasshopper and Mormon cricket activities in Utah.

The amended bill provides $10,613,000 for Johne's disease. Of this amount, $933,000 is for activities in Wisconsin.

The amended bill provides $15,720,000 for low pathogen avian influenza. Of this amount, $750,000 is for avian influenza preparedness activities in Connecticut.

The amended bill provides $1,788,000 for noxious weeds. Of this amount, $223,000 is for cogongrass control in Mississippi; $37,000 for weed management in Nevada; $222,000 for the National Biodiversity Conservation Strategy; and $188,000 for the Nez Perce Bio-Control Center.

The amended bill provides $75,447,000 for wildlife services operations. Within this amount, the following items are provided: integrated predation management activities in West Virginia, $300,000; cormorant control, Lake Champlain, $111,000; beaver management and control in Mississippi, $475,000; beaver management in North Carolina, $223,000; blackbird management in North Dakota and South Dakota, $284,000; blackbird management in Louisiana, $101,000; blackbird management in Kansas, $128,000; cormorant control in Michigan, $149,000; cormorant control, Delta States, $239,000; Tri-State predator control, $993,000; brown tree snake management, $705,000; wildlife services, South Dakota, $557,000; the Cooperative Livestock Protection Program, $225,000; wolf predation management in Wisconsin, Minnesota, and Michigan, $779,000; crop and aquaculture losses in Southeast Missouri, $222,000; predation wildlife services in Virginia, $150,000; and cormorant control in New York, $743,000.

The Committees encourage APHIS to provide the fiscal year 2007 funding levels for wildlife services in Hawaii and Arkansas.

The Committees understand that APHIS has, and will continue to use, statutory authority to reimburse employees for the use of personally owned animals and equipment, including but not limited to horses, dogs, all terrain vehicles, snowmobiles, computer connectivity, and cellular telephones.

The amended bill provides $11,811,000 for biotechnology regulatory services (BRS), including $278,000 for the Biosafety Institute/National Institute for Genetically Modified Agriculture Products. An increase of $1,000,000 is provided for increased enforcement of BRS regulations.

The amended bill includes an increase of $1,000,000 over fiscal year 2007 for plant methods development labs to support the development of detection and control tools to contain and eradicate the emerald ash borer.

The amended bill includes an increase of $1,000,000 over fiscal year 2007 for veterinary biologics for meeting increased demands for applications and addressing containing requirements and meeting standards related to the use of select agents and toxins.

The amended bill provides $23,256,000 for veterinary diagnostics, including an increase of $300,000 over 2007 for the National Veterinary Services Laboratories accreditation. Of the total provided, $75,000 is for disease prevention, LA; $75,000 for Agriculture Compliance Laboratory equipment, DE; $75,000 for aquaculture monitoring technology, KY; and $278,000 for the National Agriculture Biosecurity Center, KS.

The amended bill provides $17,880,000 for wildlife services methods development, including an increase of $500,000 for the avian influenza initiative to study the virus in swine. Of the total provided, the following items are provided: the National Wildlife Research Station in Kingsville, Texas, $311,000; the Berryman Institute, UT/MS, $1,125,000; the Predatory Research Station, UT, $1,040,000; the National Wildlife Research Center in Mississippi, $257,000; the National Wildlife Research Center in Hilo, Hawaii, $173,000; and rodent control in Arkansas, $113,000.

BUILDINGS AND FACILITIES

The amended bill provides no funding for Animal and Plant Health Inspection Service, Buildings and Facilities, instead of $4,946,000 as proposed by both the House and the Senate.

AGRICULTURAL MARKETING SERVICE

MARKETING SERVICES

The amended bill provides $76,862,000 for the Agricultural Marketing Service instead of $79,945,000 as proposed by the House and $80,145,000 as proposed by the Senate.

In lieu of bill language included by the Senate, the Committees reaffirm the schedule and report requirements included in the House report related to Country of Origin Labeling.

LIMITATION ON ADMINISTRATIVE EXPENSES

The amended bill provides $61,233,000 for Limitation on Administrative Expenses as proposed by both the House and the Senate.

FUNDS FOR STRENGTHENING MARKETS, INCOME, AND SUPPLY (SECTION 32)

The amended bill provides $16,798,000 for Funds for Strengthening Markets, Income, and Supply as proposed by both the House and the Senate.

In addition, the Committees provide $10,000,000 for the Web-based Supply Chain Management system as proposed by the Senate instead of $20,000,000 as proposed by the House.

PAYMENTS TO STATES AND POSSESSIONS

The amended bill appropriates $11,709,000 for Payments to States and Possessions instead of $1,334,000 as proposed by the House and $3,834,000 as proposed by the Senate.

Of the total provided, $8,500,000 is for specialty crops block grants and $1,875,000 is for a grant for the development of specialty markets in Wisconsin.

GRAIN INSPECTION, PACKERS AND STOCKYARDS ADMINISTRATION

SALARIES AND EXPENSES

The amended bill provides $38,785,000 for the Grain Inspection, Packers and Stockyards Administration instead of $41,115,000 as proposed by the House and $39,115,000 as proposed by the Senate. The amount provided includes an increase of $1,000,000 for increased enforcement of the Packers and Stockyards Act.

LIMITATION ON INSPECTION AND WEIGHING SERVICES EXPENSES

The amended bill provides $42,463,000 for Limitation on Inspection and Weighing Services Expenses as proposed by both the House and the Senate.

OFFICE OF THE UNDER SECRETARY FOR FOOD SAFETY

The amended bill provides $600,000 for the Office of the Under Secretary for Food Safety instead of $632,000 as proposed by both the House and the Senate.

FOOD SAFETY AND INSPECTION SERVICE

The amended bill provides $930,120,000 for the Food Safety and Inspection Service as proposed by the House instead of $930,620,000 as proposed by the Senate.

The amended bill does not assume Food Safety Inspection user fees of $96,000,000 as proposed in the President's budget request. Such fees are not authorized.

The amended bill includes $63,299,000 for state meat inspection costs, which includes an increase of $250,000 above the request for state inspection pay costs. About 2,100 meat and poultry establishments are inspected under State Meat and Poultry Programs, and many of these establishments are small or very small. FSIS reimburses states up to 50 percent of the estimated costs of administering state inspections, and has historically provided the full 50 percent of states' documented need. In fiscal year 2006, FSIS reimbursements to the states fell below 50 percent for the first time in nearly 30 years, and it is the understanding of the Appropriations Committees that the funding level provided will allow FSIS to resume providing 50 percent of the documented need by the states.

The amended bill includes the following amounts:

FOOD SAFETY AND INSPECTION SERVICE FUNDING BY ACTIVITY

Food Safety & Inspection:	
Federal	$829,807,000
State	63,299,000
International	18,327,000
CODEX	3,737,000
Public Health Data Communication Infrastructure	14,950,000
Total	$930,120,000

OFFICE OF THE UNDER SECRETARY FOR FARM AND FOREIGN AGRICULTURAL SERVICES

The amended bill provides $632,000 for the Office of the Under Secretary for Farm and Foreign Agricultural Services instead of $666,000 as proposed by both the House and the Senate.

FARM SERVICE AGENCY

SALARIES AND EXPENSES

The amended bill provides $1,134,045,000 for the Farm Service Agency, Salaries and Expenses instead of $1,127,409,000 as proposed by the House and $1,160,662,000 as proposed by the Senate.

The Appropriations Committees continue to recognize the need for major upgrades to the Farm Service Agency's computer system used primarily for program delivery. Previous requests for a detailed spending plan for these IT upgrades from the Department have gone unanswered. The Appropriations Committees direct the Department to submit a plan detailing the issues surrounding the deteriorating IT system and the associated costs no later than 30 days after enactment of this Act to the Appropriations and Agriculture Committees. The Appropriations Committees have included IT funds adequate to meet the need described in the Department's budget request. However, since the majority of the work performed by this system is the delivery of mandatory funded farm bill programs, the Appropriations Committees strongly encourage the Department to work with the House and Senate Agriculture Committees to secure mandatory funding to work towards resolution of this looming meltdown.

STATE MEDIATION GRANTS

The amended bill provides $4,400,000 for State Mediation Grants instead of $4,000,000 as proposed by the House and $4,750,000 as proposed by the Senate.

GRASSROOTS SOURCE WATER PROTECTION PROGRAM

The amended bill provides $3,713,000 for the Grassroots Source Water Protection Program as proposed by both the House and the Senate.

DAIRY INDEMNITY PROGRAM

The amended bill provides $100,000 for the Dairy Indemnity Program as proposed by both the House and the Senate.

AGRICULTURAL CREDIT INSURANCE FUND PROGRAM ACCOUNT

The following table reflects the amended bill:

Farm Ownership Loans:	
Direct	($223,857,000)
Subsidy	9,962,000
Guaranteed	(1,247,400,000)
Subsidy	4,990,000
Farm Operating Loans:	
Direct	($579,150,000)
Subsidy	73,494,000
Unsubsidized Guaranteed	(1,024,650,000)
Subsidy	24,797,000
Subsidized Guaranteed	(271,886,000)
Subsidy	36,270,000
Indian Tribe Land Acquisition	(3,960,000)
Subsidy	125,000
Boll Weevil Eradication	(100,000,000)
ACIF Expenses:	
Salaries and Expenses	$303,309,000
Administrative Expenses	7,920,000

The amended bill provides for a transfer of $303,309,000 to salaries and expenses instead of $310,230,000 as proposed by both the House and the Senate.

RISK MANAGEMENT AGENCY

The amended bill provides $76,658,000 for the Risk Management Agency instead of $78,833,000 as proposed by both the House and the Senate.

The Pest Information Platform for Education & Extension (PIPE) is a critical pest risk management tool for Asian soybean rust and other pathogens of legumes. Congress encourages the Risk Management Agency to continue the PIPE program for FY2008.

CORPORATIONS

FEDERAL CROP INSURANCE CORPORATION FUND

The amended bill provides an appropriation of such sums as may be necessary for the Federal Crop Insurance Corporation Fund (estimated to be $4,818,099,000 in the President's fiscal year 2008 Budget Request) as proposed by both the House and the Senate.

COMMODITY CREDIT CORPORATION FUND

REIMBURSEMENT FOR NET REALIZED LOSSES

The amended bill provides an appropriation of such sums as may be necessary for Reimbursement for Net Realized Losses of the Commodity Credit Corporation (estimated to be $12,983,000,000) as proposed by the Senate instead of $12,983,053,000 as proposed by the House.

The Appropriations Committees do not adopt the Senate language regarding the sale of non-fat dry milk.

HAZARDOUS WASTE MANAGEMENT

The amended bill provides a limitation of $5,000,000 for Hazardous Waste Management as proposed by both the House and the Senate.

FARM STORAGE FACILITY LOANS PROGRAM ACCOUNT

The amended bill provides no funding for the farm storage facility loan program as proposed by the House instead of $4,660,000 as proposed by the Senate.

TITLE II

CONSERVATION PROGRAMS

OFFICE OF THE UNDER SECRETARY FOR NATURAL RESOURCES AND ENVIRONMENT

The amended bill provides $742,000 for the Office of the Under Secretary for Natural Resources and Environment instead of $781,000 as proposed by both the House and the Senate.

NRCS is encouraged to establish a competitive demonstration pilot program utilizing rapid growth reforestation technology.

NATURAL RESOURCES CONSERVATION SERVICE

CONSERVATION OPERATIONS

The amended bill provides $840,326,000 for Conservation Operations instead of $851,910,000 as proposed by the House and $862,996,000 as proposed by the Senate.

The amended bill requires funds appropriated for Conservation Operations be available until September 30, 2009. The Appropriations Committees direct the Secretary to report to the Committees no later than September 30, 2008, on any projects or activities for which funds have been specifically provided by this Act that have not been obligated by that date. Such a report shall include the reasons for which the obligations have not been made and a timetable indicating when those obligations shall occur.

Funding for fiscal year 2006 projects is not continued in fiscal year 2008 unless specifically mentioned in the following table. The following funds are directed to be used in cooperative agreements continued with the same cooperator entities as in the fiscal year 2006 agreements, except as noted:

State	Project	FY 2008 recommendation
AK	Alaska Association of Conservation Districts.	$661,000

State	Project	FY 2008 recommendation
AK	Native Plant Commercialization	133,000
AK	US Cold Regions Botanical Research Network.	133,000
AL	Conservation Education in Alabama	217,000
AR	National Water Management Center	1,965,000
AR	Small Farm Outreach Wetlands Management Center.	144,000
CA	Mojave Water Agency Non-Native Plant Removal.	715,000
CA	Monterey Bay Sanctuary	429,000
CA	Municipal Water District of Orange County for efficient irrigation.	144,000
CO	Water Conservation project in Colorado	361,000
CT	Cooperative agreement with Tufts University to improve conservation practices.	357,000
DE	Irrigation System Program in Delaware	253,000
FL	Green Institute	286,000
FL	Suwannee, Dixie, and Lafayette Counties Dairy and Poultry waste treatment.	715,000
GA	Altamaha River Basin water quality project	71,000
GA	Community Nutrient Management Facilities for the Lagoon Waste Management Demonstration program.	250,000
GA	GA Soil and Water Conservation Commission Cooperative Agreement.	2,599,000
HI	Agricultural Development and Resource Conservation.	643,000
HI	Molokai Agriculture Development and Resource Conservation.	72,000
HI	HI Plant Materials Center	114,000
IA	CEMSA with Iowa Soybean Association	309,000
IA	Hungry Canyons Project (Loess Hills Soil Erosion).	858,000
IA	On-Farm Management System Evaluation Network.	179,000
IA	Tallgrass Prairie Center—Native Seed Testing Lab.	319,000
IA	The Iowa Buffer Initiative	71,000
IA	Watershed Demonstration Project	144,000
ID	Idaho One Plan	143,000
ID	Little Wood River Irrigation District Gravity Pressure Delivery System.	144,000
IL	Illinois River Agricultural Water Conservation.	108,000
IL	Illinois River Basin	433,000
IL	The Illinois Buffer Initiative	71,000
IL	Wildlife Habitat Improvement	108,000
KY	Green River Water Quality and Biological Diversity Project.	90,000
KY	Kentucky Soil Erosion Control	776,000
KY	Technical Assistance to providing grants to Soil Conservation Districts in KY.	715,000

WATERSHED SURVEYS AND PLANNING

The amended bill provides no funding for Watershed Surveys and Planning as proposed by the Senate instead of $6,556,000 as proposed by the House.

WATERSHED AND FLOOD PREVENTION OPERATIONS

The amended bill provides $30,000,000 for Watershed and Flood Prevention Operations instead of $37,000,000 as proposed by the House and $33,450,000 as proposed by the Senate.

The Committees are aware of and expect progress to continue and/or to provide financial/technical assistance for the next phase for the following projects:

State	Project	FY 2008 Recommendation
AR	Big Slough Watersheds	$166,000
AR	Departee Creek Watershed	91,000
HI	Lower Hamakua Ditch Watershed	207,000
HI	Upcountry Maui Watershed	207,000
HI	Wailuka-Alenaio Watershed	124,000
IA	Little Sioux Watershed Project	1,037,000
IA	Soap Creek Watershed	955,000

VA	Buena Vista Watershed	62,000
WV	Lost River Watershed	3,856,000
	Total, Watershed and Flood Prevention Operations.	$28,000,000

WATERSHED REHABILITATION PROGRAM

The amended bill provides $20,000,000 for the Watershed Rehabilitation Program as proposed by the Senate instead of $31,586,000 as proposed by the House.

RESOURCE CONSERVATION AND DEVELOPMENT

The amended bill provides $51,088,000 for Resource Conservation and Development instead of $52,370,000 as proposed by the House and $53,150,000 as proposed by the Senate.

HEALTHY FORESTS RESERVE PROGRAM

The amended bill provides $2,000,000 for the Healthy Forests Reserve Program instead of no funding as proposed by the House and $2,476,000 as proposed by the Senate.

TITLE III

RURAL DEVELOPMENT PROGRAMS

OFFICE OF THE UNDER SECRETARY FOR RURAL DEVELOPMENT

The amended bill provides $632,000 for the Office of the Under Secretary for Rural Development instead of $666,000 as proposed by both the House and the Senate.

The Appropriations Committees are concerned about the proposal to close local Rural Development (RD) offices. Some of these offices are located in counties identified by the Economic Research Service as persistent poverty counties. The amended bill includes a general provision that requires the Secretary of Agriculture to determine the cost effectiveness and/or enhancement of program delivery prior to closing or relocating any RD offices. The Department is directed to provide a report, not later than 60 days before the date of the proposed closure or relocation that describes the justifications for such closures and relocations.

The fiscal year 2006 Appropriations Act made permanent a general provision requiring that the Department of Agriculture consider and treat all loan levels in any appropriations act as estimates and not as loan limitations. It has come to the Committees' attention that loan levels with negative or zero subsidy rates are being treated as limitations. The Committees want to reiterate the intent of that provision and expect the Department to utilize this authority if demand or authorization changes justify such action by fully recognizing adjustments to current program levels that may occur as the result of recent legislation. The Committees expect to be notified within 30 days of any increases in these programs based on demand or authorization changes.

RURAL COMMUNITY ADVANCEMENT PROGRAM

The amended bill provides funding for the Rural Community Advancement Program (RCAP) under the associated agencies as proposed by the Senate. The House proposed $728,807,000 under the RCAP account, and the Senate proposed a total of $704,091,000 under the associated agencies.

RURAL DEVELOPMENT SALARIES AND EXPENSES

The amended bill provides $169,998,000 for Rural Development Salaries and Expenses instead of $175,382,000 as proposed by the House and $175,302,000 as proposed by the Senate.

RURAL HOUSING SERVICE

RURAL HOUSING INSURANCE FUND PROGRAM ACCOUNT

The amended bill provides a total subsidy of $208,761,000 for activities under the Rural Housing Insurance Fund Program Account instead of $212,163,000 as proposed by the House and $202,736,000 as proposed by the Senate.

The amended bill provides for an estimated loan program level of $5,605,573,000 instead of $5,100,000,000 as proposed by the House and $4,966,684,000 as proposed by the Senate.

The amended bill provides for a transfer of $452,927,000 to the Rural Development Salaries and Expenses account instead of $462,521,000 as proposed by both the House and the Senate.

The Committees on Appropriations acknowledge that significant portions of section 515 appropriations have been used for needed portfolio repair and rehabilitation. However, these repairs can be more efficiently accomplished utilizing tools available under the Revitalization Initiative. For that reason, funding that would have been provided to the section 515 account and used for section 515 repair and rehabilitation is appropriated directly to the Multi-Family Housing Revitalization Program Account.

The amended bill provides a program level of $4,220,000,000 for the Section 502 Guaranteed Homeownership loans. These loans offer a safe alternative to subprime mortgages for creditworthy low and moderate income rural homebuyers. Lenders and mortgage brokers are increasingly looking for traditional, standard term, mortgage loan programs to serve their clientele, particularly those in need of affordable mortgage financing options. Obligations in the Section 502 Guaranteed Homeownership program have escalated and have increased by 75 percent over last year's activity during the first two months of the fiscal year. This demand is unprecedented and it is expected that demand will remain strong and grow throughout the rest of the fiscal year as the market continues to adjust from the diminished availability of subprime loans for home purchase.

The following table indicates loan and subsidy levels provided in the amended bill:

Rural Housing Insurance Fund Program Account:

Loan authorizations:	
Single family direct (sec. 502)	($1,129,391,000)
Single family unsubsidized guaranteed	(4,220,000,000)
Rental housing (sec. 515)	(70,000,000)
Multi-family housing guaranteed (sec. 538)	(130,000,000)
Housing repair (sec. 504)	(34,652,000)
Credit sales of acquired property	(11,485,000)
Site loans (sec. 524)	(5,045,000)
Self-help housing land development	(5,000,000)
Total, Loan authorizations	($5,605,573,000)
Loan subsidies:	
Single family direct (sec. 502)	$105,824,000
Single family unsubsidized guaranteed	50,400,000
Rental housing (sec. 515)	29,827,000
Multi-family housing guaranteed (sec. 538)	12,220,000
Housing repair (sec. 504)	9,796,000
Credit sales of acquired property	552,000
Self-help housing land development	142,000
Total, Loan subsidies	$208,761,000
RHIF administration expenses (transfer to RD)	$452,927,000

RENTAL ASSISTANCE PROGRAM

The amended bill provides $482,090,000 for the Rental Assistance Program instead of $533,020,000 as proposed by the House and $496,950,000 as proposed by the Senate.

These funds are provided for renewal of expiring rental assistance contracts for a one-year term and for preservation incentives and new construction contracts. In addition, this funding level provides a five percent funding reserve to cover any unforeseen disruptions for renewing contracts. It is expected that one-year contract terms will allow for more accurate cost estimation and will reduce the recent cost fluctuations in this program.

MULTI-FAMILY HOUSING REVITALIZATION PROGRAM ACCOUNT

The amended bill provides $28,000,000 for the Multi-family Housing Revitalization Program instead of $27,800,000 as proposed by the House and $33,423,000 as proposed by the Senate.

The Department is directed to provide an information technology development and spending plan on an automated system to manage housing vouchers issued from the Multi-Family Housing Revitalization Program Account. No funds are to be obligated on that system until submission of the report to the Committees on Appropriations.

The Department is directed to include in the Multi-Family Housing Revitalization Initiative projects funded through the Section 514 and Section 516 Farm Labor Housing Program.

MUTUAL AND SELF-HELP HOUSING GRANTS

The amended bill provides $39,000,000 for Mutual and Self-Help Housing Grants instead of $40,000,000 as proposed by the House and $38,000,000 as proposed by the Senate.

RURAL HOUSING ASSISTANCE GRANTS

The amended bill provides $39,000,000 for Rural Housing Assistance Grants as proposed by the House instead of $40,590,000 as proposed by the Senate.

FARM LABOR PROGRAM ACCOUNT

The amended bill provides $22,000,000 for the Farm Labor Program Account as proposed by the Senate instead of $46,630,000 as proposed by the House.

The amended bill provides for an estimated loan program level of $27,739,000; $12,000,000 for loan subsidies; and $10,000,000 for grants.

The Appropriations Committees note that the Farm Labor Housing loan and grant program has a large unobligated balance available from prior years, in addition to the appropriation provided, to meet the demand for new construction and needed repair and rehabilitation of the portfolio. However, the Appropriations Committees recognize that repairs can be more efficiently accomplished utilizing tools available under the Revitalization Initiative. For that reason, authority has been provided in the Multi-Family Housing Revitalization Program Account to allow for the Department to utilize those funds for necessary revitalization efforts for the Farm Labor portfolio.

RURAL COMMUNITY FACILITIES PROGRAM ACCOUNT

The amended bill provides $68,952,000 for the Rural Community Facilities Program Account instead of $55,742,000 as proposed by the House and $67,422,000 as proposed by the Senate.

The following table reflects the agreement:

Community Facilities:	
Direct loans	($297,000,000)
Direct subsidy	16,484,000
Guaranteed loans	(207,900,000)
Guaranteed subsidy	7,651,000
Grants	20,517,000
Rural community development initiative	6,300,000
Economic impact initiative grants	14,000,000
Tribal college grants	4,000,000
Total, loan subsidies and grants	$68,952,000

RURAL BUSINESS-COOPERATIVE SERVICE

RURAL BUSINESS PROGRAM ACCOUNT

The amended bill provides $87,700,000 for the Rural Business Program Account instead of $100,000,000 as proposed by the House and $86,200,000 as proposed by the Senate.

The following table reflects the agreement:

Business and Industry:	
Guaranteed loans	($1,000,000,000)
Guaranteed subsidy	43,200,000
Rural business enterprise grants	39,000,000
Rural business opportunity grants	2,500,000
Delta regional authority	3,000,000
Total, loan subsidy and grants	$87,700,000

RURAL DEVELOPMENT LOAN FUND PROGRAM ACCOUNT

The amended bill provides an estimated loan program level of $33,772,000 with a subsidy of $14,485,000 for the Rural Development Loan Fund as proposed by the House instead of $14,527,000 as proposed by the Senate.

The amended bill provides for a transfer of $4,774,000 to the Rural Development Salaries and Expenses account instead of $4,861,000 as proposed by both the House and the Senate.

RURAL ECONOMIC DEVELOPMENT LOANS PROGRAM ACCOUNT

The amended bill provides an estimated loan program level of $33,077,000 as proposed by the Senate.

The amended bill includes a rescission of $34,000,000 as proposed by both the House and the Senate.

RURAL COOPERATIVE DEVELOPMENT GRANTS

The amended bill provides $28,023,000 for Rural Cooperative Development Grants instead of $29,193,000 as proposed by the House and $26,403,000 as proposed by the Senate.

The amended bill provides $19,000,000 for the value-added agricultural product market development grant program; $2,600,000 for a cooperative agreement for the appropriate technology transfer for rural areas program; $1,473,000 for cooperatives or associations of cooperatives whose primary focus is to provide assistance to small, minority producers; $4,455,000 for cooperative development grants; and $495,000 for a cooperative research agreement with a qualified academic institution.

RURAL EMPOWERMENT ZONES AND ENTERPRISE COMMUNITIES GRANTS

The amended bill provides $8,187,000 for Rural Empowerment Zones and Enterprise Communities Grants instead of $11,088,000 as proposed by the House and $10,000,000 as proposed by the Senate.

RENEWABLE ENERGY PROGRAM

The amended bill provides $36,000,000 for the Renewable Energy Program instead of $46,000,000 as proposed by the House and $28,489,000 as proposed by the Senate.

The amended bill provides a loan level of $207,000,000, a subsidy level of $20,000,000, and a grant level of $16,000,000.

RURAL UTILITIES SERVICE

RURAL WATER AND WASTE DISPOSAL PROGRAM ACCOUNT

The amended bill provides $562,565,000 for the Rural Water and Waste Disposal Program Account instead of $573,065,000 as proposed by the House and $550,469,000 as proposed by the Senate.

The amended bill includes a general provision to require the water and waste direct loan subsidy rate to be calculated using the fiscal year 2007 borrower rates and the fiscal year 2008 President's economic assumptions. The administration's proposal to rely more heavily on borrowing rather than grants is rejected.

The following table reflects the agreement:

Water and waste:	
Direct loans	($1,030,000,000)
Direct subsidy	70,100,000

Guaranteed loans	(75,000,000)
Grants	467,500,000
Solid waste management grants	3,465,000
Water and wastewater revolving funds	500,000
Water well system grants	1,000,000
High energy cost grants	20,000,000
Total, loan subsidies and grants	$562,565,000

Rural Electrification and Telecommunications Loans Program Account

The amended bill provides a total subsidy of $3,740,000 for activities under the Rural Electrification and Telecommunications Loans Program Account as proposed by both the House and the Senate.

The amended bill provides for an estimated loan program level of $7,790,000,000 instead of $5,290,000,000 as proposed by the House and $8,290,000,000 as proposed by the Senate.

The amended bill provides for a transfer of $38,623,000 to the Rural Development salaries and expenses account instead of $39,405,000 as proposed by both the House and the Senate.

The following table indicates loan and subsidy levels provided in the amended bill:

Rural Electrification and Telecommunications Loans Program Account:

Loan authorizations:	
Electric:	
Direct, 5 percent	($100,000,000)
Direct, FFB	(6,500,000,000)
Guaranteed underwriting	(500,000,000)
Subtotal	(7,100,000,000)
Telecommunications:	
Direct, 5 percent	($145,000,000)
Direct, Treasury rate	(250,000,000)
Direct, FFB	(295,000,000)
Subtotal	(690,000,000)
Total, loan authorizations	($7,790,000,000)
Loan subsidies:	
Electric:	
Direct, 5 percent	$120,000
Subtotal	120,000
Telecommunications:	
Direct, 5 percent	$116,000
Direct, Treasury rate	1,675,000
Direct, FFB	1,829,000
Subtotal	3,620,000
Total, loan subsidies	$3,740,000
RETLP administrative expenses (transfer to RD)	38,623,000

DISTANCE LEARNING, TELEMEDICINE, AND BROADBAND PROGRAM

The amended bill provides for an estimated loan program level of $300,000,000 for broadband telecommunications as proposed by the House instead of $495,000,000 as proposed by the Senate.

The amended bill includes $35,000,000 for distance learning and telemedicine grants as proposed by the House instead of $34,750,000 as proposed by the Senate, of which $5,000,000 is for public broadcasting system grants.

The amended bill includes $6,450,000 for broadband telecommunications loan subsidy as proposed by the House instead of $10,643,000 as proposed by the Senate.

The amended bill includes $13,500,000 for broadband telecommunications grants instead of $17,820,000 as proposed by the House and $8,910,000 as proposed by the Senate.

The Appropriations Committees' recommendation includes $5,000,000 for public broadcasting systems grants to allow noncommercial educational television broadcast stations that serve rural areas to convert from analog to digital operations.

The Department is directed to evaluate and report on the potential of a combination loan/grant broadband program, to expand the reach and more effectively utilize broadband resources.

TITLE IV

DOMESTIC FOOD PROGRAMS

Office of the Under Secretary for Food, Nutrition and Consumer Services

The amended bill provides $597,000 for the Office of the Under Secretary for Food, Nutrition and Consumer Services instead of $628,000 as proposed by both the House and the Senate.

Food and Nutrition Service

CHILD NUTRITION PROGRAMS

The amended bill provides $13,901,513,000 for Child Nutrition Programs instead of $13,903,213,000 as proposed by the House and $13,897,272,000 as proposed by the Senate. Included in the total is an appropriated amount of $7,647,965,000 and a transfer from section 32 of $6,253,548,000.

The amended bill includes a general provision to expand the Fresh Fruit and Vegetable Program to all States not currently served by the authorized program and maintains the program in all currently participating States.

The amended bill provides $13,300,000 for Team nutrition. Included in this amount is up to $5,000,000 for food service training grants to States; $2,500,000 for technical assistance materials; $800,000 for National Food Service Management Institute cooperative agreements; $800,000 for print and electronic food service resource systems; $1,000,000 to assist USDA's Center for Nutrition Policy and Promotion in development and maintenance of MyPyramid and Dietary Guidelines materials in support of nutrition education for program participants and their families; and $3,200,000 for other activities.

The amended bill provides $2,000,000 for Food Safety Education as proposed by the House instead of $1,022,000 as proposed by the Senate.

The amended bill provides the following for Child Nutrition programs:

TOTAL OBLIGATIONAL AUTHORITY

Child Nutrition Programs:	
School lunch program	$8,180,933,000
School breakfast program	2,389,988,000
Child and adult care food program	2,288,838,000
Summer food service program	310,634,000
Special milk program	14,618,000
State administrative expenses	175,636,000
Commodity procurement and computer support	518,061,000
School meals initiative/Team nutrition	13,300,000
Coordinated review effort	5,505,000
Food safety education	2,000,000
CACFP Training and Technical Assistance	2,000,000
Total	$13,901,513,000

SPECIAL SUPPLEMENTAL NUTRITION PROGRAM FOR WOMEN, INFANTS, AND CHILDREN (WIC)

The amended bill provides $6,020,000,000 for the Special Supplemental Nutrition Program for Women, Infants, and Children (WIC), instead of $5,620,000,000 as proposed by the House and $5,720,000,000 as proposed by the Senate. The amended bill includes $15,000,000 for continuation of the breastfeeding peer counselor program and $30,000,000 for investments in management information systems, if the Secretary determines that funds are available to maintain caseload without the use of the contingency fund after the date of enactment of this Act. In addition, the amended bill includes such sums as are necessary to restore the contingency reserve to $150,000,000, instead of $125,000,000 as proposed by the House and $116,000,000 as proposed by the Senate.

The amended bill includes an emergency designation under the concurrent resolution on the budget for fiscal year 2008 for $400,000,000.

The total funding level provided for WIC is adequate to meet current estimates of program needs, and is $633,403,000 above the Administration's request. The Appropriations Committees have followed cost increases in the WIC program very closely. Since the budget was submitted in February 2007, program participation has risen, and food costs have increased sharply. Information on participation and food costs is collected regularly by the Department, and the Appropriations Committees believe it is irresponsible for the Administration to ignore this information and not submit an official updated estimate or notification to the Congress regarding the increased funding need for WIC.

Therefore, the Department is directed, beginning on the date of enactment of this Act, and thereafter, to provide monthly reports on the program performance and estimated funding requirements to fully fund the WIC program. Timeframes addressed in these estimates should include the prior year, current year, and budget year of the President's budget submission currently under consideration by the Congress and should separately address baseline program performance from the impact of current law and legislative budget proposals. The Department shall consider, and include in these estimates, current participation trends and current Economic Research Service food cost estimates in developing updated WIC estimates.

FOOD STAMP PROGRAM

The amended bill provides $39,782,723,000 for the food stamp program instead of $39,816,223,000 as proposed by the House and $39,779,223,000 as proposed by the Senate. Included in this amount is a reserve of $3,000,000,000, to remain available until September 30, 2009.

The amended bill includes $35,021,473,000 for program expenses, $1,621,250,000 for grants to Puerto Rico and Samoa, and $140,000,000 for commodity purchase for The Emergency Food Assistance Program.

Included in the recommended level for other program costs are $2,000,000 to conduct Food Stamp Program modernization and innovation projects and $1,000,000 to assist USDA's Center for Nutrition Policy and Promotion in the development and maintenance of MyPyramid and Dietary Guidelines materials in support of nutrition education for the food stamp eligible population.

Included in the recommended level for FDPIR is $34,706,000 instead of $34,206,000 as proposed by the House and $35,206,000 as proposed by the Senate.

COMMODITY ASSISTANCE PROGRAM

The amended bill provides $211,770,000 for the Commodity Assistance Program instead of $221,070,000 as proposed by the House and $199,070,000 as proposed by the Senate.

Of that amount, the amended bill provides $140,700,000 for the Commodity Supplemental Food Program instead of $150,000,000 as proposed by the House and $128,000,000 as proposed by the Senate. It is expected that with this level, 2007 participation will be maintained.

The amended bill provides $50,000,000 for administration of The Emergency Food Assistance Program (TEFAP) as proposed by both the House and the Senate.

The amended bill provides $20,000,000 for the Farmers' Market Nutrition Program and directs the Secretary to obligate these funds within 45 days.

NUTRITION PROGRAMS ADMINISTRATION

The amended bill provides $142,727,000 for Nutrition Programs Administration instead of $146,926,000 as proposed by the House and $147,426,000 as proposed by the Senate.

The amended bill provides $2,475,000 in this account for providing Bill Emerson and Mickey Leland Hunger Fellowships through the Congressional Hunger Center.

TITLE V

FOREIGN ASSISTANCE AND RELATED PROGRAMS

FOREIGN AGRICULTURAL SERVICE

SALARIES AND EXPENSES

The amended bill provides $159,470,000 for the Foreign Agricultural Service, Salaries and Expenses, instead of $159,136,000 as proposed by the House and $167,391,000 as proposed by the Senate.

PUBLIC LAW 480 TITLE I AND TITLE II PROGRAM AND GRANT ACCOUNTS

The amended bill provides $1,219,400,000 for Public Law 480 Title II as proposed by both the House and the Senate.

The following table reflects the amended bill for Public Law 480 program accounts:

Public Law 480

Title II—Commodities for disposition abroad:	
Program level	($1,219,400,000)
Appropriation	1,219,400,000
Salaries and expenses:	
Farm Service Agency (transfer to FSA)	$2,680,000

COMMODITY CREDIT CORPORATION EXPORT LOANS PROGRAM ACCOUNT

The amended bill provides $5,328,000 for the Commodity Credit Corporation Export Loans Program Account instead of $5,338,000 as proposed by the House and $5,334,000 as proposed by the Senate.

MCGOVERN-DOLE INTERNATIONAL FOOD FOR EDUCATION AND CHILD NUTRITION PROGRAM GRANTS

The amended bill provides $100,000,000 for the McGovern-Dole International Food for Education and Child Nutrition Program as proposed by both the House and the Senate.

TITLE VI

RELATED AGENCIES AND FOOD AND DRUG ADMINISTRATION

DEPARTMENT OF HEALTH AND HUMAN SERVICES

FOOD AND DRUG ADMINISTRATION

SALARIES AND EXPENSES

The amended bill provides total appropriations, including Prescription Drug User Fee Act, Medical Device User Fee and Modernization Act, and Animal Drug User Fee Act collections, of $2,247,961,000 for the salaries and expenses of the Food and Drug Administration, instead of $1,711,405,000 as proposed by the House and $2,276,262,000 as proposed by the Senate.

Specific amounts by FDA activity are reflected in the following table.

FOOD AND DRUG ADMINISTRATION, SALARIES AND EXPENSES

[In thousands of dollars]

Program	Budget authority
Foods	$513,461
Center for Food Safety and Applied Nutrition	186,572
CFSAN available July 1, 2008 [non-add]	[9,409]
Field Activities	326,889
Field available July 1, 2008 [non-add]	[18,591]
Human Drugs	355,759
Center for Drug Evaluation and Research	268,007
Field Activities	87,752
Biologics	156,323
Center for Biologics Evaluation and Research	126,721
Field Activities	29,602
Animal Drugs & Feeds	97,721
Center for Veterinary Medicine	60,159
Field Activities	37,562
Device & Radiological Products	239,670
Center for Devices and Radiological Health	179,093
Field Activities	60,577
National Center for Toxicological Research	44,316
Other Activities	98,183
White Oak Consolidation	38,808
Other Rent & Rent-Related	50,648
GSA Rent	131,533
Total Salaries & Expenses	1,726,422

Within the total amount for the Food and Drug Administration, the following increases above fiscal year 2007 are provided: $28,718,000 for cost of living expenses; $56,000,000 for food safety; $7,500,000 for the critical path initiative; $21,200,000 for drug safety; $6,000,000 for generic drug review; $4,000,000 for pandemic influenza preparedness; $4,000,000 for the review of direct-to-consumer advertising; $1,000,000 for the Office of Women's Health; $1,000,000 for the review of cosmetics; $13,256,000 for FDA's consolidation at the White Oak campus; and, $14,504,000 for GSA rent and other rent and rent related activities. The amended bill includes a proviso prohibiting the transfer of funds to the Reagan-Udall foundation under section 707(n) of the Federal Food, Drug and Cosmetic Act.

The Committees are increasingly concerned about FDA's use of a fund known as the central account to pay for various FDA activities. An appropriation specifically for the central account has never been provided. Instead, funds intended for use by FDA's centers and field operations are moved into the central account and managed by the Office of the Commissioner. The Committees recognize that the central account has been utilized by FDA for many years and that there is value in funding some activities centrally. However, funding for the central account has grown unchecked over the past 3 years, increasing by approximately 32 percent from fiscal year 2003 to 2006. In fiscal year 2006, central account charges were approximately $125,000,000. FDA does not provide information on estimated costs and use of central account funds to the Committees on Appropriations. The Committees find this lack of accountability unacceptable and therefore direct FDA to include in its annual budget request, beginning with fiscal year 2009, previous year, estimated current year, and estimated budget year central account charges by FDA program area and center/field split for each charge applied. In addition, the budget should include a narrative summary of each central account charge including how the funding is used and how the charge is assessed to the program areas.

The amended bill includes an increase of $21,200,000 for drug safety, of which not less than $10,000,000 is for the Office of Surveillance and Epidemiology. The Committees expect that FDA will use this funding to enhance the agency's ability to identify safety issues with products already on the market and under review.

The amended bill includes an increase of $7,500,000 for the critical path initiative, of which $2,500,000 shall be available, on a competitive basis, for contracts or grants to universities and non-profit organizations to support individual critical path projects.

The amended bill includes an increase of $56,000,000 above the fiscal year 2007 level for food safety activities of the FDA for improvements to agency procedures, to enhance inspection capabilities for the protection of consumers, and to help the agency recover from the administration's low budget estimates of recent years.

Of the increase provided for food safety, the Committees direct that no less than $18,317,000 shall be available immediately to hire additional domestic and import food inspectors, including $8,000,000 for the deployment of inspectors with rapid response capabilities who will be responsible for immediate attention to outbreaks of food-related disease as well as providing technical assistance to states and others, as appropriate, to support overall practices to increase the safety of food and food products.

Of the total amount provided for food safety, the Committees direct that $1,500,000 shall be used for the creation of a Western Region FDA Center of Excellence at the University of California at Davis. The Committees do not include an additional $4,000,000 for other food safety-related research, as proposed by the Senate, under this account. However, the Committees have provided an increase of $3,000,000 to the National Research Initiative for this purpose and fully expect the Commissioner of the FDA and the Secretary of Agriculture to work together to identify food safety research priorities of importance to the regulatory functions of the FDA and food safety generally. The Committees expect a report on the conclusions of an agreement between the Commissioner and the Secretary that describes the research priorities identified and the awarding of research grants to meet those needs.

In addition, the Committees expect the FDA to contract with the National Academy of Sciences for a comprehensive study of gaps in public health protection provided by the food safety system in this country. The report should address the recommendations of the FDA Food Protection Plan released in November 2007.

Of the increase provided for food safety, the amended bill includes $28,000,000 available from July 1, 2008 to September 30, 2009. The Committees direct the agency to provide, concurrent with the fiscal year 2009 budget justification, a plan that describes a method to improve the national food safety system, including clear, measurable benchmarks for concrete improvements in the performance of its food safety mission.

As stated in the House report, "the plan must set forth clear, definitive goals over a multiyear period to comprehensively overhaul FDA's food safety operations, covering both domestic and imported foods. The plan must include a detailed description of any organizational, managerial, statutory and regulatory changes necessary to achieve them, as well as an assessment of the budgetary resources needed. If statutory changes are proposed, the plan must include the statutory language. The plan must be approved by the Office of Management and Budget." The Committees suggest that enforceable standards for food safety, HAACP-like systems, and a process for reviewing the food safety systems in countries that export food to the United States should be considered as key parts of the building blocks of such a plan.

FDA is directed to submit a plan to the Committees that fully address the weaknesses in the food safety system that led GAO to list food safety on its January 2007 high-risk list.

The Committees support FDA's review of a means by which drugs marketed outside the present approval process, which have been in clinical use for the past 25 years and are prescribed by doctors, may be more efficiently vetted by the agency. FDA is encouraged to work toward the development of a system to review this unique class of drugs.

The Committees encourage FDA to ensure that the MedGuide program is assisting patients in understanding the risks associated with certain medications to the greatest degree possible. The Committees encourage FDA to work with patient groups, manufacturers and national pharmacy groups to address improvements in the program. The Committees request a report on the progress it is making toward these improvements within one year of enactment of this Act.

The Committees were encouraged by FDA's March 2007, announcement that the agency was going to significantly limit the number of financial conflict of interest waivers granted to advisory committee members. In September 2007, the Congress passed, and the President signed, the Food and Drug Administration Amendments Act of 2007 (FDAAA). FDAAA placed a cap on the number of waivers that can be issued annually and reduced them by 25 percent over the life of the Act. The Committees note that the waiver limits passed in FDAAA were less stringent than those proposed by FDA in March 2007. The Committees remind FDA that the FDAAA limitations are a ceiling and strongly encourage FDA to continue its efforts to limit the use of financial conflicts of interest waivers to the greatest extent possible.

The Committees note that on December 28, 2006, the Center for Veterinary Medicine issued a draft risk assessment on animal cloning which concluded that food products from cloned animals are safe to enter the food supply. During the public comment period, thousands of submissions were received by FDA. Many of these asked the FDA to obtain more information not assessed in the initial risk assessment, including further evaluation of the potential health, economic, and trade impacts, before acting further. In addition, many comments expressed concern that several of the studies on which the risk assessment was based did not undergo a scientific peer review process. The Committees strongly encourage FDA to continue the voluntary moratorium on introducing food products from cloned animals into commerce until FDA completes a review and analysis of comments and evaluates the need for additional studies recommended during the public comment period.

The Committees direct the Food and Drug Administration to enter into an agreement with the Economic Research Service at USDA to study the domestic agricultural and international trade economic implications of permitting commercialization of milk and meat from cloned animals and their progeny into the food supply.

The Committees are concerned that FDA may have exceeded its statutory authority when the agency decided to begin allowing the use of qualified health claims for conventional foods in 2003. Such claims are not based on the standard of "significant scientific agreement" set forth in the Nutrition Labeling and Education Act. The agency has devoted literally thousands of hours of staff work to this undertaking at a time when the agency's ability to carry out its public health responsibilities is severely stretched.

The Committees need a thorough, independent analysis of FDA's actions in this situation, the impact of qualified health claims on the public's perceptions of conventional foods, and the usefulness of qualified health claims. Therefore, the Committees request a report from the Government Accountability Office (GAO) on qualified health claims and ask that GAO work with the Committees on Appropriations of the House and Senate on the parameters of the report. The Committees also urge the FDA not to use funds provided in this bill to review requests for qualified health claims for conventional foods or to issue letters permitting such claims through exercises of enforcement discretion until the independent analysis is completed.

The amended bill includes $1,725,000 for research on dietary supplements at the National Center for Natural Products Research in Oxford, Mississippi; $149,000 for the Interstate Shellfish Sanitation Commission (ISSC) and $186,000 for ISSC Vibrio Vulnificus; $74,000 for the Warehousing Education and Research Council; $2,228,000 for the National Center for Food Safety and Technology; $1,769,000 for the Food Technology Evaluation Laboratory at New Mexico State University; and $563,000 for collaborative drug safety research with the Critical Path Institute and the University of Utah.

The Committees are aware, and appreciate, that FDA is currently working to update the format of its Explanatory Notes in an attempt to streamline information provided and make it more useful to Congress. The Committees direct FDA to ensure that all changes to the Explanatory Notes reflect the comments made by the Congress.

In House Report 109-255, the conference report accompanying the fiscal year 2006 appropriations bill, Congress directed FDA "to provide the same level of budget justification for its research activities in the fiscal year 2007 budget as it does other activities, including a justification of both base spending and any proposed increases by activity within center or office." FDA has not fully complied with this requirement to date and is directed to meet this requirement in the fiscal year 2009 budget submission.

FDA is directed that, unless otherwise stated, all reports and studies requested by the Committees in House Report 110-258 or Senate Report 110-134 or in this Explanatory Statement, shall be provided within 60 days after enactment of this Act.

BUILDINGS AND FACILITIES

The amended bill includes $2,450,000 for buildings and facilities instead of $4,950,000 as proposed by both the House and the Senate.

INDEPENDENT AGENCIES

COMMODITY FUTURES TRADING COMMISSION

The amended bill provides $112,050,000 for the Commodity Futures Trading Commission instead of $102,550,000 as proposed by the House and $116,000,000 as proposed by the Senate. This level provides the requested $3,106,000 for an additional 17 FTE to allow the Commission to provide appropriate oversight of the futures markets and $9,500,000 in increased IT costs. The Committees on Appropriations do not adopt the President's request to impose fees on futures transactions.

FARM CREDIT ADMINISTRATION

LIMITATION ON ADMINISTRATIVE EXPENSES

The amended bill includes a limitation of $46,000,000 on administrative expenses of the Farm Credit Administration as proposed by both the House and the Senate.

TITLE VII—GENERAL PROVISIONS

(INCLUDING RESCISSIONS AND TRANSFERS OF FUNDS)

Section 701.—The amended bill includes language making funds available for the purchase, replacement, and hire of passenger motor vehicles.

Section 702.—The amended bill includes language regarding appropriation items, which shall remain available until expended.

Section 703.—The amended bill includes language allowing for unobligated balances to be transferred to the Working Capital Fund.

Section 704.—The amended bill includes language limiting the funding provided in the bill to one year, unless otherwise specified.

Section 705.—The amended bill includes language limiting indirect costs on cooperative agreements between the Department of Agriculture and nonprofit organizations to 10 percent.

Section 706.—The amended bill includes language limiting indirect costs for grants awarded by the Cooperative State Research, Education, and Extension Service to 20 percent.

Section 707.—The amended bill includes language making appropriations to the Department of Agriculture for the cost of direct guaranteed loans available until expended to disburse obligations for certain Rural Development programs.

Section 708.—The amended bill includes language for funds to cover necessary expenses related to advisory committees.

Section 709.—The amended bill includes language prohibiting the use of funds to establish an inspection panel at the Department of Agriculture.

Section 710.—The amended bill includes language regarding detailed employees.

Section 711.—The amended bill includes language regarding the appropriations hearing process.

Section 712.—The amended bill includes language regarding the transfer of funds to the Office of the Chief Information Officer and information technology funding obligations.

Section 713.—The amended bill includes language regarding the reprogramming of funds.

Section 714.—The amended bill includes language regarding user fee proposals.

Section 715.—The amended bill includes language authorizing certain watershed projects.

Section 716.—The amended bill includes language regarding the closure or relocation of Rural Development offices.

Section 717.—The amended bill includes language regarding the closure or relocation of certain Food and Drug Administration offices.

Section 718.—The amended bill includes language allowing funds to be used to carry out a competitive grants program.

Section 719.—The amended bill includes language regarding the Environmental Quality Incentives Program.

Section 720.—The amended bill includes language allowing for reimbursement of the Bill Emerson Humanitarian Trust.

Section 721.—The amended bill includes language regarding the Dam Rehabilitation Program.

Section 722.—The amended bill includes language regarding guaranteed underwriting.

Section 723.—The amended bill includes language regarding the final rulemaking on cost-sharing for animal and plant health emergency programs.

Section 724.—The amended bill provides funding for the Denali Commission.

Section 725.—The amended bill includes language regarding the availability of funds for certain conservation programs.

Section 726.—The amended bill includes language regarding the recertification of rural status.

Section 727.—The amended bill includes language regarding government-sponsored news stories.

Section 728.—The amended bill includes language regarding eligibility for certain rural development programs.

Section 729.—The amended bill includes language regarding the Emergency Watershed Protection Program.

Section 730.—The amended bill includes language regarding competitive sourcing of rural development or farm loan programs.

Section 731.—The amended bill includes a rescission of section 32 funds at a level in excess of that recommended by the President. The Committees note that the estimates for section 32 funds carrying over into fiscal year 2009 have increased significantly since the President's budget was released. The Committees also provide $297 million for estimated future purchases, which is $240 million above the level actually expended in fiscal year 2007 and $140 million more than the previous five year average.

Section 732.—The amended bill includes language regarding base funding for all institutions participating in the expanded food nutrition education program.

Section 733.—The amended bill includes language limiting the implementation of a rule concerning countries eligible to export poultry products to the United States.

Section 734.—The amended bill provides funding for the National Center for Natural Products Research.

Section 735.—The amended bill provides funding for an agriculture pest facility in Hawaii.

Section 736.—The amended bill includes language regarding meat inspection.

Section 737.—The amended bill includes language regarding the water and waste direct loan program.

Section 738.—The amended bill includes language amending the Richard B. Russell National School Lunch Act.

Section 739.—The amended bill includes language providing funding for the Fruit and Vegetable Pilot Program.

Section 740.—The amended bill allows the Department to use Salaries and Expenses funds to purchase materials for program utilization.

Section 741.—The amended bill includes language regarding the Federal Meat Inspection and other acts.

Section 742.—The amended bill includes language establishing a forestry pilot program for lands affected by Hurricane Katrina.

Section 743.—The amended bill includes language regarding Agricultural Disaster Assistance.

Section 744.—The amended bill includes language amending the Richard B. Russell National School Lunch Act.

Section 745.—The amended bill includes language regarding certain unexpended funds.

Section 746.—The amended bill includes language providing that certain locations shall be considered eligible for certain rural development programs.

Section 747.—The amended bill includes language regarding the closure or consolidation of FDA field laboratories.

Section 748.—The amended bill includes language regarding the availability of Rural Development housing funding in areas damaged by hurricanes in 2005.

Section 749.—The amended bill rescinds certain funds.

Section 750.—The amended bill rescinds certain funds.

Section 751.—The amended bill extends certain Farm Bill authorities.

Section 752.—The amended bill includes a provision that reduces all discretionary accounts except for WIC and the Food Safety and Inspection Service by 0.7 percent.

DISCLOSURE OF EARMARKS AND CONGRESSIONAL DIRECTED SPENDING ITEMS

Following is a list of congressional earmarks and congressionally directed spending items (as defined in clause 9 of rule XXI of the Rules of the House of Representatives and rule XLIV of the Standing Rules of the Senate, respectively) included in the House amendment or this explanatory statement, along with the name of each Senator, House Member, Delegate, or Resident Commissioner who submitted a request to the Committee of jurisdiction for each item so identified. Items which did not appear in H.R. 3161 or S. 1859 or the accompanying committee reports are marked with an asterisk. Neither the House amendment nor the explanatory statement contains any limited tax benefits or limited tariff benefits as defined in the applicable House and Senate rules.

AGRICULTURE, RURAL DEVELOPMENT, FOOD AND DRUG ADMINISTRATION

[The amounts displayed do not reflect the 0.7 percent reduction that will be applied to all activities in the bill by Section 752.]

AMENDED BILL TOTAL—WITH COMPARISONS

The total new budget (obligational) authority for the fiscal year 2008 provided in the amended bill, with comparisons to the fiscal year 2007 amount, the 2008 budget estimates, and the House and Senate bills for 2008 follow:

(In thousands of dollars)

New budget (obligational) authority, fiscal year 2007	$101,177,439
Budget estimates of new (obligational) authority, fiscal year 2008	89,852,742
House bill, fiscal year 2008	90,737,986
Senate bill, fiscal year 2008	90,721,092
Amended bill, fiscal year 2008	91,027,689
Amended bill compared with:	
New budget (obligational) authority, fiscal year 2007	−10,149,750
Budget estimates of new (obligational) authority, fiscal year 2008	+1,174,947
House bill, fiscal year 2008	+289,703
Senate bill, fiscal year 2008	+306,597

DIVISION B—COMMERCE, JUSTICE, SCIENCE, AND RELATED AGENCIES APPROPRIATIONS ACT, 2008

Following is an explanation of the effects of this division of the House amendment to the Senate amendment to H.R. 3093 (hereafter referred to as "the amended bill") relative to the versions of the Departments of Commerce and Justice, and Science, and Related Agencies Appropriations Act, 2008 (H.R. 3093) passed by the House of Representatives and the Senate.

The legislative intent in the House and Senate versions of H.R. 3093 is set forth in the accompanying House report (H. Rept. 110–240) and the accompanying Senate report (S. Rept. 110–124).

The Senate amended the House bill with an amendment. The Senate amendment to the text deleted the entire House bill after the enacting clause and inserted the Senate bill. Division B of the amended bill resolves the differences between the House and Senate versions of H.R. 3093.

The language and allocations set forth in the House and Senate Reports should be complied with unless specifically addressed to the contrary in division B of the amended bill and this explanatory statement. Report language included by the House which is not changed by the report of the Senate or this explanatory statement and Senate report language which is not changed by this explanatory statement is approved by the Appropriations Committees. This explanatory statement while repeating some report language for emphasis, does not intend to negate the language referred to above unless expressly provided herein. In cases where the House or Senate has directed the submission of a report, such report is to be submitted to both House and Senate Appropriations Committees.

OPERATING PLAN REPROGRAMMING PROCEDURES

The Appropriations Committees continue to have a particular interest in being informed of reprogrammings which, although they may not change either the total amount available in an account or any of the purposes for which the appropriation is legally available, represent a departure from budget plans presented to the Committees in an agency's budget justification, the basis of this appropriations Act.

Consequently, the departments, agencies, commissions, corporations and offices funded in this Act are directed to adhere to the guidelines set forth in section 505. Additionally, the Appropriations Committees are to be notified promptly of all reprogramming actions which involve less than the amounts mentioned in this section. If such actions would have the effect of significantly changing an agency's funding requirements in future years, or if programs or projects specifically cited in this explanatory statement or accompanying reports of the House and Senate are affected by the reprogramming, the reprogramming must be approved by the Appropriations Committees regardless of the amount proposed to be reprogrammed. Furthermore, the departments, agencies, commissions, corporations and offices under the jurisdiction of this subcommittee are directed to consult with the Appropriations Committees regarding reorganizations of offices, programs, and activities prior to the planned implementation of such reorganizations.

Finally, the Departments of Commerce and Justice as well the National Aeronautics and Space Administration and the National Science Foundation shall submit, within 60 days of enactment of this Act, operating plans, signed by the respective secretary, administrator, or agency head, for review by the Appropriations Committees of the House and Senate.

TITLE I

DEPARTMENT OF COMMERCE

International Trade Administration

OPERATIONS AND ADMINISTRATION

The amended bill includes $413,172,000 with offsetting collection fees of $8,000,000 for a direct appropriation of $405,172,000 for the International Trade Administration (ITA). The amended bill includes bill language designating the amount available for decision units within ITA.

The amended bill includes bill language, and adopts by reference report language as proposed by the Senate, regarding negotiations within the World Trade Organization. The amended bill includes report language as proposed by the Senate directing the Office of Travel and Tourism to submit a report detailing how gulf coast tourism recovery in States impacted by the 2005 hurricane is progressing.

The amended bill includes report language as proposed by the House directing ITA to submit a quarterly report regarding the ITA's travel expenditures. The amended bill includes report language as proposed by the Senate directing ITA to hire one additional full-time international trade specialist to assist small and medium sized companies in Louisiana.

Within funding provided, the amended bill includes $4,700,000 for the National Textile Centers and for the Textile/Clothing Technology Corporation, and $1,316,000 for Auburn University for advanced research and development of novel polymetrics. The amended bill also includes $446,500 for the Arkansas World Trade Center.

Bureau of Industry and Security

OPERATIONS AND ADMINISTRATION

The amended bill provides a total operating level of $72,855,000 for the Bureau of Industry and Security instead of $78,776,000 as proposed by the House and Senate.

Economic Development Administration

ECONOMIC DEVELOPMENT ASSISTANCE PROGRAMS

The amended bill provides $249,100,000 for the Economic Development Assistance Programs (EDAP), instead of $270,000,000 as proposed by the House and $250,000,000 as proposed by the Senate.

The amended bill rejects the Administration's proposal to consolidate EDA's program accounts into one new regional development account. By consolidating funding into one new regional development account, the Appropriations Committees are concerned that this will leave gaps in providing much needed assistance to rural communities. Of the amounts provided, $148,050,000 is for Public Works and Economic Development, $42,300,000 is for Economic Adjustment Assistance, $25,380,000 is for planning, $9,400,000 is for technical assistance, including university centers, $14,100,000 is for trade adjustment assistance, and $470,000 is for research.

The explanatory statement restates the concern expressed in the House report of the effect of global climate change and supports policies and strategies which contribute to sustainable "green" construction and resources conservation. EDA is directed to give favorable consideration to proposals which incorporate such technologies and strategies which would reduce energy consumption, reduce harmful gas emissions and contribute to sustainability. The Appropriations Committees recognize that the incorporation of such capabilities in a project will result in initial increased construction costs and therefore direct EDA to establish a Global Climate Change Mitigation Incentive fund ("Fund") of $9,400,000 to be used to accommodate project costs associated with such mitigation efforts. As directed in the House report, EDA is directed to provide a report and spend plan within 90 days of enactment of the Act.

As stated in the Senate report, the Appropriations Committees are concerned about the disbursement of funds to EDA's six regional offices. Within 30 days after enactment of the Act, EDA is directed to distribute all EDAP funds to the EDA regional offices.

Finally, the Appropriations Committees agree with language in the House report and encourage EDA to incorporate into its project evaluation and selection criteria greater consideration for projects that diversify the local regional economy, support the development of new regional economic drivers and emerging industry clusters, advance innovation, entrepreneurship and technology transfer, and encourage the commercialization of university-led research and development.

Salaries and Expenses

The amended bill provides $30,832,000 for salaries and expenses at EDA, instead of $32,800,000 as proposed by both the House and the Senate.

As stated in the Senate report, the Appropriations Committees are supportive of EDA's six regional offices. The funding level provided should be adequate to begin filling vacancies within the regional offices. EDA is directed to fill vacancies within the regional offices prior to any vacancies within headquarters.

Minority Business Development Agency

MINORITY BUSINESS DEVELOPMENT

The amended bill provides $28,623,000 for the Minority Business Development Agency, instead of $31,225,000 as proposed by the

House and $30,200,000 as proposed by the Senate.

Within the amount provided, $235,000 is for the preservation and revitalization of the Moore Street Market in Williamsburg, Brooklyn, New York.

Additionally, the Appropriations Committees reiterate the concern expressed in both the House and Senate reports about the Native American Business Enterprise Centers (NABECs). The Committees oppose any action to reduce the current number of NABECs and it is hoped that MBDA can continue to support at least eight centers nationwide.

ECONOMIC AND STATISTICAL ANALYSIS

SALARIES AND EXPENSES

The amended bill provides $81,075,000 for this account, instead of $86,500,000 as proposed by the House and $85,000,000 as proposed by the Senate.

Expansion of Regional Data.—An additional $1,175,000 is provided to the Bureau of Economic Analysis (BEA) to expand and improve timeliness of regional data to benefit state and local officials and economic development organizations. This funding will enable BEA to develop and publish gross metropolitan product data and accelerate the availability of county-level income data. BEA is directed to report on the status of this effort on a quarterly basis during fiscal year 2008.

Offshoring.—As stated in the House Report, there is concern with the lack of adequate statistics on the effects of offshoring and outsourcing on U.S. jobs. There is evidence that the phenomenon is growing, and increasingly is displacing jobs of U.S. workers. Recent reports have suggested that the volume of imports may be underestimated and that this may cause estimates of growth in U.S. manufacturing production to be overestimated by as much as 40 percent. The 20 to 1 gap between data from India showing $8,700,000,000 in sales of business, professional and technical services to the U.S. and its companies and BEA data identifying only $420,000,000 in imports of such services raises additional questions. Even if new BEA initiatives narrow the dollar gap in services trade somewhat, it will still leave unanswered key questions about the effects of imported goods and services on U.S. blue-collar and white-collar jobs. The BEA is directed to work with other agencies as appropriate, to submit a report not later than April 1, 2008, which examines the effect of both offshoring work abroad and outsourcing of imported labor in the future. The report should examine the following: (1) How best to estimate the effects of offshoring on U.S. production and jobs; and (2) how companies doing the most offshoring in either absolute or relative terms have changed (a) the size or occupational structure of their jobs in the U.S., (b) the companies' purchases from other U.S. suppliers, (c) growth of their R&D expenditures either domestically or abroad, (d) their rates of profitability, and (e) the trend in these companies' use of H-1B and L-1 visas. The report should consider the effects of offshoring on both blue-collar workers and white-collar workers.

Intangible Assets.—Within funds provided the Bureau of Economic Analysis is directed to enter into an agreement with the National Academy of Sciences to conduct a study relating to the investment of intangible assets. This study shall recommend steps to improve the measurement of intangible assets and their incorporation in the National Income and Product Accounts; identify and estimate the size of the Federal Government's investment in intangible assets; survey other countries' efforts to measure and promote investments in intangible assets; and recommend policies to increase investment in intangible assets.

Accurately Reflecting Economic Conditions.—Within funds provided the BEA is directed to enter into an agreement with the National Academy of Sciences to conduct a study on methods for collecting data regarding the status of the U.S. economy and determine whether the current data results in an overstatement of economic growth, domestic manufacturing output, and productivity.

BUREAU OF THE CENSUS

The amended bill includes a total operating level of $1,230,244,000 for the Bureau of the Census, instead of $1,222,244,000 as proposed by the House and $1,246,644,000 as proposed by the Senate.

SALARIES AND EXPENSES

The amended bill provides $202,838,000 for this account instead of $196,838,000 as proposed by the House and $226,238,000 as proposed by the Senate.

The amended bill provides $24,000,000 for the Survey of Income and Program Participation (SIPP). The amended bill does not include language contained in the Senate Report on improved service sector measurements and instead directs the $8,000,000 from the service sector measurements toward revitalization of the Survey of Income and Program Participation (SIPP).

PERIODIC CENSUSES AND PROGRAMS

The amended bill provides $1,027,406,000 for this account instead of $1,025,406,000 as proposed by the House and $1,020,406,000 as proposed by the Senate. The amended bill includes $797,114,000 for expenses related to the 2010 decennial census. The amended bill does not include $5,500,000 for the American Community Survey (ACS) Methods Panel. As in the Senate Report, this funding is directed to higher priority programs because a recent review by the Government Accountability Office revealed that Census officials were not able to provide detailed action plans or costs associated with aspects of this program. The amended bill also does not include $3,600,000 for the Master Address File (MAF). It should be noted that this reduction will have minimal impact as the Census Bureau will conduct a 100 percent address canvas in fiscal year 2009.

Partnerships.—The amended bill includes an additional $9,100,000 for the Bureau of the Census to support partnership and outreach efforts in preparation for the 2010 Decennial Census with specific focus being placed on hard to reach populations. These funds should be used to hire additional personnel who have expertise in developing partnerships for the 2010 census, provide other support for Regional Partnership and Data Services Programs, and not less than $1,000,000 for a national partnership program administered from Census headquarters. The census partnership program, which was not included in the budget request, is a vital component of the effort to obtain the most accurate decennial census count possible. The funding provided for the program will help enlist community leaders to encourage their constituencies to fill out their census forms, emphasizing the importance of the census to their local community and education system. This outreach is particularly important in communities that are difficult to count.

NATIONAL TELECOMMUNICATIONS AND INFORMATION ADMINISTRATION

SALARIES AND EXPENSES

The amended bill includes a total of $17,466,000 for the National Telecommunications and Information Administration (NTIA), instead of $23,581,000 as proposed by the House and $18,581,000 as proposed by the Senate. NTIA should comply with language in the House Report on public safety communications equipment.

PUBLIC TELECOMMUNICATIONS FACILITIES, PLANNING AND CONSTRUCTION

The amended bill includes $18,800,000 for Public Telecommunications Facilities, Planning and Construction, instead of $21,728,000 as proposed by the House and $20,000,000 as proposed by the Senate.

TECHNOLOGY OPPORTUNITIES PROGRAM

The amended bill does not provide funding for the Technology Opportunities Program (TOP) as proposed by the Senate.

UNITED STATES PATENT AND TRADEMARK OFFICE

SALARIES AND EXPENSES

The amended bill includes $1,915,500,000 for the United States Patent and Trademark Office (USPTO) as proposed by the House and the Senate.

The amended bill concurs with language in the Senate Report requiring that, 60 days after the date of enactment of this Act, the USPTO shall submit to the House and Senate Appropriations Committees a spending plan for fiscal year 2008. This spending plan shall incorporate all carryover balances from previous fiscal years, and describe any changes to the patent or trademark fee structure.

The amended bill includes language that $1,000,000 may be transferred to the National Intellectual Property Law Enforcement Coordination Council.

TECHNOLOGY ADMINISTRATION

SALARIES AND EXPENSES

The amended bill provides no funding for the Technology Administration as proposed by the Senate. The House had provided $1,000,000 for close-out costs. It is the understanding of the Appropriations Committees that the Department has already begun the closing out of this organization.

NATIONAL INSTITUTE OF STANDARDS AND TECHNOLOGY

SCIENTIFIC AND TECHNICAL RESEARCH AND SERVICES

The amended bill includes $440,517,000 for the Scientific and Technical Research and Services programs of the National Institute of Standards and Technology (NIST), instead of $500,517,000 as proposed by the House and $502,117,000 as proposed by the Senate. NIST is directed to submit a spend plan no later than 30 days after enactment of the Act for the programs funded by this appropriation. Further, NIST is directed to develop a new budget structure for the fiscal year 2009 budget which better reflects the organizational structure of the agency.

The amended bill provides $893,000 for the New York Center for National Competitiveness in Nanoscale Characterization.

INDUSTRIAL TECHNOLOGY SERVICES

The amended bill includes $154,840,000 for Industrial Technology Services (ITS), instead of $201,819,000 as proposed by the House, and $179,155,000 as proposed by the Senate.

Hollings Manufacturing Extension Partnership (MEP).—Of the amounts provided to ITS, $89,640,000 is provided for MEP. The amended bill does not include $4,000,000 for a pilot project under MEP, as described in the Senate report.

Technology Innovation Program (TIP).—Of the amounts provided to ITS, $65,200,000 is for the Technology Innovation Program as authorized by Public Law 110-69. TIP is structured to fund high-risk, high reward research focused on broad national needs such as advanced automotive batteries, aquaculture, novel lightweight materials, and other emerging technologies. The funding provided for TIP will address mortgage obligations relating to projects created under the Advanced Technology Program (ATP). The amended bill also includes language to allow the TIP immediate access to an additional $5,000,000 from deobligations and prior-year recoveries from ATP.

CONSTRUCTION OF RESEARCH FACILITIES

The amended bill provides $160,490,000 for construction of research facilities, instead of $128,865,000 as proposed by the House and $150,900,000 as proposed by the Senate. NIST is directed to submit a spend plan no later than 30 days after enactment of the Act for activities funded by this appropriation. NIST is also directed to provide quarterly reports on the status and accounting of all construction projects.

Within the amounts provided, the amended bill includes $51,262,000 for the following construction projects:

Biotechnology Research Park, University of Mississippi, Jackson, MS	$7,332,000
Research, Technology and Economic Development Park, Mississippi State University, Starkville, MS	7,332,000
Innovation and Commercialization Park, Infrastructure and Building Construction and Equipage, University of Southern Mississippi, Hattiesburg, MS	1,598,000
Life Sciences Building, University of Alabama, Montgomery, AL	5,000,000
Engineering and Science Center, University of South Alabama, Mobile, AL	30,000,000

Also, within the amounts provided, the amended bill includes $30,080,000 for competitive grants for research science buildings. The research buildings should span all the applicable sciences, as they relate to the Department of Commerce. These grants shall be awarded to colleges, universities, and other non-profit science research organizations on a competitive basis. NIST is directed to report to the Appropriations Committees the criteria it will use in reviewing and ranking grant proposals.

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

OPERATIONS, RESEARCH, AND FACILITIES

(INCLUDING TRANSFERS OF FUNDS)

The amended bill includes $2,859,277,000 for Operations, Research, and Facilities, including $3,000,000 from the Coastal Zone Management Fund, instead of $2,850,556,000 as proposed by the House and $3,039,888,000 as proposed by the Senate. The amended bill includes a total direct obligation level of $2,941,277,000.

Bill language is included providing for $5,000,000 for direct obligations from recoveries of prior year obligations; providing $235,000 within NMFS, in no year funding subject to section 209 of P.L. 108-447; placing a limitation on the amount available for corporate services administrative support costs to $206,484,000; placing a limitation on amounts to be paid to the Department of Commerce working capital fund, including the General Counsel to $34,164,000; limiting grant amounts to States and placing other restrictions on Coastal Zone Management grants; and providing $13,395,000 for the alleviation of economic impacts associated with Framework 42 on Massachusetts groundfish fishery.

Of the amounts provided, $467,929,910 is for the National Ocean Service. These funds are distributed as follows:

NATIONAL OCEAN SERVICE OPERATIONS, RESEARCH, AND FACILITIES

[In thousands of dollars]

	Conference recommendation
Navigation Services:	
Mapping & Charting	$44,371,000
Joint Hydrographic Center	7,247,000
Electronic Navigational Charts	4,392,000
Shoreline Mapping	2,366,000
Address Survey Backlog/Contracts	26,355,000
DUNE System Assessment & Shoreline Change Analysis	869,500
Geodesy	21,729,000
National Height Modernization	5,000,000
Geodetic Survey—KY	376,000
Geodesy/Height Modernization—IL	352,500
Geospatial Data Analysis Center, AL	423,000
Alabama Statewide GIS mapping program, AL	423,000
Coastal and ocean navigation and hazards assistance, SC	188,000
Tide & Current Data	26,168,000
Tide & Current Data in Alaska	1,316,000
Total, Navigation Services	141,576,000
Ocean Resources Conservation and Assessment:	
Ocean Assessment Program (OAP):	
Integrated Ocean Observing System	26,360,000
Alliance for Coastal Technologies	940,000
Coastal Services Centers	23,426,400
Coastal Storms	1,464,150
Coop Institute for Coastal and Estuarine Enviro Tech (CICEET)	6,502,778
Ocean Health Initiative	2,928,300

Urban Coast Institute, NJ	893,000
Total, Ocean and Coastal Management	143,601,750
Grand Total Nos	467,929,910

The amended bill provides an additional $1,410,000 above the budget request to allow NOAA to begin supporting the entire maintenance and operations of the Physical Oceanographic Real-Time System (PORTS), not just the system's design and installation, as authorized by Public Law 107–372. The Appropriations Committees believe these operations, which exist as a partnership between NOAA and local port authorities, have been an extremely valuable tool for providing information for safe vessel navigation and data for weather and coastal monitoring used by other national programs. As such, NOAA is directed to include sufficient and complete operational support for all of the national PORTS sites in future budget requests.

The amended bill includes $1,500,000 for NOAA to conduct a sampling and analysis study on Suisun Bay, CA. The Appropriations Committee are greatly concerned about the environmental impact of the federally-owned obsolete vessels in Suisun Bay, CA on the marine environment. Funding may be used for activities relating to sampling and analysis to better understand toxic contamination caused by the vessels, and developing appropriate remediation recommendations that use the best available science and environmental practices.

The Appropriations Committees recognize that NOAA, as directed, has initiated the consortium of sensor testbeds referred to as the Alliance for Coastal Technologies (ACT) and that this effort is providing vital services in the developing Integrated Ocean Observing System. NOAA, through the National Ocean Service, is directed to establish a Cooperative Institute for the purpose of advancing and sustaining this essential capability which is executed on a regional basis. NOAA is expected to identify funds for this capability in the fiscal year 2009 budget. Further, the Appropriations Committees strongly recommend that NOAA work with other federal agencies to expand both the capabilities and funding of this effort.

NOAA is directed to enter into an agreement with the National Academy of Sciences to initiate a study on acidification of the oceans. This study, authorized by the Magnuson-Stevens Fishery Conservation and Management Act of 2006, shall examine the impacts of ocean acidification on the United States.

The amended bill adopts the House position of a specific amount for the administration of CZM grants instead of the Senate position which provided not less than 10 percent from the overall grant program.

Within amounts provided, the amended bill includes $708,575,250 for the National Marine Fisheries Service.

These funds are distributed as follows:

NATIONAL MARINE FISHERIES SERVICE OPERATIONS, RESEARCH, AND FACILITIES

[In thousands of dollars]

	Conference recommendation
Marine Mammals, Marine Turtles, and Marine Protected Species:	
Protected Species Research and Management Program	$33,187,000

East Coast Shellfish Aquaculture Industry, East Coast Shellfish Research Institute	423,000
Lobster Institute CORE Initiative, University of Maine, ME	188,000
NOAA Save the Bay Education Program & Shellfish Restoration	188,000
Aquatic Genomics and Biosecurity Research, AL	940,000
Groundline Exchange Program, ME	376,000
Bering Sea Fisherman's Association, AK	188,000
Yukon River Drainage Association, AK	376,000
Gulf of Alaska Coastal Communities Coalition, AK	188,000
Louisiana Fisheries Recovery Resource Center, LA	491,150
New England Multi-Species Survey, MA	2,679,000
Western Pacific Pelagic Fisheries Research, HI	1,116,250
Fishing Mortality Education Program, AL	94,000
Total, Other Activities Supporting Fisheries	83,901,400
Grand Total NMFS	708,575,250

The amended bill provides $25,379,000 for Fisheries Habitat Restoration, which is $5,893,000 below the President's requested level. The Appropriations Committees recognize that significant administration priorities are embedded in this account and direct NOAA to determine the level of funding necessary for each of those priorities within the funding provided, without cutting into base program funding. The Committees further understand that the Penobscot River Habitat Restoration project is a timely opportunity to leverage current regional resources to revitalize this large-scale marine and estuarine habitat. However, the Committees have strong concerns about NOAA taking the full, long-term financial lead in such a large, cross-agency project, especially since a majority of the requested funds will be spent purchasing privately-owned dams. Though the Committees recognize NOAA's expertise in smaller dam removal and fish passageway projects, this project is an order of magnitude larger than any previous project undertaken by the agency, and pushes the limits of the agency's authority to use funds from NMFS's operations account to purchase multi-million dollar facilities. The Appropriations Committees admonish the administration for carelessly exposing NMFS's base funding to future large-scale, redevelopment projects that would jeopardize the agency's financial support for standard national fisheries activities and responsibilities. Given that this is a multi-year project, NOAA is directed to coordinate with the Departments of the Interior and Energy, and the U.S. Army Corps of Engineers to determine an appropriate role for the agency solely as a habitat restoration advisor to its Federal and State partners, and eliminate the agency's questionable role as a broker for future large-scale, riverine construction projects. In future years, the Appropriations Committees will support NOAA's participation in habitat restoration projects, which is an ongoing, environmental assessment process, but will no longer appropriate funds from the ORF account to purchase costly, private dams.

The amended bill includes $6,697,500 for assistance related to the fishery impacts associated with the creation of the Papahanaumokuākea Marine National Monument in the State of Hawaii. For more than 30 years, fishing in the Monument area has been carefully managed by the Western Pacific Fishery Management Council based on the best available scientific information. During that time, limited and highly regulated sustainable fisheries have provided lobsters and bottomfish to Hawaii and U.S. consumers. Due to both mandatory and voluntary conservation measures undertaken by these fishery participants, the area is widely considered a near-pristine marine ecosystem. The Presidential proclamation will end all commercial fishing in the Monument as of June 15, 2011. The amended bill provides specific authorization to the Secretary of Commerce to provide compensation to fishery participants who will be displaced by the 2011 closure.

Additionally, the amended bill provides $13,395,000 to the Massachusetts Division of Marine Fisheries to alleviate economic impacts associated with Framework 42 regulations on the Massachusetts groundfish fishery.

The Appropriations Committees are aware that devices such as the modified Jones-Davis and extended funnel bycatch reduction devices are intended to help the fishermen comply with the requirement to use bycatch reduction devices (BRD) while retaining their shrimp catch. It is the Appropriations Committees understanding that NOAA spent approximately $1,100,000 in fiscal year 2007 to distribute BRDs. NOAA is encouraged to increase the number of devices it plans to distribute for fiscal year 2008, especially for shrimpers impacted by Hurricanes Katrina and Rita.

The amended bill provides $1,786,000 for oyster restoration in the Chesapeake Bay and adopts the Senate position with regard to the use of those funds. The funds provided for oyster restoration in the Maryland waters of the Chesapeake Bay shall be for on-the-ground and in-the-water restoration efforts and shall not be used for administrative costs, including banquets or salaries.

Further, the Appropriations Committees are supportive of restoration of headwater streams to improve Bay water quality.

Finally, NOAA is urged to continue to support research activities including those related to the blue fin tuna.

Within the funds provided, the amended bill includes $387,942,300 for the Office of Oceanic and Atmospheric Research.

These funds are distributed as follows:

OCEANIC AND ATMOSPHERIC RESEARCH OPERATIONS, RESEARCH AND FACILITIES

[In thousands of dollars]

	Conference recommendation
Climate Research:	
Laboratives & Cooperative Institutes	$53,500,000
Climate Observations & Services	8,068,000

West Alabama Marine Shrimp and Fish Aquaculture, AL	235,000
Total, Ocean, Coastal & Great Lakes Research	130,400,850
Grand Total OAR	387,942,300

Although the Appropriations Committees approved the overall OAR reprogramming that permitted the merger of Ocean Exploration (OE) and the National Undersea Research Program (NURP) in 2006, the Appropriations Committees await a formalized plan detailing the breakout and vision of any new structure. Given the diverse portfolios and direction of NURP and OE, the Appropriations Committees are concerned about how financially combining these two unique programs will impact their contributions to NOAA's mission. Therefore, the amended bill provides separate funding for NURP and OE as detailed in the Oceanic and Atmospheric Research chart. If the administration continues to propose combining NURP and OE in future years, NOAA is directed to provide a strategic and financial plan for such a merger with the administration's fiscal year 2009 budget request. NOAA is directed to distribute the funds provided for NURP equally among each of the existing six NURP centers. The Appropriations Committees recognize and support NOAA's desire to develop a comprehensive extramural and intramural program of ocean exploration, advanced technology development, strategic research and education. The Committees recognize the benefits of an east coast consortium approach and direct the east coast NURP Centers to develop a synergistic plan for undersea research, technology development and education beginning in fiscal year 2009.

The Appropriations Committees recognize the need for additional low level radar coverage in Wyoming and along the outer coast of Washington State. The amended bill provides $94,000 for NOAA and the National Weather Service to work with the University of Massachusetts and the National Science Foundation, under the umbrella of the Collaborative Adapting Sensing of the Atmosphere (CASA) program, to conduct a study to determine the applicability to northeastern Wyoming and other regions the feasibility of integrating a number of small-scale Doppler radar technologies into future National Weather Service observing systems.

The Appropriations Committees are encouraged by NOAA's request to increase the Nation's research knowledge within the field of aquaculture and direct NOAA to distribute the funding provided equally among three regions: Atlantic, Pacific, and Gulf of Mexico.

Finally, the Appropriations Committees support measurement and modeling of speciated mercury by the Air Resources Laboratory.

Within funds provided, the amended bill includes $805,293,480 for the National Weather Service. These funds are distributed as follows:

Total, Systems Operation & Maintenance	96,339,000
Grand Total NWS	805,293,480

The Appropriations Committees continue to remain concerned about radar coverage in the State of North Dakota and direct NOAA to maintain staffing and operations at the Williston Radar site through fiscal year 2008.

The amended bill provides $5,358,000 within the National Weather Service for the Urbanet program's phase III. Of the additional funds provided: $1,339,500 is for certification costs of adding new stations in 10 cities and $4,018,500 is for ongoing operating costs. Data from Urbanet should be made available to not less than 25 National Weather Service Forecast Offices by the end of fiscal year 2008. In addition, NOAA should provide the Appropriations Committees with a report not more than 45 days after enactment which identifies additional operating costs, including maintenance on weather stations established in phases I and II of Urbanet, NOAA research costs on plume modeling, and transition costs so that National Weather Service can utilize MADIS as an operational system. Finally, NOAA should provide the Committees with a multiyear strategic plan concurrently with the 2009 budget submission for incorporating Urbanet, including migration to not less than the largest 40 metropolitan areas, and utilization by all applicable National Weather Service forecast offices.

Within the funds provided for the Local Warnings and Forecast Base, NOAA is directed to examine ways to provide supplemental weather data to the FHWA and NOAA for enhanced planning, situational avoidance, operational support and predictive modeling to improve the safety, efficiency and reliability of our highways.

Within the funds provided, the amended bill provides $179,153,750 for the National Environmental Satellite, Data, and Information Service.

These funds are distributed as follows:

NATIONAL ENVIRONMENTAL SATELLITE, DATA & INFORMATION SERVICE OPERATIONS, RESEARCH AND FACILITIES

(In thousands of dollars)

	Conference Recommendations
Environmental Satellite Observing Systems:	
Satellite Command and Control Base	$36,084,000

Total, Marine Operations & Maintenance	15,841,000
Grand Total PS (Rounding)	392,382,310

While the Appropriations Committees remain concerned about the management issues at NOAA, they do not adopt the Senate report language regarding a study by the National Academy of Public Administration.

The amended bill provides $9,673,562 for the B-WET programs, of which $2,350,000 is for the California B-WET. The Appropriations Committees enthusiastically believe in the goals of this program and continue to support the existing B-WET programs in California, the Chesapeake Bay region, and in Hawaii. The amended bill provides additional resources for NOAA to expand the program into other regions, including the Northern Gulf of Mexico, the Pacific Northwest, and New England.

This account consolidates all the items within the administration's request for "Marine Operations and Maintenance", including the administration's request of $5,600,000 for operations and maintenance of the Okeanos research vessel. These funds are appropriated as a direct adjustment to the base of the Marine Operations account without supporting the requested $4,600,000 transfer of funds from the Oceanic and Atmospheric Research account. Far too often NOAA's Marine and Aviation Operations rely on transfers of funds from NOAA line offices for non-science vessel operations, which distort the true costs of basic operations for these valuable, national assets. In future fiscal years, NOAA is required to provide a budget request for basic vessel operations that does not include funding transfers from other line offices for basic vessel operations.

NOAA is directed to provide to the House and Senate Appropriations Committees, within 18 months of enactment of this Act, a study that evaluates the design and operations of future research vessels in the form of a NOAA Survey Vessel for multi-mission operations, to maximize on-site activities and modularize for versatile platform availability.

NOAA is directed to increase the number of officers authorized to serve within the ranks of the NOAA Commissioned Officer Corps from 299 to 321.

PROCUREMENT, ACQUISITION AND CONSTRUCTION

The amended bill provides $979,207,000 for Procurement, Acquisition and Construction instead of $1,039,096,000 as proposed by the House and $1,059,000,000 as proposed by the Senate.

These funds are distributed as follows:

Total, Program Support—PAC	28,422,000
Grand Total PAC	979,207,000

The amended bill provides $8,000,000 for the CELCP program. The Appropriations Committees are pleased that the program has migrated towards a 100 percent competitive, merit-based selection process. The amended bill does not adopt Senate language directing NOAA to reopen the 2008 competition.

It is noted that the fiscal year 2008 budget request included funding for the Hyperspectral Environmental Suite (HES) which was cancelled from the GOES-R program in September 2006. The funding provided in the amended bill for GOES-R has been reduced accordingly.

The Appropriations Committees remain concerned and frustrated with regard to NOAA's satellite programs. The Committees firmly believe that continuous oversight by the Congress, specifically by the Appropriations Committees, is necessary given NOAA's recent history in procuring satellite systems. The Appropriations Committees are aware that a recent Government Accountability Office (GAO) report indicates that independent cost estimates for the GOES-R satellite program have increased by $2,000,000,000. As a result, the amended bill includes a general provision to the bill that is similar to the Defense Department's Nunn-McCurdy notification procedure. In addition, NOAA is directed to provide quarterly updates to the Appropriations Committees regarding all of its satellite programs, including staffing plans, budget, and technical risks.

Fish and Wildlife Coordination Act.—The funds included in the amended bill for the Mill Creek, Wickford Cove Conservation project will be used expressly to acquire lands or interest in lands that include significant conservation, recreation, ecological, historical or aesthetic values.

PACIFIC COASTAL SALMON RECOVERY

The amended bill provides $67,000,000 for the Pacific Coastal Salmon Recovery Fund, instead of $64,825,000 as proposed by the House and $90,000,000 as proposed by the Senate.

COASTAL ZONE MANAGEMENT FUND

(INCLUDING TRANSFER OF FUNDS)

The amended bill includes language proposed by the House and Senate transferring not to exceed $3,000,000 from the Coastal Zone Management Fund to the "Operations, Research, and Facilities" account.

FISHERIES FINANCE PROGRAM ACCOUNT

The amended bill includes language to allow for NOAA to obligate funds for Individual Fishing Quota loans and traditional direct loans.

DEPARTMENTAL MANAGEMENT

SALARIES AND EXPENSES

The amended bill provides $44,294,000 for this account, instead of $18,693,000 as proposed by the House and $53,193,000 as proposed by the Senate. Within the amount provided, the amended bill includes funds for the blast mitigation initiative for the Herbert C. Hoover Building (HCHB). The amended bill concurs with the Department's recommendation that the National Medal of Technology shall be managed by the National Institute of Standards and Technology (NIST).

HCHB RENOVATION AND MODERNIZATION

The amended bill includes $3,722,000 for the HCHB Renovation, instead of $3,364,000 as proposed by the House and $5,100,000 as proposed by the Senate. Within the funds provided the following project is funded: $714,400 is for the National Aquarium, Washington, DC, for HCHB rental payments and cost of planning and design of new space within HCHB.

OFFICE OF INSPECTOR GENERAL

The amended bill includes $22,020,000, instead of $23,426,000 as proposed by the House and Senate for the Office of Inspector General.

NATIONAL INTELLECTUAL PROPERTY LAW ENFORCEMENT COORDINATION COUNCIL

The amended bill does not include funding under this heading for the National Intellectual Property Law Enforcement Coordination Council. Instead, the amended bill includes authority that the United States Patent and Trademark Office may transfer $1,000,000 to the Departmental Management account for costs associated with the National Intellectual Property Law Enforcement Coordination Council.

GENERAL PROVISIONS—DEPARTMENT OF COMMERCE

(INCLUDING TRANSFER OF FUNDS)

The amended bill includes the following General Provisions for the Department of Commerce:

Section 101.—The amended bill includes section 101 making Department of Commerce funds available for advanced payment only upon certification of officials designated by the Secretary that such payments are considered to be in the public interest.

Section 102.—The amended bill includes section 102 making appropriations for the Department for Salaries and Expenses available for hire of passenger motor vehicles, and for services, uniforms and allowances as authorized by law.

Section 103.—The amended bill includes section 103 providing authority to transfer funds between Department of Commerce appropriation accounts and requiring notification to the Committees of certain actions.

Section 104.—The amended bill includes section 104 providing that any costs incurred by the Department in response to funding reductions shall be absorbed within total budgetary resources available.

Section 105.—The amended bill includes section 105 extending guarantee authority and making appropriations for salaries and administrative expenses to administer the Emergency Steel Loan Guarantee Program available until expended.

Section 106.—The amended bill includes section 106 permanently prohibiting the use of any appropriated funds to trademark the phrase "Last Best Place."

Section 107.—The amended bill includes section 107 providing authority for ITA to use appropriated funds for sequestered North American Free Trade Act panelists.

Section 108.—The amended bill includes section 108 extending the Department of Commerce's personnel demonstration project.

Section 109.—The amended bill includes section 109 making technical corrections related to the elimination of the Technology Administration.

Section 110.—The amended bill includes section 110 authorizing the Secretary of Commerce to prescribe and enforce standards or regulations affecting safety and health in the context of scientific and occupational diving with the National Oceanic and Atmospheric Administration.

Section 111.—The amended bill includes section 111 providing authority for a voluntary fishing capacity reduction program.

Section 112.—The amended bill includes section 112 establishing reporting requirements for the National Oceanic and Atmospheric Administration with regard to its satellite acquisition programs where cost estimates exceed 20 percent above initial estimates.

Section 113.—The amended bill includes section 113 authorizing the Secretary to develop and maintain a list of vessels and owners engaged in illegal, unreported or unregulated fishing.

Section 114.—The amended bill includes section 114 providing for the establishment of the "Climate Change Study Committee" to investigate and study issues relating to global climate change and the organization by the National Academy of Sciences of a Summit on Global Climate Change.

TITLE II

DEPARTMENT OF JUSTICE

GENERAL ADMINISTRATION

SALARIES AND EXPENSES

The amended bill includes $97,832,000 for General Administration, Salaries and Expenses, instead of $54,527,000 as proposed by the House and $74,777,000 as proposed by the Senate.

The following displays the amended bill for each office:

In thousands of dollars

Department Leadership:	
Attorney General	$5,260
Deputy Attorney General	4,814
Office of Privacy and Civil Liberties	380
Associate Attorney General	1,767
Subtotal	12,221
Intergov Relations/External Affairs:	
Public Affairs	2,858
Legislative Affairs	3,598
Intergovernmental and Public Liaison	927
Subtotal	7,383
Exec Support/Prof Resp:	
Legal Policy	5,601
Professional Responsibility	5,801
Subtotal	11,402
Justice Management Division	66,826
Total General Administration	97,832

Gangs.—As stated in the House Report, there is concern with the threats posed by the growth of violent street gangs. The Attorney General is directed to submit a report on the growth of violent gangs in suburban areas that may not have the resources to fight gangs that large cities do. The report should address specific gangs, drug trafficking organizations, the regions in which they operate, and the federal resources allocated to containing these gangs. The report shall be submitted no later than April 1, 2008.

The amended bill does not include language contained in the Senate Report on the National Drug Intelligence Center.

JUSTICE INFORMATION SHARING TECHNOLOGY

The amended bill provides $85,540,000 for this account instead of $100,500,000 as proposed by the House and $90,795,000 as proposed by the Senate.

The amended bill includes not less than $19,740,000 for the unified financial management system instead of $21,000,000 as proposed by the House and Senate.

TACTICAL LAW ENFORCEMENT WIRELESS COMMUNICATIONS

The amended bill provides $74,260,000 for this account instead of $81,353,000 as proposed by the Senate and $76,353,000 as proposed by the House.

ADMINISTRATIVE REVIEW AND APPEALS

The amended bill provides $240,649,000 in direct appropriations for this account, instead of $247,499,000 as proposed by the House and the Senate. The amended bill includes language designating $3,760,000 for the Legal Orientation Program, instead of $4,000,000 as proposed by the Senate.

The amended bill includes $8,000,000 in emergency funds for the Executive Office for Immigration Review to provide additional attorneys and judges for the Board of Immigration Appeals to adjudicate cases and appeals resulting from increased immigration enforcement actions.

DETENTION TRUSTEE

The amended bill provides $1,225,920,000 for the Detention Trustee, instead of $1,265,872,000 as proposed by the Senate and $1,260,872,000 as proposed by the House.

OFFICE OF INSPECTOR GENERAL

The amended bill provides $70,603,000 for the Office of Inspector General (OIG), instead of $74,708,000, as proposed by the House and $73,700,000, as proposed by the Senate.

The Appropriations Committees remain deeply concerned by management and oversight problems within the Justice Department. The OIG is directed to continue to investigate and report to the Appropriations Committees on the firings of U.S. Attorneys, the FBI's use of National Security Letters and the FBI's new case management system known as Sentinel, as directed in the House report.

The amended bill also includes bill language directing the OIG to conduct an audit and report to the Appropriations Committees on all expenses of the legislative and public affairs offices of the Department of Justice, as directed by the Senate.

The OIG is directed to audit competitive National Institute of Justice programs, projects and activities, including contracts and grants, awarded in the last three fiscal years. The audit shall examine whether these grants and contracts were awarded through a fair and open competitive process. The audit shall identify costs related to any grant or contract that are administrative in nature and provide a detailed breakout of how those costs were determined.

UNITED STATES PAROLE COMMISSION

SALARIES AND EXPENSES

The amended bill provides $11,462,000 for the United States Parole Commission, instead of $12,194,000, as proposed by both the House and the Senate.

LEGAL ACTIVITIES

SALARIES AND EXPENSES, GENERAL LEGAL ACTIVITIES

The amended bill provides $745,549,000 for General Legal Activities, instead of $750,584,000 as proposed by the House and $753,000,000 as proposed by the Senate.

General Legal Activities

(In thousands of dollars)

Division	*Amended Bill Amount*
Solicitor General	$9,883
Tax Division	92,781
Criminal Division	148,979
Civil Division	250,115
Environment and Natural Resources	99,365
Office of Legal Counsel	6,184
Civil Rights Division	114,450
INTERPOL—USNCB	23,252
Office of Dispute Resolution	541
Total	$745,549

The amended bill includes $10,000,000 in emergency funds for the Civil Division Office of Immigration Litigation to provide 86 additional attorneys to address appeals resulting from increased immigration enforcement actions.

THE NATIONAL CHILDHOOD VACCINE INJURY ACT

The amended bill includes a reimbursement of $6,833,000 from the Vaccine Injury Compensation Trust Fund to the Department of Justice, as proposed by both the House and the Senate.

SALARIES AND EXPENSES, ANTITRUST DIVISION

The amended bill provides $147,819,000 for the Antitrust Division, instead of $155,097,000 as proposed by both the House and the Senate. This appropriation is offset by $139,000,000 in pre-merger filing fee collections, resulting in a direct appropriation of $8,819,000.

SALARIES AND EXPENSES, UNITED STATES ATTORNEYS

The amended bill provides $1,754,822,000 for the United States Attorneys, instead of $1,748,572,000 as proposed by the House, and $1,777,822,000, as proposed by the Senate.

The amended bill includes programmatic increases to strengthen prosecutions of child exploitation, violent gangs, illegal immigration and human trafficking. Within the funds made available, $5,000,000 is provided to support the hiring of additional assistant U.S. Attorneys to prosecute offenses related to the sexual exploitation of children, as authorized by the Adam Walsh Child Protection and Safety Act of 2006.

The amended bill includes $7,000,000 in emergency funds for the United States Attorneys for criminal and civil litigation resulting from increased immigration enforcement actions.

The amended bill does not include a general provision in the Senate bill regarding

Operation Streamline. The Appropriations Committees recognize the importance of Operation Streamline as a highly effective law enforcement operation for detaining, prosecuting, and deporting illegal aliens who cross the U.S.-Mexico border illegally. Initiated in December 2005 in Del Rio, TX, Operation Streamline is a multi-agency law enforcement initiative that involves the U.S. Attorney's Office, Customs and Border Protection, Immigration and Customs Enforcement, the U.S. Marshals Service and dedicated Federal judges and magistrates of the Western District of Texas. Operation Streamline has instituted a zero-tolerance policy for illegal entry. The Department of Justice is directed to report to Congress on the impact of Operation Streamline and on the costs to implement law enforcement operations identical to Operation Streamline in all districts along the U.S.-Mexico border, and hire or reassign U.S. Attorneys and support staff to expand this program.

UNITED STATES TRUSTEE SYSTEM FUND

The amended bill provides $209,763,000 for the United States Trustee System Fund, instead of $189,000,000 as proposed by the House and $231,899,000 as proposed by the Senate. The amended bill includes language authorizing the use of $184,000,000 in offsetting collections and the use of $20,000,000 in prior year unobligated balances. In addition, $5,000,000 is derived from interest in U.S. Securities, resulting in a direct appropriation of $763,000.

SALARIES AND EXPENSES, FOREIGN CLAIMS SETTLEMENT COMMISSION

The amended bill includes $1,606,000, for the Foreign Claims Settlement Commission, instead of $1,709,000 as proposed by both the House and the Senate.

UNITED STATES MARSHALS SERVICE

SALARIES AND EXPENSES

The amended bill provides $864,219,000 for the United States Marshals Service (USMS) Salaries and Expenses account, instead of $883,766,000 as proposed by the House, and $904,705,000 as proposed by the Senate.

The amended bill provides $354,297,000 for judicial and courthouse security, which includes $11,437,000 to provide additional deputy marshals for judicial security.

The amended bill includes $15,000,000 in emergency funds for the USMS for prisoner transportation, defendant productions and courthouse security resulting from increases in immigration-related Federal court proceedings. This funding will support the hiring of 100 additional deputy marshals.

Within funds made available, $2,820,000 is provided to address substandard health and security conditions in the prisoner holding facilities occupied by the USMS in the Moultrie Courthouse Building of the District of Columbia. The USMS and the District of Columbia Courts are strongly urged to work together in a coordinated manner to develop a renovation and improvement plan for these facilities, as identified by the Office of Inspector General in report I–2007–008–R.

Within funds provided, $2,820,000 is made available to establish new or expand existing regional fugitive task forces. Distribution of these resources should be based on the fugitive workload, giving emphasis to the workload created by the Adam Walsh Child Protection and Safety Act of 2006.

CONSTRUCTION

The amended bill provides $2,304,000 for the United States Marshals Service Construction account, instead of $2,451,000 as proposed by the House, and $8,015,000 as proposed by the Senate.

FEES AND EXPENSES OF WITNESSES

The amended bill provides $168,300,000 for Fees and Expenses of Witnesses, as proposed by both the House and the Senate.

SALARIES AND EXPENSES, COMMUNITY RELATIONS SERVICE

The amended bill provides $9,794,000 for the Community Relations Service, as proposed by the House, instead of $10,230,000 as proposed by the Senate.

Region Six, which encompasses Louisiana, Texas, Arkansas, New Mexico, and Oklahoma, recently experienced racial unrest in Jena, Louisiana and there is concern about the slow response of the Community Relations Service to this incident. For this reason, the Community Relations Service is urged to send additional conciliators for this region to ensure that the area has sufficient staff and resources for the future.

ASSETS FORFEITURE FUND

The amended bill provides $20,990,000 for the Assets Forfeiture Fund, as proposed by both the House and the Senate.

NATIONAL SECURITY DIVISION

SALARIES AND EXPENSES

The amended bill includes $73,373,000, for the National Security Division, instead of $78,056,000 as proposed by both the House and the Senate.

INTERAGENCY LAW ENFORCEMENT

INTERAGENCY CRIME AND DRUG ENFORCEMENT

The amended bill includes $497,935,000, for Interagency Crime and Drug Enforcement, instead of $509,154,000 as proposed by both the House and the Senate.

The amended bill includes the following amounts to reimburse agencies for their costs of participating in OCDETF task forces:

REIMBURSEMENT BY AGENCY

(In thousands of dollars)

Drug Enforcement Administration	$193,264
Federal Bureau of Investigation	134,051
United States Marshals Service	8,272
Bureau of Alcohol, Tobacco, Firearms and Explosives	11,151
United States Attorneys	130,726
Criminal Division	2,653
Tax Division	961
Administrative Support	5,388
OCDETF Executive Office (OFC)	11,469
Total	$497,935

FEDERAL BUREAU OF INVESTIGATION

SALARIES AND EXPENSES

The amended bill provides $6,493,489,000 for the Federal Bureau of Investigation (FBI) Salaries and Expenses account, instead of $6,503,611,000 as proposed by the House, and $6,395,250,000 as proposed by the Senate.

Fixing the Budget Shortfall.—The Appropriations Committees concur with language in the House Report expressing frustration with the composition of the Department of Justice budget request for the FBI that used as a base the average of the House and Senate recommendations for fiscal year 2007 less one percent. The 2007 level for the FBI provided by the 110th Congress supported the full Administration request plus additional funds for the 2007 pay raise. It was expected that the Administration would recalculate the Department of Justice's current rate budget needs for fiscal year 2008 based on the actual 2007 base. The effect of the Administration's 2008 budget gimmick is that agencies' fiscal year 2008 budget requests are not sufficient to fully fund the adjustments to base and program increases requested in fiscal year 2008. For the FBI's salaries and expenses account the result is a deficit of $139,170,000. If funded at the President's request level, the FBI would be required to address this shortfall through imposition of a limited hiring freeze, imposition of across-the-board reductions to operational support programs, and deferment of program enhancements. The work of the FBI in counterterrorism and criminal investigations is too important to be subjected to budget gimmicks and therefore funds have been realigned to mitigate the impact of the salaries and expenses shortfall. The FBI is directed to realign $25,009,000 within existing funds allocated to the Sentinel program to address this shortfall; to make available $18,000,000 from remaining funds previously made available to FBI Salaries and Expenses under P.L. 109–148 to further account for the budget shortfall; and to apply redirected funds to this shortfall.

NGI–IAFIS and IDENT/IAFIS Interoperability.—The budget gimmick would also have impacted Criminal Justice Information Systems (CJIS) initiatives, therefore the FBI is also directed to use $11,000,000 from the CJIS prior-year user fee collections to fund improvements for IDENT/IAFIS Interoperability initiatives impacted by the budget gimmick, available until expended. In addition, $47,000,000 of enhancements requested in the President's Budget for Next Generation Identification (NGI), Regional Data Exchange (R–DEx), IDENT/IAFIS Interoperability, and Combined DNA Index System (CODIS) are funded with prior-year user fee collections. As in previous years, under no circumstances is the FBI to divert funding collected through the CJIS user fee for any purpose other than CJIS, its refreshment plan, or a subsequent modernization plan for the current facility.

. *Border Security and Immigration.*—The amended bill provides the FBI $23,000,000 from the CJIS prior-year user fee collections to fund improvements for the IAFIS and its interoperability initiatives, to be available until expended, to support improvements to the FBI's IAFIS fingerprint system, including its interoperability with the Department of Homeland Security's (DHS) IDENT system. The FBI's fingerprint system supports immigration enforcement efforts by providing criminal history information on individuals arrested or being investigated by DHS.

Counterterrorism and Cyber Security.—The amended bill provides the FBI $143,539,000 in emergency funds to address emerging threats in counterterrorism and cyber security for uses described in the fiscal year 2008 budget amendment.

Hollow Work Years and Fee Adjustments.—The FBI's authorized position level does not represent a realistic workforce level, as is the case with several other Department of Justice accounts. At a time when the FBI is in dire need of both National Security and Criminal positions, the Administration is proposing to eliminate 2,700 unaffordable work years rather than identifying additional funding to address the problem. Therefore, the FBI is directed to eliminate 2,250 unaffordable work years and to devise a multi-year plan that identifies funding for the remaining 450 unaffordable work years. The FBI has reviewed all of its reimbursable agreements and updated the cost structure of its user fees. As such, the FBI's reimbursable positions should change accordingly. An additional 292 reimbursable positions are authorized.

Criminal Investigations.—The amended bill does not include funds for new agents to combat violent crime as proposed by the Senate, but the FBI is directed to make funding for new agents to combat violent crime a top priority. In recent years there has been a marked decrease in the resources devoted by the FBI to criminal investigations. Between 2001 and 2007, the FBI's traditional resources for conducting criminal investigations decreased approximately 30 percent. While most violent crime is a local crime problem, State and local authorities depend upon the FBI for investigative, forensic, and technical assistance and leadership. The FBI's task force approach to combating street crime and gang violence is one of the successful strategies that contributed to the previous decrease in violent crimes. Accordingly, the FBI is encouraged to establish additional joint task forces to target violent crimes and gang violence.

Innocent Images National Initiative.—The amended bill does not provide an increase over the budget request for the Innocent Images National Initiative as proposed by the Senate.

The FBI is urged to expand the number of agents investigating Internet-related crimes against children by increasing agents and support positions to address the critical requirements for Federal law enforcement in attacking the problem of child sexual exploitation and child victimization.

Intellectual Property Crime Enforcement.—The amended bill does not provide additional funds for the detection, investigation, and prosecution of domestic and international intellectual property crimes against the United States as proposed by the Senate. The FBI is urged to create an operational unit at FBI headquarters with agents dedicated solely to working with the Department of Justice's Computer Crime and Intellectual Property Section on complex, multi-district and international criminal intellectual property cases and to increase agents assigned to the Department of Justice's 25 Computer Hacking and Intellectual Property Units dedicated solely to criminal intellectual property cases. The additional agents for this section shall investigate and support the criminal prosecution of the Federal intellectual property laws, including title 17, United States Code, sections 506, and 1204; title 18 United States Code, sections 1831, 1832, 2318, 2319, 2319A, 2319B, and 2320. The FBI shall make similar agent increases as additional CHIP Units are created.

Annuity Protection.—The FBI is directed to identify funds to protect the pensions of FBI agents who assumed supervisory positions before the FBI began implementation of the Field Office Supervisory Term Limit Policy. The annuity protection provision should be applied retroactively, since the Term Limit Policy has already been applied to agents who would be eligible for annuity protection.

National Security Letters.—The FBI is directed to report within two months after enactment of this Act on what has been done to implement the recommendations in the March 2007 Office of Inspector General (OIG) report that identified numerous FBI abuses and misuses of National Security Letter (NSL) authority and what will be done in the future to catch mistakes and report to Congress on compliance with legal authorities.

Report on Delayed Name Checks.—Not later than 60 days after the end of each fiscal year, the Director of the FBI shall submit a report that contains, with respect to the most recently completed fiscal year—

(1) a statistical analysis of the number of name checks processed and pending, including check requests in process at the time of the report and check requests that have been received but are not yet in process;

(2) the average time taken to complete each type of name check;

(3) a description of the efforts and progress made by the Director in addressing any delays in completing such name checks; and

(4) a description of the progress that has been made in automating files used in the name check process, including investigative files of the FBI.

This report shall be submitted to the Appropriations Committees of the House and Senate, the Committee on the Judiciary of the Senate, the Committee on Homeland Security and Governmental Affairs of the Senate, the Committee on the Judiciary of the House of Representatives, and the Committee on Homeland Security of the House of Representatives.

Work Force Realignment.—Not later than 60 days after the enactment of this Act, the Director of the FBI shall submit to the Appropriations Committees of the House and Senate a report that evaluates the FBI's current work force allocation process and assesses the steps taken to right-sizing and realignment of agents, analysts and support personnel currently in field offices to better meet the FBI's mission requirements and priorities.

Training.—As the nation's primary counterterrorism agency, the FBI must ensure that its personnel are trained to understand the nature of the terrorist threat in the United States, and how to go about defeating it. Within the amounts provided, the FBI is encouraged to expand training opportunities for Counterterrorism and Counterintelligence agents, analysts and linguists, specifically to address identifiable weaknesses in understanding radical and religion-based terrorist doctrine, ideology and objectives, and in disrupting any such movements operating domestically. The FBI is to report to the Committees by February 28, 2008 on revised plans for Counterterrorism and Counterintelligence training, to include these elements.

The amended bill does not include language on the National Motor Vehicle Title Information System as proposed by the House.

CONSTRUCTION

The amended bill provides $164,200,000 for FBI construction, instead of $28,191,000 as proposed by the House and $206,400,000 as proposed by the Senate. Of this amount, $45,000,000 shall be for the Terrorist Explosives Device Analytical Center.

DRUG ENFORCEMENT ADMINISTRATION

SALARIES AND EXPENSES

The amended bill appropriates $2,096,818,000 for the Drug Enforcement Administration (DEA), instead of $2,081,818,000 as proposed by the House and $2,093,406,000 as proposed by the Senate.

The amended bill provides funding above the budget request to support current operation levels and to enable DEA to lift the hiring freeze on agent and support personnel that has been in place since August 2006. This funding will allow DEA to fill 200 special agent positions as well as related support positions that would otherwise remain vacant. With the resources provided in this amended bill and in the fiscal year 2007 supplemental, the Administration's proposed reduction for "hollow FTE" is not accepted. Some FTE and positions that had been proposed for elimination will be needed to support the restored staffing levels.

Furthermore, the Administration's proposal to eliminate the Mobile Enforcement Teams (MET) program and reduce further the number of DEA agents and support staff is believed to be ill-advised, and therefore the Administration is directed to use remaining funds above the request to continue this program. This will enable DEA to retain special agents, allowing DEA to continue assisting State and local law enforcement in their fight against methamphetamine and other dangerous drugs.

The amended bill includes $2,000,000 in emergency funds to provide for nonpersonnel resources for a communications intercept program for Afghanistan. The initiative directly supports ongoing foreign-deployed advisory support teams (FAST) and strengthens interagency counter narcotics operations in Afghanistan.

BUREAU OF ALCOHOL, TOBACCO, FIREARMS AND EXPLOSIVES

SALARIES AND EXPENSES

The amended bill provides $984,097,000 for the Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF), instead of $1,013,980,000 as proposed by the House and the Senate. The amended bill includes language as proposed by the House on the availability of gun trace data.

License Revocations.—The ATF is directed to report on license revocations against firearms dealers based on violations that consist largely of recordkeeping errors.

Open Rules.—The Appropriations Committees concur with language in the House Report regarding open rulemakings and the delay in resolving the rules due to staff shortages. The ATF to report within two months after enactment of this Act on the status of all open rules and the ATF's plans to address the backlog.

Conversion of Records.—There is a need for ATF to convert Federal firearms records at the ATF National Tracing Center (NTC) to digital images. As these records are converted, search time for these records is reduced significantly. The ATF is urged to continue the conversion and integration of these records.

CONSTRUCTION

The amended bill includes $23,500,000 for construction of the National Center for Explosives Training and Research (NCETR), instead of no funding as proposed by the House and $35,000,000 as proposed by the Senate.

FEDERAL PRISON SYSTEM

SALARIES AND EXPENSES

The amended bill provides $5,050,440,000 for the salaries and expenses of the Federal Prison System (FPS), instead of $5,171,440,000 as proposed by the House and $5,151,440,000, as proposed by the Senate.

The funds provided for the salaries and expenses of the FPS shall be distributed as follows: $1,788,043,000 for Inmate Care and Programs; $2,275,246,000 for Institution Security and Administration; $806,129,000 for Contract Confinement; and $181,022,000 for Management and Administration.

Inmate literacy, training and substance abuse treatment programs are cost-effective tools in reducing the societal costs of criminal recidivism. The FPS is directed to examine cost-effective ways to reduce the long waiting lists of inmates in need of residential and transitional drug treatment, and to expand inmate GED/literacy and occupational skills training programs.

The FPS is expected to adhere to the prison activation schedule included in the budget submission. The FPS shall notify the Appropriations Committees of any deviations to the schedule.

The FPS is commended on its work to address and prevent sexual misconduct. With funds provided in earlier appropriations Acts, the National Institute of Corrections has made useful progress in providing training and technical support to correctional systems throughout the country to eliminate staff sexual misconduct with inmates, training in investigating cases, and training the "trainers" in order that employees at every level will be more aware of, and better prepared to deal with, these cases. The FPS is directed to continue these efforts and to report to the Appropriations Committees by March 31, 2008, on progress made in this area.

BUILDINGS AND FACILITIES

The amended bill provides $372,720,000 for the construction, modernization, maintenance, and repair of prison and detention facilities housing Federal prisoners, instead of $95,003,000 as proposed by the House, and $495,000,000 as proposed by the Senate.

Within funding provided, $278,720,000 is made available for new prison construction, and $70,000,000 is made available for modernization, maintenance and repair of existing facilities.

LIMITATION ON ADMINISTRATIVE EXPENSES, FEDERAL PRISON INDUSTRIES, INCORPORATED

The amended bill includes language placing a limitation on administrative expenses of $2,328,000 for Federal Prison Industries, Incorporated, instead of $2,477,000 as proposed by both the House and the Senate.

OFFICE ON VIOLENCE AGAINST WOMEN

VIOLENCE AGAINST WOMEN PREVENTION AND PROSECUTION PROGRAMS

The amended bill provides $400,000,000 for violence against women prevention and prosecution programs, as proposed by the Senate, instead of $459,000,000 as proposed by the House.

Violence Against Women Prevention and Prosecution Programs

(In thousands of dollars)

Program	*Amended Bill Amount*
STOP Grants	$183,800
National Institute of Justice—R&D	(1,880)
Transitional Housing Assistance	(17,390)
Grants to Encourage Arrest Policies	59,220
Rural Domestic Violence Assistance Grants	40,420
Violence on College Campuses	9,400
Civil Legal Assistance	36,660
Sexual Assault Victims Services	9,400
Elder Abuse Grant Program	4,230
Safe Havens Project	13,630
Education & Training for Disabled Female Victims	6,580
CASA (Special Advocates)	13,160
Training for Judicial Personnel	2,350
Stalking Database	2,820
Court Training and Improvements	2,820
Services for Children/Youth Exposed to Violence	2,820
Advocates for Youth/Services for Youth Victims	2,820
National Tribal Sex Offender Registry	940
Research on Violence Against Indian Women	940
Closed Circuit Television Grants	940
Engaging Men and Youth in Prevention	2,820
Training Programs to Assist Probation and Parole Officers	3,290
National Resource Center on Workplace Responses	940
Total	$400,000

The amended bill provides funding for several new programs authorized by the Violence Against Women and Department of Justice Reauthorization Act of 2005, including Sexual Assault Services, Court Training and Improvements, Services for Children/Youth Exposed to Violence, Advocates for Youth/Services for Youth Victims, Engaging Men and Youth in Prevention, Research on Violence against Indian Women, and the National Tribal Sex Offender Registry. In addition, the amended bill provides funding for the National Resource Center on Workplace Responses, as authorized by the Violent Crime Control and Law Enforcement Act of 1994.

Native American/Native Alaskan Liaison Office.—Native American and Native Alaskan women are faced with extraordinarily high incidences of violence. Within funds provided, the amended bill directs $2,820,000 to the State of Alaska for the Native American/Native Alaskan Liaison Office to provide services to victims of sexual assault and domestic violence in Alaska.

OFFICE OF JUSTICE PROGRAMS

JUSTICE ASSISTANCE

The amended bill provides $196,184,000 for Justice Assistance, instead of $250,000,000, as proposed by the House, and $240,000,000, as proposed by the Senate.

Justice Assistance

(In thousands of dollars)

Program	*Amended Bill Amount*
National Institute of Justice	$37,000
NLECTCs	(19,740)
Bureau of Justice Statistics	34,780
Victim Notification	9,400
Economic, high-tech and cybercrime prevention	11,280
Regional Info Sharing System	40,000
Justice for All/DNA and Forensics	2,820
NIST/OLES	(705)
Missing Children Program	50,000
Management and Administration	10,904
Total	$196,184

National Institute of Justice.—The Office of Inspector General is directed to audit competitive National Institute of Justice programs, projects and activities, including contracts and grants, awarded in the last three fiscal years. The audit shall examine whether grants and contracts were awarded through a fair and open competitive process. The audit shall identify costs related to any grant or contract that are administrative in nature and provide a detailed breakout of how those costs were determined.

National Crime Victimization Survey (NCVS).—Within funds provided, the Bureau of Justice Statistics is directed to appropriately fund the continuation of the NCVS, which is a critical source of information on crime victimization across the country.

Missing Children.—The amended bill provides $50,000,000 for the Missing Children Program. The Appropriations Committees recognize the critical roles played by national, State and local law enforcement agencies and non-profit organizations in protecting children from predators. The Department is strongly urged to fully engage such entities in the implementation of new and enhanced child protection programs.

Regional Information Sharing System (RISS).—The amended bill provides $40,000,000 for regional information sharing to ensure the efficient and effective automated exchange of crime and terrorism information among Federal, State and local agencies. The Department is urged to consider the data sharing needs of rural law enforcement.

Victim Notification.—The amended bill provides $9,400,000 for the State Automated Victim Notification program. No funding may be used for this initiative from the Victims Assistance Program, and a 50 percent match is required from State, local or private sources.

Economic, High-tech and Cybercrime Prevention.—The amended bill includes $11,280,000 to support and train State and local law enforcement agencies in the prevention, investigation, and prosecution of Internet, high-tech and economic crimes.

Management and Administration.—The amended bill includes language capping the total amount made available for Office of Justice Programs management and administration at $127,915,000.

STATE AND LOCAL LAW ENFORCEMENT ASSISTANCE

The amended bill provides $1,008,136,000 for the State and Local Law Enforcement Assistance account, instead of $1,380,000,000, as proposed by the House, and $1,430,000,000, as proposed by the Senate.

State and Local Law Enforcement Assistance

(In thousands of dollars)

Program	*Amended Bill Amount*
Byrne Memorial Justice Assistance Grants	$170,433
National Institute of Justice	(2,000)
SLATT Intelligence State and Local Training	(2,000)
Byrne Discretionary Grants	187,513
Byrne Competitive Grants	16,000
Indian Assistance	22,440
Tribal Prison Construction	(8,630)
Indian Tribal Courts	(8,630)
Indian Alcohol and Substance Abuse grants	(5,180)
State Criminal Alien Assistance Program	410,000
Southwest Border Prosecutor Program	30,080
Northern Border Prosecutor Program	2,820
Victims of Trafficking Grants	9,400
State Prison Drug Treatment	9,400
Drug Courts	15,200
Prescription Drug Monitoring	7,050
Prison Rape Prevention and Prosecution	17,860
Capital Litigation	2,500
Missing Alzheimer's Patients Grants	940
Mentally Ill Offender Act	6,500
2008 Presidential Conventions Security	100,000
Total	$1,008,136

Edward Byrne Memorial Justice Assistance Grant Program (JAG).—The amended bill provides $170,433,000 for JAG formula grants. Funding under this program is authorized for law enforcement programs; prosecution and court programs; prevention and education programs; corrections and community corrections programs; drug treatment and enforcement programs; planning, evaluation and technology improvement programs; and crime victim and witness programs other than compensation. Funding is not available for vehicles, vessels, or aircraft; luxury items; real estate; or construction projects. Within the funds provided, $2,000,000 is made available for training to improve State and local law enforcement intelligence capabilities; and $2,000,000 is made available for the National Institute of Justice to assist local units of government with the acquisition of new law enforcement technologies.

Byrne Discretionary Grants.—The amended bill provides $187,513,000 for Byrne discretionary grants to help improve the functioning of the criminal justice system with an emphasis on violent crime, drugs, and serious offenders. Within the funds provided, the Office of Justice Programs is directed to review the following projects, to provide funding consistent with law and Congressional intent, and to report to the Appropriations Committees regarding the disbursement of these funds:

Project	*Amount*
"Missing Persons" (Locating the Ones We Love), Detroit, MI	$423,000
A Child is Missing GA, Fort Lauderdale, FL, to assist law enforcement in finding missing children	70,500

Zero to Three Court Teams Project, New Haven, CT	329,000

Byrne Competitive Grants.—The amended bill provides $16,000,000 for Byrne competitive grants to programs of national significance to prevent crime, improve the administration of justice, or assist victims of crime. Within 60 days of enactment of this Act, the Office of Justice Programs is directed to provide a report and spend plan to the Appropriations Committees, which details the scope of the program and the criteria and methodology the agency will employ to award these grants. It is expected that national programs that have received funding under the Byrne discretionary program will be eligible for funding under this competitive grant program.

Tribal Law Enforcement Assistance.—The amended bill provides $22,440,000 for law enforcement assistance to Indian tribes, of which $8,630,000 is for tribal prison construction; $8,630,000 is for tribal courts; and $5,180,000 is for tribal alcohol and substance abuse reduction assistance. The Appropriations Committees note with deep concern the poor condition of tribal detention facilities on Navajo Nation land and across the country. The Department of Justice is directed to review the state of existing tribal detention facilities and the need for new detention capacity, and to report to the Appropriations Committees no later than 180 days after enactment of this Act on its findings, including recommendations and actions that have or will be taken to address these needs.

State Criminal Alien Assistance Program (SCAAP).—The amended bill provides $410,000,000 for the SCAAP program for reimbursement to States and localities for costs of incarceration of criminal aliens. In light of the long delay in disbursing fiscal year 2006 SCAAP funds, the Department is directed to improve coordination with the Department of Homeland Security in the vetting, verification and reimbursement of claims.

Southwest Border Prosecutions.—The amended bill includes $30,080,000 to provide assistance to State and local law enforcement agencies (including prosecutors, probation officers, courts and detention facilities) along the southwest border with the handling and processing of drug and alien cases referred from Federal arrests.

Northern Border Prosecutions.—The amended bill includes $2,820,000 to provide assistance to State and local law enforcement agencies (including prosecutors, probation officers, courts and detention facilities) along the northern border with the handling and processing of drug and alien cases referred from Federal arrests.

Drug Courts.—The amended bill provides $15,200,000 for grants to drug courts, which are designed to adjudicate substance abusing offenders and help them to break the cycle of addiction. This funding level represents a $5,328,000 increase over fiscal year 2007.

Hal Rogers Prescription Drug Monitoring Program.—The amended bill includes $7,050,000 for the Prescription Drug Monitoring Program to assist States in developing prescription drug monitoring systems. The Office of Justice Programs is directed to continue to work with the Drug Enforcement Administration to implement this program.

Prison Rape Prevention and Prosecution.—The amended bill includes $17,860,000 for prison rape prevention and prosecution programs authorized by the Prison Rape Elimination Act of 2003. Within funding provided, $1,692,000 shall be transferred to the National Prison Rape Elimination Commission, of which $470,000 is made available to conduct a report to the Appropriations Committees on how previously appropriated Federal funds have been spent and the impact this funding has had on reducing prison rape.

Capital Litigation.—The amended bill includes $2,500,000 for Capital Litigation Improvement Grants, as authorized by section 426 of the Justice For All Act (Public Law 108-405).

SEARCH National Technical Assistance and Training Program.—The Appropriations Committees support efforts to assist States in the development and use of information systems to accelerate the automation of fingerprint identification processes and criminal justice data which are compatible with the FBI Integrated Automated Fingerprint Identification System.

2008 Presidential Conventions Security.—The amended bill provides $100,000,000 in emergency funds to State and local law enforcement entities for security and related costs, including overtime, associated with the two principal 2008 Presidential Candidate Nominating Conventions, to be divided equally between the conventions.

WEED AND SEED PROGRAM FUND

The amended bill provides $32,100,000 for the Weed and Seed Program Fund, instead of $50,000,000, as proposed by the Senate, and $49,692,000, as proposed by the House. The House proposed to fund this program within the Community Oriented Policing Services account.

COMMUNITY ORIENTED POLICING SERVICES

The amended bill provides $587,233,000 for Community Oriented Policing Services (COPS) programs, instead of $725,000,000, as proposed by the House, and $660,000,000, as proposed by the Senate.

Community Oriented Policing Services

(In thousands of dollars)

Program	*Amended Bill Amount*
COPS Hiring Grants	$20,000
Law Enforcement Technology and Interoperability	205,366
NIST/OLES	(1,000)
Violent Gang and Gun Crime Reduction	20,000
Meth Hot Spots	61,187
Bullet-Proof Vests	25,850
NIST/OLES	(1,880)
Tribal Law Enforcement	15,040
Criminal Records Upgrade	9,400
DNA Analysis Backlog Reduction/Crime Labs	152,272
Debbie Smith DNA Backlog grants	(147,391)
Post-Conviction DNA Testing grants	(4,881)
Paul Coverdell Forensic Science	18,800
Offender Re-Entry	11,750
Child Sexual Predator Elimination/Sex Offender Management	15,608
Sex Offender Management	(4,162)
National Sex Offender Registry	(850)
Training and Technical Assistance	3,760
Management and Administration	28,200
Total	$587,233

COPS Hiring Grants.—The amended bill provides $20,000,000 for grants to State and local governments for the hiring of additional law enforcement officers for deployment in community-oriented policing across the nation. Also known as "COPS on the Beat," this grant program is being funded for the first time since 2005.

Law Enforcement Technology and Interoperability.—The amended bill provides $205,366,000 for law enforcement technology grants to State and local law enforcement agencies. Within the amounts provided, $1,000,000 shall be transferred to the National Institute of Standards and Technology to continue the efforts of the Office of Law Enforcement Standards in developing minimum standards for equipment purchased through this grant program. Within the funds provided, the COPS program office is directed to review the following projects, to provide funding consistent with law and Congressional intent, and to report to the Appropriations Committees regarding the disbursement of these funds:

Project	*Amount*
Accomack County, VA Sheriff's Office	$37,600
Adams County, IL	376,000
Adams County, IL, Sheriff's Department	282,000

Violent Gang and Gun Crime Reduction.—The amended bill includes $20,000,000 for grant assistance to State and local law enforcement agencies to combat violent crime, with special emphasis on areas plagued by violent gangs and drug-trafficking crime involving firearms.

Methamphetamine Enforcement and Clean-up.—The amended bill includes $61,187,000 for grants to address public safety and methamphetamine manufacturing, sale, and use in "hot spots." Within the amount provided, $20,000,000 is included to reimburse the Drug Enforcement Administration (DEA) for assistance to State and local law enforcement for proper removal and disposal of hazardous materials at clandestine methamphetamine labs, including funds for training, technical assistance, a container program, and purchase of equipment. Within the funds provided, the COPS program office, in consultation with DEA, is directed to review the following projects, to provide funding consistent with law and Congressional intent, and to report to the Appropriations Committees regarding the disbursement of these funds:

Project	*Amount*
22nd Judicial District, Montezuma County, CO, for anti-meth operations	133,950
Alamosa Police Department, Alamosa, CO, for anti-meth equipment	22,325
Arkansas State Police, Little Rock, AR, to investigate, seize, dismantle and direct the clean-up of meth labs	535,800
Asheville, NC Police Department Methamphetamine Enforcement	94,000
Atascosa and Wilson County, TX Sheriff's' and Constable's Departments Methamphetamine Law Enforcement	141,000
Bibb County, AL Sheriff's Department	235,000
Boone, Kenton, Campbell Counties, KY, Boone County, for logistical support for the task force	470,000

DNA Analysis Backlog Reduction/Crime Labs.—The amended bill provides $152,272,000 to improve Federal and State DNA collection and analysis systems, which are critical to the prosecution of the guilty and the protection of the innocent from wrongful prosecution. Within these amounts, $147,391,000 is for Debbie Smith DNA backlog grants and $4,881,000 is for Post-Conviction DNA Testing grants.

Child Sexual Predator Elimination/Sex Offender Management.—The amended bill includes $15,608,000 for a new national initiative to provide grants to State and local governments to locate, arrest, prosecute and manage sexual predators. Within funds provided, $4,162,000 is made available for sex offender management grants and $850,000 is for the National Sex Offender Registry.

JUVENILE JUSTICE PROGRAMS

The amended bill includes $383,513,000 for Juvenile Justice Programs, instead of

$399,900,000, as proposed by the House, and $345,000,000, as proposed by the Senate.

Juvenile Justice Programs

(In thousands of dollars)

Program	*Amended Bill Amount*
Part A—Management and Administration	$658
Part B—State Formula	74,260
Part E—Challenge Grants and Projects	93,835
Youth Mentoring Grants	70,000
Title V—Incentive Grants	61,100
Tribal Youth	(14,100)
Gang Prevention	(18,800)
Alcohol Prevention	(25,000)
Secure Our Schools Act	15,040
Victims of Child Abuse Programs	16,920
Regional Child Advocacy Centers	(3,760)
Juvenile Accountability Block Grant	51,700
Total	$383,513

Youth Mentoring Grants.—National, regional and local mentoring programs play a critical role in nurturing America's children—helping them to become good citizens who strengthen our communities. To support this vital work, the amended bill provides $70,000,000 for a competitive program of youth mentoring grants. Within 60 days of enactment of this Act, the Office of Justice Programs is directed to provide a report and spend plan to the Appropriations Committees, which details the scope of the program and the criteria and methodology the agency will employ to award these grants. It is expected that national programs that have received funding under the Byrne discretionary program or the Juvenile Justice Part E program will be eligible for funding under this competitive grant program.

Part E—Juvenile Justice Challenge Grants and Projects.—The amended bill provides $93,835,000 for grants under the Part E programs. Within the funds provided, the Office of Justice Programs is directed to review the following projects, to provide funding consistent with law and Congressional intent, and to report to the Appropriations Committees regarding the disbursement of these funds:

Zero to Three, Orleans Parish, LA, for maltreated infants and toddlers	89,300

Victims of Child Abuse Act.—The amended bill provides $16,920,000 for several programs authorized under the Victims of Child Abuse Act (Public Law 101-647). Within funds provided, $3,760,000 is made available for Regional Child Advocacy Centers Programs.

PUBLIC SAFETY OFFICERS BENEFITS

The amended bill includes $74,834,000 for this account, including $66,000,000 for death benefits, and $8,834,000 for disability benefits and education benefits.

As stated in the House Report, the new Public Safety Officers Benefits (PSOB) regulations have been implemented poorly and there is concern about the slow progress in making benefit payments to the families of those who died protecting their community. The PSOB was established to give peace of mind to our men and women in uniform who put their lives in danger every day, and claims must be processed swiftly and efficiently to provide the intended security.

GENERAL PROVISIONS—DEPARTMENT OF JUSTICE

The amended bill includes the following general provisions for the Department of Justice:

Section 201 provides that up to $50,000 of the funds appropriated to the Department of Justice shall be available to the Attorney General for reception and representation expenses.

Section 202 prohibits the use of funds to perform abortions in the Federal Prison System.

Section 203 prohibits the use of the funds to require any person to perform, or facilitate the performance of, an abortion.

Section 204 provides that nothing in the previous section removes the obligation of the Director of the Bureau of Prisons to provide escort services to female inmates who seek to obtain abortions outside a Federal facility.

Section 205 provides for the policy for transfers subject to the Committees' reprogramming procedures, that not to exceed 5 percent may be transferred between any appropriation, but limits to 10 percent the amount that can be transferred into any one appropriation and prohibits Federal Prison System, Buildings and Facilities funds to be transferred unless the President certifies.

Section 206 provides for the extension of the Personnel Management Demonstration Project for certain positions of the Bureau of Alcohol, Tobacco, Firearms and Explosives.

Section 207 provides language extending section 102(b) of Public Law 102-395 to the Bureau of Alcohol, Tobacco, Firearms and Explosives.

Section 208 provides language prohibiting funds from being used to transport prisoners classified as a maximum or high security prisoner to a facility other than a prison or other facility certified by the Federal Bureau of Prisons as appropriately secure for housing such a prisoner.

Section 209 prohibits certain prisoner amenities.

Section 210 prohibits the use of funds for Sentinel or other major new or enhanced information technology programs unless the Deputy Attorney General and the Department IT Investment Review Board certify to the Appropriations Committees that the information technology program has appropriate contractor oversight mechanisms in place, and that the program is compatible with the enterprise architecture of the Department of Justice.

Section 211 requires the availability of appropriations for obligation beyond the current fiscal year to comply with reprogramming procedures.

Section 212 authorizes changes to quarterly fees imposed in chapter 11 cases.

Section 213 provides an increase to the quarterly fee imposed in each case filed pursuant to chapter 11 of title 11, United States Code.

Section 214 prohibits the use of funds to plan for, begin, continue, finish, process, or approve a public-private competition under OMB Circular A-76 for work performed by employees of the Bureau of Prisons or of Federal Prison Industries, Incorporated.

Section 215 prohibits U.S. attorneys from simultaneously holding multiple jobs outside of the scope of a U.S. attorney's professional duties.

Section 216 withholds from obligation $25,000,000, until the FBI reports on the results of an integrated baseline review of the Sentinel program and requires a Government Accountability Office review of FBI's baseline.

Section 217 prohibits funds for future phases of the FBI's Sentinel program until the Attorney General certifies to the Appropriations Committees that existing phases currently under contract for development or fielding have completed a majority of the work for that phase under the performance measurement baseline validated by the integrated baseline review.

Section 218 requires that the Attorney General shall submit quarterly reports to the Inspector General of the Department of Justice regarding the costs and contracting procedures relating to each conference held by the Department of Justice during fiscal year 2008 for which the cost to the Government was more than $20,000.

Section 219 authorizes a public or private institution of higher education to offer or provide an officer or employee of any branch of the United States Government or of the District of Columbia, financial assistance for the purpose of repaying a student loan or forbearance of student loan repayment.

Section 220 includes new Native American Methamphetamine Enforcement and Treatment Act of 2007 authorities.

TITLE III

SCIENCE

OFFICE OF SCIENCE AND TECHNOLOGY POLICY

The conference agreement includes $5,184,000, instead of $5,515,000 as proposed by the House and $5,715,000 as proposed by the Senate.

The Appropriations Committees reiterate language included in the Senate report directing OSTP to provide the Committees, 90 days after enactment of the Act, with a strategic budget plan in response to the National Research Council Earth Science Decadal Survey.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

The amended bill provides $17,309,400,000 for the National Aeronautics and Space Administration (NASA) instead of $17,622,500,000 as proposed by the House and $17,459,600,000 as proposed by the Senate. The Senate bill included an additional $1,000,000,000 designated as an emergency requirement. The amended bill does not include this emergency funding.

The Appropriations Committees continue to be concerned about the process of setting NASA priorities through significant funding shifts in revised operating plans rather than through the regular appropriations process. The guidance proposed in the amended bill and this explanatory statement provides a clear base funding level. The Committees must be notified of any deviations that meet the criteria established in section 505. Finally, language is included providing for the transfer of funds between appropriations accounts through the reprogramming process.

The House recommendation to provide funding for the agency in the new account structure is not included. Instead, a general provision is included, section 525, directing NASA to implement this new structure beginning in fiscal year 2009. This will allow the agency sufficient time to implement the new budget structure. The Appropriations Committees are disappointed that NASA chose not to test this new account structure in a timelier manner. The new accounts are: Science, Aeronautics, Exploration, Education, Cross-Agency Support Programs, Space Operations, and Inspector General.

The Appropriations Committees reiterate concern expressed in the House report that NASA is not able to anticipate adequately technical problems and project overruns on existing programs, and are especially concerned that new programs, such as Project Constellation, will encounter similar problems.

Additionally, the Appropriations Committees are concerned about the NASA process that leads to the selection of a course of action when such problems are encountered. Consequently, NASA is directed to establish an ongoing relationship with the National Academy of Sciences for the purpose of providing an independent project review capability using ad hoc committees established under the purview of the Space Studies

Board and/or the Aeronautics and Space Engineering Board. It is expected that these reviews will be arranged through NASA's Office of the Chief Engineer and that the reports prepared by the National Academies will be simultaneously submitted to NASA and the Committees. In the future, the Appropriations Committees do not intend to recommend approval of any major program changes unless an independent review by the National Academies concurs with NASA's proposed course of action. During a review period, NASA should not take any action that would prejudice the pursuit of any of the options under consideration. A total of $1,000,000 is to be allocated from funding provided for Cross-Agency Support Programs to support creation of this review capability. The Committees expect a report on NASA's progress in implementing this directive by March 15, 2008.

The Appropriations Committees are concerned about standardizing the reporting of cost, schedule and content for NASA research and development projects including advanced technology and operational systems upgrades. As a result, the Government Accountability Office (GAO) is directed to prepare project status reports on selected large-scale NASA programs, projects or activities. In undertaking these reports, GAO should follow the guidance it recommended to the Congress in GAO report GAO/NSIAD 90-40.

The Appropriations Committees are concerned about NASA's use of term appointments for civil servant positions. The Committees believe this trend should be examined more closely and directs GAO to audit NASA's use of term positions. Finally, NASA is encouraged to engage in long-term agency-wide workforce planning.

A provision on enhanced-use leasing at NASA facilities is included in the General Provisions, Title V of this Act. The Appropriations Committees believe that this complicated issue requires further investigation by the respective House and Senate authorizing committees. Therefore, the language proposed by the Senate will not become effective until December 31, 2008. In the interim, NASA's current enhanced-use leasing authority will be in effect. A modification has been made to the Senate language, deleting the repeal of the reporting requirements to Congress.

SCIENCE, AERONAUTICS AND EXPLORATION

The amended bill provides $10,543,100,000 for the Science, Aeronautics and Exploration account instead of $10,896,200,000 in a different account structure as proposed by the House and $10,633,000,000 as proposed by the Senate. Within this total, $5,577,310,000 is for science activities, $625,280,000 is for aeronautics, $3,842,010,000 is for exploration systems and $556,400,000 is for cross-agency support programs including education.

The amended bill reduces amounts available for corporate and general administrative expenses by $57,900,000 in this account. These amounts are to be applied proportionally to all amounts within the Science, Aeronautics, Exploration and Cross-Agency Support Programs accounts.

Science.—Within the total amount proposed for Science, Aeronautics and Exploration, the amended bill provides $5,577,310,000 for science activities instead of $5,696,100,000 as proposed by the House and $5,655,200,000 as proposed by the Senate. This level includes a general reduction of $42,090,000. The distribution of this reduction should be outlined in NASA's operating plan, and the reduction should not be applied to any programs, projects, or activities that are specified in this explanatory statement.

The Appropriations Committees are disappointed by the Administration's request of a less than one percent increase for fiscal year 2008 and projected minimal increases of approximately one percent over the next several years. The Nation's investment in research at NASA has made the U.S. the undisputed leader in the study of space and the earth's environment. NASA's programs in space science, Earth science, microgravity science, and astrobiology are the types of basic research investments advocated in the National Academies' Rising Above the Gathering Storm report.

The Appropriations Committees recognize the importance of NASA Earth science research missions to the Nation to advance our ability to monitor climate, weather, and hazards and therefore recommends $40,000,000 for NASA to initiate missions identified in the National Research Council (NRC) report, Earth Science and Applications from Space: National Imperatives for the Next Decade and Beyond. To the extent possible, the initial seven missions should begin in fiscal year 2008. The Earth science decadal survey notes that in 2005, NASA had 18 Earth observation satellites carrying 64 research sensors. Yet in 2007, the capacity is down to 14 missions on orbit, and by 2010 only a few will still be delivering data. Between now and 2010, NASA plans to deploy only five new missions carrying 22 sensors. Currently, NASA's future plans include starting just two new missions every two years. At that rate, NASA Earth observation research missions will have decreased from 18 down to four or five in the next two decades in the 21st century. Further, the Appropriations Committees are supportive of House direction to continue the development of climate sensors. In order to better inform the Committees on its plans for missions in the 2010–2016 timeframe, NASA should include in its fiscal year 2009 budget submission its plan for meeting these unmet needs.

The amended bill includes:

- Not less than $280,000,000 for the Hubble Space Telescope
- Not less than $545,400,000 for the James Webb Space Telescope
- Not less than $90,200,000 for the Global Precipitation Measurement mission
- Not less than $626,400,000 for the Mars Exploration Program
- Not less than $60,000,000 for the Space Interferometry Mission

The Appropriations Committees acknowledge that these sums are only floors. Should additional funding be required, the Committees will work with the agency on a reprogramming of funds.

As noted above, the Appropriations Committees support the $90,200,000 requested for the Global Precipitation Measurement mission. This project will improve our ability to collect important data about hurricanes. This valuable information will allow us to better prepare for powerful storms and help minimize resulting damage.

The amended bill includes an increase of $24,000,000 above the request for the research and analysis program. The program has suffered significant cuts in recent years. This program is important to maintaining the scientific vitality of the agency and also provides opportunities for young scientists and researchers to analyze data collected from current NASA missions. The research and analysis funds should be used to support both in-house and academic research. Further, there has not been an assessment of the appropriate balance between flight missions and research and analysis activities in NASA's space and Earth science programs. Therefore, NASA is directed to enter into an agreement with the National Research Council for an assessment of NASA's research and analysis activities.

A total of $60,000,000, an increase of $38,400,000 above the budget request, has been provided for the Space Interferometry Mission (SIM). The Appropriations Committees disagree with the Administration's budget request of refocusing the Navigator Program to fund only core interferometry and related planet-finding science and reducing SIM to a development program. It should be noted that this mission was recommended by the National Academies Decadal Astrophysics report in 1990 and 2000 and should be considered a priority. With the funds proposed, NASA is to begin the development phase of the program in order to capitalize on more than $300,000,000 already invested by the agency. The SIM program has successfully passed all its technological milestones and is thus ready for development.

The Appropriations Committees await the upcoming results of the NASA study to determine the next outer planet destination and look forward to working with NASA to support funding for an expedient launch of this future mission. The amended bill includes $5,000,000 to define a mission and to assess its scope and cost.

The Appropriations Committees agree with the comments in the House report commending NASA for its robotic Mars program which is one of the agency's most successful programs that has made major scientific discoveries and engaged the public. The Appropriations Committees continue to strongly support a robust Mars Exploration Program with a rate of at least one mission at every opportunity (every 26 months), which is consistent with the Administration's fiscal year 2008 request of $625,700,000. Full funding is provided to: continue operating all present missions (Odyssey, Mars Reconnaissance Orbiter, Spirit, and Opportunity); prepare Phoenix for launch in 2007, Mars Science Lab for a launch in 2009, and Scout in 2011; and to start the definition and development of Mars Science orbiter for launch in 2013, and the Astrobiology Field Lab or Mid size rovers for launch in 2016. NASA is expected to continue with the development and launch of the Mars Science Lab.

The recommendation includes an increase of $15,000,000 above the budget request for the NASA Earth Science Applications Program. This funding increase shall only be used to support new competitively selected applications projects to be selected during fiscal year 2008. These projects will integrate the results of NASA's Earth observing systems and earth system models (using observations and predictions) into decision support tools to serve applications of national priority including, but not limited to: homeland security; coastal management; agriculture efficiency; and water management and disaster management.

The amended bill provides $17,000,000 for the solar probe mission for continued technical risk reduction activities and related studies. NASA is expected to request a new start for this mission in fiscal year 2009.

The amended bill provides $93,000,000 for the magnetospheric multiscale mission, $8,500,000 above the budget request. NASA should maintain the full complement of science instruments for this mission and work aggressively to achieve the desired launch date of 2013.

NASA is directed to provide a plan on all continuity of data for the Landsat Data Continuity Mission (LDCM) to the Appropriations Committees no later than 120 days after enactment of this Act. The amended bill provides $1,000,000 above the budget request for this mission to ensure data continuity.

A critical factor that will affect future robotic missions is the source of power for probes that cannot rely on solar energy because they are traveling too far from the Sun (where solar energy density is inadequate), or too close to it (where solar arrays would be imperiled by the Sun's proximity). Radioisotope Power Systems (RPS) are required for these spacecraft. The Appropriations Committees are aware of concerns by NASA and the Department of Energy that a supply of fuel would not be available. However, NASA has curtailed a major part of its technology development for advanced RPS devices. In order to permit effective planning for future missions, NASA should contract with the National Research Council to prepare a report no later than December 31, 2008 on these issues.

The amended bill includes $2,000,000 above the budget request to ensure continuity of solar flare data.

While new data systems for Earth science missions should be considered, NASA is directed to continue the EOSDIS core system as the operational foundation for Earth science missions.

The Appropriations Committees concur with language in the Senate report regarding the Joint Dark Energy Mission and have provided the budget request of $2,300,000 for this mission. The Committees appreciate the National Research Council's Beyond Einstein Program architecture report and have provided an additional $2,000,000 to begin implementing these recommendations. NASA is directed to conduct and complete an open competition to select a Joint Dark Energy Mission for a fiscal year 2009 new start.

The Appropriations Committees reject the Administration's proposal to transfer the Near Earth Objects (NEO) program from the Science Mission Directorate to the Exploration Mission Directorate.

Further, the Appropriations Committees are concerned that NASA may reduce support for the Arecibo Observatory which is used by NASA to observe and detect NEOs. The Committees believe that this observatory continues to provide important scientific findings on issues of near-space objects, space weather, and global climate change, as well as numerous other research areas. The Committees believe that these endeavors will have scientific merit far beyond the end of the decade. NASA is directed to provide additional funding for the Arecibo Observatory.

In order to assist Congress in determining the optimal approach regarding the Arecibo Observatory, NASA shall contract with the National Research Council to study the issue and make recommendations. As part of its deliberations, the NRC shall review NASA's report 2006 Near-Earth Object Survey and Deflection Study—and its associated March 2007 Near-Earth Object Survey and Deflection Study as well as any other relevant literature. An interim report, with recommendations focusing primarily on the optimal approach to the survey program, shall be submitted within 15 months of enactment of this Act. The final report, including recommendations regarding the optimal approach to developing a deflection capability, shall be submitted within 21 months of enactment of this Act. The NRC study shall include an assessment of the costs of various alternatives, including options that may blend the use of different facilities (whether ground- or space-based), or involve international cooperation. Independent cost estimating should be utilized.

Aeronautics.—Within the total amount proposed for Science, Aeronautics and Exploration, the amended bill provides $625,280,000 for aeronautics activities instead of $700,000,000 as proposed by the House and $554,000,000 as proposed by the Senate. This level includes a general reduction of $4,720,000. The distribution of this reduction should be outlined in NASA's operating plan, and the reduction should not be applied to any programs, projects, or activities that are specified in this explanatory statement.

The Administration's fiscal year 2008 request is insufficient to allow the U.S. to maintain its edge in aeronautics. These programs are critical to U.S. competitiveness, national security, quality of life, and the efficiency and safety of our future national air traffic management systems. The Appropriations Committees expect this priority to be reflected in NASA's fiscal year 2009 budget request.

The continuation of our position as a leader in aviation and aerospace is predicated on our ability to maintain international leadership and sustain growth in aeronautics. Air transportation is important throughout the world, but leadership in upgrading the air transportation system is absolutely vital to the U.S. For these reasons, the Appropriations Committees believe that a portion of the increase above the President's budget request should be applied to the research, development and technology demonstration activities of the Next Generation Air Transportation System (NextGen) to address Air Traffic Management (ATM) needs.

Additionally, the Appropriations Committees expect a portion of this increase to address the top-ranked priorities of the National Academies' Decadal Survey of Civil Aeronautics. The report presents findings and recommendations on several important technological breakthroughs that the NASA aeronautics research program should focus on during the next decade. Some of the technological challenges need to be addressed if the United States is to realize necessary increases in capacity, safety, security and environmental compatibility of its air transportation system and enable high-speed civil travel and maintain U.S. leadership.

Finally, additional funding is proposed to carry out, with the goal of demonstrating in a relevant environment, research and development on engines and airframes that will result in significantly reduced energy consumption, emissions, and noise. NASA is directed to utilize a portion of these funds for the development of a "green aircraft initiative." In addition, NASA should utilize additional intramural capacity for technology readiness level activity above the current cap for these and other aeronautics initiatives, and report back to the Appropriations Committees about its efforts to increase investment in this fashion through detailed information proposed in the operating plan.

The Appropriations Committees are concerned by NASA's handling of the National Aviation Operations Monitoring Service (NAOMS) project and NASA's initial refusal to release the data. The Committees believe that a comprehensive, longitudinal survey tool and database to help identify accident precursors and aviation safety trends would be a useful addition to existing aviation safety databases. From within additional funds provided for aeronautics, NASA is directed to revalidate the NAOMS survey methodology and, if needed, to restart the NAOMS survey data collection activity as well as identify trends that may emerge. NASA should provide a report to the Congress within 90 days of enactment of this Act on its plans for completing the validation of the survey methodology and restarting the NAOMS survey data collection.

Exploration.—Within the total amount proposed for Science, Aeronautics and Exploration, the amended bill provides $3,842,010,000 for exploration activities instead of $3,923,800,000 as proposed by the House and $3,972,490,000 as proposed by the Senate. This level includes a general reduction of $28,990,000. The distribution of this reduction should be outlined in NASA's operating plan, and the reduction should not be applied to any programs, projects, or activities that are specified in this explanatory statement.

Within the amounts provided for exploration, $950,800,000 is for the Crew Exploration Vehicle, $1,224,800,000 is for the Crew Launch Vehicle, and $271,500,000 is for the Lunar Precursor Robotic Program (LPRP), of which $42,000,000 is for the lunar lander mission.

The Appropriations Committees believe that the program, management offices, and missions associated with LPRP are essential to the success of the anticipated manned missions to the Moon. Within funds provided for LPRP, $209,500,000 shall be for the Lunar Reconnaissance Orbiter and $20,000,000 shall be for the LPRP management office. The management office associated with LPRP shall also be directly involved in the planning and oversight of future lunar robotic missions, integrating lunar data from NASA and other international missions, oversee technology development, support the Lunar Architecture Team, and lead NASA's public outreach and education activities for understanding the lunar environment.

In 2005, NASA selected a team for the development of a lunar lander spacecraft consistent with the goals set forth in the Administration's Renewed Spirit of Discovery and the National Aeronautics and Space Administration Authorization Act of 2005 (Public Law 109–155) which called for a robust lunar robotic program, including robotic lunar landers. The National Research Council's report: The Scientific Context for Exploration of the Moon further supports robotic precursor missions to the Moon's surface and the valuable scientific resource such missions will provide for returning humans to the Moon. The Appropriations Committees agree that the NASA selected mission is of critical importance for the exploration vision. For this purpose, $42,000,000 is provided for this lunar lander mission.

Although NASA has claimed that a shortfall of more than $600,000,000 (under the new full cost system) exists as a result of the funding provided for exploration in the fiscal year 2007 joint resolution, the NASA Administrator testified at budget hearings on the Administration's budget request that no additional funds were needed in fiscal year 2008 and in fact, there would be carryover balances for the Crew Exploration Vehicle (CEV) in this account. Although NASA's plan to bankroll funds fell short in fiscal year 2008, these funds, which are not actually needed until fiscal years 2009 and 2010, can be made up in future budget requests. NASA is pointing to this temporary reduction of funds as the reason the CEV will be delayed by approximately six months. The Appropriations Committees believe, however, that it is fully within the power of the Administration to request sufficient funds in NASA's fiscal year 2009 and fiscal year 2010 budget submissions to Congress to maintain the CEV schedule and urge NASA to do so.

The amended bill provides $160,000,000 for the Commercial Orbital Transportation Services (COTS) program, which is intended to demonstrate private sector technologies that could potentially resupply the International Space Station in the future. However, the Appropriations Committees note that one of the two COTS contracts is currently in dispute, and are concerned by NASA's recent decision to re-compete the disputed contract before all challenges have been resolved. In doing so, NASA could potentially create a liability to fund three proposals instead of two as originally envisioned, increasing the costs of this program to the taxpayers. Therefore, NASA is directed not to select a new contractor until all challenges are decided. Further, the Government Accountability Office (GAO) is directed to perform a full review of COTS program expenditures and management.

Achieving the goals of the Exploration Initiative will require a greater understanding of life and physical sciences phenomena in microgravity as well as in the partial gravity environments of the Moon and Mars. Therefore, the Administrator is directed to enter into an arrangement with the National Research Council to conduct a "decadal survey" of life and physical sciences research in microgravity and partial gravity to establish priorities for research for the 2010–2020 decade. Further, within amounts provided, NASA is directed to increase the amount for non-exploration microgravity life and physical sciences research by $13,500,000. These funds are for non-multi-user support and services activities.

NASA should include specific funding recommendations for the National Space Biomedical Research Institute in future budgets.

Finally, bill language is included, as proposed by the House, prohibiting funding of any research, development, or demonstration activities related exclusively to the human exploration of Mars.

Cross-Agency Support Programs.—Of the amounts provided for Science, Aeronautics and Exploration, the amended bill provides $556,400,000 for cross-agency support programs, including education. This level includes a general reduction of $4,200,000. The distribution of this reduction should be outlined in NASA's operating plan, and the reduction should not be applied to any programs, projects, or activities that are specified in this explanatory statement.

Within the amounts provided, $1,000,000 is for the creation of a review capability at the National Academies and the amended bill also provides the full budget request of $2,500,000 for the continued operations of the NASA National Technology Transfer Center. Also, within the amount provided for corporate general and administrative costs, the Appropriations Committees recommend no less than the fiscal year 2007 level for the NASA Independent Verification and Validation Program.

Of the reductions made to corporate general and administrative, $300,000 shall be derived from equal reductions to both the Office of Legislative and Intergovernmental Affairs, and the Office of the Chief Financial Officer.

The amended bill does not provide any new funding in fiscal year 2008 for the Centennial Challenges program. The funding proposed in previous fiscal years for this program is sufficient for NASA to run this prize-based competition. Providing additional funds to a program based on prizes only creates a sizeable amount of unused funds while other aspects of NASA's mission are being cut or delayed due to a lack of funds.

The following is a list of congressional directives. Funds for these directives shall come from Cross-Agency Support Programs, rather than from the various mission directorates.

Adler Planetarium, Chicago, IL, for science and education programming for teachers and students	260,000
Adler Planetarium's Space Exploration Center	940,000
Alabama A&M University, Normal, AL, to provide a comprehensive, diverse, and flexible pool of talent at lower labor rates in the civil service environment to facilitate research and development, studies and analyses of all areas of higher temperature advanced materials research and development	564,000
Alliance for NanoHealth, Houston, TX, to facilitate the translation of nanotechnology from the laboratory to clinical practice	846,000
Arkansas Center for Space and Planetary Sciences in Fayetteville, AR, for research and technology	267,900
Baylor Physical Sciences Laboratory enhancement at Baylor University	658,000
Bio-Info-Nano Research and Development Institute at University of California, Santa Cruz	282,000
Burlington County College Science Learning Center	1,504,000
Center for Sustainable Life Support for Human Space Exploration	376,000
Chesapeake Information Based Aeronautics Consortium, Maryland, for a partnership of Morgan State University, University of Maryland Eastern Shore and Bowie State University, MD, for continued aviation safety research and development	3,572,000
Colorado State University, Fort Collins, CO, for equipment	267,900
Connecticut State University, City of New Britain, CT, for an initiative to bring greater awareness of mechanical engineering and aerospace disciplines to disadvantaged high school students	133,950
Development of photovoltaic capacity at Plum Brook Station	1,175,000
Distance learning program at Fairmont State University	846,000
Educational Advancement Alliance Math, Science, and Technology Program	1,880,000
Expansion of the Cimmarusti/NASA Science Center Teacher Training and Science Education Outreach Program	235,000
Flight Research Training Center, Roswell, NM, for program to detect, mitigate and recover from loss of control accidents in aircraft	1,786,000
Grand Valley State University, Allendale, MI, for the West Michigan Science and Technology Institute's Biosciences Research and Commercialization Project	133,950
Gulf Coast Exploreum, Mobile, AL, to stimulate increased enrollment in engineering, mathematics, and science in Alabama's universities by instructing and inspiring K–12 students in the fundamentals and application of these fields	235,000
Human-Robot Teams at Texas A&M University ...	705,000
Idaho State University, Pocatello, ID, use earth observations to investigate the effect of land management decisions ...	141,000
Imiloa Astronomy Center, Hilo, HI, for operations ..	1,339,500
Independent Verification and Validation research program	540,500
Institute for NanoBio Technology, Johns Hopkins University, Baltimore, MD, for breakthrough research in nano-bio technologies	1,786,000
Jacksonville State University, Jacksonville, AL, for a tool for educators to allow their students to reach their full potential through participation in exciting hands on projects. The projects are dynamic in scope and are structured to be less time restrictive on the classroom schedule and the educator though self-directed curriculum	235,000
K–12 Science Education Enhancements at Middle Tennessee State University	94,000
Large Millimeter Telescope at the University of Massachusetts, Amherst	705,000
Loma Linda University Space Radiation Health Research Program	2,444,000

Manned Space Flight Education Foundation, Houston, TX, to bring extensive learning opportunities to teachers, students and youth organizations throughout our Nation utilizing educational technology with Web casting, two-way videoconferencing and the Internet. The program seeks to inspire the next generation of explorers that would otherwise never have the opportunity to experience space exploration	282,000
Marshall Space Flight Center, Huntsville, AL, to develop a cost effective nuclear power system to support the long-range objectives of NASA for missions to the moon, to Mars and to deep space	1,645,000
Marshall Space Flight Center, Huntsville, AL, to help NASA/MSFC accomplish its current and future missions by providing critical information on composite materials as they relate to the NASA space exploration programs	1,410,000
Marshall Space Flight Center, Huntsville, AL, to produce a common intelligent sensor module through the near-term development of the sensor technologies and integration algorithms necessary for on-orbit assembly and other AR&D missions	1,175,000
Marshall Space Flight Center, Huntsville, AL, to provide a secure, retrievable storage solution for Marshall's Data Center that will meet all Presidential Directives	940,000
Marshall Space Flight Center, Huntsville, AL, to provide critical, breakthrough technology to NASA for materials development, testing, and safety improvements to the Space Shuttle and Ares launch systems	1,175,000
Marshall Space Flight Center, Huntsville, AL, to support the ongoing technology maturation program for liquid oxygen/liquid methane propulsion technology	470,000
Marshall University, Huntington, WV, to support NASA-related composites training at the Composites Technology and Training Institute in Bridgeport, WV	2,232,500
Maryland Department of Business and Economic Development, Baltimore, MD, for continued construction of a broadband link between the Wallops Island Flight Facility and the Patuxent River Naval Air Station	3,572,000
McWane Science Center, Birmingham, AL, for a program will focus on increasing interest and aptitude in the science fields in K-12 students through hands-on activities that will serve as an extension of the classrooms. Teacher training will also play a major role	235,000
Micronauts Education Simulator at Wheeling Jesuit University	282,000
Mid-Atlantic Cooperative, Danville, VA, for installation of broadband on the Eastern Shore of Virginia	1,786,000
Mid-Atlantic Institute for Space Technology, Pocomoke City, MD, for UAV testing and certification	223,250
Mid-Atlantic Regional Spaceport, Wallops Island, VA, for infrastructure improvements to launch facilities	223,250
Morehouse College Project Mars Program	188,000
Nano/Micro Devices Laboratory at the University of Alabama-Huntsville	611,000
NASA Exchange City Learning Lab	188,000
NASA Johnson Space Center, Houston, TX, for computer operations and improvements	564,000
National Center for Remote Sensing, Air, and Space Law, University, MS, to provide legal research and outreach on critical space and aviation law issues	2,820,000
National Youth Science Foundation	258,500
New Mexico State University, Las Cruces, NM, for the Southern New Mexico Science, Engineering, Mathematics, and Aerospace Academy for a space education program to meet the math and science learning needs of under-represented K-12 students	178,600
Pittsburgh Engineering Initiatives, Pittsburgh, PA, to further development of regenerative treatments for astronauts	267,900
Research on Aviation Training at Middle Tennessee State University	470,000
Robotic Exploration Technologies in Astrobiology, Global Undersea Research Unit, University of Alaska, Fairbanks	282,000
Robotics and Exploration Testbed at Marshall Space Center	4,089,000
Rochester Institute of Technology, Rochester, NY, for a Integrated Sensing Systems Testbed (ISST) to develop, demonstrate, and validate advanced techniques for situational awareness	178,600
Science, Engineering, Mathematics and Aerospace Academy at York College	188,000
Science, Technology, Engineering, and Mathematics Center at Tennessee Tech University	752,000
Southeast Missouri State University, Cape Girardeau, MO, Enhancement of K&ndash;12 teaching and learning of sciences, math, and technology among schools, teachers, and students	846,000
Southern Research Institute, Birmingham, AL, for the development of laboratory-based test methods and test standards for coupon and component level characterization; development of subcomponent testing capabilities for material, component and system characterization; development and qualification of modeling and simulation techniques for these applications; and development of an integrated modeling and testing approach for evaluation and optimization of new material concepts	940,000
Space Engineering Institute at Texas A&M University	352,500
St. Louis University, St. Louis, MO, for immunology research that will complement NASA research on the immune system in microgravity	846,000
Stennis Space Center, MS, to continue a longstanding technology/industry partnership in assisting in transitioning space technologies into the commercial sector	3,760,000
Stennis Space Center, MS, to support infrastructure improvements for Crew Exploration Vehicle testing	2,820,000
Teach for America, New York, NY to engage teachers in science, technology, engineering and mathematics	2,350,000
Thurgood Marshall College Fund Minority NASA Science Initiative	940,000

Tulane University, New Orleans, LA, for ongoing applied polymer technology research and development that links NASA with Louisiana's polymer industry and the State's academic polymer research programs ...	446,500
U.S. Space and Rocket Center, Huntsville, AL, for completion of a long overdue update for the museum and exhibits will provide a more stimulating and effective presentation of the history of our nation's space exploration efforts and will serve to stimulate increased interest in science and technology ..	470,000
University of Alabama in Huntsville, Huntsville, AL, to provide research that will provide both fundamental insight into the combustion behavior of this fuel with liquid oxygen which will assist in realizing its full performance potential and will train the next generation of propulsion scientists and engineers who will work for or support NASA in implementing the chosen engine designs	1,410,000
University of Alabama, Tuscaloosa, AL, to conduct the fundamental and applied research needed to develop effective near-space technologies for stationkeeping	470,000
University of California Santa Cruz, Santa Cruz, CA, to continue the establishment of the Center at NASA Ames Research Center in collaboration with UC Santa Cruz	446,500
University of Louisville, Louisville, KY, for technology that assists trauma victims without immediate access to emergency medical care, including astronauts	1,222,000
University of Maryland, Baltimore County, MD, for environmental remote sensing	1,786,000
University of Maryland, College Park, MD, for the Maryland Institute for Dextrous Robotics for the creation of a new generation robotic technology for space exploration	2,679,000
University of Nebraska, Lincoln, Lincoln, NE, to help establish a degree program in space and telecommunications law	1,786,000
University of Northern Iowa, Cedar Falls, IA, to improve the use of geospatial data by State and local governments ...	613,000
University of Redlands Education Technology Program	470,000
University of Vermont, Burlington, VT, for the UVM Center for Advanced Computing	1,700,000
Upper Midwest Aerospace Consortium at the University of North Dakota, Grand Forks, ND, to help make data received from NASA satellite images accessible to the public for management decisions	2,679,000
Utah State University Research Foundation, Logan, UT, To develop a modern infrared calibration capability for current and future remote sensing instruments	376,000
Wheeling Jesuit University, Wheeling, WV, to expand the reach of the HealtheWV program, an electronic medical records system	2,679,000
Wichita State University, Wichita, KS, to improve facilities and equipment at the National Center for Advanced Materials Performance (NCAMP), which provides shared-database methodology addressing material, structural, manufacturing, and repair qualification processes for use of affordable polymeric composite materials in commercial and military applications	329,000
Women in Science and Engineering Scholars Program at Spelman College	188,000

Education.—The amended bill provides $180,000,000 for education instead of $220,300,000 as proposed by the House in its account structure and $149,500,000 as proposed by the Senate.

The amended bill includes an additional $3,243,000 for a total of $15,500,000 for the Experimental Program to Stimulate Competitiveness in Research (EPSCoR) program. This will help the 27 EPSCoR jurisdictions contribute to innovation and competitiveness initiatives and other efforts as well as fund the administrative costs of the program.

The amended bill also includes an additional $7,664,000 for a total of $43,200,000 for the Space Grant College and Fellowship program and the associated administrative costs of the program. The amount proposed will fund 35 states or jurisdictions at $750,000 each and 17 states or jurisdictions at $550,000 each. The Space Grant program is a nationwide network of over 800 universities and colleges and affiliates including research and development centers and business partners. Space Grant helps introduce young people to the exciting world of space and engineering, thereby opening the door to future involvement in scientific or high technology jobs.

The amended bill also includes an additional $9,400,000 for a competitive program as authorized by section 616 of P.L. 109–155 for science museums and planetariums to enhance programs related to space exploration, aeronautics, space science, earth science or microgravity.

The amended bill also includes an additional $14,100,000 for a competitive education grant program. These grants shall be awarded to public schools and non-profit organizations on a competitive basis. NASA is directed, no later than 90 days after enactment of the Act, to report to the Committees the criteria it will use in reviewing and ranking grant proposals.

The amended bill also includes $8,500,000 for a competitive program to educate students on global climate change as recommended in the National Academies' Earth Decadal survey.

Although no additional funds have been specifically provided for the NASA Graduate Students Research Program, or for a competitive program as authorized by section 431 of P.L. 109–155 for engineering scholarships, NASA is urged to consider providing additional funds.

To the extent possible, NASA is urged to use education funds to address the educational needs of women, minorities, and other historically underrepresented groups.

The Committees provide the full budget request for the Classroom of the Future.

The amended bill provides $7,000,000 for the development of educational activities at NASA's field centers, as proposed by the Senate, and direct NASA to distribute this amount in equal $700,000 increments to each center's official visitor center for the development of educational activities in science, technology, engineering, and mathematics, including exhibits.

Below is a table of funding levels provided for the various missions and themes. Some additional items have been included for emphasis.

EXPLORATION CAPABILITIES

The amended bill provides $6,733,700,000 for the Exploration Capabilities account instead of $6,691,700,000 as proposed by the House in a similar structure entitled "Space Operations" and $6,792,000,000 as proposed by the Senate.

Of the amount provided, $4,000,000,000 is for space shuttle activities and $2,220,000,000 is for space station activities.

According to NASA's budget request, the content and estimates for the space shuttle transition and retirement will be further defined in the fiscal year 2009 budget submission to Congress. The Appropriations Committees are concerned about this immense and unprecedented undertaking of transitioning assets and facilities to another NASA program, for external use, or for disposal, as well as the transitioning of the space shuttle workforce. The Committees direct the Government Accountability Office (GAO) to begin an immediate and ongoing review of NASA's plans and progress in this area and expect to receive quarterly updates beginning 30 days after enactment of this Act.

Within the amounts provided, the amended bill provides $2,500,000 for the Deep Space Network (DSN) for initial implementation of the Space Communication Architecture Working Group's recommendations. NASA's Apollo era infrastructure is of concern. The condition of the aging and fragile Deep Space Network (DSN) is especially disconcerting. According to GAO, this system, which has some crucial components more than 40 years old, has lost science data during routine operations and critical events. NASA began early studies of DSN upgrade options in 2000, but has yet to put forth a budget request to refurbish the existing network or provide for a new generation DSN. Although the agency states that funding will be requested as a part of the fiscal year 2009 submission to Congress, the Committees believe that it is critical to start upgrades to this system as soon as possible.

The Administrator is directed to study the possibility of delivering the Alpha Magnetic Spectrometer (AMS) to the International Space Station. Not only will this mission enable researchers to prepare NASA and our international partners for future space exploration, it has widespread support in Congress. This study shall be submitted to the Appropriations Committees within 30 days of enactment of the Act and should include the steps necessary to prepare for such a mission.

(In millions of dollars)

Exploration Capabilities	*$6,733.7*
Space Operations	*6,765.7*

OFFICE OF INSPECTOR GENERAL

The amended bill provides $32,600,000 for Office of Inspector General, instead of $34,600,000 as proposed by both the House and the Senate.

RETURN TO FLIGHT

The amended bill provides no funding for Return to Flight as an emergency designation as proposed by the Senate. The House did not propose a similar provision.

ADMINISTRATIVE PROVISIONS

(INCLUDING TRANSFER OF FUNDS)

The amended bill includes provisions regarding construction of facilities at NASA, including the availability of funds.

The amended bill includes a provision regarding prizes.

The amended bill includes a provision on transfer of funds.

The amended bill includes a provision prohibiting funds to be used to implement any Reduction in Force or other involuntary separation prior to September 30, 2008.

The amended bill includes a provision regarding space shuttle transition.

The amended bill includes a provision regarding its budget justifications. The Appropriations Committees continue to be disappointed in the lack of detail provided in NASA's annual congressional budget justification document. Budget justifications are critical to the Committees' ability to make informed decisions concerning the administration's funding requests and must be submitted in a format with the greatest level of detail possible. Therefore, the amended bill includes language that stipulates the minimum acceptable details for each fiscal year budget submission. NASA shall submit to the House and Senate Appropriations Committees, no later than January 4, 2008, a template for its fiscal year 2009 budget justification document that complies with this direction.

In previous years, NASA has chosen to make major programmatic decisions through comprehensive operating plans. While such changes are allowed, it is the view of the Appropriations Committees that this should not be a regular occurrence. Instead, after an initial operating plan has been submitted, individual reprogramming letters should be utilized for minor adjustments in programs as they arise and only in exceptional circumstances should additional comprehensive measures be taken. Any reprogramming or operating plan request submitted shall contain a detailed explanation of where each adjustment of funds is proposed to be taken from, the exact destination of those funds, and the extenuating circumstances that have arisen to cause a need for the reprogramming of funds. Also, for fiscal year 2009 and each year thereafter, NASA is directed to include the out-year budget impacts in all reprogramming requests.

The amended bill includes a provision that requires NASA to provide the NASA Inspector General a quarterly report on conferences and meetings that exceed $20,000 in total cost. The Inspector General shall analyze these reports, make recommendations if necessary, and provide a report citing each occurrence and recommendation to the House and Senate Appropriations Committees no later than September 30, 2008.

NATIONAL SCIENCE FOUNDATION

The amended bill provides a total of $6,065,000,000 for the National Science Foundation instead of $6,499,000,000 as proposed by the House and $6,553,400,000 as proposed by the Senate.

RESEARCH AND RELATED ACTIVITIES

The amended bill provides $4,821,474,000 for research and related activities at the National Science Foundation instead of $5,139,690,000 as proposed by the House and $5,156,090,000 as proposed by the Senate.

The amended bill includes language making up to $57,000,000 available for the procurement of icebreaking services. The Coast Guard shall only be reimbursed for those sums agreed to in the existing memorandum of agreement.

The amended bill provides $8,000,000 above the requested amount for EPSCoR from within amounts available in this account. The House had proposed this level above the request and the Senate proposed $10,470,000 above the request for this account. Of the additional amount, at least $4,000,000 is for Research Infrastructure Improvements and at least $1,000,000 is for co-funding. As stated in the House report, the Committees are pleased that the Director has chosen to give higher visibility to the EPSCoR program by relocating it to the Office of Integrative Activities within the Office of the Director.

The Appropriations Committees strongly support increases for the math and physical sciences, computer sciences, and engineering directorates in fiscal year 2008 for research and related activities (R&RA). However, the Committees also believe the Foundation should maintain comparable growth in fiscal year 2008, to the extent possible, for the biological sciences and social, behavioral and economic sciences directorates. Each of the science disciplines is valuable in maintaining U.S. competitiveness. The Committees urge NSF to provide each directorate with funding levels that are consistent with the goals of the America COMPETES Act and look forward to the Foundation's operating plan in addressing these concerns.

Transformative research is considered to be both revolutionary and "cutting edge." While the Foundation currently conducts research that could be considered transformational, several reports including the National Science Board's (NSB) Enhancing Support of Transformative Research at the National Science Foundation notes that no funds are dedicated for this express purpose. The Appropriations Committees direct the Foundation to review current practices supporting the solicitation of, and the support of, transformational proposals. The Foundation shall provide a report regarding this review to the Committees on how this emerging area can be addressed, 90 days after enactment of this Act, and provide semi-annual reports with any updates thereafter. The initial report should include the Foundation's definition of transformative research.

The Appropriations Committees endorse the language in the House report expressing concern with the current status and future outlook for the academic research fleet and for other critical physical infrastructure improvements at older NSF facilities. Too often, agencies neglect routine infrastructure improvements of older facilities and programs. As described in the House language, the Foundation is directed to allocate additional resources for physical infrastructure improvements at the facilities noted, and request additional money in fiscal year 2009 to alleviate the shortfall in academic fleet funding.

The loss of buying power resulting from the decline of the dollar and other commodity-related impacts such as the recent dramatic increase in the cost of oil and steel is of concern to the Committees. Taken together these two factors seriously affect many of the international programs operated by the NSF. These include the Arctic and Antarctic programs, earth, ocean, and atmospheric programs, and both radio and optical telescope facilities operated at various locations worldwide. The NSF should provide a report to the Committees within 90 days after the enactment of this Act on current actions and future plans, including an analysis of establishment of a currency and commodity internal reserve fund, to address this issue.

The Appropriations Committees express concern over the conclusions of the NSF's Division of Astronomical Sciences Senior Review with regard to the Arecibo Observatory. The Committees believe that this Observatory continues to provide important scientific findings on issues of near-space objects, space weather, and global climate change, as well as numerous other research areas. The Committees believe that these endeavors will have scientific merit far beyond the end of this decade. As such, the Committees hope the Division of Astronomical Sciences will reconsider its conclusions regarding future funding for the Arecibo Observatory. In addition, the Appropriations Committees direct the Foundation to provide the budget request for operations at its astronomical facilities.

The Appropriations Committees believe that while both the Science and Technology Policy Institute (STPI) and RaDiUS serve a useful purpose, the funds provided within the budget for NSF have been solely provided for use by the Office of Science and Technology Policy (OSTP). Bill language has been included that provides funds via transfer to OSTP for costs associated with the use of STPI and RaDiUS. The Committees note that because it is OSTP that primarily utilizes STPI and RaDiUS for its activities, OSTP should request funds in its own budget rather than having funds earmarked within NSF. NSF is directed to charge OSTP the same overhead rates as is done for any activities initiated by other federal agencies. NSF shall notify the House and Senate Appropriations Committees prior to initiating any activities on behalf of OSTP. Further, in future years, OSTP is expected to request funds for the use of STPI and Radius as part of its budget request.

Finally, the National Science Foundation is directed to await the report on service science and its merits by the National Academies, as required in P.L. 110–69, before it evaluates the applicability of such research to the mission of NSF.

MAJOR RESEARCH EQUIPMENT AND FACILITIES CONSTRUCTION

The amended bill provides $220,740,000 for the Major Research Equipment and Facilities Construction account, instead of $244,740,000 as proposed by the House and by the Senate.

EDUCATION AND HUMAN RESOURCES

The amended bill provides $725,600,000 for the Education and Human Resources account, instead of $822,600,000 as proposed by the House and $850,000,000 as proposed by the Senate.

NSF not only includes research, but also shares in the responsibility for promoting quality math and science education as intertwining objectives at all levels of education across the United States. Math and science educators play a major role in keeping the U.S. competitive in the 21st century. Increasing the number of highly qualified K-12 math and science teachers is critical to the creation of a new generation of innovators. Recommendations included in the National Academies' Rising Above the Gathering Storm report discussed the importance of expanding programs to enhance the undergraduate education of the future science and engineering workforce. Within the amounts provided, an additional $5,000,000, for a total of $15,000,000, shall be provided for the Robert Noyce Scholarship program. The House had proposed $36,000,000 above the budget request and the Senate had proposed $15,000,000 above the budget request for this activity. The Robert Noyce Scholarship program encourages talented Science, Technology, Engineering, and Mathematics (STEM) undergraduate students and postgraduate professionals to become K-12 mathematics and science teachers.

The Math and Science Partnership program remains a high priority of the Committees. The Math and Science Partnership program provides for the collaboration between pre-college and college to promote excellence in teaching and learning.

The Committees reiterate the direction provided in the House report that the Foundation provide the Committees with a detailed breakdown of funding disbursements for fiscal year 2006 and urge NSF to work within its peer-review process for these programs to incorporate rural communities, universities, and school districts.

The Committees are strongly supportive of the following programs and urge the Foundation to provide funding at the requested level for these programs: the Undergraduate/Graduate Student Support account and the Graduate Teaching Fellowships in K-12, the NSF Academies for Young Scientists, Historically Black Colleges and Universities (HBCUs), the HBCU Undergraduate Program, the Louis Stokes Alliance for Minority Participation (LSAMP), the Tribal Colleges and Universities Program (TCUP) and the STEM Talent Expansion program.

Further, the Committees support the Foundation's request for the Advanced Technological Education (ATE) and the Centers of Research Excellence in Science and Technology (CREST). The conferees urge the Foundation to broaden Hispanic participation and expect that NSF will begin to address this issue in its operating plan.

Finally, the amended bill does not provide funds for Earth observation education and training as proposed by the House.

AGENCY OPERATIONS AND AWARD MANAGEMENT

The amended bill provides $281,790,000 for the Agency Operations and Award Management account, instead of $275,590,000 as proposed by the House and $285,590,000 as proposed by the Senate.

OFFICE OF THE NATIONAL SCIENCE BOARD

The amended bill provides $3,969,000 for the National Science Board, instead of $4,030,000 as proposed by both the House and the Senate.

OFFICE OF INSPECTOR GENERAL

The amended bill provides $11,427,000 for Office of Inspector General, instead of $12,350,000 as proposed by both the House and the Senate.

TITLE IV

RELATED AGENCIES

COMMISSION ON CIVIL RIGHTS

SALARIES AND EXPENSES

The amended bill provides $8,460,000 for the salaries and expenses of the Commission on Civil Rights, instead of $9,000,000 as proposed by both the House and the Senate.

The Appropriations Committees have serious reservations about the Commission's current capacity and commitment to fulfilling its civil rights mission in a fair and effective manner. The Commission continues to grapple with leadership accountability issues, including management and operational deficiencies. It is expected that the Commission will more effectively support its regional and grassroots network, including the State Advisory Committees. It is further expected that the Commission will establish fair and transparent policies and procedures to ensure the objectivity of written Commission reports.

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

SALARIES AND EXPENSES

The amended bill includes $329,300,000 instead of $332,748,000 as proposed by the House and $378,000,000 as proposed by the Senate.

The Equal Employment Opportunity Commission (EEOC) is directed to provide a spend plan within 60 days after enactment on the investments the Commission intends to make to reduce the backlog and to handle call intake during transition after the closing of the National Contact Center. Funds have been provided above the request to upgrade telephone technology in the Commission's offices and hire staff in its field offices to address calls from the public. The Commission is commended for beginning the termination of the National Contact Center and transfer of its functions back into district offices. However, this transition is taking longer than necessary. The Commission had indicated that the transition would be completed by the end of 2007. Therefore, if any funds are used for operation of the National Contact Center beyond February 1, 2008, the Appropriations Committees expect to be notified and consulted.

The Inspector General is directed to submit, within 90 days of enactment of this Act, an evaluation of the impact the EEOC's repositioning plan has had on the delivery of core services. The report should include an evaluation of cost savings attributable to the repositioning, and the impact that the repositioning has had on the EEOC's capacity to deter, detect, and litigate violations of the Nation's civil rights laws.

INTERNATIONAL TRADE COMMISSION

OPERATIONS AND ADMINISTRATION

The amended bill includes $68,400,000 as proposed by the House and Senate for the International Trade Commission (ITC).

LEGAL SERVICES CORPORATION

PAYMENT TO THE LEGAL SERVICES CORPORATION

The amended bill includes $350,490,000 for payment to the Legal Services Corporation (LSC), instead of $377,000,000 as proposed by the House, and $390,000,000 as proposed by the Senate. Within the funds provided, $332,390,000 is for basic field programs, to be used for competitively awarded grants and contracts; $3,000,000 is for the Inspector General; $12,500,000 is for management and administration; $2,100,000 is for client self-help and information technology; and $500,000 is for loan repayment assistance.

Current LSC locality pay represents reasonable compensation for LSC officers and employees, and language is included to authorize the continuation of locality pay.

ADMINISTRATIVE PROVISION—LEGAL SERVICES CORPORATION

The amended bill includes bill language to continue the terms and conditions included under this section in previous appropriations Acts.

MARINE MAMMAL COMMISSION

SALARIES AND EXPENSES

The amended bill includes $2,820,000 for the Marine Mammal Commission instead of $3,000,000 as proposed by both the House and the Senate.

NATIONAL VETERANS BUSINESS DEVELOPMENT CORPORATION

SALARIES AND EXPENSES

The amended bill includes $1,410,000 for the National Veterans Business Development Corporation (TVC) instead of $2,500,000 as proposed by the House, and no funding as proposed by the Senate.

The amended bill includes report language directing TVC to submit a spend plan to both the House and Senate Committees on Appropriations outlining the allocation of funding provided; the plan should describe the level of funding proposed to be used for overhead costs, salary, benefits, and the distribution of funds among the Corporation's existing places of operations:

OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

SALARIES AND EXPENSES

The amended bill includes $44,120,000 for the Office of the United States Trade Representative instead of $48,407,000 as proposed by the House and $47,800,000 as proposed by the Senate. The Committees support the USTR's pursuit of an active trade agenda and an increased focus on intellectual property protection in China, including full staffing of the new office in Beijing, and the filling of attorney vacancies.

The amended bill includes language in the House report regarding CAFTA and directs USTR to submit a report. The amended bill includes language in the Senate report regarding WTO Appellate Body ruling regarding the Continued Dumping and Subsidy Offset Act (P.L. 106-307). The amended bill includes report language as proposed by the Senate, regarding negotiations within the WTO.

The amended bill includes report language in the House report directing the USTR to provide a report to the Appropriations Committees on Russia's progress in complying with intellectual property commitments and a report on the WTO negotiations concerning textiles and apparel.

STATE JUSTICE INSTITUTE

SALARIES AND EXPENSES

The amended bill provides $3,760,000 for the salaries and expenses of the State Justice Institute, instead of $4,640,000 as proposed by the House, and $3,500,000 as proposed by the Senate. Of the amount appropriated, $470,000 may be used for strategic initiatives that will have national implications for the courts.

TITLE V

GENERAL PROVISIONS

The amended bill includes the following General Provisions:

Section 501—The amended bill includes section 501 regarding the use of appropriations for publicity and propaganda purposes.

Section 502—The amended bill includes section 502 regarding the availability of appropriations for obligation beyond the current fiscal year.

Section 503—The amended bill includes section 503 regarding the use of funds for consulting purposes.

Section 504—The amended bill includes section 504 providing that should any provision of the Act be held to be invalid, the remainder of the Act would not be affected.

Section 505—The amended bill includes section 505 regarding the policy by which funding available to the agencies funded under this Act may be reprogrammed for other purposes.

Section 506—The amended bill includes section 506 prohibiting construction, repair, overhaul, conversion, or modernization of National Oceanic and Atmospheric Administration ships outside of the United States.

Section 507—The amended bill includes section 507 prohibiting funds in the bill from being used to implement, administer, or enforce any guidelines of the Equal Employment Opportunity Commission (EEOC) similar to proposed guidelines covering harassment based on religion published by the EEOC in October 1993.

Section 508—The amended bill includes section 508 regarding the purchase of American made products.

Section 509—The amended bill includes section 509 that requires agencies to provide quarterly reports to the Appropriations Committees regarding unobligated balances.

Section 510—The amended bill includes section 510 requiring agencies and departments funded in this Act to absorb any necessary costs related to downsizing or consolidation within the amounts provided to the agency or department.

Section 511—The amended bill includes section 511 regarding the sale or export of tobacco or tobacco products.

Section 512—The amended bill includes section 512 that prohibits a user fee from being charged for background checks conducted pursuant to the Brady Handgun Control Act of 1993, and prohibits implementation of a background check system which does not require or result in destruction of certain information.

Section 513—The amended bill includes section 513 regarding amounts available under the Crime Victims Fund.

Section 514—The amended bill includes section 514 prohibiting the use of Department of Justice funds for programs that discriminate against, denigrate, or otherwise undermine the religious beliefs of students participating in such programs.

Section 515—The amended bill includes section 515 regarding transfers of funds.

Section 516—The amended bill includes section 516 regarding the negotiation or reevaluation of international agreements.

Section 517—The amended bill includes section 517 regarding E-government initiatives.

Section 518—The amended bill includes section 518 regarding firearms tracing studies.

Section 519—The amended bill includes section 519 requiring the Inspectors General of the Departments of Commerce and Justice, the National Aeronautics and Space Administration, and the National Science Foundation to conduct reviews of activities funded in this Act; prohibits the use of funds for certain banquets and conferences; and requires certifications regarding conflicts of interest.

Section 520—The amended bill includes section 520 regarding patents.

Section 521—The amended bill includes section 521 that prohibits the use of funds to support or justify the use of torture.

Section 522—The amended bill includes section 522 regarding the export of firearms.

Section 523—The amended bill includes section 523 regarding the use of funds to process permits to import certain products.

Section 524—The amended bill includes section 524 prohibiting funds to include certain language in new trade agreements.

Section 525—The amended bill includes section 525 directing NASA to modify its financial management system.

Section 526—The amended bill includes section 526 prohibiting funds to authorize a national security letter in contravention of the statutes authorizing the FBI to issue national security letters.

Section 527—The amended bill includes section 527 prohibiting funds for a public-private competition conducted under Office of Management and Budget Circular A-76 unless certain appeal rights are included.

Section 528—The amended bill includes section 528 amending Section 605 of the Harmful Algal Bloom and Hypoxia Research and Control Act of 1998, providing new authorized funding levels for 2008 through 2010.

Section 529—The amended bill includes section 529 correcting two enrollment errors in P.L. 109-479 which amended the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1853a).

Section 530—The amended bill includes section 530 requiring notification to the Committees in the event of cost overruns.

Section 531—The amended bill includes section 531 limiting reprogrammings and transfers after June 30 to extraordinary circumstances.

Section 532—The amended bill includes section 532 authorizing funds appropriated for intelligence activities for the Department of Justice during fiscal year 2008 until the enactment of the Intelligence Authorization Act for Fiscal Year 2008.

Section 533—The amended bill includes section 533 modifying NASA's enhanced use lease authority.

Section 534—The amended bill includes section 534 directing that the Departments, agencies, and commissions funded under this Act, shall establish and maintain on the homepages of their Internet websites a link to their Offices of Inspectors General and a method by which individuals may anonymously report cases of waste, fraud, or abuse.

Section 535—The amended bill includes section 535 prohibiting funds to enter into a contract in an amount greater than $5,000,000 or to award a grant in excess of such amount unless the prospective contractor or grantee has filed certain Federal tax returns.

Section 536—The amended bill includes section 536 authorizing the Digital and Wireless Networks for Higher Education Pilot Program—the 'ED 1.0 Act'.

Section 537—The amended bill includes section 537 prohibiting the use of funds in a manner that is inconsistent with the principal negotiating objective of the United States with respect to trade remedy laws.

Section 538—The amended bill includes section 538 prohibiting the use of funds to purchase first class or premium airline travel in contravention of current regulations.

Section 539—The amended bill includes section 539 to correct a citation related to "the '911 Modernization Act'.".

Section 540—The amended bill includes section 540 related to services of the Legal Services Corporation.

Section 541—The amended bill includes section 541 prohibiting the use of funds in contravention of the Federal government's participation in the basic pilot program.

Section 542—The amended bill includes section 542 prohibiting the use of funds to employ aliens who are unauthorized to work.

Section 543—The amended bill includes section 543 prohibiting the use of funds to send or otherwise pay for the attendance of more than 50 employees from a Federal department or agency at any single conference occurring outside the United States.

TITLE VI

RESCISSIONS

DEPARTMENT OF COMMERCE

ECONOMIC DEVELOPMENT ADMINISTRATION

ECONOMIC DEVELOPMENT ASSISTANCE PROGRAMS

(RESCISSION)

The amended bill includes a rescission of $5,700,000 from unobligated balances available in this account from prior year appropriations.

ECONOMIC AND STATISTICAL ANALYSIS

SALARIES AND EXPENSES

(RESCISSION)

The amended bill includes a rescission of $800,000 from unobligated balances available in this account from prior year appropriations.

NATIONAL INSTITUTE OF STANDARDS AND TECHNOLOGY

INDUSTRIAL TECHNOLOGY SERVICES

(RESCISSION)

The amended bill includes a rescission of $18,800,000 from unobligated balances available in this account from prior year appropriations, instead of $10,000,000 as proposed by the Senate.

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

(RESCISSION)

The amended bill includes a rescission of $11,372,000 from unobligated balances available in this account from prior year appropriations.

DEPARTMENT OF JUSTICE

GENERAL ADMINISTRATION

SALARIES AND EXPENSES

(RESCISSION)

The amended bill includes a rescission of $7,400,000 from unobligated balances available in this account.

JUSTICE INFORMATION SHARING TECHNOLOGY

(RESCISSION)

The amended bill includes a rescission of $5,000,000 from unobligated balances available in this account.

WORKING CAPITAL FUND

(RESCISSION)

The amended bill includes a rescission of $41,000,000 from unobligated balances in this account as proposed by the House and the Senate.

TELECOMMUNICATIONS CARRIER COMPLIANCE FUND

(RESCISSION)

The amended bill includes a rescission of $1,300,000 from unobligated balances in this account.

DETENTION TRUSTEE

(RESCISSION)

The amended bill includes a rescission of $145,000,000 from unobligated balances in this account, instead of $135,000,000 as proposed by the House and the Senate.

LEGAL ACTIVITIES

ASSETS FORFEITURE FUND

(RESCISSION)

The amended bill includes a rescission of $240,000,000 from unobligated balances in this account as proposed by the House and the Senate.

OFFICE OF VIOLENCE AGAINST WOMEN

VIOLENCE AGAINST WOMEN PREVENTION AND PROSECUTION PROGRAMS

(RESCISSION)

The amended bill includes a rescission of $14,700,000 from unobligated balances available in this account from prior year appropriations.

OFFICE OF JUSTICE PROGRAMS

(RESCISSION)

The amended bill includes a rescission of $87,500,000 from unobligated balances available in this account from prior year appropriations as proposed by the House and the Senate. Rescinded funds should be derived from deobligations and recoveries from completed grant activities.

COMMUNITY ORIENTED POLICING SERVICES

(RESCISSIONS)

The amended bill includes a rescission of $87,500,000 from unobligated balances available in this account from prior year appropriations as proposed by the House instead of $37,500,000 as proposed by the Senate.

The amended bill includes a rescission of $10,278,000 from unobligated balances appropriated from the Violent Crime Reduction Trust Fund as proposed by the House.

Rescinded funds should be derived from deobligations and recoveries from completed grant activities.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

(RESCISSION)

The amended bill includes a rescission of $192,475,000 from unobligated balances available from prior year appropriations, instead of $69,832,000 as proposed by the House. The amended bill includes language requesting that within 30 days after the date of the enactment of this section the Administrator shall submit to the Appropriations Committees of the House and Senate a report specifying the amount of each rescission made pursuant to this section.

NATIONAL SCIENCE FOUNDATION

(RESCISSION)

The amended bill includes a rescission of $33,000,000 from unobligated balances available from prior year appropriations, instead of $24,000,000 as proposed by the House. The amended bill includes language requesting that within 30 days after the date of the enactment of this section the Director shall submit to the Appropriations Committees of the House and Senate a report specifying the amount of each rescission made pursuant to this section.

DISCLOSURE OF EARMARKS AND CONGRESSIONAL DIRECTED SPENDING ITEMS

Following is a list of congressional earmarks and congressionally directed spending items (as defined in clause 9 of rule XXI of the Rules of the House of Representatives and rule XLIV of the Standing Rules of the Senate, respectively) included in the House amendment or this explanatory statement, along with the name of each Senator, House Member, Delegate, or Resident Commissioner who submitted a request to the Committee of jurisdiction for each item so identified. There are no items in this division which did not appear in the House or Senate versions of H.R. 3093 or the accompanying committee reports. Neither the House amendment nor the explanatory statement contains any limited tax benefits or limited tariff benefits as defined in the applicable House and Senate rules.

COMMERCE, JUSTICE, SCIENCE

Account	Project	Amount	Member(s)
DOC–DM	Planning and Design for new exhibits and Hoover Building rent, National Aquarium-DC	$714,400	Mikulski
DOC–ITA	Arkansas World Trade Center, Funding to support efforts to develop international trade initiatives in Northwest Arkansas, University of Arkansas	$446,500	Lincoln, Pryor, Boozman
DOC–ITA	National Textile Centers and Textile/Clothing Technology Corporation	$4,700,000	Aderholt, Butterfield, Coble, Etheridge, Frank, Hayes, Hinchey, Jones (Walter), Lungren, McHenry, McIntyre, Miller (Brad), Myrick, Price (David), Scott (David), Shuler, Thompson, Watt, Wilson (Joe), Burr, Chambliss, Clinton, Dole, Graham, Kennedy (Edward), Kerry, Shelby, Specter

COMMERCE, JUSTICE, SCIENCE—Continued

Account	Project	Amount	Member(s)
DOC–ITA	Novel Polymerics Research, Within the funds provided for NTC, these funds will examine this new generation of advanced polymeric materials and their best applications to benefit our commercial competitiveness in the global market, Auburn University	$1,316,000	Shelby
DOC–MBDA	Project for Public Spaces, preservation and revitalization of the Moore Street Market	$235,000	Velazquez
DOC–NIST	Biotechnology Research Park, Construction of the Biotechnology Research Park in close proximity to an academic medical center offering opportunities for scientific and commercial synergies and serving as a catalyst for economic development in Jackson, MS, University of Mississippi	$7,332,000	Cochran
DOC–NIST	Engineering and Science Center, This facility will provide state–of–the–art laboratory and research space for future engineers, scientists, and researchers, and provide laboratory and research space to facilitate the University's support of local and regional industry, University of South Alabama	$30,000,000	Shelby
DOC–NIST	Innovation and Commercialization Park Infrastructure and Building Construction and Equipment This funding will complete the construction projects at the Park located at the University of Southern Mississippi and furnish necessary equipment, which will generate high technology jobs and enhance the overall economic development of the region, University of Southern Mississippi	$1,598,000	Cochran
DOC–NIST	Life Sciences Building, This facility will house the new microbiology doctoral program along with many other biological science graduate and undergraduate activities, Alabama State University	$5,000,000	Shelby
DOC–NIST	New York Center for National Competitiveness in Nanoscale Characterization (NC)3, Partnership between the National Institute for Science and Technology (NIST) and the College of Nanoscale Science and Engineering (CNSE), University at Albany–SUNY	$893,000	Schumer, Clinton, McNulty
DOC–NIST	Research, Technology and Economic Development Park Expansion, Expansion of the Research, Technology and Economic Development Park to generate high technology jobs and enhance the overall economic development of the region, Mississippi State University	$7,332,000	Cochran
DOC–NOAA	Advanced Undersea Vehicle, For an advanced undersea mapping sonar, Mystic Aquarium—Institute for Exploration	$401,850	Dodd, Lieberman
DOC–NOAA	Alabama GIS Mapping, Montgomery, AL, To plan and produce a high resolution large scale geospatial database of Alabama, Alabama Department of Revenue	$423,000	Shelby, Cramer
DOC–NOAA	Alaska Survey Current and Tide Data	$1,316,000	Stevens
DOC–NOAA	Alliance for Coastal Technology	$940,000	Hoyer
DOC–NOAA	Anacostia Watershed Education, Support for classroom education and teacher training on conservation, Anacostia Watershed Society	$133,950	Mikulski
DOC–NOAA	Aquatic Genomics and Biosecurity Research, To serve as a system for early detection and warnings for pathogens and other contaminants in our aquatic environments, Auburn University	$940,000	Shelby
DOC–NOAA	Aquatic Resources Environmental Initiative, Eastern Kentucky PRIDE – ORF	$1,128,000	Rogers (Hal)
DOC–NOAA	Aquatic Resources Environmental Initiative, Eastern Kentucky PRIDE – PAC	$470,000	Rogers (Hal)
DOC–NOAA	Aquidneck Island Westside Plan	$188,000	Kennedy (Patrick)
DOC–NOAA	Assisting smaller fisheries–dependent coastal communities, Funds will be used to assist the smaller fisheries–dependent coastal communities of the Gulf of Alaska with the regulatory process by participating on research boards and developing management plans, Gulf of Alaska Coastal Communities Coalition	$188,000	Stevens, Young (Don)
DOC–NOAA	Bronx River Restoration, NY	$940,000	Serrano
DOC–NOAA	B–WET, California	$2,350,000	Pelosi, Farr, Feinstein
DOC–NOAA	Center for Aquatic Resource Management, To work together with state and federal partners to develop and implement strategies for sustainable practices that will protect and restore aquatic resources, Auburn University	$1,551,000	Shelby, Rogers (Mike)–AL
DOC–NOAA	Center for Ecosystem–based Fisheries Management, Operations to conduct fisheries based research in the Northern Gulf of Mexico from in–shore shallow waters out across the continental shelf, Dauphin Island Sea Lab	$2,632,000	Shelby
DOC–NOAA	Center for Marine Aquaculture, To construct a center to provide scientists, engineers, and economists the capability to apply recent advances in aquaculture, biotechnology, pathology, nutrition, genetics, engineering, microbiology, and economics to remove the technical and profitability constraints to growth of a marine aquaculture industry, University of Southern Mississippi	$7,520,000	Cochran
DOC–NOAA	Center for the Great Lakes, Conservation education, Shedd Aquarium	$260,000	Durbin
DOC–NOAA	Chesapeake Bay Multi–Species Fisheries Management	$352,500	Gilchrest, Warner, Webb
DOC–NOAA	Chesapeake Bay Oyster Restoration, Funding for on the water/in the field oyster restoration efforts, Oyster Recovery Partnership	$1,786,000	Mikulski, Cardin
DOC–NOAA	Coastal and Inland Hurricane Monitoring and Protection Program, To acquire the ability to predict the intensity and potential damage of hurricanes affecting the Gulf Coast, University of South Alabama	$611,000	Shelby, Sessions (Jeff)
DOC–NOAA	Coastal and ocean navigation and hazards assistance, Columbia, SC, To provide a new capacity for access to assets for navigation and hazards assistance, University of South Carolina	$188,000	Graham, Brown (Henry)
DOC–NOAA	Coastal Restoration and Enhancement through Science and Technology—CREST, Advances in science and technology in restoration programs, Louisiana State University	$1,518,100	Landrieu, Vitter, Alexander (Rodney), Jindal
DOC–NOAA	Coastal vulnerability to climate change study, To look at impacts, response strategies and predictions for rural Alaska coastal communities	$940,000	Stevens
DOC–NOAA	Coastal Weather for Catastrophic Events, To provide coastal Alabama appropriate weather monitoring equipment to measure wind gusts, water surge and rain fall levels during a catastrophic event such as hurricane, University of South Alabama	$258,500	Shelby
DOC–NOAA	Collaborative R&D Initiative for the Gulf of Mexico, For collaboration between federal agencies in Alabama and research universities to more effectively complete NOAA missions, Von Braun Center for Science and Innovation	$752,000	Shelby

COMMERCE, JUSTICE, SCIENCE—Continued

Account	Project	Amount	Member(s)
DOC–NOAA	Conservation of habitats in Great Bay, NH, For continued conservation of critical habitats, Great Bay Partnership	$3,525,000	Gregg, Shea–Porter
DOC–NOAA	Cook Inlet Beluga Whale Research	$352,500	Young (Don), Murkowski, Stevens
DOC–NOAA	Cooperative Institute for Remote Sensing Applications, For the purpose of advancing knowledge and understanding of the environment using information technologies and remote sensing systems, University of Alabama at Huntsville	$1,034,000	Shelby
DOC–NOAA	Delaware River Enhanced Flood Warning System	$235,000	Holt, Dent, Lautenberg, Menendez
DOC–NOAA	Drought Research Study, To continue to study potential options to minimize the impact of droughts on Alabama and the Southeast, University of Alabama at Huntsville	$752,000	Shelby
DOC–NOAA	DUNE System Assessment and Shoreline Change Analysis	$869,500	LoBiondo, Lautenberg, Mendendez

DOJ–Juv Justice	YMCA of Middle Tennessee, Healthy Communities–Healthy Youth	$211,500	Cooper
DOJ–Juv Justice	York County, PA, Children's Advocacy Center	$112,800	Platts
DOJ–Juv Justice	Youth Aid Panel/Linkages, Beaver Springs, PA	$399,500	Carney
DOJ–Juv Justice	Youth Alternative to Violence and Crime Project, Oakland, CA	$47,000	Lee
DOJ–Juv Justice	Youth Crime Watch, Miami, FL	$517,000	Boyd
DOJ–Juv Justice	Youth Gang Violence Prevention Initiative, School District of Palm Beach County, FL	$564,000	Wexler, Mahoney
DOJ–Juv Justice	Youth Mentoring Program, Burbank, CA	$70,500	Schiff
DOJ–Juv Justice	Youth Ministries for Peace and Justice Programs for At–Risk Youth, Bronx, NY	$141,000	Serrano
DOJ–Juv Justice	Youth Services System, Inc. at–risk youth program, Wheeling, WV	$94,000	Mollohan
DOJ–Juv Justice	YouthWorks, Inc., Pittsburgh, PA	$47,000	Doyle
DOJ–Juv Justice	YWCA Children's Services, Seattle–King–Snohomish County, WA	$282,000	Inslee
DOJ–Juv Justice	Zero to Three Court Team for Maltreated Infants and Toddlers Project, San Francisco, CA	$314,900	Pelosi
DOJ–Juv Justice	Zero to Three, for 5th Judicial District, Des Moines, IA, for maltreated infants and toddlers	$194,000	Harkin, Grassley
DOJ–Juv Justice	Zero to Three, Omaha, NE, for maltreated infants and toddlers	$89,300	Nelson (Ben)
DOJ–Juv Justice	Zero to Three, Orleans Parish, LA, for maltreated infants and toddlers	$89,300	Landrieu
DOJ–VAWA	Native American/Native Alaskan Liaison Office	$2,820,000	Stevens
NASA	Adler Planetarium, Chicago, IL, for science and education programming for teachers and students	$260,000	Durbin, Kirk, Jackson Jr.
NASA	Adler Planetarium's Space Exploration Center	$940,000	Kirk, Jackson Jr., Durbin
NASA	Alabama A&M University, Normal, AL, to provide a comprehensive, diverse, and flexible pool of talent at lower labor rates in the civil service environment to facilitate research and development, studies and analyses of all areas of higher temperature advanced materials research and development	$564,000	Shelby, Cramer
NASA	Alliance for NanoHealth, Houston, TX, to facilitate the translation of nanotechnology from the laboratory to clinical practice	$846,000	Hutchison
NASA	Arkansas Center for Space and Planetary Sciences in Fayetteville, AR, for research and technology	$267,900	Lincoln, Pryor, Boozman
NASA	Baylor Physical Sciences Laboratory enhancement at Baylor University	$658,000	Edwards
NASA	Bio–Info–Nano Research and Development Institute at University of California, Santa Cruz	$282,000	Honda, Eshoo, Feinstein

COMMERCE, JUSTICE, SCIENCE—Continued

Account	Project	Amount	Member(s)
NASA	Burlington County College Science Learning Center	$1,504,000	Saxton
NASA	Center for Sustainable Life Support for Human Space Exploration	$376,000	Price (David), Dole
NASA	Chesapeake Information Based Aeronautics Consortium, Maryland, for a partnership of Morgan State University, University of Maryland Eastern Shore and Bowie State University, MD, for continued aviation safety research and development	$3,572,000	Mikulski, Cardin, Cummings, Ruppersberger
NASA	Colorado State University, Fort Collins, CO, for equipment	$267,900	Allard, Salazar (Ken)
NASA	Connecticut State University, City of New Britain, CT, for an initiative to bring greater awareness of mechanical engineering and aerospace disciplines to disadvantaged high school students	$133,950	Dodd, Lieberman, Larson, Murphy (Christopher)
NASA	Development of photovoltaic capacity at Plum Brook Station	$1,175,000	Kaptur
NASA	Distance learning program at Fairmont State University	$846,000	Mollohan
NASA	Educational Advancement Alliance Math, Science, and Technology Program	$1,880,000	Fattah
NASA	Expansion of the Cimmarusti/NASA Science Center Teacher Training and Science Education Outreach Program	$235,000	Schiff
NASA	Flight Research Training Center, Roswell, NM, for program to detect, mitigate and recover from loss of control accidents in aircraft	$1,786,000	Domenici, Bingaman
NASA	Grand Valley State University, Allendale, MI, for the West Michigan Science and Technology Institute's Biosciences Research and Commercialization Project	$133,950	Levin (Carl), Stabenow
NASA	Gulf Coast Exploreum, Mobile, AL, to stimulate increased enrollment in engineering, mathematics, and science in Alabama's universities by instructing and inspiring K–12 students in the fundamentals and application of these fields	$235,000	Shelby
NASA	Human–Robot Teams at Texas A&M University	$705,000	Edwards
NASA	Idaho State University, Pocatello, ID, use earth observations to investigate the effect of land management decisions	$141,000	Craig, Crapo, Simpson (Mike)
NASA	Imiloa Astronomy Center, Hilo, HI, for operations	$1,339,500	Inouye, Hirono
NASA	Independent Verification and Validation research program	$540,500	Mollohan
NASA	Institute for NanoBio Technology, Johns Hopkins University, Baltimore, MD, for breakthrough research in nano–bio technologies	$1,786,000	Mikulski
NASA	Jacksonville State University, Jacksonville, AL, for a tool for educators to allow their students to reach their full potential through participation in exciting hands on projects. The projects are dynamic in scope and are structured to be less time restrictive on the classroom schedule and the educator though self–directed curriculum	$235,000	Shelby
NASA	K–12 Science Education Enhancements at Middle Tennessee State University	$94,000	Gordon
NASA	Large Millimeter Telescope at the University of Massachusetts, Amherst	$705,000	Olver
NASA	Loma Linda University Space Radiation Health Research Program	$2,444,000	Lewis (Jerry)
NASA	Manned Space Flight Education Foundation, Houston, TX, to bring extensive learning opportunities to teachers, students and youth organizations throughout our Nation utilizing educational technology with Web casting, two–way videoconferencing and the Internet. The program seeks to inspire the next generation of explorers that would otherwise never have the opportunity to experience space exploration	$282,000	Hutchison
NASA	Marshall Space Flight Center, Huntsville, AL, to develop a cost effective nuclear power system to support the long–range objectives of NASA for missions to the moon, to Mars and to deep space	$1,645,000	Shelby
NASA	Marshall Space Flight Center, Huntsville, AL, to help NASA/MSFC accomplish its current and future missions by providing critical information on composite materials as they relate to the NASA space exploration programs	$1,410,000	Shelby
NASA	Marshall Space Flight Center, Huntsville, AL, to produce a common intelligent sensor module through the near–term development of the sensor technologies and integration algorithms necessary for on–orbit assembly and other AR&D missions	$1,175,000	Shelby
NASA	Marshall Space Flight Center, Huntsville, AL, to provide a secure, retrievable storage solution for Marshall's Data Center that will meet all Presidential Directives	$940,000	Shelby
NASA	Marshall Space Flight Center, Huntsville, AL, to provide critical, breakthrough technology to NASA for materials development, testing, and safety improvements to the Space Shuttle and Ares launch systems	$1,175,000	Shelby, Cramer
NASA	Marshall Space Flight Center, Huntsville, AL, to support the ongoing technology maturation program for liquid oxygen/liquid methane propulsion technology	$470,000	Shelby
NASA	Marshall University, Huntington, WV, to support NASA–related composites training at the Composites Technology and Training Institute in Bridgeport, WV	$2,232,500	Byrd
NASA	Maryland Department of Business and Economic Development, Baltimore, MD, for continued construction of a broadband link between the Wallops Island Flight Facility and the Patuxent River Naval Air Station	$3,572,000	Mikulski, Cardin
NASA	McWane Science Center, Birmingham, AL, for a program will focus on increasing interest and aptitude in the science fields in K–12 students through hands–on activities that will serve as an extension of the classrooms. Teacher training will also play a major role	$235,000	Shelby
NASA	Micronauts Education Simulator at Wheeling Jesuit University	$282,000	Mollohan
NASA	Mid–Atlantic Cooperative, Danville, VA, for installation of broadband on the Eastern Shore of Virginia	$1,786,000	Warner, Webb
NASA	Mid–Atlantic Institute for Space Technology, Pocomoke City, MD, for UAV testing and certification	$223,250	Mikulski
NASA	Mid–Atlantic Regional Spaceport, Wallops Island, VA, for infrastructure improvements to launch facilities	$223,250	Mikulski
NASA	Morehouse College Project Mars Program	$188,000	Lewis (John), Johnson (Hank), Chambliss, Isakson

COMMERCE, JUSTICE, SCIENCE—Continued

Account	Project	Amount	Member(s)
NASA	Nano/Micro Devices Laboratory at the University of Alabama–Huntsville	$611,000	Cramer
NASA	NASA Exchange City Learning Lab	$188,000	Kennedy (Patrick)
NASA	NASA Johnson Space Center, Houston, TX, for computer operations and improvements	$564,000	Hutchison, Lampson
NASA	National Center for Remote Sensing, Air, and Space Law, University, MS, to provide legal research and outreach on critical space and aviation law issues	$2,820,000	Cochran, Lott, Wicker
NASA	National Youth Science Foundation	$258,500	Mollohan
NASA	New Mexico State University, Las Cruces, NM, for the Southern New Mexico Science, Engineering, Mathematics, and Aerospace Academy for a space education program to meet the math and science learning needs of under–represented K–12 students	$178,600	Bingaman
NASA	Pittsburgh Engineering Initiatives, Pittsburgh, PA, to further development of regenerative treatments for astronauts	$267,900	Casey
NASA	Research on Aviation Training at Middle Tennessee State University	$470,000	Gordon
NASA	Robotic Exploration Technologies in Astrobiology, Global Undersea Research Unit, University of Alaska, Fairbanks	$282,000	Honda
NASA	Robotics and Exploration Testbed at Marshall Space Center	$4,089,000	Aderholt
NASA	Rochester Institute of Technology, Rochester, NY, for a Integrated Sensing Systems Testbed (ISST) to develop, demonstrate, and validate advanced techniques for situational awareness	$178,600	Schumer, Clinton
NASA	Science, Engineering, Mathematics and Aerospace Academy at York College	$188,000	Meeks, Schumer, Clinton
NASA	Science, Technology, Engineering, and Mathematics Center at Tennessee Tech University	$752,000	Gordon
NASA	Southeast Missouri State University, Cape Girardeau, MO, Enhancement of K–12 teaching and learning of sciences, math, and technology among schools, teachers, and students	$846,000	Bond
NASA	Southern Research Institute, Birmingham, AL, for the development of laboratory–based test methods and test standards for coupon and component level characterization; development of subcomponent testing capabilities for material, component and system characterization; development and qualification of modeling and simulation techniques for these applications; and development of an integrated modeling and testing approach for evaluation and optimization of new material concepts	$940,000	Shelby
NASA	Space Engineering Institute at Texas A&M University	$352,500	Hall (Ralph)
NASA	St. Louis University, St. Louis, MO, for immunology research that will complement NASA research on the immune system in microgravity	$846,000	Bond
NASA	Stennis Space Center MS, to continue a longstanding technology/industry partnership in assisting in transitioning space technologies into the commercial sector	$3,760,000	Cochran, Lott
NASA	Stennis Space Center, MS, to support infrastructure improvements for Crew Exploration Vehicle testing	$2,820,000	Cochran
NASA	Teach for America, New York, NY to engage teachers in science, technology, engineering and mathematics	$2,350,000	Mikulski
NASA	Thurgood Marshall College Fund Minority NASA Science Initiative	$940,000	Jackson Lee, Norton, Cummings, Meek, Watt
NASA	Tulane University, New Orleans, LA, for ongoing applied polymer technology research and development that links NASA with Louisiana's polymer industry and the State's academic polymer research programs	$446,500	Landrieu, Vitter, Jefferson, Jindal, Melancon
NASA	U.S. Space and Rocket Center, Huntsville, AL, for completion of a long overdue update for the museum and exhibits will provide a more stimulating and effective presentation of the history of our nation's space exploration efforts and will serve to stimulate increased interest in science and technology	$470,000	Shelby
NASA	University of Alabama in Huntsville, Huntsville, AL, to provide research that will provide both fundamental insight into the combustion behavior of this fuel with liquid oxygen which will assist in realizing its full performance potential and will train the next generation of propulsion scientists and engineers who will work for or support NASA in implementing the chosen engine designs	$1,410,000	Shelby
NASA	University of Alabama, Tuscaloosa, AL, to conduct the fundamental and applied research needed to develop effective near–space technologies for station–keeping	$470,000	Shelby
NASA	University of California Santa Cruz, Santa Cruz, CA, to continue the establishment of the Center at NASA Ames Research Center in collaboration with UC Santa Cruz	$446,500	Feinstein, Honda, Eshoo
NASA	University of Louisville, Louisville, KY, for technology that assists trauma victims without immediate access to emergency medical care, including astronauts	$1,222,000	McConnell, Yarmuth
NASA	University of Maryland, Baltimore County, MD, for environmental remote sensing	$1,786,000	Mikulski, Hoyer, Ruppersberger
NASA	University of Maryland, College Park, MD, for the Maryland Institute for Dextrous Robotics for the creation of a new generation robotic technology for space exploration	$2,679,000	Mikulski, Hoyer, Bartlett
NASA	University of Nebraska, Lincoln, Lincoln, NE, to help establish a degree program in space and telecommunications law	$1,786,000	Nelson (Ben)
NASA	University of Northern Iowa, Cedar Falls, IA, to improve the use of geospatial data by State and local governments	$613,000	Harkin, Grassley, Braley
NASA	University of Redlands Education Technology Program	$470,000	Lewis (Jerry)
NASA	University of Vermont, Burlington, VT, for the UVM Center for Advanced Computing	$1,700,000	Leahy
NASA	Upper Midwest Aerospace Consortium at the University of North Dakota, Grand Forks, ND, to help make data received from NASA satellite images accessible to the public for management decisions	$2,679,000	Dorgan, Conrad, Pomeroy
NASA	Utah State University Research Foundation, Logan, UT, To develop a modern infrared calibration capability for current and future remote sensing instruments	$376,000	Bennett
NASA	Wheeling Jesuit University, Wheeling, WV, to expand the reach of the HealtheWV program, an electronic medical records system	$2,679,000	Byrd

COMMERCE, JUSTICE, SCIENCE—Continued

Account	Project	Amount	Member(s)
NASA	Wichita State University, Wichita, KS, to improve facilities and equipment at the National Center for Advanced Materials Performance (NCAMP), which provides shared-database methodology addressing material, structural, manufacturing, and repair qualification processes for use of affordable polymeric composite materials in commercial and military applications	$329,000	Brownback
NASA	Women in Science and Engineering Scholars Program at Spelman College	$188,000	Lewis (John), Chambliss, Isakson

AMENDED BILL TOTAL—WITH COMPARISONS

The total new budget (obligational) authority for fiscal year 2008 provided in the amended bill, with comparisons to the fiscal year 2007 amount, the 2008 budget estimates, and the House and Senate bills for 2008 follow:

(In thousands of dollars)	
New budget (obligational) authority, fiscal year 2007	$52,482,417
Budget estimates of new (obligational) authority, fiscal year 2008	52,945,491
House bill, fiscal year 2008	55,142,430
Senate bill, fiscal year 2008	57,009,430
Amended bill, fiscal year 2008	53,734,969
Amended bill compared with:	
New budget (obligational) authority, fiscal year 2007	+1,252,552
Budget estimates of new (obligational) authority, fiscal year 2008	+789,478
House bill, fiscal year 2008	−1,407,461
Senate bill, fiscal year 2008	−3,274,461

DIVISION C—ENERGY AND WATER DEVELOPMENT AND RELATED AGENCIES APPROPRIATIONS ACT, 2008

Following is an explanation of the effects of this division of the House amendment to the Senate amendment to H.R. 2764 (hereafter referred to as "the amended bill") relative to the versions of the Energy and Water Development Appropriations Act, 2008 (H.R. 2641 and S. 1751) passed by the House of Representatives and reported by the Senate Appropriations Committee.

The language and allocations set forth in House Report 110-185 and Senate Report 110-127 should be complied with unless specifically addressed to the contrary in the amended bill and explanatory statement. Report language included by the House which is not contradicted by the report of the Senate or the explanatory statement, and Senate report language which is not contradicted by the report of the House or the explanatory statement, is approved. The explanatory statement, while repeating some report language for emphasis, does not intend to negate the language referred to above unless expressly provided herein. In cases where both the House report and Senate report address a particular issue not specifically addressed in the amended bill or explanatory statement, the House report and Senate report are not inconsistent and are to be interpreted accordingly. In cases in which the House or Senate have directed the submission of a report, such report is to be submitted to both House and Senate Committees on Appropriations.

TITLE I

CORPS OF ENGINEERS—CIVIL

DEPARTMENT OF THE ARMY

CORPS OF ENGINEERS—CIVIL

The summary tables included in this title set forth the dispositions with respect to the individual appropriations, projects and activities of the Corps of Engineers. Additional items of the amended bill are discussed below.

PROGRAM MANAGEMENT AND EXECUTION

The Appropriations Committees agree that continued improvements in the Corps' program management and execution are necessary and appropriate; previous direction regarding these areas is refined. The civilian and military leadership of the Corps of Engineers should continue to manage the Corps of Engineers and the Civil Works program in a manner consistent with Congressional intent.

Fiscal year 2008 budget initiatives.—The Administration's proposals to appropriate the Operations and Maintenance account on a regional basis and to migrate four categories of projects from the Construction account to the Operations and Maintenance account are rejected. The Appropriations Committees support a systemized budget for operating projects; however, the Corps has not yet demonstrated the value of this approach. The Corps is directed to prepare four systemized, integrated budgets for four different areas of the Nation—the Ohio River, the Great Lakes, the Texas coast, and the California coast—to demonstrate the value of system or watershed planning and budgeting. Further, the Corps is directed to develop a comprehensive capital expense policy to distinguish clearly between activities that should be considered routine maintenance and those that should be considered a capital expense consistent with industry practices. Capital improvements are appropriately budgeted in the Construction account; routine activities associated with the upkeep of existing projects budgeted in the Operations and Maintenance account.

Five-year comprehensive budget planning.—The Corps is directed to submit to the House and Senate Committees on Appropriations concurrent with each annual budget hereafter an updated five-year comprehensive development plan.

Emphasis on expenditures.—Recent changes to the Corps budgeting and contracting policies have resulted in the carryover of higher levels of funding from year to year. While the Appropriations Committees agree that there are circumstances which will necessitate obligated carryover, the Corps is directed to minimize unobligated carryover to the extent practicable. This direction should not be viewed as a method or excuse to reprogram funds liberally between projects or activities, but rather an admonition to the Corps to estimate capabilities accurately and execute projects within baseline scope and schedules.

Reprogramming.—The amended bill includes new reprogramming guidance for the Corps of Engineers which provides additional flexibility to meet existing obligations and unforeseen operations and maintenance needs. This additional flexibility is given as a result of the Corps efforts to tighten fiscal management of its program and in recognition of the dynamic nature of civil works project execution. This additional flexibility will be reconsidered should the Corps return to its cavalier approach to baseline schedules and budgets and Congressional intent. The guidance contained herein supersedes all previous Congressional direction with respect to all available balances in the Corps' accounts. For the purposes of carrying out this section, a reprogramming of funds is defined as any reallocation of funds into or from a line item set forth in the tables accompanying this Act. In no case shall a reprogramming for less than $50,000 be submitted to the Committees for approval.

Not later than 60 days following the enactment of this Act, the Corps shall submit a report to the House and Senate Committees on Appropriations to establish the baseline for application of reprogramming and transfer authorities for the current fiscal year. That report shall contain a table for each appropriation, showing among other items, each program, project and activity in each appropriation. For each day after the required date that the report has not been submitted to Congress, the amount appropriated for salaries and expenses of the Corps of Engineers shall be reduced by $100,000 per day. In addition, the Corps is directed to provide quarterly reports to the House and Senate Committees on Appropriations detailing all projects from which and to which funds were reprogrammed pursuant to the authorities provided in this Act. The report shall also include reasons for the transfers of funds. The thresholds contained in section 101 shall apply to cumulative totals on a project-by-project basis.

Continuing contracts.—The amended bill includes the same legislative provision carried in fiscal year 2006 making continuing contracts optional rather than mandatory. The Appropriations Committees continue to believe that the continuing contract has a role; however, Congress should not mandate the use of any specific contracting mechanism given the vastly varied scope of projects executed by the Corps of Engineers.

The amended bill also includes a provision that prohibits the use of funds to execute any new continuing contract, or modifications to an existing contract, that commits an amount for a project in excess of the amounts appropriated for such project or otherwise available through legitimate reprogramming or carryover.

The Appropriations Committees are aware of eight instances where this limitation resulted in contract bid protests during fiscal year 2007. While this number of protests is not significant in the context of the thousands of contracts the Corps issues every year, the issues surrounding continuing contracts remain of concern. Consequently, the GAO is directed to study continuing contracts issued with the new clause to determine whether its use has resulted in a quantifiable adverse impact to the Corps program, either in terms of price, competition or execution. Should the study, or other relevant information, show an adverse impact, this policy will be reconsidered in future years.

Further, the Corps is directed to provide a report, no later than May 1, 2008, to the House and Senate Committees on Appropriations describing the overall effects, both positive and negative, of this new policy in relation to the Corps' ability to execute the Civil Works mission. Additionally, the report should include any recommendations for changes or improvements to this policy if necessary and appropriate.

The commitment to reevaluate this policy in the future does not in any way change the existing direction that the Corps use continuing contracts only where they are justified. Once issued, these contracts should be managed to existing and realistically expected future year appropriations. Under no circumstance should the contractor be allowed to dictate the pace of expenditures; the Corps as the contracting agent holds this responsibility.

The Appropriations Committees restate the House direction that the Corps develop criteria and standards for the use of continuing contracts as well as examine alternatives to this contracting mechanism.

Study and project policy reviews.—The Chief of Engineers is directed to work with the ASA(CW) and OMB to develop a plan to complete study and project policy compliance reviews as expeditiously as possible and forward the recommendations of these reports to Congress. This plan should be presented to the appropriate House and Senate Appropriations and authorizing Committees no later than March 31, 2008. The Corps shall complete reviews of all documents no later than December 31, 2008.

INVESTIGATIONS

(INCLUDING RESCISSION OF FUNDS)

The amended bill provides $167,261,000 for Investigations, instead of $120,000,000 as proposed by the House and $172,147,000 as proposed by the Senate and includes a $100,000 rescission as proposed by the House.

The allocation for projects and activities within the Investigations account is shown in the following table:

Louisiana Coastal Area Ecosystem Restoration, Louisiana.—The Appropriations Committees remain supportive of this effort; however, due to large unobligated balances, $2,952,000 is provided, rather than the budget request of $13,000,000. The Science and Technology line item under this study is not funded and the Corps is directed not to include this line item in the fiscal year 2009 budget. This line item appears to be an attempt to fund other Federal agencies to undertake science activities that are not being funded within those agencies. If the Administration believes this is worthwhile science, then they should budget for this work under the appropriate agency. Any funds from the fiscal year 2007 allocation that remain unexpended in the Science and Technology line should be utilized on advancing the study, not on science activities.

Blackstone River Watershed Restoration, Massachusetts and Rhode Island.—Funding in the amount of $98,000 is included for the ongoing feasibility study and $99,000 is included to study recent flooding in Rhode Island.

Great Lakes Navigational System, Michigan, Illinois, Indiana, Minnesota, New York, Ohio, Pennsylvania, and Wisconsin.—The funds provided are to be used to complete the supplement to the reconnaissance report of the Great Lakes St. Lawrence Seaway Navigation Study, which, based on a previous agreement between the Secretary, the Ministry of Transportation Canada, and the Secretary of the U.S. Department of Transportation, is to be limited in scope to evaluating the economic, engineering and environmental impacts of maintaining the Great Lakes St. Lawrence Seaway at current size, draft and length of locks. The Secretary is directed to complete the supplemental report by September 2008, after which Congress, interested State and Federal agencies, and the public shall review the report for one year to determine whether additional study is warranted.

Chief's Twelve Actions.—Funding is not included for this item. The Appropriations Committees believe that the activities proposed in the budget request for this line item should be incorporated into the various funded planning activities that the Corps has underway.

National Shoreline Study.—Additional funds have been provided above the budget request for the National Planning Center of Expertise for Coastal Storm Damage Reduction to develop a process for managing shore protection projects as part of a systems approach to coastal protection for the purpose of achieving improved project performance, increased cost effectiveness, and enhanced benefits.

Reprogramming Payback.—Funding under this heading includes $4,526,000 to meet prior reprogramming obligations identified by the Corps of Engineers. This funding provides the full amount for all paybacks in this account; any additional requirements are the sole responsibility of the Corps.

CONSTRUCTION

(INCLUDING RESCISSIONS OF FUNDS)

The amended bill provides $2,294,029,000 for Construction, instead of $2,004,186,000 as proposed by the House and $2,059,474,000 as proposed by the Senate and includes the $4,688,000 of rescissions as proposed by the House.

The allocation for the projects and activities within the Construction account is shown in the following table:

Santa Ana River mainstem, California.—Funding in addition to the budget request for this project is included to continue studies to ascertain the nature and extent of water quality degradation in the Santa Ana River resulting from the construction and operation of Seven Oaks Dam and to amend the Seven Oaks Dam water control plan in light of current conditions and requirements.

American River Watershed (Folsom Dam Miniraise), California.—Within the funds provided for this project, $14,000,000 is for completion of the bridge.

Dade County (Miami-Dade), Florida.—The Appropriations Committees are aware of the ongoing study by the Corps to determine the availability of a domestic source of sand for the Miami-Dade Project, which was directed and funded by the Appropriations Committees in fiscal year 1999. The Committees continue to have concerns over the lack of finalization of this study and thereby direct the Corps to identify a compatible sand source for the project using previously appropriated funds no later than March 1, 2008.

Modified Waters Delivery Plan, Florida.—The Appropriations Committees recognize the national importance of this project, but are concerned about the open-ended scope and the increasing costs for the Corps participation in this project.

When the project was authorized in 1989, the plan was to utilize the culverts under the Tamiami Trail to provide the needed flows to Everglades National Park. The next plan was a 3,000 foot opening in the Tamiami Trail. Now various bridge options are being considered.

Another option under consideration is raising the water level in the L–29 canal, utilizing the culverts to provide the flows and raising the low spots on the Tamiami Trail. The Appropriations Committees are concerned that this constantly changing endpoint for completion of Mod Waters is delaying the Corps from undertaking critical Everglades restoration projects authorized under the Comprehensive Everglades Restoration Plan.

Funds provided for Everglades restoration include $9,840,000 for this project in fiscal year 2008. This is the Corps' full stated capability and is based on the apparent disarray in determining exactly what will be accomplished in fiscal year 2008. The Corps is directed to use this funding to improve flows through the culverts under the Tamiami Trail. Any use of these funds for other activities requires a reprogramming request and House and Senate Appropriations Committee approval. Within 90 days of enactment, the Corps is directed to submit to the House and Senate Committees on Appropriations its plan for completion of its role in the Modified Waters Delivery Plan, providing a final project scope and identifying, not only Corps funding requirements, but also corresponding contributions from the Department of Interior and State of Florida.

To most effectively utilize the funding provided to the Corps of Engineers for the Modified Waters Delivery project in fiscal year 2008, the Committees on Appropriations expect that the Department of Interior will provide funding to match or exceed that provided to the Corps this fiscal year. The Committees further expect that the Department of Interior share of the project costs will not be provided in the form of in-kind services or credit for work previously performed.

Olmsted Locks and Dam, Ohio River, Illinois and Kentucky.—Neither funds provided for the Olmsted Locks and Dam Project nor funds available within this account are available to reimburse the Claims and Judgment Fund.

Muddy River, Boston, and Brookline, Massachusetts.—Funding is included to continue project design and construction, including ecosystem restoration features, of the Muddy River Project in Brookline and Boston, Massachusetts.

Upper Mississippi Restoration, Illinois, Iowa, Minnesota, Missouri and Wisconsin.—Funding included for this activity shall be available only to continue ongoing design and construction projects and shall not be available to initiate new construction projects.

Missouri Fish and Wildlife Recovery, Iowa, Kansas, Missouri, Montana, Nebraska, North Dakota and South Dakota.—Within the funds provided, the Corps is directed to make modifications to the Intake Dam to provide additional habitat for the pallid sturgeon.

Southeast Louisiana project, Louisiana.—No funding is provided for this project. It is the understanding of the Appropriations Committees that legislation and funding will be proposed in the forthcoming Administration supplemental request.

Bois Brule drainage and levee district, Missouri.—Funding is provided for continuing work related to this project. Legislative text is included in the bill that reallocates the unexpended balance of $597,000 from the terminated continuing authorities project at Bois Brule, Missouri.

Townsends Inlet to Cape May Inlet Hurricane and Storm Protection Project, New Jersey.—Within the funds provided, $65,000 is available to evaluate the use of periodic backpassing of sand as part of the Townsends Inlet to Cape May Inlet shore protection project.

Atlantic Coast of NYC, Rockaway inlet to Norton Point, New York.—Funding is provided for continuing work related to this project. Further, legislative text is included in the bill that reallocates the unexpended balance of $881,000 from engineering and design activities that are complete.

Lake Sakakawea, North Dakota.—The original health care facility for the Three Affiliated Tribes was permanently inundated due to the impoundment of Lake Sakakawea. A replacement health care facility was promised but never constructed. Legislative text has been included in the bill that directs the Corps to construct this replacement facility. Funding is provided in the amount of $2,952,000 for design of the replacement health care facility. The Corps should work closely with the Indian Health Service and the Three Affiliated Tribes on the design and construction of this facility. The Corps is directed to utilize the expertise in their military programs office for this project.

North Dakota (Environmental Infrastructure), North Dakota.—Funding provided under this heading includes $5,904,000 for work related to the replacement of the Devils Lake Water supply pipeline. Legislative text is included in the bill that reallocates the unexpended balance of $4,972,000 from the Devils Lake outlet to this project.

Cheyenne River Sioux Tribe, Lower Brule Sioux, South Dakota.—The Appropriations Committees note that title IV of the Water Resources Development Act of 1999, Public Law 106–53 as amended, authorizes funding to pay administrative expenses, implementation of terrestrial wildlife plans, activities associated with land transferred or to be transferred, and annual expenses for operating recreational areas. Funding under this heading includes $3,936,000 for this effort. Within the funds provided, not more than $1,000,000 shall be provided for administrative expenses. The Corps is directed to distribute the remaining funds as directed by title IV to the State of South Dakota, the Cheyenne River Sioux Tribe and the Lower Brule Sioux Tribe.

Central City, Fort Worth, Texas.—The Appropriations Committees continue to be interested in the efficiencies and additional benefits potentially available from reformulation of the project now underway by the Corps of Engineers. The funds provided for this project are to be used to pursue design and construction of the authorized project, maintaining schedule commitments, while capturing the efficiencies and benefits from the reformulation effort. Further, the Corps is expected to incorporate all changes resulting from the reformulation as soon as they are identified. Additionally, the Corps is directed to consider the planned, complementary efforts of other Federal agencies, state and local governments in the project area that are, or will be, in place as it defines the reformulated Central City project.

Lake Champlain Watershed Initiative.—Funding in the amount of $2,460,000 is provided for the continuation of this project. Legislative text is included in the bill that reallocates the unexpended balance of $1,500,000 from the completed Waterbury Dam Seepage Correction repairs to this project.

Levisa and Tug Forks & Upper Cumberland River, West Virginia, Virginia, and Kentucky.—Funding under this heading includes $28,290,000 for this project. Within the amounts provided, $4,920,000 shall be for elements of the project in the Commonwealth of Kentucky; $5,166,000 shall be available for the Commonwealth of Virginia elements of the project; and $18,204,000 shall be for Kermit, Lower Mingo County, McDowell County, Upper Mingo and Wayne County, West Virginia.

Shoreline Erosion Control Development and Demonstration Program.—The Appropriations Committees understand that this program was considerably expanded and modified in the recent Water Resources Development Act. Therefore, the amended bill includes legislative text to extend the duration of this program so that the Corps can continue monitoring of completed projects and finish work on projects, where possible with previously appropriated funds. No new funds are provided.

Reprogramming Payback.—Funds are provided to meet reprogramming obligations identified by the Corps of Engineers under this account. The Corps shall analyze existing obligations giving priority to project completion and useful increments of work. The Corps shall coordinate the allocation of these funds with the House and Senate Committees on Appropriations. Provision of this funding is intended to assist the Corps in meeting obligations made to Members of Congress and local sponsors. It does not in any way lessen the Corps' responsibility of meeting commitments made to repay "borrowed" funds.

CONTINUING AUTHORITIES PROGRAM

The Appropriations Committees remain concerned with the management of the Continuing Authorities Program. While progress has been made in gaining an understanding of existing obligations and the inventory of unfinished projects, the Corps must continue to refine its policies and approach to this program. The Appropriations Committees are frustrated by the level of Congressional oversight required of a program that remains a small part of the Corps' Civil Works Program. The Appropriations Committees are particularly disturbed that, despite clear guidance restricting the Corps from initiating new projects without the consent or direction of Congress, more than 40 projects were initiated during the Fiscal Year 2007 Continuing Resolution. Until such time as the Corps can demonstrate that the inventory of unfinished projects associated with this program has been sufficiently reduced to allow new investment decisions, the Appropriations Committees fail to see the wisdom in making further commitments to non-federal sponsors which cannot be met. Consequently, the Corps is directed not to initiate or restart any Section 205, 206 or 1135 project which has not been named in a conference report from fiscal year 2002-2008. The term "restart" shall mean funding any project that had received funding before fiscal year 2002 but not since, The Corps may only initiate new projects in the remaining authorities subject to meeting existing project requirements and determining that the program appropriation levels can support additional investment.

The prohibition on executing new cost sharing agreements is not extended to fiscal year 2008; however, approval authority for all cost share agreements shall be maintained by the Chief of Engineers. This authority cannot be delegated.

The Corps is directed to terminate all continuing authorities projects that have not received funding or have not been named specifically in a conference report during the period of fiscal year 2002-2008. Not later than 30 days after enactment, the Corps shall forward a report summarizing the inventory of active but unfinished projects, by authority, to the House and Senate Committees on Appropriations.

The report also shall summarize the review process that the Corps intends to follow to reclassify unfinished projects to better control and manage the inventory of unfinished projects over time. The position of the non-federal sponsor shall be considered in this process. Should the sponsor remain interested in pursuing a project that has been terminated or proposed for termination, the sponsor should officially re-affirm its support for the project and establish that it is a willing and capable sponsor with the financial capability to execute the project, including the ability to obtain required real estate necessary for the implementation of the project. Lacking such re-affirmation by the non-federal sponsor, the project should be or remain terminated. This action should be taken only as a method to assess accurately the inventory of unfinished projects in the program. Any projects in Sections 205, 206, or 1135 that had been terminated but that are re-affirmed by the non-federal sponsor may not be initiated or restarted without the explicit consent of the House and Senate Committees on Appropriations. Not later than 180 days after enactment, the Corps shall forward a report to the House and Senate Committees on Appropriations summarizing the results of the first iteration of the reclassification review.

The Corps is directed to maintain an approximately 80-20 percent split between the Design and Implementation (D&I) phase and the Feasibility phase within each authority. This split should be considered a guideline only, as there may be specific circumstances that require a slightly different weighting.

In the following tables, two categories of projects are included: projects with a specific funding amount designated by Congress for fiscal year 2008; and projects the Corps may consider for funding after the first category of projects is addressed. The Corps shall prioritize the second category of projects (i.e., those listed without dollar amounts) based on the following criteria:

Priorities for Design and Implementation (D&I) Phase:

1. D&I work for continuing projects that have executed PCAs.
2. D&I funding for projects approved by Corps Headquarters to execute a PCA.
3. D&I work which does not require executed agreements (e.g. continuing or pre-PCA design) for ongoing projects.
4. D&I funding for projects with approved Feasibility Reports moving into D&I.

Priorities for Feasibility Phase:

1. Feasibility phase funding for projects with executed FCSAs.
2. Feasibility phase funding for projects approved by Corps Headquarters to execute a FCSA.
3. Feasibility phase work which does not require a FCSA for ongoing projects.
4. Feasibility phase funding for initiations or restarts.

Within the last-funded priority level within the D&I and Feasibility phases, if the projects qualifying for funding exceed the available funding, funds shall be allocated based on project outputs and the non-federal sponsor's ability to meet local obligations.

Remaining funds, if any, may be allocated to additional projects in accordance with the aforementioned priorities, except that remaining funds for Section 14 projects shall be allocated to the most urgently needed projects.

For all projects that receive a specific dollar amount, the Corps shall make this funding available for a period of two years, after which time the funding may be used to meet other project requirements. The funds may also be used to meet other requirements upon termination of these projects. The Corps shall also make available for two years from enactment of this Act any project funds remaining from Congressional direction in fiscal year 2006.

The Chief of Engineers should provide a report to the House and Senate Committees on Appropriations within 30 days of enactment of this Act detailing how funds will be distributed to the individual items in the various CAP sections for the fiscal year. The Chief should also provide an annual report at the end of each fiscal year detailing the progress made on the backlog of projects. The report should include the completions and terminations as well as progress of ongoing work. The Appropriations Committees are willing to work with the Corps on any reforms that they might suggest to improve this program.

MISSISSIPPI RIVER AND TRIBUTARIES

The amended bill provides $387,402,000 for Mississippi River and Tributaries (MR&T), instead of $278,000,000 as proposed by the House and $375,000,000 as proposed by the Senate.

The allocation for projects and activities within the Mississippi River and Tributaries account is shown in the following table:

MR&T CONSTRUCTION

Mississippi River Levees, Arkansas, Illinois, Kentucky, Louisiana, Mississippi, Missouri and Tennessee.—Additional funds above the budget request shall be used for the following activities: $6,691,000 for the New Madrid levee closure and box culvert and mitigation land acquisition; continue Item 2, award contracts for Reid-Bedford-King, Item 424–L; Magna Vista-Brunswick, Item 468–L; Bayou Vidal-Elkridge, Item 421–R; Carrollton Levee Enlargement; continue Floodway assessments; Trotters, Mississippi, relief wells; Wilson, Arkansas, relief wells; Cairo, Illinois, Grade Raise and complete LMRMRIS.

Yazoo Basin, Yazoo Backwater, Mississippi.—Funding under this heading includes $246,000 for the Corps of Engineers to design and construct a multi-agency wildlife and environmental interpretative and education center in the South Delta area of the State of Mississippi.

It is the intent of Congress that the conservation easement as stated in the Real Estate Plan section of the draft 2000 Yazoo Backwater reformulation report be acquired for the non-structural flood damage reduction component of the project. The conservation easement is to be used as a flood damage reduction measure and is adequate for the Yazoo Backwater Project. The Chief of Engineers, acting by and through the Vicksburg District, is directed to proceed with real estate activities as may be accomplished in advance of final project approval.

MR&T OPERATION AND MAINTENANCE

Wappapello Lake, Missouri.—Funding under this heading includes $6,396,000, in addition to the budget request, to address actions related to the relocation of U.S. Highway 67 necessary as a result of changes to the operation of the project. The Appropriations Committees direct the Corps to budget fully for the remaining cost of relocations that have resulted from changes to the operation of the project.

Mississippi River Levees, Arkansas, Illinois, Kentucky, Louisiana, Mississippi, Missouri and Tennessee.—Funds provided above the budget request are for gravel surfacing of selected locations along roads on top of levees in Arkansas, Mississippi, and Louisiana to ensure all-weather access for flood response and backlog maintenance.

Additional funding is also included to address the maintenance backlog at Arkabutla, Sardis, Enid and Grenada Lakes in Mississippi.

Collection and Study of Basic Data.—Funds provided under this heading include $1,378,000 for these efforts. Funds provided above the budget request are for LIDAR mapping to be undertaken in the Delta portion of Mississippi.

OPERATION AND MAINTENANCE

The amended bill provides $2,243,637,000 for Operation and Maintenance, instead of $2,655,241,000 as proposed by the House and $2,291,971,000 as proposed by the Senate.

The allocation for projects and activities within the Operation and Maintenance account is shown in the following table:

Tennessee-Tombigbee Waterway, Alabama and Mississippi.—Funding under this heading includes $27,599,000 for this project. Funds above the budget request are provided for the construction of mooring cells near Columbus, Mississippi, for safety of tows tying up during high water levels and lock closure at Whitten and Stennis Locks due to dam safety issues.

McClellan-Kerr, Arkansas River Navigation System, Arkansas and Oklahoma.—An additional $2,534,000 is provided, above the budget request, to begin Planning, Engineering and Design (PED) for the Arkansas/White Cutoff project and to complete repairs on the south end of the Jim Smith Lake Structure.

Dry Creek (Warm Springs) lake and channel, California.—Within the funds provided for this project, $102,000 shall be available to update the inundation maps for the project and $544,000 for hatchery requirements.

San Francisco Bay Harbor, California.—Within the funds provided, $394,000 is to advance the Ocean Beach Nourishment project.

Cherry Creek, Chatfield, and Trinidad Lakes, Colorado.—In addition to the budget request, funds are included for continued repairs at these three lakes. This action in no way is intended to alter the Corps of Engineers' lease and property accountability policies. The Appropriations Committees understand that the State of Colorado has agreed to cost share this project on a 50–50 basis and that the Secretary is not to assume any share in the future of the operation and maintenance of these recreation facilities.

Intracoastal Waterway, Delaware River to Chesapeake Bay, Delaware and Maryland.—In addition to the budget request, funds are included for repairs to the Summit Bridge.

Mississippi River Project (MVR), Illinois.—Within the funds provided, $148,000 is provided for Mill Creek South Slough, Illinois.

Burns Waterway Harbor, Indiana.—Dredging activities for this project should place priority on the Bailly intake pipe area.

Great Lakes Navigation, Indiana, Illinois, Michigan, Minnesota, New York, Ohio, Pennsylvania and Wisconsin.—Within the funds provided under this heading, $6,544,000 is included to execute backlog dredging at commercial navigation projects within the Great Lakes. This funding shall be allocated based on maximizing transportation cost savings, taking into account relationships among harbors. The Corps shall coordinate with the House and Senate Committees on Appropriations as well as other interested parties in allocating this funding.

Clinton Lake, Kansas.—Funding provided under this heading includes $692,000, in addition to the budget request, for the dam toe road access and dam road repairs.

Wolf Creek Dam, Lake Cumberland, Kentucky.—The Appropriations Committees note that Lake Cumberland has been drastically lowered for on-going seepage/stability correction repairs to Wolf Creek Dam. Additional funds provided above the budget request are for pool-lowering mitigation features.

Gulf Intracoastal Waterway, Louisiana.—Funds above the budget request are provided for additional maintenance activities associated with the Inner Harbor Navigation Canal Lock.

J. Bennett Johnston Waterway, Louisiana.—Funding provided under this heading includes additional funds for bank stabilization repairs, dredging entrances to oxbow lakes, routine operation and maintenance activities, annual dredging requirements, and backlog maintenance.

Michigan Harbors, Michigan.—The Appropriations Committees note that there are some 30 federally maintained harbors in Michigan; however, fewer than 10 are budgeted. The Appropriations Committees have attempted to provide for some of the dredging needs of the State. However, recognizing that conditions at these harbors are constantly changing and that the Great Lakes are continuing to suffer from historic low water levels, the Corps is directed to propose a dredging program for fiscal year 2008 that would most effectively utilize the scarce funds available for these harbor projects. This plan should be presented within 30 days of enactment of this Act as a reprogramming action for approval by the House and Senate Appropriations Committees.

Upper Rio Grande Water Operations Model, New Mexico.—Funding provided under this heading includes $492,000 to develop an outline for an integrated management plan of the Rio Grande in New Mexico in cooperation with the Bureau of Reclamation.

Garrison Dam and Lake Sakakawea, North Dakota.—Funding provided under this heading includes $197,000 for mosquito control and $935,000 for the Corps to work in cooperation with the Friends of Lake Sakakawea to ensure the recreation sites around the lake can be utilized.

Ohio River Navigation, Ohio, Indiana, Illinois, Kentucky, Pennsylvania, Tennessee, West Virginia.—Funding provided under this heading includes $2,804,000 to meet the needs identified in the Ohio River and Tributaries Navigation System Five-Year Development Perspective. The Corps shall allocate this funding on a systems basis taking into account the level of funding and urgent requirements of the navigation system. The Corps shall report to the House and Senate Committees on Appropriations on the allocation of the funds.

Willamette Falls Lock, Oregon.—Additional funding is provided above the budget request for continued operations of the lock.

However, the Appropriations Committees have recently become aware of safety and stability concerns with this more than 100 year old multi-chambered lock that primarily serves recreational interests. However, these concerns, and their concomitant funding requirements were raised with the Appropriations Committees after a final agreement had been reached on the Corps of Engineers funding. Further, the information provided by the Corps was grossly inadequate for the Appropriations Committees to make informed decisions which balance competing needs across the Nation. The Corps is therefore directed to initiate the Hydraulic Steel Structure Investigation (HSSI) utilizing the funds provided herein for this project. The Corps should also evaluate the Operation and Maintenance account and determine what non-essential activities may be deferred in the Corps' Northwestern Division to fund completion of this study in fiscal year 2008. The Corps is also instructed to work with local interests to determine what additional funding may be available from state and local sources. The Corps will report to the House and Senate Committees on Appropriations once it has identified additional funding sources, but not later than 45 days after enactment of this Act. Upon completion of the HSSI, the Corps shall report to the House and Senate Committees on Appropriations on measures to be taken to address any safety and stability issues to maintain the operation and the associated costs of these measures. The Appropriations Committees are aware that the safety and stability issues for the lock may prohibit operation of the lock during calendar year 2008.

Schuylkill River, Pennsylvania.—Within the funds provided, $98,000 is to complete necessary document preparation to allow clearance to the authorized 40–foot depth.

Cheyenne River Sioux Tribe, Lower Brule Sioux, South Dakota.—The Appropriations Committees note that title VI of the Water Resources Development Act of 1999 requires that funding to inventory and stabilize cultural and historic sites along the Missouri River in South Dakota, and to carry out the terrestrial wildlife habitat programs, shall be provided from the Operation and Maintenance account. Funding under this heading includes $2,804,000 to protect cultural resource sites and provide funding to the State and tribes for approved restoration and stewardship plans and, in compliance with the requirements of title VI. The Corps is directed to contract with or reimburse the State of South Dakota and affected tribes to carry out these duties.

Waco Lake, Texas.—The funding under this heading includes $1,433,000 for this project, in addition to the budget request, for the replacement of failing water delivery systems and for necessary repairs resulting from recent flooding.

Whitney Lake, Texas.—In addition to the budget request, $1,908,000 is provided for Ham Creek and $940,000 is provided for necessary repairs resulting from recent flooding.

Town Bluff Dam, Texas.—Additional funding is provided for improvements at Campers Cove, Sandy Creek, and East End.

Chinook, Head of Sand Island and Baker Bay, Washington.—The Appropriations Committees note the proximity of Corps navigation facilities on the Columbia River between Chinook and the Head of Sand Island, Washington, and at Baker Bay, Washington, and encourage the Corps of Engineers to seek ways to achieve cost savings and efficiency, such as by utilizing appropriate contracting methods while having these two projects be considered together when seeking bids and awarding contracts.

Mud Mountain Dam, Washington—Within the funds provided, the Corps is directed to use up to $903,000 to satisfy Federal fish passage obligations for the term of the cooperative agreement with Puget Sound Energy.

Ohio River Locks & Dams, West Virginia, Kentucky & Ohio—Additional funding is provided for recreation improvements at Parkersburg.

Fox River, Wisconsin—Additional funds above the budget request are to reimburse the State of Wisconsin, in accordance with the agreement, for the costs of repairs and rehabilitation of the transferred locks and for the Corps of Engineers to undertake major repairs for the dams and associated infrastructure.

Lake Superior Small Harbor Dredging, Wisconsin—Additional funding is included to respond to maintenance needs of small harbors on Lake Superior.

Chief's Twelve Actions—Funding under this heading includes $2,481,000 for this item. The Appropriations Committees believe that these funds can serve to make significant improvements to the way the Corps administers completed projects to account for changed conditions since construction.

National Coastal Mapping—Additional funds provided above the budget request are for LIDAR bathymetry for use in regional sediment management and for Coastal Zone Mapping and Imaging LIDAR/LASER to be conducted in cooperation with the University of Southern Mississippi.

FLOOD CONTROL AND COASTAL EMERGENCIES

The amended bill provides no funding for Flood Control and Coastal Emergencies, instead of $40,000,000 as proposed by the House and $50,000,000 as proposed by the Senate.

REGULATORY PROGRAM

The amended bill provides $180,000,000 for Regulatory programs and activities as proposed by both the House and Senate.

The Appropriations Committees are concerned that the Corps is not completing regulatory approvals and Environmental Impact Reports (EIR) and Environmental Impact Statements (EIS) in an expeditious manner. The Appropriations Committees urge the Corps of Engineers to ensure a 12-month time frame for completion of all EIR/EIS and to undertake other improvements that would expedite regulatory processes, such as requiring an EIR/EIS on major dredge and fill projects only, and expediting or waiving superfluous review at the division level.

The Corps is directed to work with the Office of Surface Mining (OSM) to develop a more efficient process for expediting permit decisions associated with surface coal mining operations. To avoid unnecessary time delays and duplication of agency resources, the Corps shall maintain the availability of a meaningful general permit for surface coal mining that may be issued in coordination with and for the term of the permit already required pursuant to the Surface Mining Control and Reclamation Act (SMCRA). The Corps should also dedicate sufficient personnel and financial resources to support a consistent program for permit review and issuance.

FORMERLY UTILIZED SITES REMEDIAL ACTION PROGRAM

The amended bill provides $140,000,000 for Formerly Utilized Sites Remedial Action Program as proposed by the Senate, instead of $130,000,000 as proposed by the House. The Corps is directed to prioritize sites that are nearing completion and initiate cleanup expeditiously for the former Sylvania nuclear fuel site in Hicksville, New York. Legislative language is included in the bill providing an additional disposal option for FUSRAP waste.

EXPENSES

The amended bill provides $175,046,000 for Expenses as proposed by the Senate, instead of $171,000,000 as proposed by the House.

The Appropriations Committees are concerned that oversight of the Corps of Engineers Civil Works Program is being negatively impacted by tight personnel funding in this account. Accordingly, additional funds have been provided in this account to allow the Corps' Headquarters Office to hire additional personnel to help perform oversight functions.

OFFICE OF ASSISTANT SECRETARY OF THE ARMY (CIVIL WORKS)

The amended bill provides $4,500,000 for the Office of the Assistant Secretary of the Army (Civil Works) as proposed by the Senate, instead of $6,000,000 as proposed by the House. The amended bill provides only salaries and expenses as in previous years.

ADMINISTRATIVE PROVISION

The amended bill includes a provision proposed by both the House and Senate relating to reception and representation expenses and the replacement and hire of passenger motor vehicles.

TITLE I—GENERAL PROVISIONS

The amended bill modifies a provision contained in both the House and Senate bills relating to reprogramming.

The amended bill includes a provision proposed by the House that limits the availability of funds for certain continuing contracts.

The amended bill includes a provision prohibiting implementation of competitive sourcing or High Performing Organization, as proposed by the Senate. The House bill contained a similar provision.

The amended bill includes a provision prohibiting the Corps from divesting or transferring Civil Works functions as proposed by the Senate.

The amended bill modifies a provision concerning report notifications as proposed by the Senate. The House bill contained no similar provision.

The amended bill includes a provision concerning reallocations of Lake Cumberland, Kentucky, as proposed by the Senate.

The amended bill includes a provision allowing the use of the revolving fund for construction of two buildings at the U.S. Army Engineer Research and Design Center as proposed by the Senate.

The amended bill includes a provision concerning in-kind services for the Rio Grande Basin Watershed study as proposed by the Senate. The provision allows for local sponsors of this project to be reimbursed for overpayment of the non-Federal share of the costs of the study.

The amended bill includes a provision regarding the Middle Rio Grande Collaborative Program, New Mexico, as proposed by the Senate.

The amended bill includes a provision concerning the conveyance of surplus property in Tate County, Mississippi, as proposed by the Senate.

The amended bill modifies a provision relating to section 594 of the Water Resources Development Act of 1999 as proposed by the Senate. The provision provides authority for North Dakota to be eligible for environmental infrastructure assistance.

The amended bill includes a provision regarding the Kahuku Storm Damage Reduction Project, Hawaii, as proposed by the Senate.

The amended bill includes a provision related to the Shoreline Erosion Control Development and Demonstration Program as proposed by the Senate.

The amended bill includes a provision related to congressional budget justifications as proposed by the Senate.

The amended bill includes a provision regarding a replacement health care facility at Lake Sakakawea, North Dakota.

The amended bill includes a provision concerning reimbursement for expenses incurred by locals carrying out portions of authorized Federal flood and storm damage reduction projects as proposed by the Senate.

The amended bill includes a provision regarding Johnson Creek, Texas, as proposed by the Senate.

The amended bill includes a provision regarding reimbursements as proposed by the Senate. This provision increases the limits allowed on certain reimbursements for work undertaken by local interests.

The amended bill includes a provision on the Coronado, California, project as proposed by the Senate.

The amended bill includes a provision for the Navajo Reservation, Arizona, Utah and New Mexico, project as proposed by the Senate.

The amended bill includes a provision concerning the visitor reservation services for Corps of Engineers recreation sites as proposed by the Senate.

The amended bill includes a provision concerning the Marshall, Minnesota, project as proposed by the Senate.

The amended bill includes a modified provision concerning the St. John's Bayou-New Madrid Floodway, Missouri, Project. The provision reaffirms the recent District Court decision concerning the economic feasibility and non-separability of the project as currently described in the June 2002 Revised Supplemental Environmental Impact Statement and further supplemented by the March 2006 Revised Supplemental Environmental Impact Statement 2.

The amended bill includes a provision allowing funds provided in Public Law 110–28 to be utilized for the purposes for which they were appropriated as proposed by the Senate.

The amended bill includes a provision relating to the Cedar Hammock (Wares Creek), Florida, project.

The amended bill includes a provision relating to the Manatee Harbor, Florida, project.

The amended bill includes a provision relating to continuing contracts. This provision was carried in the fiscal year 2006 Energy and Water appropriations conference report.

The amended bill includes a provision relating to the Terminus Dam, California, project.

The amended bill includes a provision providing an additional disposal option for FUSRAP waste.

The amended bill includes a provision relating to the cost share of the American and Sacramento Rivers, California, project.

The amended bill includes a provision relating to the White River Navigation project.

The amended bill includes a provision modifying Section 103 under title I of Public Law 109–103 regarding certain landfills in the Muskingum River watershed.

The amended bill includes a provision that transfers approximately 197 acres of surplus Corps of Engineers land to Story County, Iowa. The land is a former site for a Corps of Engineers flood control reservoir initiative, the Skunk River Reservoir Project. The project was abandoned and deauthorized by Congress.

The amended bill modifies a provision regarding Apalachiacola, Chattahoochee and Flint Rivers and Alabama, Coosa and Tallapoosa Rivers, Georgia, Alabama, and Florida, as proposed by the Senate. The House bill included no similar provision. The Appropriations Committees are supportive of finding mutually agreeable solutions to water allocation of the Apalachicola-Chattahootchee-Flint and Alabama-Coosa-Tallapoosa river systems between the states of Alabama, Florida and Georgia. The Corps is directed to continue to support the interstate discussions and to take no actions that adversely impact the outcome.

The amended bill includes a provision concerning the Southeast Louisiana project as proposed by the Senate.

The amended bill includes a provision regarding a reporting requirement for Alaska Coastal Erosion.

The amended bill does not include a provision proposed by the Senate repealing Section 108 under title I of Public Law 109–103 concerning continuing contracts.

The amended bill does not include a provision proposed by the House relating to the dredge McFarland.

The amended bill does not include three provisions proposed by the Senate relating to the Federal dredge fleet.

The amended bill does not include a provision proposed by the House relating to the

Sacramento District Office of the Corps of Engineers.

The amended bill does not include a provision proposed by the Senate relating to the St. Georges Bridge in Delaware.

The amended bill does not include a provision proposed by the Senate relating to the Lower Mud River, Milton, West Virginia, project.

The amended bill does not include a provision proposed by the Senate concerning cooperative agreements.

The amended bill does not include a provision proposed by the Senate relating to the Rio De Flag, Arizona, project.

The amended bill does not include a provision proposed by the Senate relating to Avian Predation in the Columbia River Fish Mitigation project.

The amended bill does not include a provision proposed by the Senate relating to the Santa Ana, California, project.

The amended bill does not include a provision proposed by the Senate relating to the Upper Guadalupe, California, project.

The amended bill does not include a provision proposed by the Senate relating to the Missouri River mitigation project.

The amended bill does not include a provision limiting Corps of Engineers expenditure on a project as proposed by the Senate.

The amended bill does not include a provision proposed by the Senate relating to the McAlpine Lock and Dam project.

The amended bill does not include a provision regarding crediting of non-Federal expenditures on the San Lorenzo River, California, project as proposed by the Senate.

The amended bill does not include a provision proposed by the Senate relating to the Missouri and Middle Mississippi Rivers Enhancement project.

The amended bill does not include a provision proposed by the Senate relating to the Nogales Wash, Arizona, project.

The amended bill does not include a provision proposed by the Senate relating to the Tucson Drainage Area, Arizona, project.

The amended bill does not include a provision proposed by the Senate relating to the Rural Utah (Environmental Infrastructure) project.

The amended bill does not include a provision proposed by the Senate relating to the Connecticut River Watershed Study, New Hampshire, Connecticut, Massachusetts and Vermont, project.

The amended bill does not include a provision proposed by the Senate relating to the Asian carp barriers on the Chicago Sanitary and Ship Canal, Illinois, project.

The amended bill does not include a provision proposed by the Senate relating to a funding limitation on the Modified Waters Deliveries, Florida, project.

TITLE II

DEPARTMENT OF THE INTERIOR

Central Utah Project

Central Utah Project Completion Account

The amended bill includes a total of $43,000,000 as proposed by both the House and Senate. Within the funds provided, $40,404,000 is included for Central Utah project construction; $976,000 for fish, wildlife, and recreation mitigation and conservation; and $1,620,000 for program oversight and administration.

The amended bill also includes legislative language which allows up to $1,500,000 to be used for administrative costs, as proposed by the Senate. This one-time increase in administrative expenses provides funding for costs associated with securing new office space and relocating the Commission's office in fiscal year 2008.

Bureau of Reclamation

WATER AND RELATED RESOURCES

(INCLUDING TRANSFERS OF FUNDS)

The amended bill includes a total of $949,882,000 for Water and Related Resources, instead of $871,197,000 as proposed by the House and $950,106,000 as proposed by the Senate.

Reclamation is directed to conform to the following reprogramming guidelines:

The Bureau is permitted to transfer, without prior Congressional approval and without regard to percentage limitation, not more than $5,000,000 per project to provide adequate funds for settled contractor claims, increased contractor earnings due to accelerated rates of operations, and real estate deficiency judgments, provided that such reprogramming is necessary to discharge legal obligations of the Bureau of Reclamation.

For each project within the Resources Management and Development category for which $2,000,000 or more is available at the beginning of the fiscal year, the Bureau is permitted to transfer to such project in that fiscal year no more than fifteen percent of the amount available at the beginning of the fiscal year for such project, without prior approval from the House and Senate Committees on Appropriations.

For each project within the Resources Management and Development category for which less than $2,000,000 is available at the beginning of the fiscal year, the Bureau is permitted to transfer to such project no more than $300,000 in that fiscal year without prior approval from the House and Senate Committees on Appropriations. A transfer is defined as any movement of funds into or out of a program, project or activity.

The Bureau is further permitted to transfer funds within the Facility Operation, Maintenance and Rehabilitation category without prior Congressional approval and without regard to percentage or dollar limitation.

The Bureau may not transfer, without prior Congressional approval, more than $500,000 from either the Facilities Operation, Maintenance and Rehabilitation category or the Resources Management and Development category to any project in the other category. The Bureau is prohibited from using an internal reprogramming action to initiate, restart, or resume any program, project, or activity that does not receive a Congressional appropriation in fiscal year 2008.

Reclamation is directed to provide quarterly reports to the House and Senate Committees on Appropriation detailing all reprogrammings between projects, activities, or categories of funding.

Funding under this heading is intended to be used as outlined in the following table:

TOTAL WATER AND RELATED RESOURCES	429,486	386,731	561,758	388,126	20000

Central Arizona Project, Colorado River Basin, Arizona.—Within the funds provided, $590,000 is included for activities related to the Gila River settlement in New Mexico.

San Carlos Irrigation Project, Arizona.—Funds have been provided to initiate advance planning and environmental compliance for the San Carlos Irrigation Project.

Central Valley Project, American River Division, California.—Within funds provided, $640,000 shall be available for the El Dorado temperature control device.

Central Valley Project, Friant Division, California.—The recommendation includes an additional $984,000 for the Friant-Kern and Madera canals capacity improvements and an additional $984,000 for the Semitropic Phase II groundwater banking.

Salton Sea Research Project, California.—The recommendation provides $1,132,000 for the Salton Sea research project, including $492,000 to continue environmental restoration efforts for the Alamo and New Rivers, and for other authorized pilot projects.

Southern California investigations program.—The recommendation provides $1,073,000 for the Southern California investigations program, including $394,000 for the Water Replenishment District regional groundwater monitoring program and $492,000 to assist the Lake Arrowhead Community Services District to develop an integrated water resource plan.

Carlsbad Project, New Mexico.—Funding in addition to the budget request is included as follows: $197,000 to assess the rehabilitation of radial gates at Sumner Dam, New Mexico, and $738,000 for implementation of water salvage in partnership with the New Mexico Interstate Stream Commission under the Pecos River Settlement.

Middle Rio Grande Project, New Mexico.—Funding under this heading includes $38,918,000 for the Middle Rio Grande project, $20,325,000 for Resources Management and $18,593,000 for Operations, Maintenance and Replacements. Within the $20,325,000 for Resources Management, $16,010,000 is included for the Collaborative Program and $984,000 for the Silvery Minnow Sanctuary operations. Within the $18,593,000 for Operations, Maintenance and Replacements, $2,165,000 is included for further development of the Upper Rio Grande Water Operations Model and ESA Water conservation planning; $492,000 for initial development of an integrated management plan in partnership with the U.S. Army Corps of Engineers; and $1,968,000 to be transferred to the U.S. Geological Survey for stream gauge repair and development in New Mexico. The Bureau of Reclamation is encouraged to be transparent in its communication of the cost of administration of the Middle Rio Grande Endangered Species Collaborative Program and to implement project management improvements promptly to address the issues and recommendations of the non-Federal partners to the Collaborative Program. Further, the Bureau of Reclamation is also encouraged to work closely with the Middle Rio Grande Conservancy District and the U.S. Army Corps of Engineers to develop a rehabilitation plan for the levee system in the Middle Rio Grande.

Pick-Sloan Missouri Basin, Garrison Diversion Unit, North Dakota.—An additional $48,000,000 has been provided for rural water projects. Of this amount, $24,000,000 shall be expended for the following projects: $9,840,000 for the Northwest Area Water Supply; $492,000 for the Lakota Water Supply; $2,952,000 for the South Central Regional Water District; $984,000 for the Walsh Rural Water District; $984,000 for the South Benson County/North Central Rural Water System; $984,000 for the Traill Rural Water District; $492,000 for the Upham/All Seasons Rural Water System; $1,968,000 for the Williston Water Treatment Plant; $3,936,000 for the Southwest Pipeline; and $1,368,000 for Garrison Water Treatment.

Northern Utah Investigations Program, Utah.—An additional $491,000 is included for the Rural Water Technology Alliance.

Southern Utah Investigations Program, Utah.—The recommendation provides $407,000 for the Southern Utah investigations program, including $295,000 for the San Juan River water pipeline study.

Brackish groundwater national desalination research facility.—Of the $5,805,000 provided under this heading, $2,066,000 is provided to undertake operations and maintenance of the newly constructed Brackish Groundwater National Desalination Research Facility in Alamogordo, New Mexico; $1,181,000 is provided to New Mexico State University for research activities undertaken at or associated with the Facility; and $2,558,000 is provided to New Mexico State University to undertake a research program for development and commercialization of water treatment technology in collaboration with Federal agencies, national laboratories, State agencies, local agencies, industry, educational institutions or other water research entities.

Colorado River Basin Salinity Control Project, Title I.—In the fiscal year 2006 conference report (House Report 109-275), the Appropriations Committees expressed their concern that the Bureau of Reclamation was making excess releases of approximately 100,000 acre-feet of water per year from storage in Colorado River reservoirs to help meet the United States' Colorado River water quality obligations to Mexico. The excess releases are being made because Wellton-Mohawk Irrigation and Drainage District's agricultural return flows—that bypass the Colorado River and are discharged to the Cienega de Santa Clara in Mexico (bypass flows)—are not counted as part of the 1.5 million acre-feet of water that the United States is required to deliver annually to Mexico. Because the bypass flows are not counted, system storage from the Colorado River has been used to make up for the bypass flows. The Yuma Desalting Plant was originally constructed to treat the flows and return a portion of them to the river, thus reducing excess releases from Colorado River reservoirs.

The current drought and projected long-term water demands have heightened concern about this demand on the river system. Consequently, in fiscal year 2006, the Appropriations Committees indicated their support for Reclamation's ongoing public process to address this complex hydrologic problem, considering various methods of recovering or replacing the flows, including options that address potential impacts to wetlands in the Cienega de Santa Clara. Reclamation is encouraged to continue this stakeholder process. In fiscal year 2006, the Bureau of Reclamation was also directed to dedicate sufficient resources to the Yuma Desalting Plant so that one-third operational capacity may be achieved by the end of calendar year 2006. To date, the plant is not one-third operational, although Reclamation did conduct a demonstration run at one-tenth capacity for 90 days in 2007. The Appropriations Committees, once again, direct the Bureau of Reclamation, within the funds provided for the Colorado River Basin Salinity Control Project, title I, to dedicate sufficient funds to the Yuma Desalting Plant so that one-third operational capacity may be achieved by the end of calendar year 2007. The Bureau of Reclamation is also directed to provide the House and Senate Committees on Appropriations with a status report of the plant's operational status by no later than March 1, 2008. If the plant is not one-third operational by the end of calendar year 2007, the report shall include an explanation as to why the Bureau of Reclamation has failed to comply with the Appropriations Committees' directive.

Drought Emergency Assistance.—The budget request is provided for this program. Within the funds provided, the Bureau of Reclamation is urged to provide full and fair consideration for drought assistance requests for the State of Hawaii.

Native American Affairs Program.—The Appropriations Committees are aware of the successful Sid Yates Scholarship Program, particularly at Arizona State University, which focuses on American Indian law students. Tribes, State and Federal agencies have all benefited from this highly leveraged program. The Bureau is encouraged to continue this program beyond the current student enrollment and look for innovative ways to enhance the program for future years.

Title XVI, Water Reclamation and Reuse.—Funding under this heading includes $3,444,000 for this program. Within the funds provided, $2,657,000 is included for the WateReuse Foundation. These are available to support the Foundation's research priorities.

Water Conservation Field Services Program.—Funding under this heading provides $6,510,000 for the Water Conservation Field Services Program. Within the amounts provided, Reclamation is urged to continue urban water conservation projects identified through the Metropolitan Water District of Southern California Innovative Conservation Program; industrial water efficiency surveys to assess opportunities to conserve water in industrial water use; and weather-based irrigation controller activities to speed distribution and acceptance of these landscape water efficiency devices.

Water 2025.—The dire drought the West is currently experiencing combined with an unprecedented number of water users and endangered species requirements and related needs, make water use efficiencies more critical than ever. Funding under this heading provides $5,929,000 for this initiative as proposed by the administration. Funding is included to provide for continued efficiency and water improvements related to the Middle Rio Grande Conservancy District. A critical component of reducing tension among multiple water users is collaborative planning and joint operations. Within the funds provided, funds are provided for the Desert Research Institute to address water quality and environmental issues in ways that will bring industry and regulators to mutually acceptable answers.

CENTRAL VALLEY PROJECT RESTORATION FUND

The amended bill provides $59,122,000 for the Central Valley Project Restoration Fund as proposed by the House instead of $51,622,000 as proposed by the Senate. Legislation for the San Joaquin River Restoration fund was not enacted by Congress; therefore, the Appropriations Committees direct the $7,500,000 in assumed transferred receipts to be expended as follows: Sacramento River Fish Screens, $2,952,000; Trinity River Restoration, $3,000,000; Anadromous Fish Screen Program, $1,548,000.

The funds provided are intended to support the following activities, as delineated below:

Anadromous fish restoration program	$4,500,000
Other Central Valley project impacts	1,500,000
Dedicated project yield	800,000
Flow fluctuation study	50,000
Restoration of riparian habitat and spawning gravel	1,000,000
Central Valley comprehensive assessment/monitoring program	300,000
Anadromous fish screen program	8,932,000
Sacramento fish screens	(2,952,000)
Refuge wheeling conveyance	8,800,000
Refuge water supply, facility construction	5,000,000
Ecosystem/water systems operations model	7,650,000
Water acquisition program	9,990,000
San Joaquin Basin action plan	2,800,000
Land retirement program	1,000,000
Clear Creek restoration	800,000
Trinity River restoration program	4,000,000
San Joaquin River Basin resource management initiative	2,000,000
Total, Central Valley project restoration fund	59,122,000

CALIFORNIA BAY—DELTA RESTORATION

(INCLUDING TRANSFER OF FUNDS)

The amended bill includes $40,098,000 for the California Bay-Delta Restoration program, as proposed by both the House and Senate. The funds provided are intended to support the following activities, as delineated below:

Science	$3,000,000
Environmental water account	7,000,000
Storage program	11,770,000
Los Vaqueros	(3,270,000)
San Joaquin river basin study	(2,500,000)
Sites Reservoir	(3,000,000)
Shasta enlargement	(3,000,000)
Conveyance	7,000,000
Enlarged DMC Intertie w/ Cal Aqueduct Feasibility study	(1,400,000)
San Luis lowpoint feasibility study	(1,400,000)
Delta studies: through delta evaluation	(1,000,000)
Recirculation feasibility study	(1,000,000)
South Delta temporary barriers	(200,000)
Delta vision	(1,348,000)
Ecosystem restoration	3,000,000
Ecosystem restoration projects to be identified	(1,000,000)
Lower San Joaquin fish screens	(1,500,000)
Refuge water supply diversification	(500,000)
Water Use Efficiency	1,500,000
Water Quality	6,250,000
San Joaquin River salinity management	(4,250,000)
Contra Costa Water District alternative intake	(1,000,000)
Interagency ecological program	(1,000,000)
Planning and management activities	1,230,000
CALFED program management	(230,000)
Performance measures and program tracking	(1,000,000)
Total, California Bay-Delta Restoration	40,098,000

POLICY AND ADMINISTRATION

(INCLUDING TRANSFER OF FUNDS)

The amended bill includes $58,811,000 for Policy and Administration as proposed by both the House and Senate.

ADMINISTRATIVE PROVISION

The amended bill includes a provision limiting the purchase of not to exceed 14 passenger vehicles, as proposed by both the House and Senate.

TITLE II—GENERAL PROVISIONS

The amended bill includes a provision regarding the San Luis Unit and Kesterson Reservoir in California, as proposed by both the House and Senate.

The amended bill includes a provision prohibiting the use of funds for any water acquisition or lease in the Middle Rio Grande or Carlsbad Projects in New Mexico unless the acquisition is in compliance with existing state law and administered under state priority allocation as proposed by the Senate.

The amended bill modifies a provision proposed by the Senate regarding Drought Emergency Assistance.

The amended bill includes a provision concerning Water 2025 as proposed by the Senate.

The amended bill includes a provision regarding the Rio Grande Collaborative water operations team as proposed by the Senate.

The amended bill includes a provision concerning the project at Las Vegas Wash and Lake Mead, Nevada, as proposed by the Senate.

The amended bill modifies a provision concerning expended funds from the Desert Terminus Lakes program for the Truckee River Settlement Act as proposed by the Senate.

The amended bill modifies a provision concerning expended funds from the Desert Terminus Lakes program for a number of purposes within Nevada as proposed by the Senate.

The amended bill includes a provision extending the authorization of the Mni Wiconi project from 2008 to 2013 as proposed by the Senate.

The amended bill includes a provision regarding the Inland Empire regional recycling project in California.

The amended bill modifies a provision proposed by the Senate for a reporting requirement to the appropriate House and Senate Appropriations and authorizing Committees concerning changed land use determinations.

The amended bill includes a provision increasing the appropriations ceiling for the Indian Irrigation projects in the Pick-Sloan—Garrison Diversion Unit, North Dakota and South Dakota, as proposed by the Senate.

The amended bill includes a provision extending the authorization for water service contracts in Montana.

The amended bill includes a provision regarding the Southern California Desert Region Integrated Water and Economic Sustainability Plan.

The amended bill does not include a provision proposed by the Senate concerning operations of the Tularosa Basin National Desalination Research Facility.

TITLE III
DEPARTMENT OF ENERGY

The summary tables at the end of this title set forth the amended bill with respect to the individual appropriations, programs, and activities of the Department of Energy. Additional items in the amended bill are discussed below.

The allocations for specific projects and earmarks that were proposed in the separate House and Senate reports are superseded by the detailed allocations contained herein. Other programmatic guidance and reporting requirements identified in the separate House and Senate reports remain effective unless modified by this explanatory statement.

The amended bill provides $24,675,025,000 for the Department of Energy in fiscal year 2008 to fund programs in its five primary mission areas: science, energy, environment, nuclear non-proliferation and national security, instead of $25,243,119,000 as proposed by the House and $25,897,985,000 as proposed by the Senate.

PROJECT MANAGEMENT

The Department of Energy is directed to manage all projects in excess of $100,000,000 total cost in full compliance with DOE Management Order 413.3A.

REPROGRAMMING REQUIREMENTS

The Department of Energy is directed to operate in a manner fully consistent with the following reprogramming guidelines. A reprogramming request must be submitted to the Committees on Appropriations for consideration before any implementation of a reorganization proposal which includes moving previous appropriations between appropriation accounts. The Department is directed to inform the Committees promptly and fully when a change in program execution and funding is required during the fiscal year. To assist the Department in this effort, the following guidance is provided for programs and activities funded in the Energy and Water Development and Related Agencies Appropriations Act. The Department is directed to follow this guidance for all programs and activities unless specific reprogramming guidance is provided for a program or activity.

Definition.—A reprogramming includes the reallocation of funds from one activity to another within an appropriation, or any significant departure from a program, project, activity, or organization described in the agency's budget justification as presented to and approved by Congress. For construction projects, a reprogramming constitutes the reallocation of funds from one construction project identified in the justifications to another project or a significant change in the scope of an approved project.

Any reallocation of new or prior year budget authority or prior year deobligations must be submitted to the Committees in writing and may not be implemented prior to approval by the Committees on Appropriations.

ENERGY EFFICIENCY AND RENEWABLE ENERGY

The amended bill provides $1,739,541,000 for Energy Efficiency and Renewable Energy (EERE) programs, instead of $1,873,844,000 as proposed by the House, and $1,715,551,000 as proposed by the Senate.

Hydrogen Technology.—Funding under this heading in the amended bill includes $213,000,000 for hydrogen technology, the same as the budget request. Within available funds, the Department is directed to fund research on solid oxide fuel cells for small-to-medium scale applications.

Biomass and Biorefinery Systems R&D.—Funding under this heading in the amended bill includes $200,000,000 for integrated research and development on biomass and biorefinery systems, an increase of $20,737,000 over the budget request for additional biomass research solicitations. The Department is directed to include algae as a potential feedstock in its biomass research and development.

Solar Energy.—Funding under this heading in the amended bill provides $170,000,000 for solar energy systems, an increase of $21,696,000 over the budget request, to include $138,000,000 for photovoltaic (PV) energy systems, $30,000,000 for concentrating solar power, and $2,000,000 for solar heating and lighting. The agency should, within available funds, accelerate the development and adoption of a solar PV rating system, and the demonstration of thermo-chemical processes in conjunction with high-temperature solar facilities for hydrogen production.

Wind Energy.—Funding under this heading in the amended bill includes $50,000,000 for wind energy systems, an increase of $9,931,000 over the budget request. The increase is to support integration of wind power and other renewable sources into the electricity grid.

Geothermal Technology.—Funding under this heading in the amended bill includes $20,000,000, an increase of $20,000,000 over the budget request, for deployment of large-scale enhanced geothermal systems, to include accelerating the development of subsurface technologies, including geological and geophysical data collection and synthesis.

Water Power Energy R&D.—Funding under this heading in the amended bill provides $10,000,000, an increase of $10,000,000 over the budget request, for research on conventional hydropower technologies and innovative waterpower technologies, such as thermal and wave technologies, for ocean, tidal and instream-based generation.

Vehicle Technologies.—Funding under this heading in the amended bill provides $215,000,000 for vehicle technologies, an increase of $38,862,000 over the budget request, to include $95,000,000 for hybrid electric systems, an increase of $14,336,000 over the request for advanced battery storage technology research, development and demonstration for electric, hybrid-electric and plug-in hybrid vehicles. The Department is directed to fund $45,000,000 for advanced combustion engine research and development, $40,000,000 for materials technology, $18,000,000 for fuels technology, and $17,000,000 for technology integration. The agency should within available funds competitively bid an award for the Advanced Vehicle Testing Activity within the FreedomCAR and Vehicle Technologies Program to independently test and evaluate all vehicles developed in the upcoming plug-in hybrid electric vehicle demonstration. The Appropriations Committees support the lightweight materials technology research and development on advanced high-strength steels to reduce the weight of commercial and passenger vehicles.

Building Technologies.—Funding under this heading in the amended bill provides $110,000,000 for building technologies, an increase of $23,544,000 over the budget request. The Department is directed to fund $10,000,000 of this increase for the residential and commercial building technologies program, $5,000,000 for solid state lighting, and $8,544,000 for equipment standards and analysis.

Industrial Technologies.—Funding under this heading in the amended bill includes $65,000,000 for industrial technologies, an increase of $19,002,000 over the budget request. The Office of EERE should reconstitute a distributed energy research and development program, and direct $10,000,000 of the increase for the advanced reciprocating engines system program and $5,000,000 for the combined heat and power program. The agency should, within available funds, provide no less than $3,700,000 for steel in the industries (specific) program, and $3,000,000 for the information technology industry, from chip scale to data centers.

Federal Energy Management Programs.—Funding under this heading in the amended bill provides $20,000,000 for the Federal Energy Management Programs, an increase of $3,209,000 over the budget request.

Facilities and Infrastructure.—Funding under this heading in the amended bill provides $76,876,000 for the renewable energy Facilities and Infrastructure account, an increase of $69,144,000 over the budget request. This amount includes $6,982,000 for operations and maintenance of the National Renewable Energy Laboratory (NREL) in Golden, Colorado, the same as the budget request, an increase of $6,894,000 for South Table Mountain infrastructure, an increase of $8,000,000 for NREL solar equipment recapitalization, and an increase of $55,000,000 to begin the NREL Energy Systems Integration Facility.

Program Support.—Funding under this heading in the amended bill provides $10,900,000 for Program Support, a decrease of $2,381,000 below the budget request, but the same as fiscal year 2007 levels. Within available funds, the Office of EERE should establish a FACA-chartered Federal Advisory Council to advise the Office of EERE for Finance, Investment and Technology Deployment.

Program Direction.—Funding under this heading in the amended bill provides $105,013,000 for Program Direction, the same as the budget request.

Federal Energy Assistance Programs.—Funding under this heading in the amended bill provides a total of $473,752,000 for federal energy assistance programs, instead of $314,947,000 as proposed by the House and $398,575,000 as proposed by the Senate. The details of these accounts are as follows:

Weatherization Assistance.—Funding under this heading in the amended bill provides $224,758,000 for weatherization assistance program grants, an increase of $85,308,000 over the budget request, and $4,550,000 for training and technical assistance, the same as the budget request. The funds provided for federal technical assistance and training are intended to be used exclusively to support the effective delivery of weatherization services as set forth in statute and applicable regulations. Any change in program implementation should be proposed to Congress in the Department's budget submission and not implemented before congressional approval is obtained.

International Renewable Energy Program.—No funds are provided for the International Renewable Energy Program, the same as the budget request.

Asia Pacific Initiative.—No funds are provided for the Asia Pacific Initiative, a decrease of $7,500,000 below the budget request.

Tribal Energy Activities.—Funding under this heading in the amended bill provides $6,000,000 for tribal energy activities, an increase of $3,043,000 over the budget request for additional tribal energy projects.

Renewable Energy Production Incentive.—Funding under this heading in the amended bill provides $5,000,000 for the Renewable Energy Production Incentive, an increase of $54,000 over the budget request.

State Energy Program.—Funding under this heading in the amended bill provides $44,500,000 for the State Energy Program, a decrease of $1,001,000 below the budget request, to include $10,000,000 for competitive energy projects.

Congressionally Directed Projects.—Funding under this heading in the amended bill provides $188,944,000 for Congressionally directed projects, for the purposes of research, development, and demonstration of energy efficiency or renewable energy technologies or programs. The agency should remind recipients that statutory cost sharing requirements may apply to these projects. The fiscal year 2006 Energy and Water Development Conference Report (P.L. 109-103), included language within the Wind Energy program of Energy Efficiency and Renewable Energy account directing $750,000 for the Tower Power Project. Because the project did not come to fruition, the agency should redirect the remaining $742,500 of prior funds from the Tower Power Project to fund the University of Maryland Energy Research Center.

CONGRESSIONALLY DIRECTED ENERGY EFFICIENCY AND RENEWABLE ENERGY PROJECTS

PROJECT	
ADVANCED GREEN DESIGN FOR MUSEUM OF NATURAL HISTORY (MN)	$800,000
ADVANCING TEXAS BIOFUEL PRODUCTION (TX)	500,000
AFFORDABLE, ENERGY EFFICIENT, SELF HELP HOUSING (MS)	300,000
ALTERNATE FUEL CELL MEMBRANES FOR ENERGY INDEPENDENCE AT USM (MS)	1,000,000
ALTERNATE FUEL FOR CEMENT PROCESSING AT AUBURN UNIVERSITY (AL)	1,500,000
ALTERNATIVE BIOFUEL INFRASTRUCTURE IN CENTRAL GEORGIA (GA)	350,000
ALTERNATIVE ENERGY GEOTHERMAL TECHNOLOGY DEMONSTRATION PROGRAM (NY)	300,000
ALTERNATIVE ENERGY WORKFORCE APPLICATIONS TRAINING PROGRAM (OH)	832,000

[1] REDIRECTION OF PREVIOUSLY APPROPRIATED FUNDS

ELECTRICITY DELIVERY AND ENERGY RELIABILITY

The amended bill provides $140,000,000 for the Office of Electricity Delivery and Energy Reliability, instead of $134,161,000 as proposed by the House, and $168,437,000 as proposed by the Senate.

Program Direction.—Funding under this heading in the amended bill provides $17,765,000 for electricity delivery and energy reliability program direction, an increase of $378,000 over the budget request.

Congressionally Directed Projects.—Funding under this heading in the amended bill provides $24,685,500 for Congressionally directed projects, for the purposes of research, development, and demonstration of energy technologies or programs. The agency should remind recipients that statutory cost sharing requirements may apply to these projects.

CONGRESSIONALLY DIRECTED ELECTRICITY DELIVERY AND ENERGY RELIABILITY PROJECTS

PROJECT	
ALABAMA POWER PROJECT, INTEGRATED DISTRIBUTION MANAGEMENT SYSTEM (AL)	$2,000,000
BISMARCK STATE COLLEGE, CENTER OF EXCELLENCE (ND)	5,200,000
CHENEGA BAY GENERATOR REPLACEMENT (AK)	385,500
CONNECTICUT ENERGY SAVINGS TECHNOLOGY PROJECT (CT)	750,000
DINE POWER AUTHORITY (AZ)	500,000
ELECTRIC TRANSMISSION LINE IMPROVEMENTS (NY)	1,500,000
ELECTRIC UTILITY TRANSMISSION PROGRAM (WA)	800,000
ENERGY SURETY RESEARCH CENTER AT NEW MEXICO TECH UNIVERSITY (NM)	2,000,000
FLORIDA STATE UNIVERSITY ELECTRIC GRID SYSTEM STUDY (FL)	1,000,000
HIGH VOLTAGE TRANSMISSION LINES PHASE II (TN)	500,000
IOWA STORED ENERGY PLANT (IA)	1,500,000
NATIONAL CENTER FOR RELIABLE ELECTRIC POWER TRANSMISSION (AR)	500,000
NAVAJO TRIBAL UTILITY AUTHORITY, FORT DEFIANCE (AZ)	2,000,000
NEW ALBANY ELECTRICAL SUBSTATION (MS)	900,000
PILOT ENERGY COST CONTROL EVALUATION (WV, PA, & IN)	1,500,000
ROLLS-ROYCE FUEL CELL SYSTEMS (US), INC., STARK STATE COLLEGE OF TECH., FUEL CELL PROTOTYPING CENTER, CANTON, OH, SOLID OXIDE FUEL CELL (OH)	500,000
UNIVERSITY OF MISSOURI-ROLLA DISTRIBUTED ENERGY RESEARCH CENTER (MO)	500,000
UTILITY INTEGRATION OF DISTRIBUTED GENERATION (CA)	600,000
VEHICLE TO GRID DEMONSTRATION PROJECT (DE)	750,000
WAUCHULA MUNICIPAL ELECTRIC SUBSTATION REHAB (FL)	1,000,000
WILLIMAR MUNICIPAL UTILITIES POWER GENERATION STUDY (MN)	300,000

NUCLEAR ENERGY (INCLUDING TRANSFER OF FUNDS)

The amended bill provides $970,525,000 for nuclear energy programs, instead of $759,227,000 as proposed by the House, and $720,558,000 as proposed by the Senate. The total amount available for Nuclear Energy programs and facilities is $1,046,474,000, including $75,949,000 of costs allocated to the 050 budget function (i.e. defense activities) for Idaho Site-wide and Security activities. The amended bill includes a provision that authorizes and funds the Mixed Oxide Fuel Fabrication facility in the Nuclear Energy appropriation, as proposed by the House. The amended bill includes a provision that codifies the application of DOE Order 413.3A to MOX construction management.

University Reactor Fuel Assistance and Support.—Funding under this heading in the amended bill provides no direct funds for grants and fellowships that support nuclear science and engineering education at the Department of Energy. DOE annually requests no funding for education assistance, and the Congress sees fit every year to restore it. For fiscal year 2008, the funding for the university nuclear education assistance program is provided in the Nuclear Regulatory Commission appropriation account to provide a sustainable education assistance program.

Nuclear Power 2010.—Funding under this heading in the amended bill provides $135,000,000 for Nuclear Power 2010, an increase of $21,000,000 over the budget request to accelerate the preparation and approval of combined operating licenses.

Generation IV Nuclear Energy Systems Initiative.—Funding under this heading in the amended bill provides $116,000,000 for Generation IV nuclear energy systems. The Department is directed to accelerate work on the Next Generation Nuclear Plant (NGNP). Of this amount $74,000,000 is for the NGNP project, of which no less than $38,000,000 is for establishing a reference conceptual design and baseline cost. Funding under this heading in the amended bill provides $36,000,000 for establishing a licensing strategy and an aggressive pre-application program with the Nuclear Regulatory Commission that includes: developing substantial industry involvement; advancing and testing key enabling technologies; developing a cost-and-risk sharing concept for the NGNP; and establishing a project plan, vendor team and international cooperation framework. The Appropriations Committees emphasize the importance of developing a strong private sector-based partner for the NGNP, and provide $26,000,000 for advancing critical-path enabling gas reactor technology including materials testing and qualification and fuel development, testing and qualification, $9,000,000 to continue work with Russia on gas reactors, and $7,000,000 for deep burn (actinide management) characteristics of gas-cooled reactors.

Nuclear Hydrogen Initiative.—Funding under this heading in the amended bill provides $10,000,000 for the nuclear hydrogen initiative.

Fuel Cycle Research and Facilities.—Funding under this heading in the amended bill provides $462,349,000 for fuel cycle research and facilities, and is intended to be used as follows: $233,849,000 for the construction of the Mixed-Oxide Fuel Fabrication (MOX) facility, and $47,500,000 for MOX facility other project costs, for a total of $281,349,000 of new budget authority for the MOX project at the Savannah River Site. The Appropriations Committees are concerned about the management of the MOX fuel fabrication facility, and the amended bill includes a provision that codifies the application of DOE Order 413.3A to MOX construction management. The Appropriations Committees direct the Government Accountability Office to monitor the construction and management of the MOX facility, and report to the Committees on a quarterly basis on the progress of the fuel fabrication facility, regarding scope, cost and schedule changes and performance. The Appropriations Committees direct the Department to provide the Committees a revised cost baseline and schedule for the MOX facility based on the level of funding provided by the Committees. The Department is directed to utilize $115,000,000 of prior-year unobligated balances for MOX in the nuclear energy research and development program, available for transfer from the Defense Nuclear Nonproliferation account.

Funding under this heading in the amended bill provides $181,000,000 for the Advanced Fuel Cycle Initiative (AFCI). Of this amount, $151,000,000 is for continued research and development on spent fuel recycling and advanced reactor design, and no funds are provided for facility construction for technology demonstration or commercialization. The Department is directed to make available 50 percent of the AFCI funds for research and development in an agency-wide solicitation for universities, national laboratories, and commercial entities. Funding under this heading in the amended bill provides $15,000,000 for hot-cell upgrades at Los Alamos National Laboratory, and $15,000,000 at Oak Ridge National Laboratory.

Space and defense infrastructure.—Funding under this heading in the amended bill provides $30,650,000 for space and defense infrastructure.

Medical isotopes infrastructure.—Funding under this heading in the amended bill provides $14,964,000 for medical isotopes infrastructure.

Research reactor infrastructure.—Funding under this heading in the amended bill provides $2,947,000 for fresh reactor fuel and disposal of spent fuel for university reactors.

Oak Ridge nuclear infrastructure.—No funds are provided in the nuclear infrastructure account for Oak Ridge National Laboratory (ORNL). Instead, funding is provided within the Advanced Fuel Cycle Initiative.

Idaho National Laboratory (INL) operations and infrastructure.—Funding under this heading in the amended bill provides $117,000,000 for INL operations and infrastructure, an increase of $9,837,000 over the budget request for the Advanced Test Reactor national scientific user facility infrastructure transition activities and experiments.

Idaho site-wide safeguards and security.—Funding under this heading in the amended bill is provided as a transfer of $75,949,000 from the Other Defense Activities account to the Nuclear Energy program.

Program Direction.—Funding under this heading in the amended bill provides a total funding level for program direction of $81,615,000, to accommodate federal personnel associated with the increased activities in the Nuclear Energy program.

Congressionally Directed Projects.—The agency should, within available funds, provide $4,000,000 for Congressionally directed projects, for the purposes of research, development, and demonstration of nuclear energy technologies or programs: CVD single-crystal diamond optical switch (MD) $1,000,000 and Technologies Ventures Corporation for technology transfer activities (NM) $3,000,000. The agency should remind recipients that statutory cost-sharing requirements may apply to these projects.

LEGACY MANAGEMENT

The amended bill provides $34,183,000 for the activities of the Office of Legacy Management. The Appropriations Committees do not support the consolidation of Legacy Management activities within the Non-Defense Environmental Management account, and continue the Office of Legacy Management as a stand-alone appropriation.

CLEAN COAL TECHNOLOGY

(INCLUDING DEFERRAL AND TRANSFER OF FUNDS)

The Revised Continuing Appropriations Resolution for Fiscal Year 2007 (Public Law 110–5) deferred $257,000,000 in unobligated Clean Coal Technology balances to fiscal year 2008. The amended bill transfers $166,000,000 to the Fossil Energy Research and Development account in fiscal year 2008, and recommends the deferral of $149,000,000 in Clean Coal Technology balances until fiscal year 2009, as proposed by the Senate, and not the rescission of the balances in fiscal year 2008 as proposed by the House.

FOSSIL ENERGY RESEARCH AND DEVELOPMENT

(INCLUDING TRANSFER OF FUNDS)

The amended bill provides $750,000,000 for Fossil Energy Research and Development programs, instead of $708,801,000 proposed by the House and $808,113,000 as proposed by the Senate. The amended bill includes a provision that permits the hire of passenger vehicles and other items as proposed by the House. The amended bill includes provisions proposed by the Senate that would encourage participation in the Clean Coal Power Initiative Round III, addressing cost increases, cost sharing, and repayment. The amended bill includes a provision that affirms Round III of the Clean Coal Power Initiative must focus on demonstrating advanced coal-based technologies that capture and sequester carbon, or put carbon dioxide emissions to beneficial reuse. The House bill contained no similar provisions. The amended bill includes provisions as proposed by the Senate that permit up to 4 percent of National Energy Technology Laboratory (NETL) program direction funds to be used for DOE activities not in the Fossil Energy account, and allow Federal employees performing research and development at NETL to be funded from any appropriate program account. The amended bill does not include a provision proposed by the Senate that reduces overall cost-sharing requirements for the Clean Coal Power Initiative as this is redundant with the Energy Policy Act of 2005 (EPAct).

Report requirement.—The Department is directed to submit to the House and Senate Committees on Appropriations a report on liquefied natural gas (LNG), as outlined in the House report, by December 1, 2008, which is to be funded in Advanced Research within Fuels and Power Systems.

Clean Coal Power Initiative.—Funding under this heading in the amended bill includes $70,000,000 for the Clean Coal Power Initiative (CCPI), a decrease of $3,000,000 below the budget request.

FutureGen.—Funding under this heading in the amended bill includes $75,000,000 for FutureGen, $33,000,000 below the budget request due to unused prior year funds. The Appropriations Committees are concerned about maintaining adequate funding for the core fossil energy research, development, and demonstration programs. Should the FutureGen program continue to maintain significant balances of unused funds or the project not continue, the Department is directed to submit a request to the Appropriations Committees for approval to reprogram the balances for other coal research and development activities.

Fuels and Power Systems.—Funding under this heading in the amended bill includes $352,912,000 for Fuels and Power Systems, an increase of $107,310,000 over the budget request. Within the funds provided, $36,412,000 is for Innovations of Existing Plants, an increase of $36,412,000 over the budget request to include carbon capture, innovative CO_2 compression, energy/water technologies or beneficial uses of CO_2; $54,000,000 for Advanced Integrated Gasification Combined Cycle, an increase of $4,000,000 over the budget request; and $24,000,000 for Advanced Turbines, an increase of $2,000,000 over the budget request. Funding under this heading provides $120,000,000 for Carbon Sequestration, an increase of $40,923,000 over the budget request. The Department is encouraged to study the CO_2 accelerated growth algae technology to recycle carbon and produce fuels. Funding under this heading includes $25,000,000 for Fuels, an increase of $15,000,000 over the budget request for coal-biomass and hydrogen fuels research; $56,000,000 for Fuel Cells, a decrease of $6,025,000 below the budget request; and $37,500,000 for Advanced Research, an increase of $15,000,000 above the budget request, of which $8,000,000 is to support the liquefied natural gas report.

Natural gas technologies.—Funding under this heading in the amended bill provides $20,000,000 for natural gas technologies, an increase of $20,000,000 over the budget request, to include $15,000,000 for methane gas hydrates research and development, and $5,000,000 for effective environmental production programs.

Petroleum-oil technologies.—Funding under this heading in the amended bill provides $5,000,000 for petroleum-oil technologies, an increase of $5,000,000 over the budget request to include $1,500,000 for the Stripper Well Consortium, $1,200,000 for the Risk Based Data Management System, and $2,300,000 for the unconventional and enhanced oil recovery programs.

Program direction.—Funding under this heading in the amended bill provides $149,962,000 for program direction, an increase of $19,989,000 over the budget request for shortfalls in the budget request to cover cost escalations and other needs at various NETL sites.

Other.—Funding is provided in the amended bill for the following activities: $13,000,000 for Plant and Capital Equipment; $9,570,000 for Fossil Energy Environmental Restoration; $656,000 for Special Recruitment Programs; and $5,000,000 for Cooperative Research and Development. No funds have been provided for Section 964 of EPAct as proposed by the Senate.

Congressionally Directed Projects.—Funding under this heading in the amended bill provides $48,900,000 for Congressionally directed projects, for the purposes of research, development, and demonstration of coal and other fossil energy related technologies or programs. The Department should remind recipients that statutory cost-sharing requirements may apply to these projects.

CONGRESSIONALLY DIRECTED FOSSIL ENERGY RESEARCH AND DEVELOPMENT PROJECTS

PROJECT	
ARCTIC ENERGY OFFICE (AK)	$7,000,000
ARROWHEAD CENTER AT NEW MEXICO STATE UNIVERSITY TO PROMOTE PROSPERITY AND PUBLIC WELFARE IN NEW MEXICO THROUGH ECONOMIC DEVELOPMENT (NM)	1,000,000
CARBON SEQUESTRATION STUDY (OH)	1,000,000
CENTER FOR ADVANCED SEPARATION TECHNOLOGIES (VA)	1,000,000
CENTER FOR INSTRUMENTED CRITICAL INFRASTRUCTURES (PA)	1,000,000
CENTER FOR ZERO EMISSIONS RESEARCH AND TECHNOLOGY (MT)	6,000,000
COAL FUELS ALLIANCE (KY)	1,450,000
COLORADO SCHOOL OF MINES, GOLDEN, CO, COLORADO.CENTER FOR SUSTAINABLE ENERGY AT THE COLORADO SCHOOL OF MINES (CO)	1,000,000
DIRECT CARBON FUEL CELL PROTOTYPE (CA)	750,000
EASTERN ILLINOIS UNIVERSITY POWER PLANT (IL)	500,000
FUEL RESEARCH AND DEVELOPMENT AT NORTHERN ILLINOIS UNIVERSITY (IL)	1,000,000
GULF OF MEXICO HYDRATES RESEARCH CONSORTIUM AT THE UNIVERSITY OF MISS. (MS)	1,000,000
INTERDISCIPLINARY CLEAN ENERGY PROGRAM AT THE UNIVERSITY OF UTAH (UT)	3,500,000
ITM REACTION-DRIVEN CERAMIC MEMBRANE SYSTEMS (PA)	1,000,000
MEMBRANE TECHNOLOGY FOR PRODUCED WATER AT LEA COUNTY (NM)	1,500,000
NE OHIO CARBON SEQUESTRATION PIPELINE SCOPING STUDY (OH)	1,000,000
NORTH DAKOTA ENERGY AND ENVIRONMENT RESEARCH CENTER, GRAND FORKS, FOSSIL FUEL COOPERATIVE RESEARCH & DEVELOPMENT (ND)	4,000,000
NORTH DAKOTA ENERGY AND ENVIRONMENT RESEARCH CENTER, GRAND FORKS, NATIONAL CENTER FOR HYDROGEN TECHNOLOGY (ND)	3,000,000
OHIO RIVER CLEAN FUELS CO2 PRODUCTION & EMISSIONS STUDY (OH)	250,000
PENN STATE UNIVERSITY, SOLID OXIDE FUEL CELLS (PA)	4,000,000
RAMGEN, BELLEVUE, WA, CO2 COMPRESSION INITIATIVE UTILIZING SHOCKWAVE/RAMJET COMPRESSION TECHNOLOGY (WA)	1,200,000
SHALLOW CARBON SEQUESTRATION PILOT DEMONSTRATION (MO)	2,500,000
STRIPPER WELL CONSORTIUM (PA)	1,500,000
THE GULF PETRO INITIATIVE (LA)	750,000
UNIVERSITY OF WYOMING - CARBON SEQUESTRATION MONITORING ACTIVITIES (WY)	1,650,000
WEST VIRGINIA UNIVERSITY, ADVANCED COAL TECH. (LIQUEFACTION) IN CHINA (WV)	350,000

NAVAL PETROLEUM AND OIL SHALE RESERVES

The amended bill provides $20,472,000 for the operation of the Naval Petroleum and Oil Shale Reserves, instead of $17,301,000 as proposed by the House and $21,301,000 as proposed by the Senate. Within available funds, $1,441,000 is directed for the Naval Petroleum Reserve #3 and $2,000,000 for Los Alamos National Laboratory to support in basin scale environmental impacts for oil shale production.

STRATEGIC PETROLEUM RESERVE

The amended bill provides $188,472,000 for the Strategic Petroleum Reserve, a decrease of $143,137,000 below the budget request, instead of $163,472,000 as proposed by the House and the Senate. The Department is directed to use $25,000,000 to acquire land at a new site consistent with the budget request. The Appropriations Committees provide for the operation of the Strategic Petroleum Reserve, but do not support the expansion of the reserve to 1.5 billion barrels.

NORTHEAST HOME HEATING OIL RESERVE

The amended bill provides $12,448,000 for the Northeast Home Heating Oil Reserve, instead of $5,325,000 as proposed by the House and $12,825,000 as proposed by the Senate. The increase of $7,123,000 over the budget request is to accommodate increased costs for storage leases.

ENERGY INFORMATION ADMINISTRATION

The amended bill provides $96,337,000 for the Energy Information Administration instead of $105,095,000 as proposed by the House and the Senate. Within available funds, $1,000,000 is provided for the National Academy of Sciences to support the International Institute for Advanced Systems Analysis's Global Energy Assessment.

NON-DEFENSE ENVIRONMENTAL CLEANUP

The amended bill provides $183,937,000 for Non-Defense Environmental Cleanup instead of $286,041,000 as proposed by the House or $195,437,000 as proposed by the Senate. Funding under this heading in the amended bill includes an increase of $5,000,000 for the acceleration of the decontamination and decommissioning of the graphite reactor at Brookhaven National Laboratory.

The amended bill does not support the consolidation of Legacy Management activities within the Non-Defense Environmental Management account. The amended bill includes a provision regarding the cleanup requirements at the Energy Technology and Engineering Center at the Santa Susana Field Laboratory, as proposed by the Senate.

Energy Technology and Engineering Center.—The Appropriations Committees are aware of the suspension of the Department's deactivation and decommissioning activities at the Energy Technology and Engineering Site, Santa Susana Field Laboratory, in Simi Valley, California. The Appropriations Committees are very concerned with the need to assure thorough site characterization and cleanup and will be monitoring the Department's actions closely.

Internal reprogramming authority.—The agency should follow the internal reprogramming authority as directed in the House report, omitting Legacy Management as a control point.

Economic development.—None of the Non-Defense Environmental Management funds, including those provided in the Non-Defense Environmental Cleanup and Uranium Enrichment Decontamination and Decommissioning Fund, are available for economic development activities.

Report requirement.—The Appropriations Committees direct the Department to provide a report within 180 days of enactment of this Act on the annual funding requirements needed to complete remediation of the Moab uranium mill tailings site and removal of the tailings to the Crescent Junction site in Utah no later than the year 2019.

URANIUM ENRICHMENT DECONTAMINATION AND DECOMMISSIONING FUND

The amended bill provides $627,876,000 for activities funded from the Uranium Enrichment Decontamination and Decommissioning Fund, instead of $618,759,000 proposed by the House and $573,509,000 proposed by the Senate. Funding under this heading includes an increase of $54,367,000 over the budget request for decontamination and decommissioning activities at the Oak Ridge East Tennessee Technology Park K–25 process building. Funding under this heading provides the budget request for cleanup at Paducah and Portsmouth facilities. The amended bill also provides $20,000,000 for the Title X uranium and thorium reimbursements program, the same as the budget request and the House, and instead of no funds as proposed by the Senate.

SCIENCE

The amended bill provides $4,055,483,000 for Science instead of $4,514,082,000 as proposed by the House and $4,496,759,000 as proposed by the Senate. Funds previously provided for the Coralville, Iowa, project in the Consolidated Appropriations Act, 2004, are rescinded.

High Energy Physics.—Funding under this heading in the amended bill includes $694,638,000 for High Energy Physics. Within funding for Proton Accelerator-Based Physics, no funds are provided for the NOνA activity in Tevatron Complex Improvements. Within Advanced Technology R&D, in the current constrained environment and without a Critical Decision 0 by the Department, only $15,000,000 is provided for International Linear Collider R&D and $5,455,000 for Superconducting RF R&D.

The Committees on Appropriations appreciate the Beyond Einstein Program architecture report by the National Research Council and support its recommendations. Accordingly, the Department of Energy is directed to proceed jointly with NASA to conduct and complete an open, competitive selection of the science investigation and payload for the Joint Dark Energy Mission (JDEM) during 2008. This selection should use the NASA Announcement of Opportunity process and have as its primary science selection criterion the achievement of improved understanding of dark energy and include improved understanding in astrophysics generally as a secondary criterion. The selection should be made jointly by one official each from NASA and DOE. If DOE and NASA cannot agree on a joint approach for mission implementation, DOE should provide no future year support for this activity or for other space science satellite missions. The Department is directed to continue support for the Super Nova Acceleration Probe during fiscal year 2008.

The control level is at the High Energy Physics level.

Nuclear Physics.—Funding under this heading in the amended bill includes $436,700,000 for Nuclear Physics. Within Nuclear Physics, construction is funded at $17,700,000, the same as the request.

Biological and Environmental Research.—Funding under this heading in the amended bill includes $549,397,000 for Biological and Environmental Research. This area of the Office of Science encompasses two distinct research efforts: Biological Research, using biology to address energy production and environmental remediation, and Climate Change Research. The Department is directed to request funds for Biological Research and Climate Change Research as separate subaccounts in fiscal year 2009 and future fiscal years.

Biological Research.—Funding under this heading in the amended bill includes $411,273,000 for Biological Research, including $31,500,000 for Medical Applications and Measurement Science. The increase of $17,500,000 is for nuclear medicine research. All of the added funds must be awarded competitively in one or more solicitations that include all sources—universities, the private sector, and government laboratories—on an equal basis. The Committees on Appropriations support the language contained in the Senate report on Advanced Materials Testing and Low Dose Research. The Committees on Appropriations also note that diagnostics are currently in development between the University of New Mexico (UNM) and Los Alamos National Laboratory utilizing the unique capabilities of Los Alamos National Laboratory at the IPF at LANSCE and the radiopharmaceutical expertise of UNM at the Center for Isotopes in Medicine.

Climate Change Research.—Funding under this heading in the amended bill includes $138,124,000 for Climate Change Research, the same as the request.

Basic Energy Sciences.—Funding under this heading in the amended bill includes $1,281,564,000 for Basic Energy Sciences. Within Basic Energy Sciences, $15,000,000 is provided for the Experimental Program to Stimulate Competitive Research (EPSCoR).

Reprogramming.—For purposes of reprogramming during fiscal year 2008, the Department may allocate funding among all operating accounts within Basic Energy Sciences, consistent with the reprogramming guidelines outlined in House Report 110–185.

Nanoscience Research Centers.—The Committees on Appropriations support ongoing research at the Nanoscale Science Research Centers and Manuel Lujan Jr. Neutron Scattering Center.

Construction.—Given current budget constraints, funding under this heading in the amended bill includes less funding than requested for two projects where the start of major construction activity can be delayed.

Advanced Scientific Computing Research.—Funding under this heading in the amended bill includes $354,398,000 for Advanced Scientific Computing Research. Within Advanced Scientific Computing Research, $19,500,000 is included for the Office of Science to continue the Department's participation in the Defense Advanced Research Projects Agency High Productivity Computing Systems partnership and an increase of $7,700,000 is included for the Oak Ridge Leadership Computing Facility to maintain the planned budget and cost schedule.

The Office of Science and the National Nuclear Security Administration (NNSA) are directed to establish the Institute for Advanced Architectures and Algorithms with Centers of Excellence at Sandia National Laboratories and Oak Ridge National Laboratory. These Centers will execute a national program involving industry, universities and national laboratories that is focused on technologies to sustain the U.S. leadership in high performance computing. The NNSA ASC and Office of Science ASCR programs will jointly fund the program and provide direction needed to support the goal of developing exascale computing for the Nation.

Fusion Energy Sciences.—Funding under this heading in the amended bill includes $289,180,000 for Fusion Energy Sciences. Within Fusion Energy Sciences, $162,910,000 is provided for Science, $93,504,000 for U.S. Facility Operations, an increase of $6,000,000 to be used to increase facility operations at the three U.S. user facilities (i.e., the DIII-D, Alcator C-Mod, and National Spherical Torus Experiment) $22,042,000 for Enabling R&D, an increase of $1,225,000 for materials research, $0 for the U.S. contribution to ITER, and $10,724,000 for Enabling R&D for ITER. Funding under this heading in the amended bill includes $12,281,000 for High Energy Density Physics. Funding may not be reprogrammed from other activities within Fusion Energy Sciences to restore the U.S. contribution to ITER.

Science Laboratories Infrastructure.—Funding under this heading in the amended bill includes $65,456,000 for infrastructure activities. Within Science Laboratories Infrastructure, $1,520,000 is provided to continue payments in lieu of taxes for Argonne and Brookhaven National Laboratories, $5,079,000 for Oak Ridge Laboratory landlord expenses, and $8,828,000 for excess facilities disposition, as requested. Also included is $50,029,000 for MEL-001 Multiprogram energy laboratory infrastructure projects at various locations.

The Committees on Appropriations continue to be supportive of the Physical Sciences Facility at the Pacific Northwest National Laboratory, and $25,000,000 for this facility is included in funding provided for MEL-001. This amount is $10,000,000 below the request for this facility in the Office of Science. The Department is directed to increase the future year funding contribution of the Office of Science for this facility by $10,000,000 to restore the baseline funding contribution from the Office of Science. To keep this project on schedule, $25,000,000 is included in Defense Nuclear Nonproliferation.

The Committees on Appropriations understand that the modernization of Laboratory 4500 at Oak Ridge National Laboratory can be accomplished more efficiently than originally proposed in the fiscal year 2007 budget request. The Department is directed to use the existing $2,000,000 of PED funding, plus the requested construction funding under the MEL-001 infrastructure project, for the design and construction of a new multi-purpose laboratory to replace 4500N.

Safeguards and Security.—Funding under this heading in the amended bill includes $76,592,000 for Safeguards and Security, the same as the request.

Science Workforce Development.—Funding under this heading in the amended bill includes $8,118,000 for Science Workforce Development.

Science Program Direction.—Funding under this heading in the amended bill includes $179,412,000 for Science Program Direction including $6,644,000 to support the New Brunswick Laboratory.

Funding Adjustments.—Funding under this heading in the amended bill includes an offset of $5,605,000 for the safeguards and security charge for reimbursable work.

Congressionally Directed Projects.—Funding under this heading in the amended bill includes $125,633,000 for Congressionally Directed Projects.

WAKE FOREST UNIVERSITY RESEARCH ON ALTERNATIVES TO TRANSPLANTATION (NC)	1,000,000
WESTMINSTER COLLEGE SCIENCE CENTER (UT)	400,000
WIPP IN CARLSBAD, NEW MEXICO, TO SUPPORT NEUTRINO RESEARCH (NM)	1,500,000
XAVIER UNIVERSITY SCIENCE EQUIPMENT (OH)	500,000

NUCLEAR WASTE DISPOSAL

The amended bill provides $189,000,000 for Nuclear Waste Disposal instead of $202,454,000 as proposed by the House and $204,054,000 as proposed by the Senate. The amended bill also provides $201,000,000 for Defense Nuclear Waste Disposal, $91,046,000 less than the request. This provides a total of $390,000,000 for the repository program in fiscal year 2008.

Funding under this heading in the amended bill provides funds for affected elements of state and local government including $1,600,000 for the cooperative agreement between the Department of Energy and Inyo County, California.

The Department is directed to develop a plan to take custody of spent fuel currently stored at decommissioned reactor sites to both reduce costs that are ultimately borne by the taxpayer and demonstrate that DOE can move forward in the near-term with at least some element of nuclear waste policy. The Department should consider consolidation of the spent fuel from decommissioned reactors either at an existing federal site, at one or more existing operating reactor sites, or at a competitively-selected interim storage site. The Department should engage the sites that volunteered to host Global Nuclear Energy Partnership facilities as part of this competitive process.

The control level is at the Nuclear Waste Disposal account level, so the Department may move funding between the repository program and program direction subaccounts.

ENVIRONMENT, SAFETY AND HEALTH

Following the specific request from the Department of Energy for congressional approval to transfer appropriations among accounts as part of the implementation of the Department's reorganization associated with the formation of the Office of Health, Safety and Security, the Committees on Appropriations have approved the request and provided funds formerly included in Environment, Safety and Health in the accounts for which they were requested. Consequently, the amended bill provides no funds for Environment, Safety and Health instead of $31,625,000 as proposed by the House.

INNOVATIVE TECHNOLOGY LOAN GUARANTEE PROGRAM

The amended bill restates loan guarantee authority as provided in the Energy Policy Act of 2005, and makes this authority available until September 30, 2009. The Department is directed to make no authority available in excess of $38,500,000,000, to be allocated as follows: $18,500,000,000 of loan guarantees are for nuclear power facilities; $6,000,000,000 of loan guarantees are for coal-based power generation and industrial gasification activities at retrofitted and new facilities that incorporate carbon capture and sequestration or other beneficial uses of carbon; $2,000,000,000 of loan guarantees are for advanced coal gasification; $10,000,000,000 of loan guarantees are for renewable and/or energy efficient systems and manufacturing, and distributed energy generation, transmission and distribution; and $2,000,000,000 of loan guarantees are for advanced nuclear facilities for the "front-end" of the nuclear fuel cycle.

Prior to the issuance of a loan guarantee solicitation, the Department of Energy is directed to submit a loan guarantee implementation plan within 45 days of a solicitation, defining the award levels and eligible technologies, to the Committees on Appropriations for approval. No funds can be made available for the execution of a loan guarantee solicitation until a plan is submitted and approved. Should the plan change after approval by the Committees, it must be submitted again for approval by the Committees. Funding under this heading in the amended bill includes $5,500,000 for administrative expenses for the loan guarantee office, instead of $2,390,000 as proposed by the House, and $8,390,000 as proposed by the Senate. The amended bill includes a provision that enables the Department to credit loan guarantee fees as offsetting collections.

DEPARTMENTAL ADMINISTRATION

(INCLUDING TRANSFER OF FUNDS)

The amended bill provides a net appropriation of $149,778,000 for Departmental Administration expenses. This amount includes a transfer of $99,000,000 from Other Defense Activities for defense-related Departmental Administration activities and the Congressional Budget Office estimate of $161,818,000 for revenues. Specific funding levels for each organization funded under the Departmental Administration account are detailed in the accompanying table. The amended bill provides representation expenses not to exceed $30,000 instead of $5,000 as proposed by the House, and $35,000 as proposed by the Senate.

DOE pension and medical benefits.—The Appropriations Committees reaffirm the House report language regarding the revised contract reimbursement policy concerning pension and medical benefits. A final report by the Government Accountability Office (GAO) assessing the adequacy of the Department's analysis of pension and medical liabilities is due to the Appropriations Committee by April 1, 2008.

Management.—Funding under this heading in the amended bill provides $65,439,000 for the Management account, an increase of $1,500,000 above the budget request for the Office of Management to contract with the National Academy of Public Administration (NAPA), as specified in the House report, for a review of procurement and contracting practices.

Chief Financial Officer.—Funding under this heading in the amended bill provides $42,260,000 for the Office of the Chief Financial Officer, an increase of $2,000,000 over the budget request to complete financial systems upgrades and training.

Loan Guarantee Office.—No funds are provided for the loan guarantee office within the Departmental Administration account. Funding in the amount of $5,500,000 is provided for the loan guarantee office as a separate appropriation.

General Counsel.—Funding under this heading in the amended bill provides $30,076,000 for the General Counsel, the same as the budget request. The agency should direct $500,000 within this account for new hires to support additional attorney assistance for energy efficiency-related matters.

No funds are provided for the Competitive Sourcing Initiative (A-76), a reduction of $1,770,000 below the request. Funding under this heading in the amended bill provides $3,360,000 for the Public Affairs office, a reduction of $500,000 below the budget request, as adequate prior year balances are available for this account.

OFFICE OF THE INSPECTOR GENERAL

The amended bill provides $46,480,000 for the Office of the Inspector General, instead of $47,732,000 as proposed by the House and the Senate.

ATOMIC ENERGY DEFENSE ACTIVITIES

NATIONAL NUCLEAR SECURITY ADMINISTRATION

The National Nuclear Security Administration (NNSA), a semi-autonomous agency within the Department of Energy, manages the Nation's nuclear weapons programs, nuclear nonproliferation programs, and naval reactors activities.

The amended bill provides $8,894,695,000 for National Nuclear Security Administration activities instead of $8,786,881,000 as proposed by the House and $9,564,545,000 as proposed by the Senate. The amended bill makes funds available until expended.

NUCLEAR WEAPONS ACTIVITIES

U.S. Nuclear Weapons Strategy for the 21st Century.—The Congress agrees to the direction contained in the House and Senate reports requiring the Administration, in consultation with the Secretary of Energy, the Administrator of the NNSA, the Department of Defense, including the Joint Chiefs of Staff and Strategic Command, and the Intelligence Community, and other appropriate independent, non-government science and security advisory organizations, to develop and submit to the Congress a comprehensive nuclear weapons strategy for the 21st century.

Reliable Replacement Warhead.—The amended bill provides no funds for the Reliable Replacement Warhead (RRW), as proposed by the House. As stated in both the House and Senate reports, Congress believes a new strategic nuclear deterrent mission assessment for the 21st century is required to define the associated stockpile requirements and determine the scope of the weapons complex modernization plans. The NNSA is directed to develop a long-term scientific capability roadmap for the national laboratories to be submitted to the Committees on Appropriations.

Advanced Certification.—The Department is directed to implement a new Science Campaign called Advanced Certification. Congress believes the recent findings of the JASON Defense Advisory Group revealed significant systemic gaps in NNSA's stockpile certification process and weapons campaign work products. Therefore, the NNSA is directed to develop a work scope to address: improvement of the weapons certification process through expanded, independent peer review mechanisms and refinement of computational tools and methods; advancement of the physical understanding of surety mechanisms; further exploration of failure modes; manufacturing process assessments; and the study of strategic system-level requirements. Funding under this heading in the amended bill provides $15,000,000 in fiscal year 2008 for Advanced Certification activities. The Administrator of the NNSA is directed to submit an expenditure plan for these funds no later than 60 days after enactment of this Act and to submit a report to the Committees on Appropriations no later than six months after enactment of this Act on the progress made in implementing the JASON's recommendations and improving the stockpile certification process.

REPROGRAMMING GUIDELINES

Reprogramming authority.—The Department is provided limited reprogramming authority within the Weapons Activities account without submission of a reprogramming to be approved in advance by the House and Senate Committees on Appropriations. The reprogramming control levels are as follows: subprograms within Directed Stockpile Work; Life Extension Programs, Stockpile Systems, Warhead Dismantlement, and Stockpile Services. Additional reprogramming control levels are as follows: Science Campaigns, Engineering Campaigns, Inertial Confinement Fusion Ignition and High Yield, Advanced Simulation and Computing, Pit

Manufacturing and Certification, Readiness Campaigns, and Readiness in Technical Base and Facilities (RTBF). The Department is not provided reprogramming authority between site allocations for Readiness in Technical Base and Facilities Operations of Facilities. In addition, funding of not more than $5,000,000 may be transferred between each of these categories and each construction project, with the exception of the RTBF site allocations, subject to the following limitations: only one transfer may be made to or from any program or project; the transfer must be necessary to address a risk to health, safety or the environment; and funds may not be used for an item for which Congress has specifically denied funds or for a new program or project that has not been authorized by Congress.

The Department must notify Congress within 15 days of the use of this reprogramming authority. Transfers during the fiscal year which would result in increases or decreases in excess of $5,000,000 or which would exceed the limitations outlined in the previous paragraph require prior notification of and approval by the House and Senate Committees on Appropriations.

WEAPONS ACTIVITIES

(INCLUDING TRANSFER OF FUNDS)

The amended bill provides $6,355,633,000 for Weapons Activities instead of $5,879,137,000 as proposed by the House and $6,489,024,000 as proposed by the Senate.

DIRECTED STOCKPILE WORK

Funding under this heading in the amended bill includes $1,413,879,000 for Directed Stockpile Work instead of $1,336,594,000 as proposed by the House and $1,409,521,000 as proposed by the Senate.

Life Extension Program.—Funding under this heading in the amended bill includes $236,231,000 for Life Extension Program activities.

Stockpile Systems.—Funding under this heading in the amended bill includes $343,152,000 for Stockpile Systems activities.

Reliable Replacement Warhead (RRW).—No funding is provided for the Reliable Replacement Warhead as proposed by the House.

Warhead Dismantlement.—Funding under this heading in the amended bill includes $135,888,000 for Warhead Dismantlement. Within the funding provided, $14,846,000 is included for upgrading the Device Assembly Facility (DAF) at the Nevada Test Site for additional missions. The amended bill transfers the Pit Disassembly and Conversion Facility (PDCF) construction project from the Office of Defense Nuclear Nonproliferation to the NNSA Office of Defense Programs. Funding under this heading in the amended bill includes $69,330,000 for the PDCF project.

Stockpile Services.—Funding under this heading in the amended bill includes $698,608,000 for Stockpile Services.

CAMPAIGNS

Funding under this heading in the amended bill includes $1,890,717,000 for Campaigns. Within the funds provided, the budget request level of funding is available for the university research program in robotics (URPR).

Science Campaigns.—Funding under this heading in the amended bill includes $290,216,000 for Science Campaigns. The Committees on Appropriations include an additional $4,949,000 for Test Readiness activities at the Nevada Test Site to maintain the capabilities restored under the enhanced test readiness program.

Advanced Certification.—Funding under this heading in the amended bill includes $15,000,000 for a new campaign focused very narrowly on addressing the long-term scientific issues related to continued certification of the nuclear stockpile without underground nuclear testing and the scientific uncertainties identified by the JASON review of the RRW feasibility study activities. Within the funding provided for Advanced Certification, $5,000,000 is derived from the remaining uncosted balances from the Microsystems and Engineering Science Applications project and the Exterior Communication Infrastructure Modernization contingency funds. The NNSA Administrator must submit a written report to the defense committees by May 1, 2008, outlining a program plan that addresses the specific certification issues, including the issues identified in the JASON RRW review, which will be addressed in the Advanced Certification campaign.

Engineering Campaigns.—Funding under this heading in the amended bill includes $171,075,000 for Engineering Campaigns. Within the funds provided, $10,000,000 is available for enhanced surety work to increase the safety and security of nuclear weapons in the existing stockpile and develop new technologies for incorporation into potential future systems. The amended bill authorizes the use of $10,000,000 in remaining uncosted balances from the Microsystems and Engineering Science Applications project and the Exterior Communication Infrastructure Modernization contingency funds to initiate a construction start for the Ion Beam Laboratory Project.

Inertial Confinement Fusion Ignition and High Yield.—Funding under this heading in the amended bill includes $474,442,000 for Inertial Confinement Fusion Ignition and High Yield. This funding includes an additional $15,113,000 to accelerate target development and fabrication, and restores $29,691,000 of funding for the Inertial Fusion Technology program. Within the funds provided for Inertial Fusion Technology, $14,691,000 is for continuing development of high average power lasers and $15,000,000 is for the Naval Research Laboratory. A total of $62,044,000 is provided for the Laboratory for Laser Energetics (LLE) operations, an increase of $9,000,000 over the budget request, to provide additional shots to support the goal of an ignition demonstration at the National Ignition Facility (NIF) in 2010. An additional $13,000,000 is provided to fully fund single shift operations of the Z machine at Sandia National Laboratory. Z machine operations funding includes $28,887,000 provided within the Readiness and Technical Base and Facilities (RTBF) subheading account in Weapons Activities.

Advanced Simulation and Computing.—Funding under this heading in the amended bill includes $579,714,000 for Advanced Simulation and Computing. The Department of Energy is directed to establish the Institute for Advanced Architectures and Algorithms between the NNSA and the Department of Energy Office of Science with Centers of Excellence at Sandia National Laboratories and Oak Ridge National Laboratory. These Centers will execute a national program involving industry, universities and national laboratories that is focused on technologies to sustain the U.S. leadership in high performance computing. The NNSA ASC and Office of Science ASCR programs will jointly fund the program and provide direction needed to support the goal of developing exascale computing for the Nation.

Pit Manufacturing and Certification.—Funding under this heading in the amended bill includes $215,758,000 for Pit Manufacturing and Certification. The Administrator is directed to manage the pit activities as a single, coherent project and adopt strict adherence to DOE Order 413.3A. No funds are provided for the consolidated plutonium center.

Until a modern nuclear weapons strategy, including required pit production capacity defined by nuclear stockpile requirements, is developed, the NNSA is directed to constrain the out-year planning for plutonium operations to a pit production capacity no greater than 80 pits per year. The NNSA Administrator is directed to provide quarterly reports to the Committees on Appropriations on pit production, with the first report due on April 1, 2008.

Readiness Campaigns.—Funding under this heading in the amended bill includes $159,512,000 for Readiness Campaigns.

READINESS IN TECHNICAL BASE AND FACILITIES

Funding under this heading in the amended bill provides $1,652,132,000 for Readiness in Technical Base and Facilities instead of $1,479,632,000 as proposed by the House and $1,659,248,000 as proposed by the Senate.

Operations of Facilities.—Funding under this heading in the amended bill includes $1,164,856,000 for RTBF Operations of Facilities. Within the funds provided, an additional $37,649,000 is for the Y–12 Plant in Tennessee and $18,817,000 for the Pantex Plant in Texas and $9,064,000 for the Lawrence Livermore National Laboratory in California and $17,011,000 for implementation of a Classified Vaults project at Los Alamos National Laboratory in New Mexico. The House direction is adopted providing the RTBF Operations and Facilities site funding in site-specific allocations in the detail table at the end of title III. All proposed shifts in funding between site-specific allocations require the submittal of a reprogramming request to the House and Senate Committees on Appropriations.

Program Readiness.—Funding under this heading in the amended bill includes $70,731,000 for Program Readiness.

Material Recycling and Recovery.—Funding under this heading in the amended bill includes $72,212,000 for Material Recycling and Recovery, an increase of $2,250,000 over the budget request.

Containers.—Funding under this heading in the amended bill includes $21,956,000 for Containers, an increase of $2,772,000 over the budget request.

Storage.—Funding under this heading in the amended bill includes $34,772,000 for Storage.

Construction.—Funding under this heading in the amended bill includes $287,605,000 for RTBF Construction. This funding includes $15,143,000 for Project 08–D–802, High Explosive Pressing Facility, Pantex, Texas; $41,926,000 for Project 06–D–140, Project Engineering and Design (PED), various locations, including $38,957,000 for Project 06–D–140–05 Uranium Processing Facility (UPF), Y–12 Plant, Oak Ridge, Tennessee. Within the funds provided for Project 06–D–140, $990,000 is provided for Project 06–D–140–01, TA–55 Radiography Facility, Los Alamos National Laboratory, New Mexico. Funding under this heading also includes $1,979,000 for Project 05–D–140, Project Engineering and Design, various locations; $74,809,000 for Project 04–D–125, Chemistry and Metallurgy Facility Replacement Project, Los Alamos National Laboratory, New Mexico; $29,152,000 for Project 04–D–128, TA–18 Mission Relocation Project, Los Alamos National Laboratory, New Mexico; and $76,208,000 for Project 01–D–

124, HEU Materials Facility, Y-12 Plant, Oak Ridge, Tennessee.

FACILITIES AND INFRASTRUCTURE RECAPITALIZATION

Funding under this heading in the amended bill includes $181,613,000 for Facilities and Infrastructure Recapitalization.

SECURE TRANSPORTATION ASSET

Funding under this heading in the amended bill includes $213,428,000 for Secure Transportation Asset.

NUCLEAR WEAPONS INCIDENT RESPONSE

Funding under this heading in the amended bill includes $160,084,000 for Nuclear Weapons Incident Response.

ENVIRONMENTAL PROJECTS AND OPERATIONS

Funding under this heading in the amended bill includes $8,669,000 for Environmental Projects and Operations.

SAFEGUARDS AND SECURITY

Safeguards and Security.—Funding under this heading in the amended bill includes $907,625,000 for Safeguards and Security. Within these funds are provided $7,000,000 to each of the following facilities: the Los Alamos National Laboratory in New Mexico, the Y-12 Plant in Tennessee, and the Lawrence Livermore National Laboratory in California, for additional physical and cyber security upgrades to meet Design Basis Threat requirements and address cyber security vulnerabilities.

Construction.—Funding for safeguards and Security includes $71,751,000 for construction activities. An additional $14,846,000 is provided for the refurbishment of Building 651 and completion of Building 691 at the Idaho National Laboratory to handle special nuclear material consolidation, storage and other missions. The amended bill transfers $4,900,000 provided in fiscal year 2006 in the Other Defense Activities account to begin planning activities for the Idaho project.

FUNDING ADJUSTMENTS

Funding Adjustments.—Funding under this heading in the amended bill includes the use of $86,514,000 of prior year balances made available from completed or cancelled construction projects. The recommendation includes an adjustment of $34,000,000 for the safeguards and security charge for reimbursable work.

Congressionally Directed Projects.—Funding under this heading in the amended bill includes $48,000,000 in congressionally directed projects.

CONGRESSIONALLY DIRECTED WEAPONS ACTIVITIES PROJECTS

PROJECT	
ADVANCED ENGINEERING ENVIRONMENT AT SANDIA LABORATORY (CA, MA)	$1,500,000
ATOMIC TESTING MUSEUM IN LAS VEGAS, FOR OPERATIONS AND MAINTENANCE (NV)	600,000
CIMTRAK CYBER SECURITY (IN)	1,000,000
INTERAGENCY ADVANCED COMPUTING RESEARCH, EQUIPMENT AND FACILITIES AT NEXTEDGE TECHNOLOGY PARK (OH)	4,000,000
KANSAS CITY PLANT MULTI-DISCIPLINED INTEGRATED COLLABORATION (MO)	1,000,000
LABORATORY FOR ADVANCED LASER-TARGET INTERACTIONS (OH)	2,000,000
NATIONAL MUSEUM OF NUCLEAR SCIENCE AND HISTORY IN ALBUQUERQUE, NEW MEXICO, FOR THE MUSEUM SITE (NM)	750,000
NEVADA TEST SITE FOR OPERATIONS AND INFRASTRUCTURE IMPROVEMENTS (NV)	18,000,000
NORTH DAKOTA STATE UNIVERSITY (FARGO) TO SUPPORT COMPUTING CAPABILITY (ND)	8,000,000
NORTHWEST INDIANA COMPUTATIONAL GRID AT NOTRE DAME AND PURDUE CALUMET UNIVERSITIES (IN)	6,000,000
SECURE WIRELESS DEVICES AND SENSORS (IN)	250,000
TECHNICAL PRODUCT DATA INITIATIVE (OH)	1,000,000
UNIVERSITY OF NEVADA-LAS VEGAS FOR IN-SITU NANOMECHANICS (NV)	350,000
UNIVERSITY OF TEXAS IN AUSTIN, TEXAS, TO COMPLETE THE CONSTRUCTION OF THE PETAWATT LASER (TX)	3,500,000

DEFENSE NUCLEAR NONPROLIFERATION

(INCLUDING RESCISSIONS OF FUNDS)

The amended bill provides a total program level of $1,673,275,000 for Defense Nuclear Nonproliferation instead of $2,070,646,000 as proposed by the House and $1,929,646,000 as proposed by the Senate. The amended bill includes $1,351,275,000 of new budget authority and the use of $322,000,000 of prior year balances in fiscal year 2008.

NONPROLIFERATION AND VERIFICATION RESEARCH AND DEVELOPMENT

Funding under this heading in the amended bill includes $390,752,000 for Nonproliferation and Verification Research and Development, an increase of $125,500,000 over the budget request. The amended bill provides an additional $60,000,000 in proliferation detection to expand research in critical research and development for high-risk, high return nuclear detection capabilities and an additional $20,000,000 for the implementation of a sustained research and development capacity in nuclear detection and nuclear materials security. The NNSA has the lead responsibility for the federal government in nuclear detection, counter-proliferation and counterterrorism, and this capability must be sustained to meet the evolving threats. An additional $20,500,000 is provided for nuclear explosion monitoring.

This account includes $25,000,000 for Project 06-D-180, National Security Laboratory at the Pacific Northwest National Laboratory, an increase of $25,000,000 over the request. Funds not needed for project engineering and design (PED) on Project 06-D-180 may be used without prior committee approval for Project 06-D-180 construction activities.

The Department is directed to conduct a competitive solicitation open to all federal and non-federal entities toward an integrated suite of research, technology development and demonstration areas including infrasound, hydroacoustic for ground-based systems treaty monitoring activities. The competitive process should award not less than $5,000,000 of the additional funding for nuclear explosion monitoring for research and development activities for ground-based treaty monitoring.

NONPROLIFERATION AND INTERNATIONAL SECURITY

Funding under this heading in the amended bill includes $151,370,000 for Nonproliferation and International Security, an increase of $26,500,000 over the budget request. An additional $8,000,000 is provided for Dismantlement and Transparency; an additional $10,000,000 for Global Security Engagement and Cooperation for Global Initiatives for Proliferation and Prevention; and an additional $8,500,000 for International Regimes and Agreements to expand international cooperation on multilateral nuclear nonproliferation goals and objectives.

Nuclear Disablement Activities in North Korea.—The Committees on Appropriations are concerned about the NNSA resources required to support disablement of North Korea's nuclear weapons arsenal and production capability. The Committees on Appropriations strongly support NNSA's contributions to this diplomatic mission, but remain concerned about relying upon a mid-year reprogramming of resources from other critical nonproliferation programs to support what is currently a fluid and uncertain effort. From within the funds provided for Nonproliferation and International Security, the NNSA has funding discretion to provide up to $10,000,000 toward NNSA activities to continue disablement activities to shut down nuclear weapons activities in North Korea. The Department is directed to submit a supplemental budget request if additional resources are required to continue activities during fiscal year 2008.

INTERNATIONAL NUCLEAR MATERIALS PROTECTION AND COOPERATION

Funding under this heading in the amended bill includes $630,217,000 for International Nuclear Materials Protection and Cooperation. Within the funds provided, $269,331,000 is available for Second Line of Defense activities, including an additional $50,000,000 for the Megaports initiative to accelerate deployment of radiation detection equipment at international seaports.

ELIMINATION OF WEAPONS-GRADE PLUTONIUM PRODUCTION

Funding under this heading in the amended bill includes $181,593,000 for the Elimination of Weapons-Grade Plutonium Production program, the same as the budget request.

FISSILE MATERIALS DISPOSITION

Funding under this heading in the amended bill includes $66,843,000 for Fissile Materials Disposition, as proposed by the House. Program activities and functions for the Mixed Oxide (MOX) Fuel Fabrication Facility construction project are transferred to the Office of Nuclear Energy and the program activities and functions for the Pit Disassembly and Conversion Facility (PDCF) activity are transferred to the NNSA Office of Defense Programs. The use of $322,000,000 in prior year balances is specified under Funding Transfers from the Russian Plutonium Disposition activities and the Mixed Oxide Fuel Fabrication project for other purposes within Defense Nuclear Nonproliferation. A total of $115,000,000 of unobligated, uncosted prior year balances are transferred to the Nuclear Energy account.

GLOBAL THREAT REDUCTION INITIATIVE

Funding under this heading in the amended bill includes $195,000,000 for Global Threat Reduction Initiative, an increase of $75,374,000 over the budget request.

INTERNATIONAL NUCLEAR FUEL BANK

The amended bill provides $50,000,000 for an International Nuclear Fuel Bank initiative. The $50,000,000 for the International Nuclear Fuel Bank is the United States Government's contribution to an international effort to establish a nuclear fuel supply for peaceful means under the auspices of the International Atomic Energy Agency (IAEA). The International Nuclear Fuel Bank will provide a nuclear fuel stockpile to be available as a fuel supply reserve for nations that have made the sovereign choice to develop their civilian nuclear energy industry based on foreign sources of nuclear fuel and therefore have no requirement to develop an indigenous nuclear fuel enrichment capability. Not later than 120 days after the date of enactment of this Act, the Secretary of Energy shall transmit to the House and Senate Committees on Appropriations and the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate a report on the progress of the United States to support the establishment of a nuclear fuel supply for peaceful means under the auspices of the IAEA.

RELIABLE FUEL SUPPLY

The Secretary of Energy established a stockpile of low enriched nuclear fuel from the down blend of 17.4 metric tons of Highly Enriched Uranium, excess to U.S. needs. This stockpile was to be designated for the sale to foreign countries that support U.S. nonproliferation goals in the event of an unforeseen supply disruption in the global nuclear fuel market. In light of the establishment of the International Nuclear Fuel Bank, the Secretary is directed to allow U.S. interests to purchase uranium fuel from the Reliable Fuel Supply in the event of a supply disruption.

FUNDING ADJUSTMENTS

The funding adjustments in Defense Nuclear Nonproliferation include the use of $322,000,000 of prior year balances. The sources of the prior year balances are $57,000,000 from the Russian Surplus Materials Disposition program, $115,000,000 from unobligated, uncosted balances within the Mixed Oxide fuel fabrication facility construction activities, and the remaining $151,000,000 of unexpended balances from the Russian material disposition funding provided in the fiscal year 1999 emergency supplemental (P.L. 105-277).

Congressionally Directed Projects.—Funding provided in the amended bill under this heading includes $7,500,000 in congressionally directed projects within the Defense Nuclear Nonproliferation account.

CONGRESSIONALLY DIRECTED DEFENSE NUCLEAR NONPROLIFERATION PROJECTS

PROJECT	
GEORGE MASON UNIVERSITY CENTER FOR BIODEFENSE AND INFECTIOUS DISEASE RESEARCH (VA)	$3,000,000
NEW ENGLAND RESEARCH IN WHITE RIVER JUNCTION, VERMONT, FOR THE CAUCASUS SEISMIC NETWORK (TX)	1,500,000
NUCLEAR SECURITY SCIENCE AND POLICY INSTITUTE, TEXAS A&M (TX)	2,000,000
OFFSHORE DETECTION INTEGRATED SYSTEM (OH)	1,000,000

NAVAL REACTORS

The amended bill provides $781,800,000 for Naval Reactors, the same funding level as fiscal year 2007.

OFFICE OF THE ADMINISTRATOR

The amended bill provides $405,987,000 for the Office of the Administrator. The Administrator is directed to support the increase in Defense Nuclear Nonproliferation activities with sufficient resources to support federal travel requirements to support the expanded nuclear nonproliferation activities.

Congressionally Directed Projects.—Funding under this heading in the amended bill includes $22,500,000 in congressionally directed projects in support of the Historically Black Colleges and Universities (HBCU) programs within the Office of the Administrator account.

CONGRESSIONALLY DIRECTED OFFICE OF THE ADMINISTRATOR (NNSA) PROJECTS

PROJECT	
ACE PROGRAM AT MARICOPA COMMUNITY COLLEGES (AZ)	$1,000,000
MOREHOUSE COLLEGE ENERGY SCIENCE RESEARCH AND EDUCATION INITIATIVE (GA)	2,000,000
SOUTH CAROLINA HBCU MATH AND SCIENCE INITIATIVE (SC)	10,500,000
WILBERFORCE HBCU (OH)	1,500,000
CENTRAL STATE HBCU (OH)	1,500,000
EDUCATIONAL ADVANCEMENT ALLIANCE HBCU GRADUATE PROGRAM (PA)	4,000,000
MARSHALL FUND MINORITY ENERGY SCIENCE INITIATIVE (MD)	2,000,000

ENVIRONMENTAL AND OTHER DEFENSE ACTIVITIES

DEFENSE ENVIRONMENTAL CLEANUP

(INCLUDING TRANSFER OF FUNDS)

The amended bill provides $5,398,573,000 for the Defense Environmental Cleanup program, instead of $5,766,561,000 as proposed by the House, and $5,690,380,000 as proposed by the Senate. The agency should direct the Department to fund hazardous waste worker training at $10,000,000 within available funds.

Economic development.—The Appropriations Committees direct that none of the Defense Environmental Cleanup funds are available for economic development activities unless specifically authorized by law.

Internal Reprogramming authority.—In fiscal year 2008, the Department may transfer up to $5,000,000 within accounts and between accounts, as noted in the table below, to reduce health or safety risks or to gain cost savings as long as no program or project is increased or decreased by more than $5,000,000 in total during the fiscal year. This reprogramming authority may not be used to initiate new programs or to change funding for programs specifically denied, limited, or increased by Congress in the Act or explanatory statement. The Committees on Appropriations in the House and Senate must be notified within thirty days of the use of this reprogramming authority.

Account Control Points:

Closure Sites
Savannah River site, nuclear material stabilization and disposition
Savannah River site, 2012 accelerations
Savannah River sita, 2035 accelerations
Savannah River Tank Farm
Waste Isolation Pilot Plant
Idaho National Laboratory
Oak Ridge Reservation
Hanford site 2012 accelerated completions
Hanford site 2035 accelerated completions
Office of River Protection (ORP) Waste Treatment & Immobilization Plant (WTP)
ORP WTP Pretreatment facility
ORP WTP High-level waste facility
ORP WTP Low activity waste facility
ORP WTP Analytical laboratory
ORP WTP Balance of facilities
Program Direction
Program Support
Uranium Enrichment D&D Fund contribution
Technology Development

Closure Sites.—Funding under this heading in the amended bill includes $42,437,000, the same as the budget request.

Savannah River Site.—Funding under this heading provides $1,141,590,000 for cleanup at the Savannah River Site, a decrease of $64,500,000 below the budget request. The Department accommodated funding shortfalls at the Savannah River Site during fiscal year 2007, therefore the Appropriations Committees adjust the fiscal year 2008 funding to reflect the additional funds provided in fiscal year 2007. Funding under this heading provides $1,000,000 for the plutonium vitrification facility, a reduction of $14,000,000 below the budget request. The Appropriations Committees will reconsider funding this project again when plutonium vitrification has been confirmed by the Department as a plausible disposition pathway for the small amount of plutonium not appropriate for MOX fuel.

Waste Isolation Pilot Plant (WIPP).—Funding under this heading in the amended bill provides $236,739,000 for the WIPP, an increase of $17,000,000 over the budget request for the activities listed in the Senate report, including the Center of Excellence for Hazardous Materials.

Idaho National Laboratory.—Funding under this heading in the amended bill provides $513,026,000 for the Idaho National Laboratory (INL), an increase of $9,000,000 for cleanup activities. The funding levels provided under this heading for INL reflect a redistribution of the budget request to better reflect the current needs at the INL.

Oak Ridge Reservation.—Funding under this heading in the amended bill provides $192,284,000 for the Oak Ridge Reservation, an increase of $13,000,000 over the budget request, to include $30,000,000 for the disposition of material in building 3019, an increase of $10,000,000 over the budget request. Funding under this heading provides $9,379,000 for soil and water remediation at offsite locations, an increase of $3,000,000 to accelerate the completion of the David Witherspoon sites.

Hanford Site.—Funding under this heading in the amended bill provides $894,640,000 for the Hanford Site, an increase of $17,560,000 over the budget request. Of this increase, the $10,000,000 is for increased groundwater remediation, and $7,560,000 is for additional transuranic waste retrieval and characterization, and mixed low-level and low-level waste disposal to meet Tri-Party Agreement milestones. Within available funds, the agency is directed to fund the Volpentest Hazardous Materials Management and Emergency Response (HAMMER) training and education center, and B-Plant preservation at no less than fiscal year 2006 levels.

Office of River Protection.—Funding under this heading in the amended bill provides $978,443,000 for the Office of River Protection, an increase of $15,000,000 over the budget request. The increase is to support the demonstration of the bulk vitrification system, and to support tank farm retrievals. Funding under this heading provides $690,000,000 for the Waste Treatment Plant.

Program direction.—Funding under this heading in the amended bill provides $309,760,000 for program direction.

Program support.—Funding under this heading in the amended bill provides $33,146,000 for program support.

Federal Contribution to Uranium Enrichment Decontamination and Decommissioning Fund.—Funding under this heading in the amended bill includes the budget request of $463,000,000 for the Federal contribution to the Uranium Enrichment Decontamination and Decommissioning Fund as authorized in Public Law 102–486.

Technology development and deployment.—Funding under this heading in the amended bill provides $21,389,000 for the technology development and deployment program.

NNSA Sites.—Funding under this heading in the amended bill provides $292,930,000 for NNSA sites, an increase of $21,800,000 over the budget request. Of the increase, $7,800,000 is provided for Pantex for required groundwater remediation and monitoring wells, and $14,000,000 supports additional cleanup at Los Alamos National Laboratory.

Safeguards and security.—Funding under this heading in the amended bill provides $261,714,000 for safeguards and security, a reduction of $11,667,000 due to sufficient uncosted carryover balances in fiscal year 2007.

Legacy Management.—The Appropriations Committees do not support the consolidation of Legacy Management activities within the Defense Environmental Management account as proposed by the House.

Material Consolidation Office.—The Appropriations Committees remain skeptical regarding the quality of the analytical underpinnings of the Department's decision to utilize H-canyon as the primary disposition pathway for material consolidation efforts. The Appropriations Committees await the findings of the GAO review in early 2008, and will make future recommendations accordingly. The Appropriations Committees provide funding for H-canyon operations and plutonium vitrification at the Savannah River Site, and do not support the House proposal to restrict the funds to the Headquarters office at this time.

Congressional Directed Projects.—Funding under this heading in the amended bill provides $17,475,000 for congressionally directed projects.

CONGRESSIONALLY DIRECTED DEFENSE ENVIRONMENTAL CLEANUP PROJECTS

PROJECT	
CELLULAR BIOENGINEERING, INC., HONOLULU, HAWAII, TO CONTINUE DEVELOPMENT OF POLYMERIC HYDROGELS FOR RADIATION DECONTAMINATION (HI)	$1,500,000
CERAMATEC INCORPORATED IN SALT LAKE CITY, UTAH, FOR REMEDIATION OF LOW-LEVEL NUCLEAR WASTE UTILIZING CERAMIC IONIC TRANSPORT MEMBRANES (UT)	1,500,000
INTERNATIONAL ALTERNATIVE CLEANUP TECHNOLOGY AGREEMENT (PA, SC)	5,000,000
SAVANNAH RIVER NATIONAL LAB IN SOUTH CAROLINA FOR INTEGRATED COLLABORATIVE PROTOTYPING ENVIRONMENT (SC)	1,000,000
UNIVERSITY OF NEVADA, RENO, CENTER FOR MATERIALS RELIABILITY (NV)	2,725,000
UNIVERSITY OF NEVADA, RENO, DEPARTMENT OF CIVIL AND ENVIRONMENTAL ENGINEERING, FOR CONTINUED EXPANSION OF THE JAMES E. ROGERS AND LOUIS WEINER JR. LARGE-SCALE STRUCTURES LABORATORY (NV)	2,000,000
UNIVERSITY OF NEVADA, RENO, FIRE SCIENCE ACADEMY AT ELKO (NV)	1,000,000
UNIVERSITY OF NEVADA, RENO, TECHNOLOGY TRANSFER INITIATIVE (NV)	750,000
WESTERN ENVIRONMENTAL TECHNOLOGY OFFICE (MT)	2,000,000

OTHER DEFENSE ACTIVITIES

(INCLUDING TRANSFER OF FUNDS)

The amended bill provides $761,290,000 for Other Defense Activities instead of $604,313,000 as proposed by the House and $765,464,000 as proposed by the Senate.

OFFICE OF HEALTH, SAFETY, AND SECURITY

Funding under this heading in the amended bill includes $429,348,000 for the Office of Health, Safety, and Security as proposed by the Senate. The reorganization requested by the Department—combining the Office of Environment, Safety, and Health and the Office of Security and Performance Assurance—is adopted. Within the funds provided, $16,500,000 is available for the Worker Health Screening program, an increase of $4,000,000 over the budget request. The Office of Health, Safety, and Security is directed to initiate an early lung cancer screening program as proposed by the Senate.

LEGACY MANAGEMENT

Funding under this heading in the amended bill includes $156,379,000 for the Office of Legacy Management, a reduction of $2,684,000 from the budget request. From within available funds, $500,000 is provided for the Rocky Flats Cold War Museum in Colorado.

FUNDING FOR DEFENSE ACTIVITIES IN IDAHO

Funding under this heading in the amended bill includes $75,949,000 to fund defense-related activities at the Idaho National Laboratory.

DEFENSE-RELATED ADMINISTRATIVE SUPPORT

Funding under this heading in the amended bill includes $99,000,000 to provide administrative support for programs funded in the atomic energy defense activities account.

OFFICE OF HEARINGS AND APPEALS

Funding under this heading in the amended bill includes $4,607,000 for the Office of Hearings and Appeals.

FUNDING ADJUSTMENTS

Funding adjustments include an offset of $3,003,000 for the safeguards and security charge for reimbursable work and the use of $990,000 of prior year balances.

DEFENSE NUCLEAR WASTE DISPOSAL

The amended bill provides $201,000,000 for Defense Nuclear Waste Disposal instead of $292,046,000 as proposed by the House and $242,046,000 as proposed by the Senate.

POWER MARKETING ADMINISTRATIONS

BONNEVILLE POWER ADMINISTRATION FUND

The amended bill provides no new borrowing authority for the Bonneville Power Administration (BPA) during fiscal year 2008.

The Appropriations Committees have opposed the Administration's past proposal regarding BPA net secondary revenues and hope the Administration will not pursue the proposal in fiscal year 2008 or 2009.

OPERATION AND MAINTENANCE, SOUTHEASTERN POWER ADMINISTRATION

The amended bill provides $6,463,000 for the Southeastern Power Administration as proposed by both the House and Senate, including $62,215,000 for purchase power and wheeling and includes $48,413,000 of offsetting collections.

OPERATION AND MAINTENANCE, SOUTHWESTERN POWER ADMINISTRATION

The amended bill provides $30,442,000 for the Southwestern Power Administration as proposed by both the House and Senate, including $45,000,000 for purchase power and wheeling and includes $35,000,000 of offsetting collections.

CONSTRUCTION, REHABILITATION, OPERATION AND MAINTENANCE, WESTERN AREA POWER ADMINISTRATION

The amended bill includes $231,030,000 as proposed by the Senate instead of $201,030,000 as proposed by the House. The amended bill provides for a total program level of $755,911,000 for Western, which includes $62,915,000 for construction and rehabilitation, $53,271,000 for system power operation and maintenance, $475,254,000 for purchase power and wheeling, $157,304,000 for program direction and $7,167,000 for the Utah Mitigation and Conservation Fund.

Offsetting collections total $312,639,000, including the $3,937,000 of offsetting collections from the Colorado River Dam Fund (as authorized in Public Law 98–381).

The Appropriations Committees reject the budget's proposed funding reduction for Construction, Rehabilitation, Operations, and Maintenance. The budget's proposal to rely more heavily on alternative financing for these activities is unrealistic.

Congressional Directed Projects.—The agency should, within available funds, provide $3,000,000 for the Colorado River Transmission Line.

FALCON AND AMISTAD OPERATING AND MAINTENANCE FUND

The amended bill includes $2,500,000 for the Falcon and Amistad Operating and Maintenance Fund as proposed by both the House and Senate.

FEDERAL ENERGY REGULATORY COMMISSION

SALARIES AND EXPENSES

The amended bill includes $260,425,000 for the Federal Energy Regulatory Commission (FERC) instead of $255,425,000 as proposed by both the House and Senate. Revenues for FERC are set at an amount equal to the budget authority, resulting in a net appropriation of $0.

TITLE III—GENERAL PROVISIONS

Language is included under section 301 regarding competition of major Department of Energy contracts.

Language is included under section 302 which prohibits the use of funds in this Act to initiate a request for proposal of expression of interest for new programs which have not yet been presented to Congress in the annual budget submission and which have not yet been approved and funded by Congress.

Language is included under section 303 which prohibits the use of funds for workforce restructuring or enhanced severance payments under the worker and community transition program under section 3161 of Public Law 102–484.

Language is included under section 304 to prohibit the augmentation of severance payments under section 3161 of Public Law 102–484 unless a reprogramming request is submitted to Congress.

Language is included in section 305 which permits the transfer and merger of unexpended balances of prior appropriations with appropriation accounts established in this bill.

Language is included in Section 306 that prohibits the use of funds by the Bonneville Power Administration to enter into energy efficiency contracts outside its service area.

Language is included in Section 307 that establishes certain notice and competition requirements for Department of Energy user facilities.

Language is included in Section 308 specifically authorizing intelligence activities pending enactment of the fiscal year 2008 Intelligence Authorization Act.

Language is included in section 309 regarding laboratory directed research and development activities.

Language is included in section 310 prohibiting the Department of Energy from modifying a ratemaking policy by changing the interest rate on future obligations for the Southeastern, Southwestern, and Western Area Power Administrations.

Language is included in section 311 relating to the Use Permit at Pacific Northwest National Laboratory (PNNL). The Government Accountability Office is directed to conduct an evaluation of the effectiveness of technology transfer across all DOE laboratories and to report to the Committees on Appropriations on the effectiveness of technology transfer and the role the Use Permit at PNNL plays in this issue.

Language is included in section 312 reducing the congressionally directed projects in title III by 1.6 percent and all other discretionary accounts in this title by 0.91 percent.

Campaigns		
Science campaign		
Advanced certification	---	15,000
Primary assessment technologies	63,527	62,874
Test readiness	---	4,949
Dynamic materials properties	98,014	97,006
Advanced radiography	30,995	30,676
Secondary assessment technologies	80,539	79,711
Subtotal, Science campaigns	273,075	290,216
Engineering campaign		
Enhanced surety	24,803	34,445
Weapons system engineering assessment technology	19,891	19,488
Nuclear survivability	8,613	8,722
Enhanced surveillance	80,614	79,785
Microsystem and engineering science applications (MESA), other project costs	7,630	7,552
Construction		
01-D-108 Microsystem and engineering science applications (MESA), SNL, Albuquerque, NM	11,198	11,083
Ion beam laboratory refurbishment, SNL, Albuquerque, NM	---	10,000
Subtotal, MESA	18,828	28,635
Subtotal, Engineering campaign	152,749	171,075
Inertial confinement fusion ignition and high yield campaign:		
Ignition	97,537	103,957
NIF diagnostics, cryogenics and experimental support	67,935	68,721
Pulsed power inertial confinement fusion	10,440	10,333
Joint program in high energy density laboratory plasmas	3,213	3,180
Facility operations and target production	86,083	113,021
Inertial fusion technology	---	29,691
NIF assembly and installation	136,912	135,504
Subtotal	402,120	464,407
Construction		
96-D-111 National ignition facility, LLNL	10,139	10,035
Subtotal, Inertial confinement fusion	412,259	474,442
Advanced simulation and computing	585,738	579,714
Pit manufacturing and certification		
W88 pit manufacturing	155,838	138,560
W88 pit certification	45,999	37,609
Pit manufacturing capability	54,479	39,589
Consolidated plutonium center: other project cost	24,914	---
Subtotal, Pit manufacturing and certification	281,230	215,758
Readiness campaign		
Stockpile readiness	18,924	18,729
High explosives and weapon operations	9,835	9,734
Non-nuclear readiness	25,592	25,329
Advanced design and production technologies	33,587	33,242
Tritium readiness	73,231	72,478
Subtotal, Readiness campaign	161,169	159,512
Total, Campaigns	1,866,220	1,890,717
Readiness in technical base and facilities (RTBF)		
Operations of facilities		
Kansas City Plant	96,353	85,465
Lawrence Livermore National Laboratory	81,044	90,108
Los Alamos National Laboratory	270,582	287,593
Nevada Test Site	66,127	65,447
Pantex	95,012	113,829
Sandia national Laboratory	156,872	155,259
Savannah River Site	87,410	86,511
Y-12 Productions Plant	188,561	226,210
Institutional Site Support	107,344	64,434

TITLE IV

INDEPENDENT AGENCIES

APPALACHIAN REGIONAL COMMISSION

The amended bill provides $73,032,000 for the Appalachian Regional Commission, instead of $35,000,000 as proposed by the House and $75,000,000 as proposed by the Senate. Within the funds provided, $984,000 is for Bluegrass Pride WATER Projects, Kentucky.

DEFENSE NUCLEAR FACILITIES SAFETY BOARD

SALARIES AND EXPENSES

The amended bill provides $21,909,000 instead of $22,499,000 as proposed by the House and the Senate.

DELTA REGIONAL AUTHORITY

SALARIES AND EXPENSES

The amended bill provides $11,685,000 for the Delta Regional Authority (DRA), instead of $6,000,000 as proposed by the House and $12,000,000 as proposed by the Senate. The Appropriations Committees are aware that DRA is unable to comply with section 382M(b) at the current time, but direct DRA to submit a report to the House and Senate Committees on Appropriations and the appropriate authorizing committees outlining how DRA could be in compliance in the future and the impacts compliance would have on managing the program. The amended bill includes legislative language extending the authorization of the Delta Regional Authority.

DENALI COMMISSION

The amended bill provides $21,800,000, instead of $0 as proposed by the House and $31,800,000 as proposed by the Senate.

NUCLEAR REGULATORY COMMISSION

SALARIES AND EXPENSES

The amended bill provides $917,334,000 for the Nuclear Regulatory Commission (NRC) instead of $925,559,000 as proposed by the House and $910,559,000 as proposed by the Senate. The total amount of budget authority is offset by estimated revenues of $771,220,000, resulting in a net appropriation of $146,114,000. Given the almost certain delay in the Department of Energy filing a license application for the Yucca Mountain Repository, the amended bill includes $29,025,000 to be derived from the Nuclear Waste Fund instead of $37,250,000 as requested.

Of the $917,334,000 gross appropriation for fiscal year 2008, $29,025,000 is drawn from the Nuclear Waste Fund, $2,000,000 is drawn from the General Fund of the Treasury to execute NRC's responsibilities to provide oversight of certain Department of Energy activities under Section 3116 of Ronald W. Reagan National Defense Authorization Act for Fiscal Year 2005 (P.L. 108-375), and $29,398,000 is drawn from the General Fund of the Treasury to execute NRC's homeland security responsibilities. Ninety percent of the balance of $856,911,000 (i.e., $771,220,000) is funded by fees collected from NRC licensees, and the remaining 10 percent (i.e., $85,691,000) is funded from the General Fund of the Treasury.

Nuclear Education.—Funding under this heading in the amended bill includes an additional $15,000,000 to support education in nuclear science, engineering, and related trades to develop a workforce capable of the design, construction, operation, and regulation of nuclear facilities and the safe handling of nuclear materials. These funds are to be used for college scholarships and graduate fellowships in nuclear science, engineering, and health physics, and for faculty development grants supporting faculty in these academic areas for the first six years of their careers. Some of these funds are also to be used for scholarships for trade schools in the nuclear-related trades. Notwithstanding the requirements of Section 243 of the Energy Policy Act of 2005, which makes employment at the Commission a condition of receiving educational assistance, the Commission is directed to make generous use of the waiver or suspension provisions available in Section 243(c)(2). The nuclear education supported by this funding is intended to benefit the nuclear sector broadly (i.e., federal agencies, industry, and academia) rather than solely to benefit the Nuclear Regulatory Commission.

Review of the Hanford Waste Treatment Plant.—In cooperation with the Department of Energy, the Nuclear Regulatory Commission is directed to review the regulatory processes of the Department for the Hanford Waste Treatment Plant and report its assessment and recommendations to the Secretary of Energy and the House and Senate Committees on Appropriations within 180 days of enactment.

International Program Activities.—Funding under this heading in the amended bill includes an additional $2,150,000 to support enhancing foreign regulators' programs to increase security over radioactive sources.

Reports.—The Commission is directed to provide biannual reports on the status of its licensing and other regulatory activities electronically.

Office Space.—The amended bill includes provisions to assure the efficient and effective operation of the expanded staff of the Nuclear Regulatory Commission by allowing additional office space to be provided by the General Services Administration as close as reasonably possible to the Commission's headquarters location in Rockville, Maryland.

OFFICE OF INSPECTOR GENERAL

The amended bill provides $8,744,000 for the NRC Office of Inspector General instead of $8,144,000 as proposed by the House, an increase of $600,000 over the budget request. The additional funds will provide the Office of Inspector General with the necessary resources to provide effective oversight of the agency's new licensing activities while fulfilling its statutory responsibilities under the Chief Financial Officers Act of 1990 and the Federal Information Security Management Act of 1992. Revenues received in fiscal year 2008 will offset ninety percent of the sum appropriated resulting in net appropriations for the fiscal year of $874,000.

NUCLEAR WASTE TECHNICAL REVIEW BOARD

SALARIES AND EXPENSES

The amended bill provides $3,621,000 for Nuclear Waste Technical Review Board the same as requested and as proposed by the House and the Senate.

TENNESSEE VALLEY AUTHORITY

OFFICE OF INSPECTOR GENERAL

The amended bill does not include the requested $15,000,000 to establish a congressionally-funded Office of the Inspector General for the Tennessee Valley Authority. The Appropriations Committees support the continuation of the existing arrangement for funding this office.

OFFICE OF THE FEDERAL COORDINATOR FOR ALASKA NATURAL GAS TRANSPORTATION PROJECTS

The amended bill provides $2,261,000 for the Office of the Federal Coordinator for Alaska Natural Gas Transportation Projects instead of $2,322,000 as proposed by both the House and the Senate.

TITLE IV—GENERAL PROVISIONS

The amended bill includes a provision related to the Tennessee Valley Authority.

TITLE V

GENERAL PROVISIONS

Section 501. The amended bill includes a provision that prohibits the use of any funds provided in this bill from being used to influence congressional action.

Section 502. The amended bill includes a provision that addresses transfer authority under this Act.

DISCLOSURE OF EARMARKS AND CONGRESSIONALLY DIRECTED SPENDING ITEMS

Following is a list of congressional earmarks and congressionally directed spending items (as defined in clause 9 of rule XXI of the Rules of the House of Representatives and rule XLIV of the Standing Rules of the Senate, respectively) included in the House amendment or this explanatory statement, along with the name of each Senator, House Member, Delegate, or Resident Commissioner who submitted a request to the Committee of Jurisdiction for each item so identified. Items that did not appear in the House or Senate versions of H.R. 2641 and S. 1751 or the accompanying committee reports are marked with an asterisk. Neither the House amendment nor the explanatory statement contains any limited tax benefits or limited tariff benefits as defined in the applicable House and Senate rules. The amounts in this table do not include the 1.6 percent reduction applied to earmarks and congressionally directed spending.
